Course Descriptions 2013–15

These courses were in effect June 2013 through May 2015. Please navigate this listing using the bookmarks at left.

Note: If viewing this PDF in a web browser, the bookmarks may not be available. Please download the file and view with Adobe Reader.
A A E 1 Cooperative Education/Co-op in Agricultural & Applied Economics Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in A A E 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 215 Introduction to Agricultural and Applied Economics Credits: 3
Introduction to economic ways of thinking about a wide range of problems and issues. Topics include consumption, production, prices, markets, finance, trade, pollution, growth, farms, taxes, and development. Prereq> Math 112 or equiv.
General Education: OR-B  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

A A E 244 The Environment and the Global Economy Credits: 3
The "economic way of thinking" about global and regional environmental issues. Topics include climate change, biodiversity preservation, ocean fisheries, environmental impacts of international trade, poverty and the environment, and sustainability. Prereq> Open to Freshmen
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

A A E 246 Climate Change Economics and Policy Credits: 3
Climate change and the role of applied economics in related policy analysis and research. Economics of mitigation, adaptation and geo-engineering; integrated assessment; environmental implications of energy use; climate change impacts on land use. Use of economic analysis and modeling for public policy design. Prereq> None
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

A A E 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & So or Jr st. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 299 Independent Study Credits: 1 - 3
Prereq> Freshmen, Sophomore or Junior standing & written consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 306 The Real Estate Process Credits: 3
Introductory survey course. Decision-making processes for the manufacture, marketing, management and financing of real estate space. Survey of institutional context, economics of urbanization, historical pattern and structure of city growth, and public policy issues regarding urban environment and business management. Prereq> So, Jr, or Sr st; Econ 101
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

A A E 319 The International Agricultural Economy Credits: 3
The nature of trade in agricultural products, trade policies and practices of importing and exporting nations, agricultural policies of major trading blocks, market instability and other primary commodity problems, recent history and current developments in multilateral trade policy. Prereq> AAE 215 or Econ 101 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall
A A E 320 Farming Systems Management Credits: 3
Methods of economic analysis, planning and management applied to conventional and alternative farming systems. Prereq> AAE 215 or Econ 101
L&S Credit: No degree credit in L&S  Typically Offered: Fall

A A E 321 Marketing Agricultural Products Credits: 3
Principles and practices of agricultural marketing, functions performed by the marketing system; costs and prices; functional and organizational issues relating to group action in agricultural marketing. Prereq> An intro crse in econ
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

A A E 322 Commodity Markets Credits: 3
Principles and practices in marketing systems for U.S. agricultural commodities. Vertical organization; forward contracts, future markets, agricultural options and price formation. Alternate management at the farm, processor, wholesale and retail levels. Prereq> AAE 215 or Econ 101 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

A A E 323 Cooperatives Credits: 3
Cooperatives: Analysis of basic principles, structure and organization, legal bases, finance, history and role in U.S. economy. Different types and uses as tools in the U.S. and developing countries. Prereq> Junior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

A A E 336 Agricultural and Natural Resources Law Credits: 3
A survey of the laws that affect small businesses and individuals involved with agriculture and natural resources. Topics include: an introduction to the legal system and legal research; torts; contracts; real property; taxation; business organizations and probate. Prereq> Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

A A E 340 Issues in Food Systems Credits: 3 - 4
With primary emphasis on the U.S., the course covers social, economic and biological dimensions of food systems. Using classroom and community experience, the course combines academic approaches with practitioner knowledge. A community project is required. Prereq> Junior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

A A E 343 Environmental Economics Credits: 3 - 4
Microeconomic principles underlying the use of natural resources such as air, water, forests, fisheries, minerals and energy. These principles are applied in the examination of pollution control, preservation vs. development, deforestation, and other environmental issues. Prereq> AAE 215, Econ 101 or equivalent, or consent of instructor
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

A A E 350 World Hunger and Malnutrition Credits: 3
Hunger and poverty in developing countries and the United States. Topics include: nutrition and health, population, food production and availability, and income distribution and employment.
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

A A E 373 Globalization, Poverty and Development Credits: 3
Addresses the process of globalization -- trade, international capital flows, labor migration and remittances, and aid -- from the perspective of developing economies and the development process. Prereq> AAE 215, Econ 101 or equivalent, or consent of instructor
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

A A E 374 The Growth and Development of Nations in the Global Economy Credits: 3
This course explores the roles of markets, states, and civil institutions, using economic theory, computer simulations, and historical experience to better understand the forces that shape the wealth and well-being of nations and people around the world. Prereq> Econ 101, or Econ 102, or AAE 215, or equiv
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

A A E 375 Special Topics Credits: 1 - 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
A A E 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> Cons suprvsg inst, advisor, & intrshp progm coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

A A E 400 Study Abroad in Agricultural and Applied Economics Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 419 Agricultural Finance Credits: 3
Introduction to basic finance concepts. Topics include financial statements, ratio analysis and interpretation, investment analysis, capital budgeting, credit concepts, and capital markets. Prereq> AAE 215 or Econ 101 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

A A E 420 Production Economics Credits: 3
Applications of basic theoretical concepts in farm production and aggregate supply analysis using linear programming and simulation techniques. Prereq> Econ 301 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

A A E 421 Economic Decision Analysis Credits: 4
Managerial oriented, applied presentation of microeconomic theory. Quantitative emphasis with extensive homework use of spreadsheets and written executive summaries of applied economic analyses. Applications on natural resources and agricultural markets. Prereq> Econ 301 & Stat 301, or equiv
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

A A E 462 Latin American Economic Development Credits: 3
A historico-institutional analysis of development problems in the principal Latin American countries, with attention to differentiation of national growth patterns and alternative development strategies. Prereq> Econ 102 or 111 and Jr st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

A A E 473 Economic Growth and Development in Southeast Asia Credits: 3
Evaluates economic development strategies in Southeast Asia and their implications for growth, distribution and environment. Students learn trade and development theory as well as specific knowledge of Southeast Asian economic development. Prereq> Two crses in AAE and/or Econ, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

A A E 474 Economic Problems of Developing Areas Credits: 3
Analyzes aggregate growth, income distribution and poverty in lower income economies. Uses microeconomics of imperfect labor, capital and insurance markets to explore why some individuals advance economically as their economies grow and others fall behind. Considers implications of aggregate and micro analysis for national and international economic policy. Prereq> Sr st and two crses in econ
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

A A E 477 Agricultural and Economic Development in Africa Credits: 3
Composition, organization, and techniques of agricultural production; economic change and development of agriculture, economic policies, special problems of developing African agriculture. Prereq> Two crses in AAE and/or Econ, or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Fall

A A E 500 Senior Capstone Experience Credits: 3
Teaches students how to apply economic theory to economic problems, utilize quantitative techniques in economic analyses, and communicate findings and results of economic analyses. Prereq> Sr st; Math 211, AAE 420 & Stat 201, or equivs
L&S Credit: No degree credit in L&S  Typically Offered: Spring

A A E 520 Community Economic Analysis Credits: 3
Economic theory (location and growth) applicable to community economic development; the role of private and public sector in local economic development, and techniques for economic analysis of community. Prereq> Econ 301 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Spring
A A E 526 Quantitative Methods in Agricultural and Applied Economics Credits: 4
Use of quantitative methods (mathematics, statistics, and optimization) to analyze problems faced by decision makers in natural resources and agriculture. Extensive homework requiring use of quantitative methods via spreadsheet tools to solve problems from an applied decision context. Prereq> Math 211, Econ 301, Stat 301, or equiv
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

A A E 531 Natural Resource Economics Credits: 3
Economic concepts and tools relating to management and use of natural resources, including pricing principles, cost-benefit analysis, equity, externalities, economic rent, renewable and nonrenewable resources, and resource policy issues. Prereq> Econ 301 and Math 211, or equiv
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

A A E 540 Intellectual Property Rights, Innovation and Technology Credits: 3
Uses economic concepts to illustrate the nature of technological innovation, competition, and economic growth. Topics: economics of the intellectual property protection (IPP); market structure and innovation; interaction between public and private sectors; IPP and anticompetitive policies; globalization. Prereq> Econ 301 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Every Other Spring

A A E 557 Economics of Growth and Class Structure in Low Income Countries Credits: 3
Analyzes the relationship between growth and the changes in land access, employment, and class and intrahousehold structures which shape growth's welfare effects in contemporary low income economies. Methodologically explores the interface between neoclassical economics and marxian analysis. Prereq> AAE/Econ 474 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

A A E 635 Applied Microeconomic Theory Credits: 3
Microeconomic theory applied to consumers, producers, markets, and welfare analysis. Emphasis is on the mathematics of duality and optimization methods. Computer applications of the theory. Prereq> Two semesters of calc & Econ 301, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

A A E 636 Applied Econometric Analysis I Credits: 3
Introduction to the standard linear regression model with an emphasis on application issues. Includes statistical foundation, hypothesis testing, functional form, model selection and procedures for handling violations of model assumption.. Prereq> Intermed stats or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

A A E 637 Applied Econometric Analysis II Credits: 3
Extension of the standard regression model is the primary focus. Topics: nonlinear regression models, maximum likelihood estimation, panel data, simultaneous equations, linear and nonlinear systems, analysis of discrete choice, limited dependent variables. Empirical economic applications and policy analysis. Prereq> AAE 636 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring
A A E 641 Foundations of Agricultural Economics Credits: 3
Overview of the economic performance of agriculture in feeding the growing world population. Examines contemporary economic issues in the food sector, along with research methods used in their analysis. Covers production analysis, risk and uncertainty, food demand, market structure, policy and welfare analysis. Prereq> AAE 635 and 636, or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

A A E 642 Foundations of Development Economics Credits: 3
An overview of development economics, covering both basic theory and empirical applications. Topics include economic growth, trade, measurement of poverty and inequality, human capital, agricultural household models, technology adoption, migration, credit, savings, insurance, infrastructure, and the environment. Prereq> AAE 635 and 636, or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

A A E 643 Foundations of Environmental and Natural Resource Economics Credits: 3
Survey of historical topics and contemporary research questions in environmental and resource economics. Focus areas include foundational models of human/environment interaction, definition and evaluation of the suite of environmental policy instruments, measuring environmental costs and benefits, and examining natural resource use. Prereq> AAE 635 and 636, or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

A A E 652 Decision Methods for Natural Resource Managers Credits: 3 - 4
Applications of quantitative methods, including optimization and simulation, to the management of natural resources, especially forests. Prereq> Math 211 or equiv & Comp Sci 132 or equiv
General Education: QR-B  L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

A A E 671 Energy Economics Credits: 3
The method, application, and limitations of traditional economic approaches to the study of energy problems. Topics include microeconomic foundations of energy demand and supply; optimal pricing and allocation of energy resources; energy market structure, conduct, and performance; macro linkages of energy and the economy; and the economics of regulatory and other public policy approaches to the social control of energy. Prereq> Sr or Grad st and intermed econ or appropriate substitute per cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

A A E 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & AAE 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 691 Senior Thesis Credits: 2
Prereq> Sr st and cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 692 Senior Thesis Credits: 2
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

A A E 699 Special Problems Credits: 1 - 4
Prereq> Sr st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

A A E 705 Applied Microeconomics Credits: 3
Focuses on developing a conceptual as well as empirical analysis of microeconomic behavior, including production and consumption analysis, technical change, and investment. Emphasizes empirical applications of microeconomics, with implications for efficiency and welfare analysis. Prereq> AAE 635 & Stat 309 or equiv
Typically Offered: Occasionally
A A E 706 Applied Risk Analysis  Credits: 3  
Conceptual empirical analysis of economic behavior under risk and its implications for management and policy decisions. Emphasis on economic applications to the agricultural and food sector. Prereq: AAE 635  
Typically Offered: Occasionally

A A E 707 Institutional Economics  Credits: 3  
Comparative analysis of neoclassical and institutional economics, with emphasis on economic epistemology, agency theory, transaction costs, firms and markets, property rights, externalities, welfare economics, efficiency, and rules of social choice. Prereq: AAE 635 or equiv  
Typically Offered: Not Applicable

A A E 729 The Microdynamics of Environment and Development  Credits: 3  
Explores the intersection of environmental and development economics using advanced theoretical and empirical models to examine rural conservation and development, technology adoption and diffusion, and the dynamics of investment behavior in the presence of imperfect capital markets. Prereq: AAE 635 required, Econ 711 recommended  
Typically Offered: Not Applicable

A A E 730 Frontiers in Development Economics 1  Credits: 3  
Theory and empirical evidence on growth and development in low-income countries. Topics may include: measurement of poverty and inequality, risk and insurance, social networks, technology adoption, education, corruption, institutions, and behavioral economics. Prereq: Economics 709 and 711 or equivalent  
Typically Offered: Spring

A A E 731 Frontiers in Development Economics 2  Credits: 3  
Theory and evidence on growth and development in emerging economies, with primary focus on globalization, trade, labor markets and human capital. We use open-economy general equilibrium models to examine welfare implications of global shocks and domestic economic policies. Prereq: Economics 709 and 711 or equivalent  
Typically Offered: Fall

A A E 732 Economics of Development 3  Credits: 3  
Theory and empirical evidence on growth and development in low-income countries. Course will emphasize microeconomics topics, including household and intra-household models, asset accumulation, risk and asymmetric information. Prereq: Grad st in AAE or econ or cons inst  
Typically Offered: Not Applicable

A A E 741 Advanced Policy Analysis  Credits: 3  
Economic efficiency and welfare at the micro and macro levels. Role of contracts and effects of policy instruments related to pricing and trade policy, under uncertainty. Role of technology and effects of globalization in developed and developing countries. Prereq: Econ 711 or cons inst  
Typically Offered: Occasionally

A A E 743 Applied Consumption Analysis  Credits: 3  
Consumption theory as an analytical/conceptual framework for applied research. Specification, estimation and interpretation of models of consumer behavior which are consistent with complete demand systems will be stressed in class lectures and extensive computer applications. Prereq: AAE 631, AAE 635, or cons inst  
Typically Offered: Occasionally

A A E 746 Frontiers in Agricultural Economics 1  Credits: 3  
Economics of agricultural technology innovation and adoption, properties and measurement of production and productivity, and impact evaluation. Empirical methods, including surveys, experiments, randomized trials, and instrumental variable methods of testing applied microeconomic models. Prereq: Econ 709 and 711, or equivalent  
Typically Offered: Fall

A A E 747 Frontiers in Agricultural Economics 2  Credits: 3  
Organization, design, and performance of food and agricultural markets. Industrial organization; firm boundaries, contracting, and collective action; spatial, temporal, and quality dimensions of market design. Prereq: Economics 709 and 711, or equivalent  
Typically Offered: Spring
A A E 760 Frontiers in Environmental and Natural Resource Economics 1 Credits: 3
Economic tools and principles pertaining to the optimal management of natural resources. Theoretical models characterize efficient resource use and predict management decisions under different institutional settings. Empirical applications relate to public and private management of forests, fish, wildlife, minerals, and energy resources. Examples highlight the importance of discount rates, property rights, and government policies.
Prereq> Economics 709 and 711 or equivalent
Typically Offered: Spring

A A E 761 Valuation of Environmental Resources Credits: 3
Theoretical underpinnings of environmental valuation and issues pertinent to applications to public decisions. Topics: basic concepts of welfare measurement; issues in benefit-cost analysis; and methods of nonmarket valuation, including contingent valuation, the travel cost method, and hedonic valuation. Prereq> AAE 635 or equiv
Typically Offered: Occasionally

A A E 762 Frontiers in Environmental and Natural Resource Economics 2 Credits: 3
The role of markets and government in the allocation of environmental goods and services. Topics include public goods, externalities and market failure; policy instruments for dealing with environmental quality problems such as air pollution; and distributional impacts of environmental regulations. Prereq> Econ 709 and 711, or equivalent
Typically Offered: Fall

A A E 763 Spatial Modeling in Resource Economics Credits: 3
Explores the spatial aspects of environmental and natural resource problems. Focus on theoretical and empirical approaches to spatial modeling, with topics including renewable resource management, land use, biodiversity conservation, non-market valuation, sorting, and pollution control. Prereq> Grad st in AAE or econ, or cons inst
Typically Offered: Occasionally

A A E 770 Introduction to Quantitative Methods in Resource and Energy Economics Credits: 3
The fundamental mathematics and statistics necessary for the study of quantitative methods in resource and energy demand. Topics include the mathematics of optimization and its role in basic welfare theory and consumer demand; linear and matrix algebra and their application in both modeling consumer behavior and the statistical analysis of models; and the fundamentals of statistical analysis relevant to econometric analysis of resource and energy demand, including probability theory, sampling distributions, and statistical inference. Prereq> Enrollment in the Resource and Energy Demand Analysis Master's program, or Special Student status and consent of instructor
Typically Offered: Summer

A A E 771 Theory to Practice: Fundamentals of Resource and Energy Demand Analysis Credits: 4
Applying economic theory to the practice of resource and energy demand analysis. Topics include consumer demand theory and the proper modeling of demand systems, theoretical underpinnings of behavioral economics, welfare theory, cost benefit analysis and cost-effectiveness analysis, and technology adoption and diffusion. Prereq> Enrollment in the Resource and Energy Demand Analysis Master's program
Typically Offered: Fall

A A E 780 Research Colloquium Credits: 3
For AAE Ph.D. students to develop a dissertation proposal. Working in groups and with some additional feedback from individual advisors. Developing research questions, literature search, word models, math models, testable hypotheses, identification strategies. Working with data, using LATEX, giving presentations. Peer review of weekly assignments. Developing cohort for subsequent feedback through dissertation writing and job search. Prereq> Consent of instructor
Typically Offered: Spring

A A E 799 Practicum in Agricultural and Applied Economics Teaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Fall, Spring

A A E 815 Optimization Methods Credits: 3
Applications of static and dynamic optimization methods to the analysis of resource allocation in agriculture. Topics: the basic optimization tools with computer applications to agricultural management and policy decisions. Prereq> Econ 703
Typically Offered: Not Applicable
A A E 835 Game Theory and Political Analysis Credits: 3
An introduction to the tools of game theoretic analysis, with reference to the use of game theory in political science. Intended for those desiring a basic familiarity with the theory, and for those planning further work in formal modeling. Prereq> Grad st
Typically Offered: Spring

A A E 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Fall, Spring

A A E 881 Benefit-Cost Analysis Credits: 3
This course will present the welfare economics underpinnings for evaluating the social benefits and costs of government activities. Issues such as uncertainty, the social discount rate, and welfare weights will be discussed; case studies from the environmental, social policy, and agricultural areas will be studied. Prereq> Grad st, Pub Affr 818 & 880 or Pop Hlth 875 & at least one crse in econ or cons inst
Typically Offered: Fall

A A E 982 Interdepartmental Seminar in the Latin-American Area Credits: 1 - 3
Prereq> Grad st & cons inst
Typically Offered: Occasionally

A A E 990 Research and Thesis Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

A A E 999 Special Work - Agricultural and Applied Economics Credits: 1 - 3
Typically Offered: Fall, Spring, Summer

AGROECOLOGY

AGROECOL 371 Managed Grazing Field Study Credits: 1 - 2
This is a course for students who are interested in developing a comprehensive understanding of the principles, practices, and conservation potential of managed grazing systems, and how these farming systems may contribute to the sustainability and diverse tapestry of Wisconsin's working landscape. Students will visit managed grazing systems of successful grazing-based farmers (graziers) across southern/central counties in Wisconsin, and/or research sites at UW's Arlington and/or Lancaster Research Stations and/or the Discovery Farms Program. Students will have the opportunity to discuss at length with farm managers and researchers the practices in place at each farm and research site. Read
Typically Offered: Fall

AGROECOL 400 Study Abroad in Agroecology Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AGROECOL 699 Special Problems Credits: 1 - 3
Scholarship on special topics, under the supervision of an agroecology faculty member. Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AGROECOL 701 The Farm as Socio-Environmental Endeavor Credits: 3
Farms may be analyzed as intentional entities shaped by the contexts in which they must operate. This course explores how these biophysical and social contexts both exert constraints and provide opportunities, leading to the diversity of farms observed. Prereq> Cons inst
Typically Offered: Fall

AGROECOL 702 The Multifunctionality of Agriculture Credits: 3
Agroecology systems provide a variety of social, economic, and ecological functions to society, each with a different network of stakeholders. This course explores methods of evaluating these diverse functions and perspectives, with a special focus on participatory approaches. Prereq> Cons inst
Typically Offered: Spring
AGROECOL 710 Agroecology Seminar Credits: 1
Weekly seminar on topics in agroecology. Prereq> Cons inst
Typically Offered: Occasionally

AGROECOL 720 Agroecology Field Study Credits: 1 - 3
Field study of farms, processing, marketing, distribution, and policy-making in the food system. Courses will be several days of visits, discussions with the operators, and student-faculty discussion sections. Presentations or written reports may be required. Prereq> Cons inst
Typically Offered: Occasionally

AGROECOL 724 Agroecosystems and Global Change Credits: 3
Impacts of global change drivers (climate change, atmospheric chemistry, bioenergy, urbanization, policy) on agroecosystems and their associated goods and services; environmental impacts of agricultural land use and feedbacks to climate; modeling approaches; critical review of current scientific literature. Prereq> Grad st; coursework in either college-level biology or ecology; 1 sem college-level chemistry or physics; or cons inst
Typically Offered: Occasionally

AGROECOL 875 Topics in Agroecology Credits: 1 - 3
This course number provides for opportunities to develop and test possible new courses, or to accommodate visiting scholars who may wish to offer a course. Prereq> Cons inst
Typically Offered: Occasionally

AGROECOL 990 Research Credits: 1 - 12
Independent research on the student's thesis or degree project. Prereq> Cons inst
Typically Offered: Occasionally

AGRONOMY 1 Cooperative Education/Co-op in Agronomy Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Agronomy 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AGRONOMY 100 Principles and Practices in Crop Production Credits: 4
Plant science applied to the growth, production, management, distribution and utilization of field crops. Prereq> Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AGRONOMY 203 Introduction to Global Health Credits: 3
Introduces students to global health concepts through multidisciplinary speakers dedicated to improving health through their unique training. It targets students with an interest in public health and those who wish to learn how their field impacts their global issues. Prereq> None
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AGRONOMY 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Program & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AGRONOMY 299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen or Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AGRONOMY 300 Cropping Systems Credits: 3
Agronomic cropping systems of the Midwest: environmental impacts, productivity, and profitability. Cropping system diversification and sustainable agriculture. An agroecological approach, the application of ecological concepts and principles for the improvement of cropping systems is emphasized. Prereq> Agronomy 100 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
AGRONOMY 302 Forage Management and Utilization  Credits: 3
Establishment, management, harvesting and utilization of forage crops for use as hay, pasture and silage. Emphasis on cool season perennial grasses and legumes. Prereq> Jr st & Agron 100 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AGRONOMY 304 Grain Crops  Credits: 3
Production, distribution, and culture of corn, soybeans, and small grains. Prereq> Jr st & Agronomy 100
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AGRONOMY 316 Weed Identification  Credits: 1
Lab. Identification of 125 or more common weeds and of noxious weed seeds. Numerous field trips. A collection of weeds required of each student. Prereq> Agron 100 or an intro crse in botany
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AGRONOMY 318 Crop Plant and Seed Identification  Credits: 1
Seed identification, inflorescence characteristics, and taxonomic relationships among over 60 cultivated crops. Field trips to a seed conditioning plant and to the State Seed Lab. Seed collection required. Prereq> Agron 100 or an intro crse in botany
L&S Credit: No degree credit in L&S  Typically Offered: Fall

AGRONOMY 326 Plant Nutrition Management  Credits: 3
Functions, requirements and uptake of essential plant nutrients; chemical and microbial processes affecting nutrient availability; diagnosis of plant and soil nutrient status; fertilizers and efficient fertilizer use in different tillage systems. Prereq> Soil Sci 230 or 301 and one of the following: Bot 100 or 130; Hort 120 or 122; Agron 100
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AGRONOMY 328 Integrated Weed Management  Credits: 4
Prevalence and persistence of weeds, evaluation of competitive and allelopathic effects, methods and principles of control including proper identification of common weed species. Prereq> Agron 100 or intro crse in botany or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

AGRONOMY 334 Nutrient Management: Agronomic Crops  Credits: 1
Nutrient requirements of major agronomic crops; nutrient sources; nutrition management for agronomic crops from yield, quality, economic and environmental perspectives. Prereq> Soil Sci/Hort/Agron 326
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Fall

AGRONOMY 338 Plant Breeding and Biotechnology  Credits: 3
Principles of transferring plant genes by sexual, somatic, and molecular methods and the application of gene transfer in plant breeding and genetic engineering to improve crop plants. Prereq> Botany 130 or Genetics 160 or Biocore 301 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AGRONOMY 339 Plant Biotechnology: Principles and Techniques I  Credits: 4
Theoretical and practical training in plant biotechnology including molecular biology, protein biochemistry and basic bioinformatic techniques used in fundamental and applied research on plants. Valuable hands-on training to those interested in careers in biotechnology. Prereq> Bot/Zoo 152 or equiv & Chem 104 or equiv
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AGRONOMY 340 Plant Cell Culture and Genetic Engineering  Credits: 4
Theoretical and practical training in plant cell and tissue culture, and plant genetic engineering. Includes overview of current techniques, biosafety and regulatory requirements, and experimental design and analysis used in fundamental and applied research on plants. Valuable hands-on training to those interested in careers in biotechnology. Prereq> Botany 130 or Botany/Zoology/Biology 152 or Zoology 102,and Chemistry 104, 109, or 116
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AGRONOMY 350 World Hunger and Malnutrition  Credits: 3
Hunger and poverty in developing countries and the United States. Topics include: nutrition and health, population, food production and availability, and income distribution and employment.
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
AGRONOMY 354 Diagnosing and Monitoring Pest and Nutrient Status of Field Crops Credits: 1
This course is designed to provide students with information necessary to diagnosis and monitor corn, soybean, alfalfa and wheat for pests (insects, weeds, diseases) and nutrient deficiency symptoms including perspectives from Agronomy, Entomology, Horticulture, Plant Pathology and Soil Science. Proper soil and pest sampling information will be provided as will proper crop staging techniques which are essential for pest and nutrient management. Prereq> None
Typically Offered: Spring

AGRONOMY 370 Grassland Ecology Credits: 3
Understand factors driving global, continental, regional, and local distribution of grasslands. Discuss how management affects provision of grassland ecosystem goods and services. Compare and contrast plant community and ecosystem dynamics in native prairie and intensively managed pastures. Prereq> Intro crse in Agronomy, Botany, or Soil Sci; or Bot/Zoo/Biol 151-152; or Biocore 301 or 333
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AGRONOMY 371 Managed Grazing Field Study Credits: 1 - 2
This is a course for students who are interested in developing a comprehensive understanding of the principles, practices, and conservation potential of managed grazing systems, and how these farming systems may contribute to the sustainability and diverse tapestry of Wisconsin's working landscape. Students will visit managed grazing systems of successful grazing-based farmers (grazers) across southern/central counties in Wisconsin, and/or research sites at UW's Arlington and/or Lancaster Research Stations and/or the Discovery Farms Program. Students will have the opportunity to discuss at length with farm managers and researchers the practices in place at each farm and research site. Read
Typically Offered: Fall

AGRONOMY 375 Special Topics Credits: 1 - 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AGRONOMY 377 Cropping Systems of the Tropics Credits: 3
Crops and cropping systems of the tropics. The environmental requirements of the major crops, their botany, and how they fit into local farming systems will be emphasized. For students with broad interests in tropical agriculture and food production. Prereq> Intro crse in botany or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AGRONOMY 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> Cons suprsvg inst, advisor, & intrshp progm coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AGRONOMY 400 Study Abroad in Agronomy Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AGRONOMY 500 Senior Capstone Experience Credits: 2
A stepping stone between the classroom and society. Emphasizes discussion and activities for enhancing integration of diverse bodies of knowledge, critical thinking, and effective written and oral communication.
Prereq> Sr st; Agronomy 399, 699, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AGRONOMY 501 Principles of Plant Breeding Credits: 3
Principles involved in breeding and maintaining economic crops; factors affecting the choice of breeding methods; alternative approaches through hybridization and selection. Prereq> Intro crse in genetics, 1 yr biol
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AGRONOMY 502 Techniques of Plant Breeding Credits: 1
Lab and field techniques used in breeding and maintaining economic crops. Prereq> An intro crse in genetics & 1 yr of biology
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
AGRONOMY 520 Principles of Herbicide Action and Metabolism Credits: 3
Physiological and biochemical aspects of herbicide interactions with plants; absorption, translocation, mechanism of action, and metabolism of herbicides. Prereq> Jr st, Agron 320, and a crse in organic chem or biochem or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

AGRONOMY 532 Environmental Biophysics Credits: 3
Plant-environment interactions with particular reference to energy exchanges and water relations. Models are used to provide a quantitative synthesis of information from plant physiology, soil physics, and micrometeorology with some consideration of plant-pest interactions. Prereq> Intro calc, Physics 103, Botany 130 & comp programing; or cons inst
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

AGRONOMY 555 Plant Functional Genomics and Bioinformatics Credits: 2 - 3
A survey of the underlying technologies of genomic research with a special emphasis on their applications in plant science. Provides students with a deeper understanding of the many pub res and databases being generated by large-scale genomics projects. Prereq> Grad st; undergrads with Genetics 466 or equiv or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

AGRONOMY 565 The Ethics of Modern Biotechnology Credits: 3 - 4
Study of ethical issues arising from the application of modern biotechnology to microorganisms, crops, and non-human animals. Readings cover moral theory, technology studies, political philosophy, the science used in biotechnology, and current regulations governing its use. Prereq> Jr st & cons inst
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

AGRONOMY 630 Ecotoxicology: Toxicant Effects on Ecosystems Credits: 3
Study of how toxicants mediate interactions between organisms and their biotic and abiotic environments. Addresses biochemical and physiological mechanisms of toxicity; defenses against toxicants; population, community, ecosystems and evolutionary ecotoxicology; socio-economic impact and current research. Prereq> Two semesters intro biology & one semester organic chem or cons inst
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

AGRONOMY 632 Ecotoxicology: The Chemical Players Credits: 1
Introduction to natural and man-made toxins/toxicants, their distribution, transport, and fate in the environment. Includes lectures, current research presentations, and discussions. Prereq> 2 sem intro biol & 1 sem organic chem, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

AGRONOMY 633 Ecotoxicology: Impacts on Individuals Credits: 1
Addresses absorption, biotransformation, elimination of toxins in a wide variety of taxa (plants, invertebrates, vertebrates), and includes lectures, current research presentations, and discussions. Prereq> M&EnvTox 632, or 2 sem intro biol & M&Envtox 631, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

AGRONOMY 634 Ecotoxicology: Impacts on Populations, Communities and Ecosystems Credits: 1
Focuses on the impact of toxicants on populations, communities, ecosystems, and includes risk evaluation. Includes lectures, current research presentations, and discussions. Prereq> M&EnvTox 633, or M&EnvTox 625, 626 & 631, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

AGRONOMY 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Hon prog candidacy
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

AGRONOMY 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Agronomy 681
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

AGRONOMY 699 Special Problems Credits: 1 - 4
Offered at Madison and the branch experiment stations. Prereq> Sr st & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer
AGRONOMY 724 Agroecosystems and Global Change Credits: 3
Impacts of global change drivers (climate change, atmospheric chemistry, bioenergy, urbanization, policy) on agroecosystems and their associated goods and services; environmental impacts of agricultural land use and feedbacks to climate; modeling approaches; critical review of current scientific literature. Prereq> Grad st; coursework in either college-level biology or ecology; 1 sem college-level chemistry or physics; or cons inst
Typically Offered: Occasionally

AGRONOMY 771 Experimental Designs Credits: 1
Review of methods for controlling error in research experiments; review and in-depth development of factorial treatment designs; theory, analysis, and examples of advanced experimental designs for plant and animal research. Prereq> Stat 571
Typically Offered: Occasionally

AGRONOMY 772 Applications in ANOVA Credits: 1
Development of models, programs, inferences, and interpretations of analysis of variance in biological research; mixed vs. random effects models and their development; choosing the correct inference range; variance and covariance analyses; repeated measures; dealing with missing data; SAS programming. Prereq> Stat 571
Typically Offered: Occasionally

AGRONOMY 799 Practicum in Agronomy Teaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Occasionally

AGRONOMY 811 Biometrical Procedures in Plant Breeding Credits: 3
Use of statistical methods to facilitate improvements in quantitative traits of cultivated plants. Prereq> Intro crses in genetics & stat
Typically Offered: Fall

AGRONOMY 812 Selection Theory for Quantitative Traits in Plants Credits: 3
Develop and evaluate mathematical theories for population improvement. Review recurrent selection strategies and examine resource allocation for plant breeding programs. Prereq> Agronomy 770 or equiv, Agronomy, Hort 811, or cons inst
Typically Offered: Occasionally

AGRONOMY 850 Advanced Plant Breeding Credits: 3
Concepts in improvement of major crop species. Historically important breeding methods and new approaches. Lectures and discussion. Prereq> Agron/Hort 338 or 501 or cons inst
Typically Offered: Occasionally

AGRONOMY 861 Chromosome Manipulation in Plants Credits: 2
Chromosome engineering as related to fundamental problems in plant genetics and as applied to plant breeding. Prereq> Genetics 466 or equiv; Genetics 561 or equiv; a course in plant breeding & cons inst
Typically Offered: Occasionally

AGRONOMY 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

AGRONOMY 920 Seminar Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

AGRONOMY 953 Introduction to Ecology Research at UW-Madison Credits: 1 - 2
This seminar course will introduce new graduate students to the diversity of ecologists across the UW-Madison campus. Course meetings will include discussions of key topics in professional development, research presentations by faculty members, and discussions of assigned papers with senior graduate students. Prereq> None
Typically Offered: Fall
AGRONOMY 957 Seminar-Plant Breeding Credits: 1
Prereq> Grad st
Typically Offered: Fall, Spring

AGRONOMY 990 Research Credits: 1 - 9
Prereq> Grad st & cons inst
Typically Offered: Occasionally

ANIMAL SCIENCES

AN SCI 1 Cooperative Education/Co-op in Animal Sciences Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to
provide students with a background upon which to base a professional career. Students receive credit only for the
term in which they are actively enrolled and working. The same work experience may not count towards credit in
An Sci 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AN SCI 101 Introduction to Animal Sciences Credits: 4
Anatomy physiology, nutrition, genetics, reproduction, marketing, meats and management of dairy and beef
cattle, swine, sheep, poultry and horses; lectures, laboratories and discussion. Field trips. Prereq> Open to
Freshmen
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AN SCI 110 Animal Handling Credits: 1
Hands-on course that gives students an understanding of livestock handling techniques, proper restraint,
administering injections, and drawing blood samples. Students also learn about animal response to human
presence and the effect of facility design on animal behavior. Prereq> An Sci/Dy Sci 101
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 150 Career Orientation Animal/Poultry Sciences Credits: 1
An introduction to resume preparation, student employment, internships, and graduate and professional school
programs with presentations by numerous graduates who discuss their career path following a B.S. degree in
Animal Science or Poultry Science. Prereq> An Sci/Dy Sci 101. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 200 The Biology and Appreciation of Companion Animals Credits: 3
A systematic coverage of many of the animals (including birds) that humans keep as their social companions. The
classification, nutritional requirements, environmental considerations, reproductive habits, health, legal aspects
and economics of companion animals and their supportive organizations. Prereq> Crse in zoo or equiv or cons
inst. Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AN SCI 220 Growth, Composition and Evaluation of Meat Animals Credits: 4
Principles and application of objective and subjective techniques for identifying quantitative and qualitative traits
associated with breeding animals, market animals and meat. Statistics, growth, anatomy, genetics. Field trips to
livestock farms and meat processing plants. Prereq> An Sci/Dy Sci 101 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

AN SCI 221 Advanced Meat Animal Evaluation Lab Credits: 2
Review and practical application of subjects covered in Animal Sciences 220. Field trips to livestock farms, meat
processing plants and to the National Meat Animal Evaluation Contest. Prereq> An Sci 220 & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 250 Horse Science and Management Credits: 3
General principles. Emphasis on anatomy and physiology, management, behavior, reproduction, health, and
nutrition. Lab period offers hands-on learning opportunities and short field trips. Mandatory field trip on a weekend
day. Prereq> An Sci/Dy Sci 101 or cons inst. Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AN SCI 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Program & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
AN SCI 299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AN SCI 305 Introduction to Meat Science and Technology Credits: 4
Application of biological, technological, and economical principles to muscle and related tissue utilized for food.
Prereq> Zool 101 & 102, or Zool 151 & 152 (recommended); Chem 103
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 311 Comparative Animal Nutrition Credits: 3
Nutrients and their source, assimilation, function and requirement. Prereq> BmolChem 314 or Chem 341 or
Chem 343 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AN SCI 313 Animal Feeds and Diet Formulation Credits: 1
Designed as a companion course for Dairy Science 311 (comparative animal nutrition) with emphasis on
quantitative and practical aspects of animal feeds and diet formulation. Prereq> Math 112, Dy Sci/An Sci 101, or
cons inst; con reg in Dy Sci/An Sci/Nutr Sci 311 recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AN SCI 314 Poultry Nutrition Credits: 3
Provides a conceptual understanding of nutrient requirements for optimal growth and production of commercial
poultry species. The use of computer programming for feed formulation is emphasized. Field trips are planned.
Prereq> An Sci/Dy Sci 101 or Poul Sci 101
L&S Credit: No degree credit in L&S  Typically Offered: Summer

AN SCI 315 Poultry Enterprise Management Credits: 3
Fundamental business and economic principles and practices for successful poultry production with emphasis on
problem solving in flock management. Software application core programs will be Microsoft Office for Windows
suite. Prereq> An Sci/Dy Sci 101 or Poul Sci 101, Ag Econ 215 or Econ 101 or equivalent. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Summer

AN SCI 320 Animal Health and Disease Management Credits: 3
Principal causes and identification of animal diseases, common diseases of farm animals, zoonoses and public
health, disease prevention and management including biosecurity measures and host immune responses.
Prereq> Zoology 101/102, Biology 152, Biocore or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 321 Food Laws and Regulations Credits: 1
Food laws and regulations, regulatory and commerical grading standards used in the food industry. Prereq> Jr st
or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 361 Introduction to Animal and Veterinary Genetics Credits: 2
The molecular basis for inheritance of monogenic and polygenic traits related to animal disease and production.
An introduction to the principles of improving animal health and performance by selection and mating systems in
companion animals, horses, livestock, and poultry. Prereq> Genetics 160 or 466 or con reg & course in statistics
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 362 Veterinary Genetics Credits: 2
The genetic basis for predisposition to disease or resistance to disease in livestock and companion animal
species. Genetic defects, their discovery, diagnosis and treatment. Prereq> Dy Sci/An Sci 361; or Genetics 160
or 466 & Zool/Bot 152
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 363 Principles of Animal Breeding Credits: 2
Application of the principles of quantitative genetics to the improvement of livestock and poultry; breeding value
estimation and selection techniques; effects of inbreeding and hybrid vigor; crossbreeding systems. Prereq> Dy
Sci/An Sci 361
L&S Credit: No degree credit in L&S  Typically Offered: Spring
AN SCI 370 Livestock Production and Health in Agricultural Development Credits: 3
Physical, biological and social nature of animal agriculture systems and their improvement in developing
countries; analysis of the state of livestock research and development in the developing countries and the world
role of U.S. animal agriculture. Prereq> An Sci/Dy Sci 101 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

AN SCI 373 Animal Physiology Credits: 3
Students will develop an understanding of physiological processes that regulate the body, learn the anatomy and
function of different physiological systems, describe interactions between organ systems, study regulation of an
organ system from the molecular to whole animal level, and identify differences between species in the same
systems. Prereq> Biology/Zoology 101 or Biology/Zoology/Botany 151 and Biology/Zoology/Botany 152
Typically Offered: Spring

AN SCI 375 Special Topics Credits: 1 - 4
Prereq> Cons inst
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AN SCI 379 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So or Jr or Sr st & cons of supervising inst, advisor, and internship program coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AN SCI 400 Study Abroad in Animal Sciences Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to
existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AN SCI 405 Livestock and Meat Distribution Credits: 3
Movement of livestock and meat products through all marketing channels from producer to consumer.
Transportation, merchandising, pricing, legal procedures, world trade, and new innovations. A special problem
and field trips. Prereq> Cons inst prior to October 1
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 414 Ruminant Nutrition Credits: 2
Integrates basic nutrition concepts and ration balancing skills by teaching students to balance and trouble shoot
rations for various domesticated ruminants. Prereq> An Sci/Dy Sci 311 & 313
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AN SCI 415 Application of Monogastric Nutrition Principles Credits: 2
Nutrient requirements for growth and production of monogastric animals. Discuss concepts of establishing
nutrient requirements and feeding strategies. Laboratory exercises are designed to develop problem solving skills
required for the assessment of nutritional adequacy and economical soundness of feeding programs. Prereq> An Sci/Dy Sci 311 & 313
Typically Offered: Spring

AN SCI 430 Sheep Production Credits: 3
Application of recent research in breeding, feeding, health, and management to develop an efficient sheep
recommended
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 431 Beef Cattle Production Credits: 3
Application of genetics, systems of mating, physiology, nutrition and economics to the production of beef.
L&S Credit: No degree credit in L&S  Typically Offered: Fall

AN SCI 432 Swine Production Credits: 3
Application of research findings in breeding, feeding, management and marketing to modernize production. Lab:
L&S Credit: No degree credit in L&S  Typically Offered: Spring
AN SCI 434 Reproductive Physiology Credits: 3
Principles of reproductive physiology, improvement of fertility, and artificial insemination. Prereq> Jr st, An
Sci/Dy Sci 101, or Zool 101 & 102; Zool 151 & 152 recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AN SCI 435 Animal Sciences Proseminar Credits: 2
Methods of assessing information quality are studied. Each student develops an analytical and critical seminar on
a topic of personal interest in the animal sciences. Prereq> Sr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

AN SCI 444 Laboratory Techniques in Mammalian Gamete and Embryo Biology Credits: 3
This course is designed as an immersion experience based on the gradual release methodology of information
delivery. Students are engaged in active/process learning whereby the principles and themes presented in the
lecture portion of the course are immediately put into practice in the laboratory component of the course.
Expected learning outcomes and learning objectives are therefore integrated into each lecture and laboratory.
Each subsequent learning objective builds upon the knowledge acquired from the previous learning objective thus
developing a scaffold or framework from which to proceed. This course will present students with challenges from
cognitive and affective domains as they pr
Typically Offered: Summer

AN SCI 468 Managing the Environmental Impacts of Livestock Operations Credits: 2
Introduces nonpoint pollution policies and regulations and environmental losses impacting air and water quality.
Discuss management practices that influence the cycling and balance of nitrogen and phosphorus across a farm
and its components (livestock, crop and soil). Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

AN SCI 503 Avian Physiology Credits: 3
Principles of organ and system function with emphasis on male and female reproduction, embryonic development
and factors affecting hatchability. Prereq> An Sci/Dy Sci 101 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Summer

AN SCI 508 Poultry Products Technology Credits: 3
Procurement, processing and distribution of poultry meat, eggs and derived products; factors affecting quality,
including methods of determining quality. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Summer

AN SCI 511 Breeder Flock and Hatchery Management Credits: 3
History of artificial incubation relevant to the U.S. hatching industry. Practices involved in successful incubation of
hatching eggs. Embryonic development in birds. Management factors involved in breeder hen production and
operating a hatchery. Prereq> An Sci/Dy Sci 101 & Zool 101 & 102 or Zool 151 or equiv
Typically Offered: Summer

AN SCI 512 Management for Avian Health Credits: 3
The occurrence, etiology, clinical signs, control and prevention of infectious and noninfectious diseases commonly
affecting domestically reared poultry. Instruction in avian necropsy, zoonosis, sanitation and regulation. Prereq>
An Sci/Dy Sci 101 & Zool 101 & 102 or Zool 151 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Summer

AN SCI 515 Commercial Meat Processing Credits: 2
Principles and procedures in the commercial manufacture of processed meat products; sausage manufacturing,
curing, smoking, freezing and packaging. Prereq> An Sci 305 or Food Sci 410 or cons inst. Zool 101 & 102, or
Zool 151 & 152 (recommended); Chem 103
L&S Credit: No degree credit in L&S  Typically Offered: Fall

AN SCI 520 Ornithology Credits: 3
Comprehensive introduction to bird biology with emphasis on evolution, ecology, and behavior. Topics include the
evolutionary origin of birds and flight, anatomy and physiology, functional morphology, feather structure, flight
mechanics, migration, visual and auditory communication, and reproductive strategies. Prereq> 2 semesters of
biological science
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Summer
AN SCI  521 *Birds of Southern Wisconsin* Credits: 3
Outdoor labs and indoor lectures emphasizing visual and audile identification of southern Wisconsin birds. Saturday field trips throughout Wisconsin. Prereq> 2 sem of biological sci
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AN SCI  610 *Quantitative Genetics* Credits: 3
An advanced approach with emphasis on statistical foundations. Classical theory with extensions to maternal and paternal effects. Selection theory is considered in depth. Prereq> Genetics 466 and Statistics 572 or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AN SCI  626 *Experimental Diet Design* Credits: 1
Discuss nutrient requirements, composition of ingredients used to meet requirements and the mathematical steps involved in diet formulation with emphasis on research animals and human subjects. Prereq> Grad st; Stat 301 or equiv & Nutr Sci 510 or con reg or cons inst
Typically Offered: Fall

AN SCI  660 *Electron Microscopy: Theory & Practice* Credits: 3
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Summer

AN SCI  681 *Senior Honor Thesis* Credits: 2 - 4
Prereq> Honors program candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AN SCI  682 *Senior Honors Thesis* Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & An Sci 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

AN SCI  691 *Thesis* Credits: 2
Prereq> Sr st & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

AN SCI  692 *Thesis* Credits: 2
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

AN SCI  699 *Special Problems* Credits: 1 - 3
Prereq> Sr st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AN SCI  703 *Advanced Reproductive Physiology* Credits: 3
Current topics: gametogenesis, embryonic development, physiology of reproductive organs, and endocrine control of fertility; lectures, discussion. Prereq> Grad st, Zoology 630 or cons inst
Typically Offered: Occasionally

AN SCI  710 *Chemistry of the Food Lipids* Credits: 2
Chemical constitution, structures, reactions, stereochemistry of fats, phospholipids, related compounds; methods of isolation, characterization; synthesis; relation of structure to physical properties. Prereq> Biochem 601; Chem 341 or cons inst
Typically Offered: Occasionally

AN SCI  725 *Muscle Biology* Credits: 2
Anatomy, physiology, and biochemistry of muscle. Prereq> Crse in biochem or biomolecular chem & physiol or cons inst
Typically Offered: Occasionally

AN SCI  799 *Practicum in Animal Sciences Teaching* Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Occasionally
AN SCI 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

AN SCI 931 Seminar in Animal Nutrition Credits: 1
Discussion of literature that has a bearing on animal nutrition. Students are to survey the literature and present a seminar. Prereq> Grad st & cons inst
Typically Offered: Occasionally

AN SCI 950 Seminar in Animal Genomics Credits: 1
Study of current literature in gene mapping, study designs, and application of markers in genetic improvement programs. Prereq> Grad st & cons inst
Typically Offered: Occasionally

AN SCI 951 Seminar in Animal Breeding Credits: 0 - 1
Prereq> Cons inst
Typically Offered: Occasionally

AN SCI 954 Seminar in Endocrinology-Reproductive Physiology Credits: 0 - 1
Prereq> Cons inst
Typically Offered: Occasionally

AN SCI 990 Research Credits: 1 - 12
Prereq> Grad st and cons inst
Typically Offered: Occasionally

BIOCHEMISTRY

BIOCHEM 1 Cooperative Education/Co-op in Biochemistry Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Biochemistry 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

BIOCHEM 100 Biochemistry Freshman Seminar Credits: 1
The Freshman Biochemistry Seminar will introduce freshmen to the discipline of biochemistry, to the UW Biochemistry Department, to some of the research projects the faculty are pursuing, to the University, and to the career options open to an individual with a biochemistry undergraduate degree. Prereq> None
Typically Offered: Fall, Spring

BIOCHEM 104 Molecular Mechanisms, Human Health & You Credits: 3
Students in the course will be introduced to the fundamentals of genetics and evolution, and with this foundation we will discuss "big-picture issues" in public health and epidemiology. Specifically, we will discuss the building blocks of the cell, how information is processed from DNA into protein, and how cellular processes are regulated. Current and medically relevant topics such as cancer, inflammation, infections, depression and drug addiction will provide the framework for further discussion of topics such as the regulation of gene expression and cellular metabolism. A major goal of this course is for students to learn about their own health and to be able to explore and question sci
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BIOCHEM 201 Survey of Biochemistry Credits: 3
Lectures and discussions. Basic biochemistry on an elementary level, primarily for nurses: fats, proteins, carbohydrates, nucleic acids, vitamins, hormones, enzymes; metabolic processes, fundamentals of nutrition, blood chemistry, metabolic diseases. Prereq> Chem 104 or 108 or cons inst
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring, Summer

BIOCHEM 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & So or Jr st. Inter-Ag 288
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring, Summer
BIOCHEM 299 Independent Study Credits: 1 - 3
Prereq> Open to Fr, So or Jr st & written cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BIOCHEM 375 Special Topics Credits: 1 - 4
Prereq> Cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BIOCHEM 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So, Jr or Sr st & cons suprvsg inst, advisor, and intrshp prog coordinator
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BIOCHEM 400 Study Abroad in Biochemistry Credits: 1 - 6
Provides an area equivalence for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses.  Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

BIOCHEM 501 Introduction to Biochemistry Credits: 3
Chemistry, nutrition, and metabolism of biological systems. Not accepted toward departmental M.S. or Ph.D. degree.  Prereq> Chem 341 or 343
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BIOCHEM 507 General Biochemistry I Credits: 3 - 4
Chemistry of biological materials, intermediary metabolism and protein structure. First semester of a year long first course in biochemistry.  Prereq> Chem 345. Honors stdts register for 4 cr, all others register for 3 cr
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BIOCHEM 508 General Biochemistry II Credits: 3 - 4
Biosynthesis of biological molecules, signal transduction mechanisms, chemistry and metabolism of nucleic acids, protein synthesis, and molecular and cellular biology.  Prereq> A grade of BC or higher in Biochem 507, or consent of instructor. Honors credits available with consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BIOCHEM 510 Biochemical Principles of Human and Animal Nutrition Credits: 3
Lectures in nutrition for students with a substantial background in biochemistry. Emphasis on biochemical and physiological fundamentals of nutrition. Discussion of protein, fat, carbohydrate, energy, minerals and vitamins and their roles and interrelationships in nutrition and metabolism.  Prereq> Biomolecular Chem 314 or 503, Biochem 501 or 507, or consent of instructor
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BIOCHEM 511 Undergraduate Seminar Credits: 1
Required of all senior undergraduate majors in biochemistry.  Prereq> Biochem 501 or 507 & 508 or cons inst. Required of all senior undergrad Biochem majors
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BIOCHEM 550 Topics in Medical Biochemistry Credits: 2
Lectures. Biochemical and molecular analysis of selected human diseases. Topics will include lipid metabolism and atherosclerosis, cell cycle regulation and oncogene function in cancer, and human immunodeficiency virus (HIV) structure, life cycle, and mechanism of acquired immunodeficiency disease syndrome (AIDS).  Prereq> Biochem 501, 507, or consent of instructor
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BIOCHEM 575 Biology of Viruses Credits: 2
Lecture-discussion. Broad coverage of animal virology taught at molecular level. Topics include virus structure, viral replication/lifecycle, aspects of pathogenesis and prevention.  Prereq> Biocore 301/302, or AP score of 4 or 5 and Zoology 151 or 152; or MM&I 301
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BIOCHEM 601 Protein and Enzyme Structure and Function Credits: 2
Protein structure and dynamics. Protein folding. Physical organic chemistry of enzymatic catalysis. Analysis of enzyme kinetics and receptor-ligand interactions. Enzymatic reaction mechanisms.  Prereq> Biochem 501 or equiv, 1 sem phys chem, 1 yr org chem, & cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
BIOCHEM 606 Mathematical Methods for Structural Biology Credits: 3
Intended to provide a rigorous foundation for mathematical modeling of biological structures. Mathematical techniques include ordinary and partial differential equations, 3D Fourier analysis and optimization. Biological applications include protein folding, molecular dynamics, implicit solvent electrostatics, and molecular interactions. Prereq> Math 340 or 341; Comp Sci 302, or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

BIOCHEM 609 Mathematical Methods for Systems Biology Credits: 3
Intended to provide a rigorous foundation for mathematical modeling of biological systems. Mathematical techniques include dynamical systems and differential equations. Applications to biological pathways, including understanding of bistability within chemical reaction systems, are emphasized. Prereq> Math 340 or 341; Math 415, or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

BIOCHEM 612 Prokaryotic Molecular Biology Credits: 3
Molecular basis of bacterial physiology and genetics with emphasis on molecular mechanisms; topics include nucleic acid-protein interactions, transcription, translation, replication, recombination, regulation of gene expression. Prereq> Bact 370 or equiv & Biochem 501 or equiv, or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

BIOCHEM 619 Advanced Nutrition: Intermediary Metabolism of Macronutrients Credits: 3
Discuss metabolic control; gastrointestinal physiology, nutrient absorption; molecular, cellular, organismal aspects of glucose transport, metabolism, regulation; fuel sensing; molecular regulation of fatty acid, lipid metabolism; cellular, organismal aspects of protein metabolism; hormonal control of metabolism; experimental approaches for studying metabolism. Prereq> Grad st; Nutr Sci 510 or Biochem 507 & 508 or Bmolchem 503 (or cons reg) or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

BIOCHEM 620 Eukaryotic Molecular Biology Credits: 3
This course focuses on the basic molecular mechanisms that regulate DNA, RNA, and protein metabolism in eukaryotic organisms. This course is intended for advanced undergraduates and first year graduate students with a firm knowledge of basic biochemistry. Prereq> Biochem 508 or equiv
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

BIOCHEM 621 Plant Biochemistry Credits: 3
Biochemistry of photosynthesis, respiration, cell walls, and other metabolic and biosynthetic processes in plants. Prereq> Biochem Biochem 501 or 507
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

BIOCHEM 624 Mechanisms of Enzyme Action Credits: 2
Lecture. The relation of structure and kinetics to mechanisms of enzymatic catalysis; studies of specific enzymes and enzyme systems. Prereq> Biochem 501, or 507 & 508, or 601; Chem 561 or 565; or cons inst (not open to Fr)
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

BIOCHEM 625 Coenzymes and Cofactors in Enzymology Credits: 2
Course will emphasize the importance of coenzyme and cofactors of enzymes in biochemistry. All aspects of the biochemistry of coenzymes will be covered, including their biosynthesis as far as is known, the biochemical reactions they catalyze, their chemical and spectroscopic properties, and the mechanisms by which they facilitate biochemical reactions. Prereq> Chem 343 & Chem 345 or equiv, Biochem 501 or equiv, Chem 561 or Chem 565 or equiv (may be taken concurrently)
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

BIOCHEM 630 Cellular Signal Transduction Mechanisms Credits: 3
Lecture-discussion. Comprehensive coverage of human hormones, growth factors and other mediators; emphasis on hormone action and biosynthesis, cell biology of hormone-producing cells. Prereq> Intro biochem (Biochem 501 or 507 & 508) & cell biology (Biocore 303 or Zool 570 or Path750) or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall
BIOCHEM 636 Macromolecular Crystallography and Dynamics Credits: 2
Provide knowledge of techniques used to obtain detailed structural and dynamic information about biological macromolecules and survey results. Techniques include x-ray diffraction, electron microscopy and molecular dynamics simulations. Designed for advanced undergraduates and beginning graduate students in the biological sciences. Prereq> Concurrent or prior biochem; calc, & freshman physics or equiv
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BIOCHEM 651 Biochemical Methods Credits: 3
Lab and student seminar. Introduction to modern biochemical laboratory techniques and current biochemical literature. Students will present a seminar based upon scientific literature that parallels experiments they will perform in lab. For advanced undergraduates and non-biochemistry graduate students. Prereq> Biochem 501 or 507
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BIOCHEM 660 Methods in Biochemistry Credits: 2
Survey of modern techniques in molecular biology and biochemistry. Prereq> 2 sem organic chem, intermed or adv biochem/molec biol, & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

BIOCHEM 665 Biophysical Chemistry Credits: 4
Equilibrium thermodynamics, chemical kinetics and transport properties, with emphasis on solution behavior and application to noncovalent interactions of biological macromolecules in solution. For graduate students interested in the biological applications of physical chemistry. Prereq> Grad st or cons inst. Stdts must meet prereqs for Chem 565 & have some prev background in phys chem
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BIOCHEM 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Sr st & cons inst (for hon Biochem majors only)
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BIOCHEM 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Biochem 681.
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BIOCHEM 691 Senior Thesis Credits: 2
Prereq> Sr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BIOCHEM 692 Senior Thesis Credits: 2
Prereq> Sr st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BIOCHEM 699 Special Problems Credits: 1 - 4
Prereq> Sr st & cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BIOCHEM 701 Professional Responsibility Credits: 1
Training for the practical aspects of being a scientist. Will cover ethics, peer review, grant writing, science communication, career alternatives, paper writing, experimental design, research documentation, science funding, academic-private interface, scientific fraud, and more. Prereq> Admission to the IPiB grad program
Typically Offered: Occasionally

BIOCHEM 702 Biochemical Mechanisms of Regulation in the Cell Credits: 3
Understanding biochemical mechanisms that drive the functioning of eucaryotic cells: protein folding and proteolysis, translocation to/through organelles, cellular cytoskeleton, cell division and cell-cell signaling with a goal of integrating basic biochemical interactions common to these diverse cellular processes. Prereq> Biochem 501, 507, or equiv
Typically Offered: Occasionally
BIOCHEM 703 Topics in Eukaryotic Regulation Credits: 2
Design and interpretation of experiments addressing molecular mechanisms of eukaryotic regulation. For first year graduate students with firm knowledge of basic biochemistry, molecular biology and genetics. Prereq> Biochem 612 or equiv & cons inst
Typically Offered: Occasionally

BIOCHEM 704 Chemical Biology Credits: 2
Chemistry and biology of proteins, nucleic acids and carbohydrates; application of organic chemistry to problems in cell biology, biotechnology, and biomedicine. Prereq> Biochem 501 or equiv, 1 yr org chem & cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Occasionally

BIOCHEM 710 Exploring Biochemical Function of Macromolecules Credits: 2
Required for first-year IPiB graduate students, this course focuses on topics and approaches applicable to an in-depth understanding of fundamental biochemical research. Prereq> Graduate standing & consent of instructor
Typically Offered: Spring

BIOCHEM 711 Sequence Analysis Credits: 2
Topics will include overviews of: RNA, DNA and protein structure; mechanisms of genetic change; sequence generation methods; comparison and alignment algorithms; motif recognition; 2D predictions; phylogeny calculations; database searching; discriminating coding criteria; phenotypic selection; phylogenetic reconstruction. Prereq> Grad st
Typically Offered: Occasionally

BIOCHEM 712 Sequence Analysis Laboratory Credits: 1
Topics will include: overview of UNIX including file and directory management; introduction to sequence analysis; database searching; comparison methods; alignments; profiles and profile searching; pattern recognition; phylogenetic reconstruction; bibliographic information retrieval. Prereq> Grad st; conreg in Biochem 711
Typically Offered: Occasionally

BIOCHEM 726 Regulation of Gene Expression in Prokaryotes Credits: 3
An intensive examination of a limited number of systems to illustrate the range of molecular mechanism utilized to control gene expression in bacteria. Prereq> Bact/Genetics/Biochem 612 or cons inst
Typically Offered: Occasionally

BIOCHEM 729 Advanced Topics Credits: 1 - 3
Specialized subjects of current interest. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 799 Practicum in Biochemistry Teaching Credits: 1 - 3
Prereq> Grad st & cons inst
Typically Offered: Occasionally

BIOCHEM 800 Practical Nuclear Magnetic Resonance Theory Credits: 2
Multiple pulse NMR, off-resonance effects, composite and shaped pulses, product operators, coherence transfer, one- and two-dimensional NMR, phase cycling, multiple quantum coherence, and cross relaxation. Prereq> Consent of instructor
Typically Offered: Fall

BIOCHEM 801 Biochemical Applications of Nuclear Magnetic Resonance Credits: 2
Survey of current solution-state nuclear magnetic resonance techniques used in biochemical research; the emphasis will be on how data are acquired and on practical applications. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 840 Regulatory Mechanisms in Plant Development Credits: 3
Molecular mechanisms whereby endogenous and environmental regulatory factors control development; emphasis on stimulus perception and primary events in the signal chain leading to modulated gene expression and cellular development; lecture. Prereq> Biochem 501 or 601 & Botany 500 or Biocore 301 & 323
Typically Offered: Occasionally

BIOCHEM 872 Selected Topics in Macromolecular and Biophysical Chemistry Credits: 1 - 3
Prereq> Grad st
Typically Offered: Occasionally
BIOCHEM 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

BIOCHEM 901 Seminar-Nutrition and Metabolism (Advanced) Credits: 1
Presentation of original research results; discussion of recent articles in animal metabolism and nutrition. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 902 Seminar-Plant Biochemistry (Advanced) Credits: 1
Topics vary from semester to semester and will include bioenergetics in plants, plant metabolism, plant development, and molecular biology of plant systems. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 903 Seminar-Membrane Biochemistry (Advanced) Credits: 1
Research reports, special topics, and reports from recent literature in the field of chemistry of microorganisms. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 905 Seminar-Biomolecular Structure (Advanced) Credits: 1
Presentation from the original literature of recent developments in macromolecular structure and function. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 906 Topics in Modeling for Biochemical Systems Credits: 1
Participants discuss topics relevant to predictive modeling of bioenergy systems. Students present talks and lead brainstorming sessions intended to sharpen their skills at cross-disciplinary communication. Modeling microbes and plants at the genetic, molecular and systems level is emphasized. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 907 Seminar-Molecular Genetics (Advanced) Credits: 1
Research reports, special topics, and reports from recent literature in molecular genetics. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 909 Seminar-Enzymology (Advanced) Credits: 1
Research reports, special topics, and reports from recent literature in enzymology and enzyme mechanisms. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 910 Seminar-Molecular Virology (Advanced) Credits: 1
Research reports, special topics, and reports from recent literature in molecular virology. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 911 Seminar-Molecular Mechanisms of Hormone Action (Advanced) Credits: 1
To train students in evaluating published papers in regard to scientific merit and content; provide training in delivering an evaluation of this material to a large group; and to help students and faculty stay abreast of current developments in the area of steroid hormone action. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 912 Seminar-Molecular Mechanisms of Development Credits: 1
Classical and current papers concerning molecular and genetic mechanisms of eukaryotic development will be presented and discussed. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 913 Seminar-RiboGroup (Advanced) Credits: 1
Student-led discussions of RNA-related problems. Prereq> Biochem 603 or equiv, Genetics 466 or equiv; cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally
BIOCHEM 914 Seminar-Molecular Biosciences (Advanced) Credits: 1
During the fall semester, molecular biosciences trainees who have not achieved dissertator status will present seminars based primarily on literature related to their projects. During the spring semester, molecular biosciences trainees with dissertator status will present seminars based upon their own research. Prereq> None
Typically Offered: Occasionally

BIOCHEM 915 Computation and Informatics in Biology and Medicine Credits: 1
Participants and outside speakers will discuss current research in computation and informatics in biology and medicine. This seminar is required of all CIBM program trainees. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 916 Cellular Mechanisms of Protein Biogenesis and Trafficking Credits: 1
Recent literature relating to cellular aspects of the regulation of protein biogenesis including protein synthesis, folding, modification, degradation and trafficking, as well as function of molecular chaperones, will be presented and discussed. Prereq> Cons inst
Typically Offered: Occasionally

BIOCHEM 917 Regulation of Gene Expression (Advanced Seminar) Credits: 1
Participants will discuss recent literature in topics related to prokaryotic and eukaryotic gene regulation. These topics include but are not limited to regulation of transcription, translation, and genome organization. Each week, one student participant will lead a critical discussion on a recent publication in the field of gene regulation. The discussion leader will explain the background materials, methodology, experimental results, and broader implications of the publication. All participants will be expected to take an active role in the discussion. Prereq> None
Typically Offered: Fall, Spring

BIOCHEM 918 Single Molecule Approaches to Biology Credits: 1
A combination of recent literature and original research presentations relating to the use of single molecule techniques in biochemistry including fluorescence microscopy, tethered particle motion, patch-clamping, cryo-electron microscopy, optical trapping, magnetic tweezers, and super resolution microscopy. Prereq> Graduate student standing
Typically Offered: Fall

BIOCHEM 932 Biotechnology Training Program Seminar Credits: 1
Biotechnology Training Program trainees will present their research for critical review by audience. Prereq> Grad st. Required of Biotechnology Training Program trainees
Typically Offered: Occasionally

BIOCHEM 945 Seminar-Chemical Biology (Advanced) Credits: 1
Recent published research in chemical biology and related areas. Intended for advanced graduate students, and required of all NIH Chemistry-Biology Interface trainees. Prereq> Consent of instructor
Typically Offered: Occasionally

BIOCHEM 990 Research Credits: 1 - 12
Prereq> Grad st & cons inst
Typically Offered: Occasionally

BIOCHEM 999 Special Problems Credits: 1 - 3
Typically Offered: Occasionally

BIOQUANT, BIOLOGICAL SYSTEMS ENGINEERING

BSE 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

BSE 201 Land Surveying Fundamentals Credits: 1
Basic surveying terminology, equipment, note keeping, computations and data presentation. Emphasis on differential leveling, radial topographic surveying and radial stakeout using a total station survey instrument. Prereq> So st, cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall
BSE 210 Livestock Housing and Waste Management Credits: 3
Emphasis on dairy, swine and beef; environmental factors related to housing; housing types and components;
management systems. Prereq> Sophomore standing
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 216 Irrigation Systems - Design and Use Credits: 1
Effect of irrigation development on agricultural and environmental characteristics of areas. Introduction to
irrigation system component selection and effective utilization of irrigation systems. Prereq> Soil Sci 301
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 217 Runoff and Sediment Pollution Control Systems Credits: 1
Introduction to the engineering aspects of runoff and sediment pollution control systems for both agricultural and
urban areas. Prereq> Soil Sci 301 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 218 Drainage Systems Credits: 1
Introduction to the engineering aspects of surface and subsurface drainage systems. Prereq> Soil Sci 301 or
cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 238 Crop Drying and Preservation Credits: 1
Drying and aeration systems, moisture measurement, chemical preservation, grain quality. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall

BSE 239 Processing and Handling Feeds Credits: 1
Principles of conveying, metering, mixing, size reduction, and storage for farm feeds and materials. Prereq>
Math 114 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall

BSE 240 Operating and Management Principles of Agricultural Machines Credits: 3
Principles of performance, capacity, operation, and components of machines used in production agriculture:
tillage, chemical application, planting and harvesting of agricultural crops. Economic analysis for profitable
equipment sizing, scheduling and system selection. Prereq> Math 112 or 114
L&S Credit: No degree credit in L&S Typically Offered: Fall

BSE 243 Operating and Management Principles of Off-Road Vehicles Credits: 3
Principles of operation of internal combustion engines, fuel metering, cooling, lubrication, clutches, mechanical
and hydrostatic transmissions, final drives, hydraulics systems and traction systems. Selection and management
of off-road vehicles for agriculture, construction, lawncare and turfgrass industries. Prereq> Math 112 or 114. Not
recommended for stdts in engineering
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 246 Hydraulics for Agricultural Equipment Credits: 1
Fundamental principles of operation, application and use of fluid power systems on agricultural and mobile
machinery. Not recommended for students in engineering. Prereq> Math 101
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 249 Engineering Principles for Biological Systems Credits: 3
Applications of basic engineering principles such as mass and energy balances, psychrometric heat and mass
transfer and fluid flow to problems encountered in agricultural and biological systems including grain conditioning,
fruit and vegetable storage, food processing, animal housing, and environmental control. Prereq> Math 221
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 270 Introduction to Computer Aided Design Credits: 3
Introduction to computer aided design (CAD) concepts and techniques, including two- and three-dimensional
drawing presentation, methods of graphic communication and design synthesis. Specific topics include parametric
solid modeling, part design, survey data and surface construction, orthographic drawings, dimensioning rules and
drawing standards, assemblies, and animation. Prereq> None
L&S Credit: No degree credit in L&S Typically Offered: Spring, Summer

BSE 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Jr or So st. Inter-Ag 288
L&S Credit: No degree credit in L&S Typically Offered: Spring, Summer
BSE 299 Independent Study Credits: 1 - 3  
Prereq: Freshmen, Sophomore or Junior standing & written consent of instructor. Open to Freshmen  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

BSE 336 Heating and Cooling of Buildings Credits: 3  
Typically Offered: Spring

BSE 349 Quantitative Techniques for Biological Systems Credits: 3  
Principles of how energy and materials are utilized in Cells, organisms and ecosystems. Mass transfer, heat and energy balances applied to cell metabolism, plants, and ecosystems. Quantification of biological processes to allow manipulation for human benefit. Prereq: Math 222, Chem 104 or Chem 109, introductory biology crse, 1 yr of high school physics, or cons inst  
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BSE 351 Structural Design for Agricultural Facilities Credits: 3  
Introduction to agricultural building codes and loads; structural analysis; wood, concrete and soil properties; wood and reinforced concrete design; construction specifications. Prereq: EMA 201  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

BSE 356 Sustainable Residential Construction Credits: 3  
Properties and use of building materials, framing systems, HVAC systems, code requirements, conservation of natural resources in building construction and operation. Prereq: Math 112 or equiv. Open to Fr  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

BSE 364 Engineering Properties of Food and Biological Materials Credits: 3  
Study of various physical, mechanical, thermal and other properties of food and biological materials. Importance of such property values on the design and operation of various food and bioprocess engineering systems. Prereq: BSE 249 & ME 361 or ChE 310, or cons inst  
L&S Breadth: Physical Science  L&S Level: Intermediate/Advanced  L&S Credit: No degree credit in L&S  Typically Offered: Fall

BSE 365 Measurements and Instrumentation for Biological Systems Credits: 3  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

BSE 367 Renewable Energy Systems Credits: 3  
Students will learn about the state-of-the-art in renewable energy applications including biomass for heat, electric power and liquid fuels as well as geo-energy sources such as wind, solar, and hydro power. Students will do engineering calculations of power and energy availability of renewable energy sources and learn about requirements for integrating renewable energy sources into production, distribution and end-use systems. Prereq: College algebra, college-level physical science course  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

BSE 372 On-Site Waste Water Treatment and Dispersal Credits: 2  
On-site treatment and dispersal of waste water from homes, commercial sources and small communities. Sources, pretreatment units, nutrient removal units, constructed wetlands, surface and soil dispersal systems, recycle and reuse systems, regulations, alternative collection systems. Prereq: Chem 103  
Typically Offered: Fall

BSE 375 Special Topics Credits: 1 - 4  
Prereq: Cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

BSE 399 Coordinative Internship/Cooperative Education Credits: 1 - 8  
Prereq: So or Jr or Sr st & cons suprvsg inst & intrshp progm coordinator & advisor  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
BSE 400 Study Abroad in Biological Systems Engineering Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

BSE 407 Topics in Appropriate Technology Credits: 3
Applications of alternative technologies to developing and developed areas of the world. Technologies adapted to intensive use of abundant resources and limited use of scarce resources. Quantitative comparison of alternative technologies relative to task fulfillment, resource requirements, and social priorities. Prereq> Sr or Grad st in engr or phy sci or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

BSE 409 Career Management for Engineers Credits: 1
Information to aid engineers in career decision making including: personal time and fiscal management, job selection, career development, leadership, legal aspects of engineering, professional ethics. Prereq> Sr st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

BSE 430 Construction Equipment Credits: 2
Fundamental principles of operation, application and use of construction equipment. Soil properties, power systems, hydraulics, earthmoving equipment, paving equipment, cranes, concrete conveying, production estimation, economics, and safety. Prereq> BSE 201 & 202 or equiv; & BSE 301 or CEE 330
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 441 Rheology of Foods and Biomaterials Credits: 3
Fundamentals of rheology and rheological evaluations of food and biomaterials; structure-function relationships. Prereq> Physics 201 or CBE 320 or ME 363 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 460 Biorefining: Energy and Products from Renewable Resources Credits: 3
Concepts, processes, status quo and future direction of biorefining for production of energy (fuels), chemicals and materials from biomass, with emphases on chemical, biological and engineering aspects of the biorefining. Prereq> Chem 109 or equiv; organic chem or equiv
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 461 Food and Bioprocessing Operations Credits: 3
Principles of mechanics, fluid dynamics, and heat and mass transfer as applied to food and bioprocessing operations. Specific focus on unit operations and equipment associated with the products key to Wisconsin industries including pulp and paper, dairy products, ethanol, forage, and grain. Prereq> (BSE 249 or CBE 250) and (CIV ENGR 310 or CBE 320 or ME 363)
L&S Credit: No degree credit in L&S Typically Offered: Spring

BSE 464 Heat and Mass Transfer in Biological Systems Credits: 3
Introduction to heat and mass transfer fundamentals, including transport mechanisms of conduction, convection, radiation, diffusion and evaporation. Development of governing equations and boundary conditions with application to living systems, controlled environments, water systems, and food processing. Introduction to, and application of, finite-difference and finitevolume methods, including computational fluid dynamics (CFD). Prereq> M E 361, CBE 310 or an equivalent Thermodynamics course; M E 363, CBE 320, CEE 310 or an equivalent Fluid Mechanics course
Typically Offered: Spring

BSE 472 Sediment and Bio-Nutrient Engineering and Management Credits: 3
Hydrologic, biologic and engineering applications in the design and management of sediment and bio-nutrient control systems. Prereq> Jr st in Engr or cons inst
Typically Offered: Fall

BSE 473 Irrigation and Drainage Systems Design Credits: 2
Engineering and management applications of soil-plant-water relationships applied to drainage and irrigation design. Prereq> Jr st in Engr or cons inst
Typically Offered: Fall
**BSE 475 Engineering Principles of Agricultural Machinery** Credits: 3
Engineering design principles of machines for the production, processing and handling of crops for food, fuel, bio-
mass and fiber. Environmental and biological factors that influence machine design and operation. Economic and 
capacity analysis of machines and systems. Prereq> EMA 202 or ME 240, or cons inst
L&S Credit: *No degree credit in L&S* Typically Offered: *Fall*

**BSE 476 Engineering Principles of Off-Road Vehicles** Credits: 3
Engineering design principles of heavy-duty vehicles intended for off-road use: fuels, engine cycles, engine 
principles and construction, clutches, mechanical and hydrostatic transmissions, final drives, traction systems, 
traction modeling, dynamic behavior, suspension systems and braking. Prereq> ME 361, EMA 202 or ME 240 or 
cons inst
L&S Credit: *No degree credit in L&S* Typically Offered: *Spring*

**BSE 491 Legal Aspects of Engineering** Credits: 3
Legal principles and institutions germane to engineering practice; formation and performance of engineer-client 
and owner-contractor relationships; preparation of technical specifications; surety bonds and insurance; 
construction liens; contract administration; construction contract remedies; intellectual property of engineers; 
enGINEERS’ obligations to society and their fellow engineers. Prereq> Sr st or cons inst
L&S Credit: *No degree credit in L&S* Typically Offered: *Fall, Spring*

**BSE 508 Biological Systems Engineering Design Practicum I** Credits: 2
Overview of the engineering design process including problem identification, information retrieval, specification 
writing, development and analysis of alternative solutions, selection methodology, product safety, standardization, 
scheduling and cost estimating. Students develop design project proposals for real-world design problems.
Prereq> Junior Standing
L&S Credit: *No degree credit in L&S* Typically Offered: *Spring*

**BSE 509 Biological Systems Engineering Design Practicum II** Credits: 3
Individual or team work on a biological systems engineering design project: problem identification, information 
retrieval, specification writing, development and analysis of alternative solutions, selection methodology. Prereq>
BSE 309, Sr St
L&S Credit: *No degree credit in L&S* Typically Offered: *Fall*

**BSE 517 Biology in Engineering Seminar** Credits: 1
Current topics at the interface of biology and engineering with special emphasis on the ways in which engineers 
have contributed to knowledge and advances in biology. Prereq> Jr st in engr & one college-level biol crse
L&S Credit: *No degree credit in L&S* Typically Offered: *Fall*

**BSE 542 Food Engineering Operations** Credits: 4
Lectures and experiments in food engineering operations selected from topics such as: thermodynamics, 
transport processes, biological kinetics and bioreactor design, thermal process calculations, separation 
processes, process instrumentation and control, process design and economics, and the use of computers.
Prereq> Food Sci 440, Sr st, or cons inst
General Education: **QR-B** L&S Breadth: **Biological Science** L&S Level: **Advanced** L&S Credit: *Counts for LAS credit*
Typically Offered: *Spring*

**BSE 571 Small Watershed Engineering** Credits: 3
Application of engineering principles to small, ungauged watershed analysis. Application of hydrologic and 
sedimentologic principles to upland watersheds for run-off and sediment control. Prereq> Sr in Engr or Grad st 
or cons inst
L&S Credit: *No degree credit in L&S* Typically Offered: *Spring*

**BSE 642 Food and Pharmaceutical Separations** Credits: 2 - 3
Basic principles of production-scale separation processes in the food and pharmaceutical industries including 
gravity sedimentation and centrifugation, extraction, adsorption, chromatography, precipitation, conventional and 
membrane filtration, crystallization, and drying. Third credit adds group term project, integrating principles with 
experiments, defined by students' interests. Prereq> Cons inst
L&S Credit: *No degree credit in L&S* Typically Offered: *Fall*

**BSE 671 Topics in Natural Resources Engineering** Credits: 1 - 3
Advanced topics in natural resource engineering. Prereq> St or Grad st
L&S Credit: *No degree credit in L&S* Typically Offered: *Fall, Spring*
BSE 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Hon candidacy
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

BSE 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & BSE 681
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

BSE 691 Senior Thesis Credits: 2
Prereq> Sr st & cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

BSE 692 Senior Thesis Credits: 2
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

BSE 699 Special Problems Credits: 1 - 4
Prereq> Sr st & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

BSE 799 Practicum in Agricultural Engineering Teaching Credits: 1 - 3
Prereq> Grad st & cons inst
Typically Offered: Occasionally

BSE 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

BSE 900 Seminar Credits: 1
Prereq> Cons inst
Typically Offered: Occasionally

BSE 901 Graduate Research Seminar Credits: 1
Presentation and evaluation of graduate student thesis and non-thesis research. Prereq> BSE 900
Typically Offered: Occasionally

BSE 990 Research Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally

BSE 999 Special Problems Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally

COMMUNITY & ENVIRONMENTAL SOC

C&E SOC 1 Cooperative Education/Co-op in Community and Environmental Sociology Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in C&E Soc 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

C&E SOC 140 Introduction to Community and Environmental Sociology Credits: 3
Sociological examination of the linkages between the social and biophysical dimensions of the environment. Key topics include community organizing, local food systems, energy transitions, environmental justice, resource dependence, and sustainable development. Gateway to advanced courses in sociology. Prereq> None
L&S Breadth: Social Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring
C&E SOC 210 Survey of Sociology Credits: 3 - 4
Introduction to the field of American sociology, its subfields and specialized areas of research, theoretical traditions and research methods. Gateway to advanced courses in sociology. Prereq: Open to Freshmen who have satisfied Comm A requirement. Not open to students who have taken Soc 181 or Soc/C&E 211
General Education: COM B  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 211 The Sociological Enterprise Credits: 3
Basic principles and definitions of sociology. Readings and discussion of the perspectives of sociology, the individual and society, groups and social process, stratification, organizations and power, demography, and social change. Gateway to advanced courses in sociology. Prereq: Not open to students who have taken Soc 181 or Soc/C&E 210
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 215 Gender and Work in Rural America Credits: 3
Sociological dimensions of men's and women's work in nonmetropolitan areas of the United States. Examines gender divisions of "work" in its fullest sense: paid work in formal and informal economies, self-employment, and nonmarket work such as housework. Prereq: Open to Fr
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 222 Food, Culture, and Society Credits: 3
Social and cultural dimensions of the production, preparation, and consumption of food. Uses historical and cross-cultural analytical frameworks. Treats a wide variety of topics including pre-capitalist food systems, hunger, vegetarianism, sustainable agriculture, food and gender, genetic engineering. Prereq: Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 230 Agriculture and Social Change in Western History Credits: 3
Agricultural practices and social history from prehistoric times to the present. Topics include origins of agriculture, feudalism, agriculture in the Industrial Revolution, farming in America, and the consequences of the Green Revolution. Prereq: Open to Fr
L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC 245 Technology and Society Credits: 3
Students are introduced to a wide range of work on technology, the social forces shaping its development, and social impacts of its adoption. Students are encouraged to examine their assumptions about technology and its relationship to society. Prereq: Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 248 Environment, Natural Resources, and Society Credits: 3
Introduces the concerns and principles of sociology through examination of human interaction with the natural environment. Places environmental issues such as resource depletion, population growth, food production, environmental regulation, and sustainability in national and global perspectives. Prereq: Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC 260 Latin America: An Introduction Credits: 3 - 4
Latin American culture and society from an interdisciplinary perspective; historical developments from pre-Columbian times to the present; political movements; economic problems; social change; ecology in tropical Latin America; legal systems; literature and the arts; cultural contrasts involving the US and Latin America; land reform; labor movements; capitalism, socialism, imperialism; mass media.
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

C&E SOC 266 People and Places: The Demography of Rural America Credits: 3
Examines some of the most pressing issues and trends relating to how the U.S. population is changing and redistributing itself across the rural American landscape. Prereq: Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 289 Honors Independent Study Credits: 1 - 2
Prereq: Enrolled in the CALS Honors Program & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

C&E SOC 299 Independent Study Credits: 1 - 3
Prereq: Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
C&E SOC 311 Biotechnology and Society: The Socio-Cultural Study of Biotechnology Credits: 3
Examines socio-cultural issue surrounding contemporary biotechnology. Will study the production of biotechnologies using socio-cultural lenses and the ways in which the new biologies and biotechnologies become integral to the re-production of society and culture. Prereq> Sophomore Standing
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

C&E SOC 340 Issues in Food Systems Credits: 3 - 4
With primary emphasis on the U.S., the course covers social, economic and biological dimensions of food systems. Using classroom and community experience, the course combines academic approaches with practitioner knowledge. A community project is required. Prereq> Junior standing or consent of instructor L&S Credit: No degree credit in L&S Typically Offered: Occasionally

C&E SOC 357 Methods of Sociological Inquiry Credits: 3 - 4
Scientific methods in the study of society; procedures for testing sociological theory: problem definition, hypothesis construction, collection and evaluation of data. Practical experience conducting small research projects. Should be taken as early as possible by students considering a major in Sociology. Prior statistics not required. Gateway to advanced courses in sociology. Prereq> Not open to students who have taken Soc 358 L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

C&E SOC 358 Design and Analysis of Social Research Credits: 3
Logic of social inquiry, operationalization of social theory, procedures for gathering and organizing data, hypothesis testing, analysis of data, techniques for generalizing from samples to populations. Prereq> Concurrent enrollment in Soc 359. Sophomore standing. Not open to students who have taken Soc 357, Soc 360 or equivalent L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

C&E SOC 359 Statistical Analysis of Social Research Credits: 4
General Education: QR-B L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

C&E SOC 360 Statistics for Sociologists I Credits: 4
Presentation of sociological data; descriptive statistics; probability theory and statistical inference; estimation and tests of hypotheses; regression and correlation and the analysis of contingency tables; lectures and lab. Gateway to advanced courses in sociology. It is recommended that students take Soc 357 prior to taking this course. Prereq> Satisfied Quantitative Reasoning (QR) A requirement. Not open to students who have taken Soc 359
General Education: QR-B L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

C&E SOC 361 Statistics for Sociologists II Credits: 3
Applied linear regression modeling for social scientists. Bivariate and multiple regression, dummy variables, interactions, nonlinear relationships, indirect effects and omitted variable bias, outliers, heteroskedasticity, and multicollinearity; associated diagnostics and corrections. Use of Stata and/or SAS for dataset creation and analysis. Lectures and lab. Prereq> Sophomore standing. Sophomore standing, and Soc/Community & Environmental Soc 360 or equivalent L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

C&E SOC 365 Data Management for Sociological Research Credits: 3 - 4
Understanding the structure of different types of social scientific data, techniques for data evaluation, cleaning, documentation and visual display, merging data from multiple sources, restructuring data for analysis. Prereq> Soc 360 or equivalent L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

C&E SOC 375 Special Topics Credits: 1 - 4
Prereq> Cons inst L&S Credit: No degree credit in L&S Typically Offered: Occasionally
C&E SOC 380 Contemporary Population Problems for Honors Credits: 3
This course is designed to identify, examine the nature and evaluate the evidence regarding key population problems affecting modern societies in the developed and developing world. The course emphasizes the development of demographic models as a tool to frame, define and investigate these problems. Examples of problems studied include: relations between population growth and environment, population growth and socioeconomic development, population and emergence of new diseases. Prereq> Honors status. Soc 360 or equivalent or consent of instructor
L&S Breadth: Humanities or Soc Sci L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

C&E SOC 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So, Jr or Sr st and cons supervising inst, advisor and internship program coordinator
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

C&E SOC 400 Study Abroad in Community and Environmental Sociology Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

C&E SOC 434 People, Wildlife and Landscapes Credits: 3
This course explores the relationship between humans and wildlife amidst diverse landscapes, both historic and contemporary, tropical and temperate. We study how humans shape wild animal populations by modifying physical environments, and by hunting, domesticating and introducing species. Prereq> Geog/Envir St 339
L&S Breadth: Social Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

C&E SOC 500 Capstone Experience Credits: 3
A capstone experience involving the application of sociological concepts and methods to concrete social and environmental problems. Students work in teams and may engage problems using service learning, community based research, and interdisciplinary approaches. Prereq> Sr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

C&E SOC 532 Health Care Issues for Individuals, Families and Society Credits: 3
Issues related to health and health care delivery in our society. Topics include social, cultural and ethical influences on consumer definitions of health and use of medical care, and on the health care system's responses. Prereq> Intro Soc course (SOC 140, 181, 210, or 211)
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

C&E SOC 533 Public Health in Rural & Urban Communities Credits: 3
Sociological approaches to community, rural, and public health. Examines epidemiological evidence for and policy solutions to health issues that impact vulnerable populations in diverse geographic and social settings. Topics include mental health, environmental and occupational health, preventive care, substance abuse. Prereq> Intro Soc course (SOC 140, 181, 210, or 211)
L&S Breadth: Social Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

C&E SOC 540 Sociology of International Development, Environment, and Sustainability Credits: 3
Sociological analysis of relationships among economic growth, environmental sustainability and social justice in the developing world. Considers frameworks for understanding poverty, hunger, educational and technological inequality, and the impact of globalization on prospects for socially and ecologically sustainable development. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

C&E SOC 541 Environmental Stewardship and Social Justice Credits: 3
Application of sociological theory and analysis to environmental issues. Course examines the ways in which environmental stewardship and conflict are embedded within broader cultural, social, and political contexts. Prereq> Any of the following: Soc Intro course (Soc 140, 181, 210 or 211), Soc/C&E Soc/Forest and Wildlife Ecology 248, Environmental Studies 112, Environmental Studies 113, Environmental Studies/Geography 139, Environmental Studies/Geography 337, Environmental Studies/Geography 339, or Geography 101
L&S Breadth: Social Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally
C&E SOC 565 The Ethics of Modern Biotechnology Credits: 3 - 4
Study of ethical issues arising from the application of modern biotechnology to microorganisms, crops, and non-human animals. Readings cover moral theory, technology studies, political philosophy, the science used in biotechnology, and current regulations governing its use. Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 573 Community Organization and Change Credits: 3
Examines theories of community change and different models of community organizing. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC 578 Poverty and Place Credits: 3
The allocation of economic and social rewards in the United States; emphasis on persistently poor regions and communities; analysis of selected minority groups and their poverty statuses; poverty programs and their consequences for structural and cultural changes. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 601 Sociology of Work, Family, and Gender Credits: 3
Examines the social issues and forces involved in the intersection of work, family, and gender. Considers how and why men's and women's experiences at work and at home differ, and how experiences in one realm affect experiences in the other. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) or Gender & Women's Studies 102
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 610 Knowledge and Society Credits: 3
Examines topics related to what has been called the "knowledge society." Explores various aspects of science and technology as they shape and are shaped by post-industrial societies. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 612 Agriculture, Technology, and Society Credits: 3 - 4
Interaction between agricultural technologies and the social, political, economic, and environmental contexts in which production takes place. Issues such as agricultural sustainability, the social impacts of biotechnology, and technology development in both advanced industrial nations and developing countries. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 617 Community Development Credits: 3
Social, cultural and personality factors influencing community development, with reference to developing countries as well as contemporary rural communities; consideration of theoretical and operational issues. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

C&E SOC 622 Advanced Topics in Critical Sociology Credits: 3
Topics include: Marxism and feminism; race and class; alternative theories of history; methodological issues in contemporary Marxism. Prereq> Soc 475
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC 623 Gender, Society, and Politics Credits: 3
Examines the relationship between the social structures of gender (e.g., the domestic division of labor, sex-segregated occupational structures, gender ideologies, the social organization of sexuality) and political institutions, political activities, and state policies. Prereq> Junior standing. Soc 357 or a Gender & Women's Studies course with a S, Y or Z breadth designation
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC 630 Sociology of Developing Societies/Third World Credits: 3
Review of problems and prospects of so-called "developing societies." Includes theory of economic/social development, political economic organizations of "developing" societies, history of colonialism/imperialism, attempts to industrialize and results of those attempts. Prereq> Junior standing
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
C&E SOC  639 American Indians in Contemporary Society Credits: 3
Analysis of the social, economic, political, and legal status of American Indians in modern U.S. society, with emphasis on the emergence of tribal sovereignty, American Indian ethnic identity, pan-Indianism, and the special social/and economic problems faced by American Indians. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) or Soc 134
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC  645 Modern American Communities Credits: 3
Relevance of the concept of community to American society. Review of several basic theories of community and analysis of the nature of community in the broader political and economic context. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC  649 Sociology of Work and Employment Credits: 3
Introduction to key themes in the sociology of work and employment. Uses comparative, historical, and theoretical perspectives to analyze contemporary transformations of work and employment in the 'new economy', with particular emphasis on the United States, Western Europe, and Japan. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) and Soc 357
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC  650 Sociology of Agriculture Credits: 3
Introduction to sociology of agriculture in advanced industrial-capitalist societies, including theoretical, historical, and empirical issues of agriculture in the United States. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC  652 Sociology of Economic Institutions Credits: 3
Sociological perspectives on the organization of the firm, financial markets, and work, intermediate associations (unions, ethnic economies), the state, and the international economy. Contrast between neoclassical, traditional institutionalist, post-fordist, and neo-fordist perspectives on the nature and evolution of these institutions. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC  655 Microfoundations of Economic Sociology Credits: 3
A review and critique of economic theory from a sociological perspective. Reviews central concepts of contemporary microeconomics (e.g., rationality, exchange, strategic interaction, evolution, information), addressing critiques and alternatives offered by economic sociologists, economists, and other behavioral and social scientists. Prereq> Intro Soc (Soc 140, 181, 210, or 211), Soc 357, Soc 360, Senior standing, and consent of instructor
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC  666 Rural Population Trends and Problems Credits: 3
Trends with their consequences for rural and urban areas. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) and Soc 357
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC  676 Applied Demography: Planning and Policy Credits: 3
Introduction to demographic concepts, methods, data, and trends for application in business, government, planning and other applied areas. Emphasis on U.S. census data and their uses. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) and Soc 357
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

C&E SOC  681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors program candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

C&E SOC  682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq-> Honors program candidacy & Rur Soc 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

C&E SOC  691 Senior Thesis Credits: 2
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
C&E SOC 692 Senior Thesis Credits: 2
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

C&E SOC 693 Practicum in Analysis and Research Credits: 3
Practical experience in techniques of social research through assignment to a research project for the semester. Lectures, readings, and discussions of the art and practice of research and the writing of research reports. For undergraduate and graduate students participating in the department's Concentration in Concentration and Research. Prereq> Soc 357, Soc 360, Soc 361, and CAR internship. Open only to students currently enrolled in CAR L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

C&E SOC 699 Special Problems Credits: 1 - 4
Prereq> Sr st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC 708 Societal Risk Management of Technological Hazards Credits: 3
Issues involved in decision-making regarding technological risks and risk management in areas such as nuclear power, hazardous waste disposal, and pollution control. Risk perception and cognitive biases; risk analysis and decision analysis; political issues in risk management; regulatory mechanisms; and risk communication. Selected case studies. Prereq> Stat 311 or Math 431 or Soc 360, IE 516, & Grad st; or cons inst
Typically Offered: Occasionally

C&E SOC 724 Intermediate Political Sociology Credits: 3
Critical examination of theories and research in political sociology. Topics include: power and interests, state-formation, social movements, class and political behavior, revolutions, ideology, and states and social policy. Prereq> Grad st
Typically Offered: Occasionally

C&E SOC 730 Intermediate Social Psychology: The Individual and Society Credits: 3
Major social psychological theories and research that focus on the individual in social context. Topics include: perspectives on socialization, the self, social perception and attribution, attitudes, language and nonverbal communication, and attraction and relationships. Prereq> Grad st
Typically Offered: Occasionally

C&E SOC 731 Intermediate Social Psychology: Group and Collective Processes Credits: 3
Major social psychological theories and research that focus on interpersonal relations and group processes. Topics include: social interaction (influence, self-presentation, altruism, aggression), groups (cohesion, conformity, leadership, problem-solving, decision making), intergroup relations (conflict, stereotypes), n-person games (dilemmas, coalition formation). Prereq> Grad st
Typically Offered: Occasionally

C&E SOC 748 Environmental Sociology Credits: 3
Interaction between societies and their environments. Includes human ecology, environmental attitudes and individual actions, the social organization of environmental protection and exploitation and the effects of science, technology, and development. Prereq> Grad st
Typically Offered: Occasionally

C&E SOC 749 Social Policy and Management of National Parks and Protected Areas Credits: 3
Explores the relationship of social policy to the formation and management of U.S. National Parks in the past, present and future. Implications of social policy for park systems and preserves throughout the world are addressed. Prereq> Grad st or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

C&E SOC 750 Research Methods in Sociology Credits: 3
Application of scientific methods to the analysis of social phenomena; methodological orientations in sociology; types of research procedure: nature of sociological variables; lectures and lab. Prereq> Grad st, Soc 357 and 362 or equiv
Typically Offered: Occasionally

C&E SOC 755 Methods of Qualitative Research Credits: 3
Introduces qualitative, or ethnographic, research methods, emphasizing those suitable for educational and other organizational settings. Considers strengths and limitations of qualitative approaches in relation to varied research problems. Explores methodological procedures from entry into the field through writing. Prereq> Cons inst
Typically Offered: Occasionally
C&E SOC 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst  
Typically Offered: Fall, Spring

C&E SOC 904 Sociological Perspectives on Gender Credits: 3
Advanced topics in the analysis of gender relations in society. Prereq> Grad st  
Typically Offered: Occasionally

C&E SOC 913 Seminar-Social Change Credits: 3
Prereq> Grad st & cons inst  
Typically Offered: Occasionally

C&E SOC 920 Seminar: Organizations Theory Credits: 3
Prereq> Soc 632, Grad st, & cons inst  
Typically Offered: Occasionally

C&E SOC 921 Seminar-Research in the Sociology of Medicine Credits: 3
Research in social organization of the hospital, and treatment and control of illness. Prereq> Grad st & cons inst  
Typically Offered: Occasionally

C&E SOC 922 Seminar-Race and Ethnic Relations Credits: 3
Theoretical, methodological, and current research problems. Prereq> Soc 134 or 646 & cons inst  
Typically Offered: Occasionally

C&E SOC 923 Seminar-Social Stratification Credits: 3
Prereq> Grad st & cons inst  
Typically Offered: Occasionally

C&E SOC 925 Seminar: Socio-Economic Change in Underdeveloped Areas Credits: 2 - 3
Social and economic factors relating to stability, growth, and change in the non-Western areas of the contemporary world. Prereq> Grad st & cons inst  
Typically Offered: Occasionally

C&E SOC 927 Seminar-Sociology of Contemporary Institutions Credits: 3
Research relevant to a particular contemporary institution (medicine, law, education, etc.). Prereq> Grad st and cons inst  
Typically Offered: Occasionally

C&E SOC 929 Seminar: Class Analysis and Historical Change Credits: 3
Selected topics in Marxist theory and research. Prereq> Grad st  
Typically Offered: Occasionally

C&E SOC 940 Seminar-Sociology of Economic Change Credits: 3
Theoretical and technical problems in research concerning organizational and socio-psychological aspects of changes in large scale social systems. Prereq> Grad st & cons inst  
Typically Offered: Occasionally

C&E SOC 945 Seminar-Rural Sociology Credits: 3
Theory and research in alternate semesters in rural aspects of population, stratification, social change, and groups and institutions. Prereq> Grad st and cons inst  
Typically Offered: Occasionally

C&E SOC 948 Seminar: Environmental Sociology Credits: 3
Examines topics such as theories of environment and society, the treadmill of production, environmental movements, political ecology, environmental justice, consumption, ecological modernization, sustainability, environmental risk, and the sociology of environmental science. Prereq> Cons inst  
Typically Offered: Occasionally

C&E SOC 960 Seminar-Current Methodological Issues in Social Psychology Credits: 3
Alternative research designs and processes, measurement, and analytical techniques in social psychology; experience in developing and utilizing research plans and techniques. Prereq> Grad st & cons inst  
Typically Offered: Occasionally
C&E SOC 961 Seminar-Advanced Social Psychology Credits: 3
A selected research or theoretical area. Topic varies. Prereq> Grad st & cons inst
Typically Offered: Occasionally

C&E SOC 965 Seminar-Recent Developments in Social Psychology Credits: 3
Current literature, emphasis on recent journal articles. Prereq> Grad st & cons inst
Typically Offered: Occasionally

C&E SOC 969 Seminar-Social Structure and Personality Credits: 3
Intensive analysis of theory and recent research on relations between social organization and personality, with
primary stress on personality as a dependent variable. Prereq> Grad st & cons inst
Typically Offered: Occasionally

C&E SOC 971 Seminar-Topics in Demography and Ecology Credits: 3
Content varies. Prereq> Grad st & cons inst
Typically Offered: Occasionally

C&E SOC 977 Seminar-Human Ecology Credits: 3
Review of ecological theory and research; critical assessment of the ecological complex (population, organization,
environment, and technology); problems of measurement. Prereq> Grad st and cons inst
Typically Offered: Occasionally

C&E SOC 982 Interdepartmental Seminar in the Latin-American Area Credits: 1 - 3
Prereq> Grad st & cons inst
Typically Offered: Occasionally

C&E SOC 985 Research: Community and Environmental Sociology Credits: 1 - 3
Critical analysis of recent theoretical and methodological issues through presentations of research in progress by
faculty, graduate students, and visiting scholars. Prereq> Grad st & cons inst
Typically Offered: Fall, Spring

C&E SOC 987 Research: Race and Ethnic Studies Credits: 1 - 3
Analysis of recent research and theory, based on reviews of literature and presentations of their own work by
faculty, graduate students, and visiting scholars. Prereq> Cons inst
Typically Offered: Occasionally

C&E SOC 990 Research Credits: 1 - 12
Prereq> Grad st & cons advisor
Typically Offered: Occasionally

C&E SOC 993 Research: Sociology of Economic Change Trainees Credits: 1 - 3
Presentations of research in progress concerning social and economic change in developing countries. Prereq>
Grad st
Typically Offered: Occasionally

C&E SOC 995 Research: Methodology Trainees Credits: 1 - 3
Prereq> Method trainee or cons inst
Typically Offered: Occasionally

C&E SOC 997 Research: Demography and Ecology Trainees Credits: 1 - 3
Prereq> Demography & ecology trainee or cons inst
Typically Offered: Occasionally

C&E SOC 999 Reading and Research Credits: 1 - 3
Prereq> Grad st and cons inst
Typically Offered: Occasionally
DY SCI 1 Cooperative Education/Co-op in Dairy Science Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Diary Sci 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

DY SCI 101 Introduction to Animal Sciences Credits: 4
Anatomy physiology, nutrition, genetics, reproduction, marketing, meats and management of dairy and beef cattle, swine, sheep, poultry and horses; lectures, laboratories and discussion. Field trips. Prereq> Open to Freshmen
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall

DY SCI 205 Dairy Cattle Selection Credits: 2
Dairy cattle evaluation and selection, including: linear type appraisal, dairy cattle judging, mating programs, breed comparisons, cattle marketing plans, and national genetic improvement programs. Prereq> Dy Sci/An Sci 101. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Fall

DY SCI 233 Dairy Herd Management I Credits: 3
Overview of practical dairy herd management with components of reproduction, nutrition, milk quality, raising dairy replacements, facilities and records. Laboratories emphasize practical applications, analyses of alternatives and decision making. Includes farm visits and analysis. Prereq> Dy Sci/An Sci 101 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Spring

DY SCI 234 Dairy Herd Management II Credits: 3
The second of a two course sequence designed as an overview of practical dairy herd management with components of animal welfare and handling, health, calf and heifer rearing, facilities and production economics. Laboratories emphasize practical applications, investigation of alternatives and decision making. Includes farm visits and a hands-on transition cow project for analysis. Prereq> Dairy Science/Animal Science 101 or consent of instructor, successful completion of Dairy Science 233
Typically Offered: Spring

DY SCI 272 Pre-Capstone Seminar Credits: 1
Sophomores learn about, and prepare for, active and independent learning from seniors who have successfully completed independent learning projects including internships, senior seminars and other "capstone" experiences. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall

DY SCI 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

DY SCI 299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

DY SCI 305 Lactation Physiology Credits: 3
The course focuses on lactation physiology across mammalian species. Structure and function of mammary glands; hormonal control of mammary development and lactation; cellular mechanisms of milk synthesis; the chemistry of milk synthesis; mastitis and other abnormalities of mammary functions. This course has a laboratory component. Prereq> Zoology 101 or Biology 151&152; and BmolChem 314 or Biochem 501 or concurrent enrollment
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

DY SCI 311 Comparative Animal Nutrition Credits: 3
Nutrients and their source, assimilation, function and requirement. Prereq> BmolChem 314 or Chem 341 or Chem 343 or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring
DY SCI  313 Animal Feeds and Diet Formulation  Credits:  1  
Designed as a companion course for Dairy Science 311 (comparative animal nutrition) with emphasis on quantitative and practical aspects of animal feeds and diet formulation. Prereq> Math 112, Dy Sci/An Sci 101, or cons inst; con reg in Dy Sci/An Sci/Nutr Sci 311 recommended  
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DY SCI  320 Animal Health and Disease Management  Credits:  3  
Principal causes and identification of animal diseases, common diseases of farm animals, zoonoses and public health, disease prevention and management including biosecurity measures and host immune responses. Prereq> Zoology 101/102, Biology 152, Biocore or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DY SCI  361 Introduction to Animal and Veterinary Genetics  Credits:  2  
The molecular basis for inheritance of monogenic and polygenic traits related to animal disease and production. An introduction to the principles of improving animal health and performance by selection and mating systems in companion animals, horses, livestock, and poultry. Prereq> Genetics 160 or 466 or con reg & course in statistics  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DY SCI  362 Veterinary Genetics  Credits:  2  
The genetic basis for predisposition to disease or resistance to disease in livestock and companion animal species. Genetic defects, their discovery, diagnosis and treatment. Prereq> Dy Sci/An Sci 361; or Genetics 160 or 466 & Zool/Bot 152  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DY SCI  363 Principles of Animal Breeding  Credits:  2  
Application of the principles of quantitative genetics to the improvement of livestock and poultry; breeding value estimation and selection techniques; effects of inbreeding and hybrid vigor; crossbreeding systems. Prereq> Dy Sci/An Sci 361  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DY SCI  370 Livestock Production and Health in Agricultural Development  Credits:  3  
Physical, biological and social nature of animal agriculture systems and their improvement in developing countries; analysis of the state of livestock research and development in the developing countries and the world role of U.S. animal agriculture. Prereq> An Sci/Dy Sci 101 or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DY SCI  373 Animal Physiology  Credits:  3  
Students will develop an understanding of physiological processes that regulate the body, learn the anatomy and function of different physiological systems, describe interactions between organ systems, study regulation of an organ system from the molecular to whole animal level, and identify differences between species in the same systems. Prereq> Biology/Zoology 101 or Biology/Zoology/Botany 151 and Biology/Zoology/Botany 152  
Typically Offered: Spring

DY SCI  375 Special Topics  Credits:  1 - 4  
Prereq> Cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DY SCI  399 Coordinative Internship/Cooperative Education  Credits:  1 - 8  
Prereq> So, Jr or Sr st & cons supervising inst, advisor, and internship coordinator  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

DY SCI  400 Study Abroad in Dairy Science  Credits:  1 - 6  
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DY SCI  414 Ruminant Nutrition  Credits:  2  
Integrates basic nutrition concepts and ration balancing skills by teaching students to balance and trouble shoot rations for various domesticated ruminants. Prereq> An Sci/Dy Sci 311 & 313  
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
DY SCI 434 Reproductive Physiology Credits: 3
Principles of reproductive physiology, improvement of fertility, and artificial insemination. Prereq> Jr st, An Sc/Dy Sci 101, or Zool 101 & 102; Zool 151 & 152 recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

DY SCI 468 Managing the Environmental Impacts of Livestock Operations Credits: 2
Introduces nonpoint pollution policies and regulations and environmental losses impacting air and water quality. Discuss management practices that influence the cycling and balance of nitrogen and phosphorus across a farm and its components (livestock, crop and soil). Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DY SCI 535 Dairy Farm Management Practicum Credits: 3
Principles of nutrition, breeding, reproduction, and management at the farm level are integrated. Students will develop skills in decision making, information gathering, problem solving, and interpersonal communication through fieldtrips to working commercial dairy operations. Prereq> Dy Sci 233, 434, 361
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DY SCI 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DY SCI 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Dy Sci 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DY SCI 690 Proseminar Credits: 1
Critical review, evaluation and presentation of current research; application of research to practical problems; career preparation, job application procedures. Required for Dy Sci majors. Prereq> Sr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DY SCI 699 Special Problems Credits: 1 - 3
Prereq> Sr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

DY SCI 799 Practicum in Dairy Science Teaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Occasionally

DY SCI 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

DY SCI 900 Seminar Credits: 1
Comprehensive reviews of research aimed at broadening understanding of dairy science. Prereq> Dairy Science 690
Typically Offered: Occasionally

DY SCI 931 Seminar in Animal Nutrition Credits: 1
Discussion of literature that has a bearing on animal nutrition. Students are to survey the literature and present a seminar. Prereq> Grad st & cons inst
Typically Offered: Occasionally

DY SCI 950 Seminar in Animal Genomics Credits: 1
Study of current literature in gene mapping, study designs, and application of markers in genetic improvement programs. Prereq> Grad st & cons inst
Typically Offered: Occasionally

DY SCI 951 Seminar in Animal Breeding Credits: 0 - 1
Prereq> Cons inst
Typically Offered: Occasionally
DY SCI 990 Research Credits: 1 - 12
Prereq> Grad st & cons inst
Typically Offered: Occasionally

ENTOMOLOGY

ENTOM 1 Cooperative Education/Co-op in Entomology Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Entom 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ENTOM 201 Insects and Human Culture-a Survey Course in Entomology Credits: 3
Importance of insects in man's environment, emphasizing beneficial insects, disease carriers, and agricultural pests that interfere with man's food supply. Environmental problems due to insect control agents. Prereq> Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 203 Introduction to Global Health Credits: 3
Introduces students to global health concepts through multidisciplinary speakers dedicated to improving health through their unique training. It targets students with an interest in public health and those who wish to learn how their field impacts their global issues. Prereq> None
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Program & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ENTOM 299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & prior written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ENTOM 302 Introduction to Entomology Credits: 4
Principles including morphology and classification; a general collection of insects required of each student. Prereq> An elem course in zoology
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENTOM 321 Physiology of Insects Credits: 3
Anatomy, histology and basic physiology of organ systems in insects. Prereq> Entom 302 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 331 Taxonomy of Mature Insects Credits: 4
Principles of taxonomy, identification and taxonomic morphology of adult insects. Prereq> Entomol/Zool 302
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 342 Insect Ecology Credits: 3
Ecology of insects as individuals, populations, and components of communities and ecosystems. Emphasis on interactions of insects with their biotic and abiotic environment. Prereq> Entom/Zool 302 or course in zool; Math 112 or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 351 Principles of Economic Entomology Credits: 3
Major economic insects: identification, life histories, bionomics, distribution, control; procedures in fundamental and practical inquiry. Prereq> Intro course in zoology
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
ENTOM 354 Diagnosing and Monitoring Pest and Nutrient Status of Field Crops
Credits: 1
This course is designed to provide students with information necessary to diagnosis and monitor corn, soybean, alfalfa and wheat for pests (insects, weeds, diseases) and nutrient deficiency symptoms including perspectives from Agronomy, Entomology, Horticulture, Plant Pathology and Soil Science. Proper soil and pest sampling information will be provided as will proper crop staging techniques which are essential for pest and nutrient management. Prereq: None
Typically Offered: Spring

ENTOM 371 Medical Entomology
Credits: 3
Arthropods of medical and veterinary importance, how they affect their hosts and transmit diseases. Prereq: Intro course in zool or vet sci
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 375 Special Topics
Credits: 1 - 4
Prereq: Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ENTOM 399 Coordinative Internship/Cooperative Education
Credits: 1 - 8
Prereq: So, Jr or Sr st & cons supervising inst, advisor, and internship program coordinator
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ENTOM 400 Study Abroad in Entomology
Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq: Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ENTOM 432 Taxonomy and Bionomics of Immature Insects
Credits: 4
Lectures on anatomy/morphology, taxonomy, bionomics of immature insects (ordinal and familial levels). Ametabola, Paleoptera, Plecoptera, Trichoptera not covered in lecture (will be examined in lab). Labs emphasize utilizing taxonomix keys for identification (order and family). Required field trips and collection. Prereq: Entom 302 or equiv, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENTOM 450 Basic and Applied Insect Ecology
Credits: 3
Basic and Applied Insect Ecology is advanced course in population and community ecology, plant-insect interactions, insect biodiversity and biogeography, and applied ecology. The course will weave basic ecological theory and principles with their application to entomological problems such as conservation, biological control, agriculture, and insect-vectored diseases of plants and humans. We will use the current entomological and ecological scientific literature and draw on examples from a broad range of natural and managed ecosystems. As the semester progresses, the scope of the lectures and literature will broaden from pairwise species interactions (e.g., a predator and its prey) to the ent...
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 451 Basic and Applied Insect Ecology Laboratory
Credits: 1
Basic and Applied Insect Ecology Laboratory/Discussion is the companion course for the lecture-based Basic and Applied Insect Ecology (Entomology 450). This course will include hands-on experiences such as labs, field trips, computer exercises, and discussions based on readings in the primary literature to enhance and delve into more details on materials introduced in the course lectures. Prereq: Concurrent or previous enrollment in Entomology 450, consent of instructor for undergraduates
L&S Breadth: Biological Science  L&S Level: Advanced  Typically Offered: Fall

ENTOM 468 Studies in Field Entomology
Credits: 3
Period of intensive field work (2 weeks) outside Madison area. Concentration on structural, behavioral adaptations of insects to diverse habitats; dynamic relations between insects and plants, other animals and other insects. Student field project, literature review presentation required. Prereq: Entom 302, Junior standing, and consent of instructor. (Recommended ecology course & Entom 331 or 432)
L&S Credit: No degree credit in L&S  Typically Offered: Summer
ENTOM 472 Molecular Evolution Credits: 3
Basic principles of molecular evolution. Lecture topics include population genetics, molecular phylogenetics, rates and patterns of evolution, genome evolution, and molecular ecology. While emphasis will be on insect model systems, examples from other groups of organisms also will be presented. Prereq> Genetics 466 or Biocore sequence, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENTOM 473 Plant-Insect Interactions Credits: 3
Multiple ways in which arthropods exploit plants, plant traits that deter or augment insects, environmental mediation of these interactions, effects on population dynamics, community ecology and co-evolution, and implications to natural resource management, environmental quality, and sustainable development. Prereq> One of the following: Bot/For/Zoo 460, Ent/Pl Path/For 500, Pl Path/Bot 505, Forestry 550, or Entom 342
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENTOM 500 Insects in Forest Ecosystem Function and Management Credits: 2
Roles of insects in the functioning of healthy forest ecosystems, tactics for addressing challenges they pose to sustainable natural resource management, environmental alteration, and climate change that influence interactions among insects, their microbial associates, forests, and humans. Prereq> Botany 151 & 152 or equivalent
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit

ENTOM 505 Plant-Microbe Interactions: Molecular and Ecological Aspects Credits: 3
Molecular and ecological aspects of the interactions between plants and microorganisms. This course explores many of the themes, from genetic to integrative, of modern biology, and illustrates how study of plant-microbe interactions contributes to understanding of fundamental plant science. Prereq> An upper level crse in microbiol (e.g. Bact 303); biochem (e.g. Biochem 501); & genetics (e.g. Genetics 466) or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 530 Insect Behavior Credits: 3
Comparative behavior of insects. Function and evolution. Prereq> Entom 302 or equiv; Zool 330 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENTOM 532 Aquatic Insects Credits: 4
The biology, ecology and identification of aquatic insects and their importance to people. In laboratories and on field trips students will learn to identify aquatic insects to genus and to recognize common families by sight.
Prereq> Entom 302 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ENTOM 540 Theoretical Ecology Credits: 3
Introduction to theoretical ecology, including hands-on experience in computer modeling. For students with ecology background; does not require a strong math background. 3-credit option requires project and consent of instructor. Prereq> 1 year calculus, Zoo/Bot 260, Zoo/Bot/For 460 or equiv, & Jr st
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENTOM 601 Seminar in Methods of Scientific Oral Presentations Credits: 1
Training for the presentation of short talks. Prereq> Senior standing
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ENTOM 606 Colloquium in Environmental Toxicology Credits: 1
Current topics in molecular and environmental toxicology and problems related to biologically active substances in the environment. Topics vary each semester. Lectures are by resident and visiting professors and other researchers.. Prereq> Biology/Zoology 101, Biology/Botany 130, or equivalent
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENTOM 630Ecotoxicology: Toxicant Effects on Ecosystems Credits: 3
Study of how toxicants mediate interactions between organisms and their biotic and abiotic environments. Addresses biochemical and physiological mechanisms of toxicity; defenses against toxicants; population, community, ecosystems and evolutionary ecotoxicology; socio-economic impact and current research. Prereq> Two semesters intro biology & one semester organic chem or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
ENTOM 632 Ecotoxicology: The Chemical Players Credits: 1
Introduction to natural and man-made toxins/toxicants, their distribution, transport, and fate in the environment. Includes lectures, current research presentations, and discussions. Prereq> 2 sem intro biol & 1 sem organic chem, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ENTOM 633 Ecotoxicology: Impacts on Individuals Credits: 1
Addresses absorption, biotransformation, elimination of toxins in a wide variety of taxa (plants, invertebrates, vertebrates), and includes lectures, current research presentations, and discussions. Prereq> M&EnvTox 632, or 2 sem intro biol & M&EnvTox 631, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ENTOM 634 Ecotoxicology: Impacts on Populations, Communities and Ecosystems Credits: 1
Focuses on the impact of toxicants on populations, communities, ecosystems, and includes risk evaluation. Includes lectures, current research presentations, and discussions. Prereq> M&EnvTox 633, or M&EnvTox 625, 626 & 631, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ENTOM 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors candidacy
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ENTOM 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Entom 681
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ENTOM 691 Senior Thesis Credits: 2
Prereq> Senior standing & consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ENTOM 699 Special Problems Credits: 1 - 4
Prereq> Cons inst & Sr st
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENTOM 701 Advanced Taxonomy Credits: 3
Prereq> Entom 331 and cons inst
Typically Offered: Occasionally

ENTOM 711 Multivariate Analysis of Ecological and Community Data Credits: 2
This course will examine some common methods of multivariate data analysis in ecology and environmental science. Often called "community data analysis," this class will cover methods for the analysis of complex, multidimensional datasets that are collected in the study of plant, invertebrate, fish, and bird communities. We will also address the concurrent analysis of the environmental factors that may drive community distributions. All of this provides the basis for predictive modeling of distributions across landscapes. General methods we will cover include ordination (PCA, DCA, NMDS, CCA), clustering (or classification), and other comparative analyses of data matrices (ANOSIM, Mantel tests)
Typically Offered: Fall

ENTOM 799 Practicum in Entomology Teaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Occasionally

ENTOM 801 Colloquium Credits: 1
Prereq> Grad st
Typically Offered: Occasionally
ENTOM 820 Foundations of Evolution Credits: 2
Through reading and analysis of the primary literature, this course will explore some of the most important themes and debates that have permeated evolutionary biology over the last 50 years. Students will read key papers related to each controversial topic, will debate the pros and cons of competing viewpoints, and will reflect on the relevance of the issues to contemporary evolutionary biology. Students will also write a paper that analyzes one topic in more detail. This course is intended for graduate students who plan to specialize in evolutionary biology, broadly construed. Prereq> None
Typically Offered: Fall

ENTOM 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ENTOM 901 Seminar in Organismal Entomology Credits: 1
Presentations from the original literature on developments in natural products chemistry, biochemistry, physiology, developmental biology and/or ultrastructure of insects. Prereq> Grad st
Typically Offered: Occasionally

ENTOM 903 Seminar in Evolutionary Entomology Credits: 1
Presentation from the original literature on developments in the evolution, ecology, behavior and/or systematics of insects. Prereq> Grad st
Typically Offered: Occasionally

ENTOM 905 Seminar in Applied Entomology Credits: 1
Presentations from the original literature on developments in integrated pest management, insect-plant interactions medical entomology, and/or insect pathology. Prereq> Grad st
Typically Offered: Occasionally

ENTOM 950 Interdisciplinary Seminar in Animal Behavior Credits: 1
Research methods in animal behavior studies in many disciplines. Prereq> Grad st
Typically Offered: Occasionally

ENTOM 953 Introduction to Ecology Research at UW-Madison Credits: 1 - 2
This seminar course will introduce new graduate students to the diversity of ecologists across the UW-Madison campus. Course meetings will include discussions of key topics in professional development, research presentations by faculty members, and discussions of assigned papers with senior graduate students. Prereq> None
Typically Offered: Fall

ENTOM 990 Graduate Research and Thesis Credits: 1 - 12
Prereq> Grad st & cons inst
Typically Offered: Occasionally

FOOD SCIENCE

FOOD SCI 1 Cooperative Education/Co-op in Food Science Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Food Sci 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

FOOD SCI 120 Science of Food Credits: 3
Lecture. Relationship between food, additives, processing and health. How foods are processed. Current food controversies. Prereq> Open to Freshmen
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

FOOD SCI 201 Discovering Food Science Credits: 1
Introduction to the food industry for incoming (freshmen and transfers) Food Science majors. Provides a brief introduction to the different areas of study and career opportunities within the food industry. Prereq> Fr or So st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring
FOOD SCI 235 Nature of Food  Credits: 3
Chemical, physical and microbiological nature of food and manipulation of these factors to produce characteristics of food associated with good quality and acceptability. Prereq> One yr HS chem or Chem 103 or 108. Open to Fr
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

FOOD SCI 236 Nature of Food - Laboratory  Credits: 1
The reactions and functions of food components in food preparation. Prereq> Food Sci 235 or con reg & required for major or cons inst. Open to Fr
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

FOOD SCI 289 Honors Independent Study  Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Program & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

FOOD SCI 299 Independent Study  Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

FOOD SCI 301 Introduction to the Science and Technology of Food  Credits: 3
Introduction to the science and the technology of food manufacture. Course covers the basic chemical, physical and microbiological properties of food and manipulation of these properties in the manufacture of food products. Prereq> Declared major in Food Science, Nutritional Sciences (Dietetics, International Agriculture and Natural Resources) or Biological Systems Engineering; and algebra, 1 semester of general chemistry, and 1 semester biology, or concurrent registration, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

FOOD SCI 305 Introduction to Meat Science and Technology  Credits: 4
Application of biological, technological, and economical principles to muscle and related tissue utilized for food. Prereq> Zool 101 & 102, or Zool 151 & 152 (recommended); Chem 103
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 321 Food Laws and Regulations  Credits: 1
Food laws and regulations, regulatory and commerical grading standards used in the food industry. Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 324 Food Microbiology Laboratory  Credits: 2
Lab exercises dealing with food preservation, spoilage, and food poisoning. Isolation, identification and quantification of specific microbes occurring in foods, and food fermentations by bacteria and yeast. Prereq> Bact 102 or 304; Bact/Food Sci 325 or con reg
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

FOOD SCI 325 Food Microbiology  Credits: 3
Principles of food preservation, epidemiology of foodborne illness, agents of foodborne illness, food fermentations and biotechnology. Prereq> Bact 101 or 303 or MM&I 301 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

FOOD SCI 375 Special Topics  Credits: 1 - 3
Subjects of current interest to undergraduates. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

FOOD SCI 399 Coordinative Internship/Cooperative Education  Credits: 1 - 8
Prereq> So or Jr or Sr st & cons supervising inst, advisor & internship coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

FOOD SCI 400 Study Abroad in Food Science  Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
FOOD SCI 410 Food Chemistry Credits: 3
Nature and chemical behavior of food constituents including proteins, lipids, carbohydrates, water, and enzymes. 
Prereq> Food Sci 301 (BC or better); & Chem 343 & concurrent registration in Biochem 501 or consent of instructor or ABE or PAE degree classification & Chem 343
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

FOOD SCI 412 Food Analysis Credits: 4
Lecture and lab. Application of quantitative techniques to the determination of composition and quality of food products. Prereq> Stat 301 or 371 (or equivalent) & Food Sci 410, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 412 Food Analysis Credits: 4
Lecture and lab. Application of quantitative techniques to the determination of composition and quality of food products. Prereq> Stat 301 or 371 (or equivalent) & Food Sci 410, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 412 Food Analysis Credits: 4
Lecture and lab. Application of quantitative techniques to the determination of composition and quality of food products. Prereq> Stat 301 or 371 (or equivalent) & Food Sci 410, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 432 Principles of Food Preservation Credits: 3
Fundamentals of food preservation methods: post-harvest, thermal processing, refrigeration and freezing, control of water activity, chemical preservation, nonthermal methods and control of food packaging. Prereq> FS 410 & FS 440 & FS 325, or consent instructor, or ABE or PAE degree classification and FS 410 & FS 325
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 437 Food Service Operations Credits: 3
Principles and methods of technical operations in quantity foodservice systems; menu planning, purchasing, production, service and cost control. Prereq> Students in the dietetics program be ADI approved as a new prerequisite for this course and have taken Food Science 301
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 438 Food Service Operations Lab Credits: 1
Procurement and production methods used to control costs in foodservice operations; field trips. Prereq> Con reg Food Sci 437
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 440 Principles of Food Engineering Credits: 3
Lecture. Application of engineering principles in the analysis of food process operations: properties of gases and vapors, psychrometrics, material and energy balances, fluid flow, heat transfer, microwave heating, mass transfer, packaging film permeability, dehydration. Prereq> Food Sci 301 (BC or better); & Math 211 or Math 221 (or equivalent); & Physics 103 (or equivalent); or consent of instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

FOOD SCI 441 Rheology of Foods and Biomaterials Credits: 3
Fundamentals of rheology and rheological evaluations of food and biomaterials; structure-function relationships. Prereq> Physics 201 or CBE 320 or ME 363 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 446 Statistics for Food Industry Quality Control Credits: 3
Application of statistics for the purpose of monitoring and controlling food industry production. Applications of discrete and continuous distributions as tools for inferring production quality and efficiency. Topics include hypothesis formation and testing, confidence intervals, and graphics for presentation. Prereq> Stat 201 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 511 Chemistry and Technology of Dairy Products Credits: 3
Chemistry of milk components (i.e. protein, lipids, carbohydrate, salts, enzymes) with an emphasis on chemical and physical changes that occur during the manufacture of a range of milk products (i.e. ice cream, butter, cheese). Dairy technology and microbiological quality. Prereq> Food Sci 410, or consent of instructor
Typically Offered: Spring

FOOD SCI 512 Principles of Food Chemistry-Lab Credits: 2
Lectures and demonstrations on methodology in food chemistry; experiments on the chemistry of organic constituents; lipids, proteins, carbohydrates and other organic constituents of foods. Prereq> Food Sci 410 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall
FOOD SCI 514 Integrated Food Functionality Credits: 4
Molecular basis of food functional properties; impact of ingredients and processing on functional properties
(texture, flavor, nutrition and structure); design of new or reformulating foods to meet specific quality expectations.
Prereq > Food Sci 602 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

FOOD SCI 515 Commercial Meat Processing Credits: 2
Principles and procedures in the commercial manufacture of processed meat products; sausage manufacturing,
curing, smoking, freezing and packaging.  Prereq> An Sci 305 or Food Sci 410 or cons inst. Zool 101 & 102, or
Zool 151 & 152 (recommended); Chem 103
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 532 Integrated Food Manufacturing Credits: 4
Procedures used to process and preserve foods on a commercial basis, with emphasis on concentration,
dehydration and fractionation process, plant sanitation/HACCP/GMP, statistical process control, and
environmental impacts..  Prereq> Food Sci 432; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 535 Confectionery Science and Technology Credits: 3
Through a combination of on-line lectures, classroom activities, evaluation of commercial samples and discovery-
based labs, the science and technology of confections from hard candy to chocolate will be covered.  Prereq>
Food Sci 410, Food Sci 432, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

FOOD SCI 537 Organization and Management of Food and Nutrition Services Credits: 3
Lecture. Principles of organization; the management process in foodservice systems; allocation of resources;
budget development, personnel supervision and evaluation.  Prereq> Food Sci 437 & M H R 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 542 Food Engineering Operations Credits: 4
Lectures and experiments in food engineering operations selected from topics such as: thermodynamics,
transport processes, biological kinetics and bioreactor design, thermal process calculations, separation
processes, process instrumentation and control, process design and economics, and the use of computers.
Prereq> Food Sci 440, Sr st, or cons inst
General Education:  QR-B  L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit
Typically Offered: Spring

FOOD SCI 550 Fermented Foods and Beverages Credits: 2
Lecture. Chemistry, microbiology, and technology of foods and beverages in which fermentations are important
(e.g. cheese, bread, pickles, beer). Fermentation techniques in developing new foods and food additives.
Instrumentation and mechanization of food fermentations. Field trips.  Prereq> Biochem 501 or consent of
instructor
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

FOOD SCI 565 Food Process Engineering Credits: 3
Application of engineering principles to the quantitative analysis of food processing systems. Physical/chemical
characteristics of biological systems, flow processes, preservation processes and separation processes.  Prereq>
CBE 326 & 426; Chem 345
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 600 Professional Practice in Food Science Credits: 1
Addresses information retrieval, use of statistics in experimental design, professional responsibility and ethics;
mechanics of writing technical reports and giving oral presentations; proposal writing; creative thinking and
problem-solving.  Prereq> Sr or Grad st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

FOOD SCI 602 Senior Project Credits: 2
Part one of senior capstone requirement. Working as teams, students conduct research around a problem
pertinent to the food industry. Weekly discussions plus laboratory. Data collection and analysis and report writing
are critical components of this course.  Prereq> Food Sci 412 & Sr st in food sci, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall
FOOD SCI 603 Senior Seminar Credits: 1
Part two of senior capstone requirement. Students will present data gathered and analyzed as part of the senior project. Prereq> Food Sci 602
General Education: COM B L&S Credit: No degree credit in L&S Typically Offered: Spring

FOOD SCI 610 Food Proteins Credits: 2
Lecture. Protein structure and functions; techniques of protein isolation and characterization; functional properties important in food processing. Prereq> Biochem 501 or 601 & cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

FOOD SCI 611 Chemistry and Technology of Dairy Products Credits: 3
Chemistry of milk components (i.e. protein, lipids, carbohydrate, salts, enzymes) with an emphasis on chemical and physical changes that occur during the manufacture of a range of milk products (i.e. ice cream, butter, cheese). Dairy technology and microbiological quality. Prereq> Food Sci 310 or cons inst
Typically Offered: Spring

FOOD SCI 612 Food Enzymes Credits: 2
The nature of enzymes; the industrial production of enzymes and their utilization in food processing and analysis; enzymes and food deterioration; localization of enzymes in food tissues; and the future of enzymes in food research. Prereq> Biochem 501 or 601 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

FOOD SCI 640 Phase Transitions in Foods Credits: 2
Phase transitions, both liquid-solid and vapor-liquid, of importance in foods; crystallization processes; glass transition theory; moisture gain and loss during storage of foods. Prereq> Grad st or cons inst
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

FOOD SCI 642 Food and Pharmaceutical Separations Credits: 2 - 3
Basic principles of production-scale separation processes in the food and pharmaceutical industries including gravity sedimentation and centrifugation, extraction, adsorption, chromatography, precipitation, conventional and membrane filtration, crystallization, and drying. Third credit adds group term project, integrating principles with experiments, defined by students' interests. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

FOOD SCI 650 Advanced Microbiology of Foodborne Pathogens Credits: 3
Infectious and toxigenic agents of foodborne disease: detection, identification, and control methods; ecology and survival strategies of pathogens in foods; virulence mechanisms of foodborne pathogens. Prereq> Bact/Food Sci 325 or cons inst
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

FOOD SCI 670 Trends in Food Safety: Epidemiology, Physiology and Control Credits: 2
Current trends in food safety: emerging pathogens; impact of new generation foods on ecology and physiology of pathogens; new technologies in control and detection/typing. Prereq> Bact/Food Sci 325; Food Sci/Bact 650 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

FOOD SCI 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors program candidacy
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

FOOD SCI 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Food Sci 682
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

FOOD SCI 699 Special Problems Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

FOOD SCI 704 Advanced Food Toxicology Credits: 2
Chemical hazards in foods, including methods for detection, evaluation of the safety of foodborne chemicals, biological responses to foodborne toxins, mechanisms of toxic action, and naturally-occurring foodborne toxicants. Prereq> Chem 343 and 344, Biochem 501, Food Sci/Bact 350, or cons inst
Typically Offered: Occasionally
FOOD SCI 710 Chemistry of the Food Lipids Credits: 2
Chemical constitution, structures, reactions, stereochemistry of fats, phospholipids, related compounds; methods of isolation, characterization; synthesis; relation of structure to physical properties. Prereq> Biochem 601; Chem 341 or cons inst
Typically Offered: Occasionally

FOOD SCI 714 Food Flavors Credits: 1
First half of semester; lecture. Chemical definition of flavors; flavor development, preservation and deterioration; taste and odor perception; subjective flavor evaluation. Prereq> Biochem 501 or 601; Chem 341 or 343; Food Sci 510; Stat 301; or cons inst
Typically Offered: Occasionally

FOOD SCI 718 Colloid Chemistry of Foods Credits: 2
Application of principles of colloid chemistry to various food colloids, for example, casein, milk fat globules, gelatin, gluten, starch. These systems are studied from the following standpoints: size distribution; transport behavior; suspension stability. Prereq> Chem 561 or 565 or equiv; Biochem 501 or equiv
Typically Offered: Occasionally

FOOD SCI 799 Practicum in Food Science Teaching Credits: 1 - 3
Teaching experience for PhD candidates. Prereq> Grad st & cons inst
Typically Offered: Occasionally

FOOD SCI 875 Special Topics Credits: 1 - 3
New graduate and courses of current interest. Prereq> Grad st and cons inst
Typically Offered: Occasionally

FOOD SCI 900 Seminar Advanced Credits: 1
Research literature and current departmental research. Prereq> Food Sci 600 or equiv
Typically Offered: Fall, Spring

FOOD SCI 990 Research Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally

FOREST AND WILDLIFE ECOLOGY

F&W ECOL 1 Cooperative Education/Co-op in Forest & Wildlife Ecology Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in F&W Ecol 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring

F&W ECOL 100 Introduction to Forestry Credits: 2
Relationship of humans to forest resources. Roles of the forester in manipulating the forest environment to produce goods and services desired by contemporary society. Current issues in forest resource management and policy, with emphasis on the relation to environmental quality and natural resources. Prereq> Open to Fr
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring

F&W ECOL 101 Orientation to Wildlife Ecology Credits: 1
Introduction to the Wildlife Ecology major and the profession of wildlife management/conservation. Emphasis on preparing students for a successful career. Prereq> For WI Ecol majors. Open to Fr
L&S Credit: No degree credit in L&S
Typically Offered: Fall

F&W ECOL 110 Living with Wildlife - Animals, Habitats, and Human Interactions Credits: 3
A general survey course of wildlife and wildlife conservation for non-majors. Basic characteristics and management of wildlife populations and habitats. Human perceptions and interactions with wildlife. Current issues in wildlife management and conservation. Prereq> Open to all undergrads
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit
Typically Offered: Spring
F&W ECOL  205 Scientific and Professional Computing in Natural Resources Credits: 2
Application of computer software, especially spreadsheet, database and geographic information system (GIS), in a scientific and professional setting using real world research and management data sets. Emphasis is on data analysis and preparation of publication and presentation products in natural resources fields.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

F&W ECOL  230 Introduction to Resource Based Recreation Credits: 1
An overview of outdoor recreation definition; concepts; behaviors; motivation; and trends relative to agencies with responsibilities for the management of protected areas such as parks and public lands. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

F&W ECOL  248 Environment, Natural Resources, and Society Credits: 3
Introduces the concerns and principles of sociology through examination of human interaction with the natural environment. Places environmental issues such as resource depletion, population growth, food production, environmental regulation, and sustainability in national and global perspectives. Prereq> Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

F&W ECOL  289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Program & Sophomore or Junior standing, Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

F&W ECOL  299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

F&W ECOL  300 Forest Biometry Credits: 4
Basic concepts of statistical inference and sampling theory as applied to forestry. Estimation of tree and forest characteristics. Use of aerial photographs; principles of data processing; information gathering and decision making under uncertainty. Prereq> Stat 201 or Stat 224 or Stat 301 or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL  305 Forest Operations Credits: 2
Introduction to forestry operations in the implementation of forest plans, including site preparation, stand establishment, and harvesting systems. Analysis of costs and productivity, including system balance, marketing, timber procurement, and contractual services. Prereq> Forestry 300 or 410
L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL  306 Terrestrial Vertebrates: Life History and Ecology Credits: 4
Life history, ecology, distribution, and taxonomy of reptiles, amphibians, birds, and mammals. Birds will receive less emphasis. Primary focus is on Wisconsin species, including conservation threats, but covers all major North American families, and surveys major groups of the world. Designed as a foundation for detailed study of vertebrates or to satisfy the need for a scientific introduction to Wisconsin vertebrates. Prereq> Sophomore standing & an elementary course in Zoology
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL  309 Diseases of Trees and Shrubs Credits: 3
Fundamental disease concepts, pathogens and causal agents, diagnosis, and biologically rational principles and practices for management of diseases of trees and shrubs. For degree students and professionals. One extended lecture with discussion and one lab or field trip per week. Prereq> One semester of plant sci or consent of instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL  312 Wood Identification Credits: 1
Introduction to gross and microscopic characteristics of wood. Identification of visual characteristics of twenty-eight major U.S. wood species using 10x magnification. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL  314 Wood, Industrial Use, and Society Credits: 3
This course is an introduction to wood as an industrial raw material with content covering the biological nature of wood, mechanical and biological properties of wood, technology and products of wood, and the regional, national, and global demand for wood and forest products. Prereq> Forestry 312 or con reg or cons inst
Typically Offered: Spring
F&W ECOL  318 Principles of Wildlife Ecology  Credits: 3
Major environmental factors affecting wildlife; structure and behavior of wildlife populations; regional wildlife communities and their conservation.  Prereq> High School biology. Open to Fr.  Restricted to Wildlife Ecology majors
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL  330 Resource-Oriented Recreation Management  Credits: 3
Description and evaluation of outdoor recreation resource management problems and issues on public lands; analysis of the influence of different organizational structures and decision-making strategies on planning, resource management and conflict resolution; examination of vegetation and wildlife management for preservation and recreation purposes.  Prereq> Junior standing; intro courses in stats, ecology & poli sci, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

F&W ECOL  335 Human/Animal Relationships: Biological and Philosophical Issues  Credits: 3
An interdisciplinary approach to our complex and often contradictory relationships with non-human animals, including information about the nature, needs and behavior of human and non-human animals in relation to our personal and professional interactions with them.  Prereq> So st
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL  336 Nutrient Management: Nursery Tree Crops  Credits: 1
Soil and nutrient management for nursery stock production; fertilizers and fertilization in tree nurseries; nursery cultural practices; control of weeds, pathogen and insect diseases; role of microorganisms - mycorrhizae; survival potential and quality indices of planting stock.  Prereq> Soil Sci/Hort/Agron 326 or cons inst
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

F&W ECOL  360 Extinction of Species  Credits: 3
A comprehensive treatment of the ecology, causes, and consequences of species extinction. Ecology and problems of individual species, habitat alteration and degradation, socio-economic pressures and conservation techniques and strategies.  Prereq> So st. An intro biology course strongly recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Summer

F&W ECOL  371 Introduction to Environmental Remote Sensing  Credits: 3
Introduction to the Earth as viewed from above, focusing on use of aerial photography and satellite imagery to study the environment. Includes physical processes of electromagnetic radiation, data types and sensing capabilities, methods for interpretation, analysis and mapping, and applications.  Prereq> Math 114 & Sophomore standing
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL  372 Intermediate Environmental Remote Sensing  Credits: 3
Examines intermediate-level concepts in information extraction, data processing and radiative transfer relevant to remote sensing of the environment. Includes transforms, image correction, classification algorithms and change detection, with emphasis on applications for land use planning and natural resource management.  Prereq> Envir St 301 or consent of instructor, sophomore standing
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

F&W ECOL  375 Special Topics  Credits: 1 - 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

F&W ECOL  379 Principles of Wildlife Management  Credits: 3
Ways of conserving desired numbers of animals for the overall best interests of society, be they aesthetic, ecological, economic, commercial or recreational; includes management of endangered species, exploited species, wildlife communities in nature reserves, and wildlife pests.  Prereq> WI Ecol 318 or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL  399 Coordinative Internship/Cooperative Education  Credits: 1 - 8
Prereq> So, Jr or Sr st and cons of supervising inst, advisor, and internship program coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
F&W ECOL 400 Study Abroad in Forest and Wildlife Ecology Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

F&W ECOL 401 Physiological Animal Ecology Credits: 3
Physiological adaptation and function in wild animals, primarily birds, mammals, reptiles, amphibians. Focus on interactions between animals and their environment, and relationships between animal physiology and the ecology and dynamics of populations. Prereq> Jr st and basic zoology course
L&S Breadth: Biological Science L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

F&W ECOL 402 Dendrology Credits: 2
Identification, ranges, uses, and some ecological characteristics of evergreen and deciduous woody plants, both native and cultivated; lab and field work. Prereq> A 5 cr intro college crse in bot or equiv
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit

F&W ECOL 403 Geometric Analysis of Vertical Aerial Photographs Credits: 1
Elementary photogrammetric procedures for obtaining reliable measurements from aerial photographs. Photographic measurements and refinements; geometry of vertical aerial photographs; scale and relief displacement; stereoscopy and parallax. Introduction to stereopltters and orthophotoscopes. Camera calibration. Introduction to analytical photogrammetry and flight planning. Prereq> Math 221 or equivalent & Civ Engr 301, or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

F&W ECOL 404 Wildlife Damage Management Credits: 3
Theory and application of wildlife management from a species-specific and situational perspective. Introduction to career options in wildlife damage management. Prereq> F&W ECOL 379, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

F&W ECOL 410 Principles of Silviculture Credits: 3 - 4
Ecologically-based forest management principles for sustainable timber production, maintenance or restoration of biological diversity, and maintenance of aesthetic quality and site productivity. Includes coverage of even-aged and uneven-aged management, reforestation principles, and ecological restoration techniques. Prereq> Intro crse in ecology & Jr st, or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

F&W ECOL 415 Tree Physiology Credits: 3
Physiological basis of development of forest trees and stands, factors affecting tree growth. Prereq> Botany 350 or 500 or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

F&W ECOL 424 Wildlife Ecology Summer Field Practicum Credits: 2
Two week field class emphasizing research and habitat management techniques through individual and group field work, tours, demonstrations and lectures. Class held in northern Wisconsin, transportation and lodging provided. Prereq> Open to wildlife ecol majors only, Jr/Sr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Summer

F&W ECOL 430 Agroforestry Credits: 3
Introduction to the ecology and management of agroforestry systems in various agroecologic zones, with consideration of socioeconomic as well as biological opportunities/constraints on production. Prereq> Jr st or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

F&W ECOL 450 Communities and Forests Credits: 3
An examination on a global basis of the interactions between human communities and forests, with an emphasis on alternative approaches to community forestry management, drawing on both first and third world experiences. Prereq> Sr st
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring
F&W ECOL 451 Environmental Biogeochemistry Credits: 3
Emphasis is given to a consideration of the processes influencing the distribution and cycling of chemical elements in native and anthropogenic ecosystem-level cycles of elements, and biogeochemical cycling in major soil-biome systems. Prereq> Chem 103-104 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL 452 World Forest History Credits: 3
Examines world forest history, with attention to links between societal change and forest change. Examines how different peoples have used or abused the forest, how societies have struggled to establish policies governing forests, and how perceptions of forests have evolved.
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL 455 The Vegetation of Wisconsin Credits: 4
Ecology of Wisconsin plant communities: floristic composition, community structure; relationship to history, climate, soil, and geology; response to human perturbation. Lecture and lab. Prereq> Botany 100, or Botany 130, or Botany/Zoology 151-152, or Biocore 313
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL 460 General Ecology Credits: 4
Ecology of individual organisms, populations, communities, ecosystems, landscapes, and the biosphere. The interaction of organisms with each other and their physical environment. These relationships are studied, often in quantitative terms, in both field and laboratory settings; lecture and lab. Prereq> Intro course in botany & zoology, or Bot/Zoo 151-152, or Biocore 301 or 333; for biol sci majors only
General Education: QH-B  L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

F&W ECOL 461 Environmental Systems Concepts Credits: 3
A general systems approach to environmental problems: a philosophical-conceptual framework and a quantitative methodology for dealing with critical environmental issues that cross the boundaries of traditional disciplines. The nature of general systems, concepts and laws; the role of perspective in identification of system properties; the structure and behavior of environmental and ecological systems. For students with strong interests in environmental problems. Prereq> Envir St 126 & a crse in biology, or enroll in envir st undergrad prog. Authorization may be required
L&S Breadth: Interdivisional  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL 462 Environmental Systems Methods Credits: 3
L&S Breadth: Interdivisional  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

F&W ECOL 500 Insects in Forest Ecosystem Function and Management Credits: 2
Roles of insects in the functioning of healthy forest ecosystems, tactics for addressing challenges they pose to sustainable natural resource management, and emerging issues such as biological invasions, habitat alteration, and climate change that influence interactions among insects, their microbial associates, forests, and humans. Prereq> Botany 151 & 152 or equivalent
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL 501 Forest Fire Behavior and Management Credits: 1
Principles and applications of forest fire behavior, prediction, control and use; current policy issues in fire management. Prereq> Forestry 100 or college level plant ecology course
L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL 510 Forest Pathology Credits: 2
Important diseases of forest and shade trees in North America. Economic importance and principles of forest disease control. Prereq> Pl Path 300 & 332 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable
F&W ECOL 515 Natural Resources Policy Credits: 3
This course examines natural resources policy and law in the United States relating to forests, wildlife, and other natural resources. The course investigates the policy-making process and the role of science, values, property, economics, and justice in the development of federal and state resources policy. Students are trained in professional written and oral communication and ethical engagement in resources policy and administration. Prereq> F&W ECOL 379, or 410, or consent of instructor
General Education: COM B  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

F&W ECOL 524 Urban Soil and Environment Credits: 3
Many environmental issues related to urbanization are derived from the manipulation of soil. By coupling contemporary literature in urban soils with soil science, students will be able to evaluate environmental issues within the urban environment and provide new ways of remediating their impact. Prereq> Soil Sci 301 or 230 L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL 527 Ecosystem Management Credits: 2
In depth review of the history of the ecosystem concept, biological foundations for, and human/economic dimensions of ecosystem-level management. Advanced seminar format for upper division undergraduate and graduate students. Prereq> Zool 460 or equivalent suggested L&S Credit: No degree credit in L&S  Typically Offered: Fall

F&W ECOL 530 Seminar: Topics and Issues in Recreation Resources Management Credits: 1 - 3
Topics and issues related to the management of resource based recreation behaviors, policies and practices. Prereq> Forest 230 & Jr st or cons inst L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

F&W ECOL 531 Natural Resource Economics Credits: 3
Economic concepts and tools relating to management and use of natural resources, including pricing principles, cost-benefit analysis, equity, externalities, economic rent, renewable and nonrenewable resources, and resource policy issues. Prereq> Econ 301 and Math 211, or equiv L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

F&W ECOL 548 Diseases of Wildlife Credits: 3
This course is designed to provide students with an overview of the issues involved across a wide range of wildlife diseases, presented within the context of ecosystem health or "one health". The primary focus of the lectures will be on the biological, epidemiological, clinical, public health and, in some cases, sociopolitical ramifications of wildlife diseases. The course will cover a wide variety of wildlife diseases caused by bacteria, viruses, parasites, prions, and environmental contaminants. Consequences associated with environmental changes on the manifestation of wildlife diseases will also be discussed. This range of diseases will be presented in order to familiarize students with L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL 550 Forest Ecology Credits: 3
Introduction to major abiotic and biotic factors that influence forest ecosystem composition, structure, and function. Reviews important processes that influence structure and function of forest ecosystems. Uses basic ecosystem concepts to elucidate influence of anthropogenic (including forest management) and natural disturbances on forest ecosystem structure and function. Prereq> Five credit botany course L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL 551 Forest Ecology Lab Credits: 1
Forest Ecology laboratory is the companion course for the lecture-based Forest Ecology (F&W ECOL 550). The objective of the forest ecology laboratory is to review concepts that are presented in the classroom by exposing students to the key concepts and processes discussed in lecture that can best be seen in the field or illustrated with the use of ecosystem models. Prereq> Previous or concurrent enrollment in F&W ECOL 550 L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
F&W ECOL  560 Regional Hydrology  Credits: 3  
This is an introductory course on the hydrologic cycle, emphasizing a regional extent, and processes involved in the interaction between the hydrosphere and terrestrial biosphere. Models, remote sensing, and geographic information systems are used to extend process understanding to a regional level. Prereq> Geog 127 or Soil Sci 230 or 301 or equiv; Math 211 recommended  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL  561 Wildlife Management Techniques  Credits: 3  
Preparation of collections, analyses of food habits, sex and age determinations, censuses, trapping and banding, planting food and cover, research techniques. Prereq> Cons inst  
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL  565 Principles of Landscape Ecology  Credits: 2  
Landscape ecology emphasizes the importance of spatial patterns at broad scales. Concepts and applications are emphasized, especially for seniors and graduate students in applied natural resource fields. The course is also a prerequisite for Zoology/Forest Ecology 665, Advanced Landscape Ecology. Lecture format with discussion. Prereq> Botany/Zoology/Forest 460, or Forest 550, a crse in stats, & cons inst  
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL  571 Statistical Methods for Bioscience I  Credits: 4  
Descriptive statistics, distributions, one- and two-sample normal inference, power, one-way ANOVA, simple linear regression, categorical data, non-parametric methods; underlying assumptions and diagnostic work. Prereq> College algebra; Grad st or cons inst  
General Education: QR-B  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL  572 Statistical Methods for Bioscience II  Credits: 4  
Continuation of Forestry 571. Polynomial regression, multiple regression, two-way ANOVA with and without interaction, split-plot design, subsampling, analysis of covariance, elementary sampling, introduction to bioassay. Prereq> Stats/Forestry/Hort 571  
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL  590 Integrated Resource Management  Credits: 3  
Resource management planning in state and federal land management agencies. Students apply principles by working in teams to develop a management plan for a real property by inventorying resources; developing management objectives and alternatives; and analyzing their ecological, social and institutional implications.  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

F&W ECOL  599 Wildlife Research Capstone  Credits: 3  
Capstone synthesis for wildlife ecology majors preparing themselves for a wildlife research career. Students develop a professional-quality research proposal for an extended project, carry out a pilot ecological field study, and design and implement a social survey questionnaire. Prereq> Sr st & WI Ecol 561  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL  600 Forest Taxation  Credits: 1 - 2  
Analysis of major types of taxes affecting forest land ownership and management. Past and current policy directions. Presentation of analytical models for determining impact of taxes upon resource allocation decisions and criteria for judging social desirability of taxes. Prereq> Intmed crse in econ or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

F&W ECOL  606 Colloquium in Environmental Toxicology  Credits: 1  
Current topics in molecular and environmental toxicology and problems related to biologically active substances in the environment. Topics vary each semester. Lectures are by resident and visiting professors and other researchers.. Prereq> Biology/Zoology 101, Biology/Botany 130, or equivalent  
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

F&W ECOL  613 Lignin Chemistry  Credits: 1  
Structure and properties of lignin. Biosynthesis of lignin and characterization by chemical instrumental techniques. Mechanisms of lignin degradation reactions. Prereq> Chem 345  
Typically Offered: Occasionally
F&W ECOL 616 Paper and Nonwovens Credits: 1
Typically Offered: Occasionally

F&W ECOL 620 Dyeing of Fibrous Material Credits: 1
Clarification of dyes and pigments will be discussed. Emphasis will be placed on theory and mechanism of dyeing synthetics and natural fibers. Prereq> Chem 345
Typically Offered: Occasionally

F&W ECOL 630 Ecotoxicology: Toxicant Effects on Ecosystems Credits: 3
Study of how toxicants mediate interactions between organisms and their biotic and abiotic environments. Addresses biochemical and physiological mechanisms of toxicity; defenses against toxicants; population, community, ecosystems and evolutionary ecotoxicology; socio-economic impact and current research. Prereq> Two semesters intro biology & one semester organic chem or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

F&W ECOL 632 Ecotoxicology: The Chemical Players Credits: 1
Introduction to natural and man-made toxins/toxicants, their distribution, transport, and fate in the environment. Includes lectures, current research presentations, and discussions. Prereq> 2 sem intro biol & 1 sem organic chem, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

F&W ECOL 633 Ecotoxicology: Impacts on Individuals Credits: 1
Addresses absorption, biotransformation, elimination of toxins in a wide variety of taxa (plants, invertebrates, vertebrates), and includes lectures, current research presentations, and discussions. Prereq> M&EnvTox 632, or 2 sem intro biol & M&Envtox 631, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

F&W ECOL 634 Ecotoxicology: Impacts on Populations, Communities and Ecosystems Credits: 1
Focuses on the impact of toxicants on populations, communities, ecosystems, and includes risk evaluation. Includes lectures, current research presentations, and discussions. Prereq> M&EnvTox 633, or M&EnvTox 625, 626 & 631, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

F&W ECOL 635 Forest Stand Dynamics Credits: 1 - 2
Changes in forest species composition and structure at the stand and landscape level resulting from tree growth, competition, succession, and disturbance. Methods for reconstructing past stand development and forecasting future trajectories. Selected applications in forest management and natural areas management. Prereq> Crse in silviculture or ecology (Botany 460 or equiv) & crse in stats. Sr or Grad st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

F&W ECOL 651 Conservation Biology Credits: 3
Application of ecological principles and human dimensions to the conservation of biological diversity. Topics: biodiversity science; conservation planning; population ecology; habitat loss, species exploitation, invasive species, pollution; human attitudes and activities as they affect the biosphere; approaches to monitoring interventions. Prereq> An ecology crse (eg, Botany/Zoology 460)
General Education: QR-B  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL 652 Decision Methods for Natural Resource Managers Credits: 3 - 4
Applications of quantitative methods, including optimization and simulation, to the management of natural resources, especially forests. Prereq> Math 211 or equiv & Comp Sci 132 or equiv
General Education: QR-B  L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

F&W ECOL 655 Animal Population Dynamics Credits: 3
Fluctuations of animal populations: techniques of study, documentation, controls. Prereq> WI Ecol 318 or equiv, and crse in stats
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
F&W ECOL 657 National Forest Management Practicum Credits: 1
Field training and experience; exposure to forestry operations, equipment, procedures, and management problems. A tour outside the lake states. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

F&W ECOL 658 Forest Resources Practicum Credits: 3
Field training and experience; exposure to forestry operations, equipment, procedures, and management problems. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Summer

F&W ECOL 660 Climate Change Ecology Credits: 3
The evidence that the Earth's climate is changing at unprecedented rates is now overwhelming. Environmental tipping points are being crossed and many species are adapting or failing to adapt. Climate change poses a significant problem for conserving and managing wildlife and their habitats. In this class, students will be introduced to climate change and its ecological impacts through engaging class discussions, online climate exercises, and group projects aimed at developing climate change adaptation plans. Prereq> Junior or Senior standing as a Forest Science or Wildlife Ecology major; graduate student standing; F&W Ecol/Zoology/Botany 460; or consent of instructor
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

F&W ECOL 672 Historical Ecology Credits: 2
Historical Ecology is an area of ecology that considers the importance of past events for current ecosystems. Concepts and applications are emphasized. Multidisciplinary emphasis, for seniors and graduate students in biological sciences, social studies, and humanities. Discussion format. Prereq> Graduate or senior standing and consent of instructor
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

F&W ECOL 675 Professional Development in Forest & Wildlife Ecology Credits: 1
This special topics course provides opportunities for students in Forest and Wildlife Ecology to receive additional training in professional development skills relevant to their careers in natural resources. Prereq> Forest Science or Wildlife Ecology major or graduate standing
Typically Offered: Fall, Spring, Summer

F&W ECOL 681 Senior Honors Thesis Credits: 2 - 4
Forestry research; an independent and original study guided by a staff member. Prereq> Hon candidacy
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

F&W ECOL 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Forest 681
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

F&W ECOL 699 Special Problems Credits: 1 - 4
Prereq> Sr st & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

F&W ECOL 711 Multivariate Analysis of Ecological and Community Data Credits: 2
This course will examine some common methods of multivariate data analysis in ecology and environmental science. Often called "community data analysis," this class will cover methods for the analysis of complex, multidimensional datasets that are collected in the study of plant, invertebrate, fish, and bird communities. We will also address the concurrent analysis of the environmental factors that may drive community distributions. All of this provides the basis for predictive modeling of distributions across landscapes. General methods we will cover include ordination (PCA, DCA, NMDS, CCA), clustering (or classification), and other comparative analyses of data matrices (ANOSIM, Mantel tests
Typically Offered: Fall

F&W ECOL 749 Social Policy and Management of National Parks and Protected Areas Credits: 3
Explores the relationship of social policy to the formation and management of U.S. National Parks in the past, present and future. Implications of social policy for park systems and preserves throughout the world are addressed. Prereq> Grad st or cons inst
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally
F&W ECOL  790 Special Problems Credits: 1 - 4
Prereq> Cons inst
Typically Offered: Occasionally

F&W ECOL  799 Practicum in Forestry and Wildlife EcologyTeaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct
teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis
of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Occasionally

F&W ECOL  840 Metapopulations and Other Advanced Topics Credits: 3
Explore the use of metapopulation models in ecology and conservation. The course will review population
dynamics, present the concepts of metapopulations and the implications to wildlife management and conservation
biology. Prereq> A basic crse in population dynamics
Typically Offered: Occasionally

F&W ECOL  875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

F&W ECOL  879 Advanced Landscape Ecology Credits: 3
Landscape ecology emphasizes spatial patterning--its development and importance for ecological processes--and
often focuses on large regions. Concepts, methods, and applications of landscape ecology will be learned through
lectures, readings, exercises in quantitative approaches, and an independent project. Prereq> Grad st & cons inst
Typically Offered: Occasionally

F&W ECOL  901 Colloquium in Forestry and Forest Products Credits: 1
Lectures, seminars, and discussion on current topics in forest biology, forest management, forest products, and
recreation.
Typically Offered: Occasionally

F&W ECOL  953 Introduction to Ecology Research at UW-Madison Credits: 1 - 2
This seminar course will introduce new graduate students to the diversity of ecologists across the UW-Madison
campus. Course meetings will include discussions of key topics in professional development, research
presentations by faculty members, and discussions of assigned papers with senior graduate students. Prereq>
None
Typically Offered: Fall

F&W ECOL  955 Practical Research Design and Methods of Empirical Inquiry Credits: 3
Provides a practical introduction to basic concepts of research question formulation, research designs and
alternative methods of inquiry, implications for internal validity of the research and generalizability of the findings,
operational definitions and measurement validity, reliability, utility and precision. Prereq> Grad st
Typically Offered: Occasionally

F&W ECOL  961 Wildlife Seminar Credits: 1
Monthly research reports and special topics.
Typically Offered: Occasionally

F&W ECOL  980 Earth System Science Seminar Credits: 1
Topics in earth system science. Emphasis on the coupling between atmospheric, oceanic and land surface
systems, involving physical geochemical and biological processes, and including interactions with human
systems. Prereq> Grad st
Typically Offered: Occasionally

F&W ECOL  990 Research and Thesis Credits: 1 - 12
Prereq> Grad st and cons inst
Typically Offered: Occasionally

F&W ECOL  999 Advanced Independent Study Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally
GENETICS

GENETICS 1 Cooperative Education/Co-op in Genetics Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Genetics 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring, Summer

GENETICS 133 Genetics and Human Affairs Credits: 3
The current advances in genetics and related life sciences and their social, ethical, and economic implications for human welfare. Object: to provide sufficient knowledge for intelligent and critical evaluation of issues arising from recent discoveries. Prereq> Open to Fr. Not open for cr to majors in biol sci or prem ed stdts. HS or coll biol crse recommended
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit
Typically Offered: Spring

GENETICS 155 Freshman Seminar in Genetics Credits: 1
This seminar will introduce freshman to the discipline of genetics, to the UW Laboratory of Genetics, to some of the research projects the faculty are pursuing, to resources available at UW-Madison, and to the career options open to an individual with a genetics undergraduate degree. Prereq> None
L&S Credit: No degree credit in L&S
Typically Offered: Spring

GENETICS 160 Heredity Credits: 3
Heredity; genetics for students not specializing in life sciences; principles of heredity; current advances in genetics applied to humans, animals and plants with their impact on life sciences and society. Lectures and discussion. Prereq> Cr ease open to all So; Open to Fr with cons inst; HS or college crse in biol recommended; not open to pre-med or sci major without cons inst
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit
Typically Offered: Fall

GENETICS 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Soph or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring, Summer

GENETICS 299 Independent Study Credits: 1 - 3
Prereq> Freshmen, Sophomore or Junior standing & written consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S
Typically Offered: Occasionally

GENETICS 375 Special Topics Credits: 1 - 4
Prereq> Cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit
Typically Offered: Occasionally

GENETICS 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So, Jr or Sr st and cons supervising inst, advisor, and internship program coordinator
L&S Level: Advanced L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring, Summer

GENETICS 400 Study Abroad in Genetics Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring, Summer

GENETICS 466 General Genetics Credits: 3
Genetics in eukaryotes and prokaryotes. Includes Mendelian genetics, mapping, molecular genetics, genetic engineering, cytogentic, quantitative genetics, and population genetics. Illustrative material includes viruses, bacteria, plants, fungi, insects, and humans. Prereq> Algebra, 1 yr chem & 1 yr biology or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring, Summer

GENETICS 470 Basic Cytology and Laboratory Procedures Credits: 1
A comprehensive review of cellular biology, the study of optical methods with emphasis on the light microscope and the various techniques used in preparation and staining of specimens for cytologic and histologic study. Prereq> Stdt must be enrolled in the cyto technology internship prgm at the WI State Lab of Hygiene
L&S Credit: No degree credit in L&S
Typically Offered: Fall
GENETICS 471 Advanced Laboratory Procedures Credits: 1
Preparation of non-gynecologic cytologic specimens using several different instrument methodologies. Application of universal precautions and safety in the handling of unknown biologic hazards. Introduction to histologic preparatory techniques and special staining methods. Prereq> Stdnt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Summer

GENETICS 472 Molecular Evolution Credits: 3
Basic principles of molecular evolution. Lecture topics include population genetics, molecular phylogenetics, rates and patterns of evolution, genome evolution, and molecular ecology. While emphasis will be on insect model systems, examples from other groups of organisms also will be presented. Prereq> Genetics 466 or Biocore sequence, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

GENETICS 545 Genetics Laboratory Credits: 2
Students gain practical experience in classical and molecular genetic laboratory techniques using plants, animals, and fungi. Topics include complementation and linkage analysis, gene mapping, library screening, yeast and bacterial transformation, restriction analysis, PCR, sequencing, and Southern blot analysis. Prereq> Genetics 466 or equiv
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

GENETICS 550 Molecular Approaches for Potential Crop Improvement Credits: 3
Introduction of basic concepts of plant molecular biology and molecular techniques in current use. Topics include: organization and regulation of plant genes, gene cloning and analysis, transformation systems for plants, and molecular techniques for crop improvement. Prereq> Biochem 501 and Genetics 466 or equiv courses
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 561 Introductory Cytogenetics Credits: 2 - 3
Mitosis, meiosis, variations in chromosome structure and number, cytological aspects of hybridity and apomixis; chromosomes as they affect breeding behavior. Prereq> Genetics, Botany, Zoology 466 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

GENETICS 562 Human Cytogenetics Credits: 2
Fundamental principles of cytogenetics and special problems of human cytogenetics for biology and medical students. Prereq> Genetics/Bot/Zool 160 or 466 or Med Genet 721 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

GENETICS 564 Genomics and Proteomics Credits: 3
The basic principles of genomics, proteomics and bioinformatics will be taught through readings of the scientific literature, class presentations, group projects and computer lab web-based experiences. Emphasis will be placed upon student participation in the learning process. Some topics covered will be: genomic sequencing, motif discovery, DNA microarray, high-throughput genetics, chemical genetics, mass spectrometry techniques and protein networks. Prereq> Genetics 466 and consent of instructor. Biochemistry 501 and Microbiology 303 are recommended
L&S Credit: No degree credit in L&S  Typically Offered: Spring

GENETICS 565 Human Genetics Credits: 3
Principles, problems, and methods of human genetics. Surveys aspects of medical genetics, biochemical genetics, molecular genetics, cytogenetics, quantitative genetics, and variation as applied to humans. Prereq> Genet 466 or equiv or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 566 Advanced Genetics Credits: 3
Principles of classical and molecular genetic analysis taught through readings in the scientific literature. Prereq> Genetics 466 (or equiv) & genetics major or cons inst. Required of all undergrad genetics majors
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
GENETICS 567 Companion Research Seminar Credits: 1
Student-led discussions on scientific, societal, and professional topics relevant to Senior research and selected original research presentations. This course is a companion seminar for independent research and together will fulfill the Genetics major capstone requirement. Prereq> Gen 466 or instructor consent. Must be taken concurrently with independent research Genetics 699 or Genetics 681/682 series
L&S Credit: No degree credit in L&S Typically Offered: Fall

GENETICS 568 The Central Nervous System Credits: 1
Anatomy, physiology, histology and pathology of the central nervous system and the corresponding cellular manifestations which provide diagnostic information. Cell changes related to specimen preparation. Correlation of the didactic information with the microscopic cellular patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Spring

GENETICS 569 The Breast Credits: 1
Anatomy, histology, physiology and pathology of the breast and the corresponding cellular manifestations which provide diagnostic information. Cell changes related to specimen processing. Correlation of the didactic information with the microscopic cell patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Fall, Spring

GENETICS 570 The Female Reproductive System Credits: 8
Anatomy, histology, physiology, and pathology of the female reproductive tract and the corresponding cellular manifestations which provide diagnostic information. Cellular changes due to therapy and specimen collection. Correlation of the didactic information with the microscopic cellular patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
L&S Credit: No degree credit in L&S Typically Offered: Fall

GENETICS 571 Clinical Practice I Credits: 1
Clinical practicum to develop diagnostic expertise involving the microscopic examination of routine gynecologic specimens (Pap smears). Observe the signout of abnormal cytologic specimens by cytopathologist staff. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
L&S Credit: No degree credit in L&S Typically Offered: Fall

GENETICS 572 The Respiratory System Credits: 3
Anatomy, histology, physiology and pathology of the respiratory tract and the corresponding cellular manifestations which provide diagnostic information. Cell changes related to specimen processing. Correlation of the didactic information with the microscopic cellular patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
L&S Credit: No degree credit in L&S Typically Offered: Fall

GENETICS 573 The Genitourinary System Credits: 2
Anatomy, physiology, histology and pathology of the urinary tract and male reproductive systems and the corresponding cellular manifestations which provide diagnostic information. Cell changes related to specimen processing. Correlation of didactic information with microscopic cell patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Spring

GENETICS 574 The Gastrointestinal System Credits: 3
Anatomy, histology, physiology and pathology of the gastrointestinal system and the corresponding cellular manifestations which provide diagnostic information. Cell changes related to specimen processing. Correlation of the didactic information with the microscopic cellular patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Spring

GENETICS 575 Miscellaneous Systems Credits: 3
Anatomy, histology, physiology and pathology of skin, thyroid, lymph nodes and other sites and the corresponding cellular manifestations which provide diagnostic information. Emphasis on specimen collection by fine needle aspiration. Correlation of the didactic information with the microscopic cellular patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Spring
GENETICS 576 Effusions Credits: 2
Anatomy, physiology, histology and pathology of the body cavities. Cytologic manifestations which provide diagnostic information. Cell changes related to specimen processing. Correlation of the didactic information with the microscopic cellular patterns to provide a diagnosis. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Spring

GENETICS 577 Applied Cytology I Credits: 1
Written and practical application of the comprehensive body of knowledge to all aspects of preparation, evaluation, correlation and diagnosis of cytologic specimens. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Spring

GENETICS 578 Applied Cytology II Credits: 1
Written and practical application of the advanced comprehensive body of knowledge to all aspects of preparation, evaluation, correlation and diagnosis of cytologic specimens. Practice in nationally offered cytologic examinations. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Summer

GENETICS 607 Advanced Microbial Genetics Credits: 3
Molecular genetic methods and related aspects of prokaryotic and lower eukaryotic biology, as well as critical analysis of the scientific literature. Approximately two-thirds of the course will focus on prokaryotes and one-third on lower eukaryotic microbes. Prereq> Genetics 466 or equiv, Biochem 501 or equiv, & Grad st or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 610 Quantitative Genetics Credits: 3
An advanced approach with emphasis on statistical foundations. Classical theory with extensions to maternal and paternal effects. Selection theory is considered in depth. Prereq> Genetics 466 and Statistics 572 or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 612 Prokaryotic Molecular Biology Credits: 3
Molecular basis of bacterial physiology and genetics with emphasis on molecular mechanisms; topics include nucleic acid-protein interactions, transcription, translation, replication, recombination, regulation of gene expression. Prereq> Bact 370 or equiv & Biochem 501 or equiv, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 620 Population and Quantitative Genetics Credits: 1
Basic theory of population genetics and the inheritance of multifactorial characters with relevant experimental and observational studies. Prereq> Genetics 466 or Biocore 333 or equiv. Knolv of elem calculus and statistics or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

GENETICS 626 Genomic Science Credits: 2
This course is designed to bring cutting-edge topics in the genomic sciences into the reach of traditionally "pure" chemistry, biology, engineering, computer science & statistics students. It is also designed for enabling biologically-oriented students to deal with the advances in analytical science so that they may incorporate new genomic science concepts into their own scientific repertoires. Intended for graduate students and for undergraduates with extensive research experience. Prereq> Graduate student standing or instructor consent
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

GENETICS 627 Animal Developmental Genetics Credits: 3
Advanced Genetics course focusing on genetic mechanisms of animal embryonic development, with particular emphasis on central molecular circuitries that control development and genetic analytical tools used to reveal them. Using a combination of lectures and primary research literature reading/student-led seminars, we will address topics including maternal and epigenetic inheritance, the egg-to-embryo transition, pattern formation, organogenesis, coordination of cellular and molecular mechanisms, and animal models of human congenital disorders. Prereq> Genetics 466 or Consent of Instructor. Zoology 470 is recommended
Typically Offered: Every Other Spring
GENETICS 629 Evolutionary Genetics Credits: 3
Basic principles of phylogenetics, population genetics and quantitative genetics including the construction of gene trees, forces affecting the amount and distribution of genetic variation in populations, and the inheritance and evolution of multifactorial characters. Prereq> Genetics 466 or Biocore 301 & 302 or equiv. Knowledge of intro calc & stats or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 631 Plant Genetics Credits: 2
This is a graduate-level course in plant genetics. We will cover the basic concepts of genetics and genomics as applied to plants, including discussions on breeding systems (modes of reproduction, sex determination, self incompatibility and crossing barriers), linkage analysis, genome structure and function (structure, function and evolution of nuclear and organellar chromosomes; haploidy and polyploidy; expression regulation and epigenetics), and a description of current methodologies used in the analysis of these processes. Our objective is to instigate in students a broader knowledge and understanding of the principles and methodologies used in plant genetics such that they can adopt them
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 633 Population Genetics Credits: 3
A course for graduate and upper-level undergraduate students focused on the interpretation of genetic variation in natural populations. We will study the basic models that connect genetic variation to underlying evolutionary and genetic processes, including mutation, recombination, genetic drift, migration, and natural selection. We will discuss methods for measuring DNA variation, including the analysis of genome-scale data sets. Prereq Genetics 466 or Consent of Instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

GENETICS 645 Modeling in Population Genetics and Evolution Credits: 3
Introduction to mathematical techniques and approaches for predicting evolutionary change within populations. Concentrates on classic population genetic models and results, including selection on one and several loci; mutation; non-random mating; drift. Evaluation based on periodic problem sets and independent projects. Prereq> Intro evolution, intro genetics, calculus, or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GENETICS 655 Biology and Genetics of Filamentous Fungi Credits: 3 - 4
Fungal genetics, genomics, and physiology using plant pathogenic fungi and the genetic models Aspergillus nidulans and Neurospora crassa as model systems to explore the current knowledge of fungal genetics and plant/fungal interactions. Prereq> Cons inst; PI Path 300 & 332 recommended; Genetics 466 or equiv; general microbiol crse
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

GENETICS 660 Evolutionary Genomics Credits: 2
We will present and discuss modern topics in evolutionary genomics, including genomic approaches, their application to evolutionary biology, and insights gleaned from such studies. Topics include evolution of genome architecture, gene content, and sequences. The course also covers molecular evolution as applied to the genome scale. Prereq> Genetics 466 or Biocore 301/302 sequence or equivalent, and consent of instructor
Typically Offered: Every Other Spring

GENETICS 670 Seminar in Clinical Cytogenetics Credits: 1
Overview of the basic features of chromosome structure and behavior including karyotyping clinical correlates of numerical and structural chromosome aberrations, sex chromosome abnormalities, breakage syndromes and the chromosomal changes associated with the development of cancer. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Summer

GENETICS 671 Advanced Clinical Practice Credits: 8
Clinical practicum to develop diagnostic expertise of cytologic specimens. Examine challenging cases with emphasis on diagnostic pitfalls. Observe patient clinics related to cytologic specimen collection. Participate at clinical experiences in fine needle aspiration, histology, and a private cytology laboratory. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Summer
GENETICS 672 Seminar in Laboratory Operations and Quality Control Credits: 1
Review the fundamentals of basic administrative functions and regulatory requirements including planning, organizing, supervising and controlling business management, record keeping, data processing and laboratory safety. Quality assurance procedures necessary for obtaining, processing, diagnosing and reporting cytologic specimens. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI State Lab of Hygiene
Typically Offered: Summer

GENETICS 673 Seminar in Clinical Cytology Credits: 1
Preparation of a case study or clinical topic of choice by each student to present to a peer professional group of cytology staff and medical faculty. Preparation of a referenced scientific term paper or participation in an approved research or class project pertaining to clinical cytology. Prereq> Stdt must be enrolled in the cytotechnology internship prgm at the WI Statte Lab of Hygiene
Typically Offered: Summer

GENETICS 677 Advanced Topics in Genetics Credits: 1 - 3
Contents vary; consideration of subjects not included in the curriculum. Prereq> Cons inst or Grad st
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

GENETICS 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

GENETICS 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Genetics 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

GENETICS 699 Special Problems Credits: 1 - 3
Advanced work not covered in regular courses. Prereq> Cons inst and Sr st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

GENETICS 701 Advanced Genetics Credits: 2
Advanced Genetics is a two credit lecture course for graduate students in Genetics and related fields. The course covers, at the graduate level, five main topics, each comprising six lectures with discussion: linkage and mapping, non-Mendelian inheritance, chromosomal phenomena, mutation and screening, and meiosis. Prereq> Grad st or cons inst, Genetics 466 or equiv
Typically Offered: Occasionally

GENETICS 703 Topics in Eukaryotic Regulation Credits: 2
Design and interpretation of experiments addressing molecular mechanisms of eukaryotic regulation. For first year graduate students with firm knowledge of basic biochemistry, molecular biology and genetics. Prereq> Biochem 612 or equiv & cons inst
Typically Offered: Occasionally

GENETICS 708 Methods and Logic in Genetic Analysis Credits: 3
Contemporary issues in genetic, developmental, cell, and molecular biology are addressed in a discussion format. Invited speakers give research lectures and reading material is taken from the primary literature. The discussion focuses on evaluating genetic approaches to biological problems. Prereq> Grad st, Genetics 701 or equiv
Typically Offered: Occasionally

GENETICS 731 Clinical Genetics Credits: 3
Clinical manifestation of human genetic disorders, practical principles of genetic counseling; for students preparing for genetic counseling and other health care professions, e.g., nursing, physician's assistant, etc., in which they will encounter patients/families with genetically determined conditions, disorders, related problems, and prevention. Prereq> Genetics 466 or equivalent; Genetics 565 & 561 or 562; or consent of instructor. Some knowledge of basic medical terminology essential
Typically Offered: Occasionally

GENETICS 770 Genetics Counseling Credits: 1
Necessary genetic information and mathematical techniques for genetic counseling. Topics: basic human genetics review, elementary probability, pedigree and segregation analysis, cytogenetics, empirical risks, eugenics and counseling practice. Practical aspects. Prereq> Sr st in Med School or cons inst
Typically Offered: Occasionally
GENETICS 799 Practicum in Genetics Teaching Credits: 1 - 3  
Prereq> Grad st & cons inst  
Typically Offered: Occasionally

GENETICS 820 Foundations of Evolution Credits: 2  
Through reading and analysis of the primary literature, this course will explore some of the most important themes and debates that have permeated evolutionary biology over the last 50 years. Students will read key papers related to each controversial topic, will debate the pros and cons of competing viewpoints, and will reflect on the relevance of the issues to contemporary evolutionary biology. Students will also write a paper that analyzes one topic in more detail. This course is intended for graduate students who plan to specialize in evolutionary biology, broadly construed. Prereq> None  
Typically Offered: Fall

GENETICS 840 Regulatory Mechanisms in Plant Development Credits: 3  
Molecular mechanisms whereby endogenous and environmental regulatory factors control development; emphasis on stimulus perception and primary events in the signal chain leading to modulated gene expression and cellular development; lecture. Prereq> Biochem 501 or 601 & Botany 500 or Biocore 301 & 323  
Typically Offered: Occasionally

GENETICS 875 Special Topics Credits: 1 - 4  
Special topics of current interest to graduate students. Prereq> Grad st and cons inst  
Typically Offered: Occasionally

GENETICS 885 Advanced Genomic and Proteomic Analysis Credits: 3  
With the availability of genome sequences and high-throughput techniques, organismal physiology can now be examined on a global scale by monitoring the behavior of all genes or proteins in a single experiment. This course will present modern techniques in genomics and proteomics, with particular focus on analyzing the data generated by these techniques. Course material will cover genomic sequencing, comparative sequence analysis, phylogeny construction and phylogenomics, transcription factor motif discovery, DNA microarray analysis, techniques in mass spectrometry, proteomic screening methods, and protein-interaction network analysis. In addition to lecture time, the course consists of a 2-  
Typically Offered: Every Other Fall

GENETICS 915 Computation and Informatics in Biology and Medicine Credits: 1  
Participants and outside speakers will discuss current research in computation and informatics in biology and medicine. This seminar is required of all CIBM program trainees. Prereq> Cons inst  
Typically Offered: Occasionally

GENETICS 951 Seminar in Animal Breeding Credits: 0 - 1  
Prereq> Cons inst  
Typically Offered: Occasionally

GENETICS 957 Seminar-Plant Breeding Credits: 1  
Prereq> Grad st  
Typically Offered: Fall, Spring

GENETICS 990 Research Credits: 1 - 12  
Prereq> Grad st & cons inst  
Typically Offered: Occasionally

GENETICS 993 Seminar in Genetics Credits: 0 - 1  
Sections deal with various aspects of genetics: Drosophila, maize, immunogenetics, developmental genetics, or other special topics. Students may enroll in two or more sections if they wish. Prereq> Grad st & cons inst  
Typically Offered: Occasionally

HORTICULTURE
HORT 1 Cooperative Education/Co-op in Horticulture  Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to
provide students with a background upon which to base a professional career. Students receive credit only for the
term in which they are actively enrolled and working. The same work experience may not count towards credit in
Hort 399. Prereq> Soc st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HORT 120 Survey of Horticulture  Credits: 3
For the beginning student. Scientific basis for horticultural practices; scope of the field of horticulture; introduction
to propagation, culture, management, improvement, storage, and marketing of flowers, fruits, ornamentals and
vegetables. Prereq> None
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

HORT 121 Horticulture Colloquium  Credits: 1
Overview of world, national, and regional horticulture plants and industries presented by various faculty. History
and profiles of research advancing horticulture presented by department faculty. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 227 Propagation of Horticultural Plants  Credits: 3
Methods of propagation of herbaceous and woody plants, fundamental anatomical and physiological principles
underlying sexual and asexual propagation of plants. Prereq> An intro course in botany. Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

HORT 234 Ornamental Plants  Credits: 3
On-site identification and description, aesthetic qualities and uses, environmental requirements and adaptability of
selected ornamental plants with emphasis on annuals, herbaceous perennials, and those used for interior design.
Three credits, offered every Fall. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 261 Turf Management  Credits: 2
Cultural management of turf in urban environments, including organic and integrated pest management, turfgrass
species, and a survey of jobs and the industry. Environmental impact of turf and management practices. Prereq>
Any introductory level plant science course or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 262 Turfgrass Management Laboratory  Credits: 1
Hands-on turf establishment, cool- and warm-season grass, seed and weed identification, chemical application,
and turf cultivation techniques and equipment use, plus field trips to major league sport facilities and golf courses.
Prereq> Hort 261; OK if concurrent enrollment
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 263 Landscape Plants I  Credits: 3
Field identification, landscape characteristics, uses, environmental requirements, adaptability of woody
ornamental plants; their autumn and winter character. Prereq> An intro botany crse or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

HORT 289 Honors Independent Study  Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HORT 299 Independent Study  Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HORT 309 Diseases of Trees and Shrubs  Credits: 3
Fundamental disease concepts, pathogens and causal agents, diagnosis, and biologically rational principles and
practices for management of diseases of trees and shrubs. For degree students and professionals. One extended
lecture with discussion and one lab or field trip per week. Prereq> One semester of plant sci or consent of
instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
HORT 320 Environment of Horticultural Plants  Credits: 3  
Fluctuations and regulations of temperature, light, water, carbon dioxide and pollutants in natural and controlled environments. Effects upon plant growth and development. Adaptive mechanisms. Significance of air ions, electromagnetic fields and other geophysical factors. Prereq> Crse in intro hort or intro bot  
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

HORT 326 Plant Nutrition Management  Credits: 3  
Functions, requirements and uptake of essential plant nutrients; chemical and microbial processes affecting nutrient availability; diagnosis of plant and soil nutrient status; fertilizers and efficient fertilizer use in different tillage systems. Prereq> Soil Sci 230 or 301 and one of the following: Bot 100 or 130; Hort 120 or 122; Agron 100  
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

HORT 328 Integrated Weed Management  Credits: 4  
Prevalence and persistence of weeds, evaluation of competitive and allelopathic effects, methods and principles of control including proper identification of common weed species. Prereq> Agron 100 or intro crse in botany or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 332 Turfgrass Nutrient and Water Management  Credits: 3  
Nutrient requirements of turfgrasses; nature of turfgrass response to fertilization; soil and tissue testing methodology and interpretation; irrigation scheduling; irrigation water quality; use of irrigation and fertilizer to minimize environmental impact; writing effective nutrient management plans. Prereq> Soil Sci/Hort/Agron 326  
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 334 Greenhouse Cultivation  Credits: 2  
Principles of selection, production, handling, use of fruits, vegetables, flowers, and foliage plants grown indoors. One-day field trip required. Prereq> Intro botany course or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

HORT 335 Greenhouse Cultivation Lab  Credits: 1  
Provide students with hands-on experience in and understanding of greenhouse cultivation. This course is the optional lab component of Horticulture 334 Greenhouse Cultivation. Prereq> Horticulture 334 or concurrent registration or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 338 Plant Breeding and Biotechnology  Credits: 3  
Principles of transferring plant genes by sexual, somatic, and molecular methods and the application of gene transfer in plant breeding and genetic engineering to improve crop plants. Prereq> Botany 130 or Genetics 160 or Biocore 301 or cons inst  
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

HORT 339 Plant Biotechnology: Principles and Techniques I  Credits: 4  
Theoretical and practical training in plant biotechnology including molecular biology, protein biochemistry and basic bioinformatic techniques used in fundamental and applied research on plants. Valuable hands-on training to those interested in careers in biotechnology. Prereq> Bot/Zoo 152 or equiv & Chem 104 or equiv  
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

HORT 340 Plant Cell Culture and Genetic Engineering  Credits: 4  
Theoretical and practical training in plant cell and tissue culture, and plant genetic engineering. Includes overview of current techniques, biosafety and regulatory requirements, and experimental design and analysis used in fundamental and applied research on plants. Valuable hands-on training to those interested in careers in biotechnology. Prereq> Botany 130 or Botany/Zoology/Biology 152 or Zoology 102,and Chemistry 104, 109, or 116  
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

HORT 345 Fruit Crop Production  Credits: 3  
Survey of fruit production, emphasizing commercial production of temperate fruits. Fruit origin, history, classification, physiology, genetics, harvest and postharvest handling. Prereq> Hort 122 or equiv. Open to Fr  
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
HORT 354 Diagnosing and Monitoring Pest and Nutrient Status of Field Crops  Credits: 1
This course is designed to provide students with information necessary to diagnosis and monitor corn, soybean, alfalfa and wheat for pests (insects, weeds, diseases) and nutrient deficiency symptoms including perspectives from Agronomy, Entomology, Horticulture, Plant Pathology and Soil Science. Proper soil and pest sampling information will be provided as will proper crop staging techniques which are essential for pest and nutrient management. Prereq> None
Typically Offered: Spring

HORT 370 World Vegetable Crops  Credits: 3
An overview of the importance of fresh and processed vegetables worldwide. Vegetable origin, history, classification, culture, marketing, physiology, genetics, handling, quality, significance in world cultures and diets. Prereq> A course in horticulture and a course in biology. Open to Freshmen
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

HORT 372 Colloquium in Organic Agriculture  Credits: 1
Colloquium in which faculty, regional professionals, local organx farms and students will present and discuss topics relevant to history, marketing, economics, production and social context of organic and sustainable agriculture. Prereq> At least So st
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

HORT 374 Tropical Horticulture  Credits: 2
Fall semester colloquia on tropical ecology and crops followed by two-week long winter break (January) field trip to Costa Rica and Nicaragua. Prereq> Sophomore standing
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

HORT 375 Special Topics  Credits: 1 - 4
Specialized subject matter of current interest to undergrads. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HORT 399 Coordinative Internship/Cooperative Education  Credits: 1 - 8
Prereq> So, Jr or Sr st & cons supervising inst, advisor, and internship program coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

HORT 400 Study Abroad in Horticulture  Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HORT 410 Undergraduate Seminar  Credits: 1
Prereq> Horticulture major with at least 5 credits in Hort, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

HORT 461 Advanced Turfgrass Management and Physiology  Credits: 3
Interacting effects of environmental stresses on turfgrass physiology/growth in relation to management practices. Discussion of new and conventional management systems. Use of biotechnology and plant breeding for improving turfgrass. Prereq> Hort 261 & intro botany crse
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HORT 500 Molecular Biology Techniques  Credits: 3
The objective of the course is to familiarize students with recombinant DNA technology. This will be accomplished through lectures as well as hands on exposure to methodologies used in molecular biology laboratories. Prereq> Biochem 501 or 621 or Genetics 466 or Bact 303, 304 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

HORT 501 Principles of Plant Breeding  Credits: 3
Principles involved in breeding and maintaining economic crops; factors affecting the choice of breeding methods; alternative approaches through hybridization and selection. Prereq> Intro crse in genetics, 1 yr biol
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
HORT 502 Techniques of Plant Breeding Credits: 1
Lab and field techniques used in breeding and maintaining economic crops. Prereq> An intro crse in genetics & 1 yr of biology
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

HORT 524 Urban Soil and Environment Credits: 3
Many environmental issues related to urbanization are derived from the manipulation of soil. By coupling contemporary literature in urban soils with soil science, students will be able to evaluate environmental issues within the urban environment and provide new ways of remediating their impact. Prereq> Soil Sci 301 or 230
L&S Credit: No degree credit in L&S Typically Offered: Spring

HORT 550 Molecular Approaches for Potential Crop Improvement Credits: 3
Introduction of basic concepts of plant molecular biology and molecular techniques in current use. Topics include: organization and regulation of plant genes, gene cloning and analysis, transformation systems for plants, and molecular techniques for crop improvement. Prereq> Biochem 501 and Genetics 466 or equiv courses
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

HORT 555 Plant Functional Genomics and Bioinformatics Credits: 2 - 3
A survey of the underlying technologies of genomic research with a special emphasis on their applications in plant science. Provides students with a deeper understanding of the many public resources and databases being generated by large-scale genomics projects. Prereq> Grad st; undergrads with Genetics 466 or equiv or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

HORT 561 Introductory Cytogenetics Credits: 2 - 3
Mitosis, meiosis, variations in chromosome structure and number, cytological aspects of hybridity and apomixis; chromosomes as they affect breeding behavior. Prereq> Genetics, Botany, Zoology 466 or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

HORT 571 Statistical Methods for Bioscience I Credits: 4
Descriptive statistics, distributions, one- and two-sample normal inference, power, one-way ANOVA, simple linear regression, categorical data, non-parametric methods; underlying assumptions and diagnostic work. Prereq> College algebra: Grad st or cons inst
General Education: QR-B L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

HORT 572 Statistical Methods for Bioscience II Credits: 4
Continuation of Forestry 571. Polynomial regression, multiple regression, two-way ANOVA with and without interaction, split-plot design, subsampling, analysis of covariance, elementary sampling, introduction to bioassay. Prereq> Stats/Forestry/Hort 571
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

HORT 626 Mineral Nutrition of Plants Credits: 3
Essential and beneficial elements, solutions and soil as nutrient sources, rhizosphere chemistry, nutritional physiology, ion uptake and translocation, functions of elements, nutrient interactions, genetics of plant nutrition. Prereq> Botany 350 or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

HORT 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors program candidacy
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

HORT 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Honors program candidacy & Hort 681
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

HORT 699 Special Problems Credits: 1 - 4
Prereq> Sr st & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer
HORT 799 Practicum in Horticulture Teaching  Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Occasional

HORT 811 Biometrical Procedures in Plant Breeding  Credits: 3
Use of statistical methods to facilitate improvements in quantitative traits of cultivated plants. Prereq> Intro crses in genetics & stat
Typically Offered: Fall

HORT 812 Selection Theory for Quantitative Traits in Plants  Credits: 3
Develop and evaluate mathematical theories for population improvement. Review recurrent selection strategies and examine resource allocation for plant breeding programs. Prereq> Agronomy 770 or equiv, Agronomy, Hort 811, or cons inst
Typically Offered: Occasional

HORT 850 Advanced Plant Breeding  Credits: 3
Concepts in improvement of major crop species. Historically important breeding methods and new approaches. Lectures and discussion. Prereq> Agron/Hort 338 or 501 or cons inst
Typically Offered: Occasional

HORT 875 Special Topics  Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasional

HORT 910 Seminar  Credits: 1
Prereq> Grad st
Typically Offered: Spring

HORT 957 Seminar-Plant Breeding  Credits: 1
Prereq> Grad st
Typically Offered: Fall, Spring

HORT 990 Research  Credits: 1 - 12
Prereq> Grad st & cons inst
Typically Offered: Fall, Spring, Summer

INTERDIS COURSES (C A L S)

INTER-AG 2 International Internship in Sciences  Credits: 1
For students undertaking internships in international locations; focus on pre-internship preparation and post internship activities; internships prepare students for graduate school or careers in applied science. Prereq> Sophomore or Junior standing; consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

INTER-AG 150 Ways of Knowing  Credits: 1
Freshmen are exposed to a variety of scholarly topics from outstanding faculty campus-wide as well as small group seminars led by faculty. Students are encouraged to explore the possibility of a research experience in their degree program. Prereq> Open to Fr only
L&S Level: Elementary  L&S Credit: Counts for LAS credit Typically Offered: Occasional

INTER-AG 152 Ways of Knowing: Medicine and Society  Credits: 1
Sophomores are exposed to a variety of scholarly topics on subjects dealing with medicine and society by campus-wide faculty. Discussions led by faculty who are primary care practitioners. Students are encouraged to explore the possibility of a research experience in their degree program. Prereq> Open to Sophomores only
L&S Level: Elementary  L&S Credit: Counts for LAS credit Typically Offered: Fall

INTER-AG 155 Issues in Agriculture, Environment, and Life Sciences  Credits: 1
Explore important issues in the application of science that cut across all majors in the College of Agricultural and Life Sciences, and that are critical for society in coming decades; help students develop academic skills and explore majors and careers. Prereq> Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit Typically Offered: Fall
INTER-AG 165 Introduction to International Issues in Agricultural & Life Sciences Credits: 1
Introduction to major international issues in the application of science that will be critical in the next half-century in this national and the world and will help students identify and explore international interests in an academic major and a career. Prereq> Fr or So st, or cons of instr
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

INTER-AG 175 WISE Seminar Credits: 1
Weekly seminar/discussion for the Women in Science and Engineering (WISE) learning community. Speakers drawn from all fields of math, science, and engineering on campus. Students meet to learn about research on campus and to discuss the impact of research in their daily lives. Prereq> Cons inst. Preference given to residents of the WISE learning community. Open to Fr
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

INTER-AG 250 Undergraduate Research Experience Credits: 1 - 3
Participation in research or creative endeavor led by faculty or instructional staff and in undergraduate Research Scholars Program. This course may also include participation in research discussion groups, critiques of readings, and preparation of written or oral reports. Prereq> Freshman or Sophomore standing, admission to the Undergraduate Research Scholars Program, and consent of instructor
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

INTER-AG 288 Introduction to Undergraduate Research Credits: 1
Student develops a research proposal with guidance by a faculty mentor (applications due in Ag Hall by early April). Student also receives individualized instruction on electronic search of literature by the library staff and critical writing skills by the Writing Center staff. Prereq> Stdt must be in CALS Honors Prgm & be either a So or Jr. Not open to Fr
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

INTER-AG 312 Leadership Seminar Credits: 1
Develop personal approach to leadership, gain self-awareness, analyze ethical issues, explore organizational and group dynamics, examine skills needed to lead organizations and communities.
L&S Credit: No degree credit in L&S Typically Offered: Fall

INTER-AG 350 World Hunger and Malnutrition Credits: 3
Hunger and poverty in developing countries and the United States. Topics include: nutrition and health, population, food production and availability, and income distribution and employment.
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

INTER-AG 375 Special Topics Credits: 1 - 4
Subjects of current interest to undergraduates. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

INTER-AG 388 CALS Honors Interdisciplinary Junior Seminar Credits: 1
Basic elements of experimental design and conduct in biological sciences, social sciences, natural resources, animal sciences and plant sciences are explored in a seminar format. This course is required for all honors students enrolled in the College of Agricultural and Life Sciences. Prereq> Honors or cons inst
Typically Offered: Fall

INTER-AG 393 Engaged Learning Through Community Service Credits: 3
Class meetings stress learning through community service. Class format is experiential, participatory and collaborative. Readings, discussions and class experiences explore issues of community service. Students develop service-learning projects to complete during Spring semester as independent study. Prereq> Junior standing or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
INTER-AG 421 Global Health Field Experience Credits: 1 - 4
Undergraduate global health field experiences address a broad range of health topics including nutrition, primary health care, water and sanitation, climate change, sustainable agriculture, and economic development. These field experiences take place in sites around the world including locations in Africa, Asia, Latin America, Europe, and the United States. Engaged learning will include participation in applied public health activities and service learning projects with communities and partner organizations. Students will gain knowledge about health and disease and explore interdisciplinary approaches to health. Field experiences are designed to meet the requirement for the Undergraduate Cert
L&S Credit: No degree credit in L&S Typically Offered: Spring, Summer

INTER-AG 488 Honors Research Colloquium Credits: 1
This will be a faculty-led colloquium covering such topics as research ethics, possible societal impact of scientific results, and career choices and their implications. Communication of technical information will also be emphasized. Prereq: Participant in CALS honors program or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

INTER-AG 521 Public Health Experience in Nutrition and Food Systems Credits: 2
Capstone course provides service and research experiences related to nutrition and food in public health settings. Students review literature, collect and integrate data, communicate with clients and staff at sites, develop practical solutions, and communicate with local public health professionals. Prereq: Jr or above in any biological science or cons inst
Typically Offered: Fall, Summer

INTER-AG 875 Special Topics Credits: 2 - 3
Subjects of current interest to graduates. Prereq: Grad st and cons inst
Typically Offered: Occasionally

LANDSCAPE ARCHITECTURE

LAND ARC 1 Cooperative Education/Co-op in Landscape Architecture Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Land Arc 399. Prereq: So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

LAND ARC 201 Introductory Landscape Architecture Studio Credits: 2
Introduction to the techniques of landscape design, planning, and management through studio exercises. Prereq: Land Arc 250 or con reg
L&S Credit: No degree credit in L&S Typically Offered: Fall, Summer

LAND ARC 250 Survey of Landscape Architecture Design Credits: 3
Principles of landscape and environmental design; incorporates elements of landscape planning and management. Provides background to the ideas and personalities shaping landscape architecture in America. Prereq: Open to Freshmen
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit Typically Offered: Fall, Summer

LAND ARC 260 History of Landscape Architecture Credits: 3
A critical and historical analysis of our design of outdoor space. Prereq: None
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit Typically Offered: Spring

LAND ARC 261 Principles of Landscape Architecture Design and Graphics Credits: 4
Basic principles in the design of landscapes to aid the student in developing individual capacities and approaches to designing. Principles of graphic communication media and development of practical graphic skills. Prereq: Admission to ALA st or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

LAND ARC 262 Landscape Inventory and Evaluation Methods Credits: 4
Inventory and evaluation of physical, biological, visual, and cultural site resources to determine their potential for enhancement of human activities and their sensitivities to use-impact. Emphasis on information sources, data gathering methods and analysis techniques with projects to develop proficiency. Prereq: Land Arc 250 or consent of instructor
L&S Breadth: Natural Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit Typically Offered: Spring
LAND ARC 263 Landscape Plants I Credits: 3
Field identification, landscape characteristics, uses, environmental requirements, adaptability of woody ornamental plants; their autumn and winter character. Prereq> An intro botany crse or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

LAND ARC 264 Landscape Plants II Credits: 3
Landscape characteristics, uses, environmental requirements, adaptability of woody ornamental plants; limited field work with emphasis on spring flowering habit. Prereq> Hort, Land Arch 263
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

LAND ARC 264 Dimensions of Material Culture Credits: 4
This course introduces students to the interdisciplinary field of material culture studies. It is intended for students interested in any professional endeavor related to material culture, including careers in museums, galleries, historical societies, historic preservation organizations, and academic institutions. During the semester, students have varied opportunities to engage with and contemplate the material world to which people give meaning and which, in turn, influences their lives. Sessions combine in some way the following: presentations from faculty members and professionals who lecture on a phase of material culture related to his/her own scholarship or other professional work; di
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

LAND ARC 270 Landscape Architecture Workshop Credits: 1 - 2
Lectures, projects, and studio exercises covering topical areas of landscape architecture. Prereq> Land Arc 250 or cons inst. Open to non-majors
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

LAND ARC 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

LAND ARC 299 Independent Studies Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

LAND ARC 309 Diseases of Trees and Shrubs Credits: 3
Fundamental disease concepts, pathogens and causal agents, diagnosis, and biologically rational principles and practices for management of diseases of trees and shrubs. For degree students and professionals. One extended lecture with discussion and one lab or field trip per week. Prereq> One semester of plant sci or consent of instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

LAND ARC 312 Graphics for Designers Credits: 3
Principles of graphic communication media, and development of practical graphic skills to enhance the professional student's ability to communicate with lay and professional audiences. Prereq> Concurrent registration in a design course
L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 351 Housing and Urban Design Credits: 4
An application of landscape design principles and problem-solving methods to housing and urban issues. Introduction to physical site design, land-use controls, and the relationship between housing and associated land uses. Projects focus on the central city and/or suburbs. Prereq> Land Arc 261 and 365 or concurrent registration
L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 353 Landscape Architectural Technology I Credits: 3
Problems dealing with the comprehension and modification of the earth's surface including landform design, preparation of grading plans, earthwork calculations. Prereq> Math 112 and 113 (or equivalent) and CEE 450
L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 354 Landscape Architectural Technology II Credits: 3
Problems dealing with construction detailing, including roadways, drainage structures, construction materials, cost estimating, specifications and working drawings. Prereq> Land Arc 353
L&S Credit: No degree credit in L&S  Typically Offered: Fall
LAND ARC 356 Sustainable Residential Construction Credits: 3  
Properties and use of building materials, framing systems, HVAC systems, code requirements, conservation of 
natural resources in building construction and operation. Prereq> Math 112 or equiv. Open to Fr  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 361 Wetlands Ecology Credits: 3  
Types, origins, settings, and structure of wetlands. Physical, biological, and cultural values, uses and 
assessments. Physical and biological characteristics and dynamics. Protection, management and restoration.  
Field trips, literature review, term paper, and personal observations required. Prereq> Upper class st; basic 
college- level biology or equiv (such as relevant physical sciences)  
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

LAND ARC 365 Planting Design I Credits: 3  
Fundamentals of planting composition with emphasis on visual consideration of ecological relationships. Lectures 
enhanced by student sketches, plans, and models. Prereq> Land Arc 262, 263, and 353 or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

LAND ARC 366 Planting Design II Credits: 3  
Philosophy and studio practice in the development of increasingly complex planting design projects based on 
principles learned in Land Arc 365. Studio experience and critiques of planting plans for a wide variety of 
environments ranging from rural to highly urban. Prereq> Land Arc 264 & 365 or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 371 Introduction to Environmental Remote Sensing Credits: 3  
Introduction to the Earth as viewed from above, focusing on use of aerial photography and satellite imagery to 
study the environment. Includes physical processes of electromagnetic radiation, data types and sensing 
capabilities, methods for interpretation, analysis and mapping, and applications. Prereq> Math 114 & 
Sophomore standing  
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

LAND ARC 372 Intermediate Environmental Remote Sensing Credits: 3  
Examines intermediate-level concepts in information extraction, data processing and radiative transfer relevant to 
remote sensing of the environment. Includes transforms, image correction, classification algorithms and change 
detection, with emphasis on applications for land use planning and natural resource management. Prereq> Envir 
St 301 or consent of instructor, sophmore standing  
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

LAND ARC 375 Special Topics Credits: 1 - 4  
Prereq> Cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

LAND ARC 399 Coordinative Internship/Cooperative Education Credits: 1 - 8  
Prereq> So, Jr or Sr st and cons supervising inst, advisor, and program coordinator  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

LAND ARC 400 Study Abroad in Landscape Architecture Credits: 1 - 6  
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to 
existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

LAND ARC 451 Open Space Planning and Design Credits: 3  
Form-giving design of open spaces in urban and rural settings and management for amenity and functional 
values. Integration of human activity requirements and experiences with physical and natural site features.  
Prereq> Land Arc 351, 354, 365  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 462 Regional Design Credits: 3  
Exploration of broad scale design issues to develop synthesis and design skills. Uses spatial form and bioregional 
cultural, ecological and environmental concepts to solve land use and conservation problems. Emphasizes 
sustainable design. Introduces public and non-profit design tools. Prereq> Land Arc 351, 354, 365, 451 or Grad 
st and cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring
LAND ARC 463 Evolution of American Planning Credits: 3
The nature and cultural significance of contemporary methods for the systematic formulation of public policies for
community, metropolitan, and state development through comprehensive planning. Historic roots, recent trends
and new directions in American planning concepts, institutions and professional specializations. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

LAND ARC 548 Environmental Aesthetics Credits: 2 - 3
Analysis of visual characteristics and aesthetic qualities of physical environments; physiographic factors;
functional needs; modes of perception; historical and cultural influences; role of design professions. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

LAND ARC 550 Professional Practice in Landscape Architecture Credits: 3
Introduction to operational procedures used in professional offices ranging from private landscape architectural
design firms to public agencies. Practical experience project organization and management including the
preparation of project manuals, legal documents, and construction contracts. Prereq> Land Arc 351 & 451 & con reg in Land Arc 610
L&S Credit: No degree credit in L&S  Typically Offered: Fall

LAND ARC 551 Senior Project in Landscape Architecture Credits: 4
Problems in landscape design, planning and management for which students take the initiative in their definition
and solution. Provides an opportunity for synthesis of the knowledge, skills, and approaches learned in previous
course work. Prereq> Land Arc 610
General Education:  COM B  L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 556 Remote Sensing Digital Image Processing Credits: 3
Techniques of enhancement and quantification of remote sensing imagery. Emphasis on processing and
analyzing data gathered by airborne and satellite sensors. Techniques to quantitatively analyze data from
photography, electro-optical scanners, satellite systems, and radar and passive microwave systems. A 5-week
practicum with applications to: agriculture and forestry, geology and soils, water quality, and urban and regional
planning. Prereq> Civ Engr/Envir St/Forestry 303 or authorization
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

LAND ARC 565 Principles of Landscape Ecology Credits: 2
Landscape ecology emphasizes the importance of spatial patterns at broad scales. Concepts and applications are
emphasized, especially for seniors and graduate students in applied natural resource fields. The course is also a
Prereq> Botany/Zoology/Forest 460, or Forest 550, a crse in stats, & cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

LAND ARC 610 Landscape Architecture Seminar Credits: 1 - 2
Environmental problems and issues related to project, urban or regional scale. Prereq> Sr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

LAND ARC 622 Applications of Geographic Information Systems in Planning Credits: 3
Explores planning-related GIS data, applications, analytical tools, and issues. Prereq> Intro GIS course or
experience using GIS is a pre-requisite. Grad st or cons inst. Priority given to Urb R Pl stdts
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

LAND ARC 630 Geodesign Foundations Credits: 3
This online lecture, discussion and lab course is designed specifically for students enrolled in the Capstone
Certificate in Geodesign. Geodesign is the integration of design and planning, the social and economic sciences,
the physical and natural sciences, human values and public participation,using geographic information systems
(GIS) with the goal of creating a better,
more sustainable and resilient future. This course focuses on understanding the history, leaders, trends, and
various frameworks of Geodesign. This introduction to Geodesign will cover a broad body of knowledge that
includes: historical foundations of Geodesign; critically evaluate Geodesign frameworks; relationship betwee
L&S Credit: No degree credit in L&S  Typically Offered: Fall
Land Arc 631 Geodesign Methods Credits: 3
This course focuses on understanding and application of methods and technology used in the Geodesign framework using the following models: representation, process, evaluation, change, impact, and decision. Students write a methods focused, preliminary project proposal. Geodesign methods and technology are vast and continually evolving, but will be limited to industry standards: Esri ArcGIS Desktop, Esri CityEngine, Trimble SketchUp, and various open-source alternatives as needed (i.e. QGIS, Grass, etc). Students will be exposed to and may use, at their own discretion in coordination the instructor, other open-source alternatives on individual assignments when software and methods choices ar
L&S Credit: No degree credit in L&S  Typically Offered: Fall

Land Arc 633 Geospatial Approaches to Conservation and Adaptation Credits: 2
Students will explore and use applications of GIS particularly related to landscape ecology, environmental analysis, and conservation design. Engaged students will: a. learn/practice how to solve spatial environmental questions; b. proficiently apply design thinking toward landscape conservation and adaptation solutions. Prereq> Land Arc 630 and Land Arc 631 and admission to the Capstone Certificate in Geodesign
L&S Credit: No degree credit in L&S  Typically Offered: Spring

Land Arc 634 Geodesign Capstone Project Credits: 3
This capstone course is the culmination of the yearlong Geodesign Certificate Program. It is designed for students to demonstrate the skills and knowledge that they have acquired in the four prerequisite courses by resolving a "real world" geodesign problem. Students will work with their advisors on projects of their own choosing and as agreed upon by their advisors and the program coordinator and director. Prereq. Land Arc 630, Land Arc 631, Land Arc 633, and Land Arc 671 and admission to the Capstone Certificate in Geodesign
L&S Credit: No degree credit in L&S  Typically Offered: Summer

Land Arc 639 Culture and Built Environment Credits: 3
The course explores cultural values embedded in buildings through understanding physical configurations, social organizations, practiced/symbolic/representational aspects of buildings. The course covers a wide range of cultures and the built environments they produce including examples from the Americas, the Middle East, as well as those of the many ethnic minorities in the U.S.  Prereq> Junior standing
Ethnic Studies: Yes  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

Land Arc 651 Plant Community Restoration and Management Workshop Credits: 4
Formulation of plant community restoration and management plans; including the preparation of planting plans and working drawings for implementation. Classroom and practical exposure to natural areas management tools, including prescription prairie fire. Prereq> Land Arc 262 or Grad st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

Land Arc 655 Computerized Land Information Systems Credits: 3
Theory and use of multipurpose land information systems in landscape architecture, civil engineering, and environmental studies. Topics include: system design; reference systems; data capture, structure, and quality; cadastral information; implementation; and land planning applications. Laboratory applications using spatial computer technology. Prereq> Junior standing & 1) one course in surveying, cartography, remote sensing, or air photo interpret, or 2) consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

Land Arc 666 Restoration Ecology Credits: 3
Philosophy and techniques in the use of native vegetation for landscape purposes. Application of current knowledge in restoration and maintenance of native plant communities. Lecture, lab and field. Prereq> Land Arc 365 or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

Land Arc 667 Field Study: Native Plant Communities Credits: 3
Field analysis and interpretation of the vegetational composition, aesthetic quality and effects of disturbance within a variety of native Wisconsin plant communities. Field work, readings and discussions. Prereq> Plant identification course(s) and cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Summer
LAND ARC 670 Adaptive Restoration Lab  Credits: 2
Field experience in restoration as an adaptive process involving field experimentation; baseline data collection on restoration sites; design of experiments to advance restoration science; quantitative evaluation of restoration outcomes. Analysis and interpretation of data; development of a team report.  Prereq> a crse in ecology & a crse in stats, or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

LAND ARC 671 Geodesign for Sustainability and Resiliency  Credits: 3
This course explores the Geodesign concepts and analysis methods can support sustainability and resiliency. A brief history and development of the sustainability and resiliency movements establishes context, motivation and priorities for Geodesign. Characteristics of public participation frame the role of geodesign to engage and empower the community to plan for sustainability and resiliency. Discovery of issues, spatial data and analyses follows a conceptual and geographical trend from local to global scales and urban to rural localities. These include population density, land cover change, urban growth/sprawl, transportation, walkable neighborhoods, water resources, green infrastructure, L&S Credit: No degree credit in L&S  Typically Offered: Spring

LAND ARC 675 Historic Preservation Planning Field Workshop  Credits: 1 - 4
Identification of Wisconsin's rural historic and cultural features and the planning alternatives available for their preservation and utilization. Lecture, lab and field.  Prereq> Consent of instructor
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Summer

LAND ARC 677 Cultural Resource Preservation and Landscape History  Credits: 3
A survey of cultural resource preservation, landscape history and approaches to a more comprehensive framework for environmental management.  Prereq> At least 2 courses in history or the social sciences, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

LAND ARC 681 Senior Honors Thesis  Credits: 2 - 4
Prereq> Honors program candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

LAND ARC 682 Senior Honors Thesis  Credits: 2 - 4
Continuation of 681.  Prereq> Honors program candidacy & Land Arc 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

LAND ARC 691 Senior Thesis  Credits: 4
Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

LAND ARC 692 Senior Thesis  Credits: 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

LAND ARC 695 Applications of Geographic Information Systems in Natural Resources  Credits: 3
Course has four components: 1) Detailed review of GIS concepts; 2) Case studies; 3) GIS implementation methods; 4) Laboratory to provide "hands-on" GIS experience.  Prereq> Land Arc/Envir St/Civ Engr 655 or Geog 377 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

LAND ARC 699 Special Problems-Landscape Architecture  Credits: 1 - 5
Prereq> Sr st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

LAND ARC 710 Theories of Landscape Change  Credits: 2
Theories of landscape change in the arts and sciences. Contributions of the scientific method and humanistic frameworks to major issues in landscape architecture.  Prereq> Grad st or cons inst
Typically Offered: Occasionally
LAND ARC 720 Critical Inquiry into Landscape Design Expression Credits: 2
Normative design theory as it relates to historical and contemporary aesthetic expression in landscape design. Review of critical theory and meaning associated with a broad landscape architecture typology. Prereq> Grad st or cons inst
Typically Offered: Occasionally

LAND ARC 740 Research in Landscape Architecture Credits: 3
Overview of research: Logic and language of the process, substantive issues, criticism of research literature, developments of detailed proposals. Prereq> Grad st in land arch or cons inst
Typically Offered: Occasionally

LAND ARC 750 Planning and Design Methodologies for Landscape Architects Credits: 3
Prepares students to make accountable and defensible landscape planning, design, and management decisions with the aid of rational, creative and socially acceptable procedures. Prereq> Grad st
Typically Offered: Occasionally

LAND ARC 777 Methods in Historical/Cultural Resource Preservation Credits: 3
Methods and technical considerations necessary for conserving and utilizing historic structures, districts, communities and landscapes. Prereq> Cons inst
Typically Offered: Occasionally

LAND ARC 799 Practicum in Landscape Architecture Teaching Credits: 1 - 3
Prereq> Grad st & cons inst
Typically Offered: Occasionally

LAND ARC 866 Seminar in Natural Plant Community Restoration and Management Credits: 1
Student presentations on topics related to plant community management and restoration. Prereq> Cons inst
Typically Offered: Occasionally

LAND ARC 876 Seminar in Historic Preservation Credits: 2
An overview of historic preservation philosophy and methods, with particular reference to their ties with planning and design. Prereq> Grad st or cons inst
Typically Offered: Occasionally

LAND ARC 920 Regional Design Workshop Credits: 2 - 3
Development and application of a systematic approach to analysis and design at macro- and micro-scales within a regional context. Prereq> Grad st & cons inst
Typically Offered: Occasionally

LAND ARC 940 Graduate Seminar Credits: 1 - 2
Individual research, group discussion and workshop covering selected problems relating to the environment and landscape architecture.
Typically Offered: Occasionally

LAND ARC 990 Research Credits: 1 - 12
Prereq> Grad st and cons inst
Typically Offered: Occasionally

LAND ARC 999 Independent Studies Credits: 1 - 3
Opportunity to explore concepts or issues of particular interest to the student. Prereq> Grad st & cons inst
Typically Offered: Occasionally

LIFE SCIENCES COMMUNICATION

L SC COM 1 Cooperative Education/Co-op in Life Sciences Communication Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Life Sciences Communication 399. Prereq> So st, and consent of supervising instructor and academic advisor. L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
L SC COM 100 Introduction to Communication: Inquiry and Exposition  Credits: 3
Fundamentals of effective written and spoken communication. Develops skills in gathering and evaluating information, writing research papers and other documents, and preparing and delivering oral presentations. Prereq> Open to Fr only. Stds may receive degree cr for only one Com A crse taken in residence
General Education:  COM A  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

L SC COM 111 Science and Technology Newswriting  Credits: 3
Principles of journalism and essentials of journalistic writing applied to agriculture, natural resources, science, health and related topics. Prereq> Sophomore standing or consent of instructor. Stds cannot receive credit for both Ag Journ 111 & Ag Journ/Fam Com 130
General Education:  COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

L SC COM 212 Introduction to Scientific Communication  Credits: 3
Writing effective correspondence, progress reports, proposals, newsletter and trade magazine articles, abstracts and summaries, instructions, and literature reviews. Prereq> Jr st or cons inst
General Education:  COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

L SC COM 250 Research Methods in the Communication Industry  Credits: 3
Introduction to research methods in the communication industry. Overview of all stages of the research process (survey, focus groups, etc.) and of translating data into reports for expert and lay audiences and into effective campaign strategies. Prereq> Sophomore Status
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Spring

L SC COM 251 Science, Media and Society  Credits: 3
Introduction to communication at the intersection of science, politics and society. Overview of the theoretical foundations of science communication and their relevance for societal debates about science and emerging technologies. Prereq> Sophomore standing
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

L SC COM 270 Communication in Life Science Industries  Credits: 3
Techniques of achieving clarity, brevity and effectiveness in the life sciences communication industry: communication planning, preparation and examination for internal and external life sciences industry audiences. Prereq> L SC COM 100 or L SC COM 112 or L SC COM 212 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

L SC COM 289 Honors Independent Study  Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Program & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

L SC COM 299 Independent Study  Credits: 1 - 3
Prereq> Open to Freshmen or Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

L SC COM 314 Introduction to Digital Video Production  Credits: 3
Principles and techniques of digital documentary and informational video production. Video styles and subject matter treatment analyzed. Information gathering, videography, scripting, producing, and editing techniques. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

L SC COM 320 Feature Writing  Credits: 3
Advanced writing techniques and in-depth article development, emphasizing agriculture, environment, science, and health topics. Prereq> Ag Journ 111 or equivalent. Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall

L SC COM 332 Print and Electronic Media Design  Credits: 3
Principles and techniques of effective layout with desktop publishing software for specialized print and electronic publications. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
L SC COM 350 Visualizing Science and Technology Credits: 3
Introduction to the basic principles in the visual communication of science information. Principles of design, perception, cognition as well as the use of technologies in the representation of science in the mass media will be explored through illustrated lectures and written critique. Prereq: Sophomore standing. Open to all majors
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

L SC COM 360 Information Radio Credits: 3
Radio writing, editing, information gathering, planning, voicing, and evaluation using digital recording and editing equipment. Students write, produce and voice newscasts, advertisements, public service announcements, interviews, and features. Final project: team produce a radio program with science or consumer theme. Prereq: L Sc Com 100 or 111 or 212 or cons inst
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

L SC COM 375 Special Topics Credits: 1 - 4
Prereq: Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

L SC COM 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq: Cons supvsg inst, advisor, & intrshp prog coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

L SC COM 400 Study Abroad in Agricultural Journalism Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq: Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

L SC COM 430 Investigative Science Reporting Credits: 3
Reporting science news and features with emphasis on in-depth coverage. Prereq: L Sc Com 111
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall

L SC COM 431 Advertising in the Life Sciences Credits: 3
Using marketing communication principles to make advertising decisions for agricultural inputs and food products; creating print, radio, television and multi-media advertisements. Prereq: So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

L SC COM 432 Social Media for the Life Sciences Credits: 3
Explores social media communication and tools specific to the life sciences, and will be centered on building the student's social media presence. Coursework will include a variety of readings from peer-reviewed papers, marketing, business and communication journals. Prereq: So st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

L SC COM 435 Theory and Practice of Integrated Marketing Communication Credits: 3
This course provides practical insight into integrated marketing communication through analysis of contemporary developments in the marketplace together with theoretical background through readings from published scholarly research. It emphasizes information-seeking, oral presentation skills, and is writing-intensive.
Typically Offered: Fall, Spring

L SC COM 440 Contemporary Communication Technologies and Their Social Effects Credits: 3
Explores the growth of the information industry. Looks at the characteristics and spread of new communication technologies. Evaluates their social, economic and political effects. Attention is given to rural-urban differences. Prereq: Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

L SC COM 444 Native American Environmental Issues and the Media Credits: 3
Explores public understanding and media coverage of Native American environmental issues including treaty rights, air and water quality, land-into-trust, and sacred sites. Analysis of organizational and structural constraints of media coverage relating to issues of sovereignty and intergovernmental relationships. Prereq: Jr st
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
L SC COM 450 Documentary Photography for the Sciences Credits: 3
Employs the principles of visual communication in composing and digitally editing still photography, as used in news documentary; science and agricultural feature and illustration. Students work in teams for hands-on computer demonstrations of digital editing across print and Web media. Prereq> L Sc Com 350
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

L SC COM 477 NAMA Project: Agri-Marketing Strategy and Implementation Credits: 2
A full-scale marketing campaign culminating in a national student competition for National Agricultural Marketing Association during their annual convention held every spring. Development of campaign plan includes brand identity, associated visuals, market research, strategic communication, competitive analysis, presentation skills, and learning how to work as a team toward a common goal. Prereq> Consent of Instructor required to enroll
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

L SC COM 505 Publications Editing Credits: 3
Principles and techniques for effective editing and production of specialized information publications and documents. Prereq> Junior standing & Ag Journ 111 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

L SC COM 515 Public Information Campaigns and Programs Credits: 3
Design, production and evaluation of communication programs aimed at informing and educating publics about agricultural, environment, science, health and human ecology issues. Prereq> L Sc Com 111 or 130, Senior standing & consent of instructor
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

L SC COM 532 Web Design for the Sciences Credits: 3
This class gives students an opportunity to design websites that focus on agricultural, life and social sciences. It covers characteristics of web users, science information goals for websites, needs assessment, search strategies, formative evaluations, legal issues. Prereq> L Sc Com 111 or 130
Typically Offered: Fall, Spring

L SC COM 560 Scientific Writing Credits: 3
Writing scientific reports such as journal articles, theses, abstracts for a technical audience. Prereq> Senior or Grad standing in a science discipline, or consent of instructor
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

L SC COM 614 Advanced Video Production Credits: 3
An advanced digital video production course. Students will receive advanced instruction in producing, videography, scripting, and editing digital video. Prereq> L Sc Com 314
L&S Credit: No degree credit in L&S  Typically Offered: Spring

L SC COM 616 Mass Media and Youth Credits: 3
Children's and adolescents' use of mass media and mass media effects on them. Particular attention is given to changes in comprehension and other cognitive activities that give insights into media use and effects. Prereq> Journ 565 or Com Arts 325 or HDFS 362 or LSC 251 or consent of instructor
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

L SC COM 617 Health Communication in the Information Age Credits: 3
This course will examine the role of communication in health, how the revolution in information technology has affected health communication, and the assumptions about health information and communication that drive current efforts to use technologies. Prereq> Journ 565 or equivalent
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

L SC COM 625 Risk Communication Credits: 3
Examines risk as a central concept in the communication process through case studies from science, technology, environment, and health. Prereq> Jr or Grad st and L Sc Com 250, L Sc Com 251, or equiv, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

<td>Environmental Information and Education Programs</td>
<td>3</td>
<td>Examines information and education programs pertaining to environmental issues and policies. Emphasis on communication campaigns and programs aimed at public awareness, opinion, and behavior change. Includes program design, planning, and assessment. Prereq: Grad st &amp; cons inst</td>
<td></td>
<td>Typically Offered: Occasionally</td>
<td>No degree credit in L&amp;S</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
L SC COM 875 Special Topics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

L SC COM 880 Topics in Mass Communication Credits: 3
In-depth investigation of a specific topic in mass communication. Prereq> Grad st
Typically Offered: Occasionally

L SC COM 901 Colloquium in Mass Communication Credits: 1
May be repeated to a maximum of 3 credits. Colloquium series for communication graduate students. Course will offer research presentations by mass communication scholars, and is designed to acquaint graduate students with theoretical and methodological approaches to the study of communication. Prereq> Grad st
Typically Offered: Occasionally

L SC COM 902 Public Opinion of Life Science Issues Credits: 3
Advanced seminar on public opinion surrounding the science issues and science policy. Examines the intersection of public opinion, science, and politics; issues related to public opinion measurement; and the importance of public opinion for different aspects of life science communication. Prereq> Grad st or cons inst
Typically Offered: Occasionally

L SC COM 940 Seminar-Strategic Communication Credits: 3
Research involving strategic uses of mass communication. The seminar involves students in active research on a preselected issue in strategic mass communication, and affords an opportunity for students to design an original research proposal concerning an issue of their choice. Prereq> Cons inst
Typically Offered: Occasionally

L SC COM 960 Seminar-Science and Environment Communication Credits: 3
Research concerning mass media coverage of science and the environment. It provides an opportunity for students to design a research proposal on an issue of their choice. Prereq> Cons inst
Typically Offered: Occasionally

L SC COM 990 Research Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

L SC COM 999 Independent Research Credits: 1 - 3
Independent research. Prereq> Cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Occasionally

MICROBIOLOGY

MICROBIO 1 Cooperative Education/Co-op in Microbiology Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Microbio 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring, Summer

MICROBIO 100 The Microbial World Credits: 3
Roles of microorganisms and viruses in nature, health, agriculture, pollution control and ecology. Principles of disease production, epidemiology and body defense mechanisms. Biotechnology and the genetic engineering revolution. Primarily for non-science majors; not accepted for degree credit in Bacteriology. Prereq> Open to Fr.
No degree credit for both Bact 100 & 101 or 303
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit
Typically Offered: Occasionally
MICROBIO 101 General Microbiology  Credits: 3
Survey of microorganisms and their activities; emphasis on structure, function, ecology, nutrition, physiology, genetics. Survey of applied microbiology--medical, agricultural, food and industrial microbiology. Intended to satisfy any curriculum which requires introductory level microbiology. See 102 if laboratory is desired. Prereq> Chem 103 or 108 or 109 or 115. Stdts may not rec cr for both Bact 101&303. Stdts with 1 sem organic chem who will continue in biol or phys sci take 303. Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 102 General Microbiology Laboratory  Credits: 2
Covers techniques and procedures used in general microbiology, including cultivation, enumeration, aseptic techniques, physiology and selected applications. Prereq> Bact 101 or concurrent registration (preferred). Stdts may not receive credit for both Bact 102 & 304. Open to Freshmen
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 289 Honors Independent Study  Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

MICROBIO 299 Independent Study  Credits: 1 - 3
Prereq> Open to Fr, So or Jr st & written cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 303 Biology of Microorganisms  Credits: 3
Basic biology of microorganisms, including structure, function, physiology, genetics, ecology, diversity, and evolution. Prereq> Prev crse in botany, zool, Biocore or gen biol; 1 sem org chem or con reg.No degree cr for both Bact 101 & 303. Required of Bact majors, recommended for biol sci majors
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 304 Biology of Microorganisms Laboratory  Credits: 2
Introduction to modern laboratory techniques used to study the distribution and properties of microorganisms. This is the companion lab to Microbiology 303. Degree credits cannot be earned in both Microbiology 102 and 304. Prereq> Bact 303 or con reg. No degree cr for both Bact 102 & 304. Required of Bact majors & recommended for bio-sci majors
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 305 Critical Analyses in Microbiology  Credits: 1
Train students to become scientific problem-solvers, to critically analyze data, and to comprehend the principles of microbiological research via active discussion of a combination of scholarly papers and contemporary, hot topics in our field. Prereq> Microbio 303 or con reg
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

MICROBIO 324 Food Microbiology Laboratory  Credits: 2
Lab exercises dealing with food preservation, spoilage, and food poisoning. Isolation, identification and quantification of specific microbes occurring in foods, and food fermentations by bacteria and yeast. Prereq> Bact 102 or 304; Bact/Food Sci 325 or con reg
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 325 Food Microbiology  Credits: 3
Principles of food preservation, epidemiology of foodborne illness, agents of foodborne illness, food fermentations and biotechnology. Prereq> Bact 101 or 303 or MM&I 301 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 330 Host-Parasite Interactions  Credits: 3
Interrelationships between bacterial and viral parasites and their host cells or tissues. Stresses microbial strategies and mechanisms of colonization, invasion, pathogenesis and resistance of host defenses. Prereq> Bact 101 & 102; or Bact 303 & 304; or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
MICROBIO 375 Special Topics Credits: 1 - 4
Subjects of current interest to undergrads. Prereq> Variable prerequisites depending on topic
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

MICROBIO 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So or Jr or Sr st & cons suprvsg inst, advisor, & intrshp prog coordinator
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 400 Study Abroad in Microbiology Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

MICROBIO 425 Environmental Microbiology Credits: 3
Microbial interactions in soils, water, extreme environments and biofilms. Modern methods for studying microbial ecology. role of microbes in nutrient cycles and biogeochemistry. Use of microbes for mitigating manmade environmental problems of industrial, agricultural, and domestic origin. Prereq> Bact 303, Chem 341 or 343
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

MICROBIO 450 Diversity, Ecology and Evolution of Microorganisms Credits: 2
Fundamental concepts relating to the phylogenetic diversity, ecology and evolution of microbes. Active learning methods applying these concepts will promote a deeper understanding of microbiology. Prereq> Bact 303, 1 sem of genetics, & either Biochem 501 or equiv or 507 or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

MICROBIO 470 Microbial Genetics & Molecular Machines Credits: 3
An undergraduate-level course in modern microbial genetics and molecular processes. Emphasis on the use of eubacterial and eukaryotic microbes to elucidate cellular function. Discussion of experimental approaches to study microbes and their use in biotechnology, bioremediation, and medicine. Prereq> Microbio 303
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

MICROBIO 523 Soil Microbiology and Biochemistry Credits: 3
Transformations of nutrients and contaminants in soils and groundwater by microorganisms: emphasis on enzymatic mechanisms and metabolic pathways. Approaches for analyzing microbial populations and activities including molecular techniques. Applications of microbial activities for bioremediation of contaminated soils and groundwater. Prereq> Chem 104; Bact 303 or Bot 375 or Biochem 501, or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

MICROBIO 526 Physiology of Microorganisms Credits: 3
Biochemistry of microbial processes. Bact 527 is the accompanying lab. Prereq> Bact 303, 370 & either Biochem 501 or BmolChem 603.
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 527 Physiology of Microorganisms Laboratory Credits: 2
Biochemistry and genetics of microbial processes with an emphasis on learning advanced laboratory techniques. This is the companion laboratory to Bact 526. Required for bacteriology majors. Priority given to bacteriology seniors. Prereq> Bact 304, 370, Biochem 501 or BmolChem 603, con reg in Bact 526
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 528 Immunology Credits: 3
Development and functions of immune response in animals; a comprehensive study of experimental humoral and cellular immunity. Prereq> Two sem chem and one sem zoology or gen biology
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 531 Undergraduate Seminar Credits: 1
Current topics in microbiology and undergraduate research presentations. Enrollment limited to Bacteriology majors. Prereq> Bact 101 or 303 or equiv. Jr or Sr st in Bact
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
MICROBIO 545 Topics in Biotechnology Credits: 1
Seminars on current topics in agricultural, medical, and industrial biotechnology such as: microbiological production of food, drink, biopharmaceuticals; production methods, genetic engineering (vectors, recombination cloning), continuous fermentation; bioconversion processes and production of chemicals from biomass; plant biotechnology; transgenic animals. Prereq> Biochem 501 and Genetics 466 or equiv
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

MICROBIO 551 Physiological Diversity of Procaryotes Laboratory Credits: 2
Prereq> Bact 304, 526, 527 & con reg in Bact 550. Priority to bacteriology seniors. Required of bact majors
General Education:  COM B  L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit
Typically Offered: Spring

MICROBIO 607 Advanced Microbial Genetics Credits: 3
Molecular genetic methods and related aspects of prokaryotic and lower eukaryotic biology, as well as critical analysis of the scientific literature. Approximately two-thirds of the course will focus on prokaryotes and one-third on lower eukaryotic microbes. Prereq> Genetics 466 or equiv, Biochem 501 or equiv, & Grad st or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 612 Prokaryotic Molecular Biology Credits: 3
Molecular basis of bacterial physiology and genetics with emphasis on molecular mechanisms; topics include nucleic acid-protein interactions, transcription, translation, replication, recombination, regulation of gene expression. Prereq> Bact 370 or equiv & Biochem 501 or equiv, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 622 Plant-Bacterial Interactions Credits: 2 - 3
Physiology, genetics, taxonomy, and ecology of bacterial pathogens, epiphytes, and symbionts of plants. Prereq>A course in advanced bacteriology; Genetics 466 or equiv; Biochem 501 or equiv; or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

MICROBIO 625 Advanced Microbial Physiology Credits: 3
Course topics will focus on microbial physiology with an emphasis on metabolic processes. Prereq> Bact 550 or equiv, and Biochem 501 or 601 or con reg & cons inst
Typically Offered: Occasionally

MICROBIO 632 Industrial Microbiology/Biotechnology Credits: 2
Application of modern techniques of genetics and physiology to the large-scale production of microbial products; industrial strain improvement; scale-up of microbial processes; survey of industrial processes using microorganisms. Prereq> Bact 526 & Biochem 501 or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

MICROBIO 640 General Virology-Multiplication of Viruses Credits: 3
Bacterial and animal viruses, their structure, multiplication, and genetics. Prereq> Intro crses in bact, biochem & genetics
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

MICROBIO 650 Advanced Microbiology of Foodborne Pathogens Credits: 3
Infectious and toxigenic agents of foodborne disease: detection, identification, and control methods; ecology and survival strategies of pathogens in foods; virulence mechanisms of foodborne pathogens. Prereq> Bact/Food Sci 325 or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

MICROBIO 655 Biology and Genetics of Filamentous Fungi Credits: 3 - 4
Fungal genetics, genomics, and physiology using plant pathogenic fungi and the genetic models Aspergillus nidulans and Neurospora crassa as model systems to explore the current knowledge of fungal genetics and plant/fungal interactions. Prereq> Cons inst; PI Path 300 & 332 recommended; Genetics 466 or equiv; general microbiol crse
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
MICROBIO 668 Microbiology at Atomic Resolution Credits: 3
Three-dimensional protein structures form the basis for discussions of high resolution microbiology; how particular problems are solved with given protein architectures and chemistries and how themes of protein structure are modified and recycled. Prereq> Biochem (e.g. Biochem 501), molecular biol (e.g. Bact 526 or 612) required, one semester of physical chem preferred
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

MICROBIO 670 Trends in Food Safety: Epidemiology, Physiology and Control Credits: 2
Current trends in food safety: emerging pathogens; impact of new generation foods on ecology and physiology of pathogens; new technologies in control and detection/typing. Prereq> Bact/Food Sci 325; Food Sci/Bact 650 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MICROBIO 681 Senior Honors Thesis Credits: 2 - 3
Individual lab research for majors for an honors degree in bacteriology (L&S students must take 3 cr per sem). Prereq> Hon prog candidacy
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & Bact 681
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 691 Senior Thesis Credits: 2
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 692 Senior Thesis Credits: 2
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 699 Special Problems Credits: 1 - 4
Prereq> Sr or Grad st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MICROBIO 710 Microbial Symbiosis Credits: 3
Covers the themes and diversity of plant and animal associations with microbes with an emphasis on beneficial relationships. Examples will be drawn from recent literature. Prereq> Grad st
Typically Offered: Occasionally

MICROBIO 726 Regulation of Gene Expression in Prokaryotes Credits: 3
An intensive examination of a limited number of systems to illustrate the range of molecular mechanism utilized to control gene expression in bacteria. Prereq> Bact/Genetics/Biochem 612 or cons inst
Typically Offered: Occasionally

MICROBIO 731 Seminar Credits: 1
Reviews of microbiological subjects, and reports on research work. Prereq> Grad st
Typically Offered: Occasionally

MICROBIO 740 Mechanisms of Microbial Pathogenesis Credits: 3
Lecture-discussion. Host-pathogen relationships in microbial diseases. Entry level course for infectious diseases sequence (see Med Micro 760, 790). Prereq> Cons inst, MM&I 301 or equiv & a course in immunology
Typically Offered: Occasionally

MICROBIO 790 Immunology of Infectious Disease Credits: 3
Immunobiology and immunogenetics of resistance to infectious disease agents of man and animals; immunoregulatory mechanisms associated with evasion of host immunity. Prereq> MM&I 720 or equiv, MM&I 740 or equiv, & cons inst
Typically Offered: Occasionally
MICROBIO 811 Advanced Problems in Microbiology Credits: 1
Required course for first-year Ph.D. graduate students in the Microbiology Doctoral Training Program (MDTP); combines faculty lectures, review of primary literature, student presentations, and small group discussions to explore the diversity of scientific topics comprising the field of contemporary microbiology. Prereq: 1st yr st in Microbiol Doctoral Training Progm
Typically Offered: Occasionally

MICROBIO 875 Special Topics Credits: 1 - 4
Of current interest to graduates. Prereq: Variable prerequisites depending on topic
Typically Offered: Occasionally

MICROBIO 901 Advanced Seminar Credits: 1
Recent advances in specialized areas of microbiology. Prereq: Bact 729 & Grad st & cons inst
Typically Offered: Occasionally

MICROBIO 914 Seminar-Molecular Biosciences (Advanced) Credits: 1
During the fall semester, molecular biosciences trainees who have not achieved dissertator status will present seminars based primarily on literature related to their projects. During the spring semester, molecular biosciences trainees with dissertator status will present seminars based upon their own research. Prereq: None
Typically Offered: Occasionally

MICROBIO 917 Regulation of Gene Expression (Advanced Seminar) Credits: 1
Participants will discuss recent literature in topics related to prokaryotic and eukaryotic gene regulation. These topics include but are not limited to regulation of transcription, translation, and genome organization. Each week, one student participant will lead a critical discussion on a recent publication in the field of gene regulation. The discussion leader will explain the background materials, methodology, experimental results, and broader implications of the publication. All participants will be expected to take an active role in the discussion. Prereq: None
Typically Offered: Fall, Spring

MICROBIO 932 Biotechnology Training Program Seminar Credits: 1
Biotechnology Training Program trainees will present their research for critical review by audience. Prereq: Grad st. Required of Biotechnology Training Program trainees
Typically Offered: Occasionally

MICROBIO 990 Research Credits: 1 - 9
Full lab and literature review of a problem in microbiology. Leads to preparation of thesis and publication. Prereq: Grad st & cons inst
Typically Offered: Occasionally

MICROBIO 999 Special Problems Credits: 1 - 6
Prereq: Grad st & cons inst
Typically Offered: Occasionally

MOLECULAR & ENVIRONMENTAL TOX

M&ENVTOX 308 People, Chemicals, Environment Credits: 2
An interdisciplinary approach to problems related to the presence of biologically active substances and potentially hazardous synthetic chemicals in man's environment. Principles of toxicology, drugs and drug abuse, pesticide chemicals, radiation hazards, industrial chemicals, food poisoning, and problems related to exposure to foreign compounds such as carcinogenesis, mutagenesis, and teratogenesis. Prereq: A crse in biology & one crse in chem or cons inst
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

M&ENVTOX 368 Environmental Law, Toxic Substances, and Conservation Credits: 2
Development of and need for "environmental law"; an introduction to the legal system; public and private rights in the environment; regulation of pesticides and toxic substances; environmental legislation and rulemaking; environmental impact statements; professionals as expert witnesses. No prior knowledge of law assumed. For scientists and others dealing with environmental issues in academia, industry and government. Prereq: So st
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring
M&ENVTOX 606 Colloquium in Environmental Toxicology Credits: 1
Current topics in molecular and environmental toxicology and problems related to biologically active substances in the environment. Topics vary each semester. Lectures are by resident and visiting professors and other researchers. Prereq: Biology/Zoology 101, Biology/Botany 130, or equivalent
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

M&ENVTOX 623 Advanced Nutrition: Minerals Credits: 1
Topics discussed in regard to minerals are: metabolic roles; absorption, excretion, transport and cellular metabolism; nutritional and toxicological standards for humans and animal models; bioavailability; genetic interactions; and research methodologies. Prereq: Grad st; Nutr Sci 510 & Physiol 335 or equiv or cons inst
Typically Offered: Fall

M&ENVTOX 625 Toxicology I Credits: 3
Basic principles of toxicology and biochemical mechanisms of toxicity in mammalian species and man. Correlation between morphological and functional changes caused by toxicants in different organs of the body. Prereq: Biochem 501 & Physiol 335 or cons inst. Path 401 & Phmcol 401 or equiv recommended
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

M&ENVTOX 626 Toxicology II Credits: 3
A course surveying the basic methods and fundamental biochemical mechanisms of toxicity. Toxicity in mammalian organ systems, techniques for evaluating toxicity, as well as mechanisms of species specificity, and environmental interactions (with toxicant examples) are presented. Prereq: Env Tox 625 or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

M&ENVTOX 630 Ecotoxicology: Toxicant Effects on Ecosystems Credits: 3
Study of how toxicants mediate interactions between organisms and their biotic and abiotic environments. Addresses biochemical and physiological mechanisms of toxicity; defenses against toxicants; population, community, ecosystems and evolutionary ecotoxicology; socio-economic impact and current research. Prereq: Two semesters intro biology & one semester organic chem or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

M&ENVTOX 631 Toxicants in the Environment: Sources, Distribution, Fate, & Effects Credits: 3
Nature, sources, distribution, and fate of contaminants in air, water, soil, and food and potential for harmful exposure Prereq: Chem 343 & 345 or equiv; Chem 561 or equiv; Physics 103 & 104 or equiv; Math 211; or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

M&ENVTOX 632 Ecotoxicology: The Chemical Players Credits: 1
Introduction to natural and man-made toxins/toxicants, their distribution, transport, and fate in the environment. Includes lectures, current research presentations, and discussions. Prereq: 2 sem intro biol & 1 sem organic chem, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M&ENVTOX 633 Ecotoxicology: Impacts on Individuals Credits: 1
Addresses absorption, biotransformation, elimination of toxins in a wide variety of taxa (plants, invertebrates, vertebrates), and includes lectures, current research presentations, and discussions. Prereq: M&EnvTox 632, or 2 sem intro biol & M&Envtox 631, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M&ENVTOX 634 Ecotoxicology: Impacts on Populations, Communities and Ecosystems Credits: 1
Focuses on the impact of toxicants on populations, communities, ecosystems, and includes risk evaluation. Includes lectures, current research presentations, and discussions. Prereq: M&EnvTox 633, or M&EnvTox 625, 626 & 631, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M&ENVTOX 699 Special Problems Credits: 1 - 3
Prereq: Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Summer
**M&ENVTOX 700 Topics in Toxicology** Credits: 1
A repeatable, participatory course addressing different topical issues in environmental toxicology. Environmental and health-related aspects of selected topics are explored in depth. Contact the Environmental Toxicology Center for upcoming topics and times. Prereq> Cons inst
Typically Offered: Occasionally

**M&ENVTOX 750 Molecular Approaches to Xenobiotic Metabolism** Credits: 2
A critical assessment of contemporary research on enzymes involved in the metabolism of foreign chemicals. Topics will include the enzymology of oxygen activation and conjugation, genetic control of these enzymes, and early molecular events preceding chemical mediated cytotoxicity and mutation. Prereq> Biochem 501 or equiv and cons inst
Typically Offered: Occasionally

**M&ENVTOX 800 Seminar** Credits: 1
Current research in environmental toxicology and pathology and other topics of interest and importance to environmental toxicologists. Prereq> Grad st & cons inst
Typically Offered: Occasionally

**M&ENVTOX 875 Special Topics** Credits: 2
Topics in environmental toxicology of interest to graduate students. Prereq> Grad st & cons inst
Typically Offered: Occasionally

**M&ENVTOX 990 Research** Credits: 1 - 9
Prereq> Grad st & cons inst
Typically Offered: Occasionally

**NUTRITIONAL SCIENCES**

**NUTR SCI 1 Cooperative Education/Co-op in Nutritional Science** Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Nutr Sci 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

**NUTR SCI 132 Nutrition Today** Credits: 3
Nutrition and its relationship to humans and their biological, social, and physical environment; current issues and concerns that affect the nutritional status of various population groups. Prereq> Not open to stdts eligible for Nutr Sci 332. Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**NUTR SCI 200 The Professions of Dietetics and Nutrition** Credits: 1
An overview of the nutrition and dietetics professions: career options; professional and portfolio development; professional references and resources; credentialing; and professional issues. Prereq> Pre-dietetics (PDI) or dietetics (ADI) major classification
L&S Credit: No degree credit in L&S  Typically Offered: Fall

**NUTR SCI 203 Introduction to Global Health** Credits: 3
Introduces students to global health concepts through multidisciplinary speakers dedicated to improving health through their unique training. It targets students with an interest in public health and those who wish to learn how their field impacts their global issues. Prereq> None
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**NUTR SCI 289 Honors Independent Study** Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

**NUTR SCI 299 Independent Study** Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
NUTR SCI 311 Comparative Animal Nutrition Credits: 3
Nutrients and their source, assimilation, function and requirement. Prereq> BmolChem 314 or Chem 341 or Chem 343 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NUTR SCI 320 Nutrition for Health and Disease Credits: 3
Survey of normal and therapeutic nutrition for non-majors. Covers basics of nutrition, how nutrition promotes health, changing nutritional requirements through the life cycle, and role of nutrition in prevention and treatment of selected diseases. Prereq> Chem 103 or 108; Zool 101 or Zool/Bot 152 or Biocore 303 or Physiol 335; or cons inst. Not open to nutr sci majors
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

NUTR SCI 332 Human Nutritional Needs Credits: 3
Lectures, discussion. Biological basis of the nutritional requirements of humans and the influence of psychological and societal factors on the manner of their fulfillment. Prereq> Chem 103; Chem 104 or Biochem 201 or BmolChem 314
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

NUTR SCI 350 World Hunger and Malnutrition Credits: 3
Hunger and poverty in developing countries and the United States. Topics include: nutrition and health, population, food production and availability, and income distribution and employment.
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NUTR SCI 375 Special Topics Credits: 1 - 4
Subjects of current interest to undergraduates. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

NUTR SCI 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So or Jr or Sr st & cons supervising inst, advisor & internship program coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

NUTR SCI 400 Study Abroad in Nutritional Sciences Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

NUTR SCI 421 Global Health Field Experience Credits: 1 - 4
Undergraduate global health field experiences address a broad range of health topics including nutrition, primary health care, water and sanitation, climate change, sustainable agriculture, and economic development. These field experiences take place in sites around the world including locations in Africa, Asia, Latin America, Europe, and the United States. Engaged learning will include participation in applied public health activities and service learning projects with communities and partner organizations. Students will gain knowledge about health and disease and explore interdisciplinary approaches to health. Field experiences are designed to meet the requirement for the Undergraduate Cert
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

NUTR SCI 431 Nutrition in the Life Span Credits: 3
Influence of nutrition on growth and development; physiological basis of nutritional requirements throughout the life span, including the relationship of food habits and nutrition to selected chronic diseases; principles of nutritional intervention in community programs. Prereq> Jr st; grade of C or better in Physiol 335 & Nutr Sci 332 or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NUTR SCI 499 Capstone in Nutrition Credits: 2
Capstone in the nutritional sciences, emphasis is on the integration of nutritional knowledge and the interpretation and application of nutrition-oriented research. Prereq> Sr st & Nutr Sci 431; Nutr Sci 510 or con reg
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NUTR SCI 500 Undergraduate Capstone Seminar Laboratory Credits: 1
Current topics in Nutritional Sciences and undergraduate research presentations. Enrollment limited to Nutritional Sciences majors. Prereq> Nutr Sci 431 and Nutr Sci 510 (or con reg) and Sr st or second sem Jr st in Nutritional Sciences major or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
NUTR SCI 510 Biochemical Principles of Human and Animal Nutrition Credits: 3
Lectures in nutrition for students with a substantial background in biochemistry. Emphasis on biochemical and physiological fundamentals of nutrition. Discussion of protein, fat, carbohydrate, energy, minerals and vitamins and their roles and interrelationships in nutrition and metabolism. Prereq> Biomolecular Chem 314 or 503, Biochem 501 or 507, or consent of instructor
L&S Breadth: Biological Science  L&S Level: Advanced   L&S Credit: Counts for LAS credit   Typically Offered: Fall

NUTR SCI 520 Applications in Clinical Nutrition Credits: 3
Capstone course includes clinical problem solving, assessing medical record data, evaluating food intake, planning modified diets, and reviewing medical and research literature. Develops critical thinking, teamwork and communication skills needed by the dietetic intern and dietitian. Prereq> Nutr Sci 631 & Nutr Sci 500 (or con reg) & Sr in Dietetics major-Didactic Prgm or Sr in Nutr Sci Major, Nat Sci opt & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NUTR SCI 521 Public Health Experience in Nutrition and Food Systems Credits: 2
Capstone course provides service and research experiences related to nutrition and food in public health settings. Students review literature, collect and integrate data, communicate with clients and staff at sites, develop practical solutions, and communicate with local public health professionals. Prereq> Jr or above in any biol sci or cons inst
Typically Offered: Fall, Summer

NUTR SCI 525 Nutrition in Physical Activity and Health Credits: 3
The purpose of this course is to provide undergraduate and graduate students with both scientific knowledge and application of nutrition related to exercise, health, and sports. Prereq> Admission to Kinesiology(Athletic Training, Exercise and Movement Science, or Physical Education Teacher Education) or Nutritional Science major and Physiology 335
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

NUTR SCI 540 Community Nutrition Programs and Policy Issues Credits: 1
Students will increase their understanding of community-based nutrition needs, intervention programs and policy issues in the U.S. Written assignments will demonstrate students' positions on related issues. Prereq> Nutr Sci 431 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Spring

NUTR SCI 600 Introductory Seminar in Nutrition Credits: 1
Presentation of reports from current journals of nutritional sciences. Prereq> Cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall

NUTR SCI 619 Advanced Nutrition: Intermediary Metabolism of Macronutrients Credits: 3
Discuss metabolic control; gastrointestinal physiology, nutrient absorption; molecular, cellular, organismal aspects of glucose transport, metabolism, regulation; fuel sensing; molecular regulation of fatty acid, lipid metabolism; cellular, organismal aspects of protein metabolism; hormonal control of metabolism; experimental approaches for studying metabolism. Prereq> Grad st; Nutr Sci 510 or Biochem 507 & 508 or Bmolchem 503 (or con reg) or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

NUTR SCI 621 Introduction to Nutritional Epidemiology Credits: 1
Techniques used to evaluate relationships of diet to health and disease in human populations; integration of knowledge gained with results of animal and clinical studies toward understanding dietary risk or protective factors for disease. Includes advanced diet assessment and basic epidemiologic approaches. Prereq> Stat 301 or equivalent & Nutr Sci 332 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NUTR SCI 623 Advanced Nutrition: Minerals Credits: 1
Topics discussed in regard to minerals are: metabolic roles; absorption, excretion, transport and cellular metabolism; nutritional and toxicological standards for humans and animal models; bioavailability; genetic interactions; and research methodologies. Prereq> Grad st; Nutr Sci 510 & Physiol 335 or equiv or cons inst
Typically Offered: Fall
NUTR SCI 625 Advanced Nutrition: Obesity and Diabetes Credits: 1
Physiology, biochemistry and genetics of human obesity and diabetes. Critical review of current research on their etiology and treatment. Prereq> Grad st; Nutr Sci 619 or con reg & Physiol 335 or equiv or cons inst
Typically Offered: Spring

NUTR SCI 626 Experimental Diet Design Credits: 1
Discuss nutrient requirements, composition of ingredients used to meet requirements and the mathematical steps involved in diet formulation with emphasis on research animals and human subjects. Prereq> Grad st; Stat 301 or equiv & Nutr Sci 510 or con reg or cons inst
Typically Offered: Fall

NUTR SCI 627 Advanced Nutrition: Vitamins Credits: 1
Scientific knowledge of the metabolic functions, metabolism and nutritional requirements for some of the water soluble vitamins and all of the fat soluble vitamins. Prereq> Grad st; Nutr Sci 510 & Physiol 335 or equiv or con reg or cons inst
Typically Offered: Spring

NUTR SCI 631 Clinical Nutrition Credits: 4
Body systems in relation to the alterations in nutrition and metabolism that accompany disease states. Research related to therapeutic nutrition. Prereq> Nutr Sci 332, 431; Biochem 501 or BmolChem 314; ADI classification or consent of instructor
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

NUTR SCI 635 Advanced Clinical Nutrition Credits: 1
Clinical nutrition and rationale for medical nutrition therapy in relation to the pathophysiology of specific disease states. Lectures, case studies and discussion of current research. Prereq> Current enrollment or completion of Nutr Sci 631, Nutr Sci 431, and Biochem 501 or Bmolchem 314 or 503
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NUTR SCI 650 Advanced Clinical Nutrition: Critical Care and Nutrition Support Credits: 3
This course provides advanced study of the metabolic demands of critical illness and how these alterations influence the nutritional needs of critical care patients in various disease states. Using an evidence-based medical approach, students will assess nutrient requirements and determine best methods of nutrient delivery in various disease states. Anthropometric measures and hematological indices will be incorporated to assess nutritional status and monitor response to nutritional therapies. Prereq> Admission to the Capstone Certificate in Clinical Nutrition, or the Capstone Certificate in Clinical Nutrition - Dietetic Internship
L&S Credit: No degree credit in L&S  Typically Offered: Summer

NUTR SCI 651 Advanced Clinical Nutrition - Pediatrics Credits: 3
Pediatric nutritional requirements with emphasis on issues related to evidence-based medical nutrition therapy. Prereq> Admission to the Capstone Certificate in Clinical Nutrition or the Capstone Certificate in Clinical Nutrition - Dietetic Internship.
L&S Credit: No degree credit in L&S  Typically Offered: Summer

NUTR SCI 652 Advanced Nutrition Counseling and Education Credits: 3
Application of current theories and techniques of counseling and education to the field of nutrition and dietetics. Practical application of communication techniques, client-centered counseling methods, motivational interviewing, learning theories and behavior change techniques, and factors affecting eating patterns. Nutrition psychology and the psychoanalytic approach to nutrition counseling will be emphasized in the class. Principles of group counseling/facilitation and instructional material/media design. Prereq> Admission to the Capstone Certificate in Clinical Nutrition, or the Capstone Certificate in Clinical Nutrition - Dietetic Internship
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NUTR SCI 653 Clinical Nutrition Research Credits: 3
Research use and development as it applies to clinical nutrition practice: effective use of the literature in evidence based practice and research development, problem development, methodology, analysis and reporting of results and conclusions. Prereq> Admission to the Capstone Certificate in Clinical Nutrition of the Capstone Certificate in Clinical Nutrition - Dietetic Internship
L&S Credit: No degree credit in L&S  Typically Offered: Spring
NUTR SCI 670 Nutrition and Dietetics Practicum I Credits: 3
The first of two supervised practice experiences in nutrition and dietetics at University of Wisconsin Hospital and Clinics and affiliated sites. Dietetic interns apply their academic training, furthering their competency in: clinical nutrition, food systems management, research, and community experiences. Prereq> Admission to the Capstone Certificate in Clinical Nutrition - Dietetic Internship
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NUTR SCI 672 Herbals, Homeopathy, and Dietary Supplements Credits: 2 - 3
Covers regulations and clinical science regarding the use of herbals, homeopathic remedies, and dietary supplements, focusing on peer-reviewed studies and integration with allopathic drugs; includes discussion of marketing issues. Prereq> Phm Sci 432 or Biochem 501 or BmolChem 314; Physiol 335; or cons inst
Typically Offered: Spring

NUTR SCI 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

NUTR SCI 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Nutr Sci 681 and honors candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

NUTR SCI 691 Senior Thesis-Nutrition Credits: 1 - 4
Prereq> Senior standing & consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

NUTR SCI 692 Senior Thesis Credits: 1 - 4
Prereq> Nutr Sci 691; Sr st & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

NUTR SCI 699 Special Problems Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

NUTR SCI 799 Practicum in Nutritional Sciences Teaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Prereq> Grad st & cons inst
Typically Offered: Occasionally

NUTR SCI 875 Special Topics Credits: 1 - 4
Subjects of current interest to Grads. Prereq> Grad st and cons inst
Typically Offered: Occasionally

NUTR SCI 881 Seminar-Topics in Human and Clinical Nutrition Credits: 1
Varied topics in clinical and human nutrition. Prereq> Nutr Sci 600
Typically Offered: Occasionally

NUTR SCI 901 Seminar-Nutrition and Metabolism (Advanced) Credits: 1
Presentation of original research results; discussion of recent articles in animal metabolism and nutrition. Prereq> Cons inst
Typically Offered: Occasionally

NUTR SCI 931 Seminar-Nutrition Credits: 1
Seminar features expert presentations of current research and issue-based applications that represent the breadth of nutritional sciences; topics investigate problems "from molecules to communities". Prereq> Cons inst
Typically Offered: Occasionally

NUTR SCI 991 Research Nutrition Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally
NUTR SCI 993 Independent Study in Nutrition Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally

PLANT PATHOLOGY

PL PATH 1 Cooperative Education/Co-op in Plant Pathology Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Pl Path 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

PL PATH 123 Plants, Parasites, and People Credits: 3
The course will explore the interaction between society and plant-associated microbes. Topics include: the Irish potato famine, pesticides in current agriculture, role of economics and consumer preference in crop disease management and the release of genetically engineered organisms. Prereq> Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

PL PATH 289 Honors Independent Study Credits: 1 - 2
Prereq> Enrolled in the CALS Honors Prgm & Sophomore or Junior standing. Inter-Ag 288
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

PL PATH 299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

PL PATH 300 Introduction to Plant Pathology Credits: 4
Economic importance, symptoms, causes, and methods of control of representative plant diseases. Prereq> Intro course in bot
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

PL PATH 309 Diseases of Trees and Shrubs Credits: 3
Fundamental disease concepts, pathogens and causal agents, diagnosis, and biologically rational principles and practices for management of diseases of trees and shrubs. For degree students and professionals. One extended lecture with discussion and one lab or field trip per week. Prereq> One semester of plant sci or consent of instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

PL PATH 310 Plant Disease Control Credits: 2
Principles and technology of plant disease control. Prereq> Pl Path 300, equivalent, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PL PATH 311 Global Food Security Credits: 3
Isn't having enough food a basic human right? Exploration of the drivers of food insecurity: barriers to food production (pests, land availability, climate), barriers to food availability (politics, price, biofuels), and a greater need due to population growth. Examination of solutions to food insecurity. Prereq> Sophomore standing
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

PL PATH 323 Soil Biology Credits: 3
Nature, activities and role of organisms inhabiting soil. Effects of soil biota on ecosystem function, response to cultural practices, and impacts on environmental quality, including bioremediation of contaminated soils. Prereq> Chem 104 and Botany 130 or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

PL PATH 332 Fungi Credits: 4
Growth, development, variability and dispersal of saprophytic, parasitic, and symbiotic fungi, with a consideration of their ecological and economic significance. Prereq> A 5 cr intro crse in botany
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
PL PATH 354 Diagnosing and Monitoring Pest and Nutrient Status of Field Crops Credits: 1
This course is designed to provide students with information necessary to diagnosis and monitor corn, soybean, alfalfa and wheat for pests (insects, weeds, diseases) and nutrient deficiency symptoms including perspectives from Agronomy, Entomology, Horticulture, Plant Pathology and Soil Science. Proper soil and pest sampling information will be provided as will proper crop staging techniques which are essential for pest and nutrient management. Prereq> None
Typically Offered: Spring

PL PATH 368 Environmental Law, Toxic Substances, and Conservation Credits: 2
Development of and need for "environmental law"; an introduction to the legal system; public and private rights in the environment; regulation of pesticides and toxic substances; environmental legislation and rulemaking; environmental impact statements; professionals as expert witnesses. No prior knowledge of law assumed. For scientists and others dealing with environmental issues in academia, industry and government. Prereq> So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

PL PATH 375 Special Topics Credits: 1 - 4
Subjects of current interest to undergrads. Prereq> Cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

PL PATH 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So, Jr or Sr st and cons supervising inst, advisor, and internship program coordinator
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

PL PATH 400 Study Abroad in Plant Pathology Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

PL PATH 505 Plant-Microbe Interactions: Molecular and Ecological Aspects Credits: 3
Molecular and ecological aspects of the interactions between plants and microorganisms. This course explores many of the themes, from genetic to integrative, of modern biology, and illustrates how study of plant-microbe interactions contributes to understanding of fundamental plant science. Prereq> An upper level crse in microbiol (e.g. Bact 303); biochem (e.g. Biochem 501); & genetics (e.g. Genetics 466) or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

PL PATH 510 Forest Pathology Credits: 2
Important diseases of forest and shade trees in North America. Economic importance and principles of forest disease control. Prereq> Pl Path 300 & 332 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PL PATH 517 Plant Disease Resistance Credits: 2 - 3
Host resistance in plant disease control. Conceptual and applied aspects of resistance: how it works, why it sometimes fails, and the traditional and modern techniques used for evaluating host resistance and incorporating resistance factors into new plant varieties. Prereq> Previous coursework in plant pathology, genetics and/or plant breeding, or consent of instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

PL PATH 525 Comparative Ecology of Microorganisms and Macroorganisms Credits: 3
Principles of ecology with emphasis on contrasts and similarities between microorganisms and macroorganisms. Topics include the ecology of individuality, genetic variation, resource acquisition and allocation, size, growth and growth form, the environment, and community processes. Prereq> Bact 303 & 304
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

PL PATH 558 Biology of Plant Pathogens Credits: 3
Explores biology of plant pathogenic fungi, oomycetes, nematodes, bacteria, and viruses, with emphasis on identifying: 1) key traits of each pathogen class, and 2) common strategies used by these microbes. Inquiry-driven laboratory will investigate diverse interactions between plants and their pathogens. Prereq> Pl Path 300 or equiv or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
PL PATH 559 Diseases of Economic Plants Credits: 3
Symptoms, epidemiology and control of diseases of crop plants; emphasis on disease diagnosis. Plant disease
clinic, field trips, lectures and lab. Prereq> Plant Path 300 & 332
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

PL PATH 590 Capstone in Plant Pathology Credits: 1 - 4
Synthesizing research-based capstone experience for students majoring in Plant Pathology. Students will develop
problem-solving skills, be exposed to multidisciplinary approaches, develop teamwork and interpersonal skills,
develop information resources, consider societal, economic, ethical, scientific and professional aspects of the
field, and prepare and present written and/or oral reports. Prereq> Senior standing
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

PL PATH 602 Ecology, Epidemiology and Control of Plant Diseases Credits: 3
Environmental factors in the development and spread of diseases, pathogen variability, genetics of disease
resistance, and principles of disease control. Prereq> Knowledge equiv to that obtained in PI Path 300, Botany
332, Stat 571, Math 212, & PI Path 616 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

PL PATH 606 Colloquium in Environmental Toxicology Credits: 1
Current topics in molecular and environmental toxicology and problems related to biologically active substances in
the environment. Topics vary each semester. Lectures are by resident and visiting professors and other
researchers.. Prereq> Biology/Zoology 101, Biology/Botany 130, or equivalent
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

PL PATH 614 Ecology of Soil-Borne Plant Pathogens Credits: 2
Isolation, culture, and ecological studies with soil-borne fungi and discussions of research on these plant
pathogens. Prereq> PI Path 300 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PL PATH 616 Plant Nematology Credits: 1 - 3
Isolation, identification, and behavior of plant parasitic nematodes, and research methods for their study in
laboratory, greenhouse and field. Prereq> Plant Path 300 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

PL PATH 620 Plant Pathogenic Fungi Credits: 3
Review of taxonomic systems used for the identification of major groups of plant pathogenic fungi. Cytology and
morphology of plant pathogenic fungi and histopathology of host-pathogen relations. Prereq> PI Path 300 & 332
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

PL PATH 622 Plant-Bacterial Interactions Credits: 2 - 3
Physiology, genetics, taxonomy, and ecology of bacterial pathogens, epiphytes, and symbionts of plants. Prereq>
A course in advanced bacteriology; Genetics 466 or equiv; Biochem 501 or equiv; or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

PL PATH 624 Plant Virology Credits: 3
Lectures on transmission, characterization, differentiation, and control of plant viruses. Lab on methods of
investigating plant viruses. Prereq> PI Path 300, Biochem 501, or equiv, or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

PL PATH 640 General Virology-Multiplication of Viruses Credits: 3
Bacterial and animal viruses, their structure, multiplication, and genetics. Prereq> Intro crses in bact, biochem &
genetics
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

PL PATH 655 Biology and Genetics of Filamentous Fungi Credits: 3 - 4
Fungal genetics, genomics, and physiology using plant pathogenic fungi and the genetic models Aspergillus
nidulans and Neurospora crassa as model systems to explore the current knowledge of fungal genetics and
plant/fungal interactions. Prereq> Cons inst; PI Path 300 & 332 recommended; Genetics 466 or equiv; general
microbiol crse
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
PL PATH 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

PL PATH 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Prereq> Honors program candidacy & PI Path 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

PL PATH 699 Special Problems Credits: 1 - 5
Prereq> Sr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

PL PATH 799 Practicum in Plant Pathology Teaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct
Teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of
Teaching performance. Prereq> Grad st & cons inst
Typically Offered: Fall, Spring

PL PATH 800 Inquiry-Based Biology Teaching Credits: 1 - 2
The goal is for students to develop competence and confidence as teachers. The course covers fundamentals of
Learning theory and practical strategies for teaching biology. Students practice lecturing, manage classroom
dynamics, and teach laboratory sections (optional).
Typically Offered: Fall

PL PATH 801 Teaching Biology: Special Topics Credits: 1
Students will learn about mentoring and/or instructional materials. Students have two options: (a) practice
Mentoring undergraduate researchers with feedback and evaluation and/or (b) develop and evaluate instructional
Materials. This course builds on content from Plant Pathology 800. Prereq> PI Path 800 or con reg
Typically Offered: Fall, Spring, Summer

PL PATH 875 Special Topics Credits: 1 - 4
Topics of current interest to Grad students. Prereq> Grad st and cons inst
Typically Offered: Fall, Spring

PL PATH 923 Seminar Credits: 1
Prereq> Grad st
Typically Offered: Fall, Spring

PL PATH 930 Seminar-Mycology Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

PL PATH 990 Research Credits: 1 - 9
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

SOIL SCIENCE

SOIL SCI 1 Cooperative Education/Co-op in Soil Science Credits: 1
Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to
Provide students with a background upon which to base a professional career. Students receive credit only for the
term in which they are actively enrolled and working. The same work experience may not count towards credit in
Soil Science 399. Prereq> So st, and consent of supervising instructor and academic advisor.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

SOIL SCI 101 Forum on the Environment Credits: 1 - 2
Lectures and discussions about environmental issues. Historical and contemporary environmental impacts of
Humans on the biosphere. Global futures: population, technology, societal values, resources and prospects for
Sustainable management. Prereq> Open to Fr
L&S Breadth: Soc Sci or Nat Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring
SOIL SCI 132 Earth’s Water: Natural Science and Human Use Credits: 3
Water is central to the functioning of planet Earth. As humans increase their impact on Earth’s systems and cohabitants, our understanding of the multiple roles of water becomes critical to finding sustainable strategies for human and exosystem health. This course explores the science of Earth’s hydrosphere, with constant attention to human uses and impacts. Prereq> HS math & science. Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 230 Soil: Ecosystem and Resource Credits: 3
Soils are fundamental to ecosystem science. A systems approach is used to investigate how soils look and function. Topics investigated include soil structure, biology, water, fertility, and taxonomy as well as the human impact on the soil environment. Prereq> Not open to students with credits in Soil Sci 301
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen, Sophomore or Junior standing & written consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

SOIL SCI 301 General Soil Science Credits: 4
Physical chemical and biological properties of soils as they affect soil-plant-water relations, soil classification and suitability for agricultural and other uses. Prereq> Math 112 & Chem 103 or equiv
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

SOIL SCI 305 Field Study of Soil Credits: 1
Intensive in situ description and evaluation of soil morphology. Field trips required. Prereq> Soil Sci 230, 301 or equiv
L&S Breadth: Natural Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

SOIL SCI 315 Soil Science for Land Use Planning Credits: 3
Applied pedology. Suitability of soil landscapes for human needs. Selection of soils for agriculture, urban development and other uses. Identification of critical soil resources. Use of soil landscape data to ameliorate the environmental impact of human activities. Prereq> Junior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

SOIL SCI 321 Soils and Environmental Chemistry Credits: 3
Sources, reactions, transport, effects, and fates of chemical species in soils and associated water and air environments. Emphasis on the chemical behavior of elements and compounds and the phenomena affecting natural and anthropogenic materials in soils. Prereq> Chem 103-104 or 109-110 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Fall

SOIL SCI 322 Physical Principles of Soil and Water Management Credits: 3
Soil physical properties and interactions as related to soil and water resource management and conservation. Water runoff (leading to soil erosion and surface water contamination); tillage and nutrient management; soil thermal and moisture regimes; solute movement; soil compaction, air and aeration. Prereq> Physics 103; Soil Sci 301 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

SOIL SCI 323 Soil Biology Credits: 3
Nature, activities and role of organisms inhabiting soil. Effects of soil biota on ecosystem function, response to cultural practices, and impacts on environmental quality, including bioremediation of contaminated soils. Prereq> Chem 104 and Botany 130 or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 324 Soils and Environmental Quality Credits: 3
Interaction of soils with environmental contaminants and the role of soils in pollution control. Prereq> Chem 103 & 104 or equiv; Jr st
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
SOIL SCI 325 Pedology Credits: 3
Study and description of soils as integral elements of the landscape. Mechanisms of soil development. Morphological features and spatial relationships governing soil classification and the functionality of soil for multiple land use purposes. Field trips. Prereq> Soil Sci 230, 301 or equivalent; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

SOIL SCI 326 Plant Nutrition Management Credits: 3
Functions, requirements and uptake of essential plant nutrients; chemical and microbial processes affecting nutrient availability; diagnosis of plant and soil nutrient status; fertilizers and efficient fertilizer use in different tillage systems. Prereq> Soil Sci 230 or 301 and one of the following: Bot 100 or 130; Hort 120 or 122; Agron 100
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 327 Soil and Water Conservation Credits: 2
Integrated management of soil and water conservation practices for cost-effective control of soil erosion and surface and ground water quality. Soil erosion control options. Management of municipal and animal wastes. Watershed program examples. Field trips. Prereq> Soil Sci 230 or 301 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

SOIL SCI 328 Turfgrass Nutrient and Water Management Credits: 3
Nutrient requirements of turfgrasses; nature of turfgrass response to fertilization; soil and tissue testing methodology and interpretation; irrigation scheduling; irrigation water quality; use of irrigation and fertilizer to minimize environmental impact; writing effective nutrient management plans. Prereq> Soil Sci/Hort/Agron 326
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Fall

SOIL SCI 333 Nutrient Management: Horticultural Crops Credits: 1
Discussion of plant nutritional topics unique to horticultural crops: nitrogen form requirements; calcium utilization in fruit crops; nutrient recycling within plants, especially perennials; nutritional aspects of greenhouse growing systems; foliar nutrient applications. Prereq> Hort/Soil Sci/Agron 326
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

SOIL SCI 334 Nutrient Management: Agronomic Crops Credits: 1
Nutrient requirements of major agronomic crops; nutrient sources; nutrition management for agronomic crops from yield, quality, economic and environmental perspectives. Prereq> Soil Sci/Hort/Agron 326
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Fall

SOIL SCI 336 Nutrient Management: Nursery Tree Crops Credits: 1
Soil and nutrient management for nursery stock production; fertilizers and fertilization in tree nurseries; nursery cultural practices; control of weeds, pathogen and insect diseases; role of microorganisms - mycorrhizae; survival potential and quality indices of planting stock. Prereq> Soil Sci/Hort/Agron 326 or cons inst
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

SOIL SCI 345 Diagnosing and Monitoring Pest and Nutrient Status of Field Crops Credits: 1
This course is designed to provide students with information necessary to diagnosis and monitor corn, soybean, alfalfa and wheat for pests (insects, weeds, diseases) and nutrient deficiency symptoms including perspectives from Agronomy, Entomology, Horticulture, Plant Pathology and Soil Science. Proper soil and pest sampling information will be provided as will proper crop staging techniques which are essential for pest and nutrient management. Prereq> None
Typically Offered: Spring

SOIL SCI 370 Grassland Ecology Credits: 3
Understand factors driving global, continental, regional, and local distribution of grasslands. Discuss how management affects provision of grassland ecosystem goods and services. Compare and contrast plant community and ecosystem dynamics in native prairie and intensively managed pastures. Prereq> Intro crse in Agronomy, Botany, or Soil Sci; or Bot/Zoo/Biol 151-152; or Biocore 301 or 333
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

SOIL SCI 372 On-Site Waste Water Treatment and Dispersal Credits: 2
On-site treatment and dispersal of waste water from homes, commercial sources and small communities. Sources, pretreatment units, nutrient removal units, constructed wetlands, surface and soil dispersal systems, recycle and reuse systems, regulations, alternative collection systems. Prereq> Chem 103
Typically Offered: Fall
SOIL SCI 375 Special Topics Credits: 1 - 6
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

SOIL SCI 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So, Jr or Sr st and cons of supervising inst, advisor, and internship program coordinator
L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

SOIL SCI 400 Study Abroad in Soil Science Credits: 1 - 6
Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses.  Prereq> Current registration in a U.W.-Madison Study Abroad Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

SOIL SCI 425 Environmental Microbiology Credits: 3
Microbial interactions in soils, water, extreme environments and biofilms. Modern methods for studying microbial ecology. role of microbes in nutrient cycles and biogeochemistry. Use of microbes for mitigating manmade environmental problems of industrial, agricultural, and domestic origin.  Prereq> Bact 303, Chem 341 or 343
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 428 Senior Seminar Credits: 1
Resume preparation, oral and written presentations on current topics or capstone experience.  Prereq> Sr st
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

SOIL SCI 431 Soils of the World Credits: 3
The geography of soil-forming processes and soil types, focusing on soil-landscape relationships. Field trips.
Prereq> Beginning crse in soils, or Geog 120 or 127, or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

SOIL SCI 435 Soils of Wisconsin Field Study Tour Credits: 2
Properties, origins, and uses of the major soil landscapes of Wisconsin. Three-day field study tour to representative areas in the major soil zones of the state; three pre-trip and three post-trip evening briefing sessions; written reports.  Prereq> Jr st, Soil Sci 325 (or con reg), Soil Sci 431 or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

SOIL SCI 451 Environmental Biogeochemistry Credits: 3
Emphasis is given to a consideration of the processes influencing the distribution and cycling of chemical elements in native and anthropogenic ecosystem-level cycles of elements, and biogeochemical cycling in major soil-biome systems.  Prereq> Chem 103-104 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

SOIL SCI 468 Managing the Environmental Impacts of Livestock Operations Credits: 2
Introduces nonpoint pollution policies and regulations and environmental losses impacting air and water quality. Discuss management practices that influence the cycling and balance of nitrogen and phosphorus across a farm and its components (livestock, crop and soil).  Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

SOIL SCI 499 Soil Management Credits: 3
A capstone applying independent and team problem solving, critical thinking and oral and written communication skills to issues in soil science.  Prereq> Sr or 2nd sem Jr majoring in soil sci or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

SOIL SCI 523 Soil Microbiology and Biochemistry Credits: 3
Transformations of nutrients and contaminants in soils and groundwater by microorganisms: emphasis on enzymatic mechanisms and metabolic pathways. Approaches for analyzing microbial populations and activities including molecular techniques. Applications of microbial activities for bioremediation of contaminated soils and groundwater.  Prereq> Chem 104; Bact 303 or Bot 375 or Biochem 501, or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
SOIL SCI 524 Urban Soil and Environment Credits: 3
Many environmental issues related to urbanization are derived from the manipulation of soil. By coupling contemporary literature in urban soils with soil science, students will be able to evaluate environmental issues within the urban environment and provide new ways of remediating their impact. Prereq> Soil Sci 301 or 230
L&S Credit: No degree credit in L&S  Typically Offered: Spring

SOIL SCI 525 Soil Geomorphology Credits: 3
Soil development as related to landscape throughout the Quaternary; focusing on the relationship of soils to climate and vegetation, landscape evolution, and time; principles of soil stratigraphy; case histories of soil geomorphic studies; field trips. Prereq> Soil Sci 325 or Geog/Soil Sci 431; & an intermed level crse in geomorphology; or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 523 Environmental Biophysics Credits: 3
Plant-environment interactions with particular reference to energy exchanges and water relations. Models are used to provide a quantitative synthesis of information from plant physiology, soil physics, and micrometeorology with some consideration of plant-pest interactions. Prereq> Intro calc, Physics 103, Botany 130 & comp programng; or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

SOIL SCI 575 Assessment of Environmental Impact Credits: 3
Overview of methods for collecting and analyzing information about environmental impacts on agricultural and natural resources, including monitoring the physical environment and relating impacts to people and society. Prereq> Jr st. Authorization may be required
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 601 Special Topics in Soil Science Credits: 1 - 3
Topics in various areas of soil science. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

SOIL SCI 606 Colloquium in Environmental Toxicology Credits: 1
Current topics in molecular and environmental toxicology and problems related to biologically active substances in the environment. Topics vary each semester. Lectures are by resident and visiting professors and other researchers.. Prereq> Biology/Zoology 101, Biology/Botany 130, or equivalent
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

SOIL SCI 621 Soil Chemistry Credits: 3
Solubility relationships, complex ions, ion exchange and oxidation-reduction reactions in soils. Prereq> Chem 221; Soil Sci 326; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

SOIL SCI 622 Soil Physics Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Fall

SOIL SCI 623 Microbiology of Waterborne Pathogens and Indicator Organisms Credits: 3
Source, environmental fate and transport of major groups of waterborne pathogens, including epidemiology and testing of associated indicator organism. Management and treatment technologies for prevention of pathogen transmission. Prereq> Soil Sci 523 or Civ Engr 322 or cons inst
Typically Offered: Fall

SOIL SCI 625 Soil Mineralogy and Surface Chemistry Credits: 3
Structure, bonding and reactivity of minerals in soil environments. Surface chemistry of minerals and the processes of weathering. Clay colloid chemistry and the crystal chemistry of phyllosilicates. Prereq> Intro geol or soils, & physical chem; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
SOIL SCI 626 Mineral Nutrition of Plants Credits: 3
Essential and beneficial elements, solutions and soil as nutrient sources, rhizosphere chemistry, nutritional physiology, ion uptake and translocation, functions of elements, nutrient interactions, genetics of plant nutrition.
Prereq> Botany 350 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

SOIL SCI 631 Toxicants in the Environment: Sources, Distribution, Fate, & Effects Credits: 3
Nature, sources, distribution, and fate of contaminants in air, water, soil, and food and potential for harmful exposure  Prereq> Chem 343 & 345 or equiv; Chem 561 or equiv; Physics 103 & 104 or equiv; Math 211; or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Honors program candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

SOIL SCI 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681.  Prereq> Honors program candidacy & Soil Sci 681
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

SOIL SCI 695 Applications of Geographic Information Systems in Natural Resources Credits: 3
Course has four components: 1) Detailed review of GIS concepts; 2) Case studies; 3) GIS implementation methods; 4) Laboratory to provide "hands-on" GIS experience.  Prereq> Land Arc/Envir St/Civ Engr 655 or Geog 377 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 699 Special Problems Credits: 1 - 3
Prereq> Sr st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

SOIL SCI 728 Graduate Seminar Credits: 1
Topical oral presentations by guest speakers and graduate students on contemporary concerns and issues involving land and soils.  Prereq> Grad st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

SOIL SCI 799 Practicum in Soil Science Teaching Credits: 1 - 3
Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance.  Prereq> Grad st & cons inst
Typically Offered: Fall, Spring, Summer

SOIL SCI 875 Special Topics Credits: 1 - 4
Of current interest to graduates.  Prereq> Grad st and cons inst
Typically Offered: Occasionally

SOIL SCI 990 Research Credits: 1 - 12
Prereq> Grad st & cons inst
Typically Offered: Fall, Spring, Summer
AIR, MILITARY & NAVAL SCIENCE

AIR FORCE AEROSPACE STUDIES

A F AERO 101 The Foundations of the United States Air Force I Credits: 1
Introduces students to the Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, and an introduction to communication skills. Leadership lab activities. Open to all students.
Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

A F AERO 102 The Foundations of the United States Air Force II Credits: 1
Continuation of 101. Leadership lab activities. Open to all students. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S

A F AERO 201 The Evolution of US Air and Space Power I Credits: 1
Examines air and space power through a historical perspective. Covers a time period from the first balloons to the space-age global positioning system. Further develops communication skills. Leadership lab activities. Open to all students. Prereq> Open to Fr
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

A F AERO 202 The Evolution of US Air and Space Power II Credits: 1
Continuation of 201. Leadership lab activities. Open to all students. Prereq> Open to Fr
L&S Level: Intermediate  L&S Credit: Counts for LAS credit

A F AERO 301 Leadership Studies I Credits: 3
Topics include leadership, management fundamentals, professional knowledge, personnel and evaluation systems. Includes leadership ethics and communication skills required of an Air Force junior officer. Case studies to exercise practical applications of the course content. Includes leadership lab activities.
L&S Level: Intermediate  L&S Credit: Counts for LAS credit

A F AERO 302 Leadership Studies II Credits: 3
Continuation of 303. Includes leadership lab activities.
L&S Level: Intermediate  L&S Credit: Counts for LAS credit

A F AERO 401 National Security Affairs Credits: 3
Examines national security, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics include military as a profession, officership, military justice, civilian control, preparation for active duty, and current military issues. Final refinement of communication skills. Includes leadership lab activities.
L&S Level: Intermediate  L&S Credit: Counts for LAS credit

A F AERO 402 Preparation for Active Duty Credits: 3
Continuation of 401. Includes leadership lab activities.
L&S Level: Intermediate  L&S Credit: Counts for LAS credit

MILITARY SCIENCE

MIL SCI 101 Foundations of Officership Credits: 1
Introduces students to life as a commissioned officer profession. Establishes fundamentals of leadership, Army values and skills required of a successful Army officer. Prereq> Open to Freshmen & Sophomore only
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
MIL SCI 102 Basic Leadership Credits: 1
Establishes foundation of basic leadership fundamentals such as problem solving, communications, briefing and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling. Prereq> Open to Freshmen & Sophomore only
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MIL SCI 110 Leadership Lab 1A Credits: 1
Students use the coursework acquired in class to develop proficiency with hands-on experience in a field environment. Specific activities include military navigation, employment of communications and weapon systems, rappelling, and small unit tactics. Prereq> Cons of department head; con reg in Mil Sci 101. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MIL SCI 111 Leadership Lab 1B Credits: 1
Students continue with tasks from 110 lab. Prereq> Cons of department head; con reg in Mil Sci 102. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MIL SCI 194 Orienteering Credits: 1
A sport of cross country navigation using map, compass and terrain association techniques to locate control markers. Can be used as a recreational or a competitive sport activity. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

MIL SCI 201 Individual Leadership Studies Credits: 2
Students identify successful leadership characteristics through observation of others and self through experiential learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings. Students will also learn map reading and land navigation skills, including conversion of magnetic and grid azimuths and resection. Prereq> Open to Freshmen & Sophomore only
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MIL SCI 202 Leadership and Teamwork Credits: 2
Study examines how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem solving process and obtaining team buy-in through immediate feedback. Prereq> Open to Freshmen & Sophomore only
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MIL SCI 210 Leadership Lab 2A Credits: 1
Students in this course will implement small unit tactical training, learning Army methods for approaching and reacting to tactical situations. This course will cover land navigation skills, information processing skills, and Army leadership principles. Prereq> Cons of department head; con reg in Mil Sci 201. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MIL SCI 211 Leadership Lab 2B Credits: 1
Students in this course learn Army organization and planning methods, and have the opportunity to practice and implement these methods in practical exercises. Prereq> Cons of department head; con reg in Mil Sci 202. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MIL SCI 301 Leadership and Problem Solving Credits: 2
Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem solving techniques. Students receive direct feedback on leadership abilities. Prereq> Consent of head of department
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MIL SCI 302 Leadership and Ethics Credits: 2
Examines the role communications, values and ethics play in effective leadership. Topics include ethical decision-making, consideration of others and survey Army leadership doctrine. Emphasis is on improving oral and written communication abilities, and increasing small unit tactics skills. Prereq> Consent of head of department
L&S Credit: No degree credit in L&S  Typically Offered: Spring
MIL SCI 310 Leadership Lab 3A Credits: 1
Small unit tactical troop leading procedures are taught and practiced. Hand signals, operations orders, and land navigation skills are perfected for preparation for national advanced leadership camp. Prereq> Cons of department head; con reg in Mil Sci 301
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MIL SCI 311 Leadership Lab 3B Credits: 1
Students in this course learn in-depth leadership procedures, and have the opportunity to practice the Army planning process for groups of 30 personnel. They also learn how to conduct Army training and classes so that they can teach other cadets based on their prior knowledge. Prereq> Cons of department head; con reg in Mil Sci 302
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MIL SCI 401 Leadership and Management Credits: 2
Develop students' proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management methods of effective staff collaboration, and developmental counseling techniques. Prereq> Consent of head of department
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MIL SCI 402 Officership Credits: 2
Study includes fundamentals of military law, administrative and logistics procedures and practical exercises on establishing an ethical command climate. Presentations, briefings and leadership positions are used to train and evaluate students throughout the semester. Prereq> Consent of head of department
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MIL SCI 410 Leadership Lab 4A Credits: 1
Students in this course learn how to allocate resources and time to adequately train large groups of people. They practice creating training plans, and bringing together all of the elements necessary to complete training. They also have the opportunity to aid in the evaluation of others leadership, which gives them the ability to better review their own leadership. Prereq> Cons of department head; con reg in Mil Sci 401
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MIL SCI 411 Leadership Lab 4B Credits: 1
Students in this course learn the final elements of an Army officer's job. They mentor and plan training, as well as monitor the effectiveness of others. They learn fine points of improving others performance and getting the most out of subordinates. Prereq> Cons of department head; con reg in Mil Sci 402
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MIL SCI 491 American Military History Credits: 3
Surveys the American military experience from the Colonial Era to the present. Students will focus on learning about: the nature of combat, the impact of new technology on warfare, the relationship between civilian and military authorities, the impact of leadership, and the influence of political, social, and economic factors on military operations.
L&S Credit: No degree credit in L&S  Typically Offered: Spring

NAVAL SCIENCE

NAV SCI 101 Introduction to Naval Science Credits: 2
Introduction to the naval profession emphasizing the missions, organization, and components of the Navy and Marine Corps. Topics include terminology, military justice, job specialties, seapower, and naval leadership.
Includes lab. Prereq> Open to Freshmen. Open to Univ students on a space avail basis
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NAV SCI 102 Seapower-Maritime Affairs Credits: 3
Historical survey of the U.S. Navy and American concepts of seapower from 1775 to the present. Includes the evolution of maritime strategy in support of U.S. National Strategy. Current issues in maritime affairs. Includes lab.
Prereq> Open to Fr. Open to Univ stdts on a space avail basis
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NAV SCI 175 Introductory Naval Laboratory I Credits: 0 - 1
Laboratory class covering officer education in naval orientation and other topics dealing with the professional development of future naval officers. Prereq> Consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall
NAV SCI 176 Introductory Naval Laboratory II Credits: 0 - 1
Laboratory class covering officer education in naval sea power and other topics dealing with the professional
development of future naval officers. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

NAV SCI 201 Naval Leadership and Management Credits: 3
A study of organizational behavior and management within the context of the naval organization. Topics include a
survey of managerial functions and a study of behavioral aspects of organizations with emphasis on motivation
and leadership. Includes lab. Prereq> So st. Open to Univ stdts on a space avail basis
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

NAV SCI 202 Navigation Credits: 3
Charts and publications, compasses, tides and currents, dead reckoning, piloting, celestial and electronic
navigation; day's work in navigation and Nautical Rules of the Road. Includes lab. Prereq> Jr st. Open to Univ
stdts on a space avail basis
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NAV SCI 275 Elementary Naval Laboratory I Credits: 0 - 1
Laboratory class covering officer education in naval engineering and other topics dealing with the professional
development of future naval officers. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NAV SCI 276 Elementary Naval Laboratory II Credits: 0 - 1
Laboratory class covering officer education in naval weapons and other topics dealing with the professional
development of future naval officers. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

NAV SCI 301 Naval Engineering Credits: 3
Acquaints the student with the basic principles and components of ship propulsion systems including steam,
diesel, gas turbine, and nuclear power plants. Other topics include ship construction, buoyancy and stability,
damage control, electrical distribution, and air conditioning/refrigeration. Includes lab. Prereq> Sophomore
standing. Open to Univ students on a space avail basis
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

NAV SCI 302 Naval Weapons Credits: 3
Introduction to the properties and behavior of electronic, electromagnetic, and mechanical systems used in naval
weapons systems. Topics and concepts include wide range of academic disciplines, all of which are applied to the
maritime uses of radar, sonar, communications, electro-optics, computers, missile, and electronic warfare
systems. Prereq> Senior standing. Open to Univ students on a space avail basis
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NAV SCI 350 Amphibious Campaigns Credits: 3
History of amphibious warfare and the development of the concepts, principles, and techniques of amphibious
operations through study of selected examples from modern history. Includes lab. Prereq> Jr st. Open to Univ
stdts on a space avail basis
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

NAV SCI 351 Land Campaigns Credits: 3
Evolution of weapons, strategy, tactics and material; the classic principles of war by study of selected battles and
campaigns; survey of military and foreign policy, basic strategic concepts, and principles of warfare. Includes lab.
Prereq> Jr st. Open to Univ stdts on a space avail basis
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

NAV SCI 375 Intermediate Naval Laboratory I Credits: 0 - 1
Laboratory class covering officer education in naval navigation and other topics dealing with the professional
development of future naval officers. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NAV SCI 376 Intermediate Naval Laboratory II Credits: 0 - 1
Laboratory class covering officer education in naval operations and other topics dealing with the professional
development of future naval officers. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring
NAV SCI 401 Naval Operations Credits: 3
Fleet communications, tactical employment, relative motion plotting, seamanship, and a lecture series on Joint Warfare and the Employment of Naval Forces as an element of National Security Strategy. Prereq> Junior standing. Open to Univ students on a space avail basis
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

NAV SCI 402 Naval Leadership and Ethics Credits: 3
Capstone course. Integrates an exploration of Western moral traditions and ethical philosophy with military leadership, professional ethics, and the Uniform Code of Military Justice. Includes lab. Prereq> Senior standing. Open to University students on a space avail basis
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

NAV SCI 475 Advanced Naval Laboratory I Credits: 0 - 1
Laboratory class covering officer education in naval management and other topics dealing with the professional development of future naval officers. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

NAV SCI 476 Advanced Naval Laboratory II Credits: 0 - 1
Laboratory class covering officer education in naval leadership and other topics dealing with the professional development of future naval officers. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

NAV SCI 575 Professional Naval Laboratory I Credits: 0 - 1
Laboratory class covering officer education in naval orientation and other topics dealing with the professional development of future naval officers. Prereq> Cons inst
Typically Offered: Fall

NAV SCI 576 Professional Naval Laboratory II Credits: 0 - 1
Laboratory class covering officer education in naval orientation and other topics dealing with the professional development of future naval officers. Prereq> Cons inst
Typically Offered: Spring
SCHOOL OF BUSINESS

ACCOUNTING AND INFO SYSTEMS

ACCT IS 100 Introductory Financial Accounting  Credits: 3
Examines generally accepted accounting principles for measurement and reporting of financial information in a
balance sheet, income statement, and statement of cash flows; introduction to analysis and interpretation of
financial accounting data for decision-making purposes.  Prereq>  A cumulative GPA of 2.5 or higher. Not open to
1st sem Fr.  Cr is not given for both Acct IS 100 & 300
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ACCT IS 211 Introductory Managerial Accounting  Credits: 3
Managerial accounting concepts relevant for decision-making; use of accounting information for planning,
decision-making, and control of business operations in various management and business environments.
Prereq> Acct IS 100
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ACCT IS 300 Accounting Principles  Credits: 3
Introduction to accounting from a user's perspective. Covers both financial and managerial accounting.
Accounting theory principles, presentation and interpretation of financial reports, financial statement analysis.
Measurement, classification, planning and control of costs.  Prereq>  Junior standing. Satisfaction of QRA. Credit
is not given for both Acct IS 100 & 300
General Education:  QR-B  L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ACCT IS 301 Financial Reporting I  Credits: 3
Examines current and emerging financial accounting theory and techniques used to measure and report financial
information to investors, creditors, and other external users. Emphasizes asset and income determination,
preparation and interpretation of financial statements, and related disclosure requirements.  Prereq>  Acct IS 100
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ACCT IS 302 Financial Reporting II  Credits: 3
Examines current and emerging financial accounting theory and techniques used to measure and report financial
information to investors, creditors, and other external users, including dilutive securities, investments, revenue
recognition, income tax allocation, pensions, leases and accounting changes.  Prereq>  So, Jr or Sr st; Acct IS 301
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ACCT IS 310 Cost Management Systems.  Credits: 3
Design of actual and standard cost systems for reporting product costs in job costing, process costing, and
activity costing production environments. Overhead allocation methods. Budgeting and profit planning
procedures. Techniques for variance analysis and performance evaluation. Behavioral considerations in the
design and use of cost accounting information systems.  Prereq>  Acct IS 211
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ACCT IS 329 Taxation: Concepts for Business and Personal Planning  Credits: 3
An introduction to the U.S. income taxation concepts with emphasis on business and personal planning
strategies. Taxes are placed in a framework which considers all costs of doing business. Includes approaches
and skills needed to prepare individual, corporate, and partnership income tax returns.  Prereq>  Acct IS 100 or
300, or Law 811, or consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring
ACCT IS 340 Accounting Systems Credits: 3
Principles and problems of system design; organization for accounting control, internal control procedures and internal reports. Developing control, security, and auditability into information system applications. Prereq> Sophomore, Junior or Senior standing; Acct IS 211
L&S Credit: No degree credit in L&S Typically Offered: Fall

ACCT IS 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq> Prerequisite varies by topic
Typically Offered: Occasionally

ACCT IS 399 Reading and Research-Accounting Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ACCT IS 406 Advanced Financial Reporting Credits: 3
Theoretical, procedural, and practical issues associated with the preparation of financial statements of alternative reporting entities, including the accounting for mergers and acquisitions, consolidations, foreign operations, and complex financial instruments. Prereq> Acct IS 302
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ACCT IS 407 International Accounting Credits: 3
Description of differences in national financial reporting regimes in various developed and emerging economies and the current state of international accounting standards. Practical experience in analyzing the financial statements of companies from various countries. Prereq> Acct IS 301
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ACCT IS 600 Accountancy Internship and Practice Research Credits: 3 - 6
The internship program represents an opportunity for students to experience a professional accounting practice first hand and to integrate this experience with their formal education. Prereq> Sr st; admitted MACC stdt; Acct IS 620 or 630; con reg in Acct IS 601
L&S Credit: No degree credit in L&S Typically Offered: Spring

ACCT IS 601 Professional Practice Issues in Accounting and Auditing Credits: 3
Study of current accounting and audit issues within a case context. Students will be required to perform computerized research, analyze topical accounting and audit issues, and make case presentations. Intensive three week course to build on experiences developed during the internship program. Prereq> Sr st; admitted MACC stdt; Acct IS 620 or 630; con reg in Acct IS 600
L&S Credit: No degree credit in L&S Typically Offered: Spring

ACCT IS 603 Financial Statement Analysis Credits: 3
Analysis and interpretation of financial statements, including profitability and ratio analysis, cash flow analysis, accounting-based equity valuation, market impact of accounting choices, earnings quality, earnings management, mergers and acquisitions, intangibles, accounting-based trading strategies, accounting and credit ratings, and international accounting. Prereq> Acct IS 301
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ACCT IS 620 Fundamentals of Taxation Credits: 3
Application of federal tax provisions and administrative rules common to most taxpayers with introductions to rules specific to corporations, pass-through entities, and individuals. Prereq> Acct IS 301. Con reg in both Acct IS 301 & 620 allowed
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ACCT IS 621 Corporate and Advanced Taxation Credits: 3
Application of federal tax provisions and administrative rules pertaining to corporations and shareholders, including elective provisions for "S" corporations. Emphasis on tax planning and the consequences of corporate and shareholder decisions. Prereq> Acct IS 620
L&S Credit: No degree credit in L&S Typically Offered: Fall
ACCT IS 630 Audit and Assurance Services  Credits: 3  
Evolution of assurance services; role of assurance services as part of corporate governance; professional standards and ethical concepts; evidence concepts and evaluation of evidence, business and information technology risk analysis, the audit risk model, assurance reports, and development of audit and assurance programs. Prereq> Senior standing; Acct IS 301  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ACCT IS 631 Information Technology, Risk, and Assurance Services  Credits: 3  
Operational and information systems auditing; risk analysis, electronic evidence; computerized audit and assurance techniques; internal auditing and outsourcing; analytical techniques; auditor judgment; control concepts, business process risk analysis; reporting on controls and business processes; expanding technology and assurance. Prereq> Acct IS 630; Acct IS 340 or Info Sys 320  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ACCT IS 641 Accounting Information Systems  Credits: 3  
Principles and problems of accounting systems design, evaluation of alternative processing approaches; planning and control of the information system resource; internal control procedures; management control and reports. Prereq> Acct IS 211 or 710 or equiv & Info Sys 320 or cons inst  
Typically Offered: Spring

ACCT IS 700 Financial Accounting  Credits: 3  
Measurement and reporting guidelines underlying preparation of general purpose financial statements; current measurement and reporting issues; analysis and interpretation of financial statement data for investment, lending, and related decisions. Prereq> Grad st  
Typically Offered: Occasionally

ACCT IS 701 Financial Reporting I  Credits: 3  
Examines current and emerging financial accounting theory and techniques used to measure and report financial information to investors, creditors, and other external users. Emphasizes asset and liability valuations and their relationships to income determination, preparation and interpretation of financial statements, and related disclosure requirements. Prereq> Acct IS 700  
Typically Offered: Occasionally

ACCT IS 702 Financial Reporting II  Credits: 3  
Examines current and emerging financial accounting theory and techniques used to measure and report financial information to investors, creditors, and other external users, including dilutive securities, investments, revenue recognition, income tax allocation, pensions, leases and accounting changes. Prereq> Acct IS 701  
Typically Offered: Occasionally

ACCT IS 706 Advanced Financial Reporting  Credits: 3  
Accounting principles related to formation, maintenance, expansion, contraction and liquidation of the business enterprise. Prereq> Acct IS 701 or equiv  
Typically Offered: Occasionally

ACCT IS 707 International Accounting  Credits: 3  
Description of accounting practices in major industrialized nations and differences with U.S. practices; analysis of reasons for, and the economic consequences of, those differences; description of attempts to reduce or eliminate those differences; analysis of the financial statements of companies from various countries. Prereq> Acct IS 301, Acct IS 701, or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ACCT IS 710 Managerial Accounting  Credits: 3  
Interpretation and use of accounting data for management planning, decision making and control. Consideration of cost-volume-profit relationships, relevant costs, variable (direct) costing, activity-based costing, transfer pricing and performance evaluation of segments of the firm. Prereq> Acct IS 700 or equiv  
Typically Offered: Occasionally

ACCT IS 711 Strategic Cost Management  Credits: 2  
Development and analysis of cost and other performance measurement information for managerial planning, control, and decision-making. Integration of information needs for various managerial functions. Prereq> Acct IS 700  
Typically Offered: Occasionally
ACCT IS 722 Taxation of Pass-Through Entities Credits: 3
Analysis of federal tax provisions and administrative rules regarding pass-through entities, such as partnerships, S-corporations, and limited liability companies; including their application to entity formation and operation, property and ownership basis, distributions, and interest transfers. Prereq> Acct IS 620
Typically Offered: Occasionally

ACCT IS 723 Federal Estate and Gift Taxation Credits: 3
A study of estate and gift transfer taxes; problems requiring investigation of concepts and theories of taxable gifts and estates; estate planning. Prereq> Gen Bus 301 or equiv
Typically Offered: Occasionally

ACCT IS 724 Research and Administrative Issues in Taxation Credits: 3
Methodologies and tools for tax research; utilization of tax research tools; preparation of investigative reports; professional and interprofessional responsibilities; administrative procedures and techniques. Prereq> Acct IS 620
Typically Offered: Occasionally

ACCT IS 725 Taxation of Cross-Jurisdictional Transactions Credits: 3
An introduction to international and multistate tax issues. Topics covered may include tax treaties, foreign tax credit provisions, Subpart F rules, multistate apportionment, nexus, sales tax, and use tax. Prereq> Acct IS 620
Typically Offered: Occasionally

ACCT IS 729 Income Taxation and Business Decisions Credits: 3
A survey of income taxation as it affects managerial decisions in U.S. businesses. Emphasis on tax planning in the structuring of business transactions and the identification of situations calling for consultation with advanced tax specialists. Prereq> Acct IS 700
Typically Offered: Occasionally

ACCT IS 740 Business Information Consulting Credits: 3
Addresses the knowledge base needed by accounting professionals in serving as consultants. Prereq> MAC5 st or cons inst
Typically Offered: Occasionally

ACCT IS 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

ACCT IS 770 Seminar in Financial Reporting Theory Credits: 3
Intensive study and critical examination of accounting and financial reporting theories, concepts and standards; evaluations of the pronouncements of accounting standard-setters and financial reporting regulators. Prereq> Acct IS 302 or 702
Typically Offered: Occasionally

ACCT IS 771 Seminar in Strategic Cost Management and Performance Measurement Credits: 3
Development and analysis of accounting data for managerial planning, control, decision-making, and costing. Integration of financial and non-financial information needs for various managerial functions. Prereq> Graduate standing and Acct IS 710 or equivalent
Typically Offered: Occasionally

ACCT IS 772 Seminar in Current Taxation Topics Credits: 3
Readings and cases in taxation; analysis and integration of related tax provisions and taxpayer impact. Prereq> Cons inst
Typically Offered: Occasionally

ACCT IS 799 Reading and Research-Accounting Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

ACCT IS 971 Seminar in Accounting Research Credits: 3
Methods of inquiry and research methodology in accounting. Analysis of current research, with the emphasis on empirical research in accounting. Prereq> PhD cand in accounting or cons inst
Typically Offered: Occasionally
Individual work to complete dissertation requirement of Ph.D. program. Prereq> Grad st & cons inst
Typically Offered: Occasionally

ACCT IS 999 Reading and Research-Accounting PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Prereq> PhD st & cons inst
Typically Offered: Occasionally

ACTUARIAL SCIENCE

ACT SCI 300 Actuarial Science Methods I Credits: 1
Develop a knowledge of fundamental mathematical tools for quantitatively assessing risk. Emphasize the applications of these tools to problems encountered in actuarial science. Prereq> Open to Fr. Math 431 or equiv or con reg; not open to Grad stdts
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ACT SCI 301 Actuarial Science Methods II Credits: 1
Develop a knowledge of mathematical tools for quantitatively assessing financial risk. Emphasize the applications to problems encountered in actuarial science. Prereq> Act Sci 303 or con reg; not open to Grad stdts
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ACT SCI 303 Theory of Interest and Life Insurance Credits: 3
Application of calculus to compound interest and insurance functions; interest compounded discretely and continuously; force of interest function; annuities payable discretely and continuously; bonds and yield rates; life tables, life annuities, single and annual premiums for insurance and annuities; reserves. Prereq> Math 234 or concurrent registration, or consent of instructor
L&S Breadth: Natural Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

ACT SCI 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq> Varies by topic
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ACT SCI 650 Actuarial Mathematics I Credits: 3
Advanced problems in the mathematical theory of life contingencies; force of mortality, laws of mortality; premiums and reserves for insurance and annuities based on a single life. Prereq> Act Sci 303 & Math 431 or equiv
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

ACT SCI 651 Actuarial Mathematics II Credits: 3
Continuation of Act Sci 650. Joint life probabilities, annuities and insurances; multiple-decrement theory; pension fund mathematics. Prereq> Act Sci 650
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

ACT SCI 652 Loss Models I Credits: 3
Definition and selection of probability distributions appropriate for insurance data that are heavily tailed and skewed. Prereq> Math 431 or equiv, Act Sci 650 or concurrent registration, or consent of instructor
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ACT SCI 653 Loss Models II Credits: 3
Estimation of parameters of probability distributions appropriate for insurance data that are heavy tailed and skewed; assessment of credibility of data for ratemaking. Prereq> Act Sci 652, Statistics 312 or equivalent, or consent of instructor
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

ACT SCI 654 Regression and Time Series for Actuaries Credits: 3
Linear regression and correlation; generalized linear regression models; introduction to time series; time series model building and forecasting with focus on data of interest to actuaries. Prereq> Stat 312 or equiv
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring
ACT SCI 765 Contemporary Topics  Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq>
Varies by topic
Typically Offered: Fall, Spring

ACT SCI 876 Seminar in Actuarial Science  Credits: 2
Risk theory and other current actuarial developments. Prereq> Act Sci 650 or con reg
Typically Offered: Occasionally

FINANCE, INVESTMENT & BANKING

FINANCE 300 Introduction to Finance  Credits: 3
Concepts and techniques in corporate finance and investments. Topics include the financial environment, securities markets, financial markets, financial statements and analysis, working capital management, capital budgeting, cost of capital, dividend policy, asset valuation, investments, decision making under uncertainty, mergers, options, and futures. Prereq> So, Jr or Sr st; Econ 101 or AAE 215; Acct IS 100 or 300; Gen Bus 303 or equiv or con reg
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

FINANCE 305 Financial Markets, Institutions and Economic Activity  Credits: 3
An analysis of the U.S. financial system, its responsiveness to and impact on economic activity and policy, its procedures for assessing and pricing risks on various financial instruments, and its role in the allocation of funds to different sectors in the economy. Prereq> Finance 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

FINANCE 320 Investment Theory  Credits: 3
Structure and functioning of securities markets; principles of portfolio construction; models of the tradeoff between risk and expected return. Prereq> Sophomore, Junior or Senior standing; Math 213 or 222; Finance/Econ 300; Gen Bus 304 or equivalent or concurrent registration
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

FINANCE 325 Corporation Finance  Credits: 3
Development of the theory, method and analytical techniques of financial management. Techniques of capital budgeting; valuation of projects and firms; theory of capital structure; dividend policy; cost of capital; mergers and acquisitions. Prereq> So, Jr or Sr st; Math 213 or 222; Finance/Econ 300; Gen Bus 304 or equiv or con reg; Acct IS 301
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

FINANCE 330 Derivative Securities  Credits: 3
Pricing and uses of options, futures, and forward contracts. Prereq> Finance/Econ 300, Math 213 or 222, Gen Bus 304 or equivalent (or consent required)
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

FINANCE 365 Contemporary Topics  Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq>
Prerequisite varies by topic
Typically Offered: Occasionally

FINANCE 399 Reading and Research-Finance  Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

FINANCE 410 Bank Management  Credits: 3
Management of depository financial intermediaries with primary emphasis on commercial banks. Topics include bank regulation, liquidity and reserve position management, loan pricing and analysis, investment portfolio problems and overall asset liability management. Prereq> Finance 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
FINANCE 420 Investment Banking and Capital Markets Credits: 3
Provides a broad overview of investment banking. Topics covered include valuation, cash flow, initial public offerings, leveraged buyouts, merger and acquisitions and related corporate governance issues. Prereq: Finance 300
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

FINANCE 445 Multinational Business Finance Credits: 3
Application of financial theory to the operations of multinational firms; survey of the international financial environment; determinants of international portfolio and direct investment capital flows; management of foreign exchange position and hedging strategies; evaluation of foreign investment projects (multinational capital budgeting); international financial structure decisions; multinational credit institutions and capital markets; taxation of international business. Prereq: Finance/Econ 300, Math 213 or 222, & Gen Bus 303 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

FINANCE 457 Entrepreneurial Finance Credits: 3
Discusses the tools helpful for financing new ventures, with emphasis on their applications. The course also helps students understand the institutional setting that has an impact on the financing conditions of new ventures. Prereq: Finance/Econ 300, Math 213 or 222, Gen Bus 303 or equiv, & Acct I S 301
L&S Credit: No degree credit in L&S Typically Offered: Fall

FINANCE 520 Intermediate Investment Theory Credits: 3
Students will learn about the techniques and decision making process used to actively manage investments in the investment management or wealth management business. Approximately half the course focuses on Security Analysis with emphasis on valuing equities. Both long and short opportunities will be considered. The second segment of the course covers applied portfolio management. All of the topics will be covered by bringing theory to practice using the current economic environment. From time to time, investment professionals will be invited to make presentations on selected topics. Prereq: Consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

FINANCE 530 Advanced Derivative Securities Credits: 3
This course covers the design of new financial securities, advanced techniques for pricing and measuring the risks of derivative securities, and strategies employing derivative securities. Applications include the pricing and use of swaps, mortgage-backed securities, exotic options, and corporate securities with embedded options. Prereq: Finance 330. Not open to stdts who have had Finance 830
Typically Offered: Fall, Spring

FINANCE 535 Applied Security Analysis and Investment Management I Credits: 5
The management of an actual portfolio of investments. Students required to engage in security analysis, develop a portfolio policy, and participate in field research such as trips to interview the management of potential portfolio acquisitions. Prereq: Cons inst prior to reg. Stdts must enroll for 2 consecutive semesters
L&S Credit: No degree credit in L&S Typically Offered: Fall

FINANCE 536 Applied Security Analysis and Investment Management II Credits: 4
Continuation of Finance 535. Prereq: Cons inst prior to reg. Stdts must enroll for 2 consecutive semesters
L&S Credit: No degree credit in L&S Typically Offered: Spring

FINANCE 610 Bank Simulation and Strategy Credits: 3
This course covers advanced asset-liability, hedging, tax minimization, merger/acquisitions and economic value added strategies for depository financial institutions. Students practice these strategies by managing their own bank in a computer simulation model, merging with or acquiring other student's banks using M&A software, and by playing a foreign exchange trading simulation. Prereq: Finance 410
L&S Credit: No degree credit in L&S Typically Offered: Spring

FINANCE 630 Fixed Income and Derivative Securities Credits: 3
Price determination, speculation, hedging strategies in options and financial futures markets, and valuation and management of fixed-income securities. Prereq: Finance 330 or 720 or 721 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

FINANCE 635 Security Analysis Credits: 3
Financial analysis for selection of securities to implement portfolio planning covered in Finance 320. Prereq: Finance 320 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
FINANCE 700 Introduction to Financial Management Credits: 3
Introduction to financial management of firms and investment decision making; both theory and practice are emphasized. Topics covered include the financial environment and securities markets, financial statements and analysis, working capital management and capital budgeting, cost of capital, dividend policy, asset valuation, investments, decision making under uncertainty and selected topics such as mergers, options, futures. Prereq> MBA students only
Typically Offered: Occasionally

FINANCE 705 Financial Market and Business Conditions Credits: 3
Exploration of the interaction between the financial system and real business activity both within a closed system and open economy. Prereq> Finance 700
Typically Offered: Occasionally

FINANCE 710 Financial Management of Depository Institutions Credits: 3
Regulation, asset/liability management, loan pricing, liquidity and investment management, capital structure and holding company strategies for banks and other depository intermediaries. Prereq> Finance 300 or 700
Typically Offered: Occasionally

FINANCE 720 Investment Theory and Practice Credits: 3
Development of the theory, instruments, techniques and practice of modern investment management. Topics include asset pricing and valuation under certainty and uncertainty, portfolio management, determination of interest rates, immunization strategies and derivative securities. Prereq> Finance 700 & OTM 705 or equiv
Typically Offered: Occasionally

FINANCE 721 Investment Theory and Application Credits: 3
Theory and practice of finance investment: financial market structure, arbitrage, theory of risk and return, behavior of financial prices, option contracts, futures and forward contracts, valuation of derivatives, interest rates, fixed-income securities, common stock and portfolio theory. Prereq> Finance 700 & OTM 705 or equiv
Typically Offered: Occasionally

FINANCE 725 Corporation Finance Theory and Practice Credits: 3
Theory and practice of financial management of firms. Techniques of capital budgeting under certainty and uncertainty: valuation of projects and firms; theory of capital structure; dividend policy; cost of capital; mergers and acquisitions. Prereq> Finance 700 or equiv
Typically Offered: Occasionally

FINANCE 726 Valuation and Corporate Investment Decisions Credits: 3
Theory and practice of financial valuation for investment decisions: present value, modeling cash flows, hurdle rates, financial multiples, valuing private firms, real options. Prereq> Finance 700
Typically Offered: Occasionally

FINANCE 727 Raising Capital & Financing the Firm Credits: 3
Theory and practice of corporation finance: financial security contracts; security issuance; capital structure; dividend policy; cost of capital; financial risk management; mergers, acquisitions, and financial restructuring. Prereq> Finance 700
Typically Offered: Occasionally

FINANCE 735 Introduction to Applied Security Analysis Credits: 2
Only open to students in the Applied Security Analysis Program (ASAP). Focuses on industry analysis and security selection, with particular emphasis on identification of value drivers and on communicating the idea to a portfolio manager. Prereq> Open to MBA Applied Security Analysis Program stdts only
L&S Credit: No degree credit in L&S Typically Offered: Fall

FINANCE 736 Introduction to Applied Portfolio Management Credits: 2
The spring semester course for first year students in Applied Security Analysis Program (ASAP). Focuses on portfolio management, including development and implementation of the decision making process. Prereq> Open to MBA Applied Security Analysis Program students only
L&S Credit: No degree credit in L&S Typically Offered: Spring
FINANCE 740 Analysis of Fixed Income Securities Credits: 3
Detailed coverage of fixed income securities and their derivatives; asset backed/mortgage backed securities; pricing and portfolio strategies; term structures models and other analytical tools. Prereq> Finance 700 and General Business 704
Typically Offered: Occasionally

FINANCE 745 Multinational Business Finance Credits: 3
Theory of business finance as applied to the operations of multinational firms; financial analysis and control of foreign investment decisions; working capital management; multinational credit institutions and capital markets; special accounting problems and trends in international monetary affairs. Prereq> Finance 700 or equiv
Typically Offered: Occasionally

FINANCE 750 Mergers and Acquisitions Credits: 3
Study of the market for corporate control including mergers and tender offers. Motives for business combinations; impacts on security holders, managers, labor, economic efficiency; federal and state laws; offensive and defensive strategies. Term paper involving comprehensive analysis of issues. Prereq> Finance 726 or Finance 635
Typically Offered: Occasionally

FINANCE 755 Corporate Restructuring & Reorganization Credits: 3
Financial policy decisions such as working capital management, dividend policy, capital structure and cost. Case studies emphasized. Prereq> Finance 721 or equivalent & Finance 727 or equivalent, or consent of instructor
Typically Offered: Occasionally

FINANCE 757 Entrepreneurial Finance Credits: 3
About a half of all new businesses fail in the first five years. This course offers the tools, state-of-the-art valuation methods, and practical knowledge that are needed to make appropriate financing decisions in such highly uncertain environments. Prereq> Finance 700, OIM 705 or equiv & Acct I S 700 or equiv
Typically Offered: Occasionally

FINANCE 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

FINANCE 771 Seminar-Finance MBA Credits: 3
Comprehensive consideration of selected problems of current and permanent import in financial administration; individual research, class reports and group discussion. Prereq> Finance 720 & 725
Typically Offered: Occasionally

FINANCE 799 Reading and Research-Finance Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

FINANCE 820 Intermediate Investment Theory Credits: 3
An applied course covering topics of interest to professional investment managers. Covers advanced valuation models, characteristics of domestic and foreign markets, pricing anomalies, hedging strategies, asset allocation and market timing. Prereq> Finance 720 or equiv
Typically Offered: Occasionally

FINANCE 825 Intermediate Theory of Business Finance Credits: 3
Intensive review of the modern theory of corporation finance, emphasizing the integration of firm investment, financing and dividend decisions with capital market equilibrium. Empirical studies bearing on these issues will also be explored. Prereq> Finance 720 or equiv & Finance 725 or equiv
Typically Offered: Occasionally

FINANCE 830 Advanced Derivative Securities Credits: 3
This course covers the design of new financial securities, advanced techniques for pricing and measuring the risks of derivative securities, and strategies employing derivative securities. Applications include the pricing and use of swaps, mortgage-backed securities, exotic options, and corporate securities with embedded options. Prereq> Finance 720 or equiv
Typically Offered: Occasionally
FINANCE 835 Applied Security Analysis and Investment Management I Credits: 5
The management of an actual portfolio of investments. Students engage in security analysis, develop a portfolio policy, and participate in field research such as trips to interview the management of potential portfolio acquisitions. Prereq> Cons inst
Typically Offered: Occasionally

FINANCE 836 Applied Security Analysis and Investment Management II Credits: 4
Continuation of Finance 835. Prereq> Finance 835 & cons inst
Typically Offered: Occasionally

FINANCE 850 Applied Corporate Finance I Credits: 4
Advanced corporate finance course that provides graduate students practical experience by working on consulting projects. Students work on applied projects in the areas of capital budgeting, capital structure and cash distribution policies. Emphasis on application of theoretical corporate finance concepts. Prereq> Cons inst
Typically Offered: Occasionally

FINANCE 851 Applied Corporate Finance II Credits: 5
Students apply advanced corporate finance training in the areas of real options, mergers and acquisitions, and corporate restructuring and reorganization to problems provided by corporate sponsors. Development of analytical, written and oral presentation skills through presentations to the corporate sponsors. Prereq> Finance 850 & cons inst
Typically Offered: Occasionally

FINANCE 920 Theory of Finance Credits: 3
Intensive review of modern theories of corporate finance and investments. Prereq> PhD stdt in finance or cons inst
Typically Offered: Occasionally

FINANCE 921 Finance Theory Credits: 3
This course covers asset pricing, derivatives and term structure from a continuous time framework. It is a continuation of Finance 920. Prereq> Finance 920
Typically Offered: Occasionally

FINANCE 970 Seminar- Investments (Ph.D.) Credits: 3
Intensive study and critical examination of recent empirical and theoretical literature investments. Prereq> Cons inst or all of the following crses: Finance 920, 921, Econ 709, 710
Typically Offered: Occasionally

FINANCE 971 Seminar-Corporate Finance (Ph.D.) Credits: 3
Intensive study and critical examination of recent empirical and theoretical literature in corporate finance. Prereq> Cons inst or all of the following crses: Finance 920, 921, Econ 709, 710
Typically Offered: Occasionally

FINANCE 972 Topics Seminar-Finance PhD Credits: 3
Special topics of current or emerging interest in financial economics. Prereq> PhD stdt in finance or cons inst
Typically Offered: Occasionally

FINANCE 973 Seminar-Workshop in Finance Credits: 2
Seminar primarily devoted to the generation of original research in the field of finance for the Ph.D. dissertation and subsequent publication in the academic literature. Prereq> Open to PhD stdts in finance and with cons inst, to advanced Grad stdts in related fields
Typically Offered: Occasionally

Individual work to complete dissertation requirement of Ph.D. program. Prereq> Grad st & cons inst
Typically Offered: Occasionally

FINANCE 999 Reading and Research-Finance PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Prereq> PhD st & cons inst
Typically Offered: Occasionally

GENERAL BUSINESS
GEN BUS 100 Introduction to Business Credits: 3
Introduction to the basic concepts, practices and analytical methods that are part of the market enterprise system. Overview of the basic functions: management, accounting, finance, operations, and marketing conducted within a social and ethical framework. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

GEN BUS 110 Personal and Professional Foundations in Business Credits: 1
An introductory course for new business students covering the transition to college, academic exploration and planning, career development, self-assessment for personal development, leadership, and diversity and inclusion. Prereq> Must be admitted to the undergraduate business (BBA) program via the direct admit admission process to enroll
Typically Offered: Fall

GEN BUS 120 Personal and Professional Foundations in Business Credits: 1
An introductory course for new business students covering academic exploration and planning, career development, self-assessment for personal development, leadership, and diversity and inclusion. Prereq> Must be admitted to the undergraduate business (BBA) program to enroll and have sophomore standing, based on class year (not credits). Students self-report their class year during the BBA admission process
Typically Offered: Fall

GEN BUS 130 Personal and Professional Foundations in Business Credits: 1
An introductory course for new business students covering academic planning, career development, self-assessment for personal development, leadership, and diversity and inclusion. Prereq> Must be admitted to the undergraduate business (BBA) program to enroll and have junior standing, based on class year (not credits), or identify as a transfer student. Students self-report their class year during the BBA admission process
Typically Offered: Fall

GEN BUS 140 Teaching, Learning, and Effective Facilitation in Peer to Peer Environments Credits: 1
Introduction to effective facilitation strategies within peer to peer learning environments. Students will practice public speaking, presentation, and facilitation skills while also learning about college student development, classroom management, student engagement, and in-class assessment techniques to evaluate learning. Prereq> Students enrolled in this class must be selected through the Compass facilitator hiring process coordinated by Wisconsin BBA staff and permissioned into this course once they have accepted their job offer
Typically Offered: Fall

GEN BUS 170 Business Scholars Seminar Credits: 1
To educate students about the courses and programs in each of the academic departments in the School of Business. To inform students about career, research, service and leadership opportunities. Prereq> Open only to 1st yr bus scholar stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

GEN BUS 198 Directed Study Credits: 1
Directed study and research in business topics. Prereq> Open to Freshmen & Sophomore stdts who have been admitted to Bus Scholars Prgm
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

GEN BUS 300 Professional Communication Credits: 3 - 4
Expository writing relative to written communications used in organizations: letters, factual memoranda, brief reports, technical research reports. Development of skills in oral and graphic communications; committee reports, staff presentations. Prereq> Sophomore, Junior or Senior standing. Not open to grad students. This course should be taken within the first two semesters after admission to the School of Business
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

GEN BUS 301 Business Law Credits: 3
History of legal development, contracts, agency, sale of goods, insurance. Prereq> Junior or Senior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
GEN BUS 302 Business Organizations and Negotiable Instruments Credits: 3
Commercial paper, real estate and personal property, partnerships, corporations, bankruptcy. Prereq> Junior or Senior standing; Gen Bus 301
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

GEN BUS 303 Business Statistics Credits: 3
Data collection, data structures in a business setting, frequency tables and plots, descriptive statistics, correlation tables and regression formulation, normal and binomial distributions, quality, surveys. Prereq> 1 semester calculus, at least Sophomore standing
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

GEN BUS 304 Intermediate Business Statistics Credits: 3
Methods for analyzing business and economic data. Review of classical statistical inference; multiple regression and correlation; process analysis and time series. Prereq> So, Jr, or Sr st; Math 211, 221, 222 or equiv; Gen Bus 303 or equiv
Typically Offered: Fall, Spring

GEN BUS 310 Fundamentals of Accounting and Finance for Non-Business Majors Credits: 3
Part of a two course sequence introducing non-business students to basic concepts, practices and analytical methods that are part of the market enterprise system. This course is a basic overview on: accounting, finance, and business law. Prereq> Sophomore standing
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

GEN BUS 311 Fundamentals of Management and Marketing for Non-Business Majors Credits: 3
Introduces non-business students to basic concepts and practices in business. This course is a basic overview of: management, marketing, strategy, entrepreneurship, ethics, supply chain and international business. Prereq> Jr or higher st, not open to business students
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

GEN BUS 320 Intercultural Communication in Business Credits: 3
Develops awareness and knowledge of cultural influences on business. Focuses on various attitudes toward work, time, material possession, business, and the relationship of these attitudes to different social, religious, philosophical, and educational backgrounds of business people from cultures around the world. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall

GEN BUS 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq> Prerequisite varies by topic
Typically Offered: Fall, Spring, Summer

GEN BUS 380 Business Scholars and Honors Seminar Credits: 1
Discussion and analysis of contemporary issues, events, and topics in the business world. Prereq> Open only to 2nd, 3rd & 4th yr bus scholar stdts & those admitted to Business Honors in Liberal Arts prgm
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

GEN BUS 399 Reading and Research-Business Research Credits: 1 - 6
Prereq> Jr or Sr st; cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

GEN BUS 450 Professional Experience in Business Credits: 1
Internship which allows students to augment their business education and gain professional experience in their major through related work experience. Prereq> Admitted bus stdt with So, Jr, or Sr st; cons inst required. Crse may be repeated two times. Acctg Majors: Gen Bus 450 internships are not available with firms who participate in the department's Acct IS 600 internship. See listing on acctg dept website
Typically Offered: Fall, Spring, Summer

GEN BUS 451 Professional Experience in Business-Extended Internship Credits: 1
Only allowed for six to eight month internships which will allow students to augment their business education and gain professional experience in their major area. Students receive one credit and will remain a full-time student.
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
GEN BUS  600 Topics on Sustainable Business Practices  Credits: 3
Gives students knowledge and skills so that they can help organizations understand and act on the principles of sustainability. Main topics include sustainability as an element of strategy, the business case for sustainability, and the social side of sustainability. A real-world team project that draws on the concepts taught in the course is an important element. Prereq> Jr or Sr std
Typically Offered:  Fall, Spring

GEN BUS  601 Systems Thinking and Sustainable Businesses  Credits: 3
Introduces students to the concept of systems thinking so as to allow them to use systems to bring about large scale social change, both within the business community and within our societal infrastructure. Prereq> Admitted bus stdt with Jr or Sr std or envir studies stdt
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring

GEN BUS  700 Managerial Communication  Credits: 1 - 2
Focuses on strategic aspects of communication goals for managers and practice in skills needed to carry out writing and speaking objectives. Prereq> Grad std
Typically Offered:  Occasionally

GEN BUS  701 Managing Legal Risks  Credits: 3
Legal implications for business managers of selected areas of the law including negligence, contract, intellectual property, officer/director liability, financing the business enterprise, and employment and trade regulation; introduction to the legal process, including alternative dispute resolution systems. Prereq> Grad standing
Typically Offered:  Occasionally

GEN BUS  704 Data to Decisions  Credits: 3
Basic analytical and decision making skills for MBA students. Focuses on development and utilization of analytical techniques based on probability, statistics and spreadsheet modeling to formulate and analyze issues central to management decision making in a wide variety of business situations and applications. Prereq> Gen Bus 303 or equiv
Typically Offered:  Occasionally

GEN BUS  706 Advanced Statistical Methods I  Credits: 3
Topics in regression; analysis of variance; multiple regression and correlation; univariate auto-regressive and moving average time series models. Credit not given for both Gen Bus 704 & 706. Prereq> Gen Bus 303 or equiv
Typically Offered:  Occasionally

GEN BUS  710 Ethics, Integrity and Society  Credits: 1
This class is designed to prepare students for dealing with ethical challenges in the world outside academia. Focus is on the role of personal values in all types of decision making, from personal to professional. Prereq> 2nd yr MBA degree candidate
Typically Offered:  Occasionally

GEN BUS  711 Ethics, Values, and Sustainability  Credits: 2
This course will introduce students to the role that ethics and values play in major business decisions. By creating the opportunity for students to understand how their own values can be used in decision making this course prepares students as future leaders.
Typically Offered:  Occasionally

GEN BUS  720 Professional Perspectives  Credits: 1
Through skill-based learning and interactive programming help MBA students develop the professional perspectives they need for a successful career in management. Prereq> 1st yr MBA stdt
Typically Offered:  Occasionally

GEN BUS  750 Professional Experience in Business  Credits: 1
Internship which allows students to augment their business education and gain professional experience in their major through related work experience. Prereq> Masters stdt in business & cons inst
Typically Offered:  Occasionally

GEN BUS  765 Contemporary Topics  Credits: 1 - 4
Prereq> Grad std
Typically Offered:  Occasionally
GEN BUS 775 Introduction to Bayesian Decision and Control I Credits: 3
Common sampling models in business and economic problems, information from data, likelihood function of parameters, choices of models, Bayes' Theorem, subjective basis for probability, sequential nature of Bayesian inference, prior and posterior distributions of parameters in binomial, poisson, exponential and normal populations, comparison of two normal distributions, predictive distributions, decision theory, utility, risk aversion, extensive form of analysis, two-action problems, point estimation, best population problems, economics of sampling. Prereq> Stat 309, 313, or 311 or equiv
Typically Offered: Occasionally

GEN BUS 799 Reading and Research-Business Research Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and during the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

GEN BUS 805 Introduction to Decision Theory Credits: 3
Elementary decision theory. Subjective and objective probabilities; Bayes theorem; utility theory; minimax and Bayes strategies; extensive and normal form of analysis; comparison of classical and decision theoretic approaches. Prereq> Stat 310 or cons inst
Typically Offered: Occasionally

GEN BUS 806 Panel Data Analysis Credits: 3
Linear fixed and random effects models; estimation and prediction; data exploration, diagnostics and model selection techniques; generalized linear panel data models. Prereq> Stat 849, Econ 709 or cons inst
Typically Offered: Occasionally

GEN BUS 965 Contemporary Topics Credits: 1 - 4
Provides in-depth coverage of contemporary topics emphasizing new and emerging issues for PhD students in business or in majors related to business. Students will meet in a seminar format that incorporates discussions, presentations, lectures by the instructor, and relevant invited guest speakers. Prereq> PhD status in specified majors & cons inst
Typically Offered: Occasionally

GEN BUS 975 Ph.D. Communication for Dissertators Credits: 1
Review of research writing and presentation strategies and practice drafting, editing, and presenting proposal and/or dissertation sections for feedback and revision. Seminar/workshop designed for post-prelim dissertators: focuses on advanced structural and clarity issues, not basic writing/grammar. Prereq> Bus PhDs: dissertation status; non-Bus PhDs: dissertation status & cons inst
Typically Offered: Occasionally

Individual work to complete dissertation requirement of Ph.D. program. Prereq> Grad st & cons inst
Typically Offered: Occasionally

GEN BUS 999 Reading and Research-Business Research PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Prereq> PhD st & cons inst
Typically Offered: Occasionally

INFORMATION SYSTEMS

INFO SYS 320 Computers in Business Credits: 3
Application of computer technology to business problems. Hardware and software capabilities; systems development concepts; implications of information technology for management and the firm. Prereq> Comp Sci 132 or 302 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

INFO SYS 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq>
Prerequisites vary by topic
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
INFO SYS 371 Technology of Computer-Based Business Systems Credits: 3
Overview of computers, their attendant technology, and the implications of this technology for large-scale, computer-based information systems. Topics include hardware, system software, program development, files and data communications. Prereq> Comp Sci 302 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

INFO SYS 422 Computer-Based Data Management Credits: 3
Students learn how to analyze information requirements and data flows, design and build effective database systems, manipulate information in a database environment, and build database-driven applications to support management decision making. Focus on data modeling, relational databases, and database technologies. Prereq> Info Sys 371 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

INFO SYS 424 Analysis and Design of Computer-Based Systems Credits: 3
Analysis of business systems to identify possible need for new or improved computer-based systems and the design of systems to meet those needs. Prereq> Info Sys 422 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

INFO SYS 671 E-Business: Technologies, Strategies and Applications Credits: 3
Overview of core concepts of e-commerce and e-business technologies, strategies and applications. Covers business-to-consumer, business-to-business and intra-business models by using real-world examples and cases from various industries.. Prereq> Senior or Graduate standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall

INFO SYS 672 E-Business Transformation: Design, Analysis and Justification Credits: 3
Analytical and integrative approaches for e-business strategy formulation, analysis and justification and development of implementation roadmap. Emphasizes development of analytical reasoning and managerial thinking through creation of assessment tools and decision aids to guide various aspects of e-business transformation. Prereq> Sr or Grad st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

INFO SYS 700 Information Technology for Management Credits: 2
Introduction to the role of information technology and information systems in the business environment; examination of selected planning, acquisition, control and security issues; introduction to selected applications of information technology. Prereq> Grad st, Comp Sci 132 or equiv
Typically Offered: Occasionally

INFO SYS 720 Decision and Information Systems Credits: 3
Design, implementation, and use of systems that transform data into information by combining decision-models and computer-based analysis. Types of information systems, database concepts, decision-modeling paradigms, computer support tools, and strategic issues are discussed using the case method. Prereq> OIM 730; MBA degree candidate or cons inst
Typically Offered: Occasionally

INFO SYS 722 Computer-Based Data Management Credits: 3
Use, control and administration of centralized and distributed data bases. Topics include the definition, design, creation, revision, interrogation, update, security and integrity of data bases. Prereq> Info Sys 371 or cons inst
Typically Offered: Occasionally

INFO SYS 724 Analysis and Design of Computer-Based Systems Credits: 3
Analysis of business systems to identify possible need for new or improved computer-based systems and the design of systems to meet those needs. Prereq> Info Sys 722 or cons inst
Typically Offered: Occasionally

INFO SYS 765 Contemporary Topics Credits: 1 - 3
Exploration of subject areas possibly to be introduced into the business curriculum. Prereq> Prerequisites vary by topic
Typically Offered: Occasionally
INFO SYS 872 Seminar in Information Systems Credits: 3
Independent reading and systems designs emphasizing computers, analytic methods, and research techniques applied to current business problems. Prereq> Info Sys 371, advanced stats or calculus or cons inst
Typically Offered: Occasionally

INTERNATIONAL BUSINESS

INTL BUS 200 International Business Credits: 3
A survey of the interrelationships of world business operations; an introduction to current conceptual perspectives; cultural, educational, political and economic constraints, the international financial and trade frameworks, and the problems and challenges facing the multinational corporation. Prereq> Econ 101 or 102
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTL BUS 313 Professional Communication and Culture in the Francophone World Credits: 3
Study and analysis of the culture and sociology of professional environments in the French and Francophone worlds, including government, international organizations, NGO's and business. Students develop communication skills through interactive teaching methods in multimedia labs. Prereq> French 228 or 311 or consent of instructor
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

INTL BUS 314 Contemporary Issues in Government, Organizations, and Enterprise Credits: 3
Cultural study of contemporary Francophone Africa, focusing on issues in government, organizations and enterprise. Exploration of cultural and professional relations between Francophone Africa and France, the European Union, and the United States. Prereq> French 228 or 311 or 313 or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

INTL BUS 315 Advanced Interdisciplinary Studies in Professional Communication Credits: 3
In-depth study, from interdisciplinary perspectives, of key aspects of technical French language for the professions and business, together with an exploration of the history, sociology, and culture of professional environments in the French and Francophone worlds. Prereq> French 228, 313 or 314 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

INTL BUS 320 Intercultural Communication in Business Credits: 3
Develops awareness and knowledge of cultural influences on business. Focuses on various attitudes toward work, time, material possession, business, and the relationship of these attitudes to different social, religious, philosophical, and educational backgrounds of business people from cultures around the world. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

INTL BUS 329 Spanish for Business Credits: 3
Spanish lexicon and linguistic style for management, banking, accounting, capital investment, personnel and office systems, production of goods and services, marketing, finance, and import/export; includes translation and interpretive activities. Prereq> Spanish 311 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

INTL BUS 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq> Prerequisite varies by topic
Typically Offered: Occasionally

INTL BUS 399 Reading and Research-International Business Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

INTL BUS 403 Global Issues in Management Credits: 3
This course focuses on the strategic management required in global business. Topics include environmental analysis, global strategy, and subsidiary control. The aim of the course is to develop special skills that are required to manage international firms. Prereq> Jr st or Sr st. Not open to grad stdts
Typically Offered: Fall, Spring
INTL BUS 407 International Accounting Credits: 3
Description of differences in national financial reporting regimes in various developed and emerging economies and the current state of international accounting standards. Practical experience in analyzing the financial statements of companies from various countries. Prereq> Acct IS 301
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTL BUS 420 Global Marketing Strategy Credits: 3
Structure of foreign trading; commercial facilities available to exporters and importers; application of economic analysis in marketing decisions; contemporary trends in international economy affecting foreign trade policies and practices. Prereq> Sophomore, Junior or Senior standing; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTL BUS 430 International Real Estate Credits: 3
Analysis of international real estate and related transaction issues, especially in foreign countries which are visited as part of the course; survey of land use patterns and regulations, ownership rights, types of leases, transfer procedures, mortgage system, tax matters, currency risks, and geographical diversification issues. Prereq> Real Est 306 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

INTL BUS 445 Multinational Business Finance Credits: 3
Application of financial theory to the operations of multinational firms; survey of the international financial environment; determinants of international portfolio and direct investment capital flows; management of foreign exchange position and hedging strategies; evaluation of foreign investment projects (multinational capital budgeting); international financial structure decisions; multinational credit institutions and capital markets; taxation of international business. Prereq> Finance/Econ 300, Math 213 or 222, & Gen Bus 303 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTL BUS 462 Latin American Economic Development Credits: 3
A historico-institutional analysis of development problems in the principal Latin American countries, with attention to differentiation of national growth patterns and alternative development strategies. Prereq> Econ 102 or 111 and Jr st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

INTL BUS 463 Comparative Analysis in Latin American Development Credits: 3 - 4
Intensive study of one or more aspects of development in Latin America, with an emphasis on comparative research and analysis. Prereq> Econ 102 or 111 & Jr st, Econ 462 or 474 recommended
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

INTL BUS 615 Business in Emerging Markets Credits: 3
Explores standard business practices in the context of the political and economic conditions in emerging national economies. Technical support provided by area studies faculty with an emphasis on concrete business plan construction by student teams. Prereq> Intl Bus 200 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

INTL BUS 707 International Accounting Credits: 3
Description of accounting practices in major industrialized nations and differences with U.S. practices; analysis of reasons for, and the economic consequences of, those differences; description of attempts to reduce or eliminate those differences; analysis of the financial statements of companies from various countries. Prereq> Acct IS 301, Acct IS 701, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

INTL BUS 720 Global Marketing Strategy Credits: 3
Application of the strategic bases of marketing in an international setting. Considers the extension of product, price, distribution, communications, segmentation, and research issues in a global marketplace. Prereq> Marketing 700
Typically Offered: Occasionally

INTL BUS 730 International Real Estate Credits: 3
Analysis of international real estate and related transaction issues, especially in foreign countries which are visited as a part of the course; survey of land use patterns and regulations, ownership rights, types of leases, transfer procedures, mortgage system, tax matters, currency risks, and geographical diversification issues. Prereq> Grad st or cons inst
Typically Offered: Occasionally
INTL BUS 745 Multinational Business Finance Credits: 3
Theory of business finance as applied to the operations of multinational firms; financial analysis and control of foreign investment decisions; working capital management; multinational credit institutions and capital markets; special accounting problems and trends in international monetary affairs. Prereq> Finance 700 or equiv
Typically Offered: Occasionally

INTL BUS 755 International Operations: Problems and Administration Credits: 3
Organizations and strategies of international and multinational firms. Initiating international operations, joint venture problems, relationships with state enterprises, licensing methods, defenses against adverse government policies (including confiscation), and international business policies and tactics. Prereq> Grad st
Typically Offered: Occasionally

INTL BUS 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

INTL BUS 799 Reading and Research-International Business Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

MANAGEMENT AND HUMAN RESOURCES

M HR 300 Organizational Behavior Credits: 3
Attitudes and behavior within organizations. Satisfaction, performance, and job choice; models of organizational behavior and attitudes; use of the models to demonstrate how individual, group, and organizational characteristics influence attitudes and behavior. Implications for supervisory practice. Prereq> Sophomore standing (not open to Grad students)
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

M HR 305 Human Resource Management Credits: 3
Policies and practices; principles and techniques applicable to problems such as employee staffing, training, labor relations, wages, communications, etc. Prereq> Sophomore, Junior, or Senior standing. Not open to grad students
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

M HR 320 New Ventures in Business, the Arts and Social Entrepreneurship Credits: 3
Students develop capabilities to create new ventures that create value, and critically analyze role of entrepreneurship in society. Activities: Imagine/design new ventures, identify markets and funding sources, develop founding teams, do scholarly research on impact of entrepreneurship. Prereq> Fr, So, Jr, or Sr st. Not open to Grad stdts
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

M HR 321 Social Entrepreneurship Credits: 1
For the student interested in creating socially-engaged businesses and using entrepreneurial approaches to non-profit ventures. Activities include developing mission statement, assessing social impact, seeking funding from varied sources. Guest lecturers, cases, role playing. Course grounded in management theory. Prereq> Fr, So, Jr, or Sr st. Not open to Grad stdts
L&S Credit: No degree credit in L&S Typically Offered: Spring

M HR 322 Introduction to Entrepreneurial Management Credits: 3
Students gain knowledge about foundations of entrepreneurship, and key topics such as founding teams, industry analysis assessing concept, communication, managing people and investors in new ventures. Business development project included. Prereq> Fr, So, Jr or Sr st. Not open to Grad Stdts
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

M HR 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq> So, Jr or Sr st; cons inst. Not open to grad stdts. Prerequisite varies by topic.
Typically Offered: Occasionally
MHR 399 Reading and Research-Management Credits: 1 - 6
Prereq> Jr or Sr st; cons inst. Not open to grad stdts
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MHR 401 The Management of Teams Credits: 3
Examines components that comprise teams, highlights key factors that influence team effectiveness, develops skills in diagnosing opportunities and threats that face teams, and enhances teamwork expertise. Prereq> Jr or Sr st; MHR 300. Not open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 403 Global Issues in Management Credits: 3
This course focuses on the strategic management required in global business. Topics include environmental analysis, global strategy, and subsidiary control. The aim of the course is to develop special skills that are required to manage international firms. Prereq> Jr st or Sr st. Not open to grad stdts
Typically Offered: Fall, Spring

MHR 412 Management Consulting Credits: 3
Offers an understanding of fundamental principles, methods, and tools used in management consulting and develop skills to diagnose the functioning of an organization, problem solving, and to design and implement interventions to enhance individual, group, and organizational effectiveness. Prereq> So St, MHR 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MHR 420 Managing Change and Organizational Effectiveness Credits: 3
How large and complex organizations are structured, and basic managerial processes within organizations. Topics: Classical bureaucratic structure contrasted with contemporary organization structure; the impact of different organizational goals and environments on the structure of organizations; planning, coordination and control processes as related to different service and production technologies. Prereq> So, Jr or Sr st; MHR 300. Not open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 421 Management: Decisions, Implementation and Control Credits: 3
Formal methods for problem solving, solution implementation and program control. Prereq> Jr or Sr st; MHR 420. Not open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

MHR 422 Entrepreneurial Management Credits: 3
Addresses entrepreneurship as a career, a phenomenon and as a method of bringing ideas to market. Appropriate for students interested in starting entrepreneurial ventures, advising managers or working in a small business. Including opportunity discovery, business and financial planning. Prereq> Gen Bus 310 or Acct IS 300 or (Acct IS 100 & Acct IS 211) or (Acct IS 100 & Finance 300) Jr or Sr st. Not open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 423 Strategic Management Credits: 3
Synthesis of material from accounting, economics, finance, operations management, human resources, law, marketing, and technology to consider problems in corporate and business-level strategy; top management problems; discussion of actual business cases. Prereq> Junior or Senior standing; Acct IS 211; Finance 300; Marketing 300; MHR 300. Not open to grad students
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 424 Women in Management Credits: 3
The role of women in management as influenced by individual, organizational and societal factors. Strategies for the attainment of individual career goals is also emphasized. Prereq> Junior or Senior standing. Not open to grad students
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

MHR 427 Entrepreneurial Growth Strategies Credits: 3
General management course that analyzes and integrates growth patterns and business disciplines in context of nascent and high growth firms. Prereq> Junior or Senior standing; MHR 422; Acct IS 211. Not open to graduate students
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
MHR 434 Venture Creation Credits: 3
Intended for students who seek to transform their own ideas into new ventures. Students will learn the process of evaluating, formalizing, and communicating a new venture idea. Student originated product/service/venture concept required for course. Prereq> Sophomore, Junior or Senior standing. Not open to graduate students
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 441 Technology Entrepreneurship Credits: 3
Designed for undergraduate students interested in learning about the fundamental issues related to starting and managing technology-based new ventures. Encourages students to consider how technology-based solutions can solve economic and socially oriented problems. Prereq> So, Jr or Sr st; Not open to Grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 470 Seminar: Organizational Issues Credits: 3
Analysis and discussion of selected issues in organizational strategy, behavior, theory, design, or entrepreneurship. Prereq> Jr or Sr st; MHR 300 & MHR 420 or con reg. Not open to grad stdts
Typically Offered: Fall, Spring

MHR 471 Seminar: Human Resources Issues Credits: 3
Analysis and discussion of selected issues in human resource management. Prereq> Jr or Sr st; MHR 300 &305. Not open to grad stdts
Typically Offered: Fall, Spring

MHR 540 Intellectual Property Rights, Innovation and Technology Credits: 3
Uses economic concepts to illustrate the nature of technological innovation, competition, and economic growth. Topics: economics of the intellectual property protection (IPP); market structure and innovation; interaction between public and private sectors; IPP and anticompetitive policies; globalization. Prereq> Econ 301 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Every Other Spring

MHR 610 Compensation: Theory and Administration Credits: 3
Determinants of wage levels, wage structures and individual wages; analysis of the impact of wages on individual attitudes and decisions to participate and perform in organizations. Prereq> Jr or Sr st; MHR 305 or 705. Open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 611 Personnel Staffing and Evaluation Credits: 3
Designed to help students develop an understanding of personnel staffing. This includes staffing strategy, legal compliance, staffing planning, job analysis, external recruitment, internal recruitment, measurement, external selection, internal selection, employment decision-making, and staffing system management. Prereq> Jr or Sr st; Gen Bus 303 or equiv; MHR 305 or 705. Open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 612 Labor-Management Relations Credits: 3
Labor-management relations at the firm level including its evolution, characteristics and contemporary issues. Emphasis on analysis of the labor-management relationship through reference to theory and research on collective action, bargaining behavior and conflict resolution. Prereq> Jr or Sr st; MHR 305 or 705. Open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MHR 613 Human Resource Skills for Managers Credits: 3
Students will study, and practice, the conduct of HR skills in such areas as job design, performance management, staffing, training, compensation and rewards, and employment law. Prereq> Jr or Sr st; MHR 305 or 705. Open to grad stdts
Typically Offered: Fall, Spring

MHR 628 Negotiations Credits: 3
Theory and practice of negotiations. Prereq> Sr st; MHR 300 or 704. Open to grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
M H R 700 Organizational Behavior Credits: 3
Employee work attitudes and behaviors in organizations. Analysis of how individual, group and organizational characteristics influence employee attitudes, such as satisfaction and alienation, and employee behaviors, such as participation and performance. How managerial policies and practices such as reward systems and leadership influence work attitudes and behaviors. Prereq> Grad st
Typically Offered: Occasionally

M H R 703 Global Issues in Management Credits: 3
This course focuses on the strategic management required in global business. Topics include environmental analysis, global strategy, and subsidiary control. The aim of the course is to develop special skills that are required to manage international firms. Prereq> MHR 701 & 702
Typically Offered: Occasionally

M H R 704 Managing Behavior in Organizations Credits: 3
Examines the effective management of behavior in organizations. Focuses on the application of theories of leadership and work motivation. Includes critical conceptual and analytical assessment of these theories. Emphasizes the management of work performance, managerial skill building, and enabling followers. MBA degree stdts or permission
Typically Offered: Occasionally

M H R 705 Human Resource Management Credits: 3
Two broad substantive areas are covered. (1) Evidence (theoretical and empirical) reviewed on the determinants of employee job attitudes and behavior. For example, the impact of compensation on employee satisfaction and performance. (2) Functional activities of personnel management and their impact on employee behavior evaluated. Sample topics: Selection, development, evaluation and compensation. Prereq> Crse in intro stats
Typically Offered: Occasionally

M H R 706 Leading and Working in Teams Credits: 2
This course examines team dynamics, highlights key factors that influence team effectiveness, develops skills in diagnosing opportunities and threats that face teams, and enhances teamwork expertise. The content is applicable to projects across specializations. For instance, teamwork skills are essential to projects teams developing new products/services, working on business strategy, implementing process improvements, designing new financial investment instruments, and developing real estate. In any of these projects, employees would work as a team to accomplish their goals. The team's success or failure will depend, to a large extent, on how the team members work together. Prereq> Open t
Typically Offered: Fall

M H R 713 Business Strategy Credits: 2
Integrative approach to strategic management, including strategy formulation/implementation at the business level. Cases, discussion, lecture, simulation are used to communicate concepts. Emphasizes development of strategic thinking applied to companies and industries, application of knowledge to solve business problems. Prereq> MBA st or cons inst
Typically Offered: Occasionally

M H R 715 Strategic Management of Innovation Credits: 3
Helps student gain tools, concepts and information about how to generate value from Innovation and technology in existing organizations. Prereq> Grad stdt
Typically Offered: Occasionally

M H R 720 Organization and Management Processes Credits: 3
Current organization theory and management processes. Techniques for carrying out the management processes of planning, organizing, coordinating and control. Prereq> MHR 700
Typically Offered: Occasionally

M H R 722 Entrepreneurial Management Credits: 3
Describes activities and skills necessary to start and manage an enterprise. Includes decisions about domain, purchase versus start-up, preferred market, financing, legal form, staffing, organization structure, location, and legal requirements. Describes the entrepreneurial role in business initiation. Prereq> Grad st
Typically Offered: Occasionally
M H R  723 Business Strategy  Credits: 3  
Integrative approach to strategic management, including strategy formulation/implementation at business unit, corporate levels. Cases, discussion, lecture, simulation are used to communicate concepts. Emphasizes development of unique tools for analysis of companies and industries, application of knowledge to business problems.  Prereq> Grad st  
Typically Offered: Occasionally

M H R  724 Project Management  Credits: 3  
Addresses the skills needed to become a successful project manager and project team member; addresses project initiation issues, project implementation topics and project evaluation and termination concerns.  Prereq> Grad st  
Typically Offered: Occasionally

M H R  725 The Strategic Management of Innovation and Technology  Credits: 2  
Addresses competitive and cooperative technology strategies for firm survival and prosperity in the context of international technological evolution. Emphasizes management's role in organizational learning, including the creation and deployment of firm-level knowledge and competencies.  Prereq> Acct I S 700, OIM 730, Marketing 700, MHR 700, Gen Bus 704, Finance 700, OIM 750, Intl Bus 700, Acct I S 710, Info Sys 720 or equivs; MBA deg cand or cons inst  
Typically Offered: Occasionally

M H R  726 Power and Politics in Organizations  Credits: 3  
Provides a framework for intelligently analyzing the sources of power in organizations, and the circumstances that lead to its attainment and effective use. Offers a framework for evaluating political behaviors on both pragmatic and ethical grounds.  Prereq> Grad st  
Typically Offered: Occasionally

M H R  727 Entrepreneurial Growth Strategies  Credits: 3  
Describes activities and skills necessary to initiate and manage rapid growth in small young firms.  Prereq> MHR 722, Acct I S 700 & Grad st  
Typically Offered: Occasionally

M H R  728 Bargaining, Negotiating and Dispute Settlement for Managers  Credits: 3  
Designed to improve student knowledge of the bargaining process and their negotiating skills. Students will learn about different bargaining theories and have the opportunity to apply these theories in exercises and role-playing cases.  Prereq> MBA standing or cons inst  
Typically Offered: Occasionally

M H R  729 Behavioral Analysis of Management Decision Making  Credits: 3  
Examination of behavioral science literature dealing with the processes by which individuals, small groups and organizations make decisions. Understanding decision-making behavior in order to improve managerial performance; modeling decision-making processes for systems design and theory building purposes.  Prereq> Intro course in mgmt processes & intermediate course in stat  
Typically Offered: Occasionally

M H R  731 Management Consulting  Credits: 3  
Theory and practice of third party intervention and consultation to facilitate process improvement in organizations. Establishing contractual understanding with the client. Determination of client needs and organizational climate. Improvement of interpersonal processes for problem solving, confrontation and coordination. Facilitation of conflict resolution. Facilitation of interpersonal and organizational change.  
Typically Offered: Occasionally

M H R  733 Corporate Strategy  Credits: 2  
Integrative approach to strategic management, including strategy formulation/implementation in the multi-business firm. Cases, discussion, lecture, simulation are used to communicate concepts. Emphasizes development of strategic thinking from a corporate perspective, and application of knowledge to solve corporate and business-level problems.  Prereq> MBA st or cons inst  
Typically Offered: Occasionally
MHR 734 Venture Creation Credits: 3
Intended for students who seek to transform their own ideas into new ventures. Students will learn the process of evaluating, formalizing, and communicating a new venture idea. Student originated product/service/venture concept required for course. Prereq> Grad stdt
Typically Offered: Occasionally

MHR 737 WAVE Practicum I Credits: 3
Students develop and present comprehensive analyses of local entrepreneurial firms' overall operations and their industry environments. The class meets in a seminar format to discuss assigned readings and student research, and also incorporates presentations by various subject matter experts. Prereq> MHR 722, MHR 727 (may be con reg), & cons inst
Typically Offered: Occasionally

MHR 738 Weinert Applied Ventures in Entrepreneurship (WAVE) Credits: 3
Students develop and present comprehensive business and financing plans for a start-up firm. Investment recommendations are made to the WAVE Board. Class meets in a seminar format with various subject matter experts. Prereq> MHR 722 or MHR 734
Typically Offered: Occasionally

MHR 741 Technology Entrepreneurship Credits: 3
Designed for graduate students interested in learning about the fundamental issues related to starting and managing technology-based new ventures. Encourages students to consider how technology-based solutions can solve economic and socially oriented problems. Prereq> Grad st
Typically Offered: Fall, Spring

MHR 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

MHR 773 Seminar-Arts Administration Credits: 3
Examination and applied analysis of selected topics in administration of both visual and performing arts organizations; marketing and audience development, contracts and legal problems, fund development, program planning and evaluation, facilities management, business and government relations. Prereq> Grad st & cons inst
Typically Offered: Occasionally

MHR 774 Seminar-Arts Administration Credits: 3
Continuation of MHR 773. Prereq> Grad st and cons inst
Typically Offered: Occasionally

MHR 790 Master's Research and Thesis Credits: 1 - 6
Completion of master's thesis for MBA program. Prereq> Grad st in Arts Administration MBA progm, or cons inst
Typically Offered: Occasionally

MHR 799 Reading and Research-Management Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

MHR 835 Research Methods in Management I Credits: 3
(First of a two-course sequence; may be taken as a single course.) Review and critique of published research with focus on the improvement of method. Ethics, theory and research, generating testable theory, reliability, validity, operationalization, measurement and scaling, and surveys. Prereq> MHR 700 & Gen Bus 704 or equiv
Typically Offered: Occasionally

MHR 870 Seminar-Administrative Policy Credits: 3
Application of management processes and decision theory to the analysis of cases and critical incidents in management. Cases and incidents deal with both administrative or corporate strategy and with supervisory tactics. Prereq> MHR 720
Typically Offered: Occasionally
MHR 871 Seminar-Personnel Management Credits: 3
Study and evaluation of merging issues in the field of personnel management. Extensive reading of appropriate literature together with analysis, reports and discussions. Prereq> MHR 610, 611, & 705
Typically Offered: Occasionally

MHR 872 Seminar in Organizational Behavior and Design Credits: 3
Analysis and discussion of selected topics in organizational behavior and design. Prereq> MHR 700 & 730
Typically Offered: Occasionally

MHR 975 Doctoral Research Seminar in Management Credits: 3
Seminar for Ph.D. candidates majoring in management and at or near the doctoral thesis stage. Focus: Assisting the student in working through the conceptualization and design of a thesis topic. Prereq> PhD cand & cons inst
Typically Offered: Occasionally

MHR 976 Doctoral Research Seminar in Management Credits: 2
Continuation of MHR 975. Prereq> PhD cand & cons inst
Typically Offered: Occasionally

MHR 977 Emerging Entrepreneurship Theory and Research Credits: 3
This PhD seminar explores contemporary entrepreneurship theory and research topics; providing students an opportunity to probe and develop scholarly theories of entrepreneurial behavior and outcomes. The course will incorporate presentations by the instructor, students and invited speakers. Prereq> PhD stdt & cons inst
Typically Offered: Occasionally

Individual work to complete dissertation requirement of Ph.D. program. Prereq> Grad st & cons inst
Typically Offered: Occasionally

MHR 999 Reading and Research-Management and Human Resources PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Prereq> PhD st & cons inst
Typically Offered: Occasionally

MARKETING

MARKTNG 300 Marketing Management Credits: 3
Planning and controlling the elements of the marketing program; marketing organization, product and service, packaging, pricing, promotion and physical distribution. Prereq> Sophomore, Junior or Senior standing; Econ 101
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

MARKTNG 305 Consumer Behavior Credits: 3
Analysis of the theories of consumer behavior and their application to marketing decision-making. Psychological, economic, anthropological and sociological perspectives are integrated to enhance understanding of consumer acquisition processes. Prereq> So, Jr, or Sr st; Marketing 300. Stdts may not receive cr for both Marketing 305 & Cnsr Sci 657
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

MARKTNG 310 Marketing Research Credits: 3
Systematic and objective search for and analysis of information relevant to the identification and solution of problems in marketing. Prereq> So, Jr, or Sr st; Marketing 300; Gen Bus 303 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

MARKTNG 335 Brand Management & Strategy Credits: 3
To provide an understanding of brands, how they work and to apply brand knowledge to managerial situations. Knowledge of brand history, societies and cultures that surround them, critical mental processes, marketing imperatives, and the economics that underlie them to understand brands. Prereq> Sophomore, Junior or Senior standing; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall
MARKETING 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq> So, Jr, or Sr st; Marketing 300
Typically Offered: Occasionally

MARKETING 399 Reading and Research-Marketing Credits: 1 - 6
Prereq> So, Jr, or Sr st; Marketing 300
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

MARKETING 415 Marketing Communications Credits: 3
Decision making in the management of communications between the firm and the public. Communications theories, advertising and promotional management. An evaluation of the promotional mix, i.e. personal selling, advertising media, packaging, sales promotion and publicity. Prereq> Sophomore, Junior, or Senior standing; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MARKETING 420 Global Marketing Strategy Credits: 3
Structure of foreign trading; commercial facilities available to exporters and importers; application of economic analysis in marketing decisions; contemporary trends in international economy affecting foreign trade policies and practices. Prereq> Sophomore, Junior or Senior standing; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MARKETING 421 Fundamentals of Supply Chain Management Credits: 3
Supply chain management is a cross-functional discipline concerned with the movement of products, services, and information among all links in the value chain. The management of supply chain resources is a way to reduce costs and achieve competitive advantage. Prereq> So, Jr, or Sr st; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MARKETING 422 Logistics Management Credits: 3
Provides a management perspective on the fundamental activities, concepts, and current practices in logistics. Transportation management, order fulfillment, warehousing, global logistics, key performance indicators, outsourcing, and introduction to radio frequency identification and barcoding. Use of case studies and industry speakers. Prereq> OTM 300 or equiv, Marketing 300 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall

MARKETING 423 Procurement & Supply Management Credits: 3
Procurement and supply management is the business function concerned with an organization's acquisition of required materials, services, and equipment. The course covers the purchasing function's responsibilities and the necessary knowledge to develop effective sourcing strategies. Prereq> So, Jr, or Sr st; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MARKETING 425 Marketing Channels Credits: 3
The structure and behavior of marketing channels from a managerial frame of reference. Strong emphasis on understanding marketing institutions and agencies and on dissecting behavioral aspects of channel relations--roles of members, use of power, and resolution of conflicts. Prereq> Sophomore, Junior, or Senior standing; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

MARKETING 427 Enterprise Systems and Supply Chain Management Credits: 3
Provides an overview of enterprise systems and supply chain business processes. Introduces students to how enterprise systems are used to manage supply chains and make effective business decisions. Students will use SAP enterprise resource planning software throughout the course. Prereq> So, Jr or Sr st; Marketing 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

MARKETING 430 Product and Price Management Credits: 3
Special marketing issues faced by organizations that offer products and services to consumers. Emphasis on analysis of the consumer marketplace, formulation of action marketing plans, and implementing those plans throughout the organization. Prereq> So, Jr, or Sr st; Marketing 300
Typically Offered: Fall, Spring
MARKETNG 440 Emerging Issues in New Product Development Credits: 3
The goal of this course is to examine emerging issues in new product development (NPD) such as customer co-creation, R & D alliances, and outsourcing of innovation. Prereq> Sophomore, Junior or Senior standing; Marketing 300
L&S Credit: No degree credit in L&S Typically Offered: Fall

MARKETNG 460 Marketing Strategy Credits: 3
Capstone marketing decision-making course emphasizing analysis of the external environment. The coordination of tactical and strategic marketing plans with the goals and objectives of the firm. Prereq> Sr st; Marketing 300. Prior completion of 2 Marketing crses beyond Marketing 300
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

MARKETNG 635 Sales Management Credits: 3
Determination of the amount and allocation of personal sales effort to be applied to the market and methods of organizing, evaluating and controlling this effort. A critical evaluation of current practice in sales planning, analysis and cost control. Prereq> So, Jr, or Sr st; Marketing 300
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

MARKETNG 640 Retail Management Credits: 3
Management practices in the operation of retail and wholesale enterprises. The basic functions of merchandising, promotion, control and operations. Prereq> So, Jr, or Sr st; Marketing 300
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

MARKETNG 700 Marketing Management Credits: 3
Provides a framework for evaluating marketing problems and developing a marketing strategy. Customer, company, competitive, and collaborator factors are emphasized as foundations for marketing decision making. The key aspects of product, pricing, distribution, and promotion strategy are also examined. Prereq> Grad standing
Typically Offered: Occasionally

MARKETNG 705 Consumer Behavior Credits: 3
Analysis of theories and models of behavior which underlie the process of consumer decision-making. Marketing applications of psychological, sociological and social-psychological factors. Prereq> Marketing 700 or equiv
Typically Offered: Occasionally

MARKETNG 710 Marketing Research Credits: 3
An overview of the marketing research process from a methodological perspective. Topics: Research design, data collection procedures, sampling and data analysis. Prereq> Marketing 700 or equiv & Gen Bus 303 or equiv
Typically Offered: Occasionally

MARKETNG 715 Marketing Communications Credits: 3
Decision-making in the management of promotions. An evaluation of promotional mix, communications theories, advertising and promotional management and strategy development. Prereq> Marketing 700 or equiv
Typically Offered: Occasionally

MARKETNG 720 Global Marketing Strategy Credits: 3
Application of the strategic bases of marketing in an international setting. Considers the extension of product, price, distribution, communications, segmentation, and research issues in a global marketplace. Prereq> Marketing 700
Typically Offered: Occasionally

MARKETNG 722 Logistics Management Credits: 3
This course provides a foundation in transportation, order fulfillment, warehousing, materials planning including MRP, demand planning, import/export fundamentals, SAP/ERP systems, supply chain metrics, and leading supply chain technologies such as RFID. Prereq> Grad st
Typically Offered: Occasionally

MARKETNG 724 Strategic Global Sourcing Credits: 3
Course focuses on the planning, preparation, negotiation, and implementation activities required for firms to succeed in sourcing globally. It includes essential theoretical, economic, and geopolitical aspects of global sourcing with the steps of a properly developed and executed sourcing strategy. Prereq> Grad st
Typically Offered: Occasionally
MARKETNG 725 Marketing Channels Credits: 3
Marketing channels analyzed as social, economic and political systems. Strong emphasis on understanding and dissecting behavioral dimensions of channel relations--roles of channel members, use of power, conflicts that arise among them, and their communication networks. Prereq> Marketing 700 or equiv
Typically Offered: Occasionally

MARKETNG 726 Seminar in Supply Chain Management Credits: 3
Supply chain management is a cross-functional discipline that involves the integration of business processes among supply chain partners ranging from end users through original suppliers that provide products, services and information that add value for customers. Prereq> Marketing 700 & OIM 750 or cons inst
Typically Offered: Occasionally

MARKETNG 727 Enterprise Systems and Supply Chain Management Credits: 3
Provides an overview of enterprise systems and supply chain business processes. Introduces students to how enterprise systems are used to manage supply chains and make effective business decisions. Students will use SAP enterprise resource planning software throughout the course. Prereq> Grad st
Typically Offered: Spring

MARKETNG 730 Product and Price Management Credits: 3
Product and price management functions in contemporary business. Topics in product management: Product strategies, product planning, product auditing, and legal aspects of products. Topics in price management: demand estimation, techniques used in setting prices, psychological aspects of pricing, and legal aspects of pricing. Prereq> Marketing 700 or equiv
Typically Offered: Occasionally

MARKETNG 735 Brand Strategy Credits: 3
Provides students a comprehensive and up-to-date treatment of the subjects of brand, brand equity, and strategic brand management. It examines the concepts and techniques to improve the long-term performance of brand strategies. Prereq> Grad st & Marketing 700
Typically Offered: Occasionally

MARKETNG 737 Developing Breakthrough New Products: A Practicum Credits: 3
In this applied course, student teams go through a real-world process of developing a best-bet new consumer product concept and prototype and present their resulting new product plans to senior company management. Prereq> Grad st & Marketing 700
Typically Offered: Occasionally

MARKETNG 740 Emerging Issues in New Product Development Credits: 3
The goal of this course is to examine emerging issues in new product development (NPD) such as customer co-creation, R & D alliances, and outsourcing of information. Prereq> Marketing 700
Typically Offered: Occasionally

MARKETNG 746 Logistics Strategy Credits: 3
Planning and design of integrated logistics systems; managing inter-functional and inter-firm relationships; international logistics; multiple facility network design; analysis of inventory and transportation routing and scheduling problems. Use of cases and computer applications. Prereq> OIM 750 & Marketing 700 or cons inst
Typically Offered: Occasionally

MARKETNG 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

MARKETNG 799 Reading and Research-Marketing Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

MARKETNG 805 Qualitatively-Based Marketing Insights Credits: 3
Understanding and application of in-depth qualitative market research methods, with an emphasis on the interpretation of qualitative data. Provides hands-on experience with different methodological techniques and immersion in a cultural perspective for systematically analyzing data from a marketing perspective. Prereq> Marketing 700 & 710
Typically Offered: Occasionally
MARKETNG 810 Advanced Topics in Marketing Research Credits: 3
An in-depth study of the development and validation of self-report measures used in marketing research. Focuses on conceptual and methodological tools for developing and investigating measurement scales with particular emphasis on reliability and construct validity. Prereq> Marketing 710 or equiv & Gen Bus 704 or equiv or cons inst
Typically Offered: Occasionally

MARKETNG 815 Quantitative Models in Marketing Credits: 3
Analysis and interpretation of scanner-based purchase data to present recommendations to managers. Become familiar with the design of syndicated databases, their uses, and their weaknesses. Translate managerial questions into research questions that are addressable by syndicated databases. Prereq> Gen Bus 700, Marketing 710
Typically Offered: Occasionally

MARKETNG 971 Seminar-Marketing PhD Credits: 3
Analysis and discussion of recent research in all aspects of marketing thought and practice. Prereq> Grad st
Typically Offered: Occasionally

MARKETNG 972 Seminar-Marketing PhD Credits: 3
Continuation of Marketing 971. Prereq> PhD cand & cons inst
Typically Offered: Occasionally

Individual work to complete dissertation requirement of Ph.D. program. Prereq> Grad st & cons inst
Typically Offered: Occasionally

MARKETNG 999 Reading and Research-Marketing PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Prereq> PhD st & cons inst
Typically Offered: Occasionally

OPERATIONS & TECHNOLOGY MGMT

OTM 300 Operations Management Credits: 3
Managing operations is about people, information, equipment, and materials and how these are combined to produce and/or deliver goods and services to customers. Emphasis is on how systems and processes can be designed, managed, and improved to achieve operations excellence and competitive advantage. Prereq> Sophomore standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

OTM 330 Managerial Economics Credits: 3
Application of principles from various fields in economics and business to management decision making. Approaches to management decision making, risk and uncertainty, forecasting technique analysis, production and cost analysis, pricing decisions, economics of capital budgeting, simulation in managerial decision making. Prereq> Econ 101 & OIM 708 or equivalent (Not open to Grad students)
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

OTM 351 Principles and Techniques of Quality Management Credits: 3
This course introduces students to the terminology, concepts, principles, and techniques for managing and improving quality. Prereq> Gen Bus 303 or equiv, MHR 300 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

OTM 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq>
Prerequisite varies by topic
Typically Offered: Fall, Spring
OTM 370 Sustainable Approaches to System Improvement Credits: 3
Organizations employ a variety of improvement approaches to develop sustainable practices. This course examines innovative system-improvement concepts and methodology that directly address sustainability concerns such as natural capital, emission buildup, and base of the pyramid, while simultaneously strengthening mission-central concerns such as cost, quality, customer, market, revenue, profit, brand, reputation sourcing, and quality of work life. Prereq> None
L&S Credit: No degree credit in L&S Typically Offered: Fall

OTM 399 Reading and Research-Operations and Information Management Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

OTM 410 Operations Research I Credits: 3
Linear and nonlinear programming with emphasis on applications; the transportation problem, parametric programming, sensitivity analysis, dynamic programming. Prereq> Math 211 or equivalent
L&S Credit: No degree credit in L&S Typically Offered: Fall

OTM 411 Operations Research II Credits: 3
Stochastic processes; Markov processes, queuing theory; applications to production and inventory problems. Prereq> Gen Bus 303 or equivalent, Math 211 or equivalent
L&S Credit: No degree credit in L&S Typically Offered: Spring

OTM 421 Fundamentals of Supply Chain Management Credits: 3
Supply chain management is a cross-functional discipline concerned with the movement of products, services, and information among all links in the value chain. The management of supply chain resources is a way to reduce costs and achieve competitive advantage. Prereq> So, Jr, or Sr st; Marketing 300
L&S Credit: No degree credit in L&S Typically Offered: Fall

OTM 422 Logistics Management Credits: 3
Provides a management perspective on the fundamental activities, concepts, and current practices in logistics. Transportation management, order fulfillment, warehousing, global logistics, key performance indicators, outsourcing, and introduction to radio frequency identification and barcoding. Use of case studies and industry speakers. Prereq> OTM 300 or equiv, Marketing 300 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall

OTM 442 Database Management and Applications Credits: 3
Introduces students to the concepts of database analysis, design, implementation, and management. Main topics include conceptual and relational database modeling and design; relational database processing and Structured Query Language (SQL); Microsoft Access. A real-world team project that uses the concepts and technologies taught in the course is an important element. Prereq> Sophomore standing
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

OTM 444 Economics of Transportation Credits: 3
Influence of transport costs on economic development, industrial location and market penetration; economic characteristics of carriers; pricing policies and practices in transport; interrelationship of public policy issues and decisions by suppliers and users of transportation. Prereq> Econ 101
L&S Breadth: Social Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

OTM 451 Service Operations Management Credits: 3
Application of operations management principles to the analysis of service-delivery systems in profit and nonprofit organizations. Topics include designing service-delivery systems, location and layout, operations planning and control, yield management, technology and information systems, and service quality management. Prereq> OTM 300
L&S Credit: No degree credit in L&S Typically Offered: Fall

OTM 578 Facilities Location Models Credits: 3
The theory and methods of facility location. Plant and warehouse siting, plant layout problems and location of service facilities such as hospitals and fire stations. Cases of actual applications. Prereq> OIM 410 or Ind Engr 323, or equivalent
L&S Credit: No degree credit in L&S Typically Offered: Spring
OTM 620 Simulation Modeling and Analysis Credits: 3
Introduction to simulation modeling and analysis techniques with application to production, logistics, service, and other systems. Emphasis on model building, application of basic statistical data analysis, and the use of simulation for design, evaluation, and improvement of such systems. Introduction to available software. Case studies. Prereq: Comp Sci 302 or equiv & Stat 312 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Spring

OTM 632 Introduction to Stochastic Processes Credits: 3
L&S Breadth: Natural Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

OTM 633 Queuing Theory and Stochastic Modeling Credits: 3
Reliability theory; coherent systems and reliability bounds. Markovian queues and Jackson networks. Steady-state behavior of general service time queues. Priority queues. Approximation methods and algorithms for complex queues. Simulation. Dynamic programming; applications to inventory and queueing. Prereq: Math, Ind Engr 632 or cons inst
L&S Breadth: Natural Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

OTM 640 Business Logistics Analysis Credits: 3
Emphasis on the business logistics process from a managerial perspective; analysis of logistics systems to develop implementation strategies for effective flow of material and information throughout the supply chain. Prereq: Econ 101
L&S Credit: No degree credit in L&S  Typically Offered: Fall

OTM 654 Production Planning and Control Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Spring

OTM 671 E-Business: Technologies, Strategies and Applications Credits: 3
Overview of core concepts of e-commerce and e-business technologies, strategies and applications. Covers business-to-consumer, business-to-business and intra-business models by using real-world examples and cases from various industries.. Prereq: Senior or Graduate standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall

OTM 672 E-Business Transformation: Design, Analysis and Justification Credits: 3
Analytical and integrative approaches for e-business strategy formulation, analysis and justification and development of implementation roadmap. Emphasizes development of analytical reasoning and managerial thinking through creation of assessment tools and decision aids to guide various aspects of e-business transformation. Prereq: Sr or Grad st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

OTM 700 Operations Management Credits: 3
Management of the operations function in manufacturing and service organizations. Emphasizes the coordination of resources to improve cost, quality, and customer service. Topics include materials, capacity, and project management, operations strategy, forecasting, and process design. Prereq: Gen Bus 303 or equiv
Typically Offered: Occasionally

OTM 705 Data Analysis and Decision Making Credits: 3
Students will advance their analytical and decision making skills by developing practical spreadsheet models to evaluate business situations. Fundamental topics in probability, statistics, and constrained optimization will be introduced and used as modeling tools via active learning exercises.
Typically Offered: Occasionally
OTM 710 Operations Research I Credits: 3
Linear and nonlinear programming with emphasis on applications; the transportation problem, parametric programming, sensitivity analysis, dynamic programming. Prereq> OIM 709 or Math 222 or cons inst
Typically Offered: Occasionally

OTM 711 Operations Research II Credits: 3
Stochastic processes; Markov processes; queuing theory; applications to production and inventory problems. Prereq> Gen Bus 303 & either OIM 709 or Math 222 or cons inst
Typically Offered: Occasionally

OTM 722 Logistics Management Credits: 3
This course provides a foundation in transportation, order fulfillment, warehousing, materials planning including MRP, demand planning, import/export fundamentals, SAP/ERP systems, supply chain metrics, and leading supply chain technologies such as RFID. Prereq> Grad st
Typically Offered: Occasionally

OTM 732 Economics for Managers Credits: 3
This course develops and applies economic principles to examine the affect of firm, industry, domestic and global market conditions on both day-to-day managerial decision making and long-term strategic planning. Prereq> 1st yr MBA stdt
Typically Offered: Occasionally

OTM 744 Economics of Transportation Credits: 3
Influence of transport costs on economic development, industrial location and market penetration; economic characteristics of carriers; pricing policies and practices in transport; interrelationship of public policy issues and decisions by suppliers and users of transportation. Prereq> Econ 101
Typically Offered: Occasionally

OTM 746 Logistics Strategy Credits: 3
Planning and design of integrated logistics systems; managing inter-functional and inter-firm relationships; international logistics; multiple facility network design; analysis of inventory and transportation routing and scheduling problems. Use of cases and computer applications. Prereq> OIM 750 & Marketing 700 or cons inst
Typically Offered: Occasionally

OTM 751 Service Operations Management Credits: 3
Application of operations management principles to the analysis of service-delivery systems in profit and nonprofit organizations. Topics include designing service-delivery systems, location and layout, operations planning and control, yield management, technology and information systems, and service quality management. Prereq> OIM 750 or equiv
Typically Offered: Occasionally

OTM 753 Healthcare Operations Management Credits: 3
Healthcare delivery systems around the world struggle with three fundamental issues: patient access to care, quality and safety in the care process (incl. patient and staff satisfaction), and cost of care. In this course, we look at these issues and selected analysis and improvement approaches that the discipline of Operations Management can offer. In doing that, different types of both clinical and non-clinical processes in hospital settings are illustrated. Prereq> Graduate standing
Typically Offered: Spring

OTM 755 International Operations: Problems and Administration Credits: 3
Organizations and strategies of international and multinational firms. Initiating international operations, joint venture problems, relationships with state enterprises, licensing methods, defenses against adverse government policies (including confiscation), and international business policies and tactics. Prereq> Grad st
Typically Offered: Occasionally

OTM 758 Managing Technological and Organizational Change Credits: 3
Issues surrounding strategc decisions to adopt new technologies and modern improvement philosophies, the impact these will have on the organization and its members, obstacles preventing successful implementations, and the effective management of change processes. Change triggered by process technologies, and models of change management, form the core of the course. Prereq> OIM 700 or cons inst. Stds may not take both OIM 758 & IE 658 for cr
Typically Offered: Occasionally
OTM 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

OTM 770 Sustainable Approaches to System Improvement Credits: 4
Innovative system-improvement concepts and approaches that sustainably strengthen mission-central concerns such as quality, cost, customers, markets, revenue, profit, brand, reputation, sourcing, quality of work life, natural capital, buildup of concentrations and base of the pyramid. Prereq> One semester course in statistics
Typically Offered: Occasionally

OTM 799 Reading and Research-Operations and Information Management Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

OTM 830 Economic Analysis of Business Decisions Credits: 3
The study of mathematical models in economics relevant for business decision-making and research, particularly those analyzing the influence of information. Microeconomics review, game theory, signaling, pricing, auctions, bargaining, principal-agent arrangements, and the formation of reputations. Prereq> OIM 730 & 708, or equiv
Typically Offered: Occasionally

OTM 860 Sustainable Design of Innovative Products, Services and Systems Credits: 3
Principles, concepts and methodology for innovative, sustainable approaches to design of products, services and systems. Prereq> None
Typically Offered: Occasionally

OTM 861 Strategic Systems and Sustainability Credits: 3
Innovative concepts and methodology that embed sustainability into strategic organizational systems. Prereq> OIM 770 or equiv or consent of instructor
Typically Offered: Occasionally

OTM 875 Seminar in Operations and Technology Management Credits: 3
Current topics in operations and technology management. Prereq> OIM 700 or equiv
Typically Offered: Occasionally

Individual work to complete dissertation requirement of Ph.D. program. Prereq> Grad st & cons inst
Typically Offered: Occasionally

OTM 999 Reading and Research-Operations and Information Management PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Prereq> PhD st & cons inst
Typically Offered: Occasionally

REAL ESTATE & URBAN LAND ECON

REAL EST 306 The Real Estate Process Credits: 3
Introductory survey course. Decision-making processes for the manufacture, marketing, management and financing of real estate space. Survey of institutional context, economics of urbanization, historical pattern and structure of city growth, and public policy issues regarding urban environment and business management.
Prereq> So, Jr, or Sr st: Econ 101
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

REAL EST 312 Real Estate Law Credits: 3
The basic principles of real estate law related to ownership rights, negotiations, brokering, transfers, condominium law, financing, income tax law, real estate property taxation, bankruptcy law, construction and development contracts, and residential and commercial leases, including both office and retail leases, and an overview of international legal systems. Prereq> Real Est 306 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
REAL EST 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq-
Prerequisite varies by topic
Typically Offered: Occasionally

REAL EST 399 Reading and Research-Urban Land Economics Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

REAL EST 410 Real Estate Finance Credits: 3
Fundamentals of real estate finance; sources of funds, alternative financing instruments, and mortgage
securitization; analysis emphasizing cash flow projections, yield and risk for residential and commercial real
estate; pricing of mortgage securities. Prereq> Real Est 306 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

REAL EST 415 Valuation of Real Estate Credits: 3
Techniques of real estate valuation. Market analysis, legal and political analysis, and highest and best use
analysis; in-depth exposure to the three approaches to valuation; market comparison, income, and cost; the role
of valuation in real estate investment; government regulation of appraisers. Prereq> Real Est 306 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

REAL EST 420 Urban and Regional Economics Credits: 3
Nature and structure of urban economies; location of economic activity; economic analysis in an urban
framework; principles of urban economic development, housing, transportation, poverty and unemployment and
municipal finance. Forecasting of economic activity using census and socioeconomic data. Prereq> Econ 101
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

REAL EST 425 Real Estate Asset Management Credits: 3
Examination of real estate decision-making by corporate users; the relationship of real estate to the strategic plan
and to the balance sheet; real estate and corporate mergers; and programming, procurement, investment in
management, and disposal of real estate. Prereq> Real Est 306
Typically Offered: Fall

REAL EST 430 International Real Estate Credits: 3
Analysis of international real estate and related transaction issues, especially in foreign countries which are
visited as part of the course; survey of land use patterns and regulations, ownership rights, types of leases,
transfer procedures, mortgage system, tax matters, currency risks, and geographical diversification issues.
Prereq> Real Est 306 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

REAL EST 520 Community Economic Analysis Credits: 3
Economic theory (location and growth) applicable to community economic development; the role of private and
public sector in local economic development, and techniques for economic analysis of community. Prereq> Econ
301 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Spring

REAL EST 611 Residential Property Development Credits: 3
A capstone course. In-depth exposure to the world of the residential builder/developer/subdivider and the
necessary tools of analysis--market analysis, zoning/environmental and other entitlements, site planning and
design, infrastructure/construction cost analysis, financing, feasibility analysis, deal structuring,
renovation/rehabilitation, special needs housing. Prereq> Real Est 410 & 415 or con reg or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

REAL EST 621 Techniques of Real Estate Analysis Credits: 3
The application of contemporary real estate theory and advanced analytical tools to refine techniques in market
analysis, appraisal, financial analysis, and feasibility. Relevant statistical techniques, forecasting methods, survey
research techniques, regional economic models, operations research methodologies applied to real estate
examples. Prereq> Econ 301 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
REAL EST 631 Computer Applications in Real Estate Analysis Credits: 3
Computer methods for real estate investment/feasibility analysis, evaluation of mortgage design and mortgage pricing models; computer analysis of option models in real estate, use of sales comparison adjustment grid methods; implementation of capital asset pricing and portfolio models in real estate. Prereq> Real Est 410 or 710 & 415 or 715 or con reg or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

REAL EST 641 Housing Economics and Policy Credits: 3
The economic principles underlying the dynamics of the housing market; filtering, neighborhood decline and abandonment gentrification, tenure choice, mortgage choice, prepayment, mobility, mortgage default, submarket identification, racial discrimination and segregation. Examination of governmental programs affecting the housing market and their objectives and impacts; public and subsidized housing, zoning and land use regulation, rent and price controls, property and income tax policy. Prereq> Real Est 420 or con reg or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

REAL EST 651 Green - Sustainable Development Credits: 3
Intended for students who have an interest in Green and Sustainable aspects of housing and commercial property development and operation, the re-use and/or rehabilitation of existing structures, redevelopment of historic buildings into housing or commercial space and related special topics such as financing sources, tax issues, financial structuring, legal issues and energy cost management.
L&S Credit: No degree credit in L&S  Typically Offered: Spring

REAL EST 706 The Real Estate Process Credits: 3
Institutional background of real property; economics of urbanization, supply and demand; building industry, real estate credit, cyclical fluctuation, rents and prices, real estate market analysis; city growth, structure and planning, land use control, urban redevelopment and real estate investment analysis. Prereq> Grad st & Econ 301 or equiv or cons inst
Typically Offered: Occasionally

REAL EST 710 Real Estate Finance Credits: 3
Evaluating the role of financing and leverage in real estate investment analysis; identifying alternative types of financing; valuation of financial structure; sources of equity financing for real estate; mortgage securitization and the operation of secondary mortgage markets. Prereq> Grad st or cons inst
Typically Offered: Occasionally

REAL EST 712 Real Estate Law Credits: 3
Advanced principles of real estate law related to ownership rights, negotiations, brokering, transfers, condominium law, financing, income and property tax law, real estate property taxation, bankruptcy law, construction and development contracts, and residential and commercial leases, and an overview of international legal systems. Prereq> Grad st
Typically Offered: Occasionally

REAL EST 715 Techniques of Real Estate Valuation Credits: 3
Topics include highest and best use and most probable use analysis, statistical methods for developing adjustment factors and comparable selection for the market comparison approach, discounted cash flow analysis and income capitalization, and cost approach methods. Issues in appraisal ethics and federal requirements for appraisal practice. Prereq> Grad st only or cons inst
Typically Offered: Occasionally

REAL EST 720 Urban Economics Credits: 3
Analysis of spatial relationships in the urban economy, including urban land, labor and housing markets; urban transport; city governance and finance; and regional models. Historical and applied focus. Interdisciplinary approach emphasizing economics, geography, and planning. Prereq> Econ 301 or equiv or cons inst
Typically Offered: Occasionally

REAL EST 725 Real Estate Asset Management Credits: 3
Examination of institutional real estate investors and institutional real estate decision-making; characteristics of real estate as investments for institutions; portfolio management; diversification concepts; performance measurements; tax issues; and disposition of real estate. Prereq> Grad st
Typically Offered: Occasionally
REAL EST 730 International Real Estate Credits: 3
Analysis of international real estate and related transaction issues, especially in foreign countries which are
visited as a part of the course; survey of land use patterns and regulations, ownership rights, types of leases,
transfer procedures, mortgage system, tax matters, currency risks, and geographical diversification issues.
Prereq> Grad st or cons inst
Typically Offered: Occasionally

REAL EST 740 Real Estate Equity Investment Credits: 3
Fitting investment strategy to context of physical property, leverage, form of ownership, income tax and
management alternatives. Emphasis is on analysis of limited partnerships, trusts, corporate real estate
enterprises, and securitization to fund real estate. Prereq> Real Est 710
Typically Offered: Occasionally

REAL EST 745 Land Use Controls on Business Credits: 3
Basic principles of the law affecting the use of land including zoning ordinances and land development issues; the
taking of private property for public uses; land-use negotiations with government; and an overview of international
land use issues. Prereq> Grad st only or cons inst
Typically Offered: Occasionally

REAL EST 750 Commercial Property Development Credits: 3
A capstone course. Creating industrial real estate, office space, shopping centers, and hotel/recreation facilities,
including strategy, market and feasibility analysis, site planning/design, capital cost analysis, construction and
financial structuring. Emphasis on case studies and project analysis. Prereq> Real Est 710, 715 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

REAL EST 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

REAL EST 770 Commercial Real Estate Finance Credits: 3
This is a capstone course focused on advanced topics in commercial real estate finance. The course is broken
into three parts: 1) Financial Derivatives, 2) Risk Management, and 3) Structured Finance. Lectures will address
relevant topic areas and develop methodological skills. Industry professionals will appear later in the course to
provide real world markets perspective. Assignments and case studies will be used to reinforce learning of
material presented in class. Prereq> Real Est 710 or cons inst
Typically Offered: Spring

REAL EST 799 Reading and Research-Urban Land Economics Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the
intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

REAL EST 870 Advanced Real Estate Finance Theory Credits: 3
Theory of real estate financial markets as applied to the pricing of residential and commercial mortgages.
Intensive analysis of the real estate securitization process. A critical examination of REITs and equity interests in
commercial real estate. Prereq> Real Est 710 or cons inst
Typically Offered: Occasionally

REAL EST 875 Advanced Urban Land Economics Credits: 3
A capstone course. Advanced analysis of selected topics in urban land economics, including urban form and
location, government regulation of land use and real estate markets. Prereq> Real Est 720 or cons inst
Typically Offered: Occasionally

REAL EST 977 Seminar-Urban Land Economics PhD Credits: 2
Philosophic basis of research thinking and technique; case applications to the problems of urban land economics.
Prereq> Two sems of Grad work. PhD or 2nd yr masters candidates
Typically Offered: Occasionally

REAL EST 978 Seminar-Urban Land Economics PhD Credits: 2
Continuation of Urb R Pl/Real Est 977. Prereq> Two sems of Grad work. PhD or 2nd yr masters candidates
Typically Offered: Occasionally
REAL EST 990 Real Estate Independent Research PhD Thesis Credits: 1 - 12
Individual work to complete dissertation requirement of Ph.D. program. Prereq> Grad st & cons inst
Typically Offered: Occasionally

REAL EST 999 Reading and Research-Real Estate PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Prereq> PhD st & cons inst
Typically Offered: Occasionally

RISK MANAGEMENT AND INSURANCE

R M I 300 Principles of Risk Management Credits: 3
Precedes advanced work in insurance; the nature of risk, principal techniques of risk management and the bases for decision making in management of business and personal risks. Prereq> Econ 101 or equiv or Econ 111 (not open to Grad stdts)
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

R M I 365 Contemporary Topics Credits: 1 - 3
A course for the exploration of subject areas possibly to be introduced into the business curriculum. Prereq>
Prerequisite varies by topic
Typically Offered: Spring

R M I 399 Reading and Research-Risk Management Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

R M I 610 Property Risk Management Credits: 3
Comprehensive analysis of loss control and transfer techniques (including insurance), risk management concepts, loss adjustment and underwriting problems, and profitability/regulatory issues concerning the insurance industry. Current topics: large-scale catastrophies (hurricanes and earthquakes), solvency, insurance coverages for property exposures, and loss control. Prereq> RMI 300 or Real Est 306
L&S Credit: No degree credit in L&S  Typically Offered: Fall

R M I 615 Liability Risk Management Credits: 3
Comprehensive analysis of economic services, benefits, rates and rating theory, loss adjustment problems, legal theory factors, risk management concepts, loss prevention and transfer techniques and government regulation of public liability insurance. Topics include: medical malpractice, no-fault auto insurance, professional liability, workers' compensation, products liability and pollution liability. Prereq> RMI 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

R M I 620 Employee Benefits Management Credits: 3
Nongovernmental schemes for treating the risks of superannuation of members of a group; property, liability, legal expense, life and health coverages available to groups; organizational characteristics, benefit structure and pricing of risk transfer schemes for groups; characteristics and funding of various types of pension plans; effects of ERISA. Prereq> RMI 300 or MHR 305
L&S Credit: No degree credit in L&S  Typically Offered: Spring

R M I 625 Government Insurance Programs Credits: 3
Development and analysis of techniques and procedures used by the risk manager to deal with government insurance programs. Examples of programs to be covered include: Social Security, FDIC, FCIC, OASDI, OPIC, Medicare, nuclear liability, unemployment compensation, FAIR plans, flood, crime, and workers' compensation. Prereq> RMI 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

R M I 630 Life and Health Insurance Credits: 3
Determination of human life values and the conservation of those values through personal and business life and health insurance; a consumerist orientation that develops a scheme for rational buying behavior; analysis of contractual provisions; introduction to mathematics of life contingencies and pricing. Prereq> RMI 300 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall
RM1 640 Management of Insurance Enterprise Credits: 3
Functional analysis of the operations of insurance organizations; legal organization, marketing systems, management and control, underwriting, rating, financial analysis, rate making and regulation. Prereq> RMI 300
L&S Credit: No degree credit in L&S  Typically Offered: Fall

RM1 650 Sustainability, Environmental and Social Risk Management Credits: 3
The assessment, control, financing and management of risks deriving from pressures on and damages to the environment, workers and local/foreign communities. Risks include liability and directors and officers law suits, boycotts, regulations and competitors’ actions. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

RM1 655 Risk Financing Techniques Credits: 3
Study of advanced risk management tools and markets for financing loss costs. Topics include: insurance, self-insurance, retrospective premium plans, risk retention and purchasing groups, reinsurance, insurance subsidiaries (captives), and other policyholder-owned facilities. Prereq> RMI 300/700 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

RM1 700 Principles of Risk Management Credits: 3
Background for advanced work in insurance. Nature of risk, principal techniques of risk management, and the bases for decision making in management of business and personal risks. Prereq> Grad St & Econ 101 or 103
Typically Offered: Occasionally

RM1 701 Managing Legal Risks Credits: 3
Legal implications for business managers of selected areas of the law including negligence, contract, intellectual property, officer/director liability, financing the business enterprise, and employment and trade regulation; introduction to the legal process, including alternative dispute resolution systems. Prereq> Grad standing
Typically Offered: Occasionally

RM1 710 Risk Management Credits: 2
The purpose of risk management is to minimize the adverse consequences of variability. Topics include the general philosophy of risk management, environmental factors affecting risk, options to manage risk, and decision processes to select among those options. Prereq> Grad st
Typically Offered: Occasionally

RM1 765 Contemporary Topics Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

RM1 799 Reading and Research-Risk Management Credits: 1 - 6
Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Prereq> Grad st & cons inst
Typically Offered: Occasionally

RM1 815 Risk Financing Techniques Credits: 3
Study of advanced risk management tools and markets for financing loss costs. Topics include insurance, self-insurance, retrospective premium plans, risk retention and purchasing groups, reinsurance, insurance subsidiaries (captives), and other policyholder owned facilities. Prereq> RMI 700 or equiv
Typically Offered: Occasionally

RM1 820 Advanced Topics in Risk Management Credits: 3
Examination of data collection and analysis methods for risk management decisions. Analysis of qualitative and quantitative data to support transfer, retention, and loss control decisions, including loss trending, and evaluation of regulatory controls. Prereq> RMI 700 or equiv
Typically Offered: Occasionally

RM1 875 Seminar-Risk Management and Insurance Credits: 3
Continuation of RMI 870. Prereq> Two crses in actuarial sci, risk & insurance
Typically Offered: Occasionally
R M I 920 Seminar in Actuarial Science, Risk Management & Insurance I Credits: 3
Doctoral seminar in actuarial science, risk management and insurance with emphasis on developing an appreciation of existing literature and appropriate skills to conduct own scholarly work in the field. Prereq: Cons inst
Typically Offered: Occasionally

R M I 930 Seminar in Actuarial Science, Risk Management & Insurance II Credits: 3
Doctoral seminar in actuarial science, risk management and insurance, with emphasis on developing an appreciation of existing literature and appropriate skills to conduct own scholarly work in the field. Prereq: Cons inst
Typically Offered: Occasionally

Individual work to complete dissertation requirement of Ph.D. program. Prereq: Grad st & cons inst
Typically Offered: Occasionally

R M I 999 Reading and Research-Risk Management and Insurance PhD Credits: 1 - 6
Individual work suited to the needs of Ph.D. students may be arranged both during the regular sessions and during the intersession periods. Prereq: PhD st & cons inst
Typically Offered: Occasionally

TRANSPORTATION AND PUBLIC UTIL

TRAN P U 325 Public Utilities Credits: 3
Development of public utilities in the U.S.; evolution of public utility concept and emerging role of regulation; regulatory and public policy issues with emphasis on the pricing of utility services; relation of environmental and conservation goals to economic objectives of public utility sector. Prereq: Econ 101
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

TRAN P U 478 Urban Transport Economics Credits: 3
Economic issues involved in providing transport services in urban communities; study of demand; alternative means of supply; public and private financing problems; pricing and resource allocation; role of local, state and federal governments. Prereq: Econ 101
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

TRAN P U 630 Public Utility Problems Credits: 3
Management issues of public utility firms; emphasis on cost analysis, pricing and financial issues unique to utilities; impact of regulatory constraints on management. Prereq: Cons inst or Tran P U/Econ 325
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

TRAN P U 641 Transportation in Economic Development Credits: 3
Government promotion policies for transportation; evaluation of public investment in transportation; comparative analysis of role of government in developed and developing countries. Prereq: Econ 101
L&S Breadth: Social Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

TRAN P U 643 Carrier Management Principles Credits: 3
Business management principles applied to carriers--rail, highway, air, water, pipeline--with emphasis on management problems peculiar to transport firms; analysis of marketing problems, cost-finding, pricing, government relations. Prereq: Econ 101
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

TRAN P U 671 Energy Economics Credits: 3
The method, application, and limitations of traditional economic approaches to the study of energy problems. Topics include microeconomic foundations of energy demand and supply; optimal pricing and allocation of energy resources; energy market structure, conduct, and performance; macro linkages of energy and the economy; and the economics of regulatory and other public policy approaches to the social control of energy. Prereq: Sr or Grad st and intermed econ or appropriate substitute per cons inst
L&S Breadth: Social Science L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring
TRAN P U  725 Public Utilities Credits: 3
Development of public utilities in the United States; evolution of public utility concept and emerging role of regulation; regulatory and public policy issues with emphasis on the pricing of utility services; relation of environmental and conservation goals to economic objectives of public utility sector. Prereq> Grad st & Econ 101
Typically Offered: Occasionally

TRAN P U  731 The Economics of Regulation Credits: 2 - 3
A review of the theory and practice of the regulation of economic enterprise, including a discussion of the rationale of regulation and the nature of optimal regulatory rules. The course will cover such topics as conventional price regulation and the regulation of health, safety and environmental effects. Prereq> Econ 701 or OIM 730 or equiv
Typically Offered: Occasionally

TRAN P U  870 Transportation Policy Credits: 3
Analysis of major policy issues in transportation including organization of transport industry and pricing problem; review of major scholarly and government reports dealing with transportation policy; evaluation of policy proposals on economic efficiency, transport suppliers, and users. Prereq> Grad st, OIM 330 or Econ 301
Typically Offered: Occasionally

TRAN P U  876 Seminar-Transportation and Public Utilities Credits: 2
Application of analytical techniques to problem areas in transportation and public utilities and review of current research and literature. Prereq> Grad st & cons inst
Typically Offered: Occasionally

TRAN P U  877 Seminar-Transportation and Public Utilities Credits: 2
Continuation of Tran P U 876. Prereq> Grad st & cons inst
Typically Offered: Occasionally
ART 100 Introduction to Art Credits: 3
Explores elements of visual language through lecture and art studio work, focusing on the development and application of both critical thinking and hands-on creative skills. Prereq> Open to Certificate in Art students and non-art majors. Not open to Art or Art Ed majors.
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ART 102 Two-Dimensional Design Credits: 3
Two-dimensional composition and introduction to color theory through lectures, audiovisual materials, and studio assignments. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 104 Three-Dimensional Design Credits: 3
Applying design principles to 3-D investigations. Lectures, studio exercises, discussions. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 107 Introduction to Digital Forms Credits: 3
An introduction to a range of digital media techniques for artists and designers, including digital imaging, vector graphics, web design and 3D digital modeling. Emphasis on creative development along with technical skill building. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 108 Foundations of Contemporary Art Credits: 3
Artists’ formal, technical and expressive concerns; the principal ideas of movements which have significantly influenced the major tendencies in contemporary art. Prereq> Open to Freshmen
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ART 112 Drawing I Credits: 3
To develop perceptions, use of perspective, line, light and dark, development of space, and expressive qualities in drawing. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 208 Current Directions in Art Credits: 3
Examination of current artists’ motivations, intentions, and processes and their relationship to general developments in contemporary art. Prereq> Open to Freshmen
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ART 212 Drawing II Credits: 3
Further investigation of all media through drawing experience, class criticism, and lectures. Prereq> Art 112. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 214 Sculpture I Credits: 4
Introduction to techniques and basic sculpture concepts to provide a survey of sculpture studio practices. Prereq> Prerequisites include prior completion of Art 104, and completion of or concurrent enrollment in one of the following: Art 100, 108 or 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
ART 222 Introduction to Painting Credits: 3 - 4
Introduction to various technical processes and aspects of painting. Studio practice, lectures, discussions, and critiques. Prereq> Prior completion of Art 112 & 212; and completion of or concurrent enrollment in Art 100, 108 or 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 224 Ceramics I Credits: 4
Properties of clay and fundamentals of forming; hand-building, throwing, slip-casting, press molding; with emphasis on individual form concepts. Glazing, decorating, firing techniques including reduction, oxidation and primitive methods. Prereq> Prerequisites include prior completion of Art 104; and prior completion or concurrent enrollment in Art 100, 108 or 208
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 226 Textile Design: Off-Loom Construction Credits: 3
Studio design problems in two and three dimensional off-loom constructions; off-loom weaving, looping, and knotting; historical reference and contemporary application. Prereq> Open to Freshmen. DS 120 or equivalent, DS 153 or concurrent registration, or consent of instructor
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ART 229 Textile Design: Weaving I Credits: 3
Development of individual design solutions within basic weave structures. Historical and technical influence on contemporary woven design. Prereq> Open to undergrads with DS 120 or equivalent, and DS 251, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ART 232 Life Drawing I Credits: 4
Anatomical structure and intrinsic forms involved in drawing from different models. Development of technical control in a range of media. Prereq> Prerequisites include prior completion of Art 212; prior or concurrent enrollment in Art 100, 108 or 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 236 Bascom Course Credits: 3
A low-enrollment course developing skills in critical reading, logical thinking, use of evidence, and use of library resources. Emphasis on writing in the conventions of specific fields. Prereq> Successful completion of or exemption from Com A requirement. Open to Freshmen.
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ART 242 Watercolor I Credits: 3 - 4
Painting with watercolor and mixed media on paper. Experimental and traditional uses of the media will be explored, emphasizing drawing, composition, and imagination. Field trips. Prereq> Prior completion of Art 112 & 212; prior or concurrent enrollment in Art 100, 108 or 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 244 Art Metal I Credits: 3 - 4
Basic jewelry techniques; metal fabrication dealing with piercing, soldering, forming. Prereq> Art 104 and one of the following Art 100, 108 or 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 302 Color Credits: 4
Color phenomena and visual perception as applied in art problems. Lectures, readings in theory, philosophy, and history of design. Prereq> Art 112 & either Art 102 or DS 120; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 306 Relief Printmaking Credits: 3 - 4
Woodcut, collage print, linoleum cut, and wood engraving; color printing. Studio practice, lectures, discussion, critiques. Prereq> Art 212 and one of the following Art 100, 108 or 208; or Art Grad status; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
ART 312 Intermediate Drawing I Credits: 3 - 4
The exploration of conceptual drawing in various media. Emphasis on conceptual/formal solutions. Prereq: Art 102, 104, 212, & completion of or concurrent registration in Art 108 & 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 314 Sculpture II Credits: 4
Continuation of Art 214. Prereq: Art 214 or Art grad standing; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 316 Lithography Credits: 4
Direct drawing on stone with crayon and tusche, transfer techniques, color processes; studio practice, lectures, discussions, and critiques. Prereq: Art 212 and one of the following: Art 100, 108 or 208; or Art Grad Status; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 318 Introduction to Video, Performance & Installation Art Credits: 4
An introduction to time-based art forms including video, installation, and visual art performance. Prereq: Art 107 and one of the following: Art 100, 108 or 208; or Art Grad status; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 322 Intermediate Painting I Credits: 4
Development of technical processes, concepts, historical continuity. Study and application of various media of oils, acrylics, collage materials. Prereq: Art 102, 104, 212, 222, & completion of or concurrent registration in Art 108 & 208; or consent of instruction
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 324 Ceramics II Credits: 4
Continuation of 224. Prereq: Art 102, 104, 212, 222, & completion of or concurrent registration in Art 108 & 208; or art grad standing; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 326 Etching Credits: 4
Introduction to intaglio printmaking techniques. Studio problems in platemaking and printing. Prereq: Art 102, 104, 212, & completion of or concurrent registration in Art 108 & 208; or consent of instruction
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 328 The Computer in the Visual Arts Credits: 4
Survey of the use of the computer in art: history, artists' work, techniques, and the practical generation of computer-assisted imagery. Cons inst. Prereq: Art 102, 104, 212, 208, & completion of or con reg in Art 108; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 332 Life Drawing II Credits: 4
Continuation of Art 232. Prereq: Art 232
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 334 Wood Working Credits: 3 - 4
Exploration of wood as a medium for constructing creative and functional three-dimensional forms. Prereq: Art 102, 104, 112, 212, & completion of or concurrent registration in Art 108 & 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 336 Serigraphy Credits: 3 - 4
Materials and techniques of silk screen process; silk screen as a fine art form. Prereq: Art 102, 104, 212, & completion of or con reg in Art 108 & 208; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 338 Service Learning in Art Credits: 2
Students discuss community-based practices in the field, and will work with a community partner in an art-related capacity. Prereq: None
Typically Offered: Fall, Spring
ART 341 Sound Design for the Performing and Visual Arts Credits: 3
Production of audio soundtracks to complement the work of artists. The relationship of sound and music to dance, video, film, computer art, and other interdisciplinary forms. Prereq> Art, Dance or Com Arts major or consent of instructor
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART 342 Watercolor II Credits: 4
Continuation of 242. Prereq> Art 102, 104, 212, 242 & completion of or concurrent registration in Art 108 & 208; or art grad standing; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 343 Metal Fabrication and Welding in Sculpture Credits: 3 - 4
Reviews common welding and metal fabrication techniques available to artists, including various welding processes, brazing techniques, torch work, cutting devices, bending methods, and finishing techniques. Mild steel will be the primary material of exploration. Prereq> Art 214 or Art 244; or art grad status; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ART 344 Art Metal II Credits: 4
Advanced jewelry techniques: exploration of centrifugal lost wax casting, forging, stone setting, and hollow construction. Prereq> Art 104, 212 & 244; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 346 Typography and Communication Design Credits: 4
Foundation course, techniques of typographic design, layout, and printing. Prereq> Art 102, 104, 212 & completion of or con reg in Art 108 & 208; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 348 Introduction to Digital Printmaking Credits: 4
Provides students with fundamental skills in combining had printed and digital output. Hybrid print integrates laser plate, monoprint, collograph, stencil, stamping, and embossment with inkjet output. Focuses on enhancement of digital output through integration of hand printed elements. Prereq> Art 102 or 107, Art 104, 108, 112, 208 and 212. Art Grad status, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 354 Glassworking Credits: 4
Glassworking toward a personal concept of material; lecture and lab. Prereq> Art 102, 104, 212, & completion of or con reg in Art 108 & 208; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 356 Print Production for Graphic Designers Credits: 4
This course explores various principles and techniques used in print production for professional graphic design practice. Prereq> Completion of Art 107 and 346, and one of the following 100, 108, or 208; Art Grad Status; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 366 Stage Lighting I Credits: 3 - 4
Application of lighting design to the stage and natural environment. Color principles, lighting instruments, and control equipment. Production participation and labs. Prereq> So st
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART 372 Set Design I Credits: 3
Principles of composition, scale, perspective, and color applied to the stage; production of ground plans, elevations, sketches, and models. Prereq>
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ART 376 Photography Credits: 3 - 4
Techniques, philosophies, and concepts in photography as an art form. Emphasis on personal expression and relationship to other media. Prereq> Art 102, 104, 212, & completion of or concurrent registration in Art 108 & 208; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
ART 393 Internships in Art Credits: 1
This online course allows students who have found outside art-related internships to earn academic credit in connection with their work experience. Prereq> None
Typically Offered: Fall, Spring, Summer

ART 412 Intermediate Drawing II Credits: 4
Continuation of Art 312. Prereq> Art 312; or Art grad standing; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 414 Art Foundry Credits: 3
Traditional and nontraditional methods of fine art foundry. Prereq> Art 314 and cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Summer

ART 422 Intermediate Painting II Credits: 4
Continuation of 322. Prereq> Art 322 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 428 Computer Imaging Techniques Credits: 4
Techniques of computer image generation, aesthetics of computer-assisted art. Prereq> Art 208 & 328; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 429 3D Digital Studio I Credits: 4
Introduction to three-dimensional modeling in the computer, in particular the use of 3D digital models for the creation of images and objects. Prereq> Art 102, 104, 108, 208 & 212; or art grad st; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ART 438 Cultural Context of Graphic Design and Typography Credits: 4
This course will examine the major developments and changes in graphic design and typography as the fields emerged and defined themselves during the last one hundred years. Prereq> Art 107, Art 108, Art 208, Art 346 and instructor consent
Typically Offered: Spring

ART 441 Advanced Sound Design Credits: 3
Advanced instruction in the production of sound tracks to complement the work of artists in dance, video, film, computer art and other interdisciplinary forms. Prereq> Dance/Art 341
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART 444 Gem Cutting Credits: 2 - 3
Prereq> Art 344 and cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ART 446 Artists' Books Credits: 4
The multiple and sequential visual imagery of the non-printed book, including its design and creation. Prereq> One of the following: Art 306, 316, 326, 336, 346 or 376, or Art grad st, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 448 Special Topics Credits: 1 - 4
Prereq> Varies according to topic
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 452 Intermediate Painting: New Figuration I Credits: 4
The human figure as a source for creative and independent viewpoints in painting and other media. Students work together in the painting studio from a live model and from other figural sources. Prereq> Art 232 & 322; or art grad st; or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART 454 Neon: Light as Sculpture Credits: 4
Introduction to light as sculptural medium including techniques for creating art using luminous tubes. Prereq> Art 354 or cons inst
Typically Offered: Fall, Spring
ART 456 Illustration Credits: 3
Practice of illustration for commercial printing. Prereq> Art 232, 312, and one of the following: 222, 306, 316, 326, 336, and cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

ART 458 Graphic Design for Branding and Identity Credits: 4
This is an advanced graphic design course with an emphasis on corporate brand identity development. Topics can include mark development, product packaging, marketing and advertising collateral, web branding, and broadcast advertising development. Special attention is given the application of semiotics and other forms of basic communication theory to the design process. Prereq> Art 107, Art 108, Art 208, Art 346, and instructor consent
Typically Offered: Fall, Spring

ART 463 Information Graphics Credits: 4
This course examines the theory and practice of visual representation of information. Students will learn to create effective and illuminating graphical displays of data based on four basic formulations -- location, time, category, hierarchy, and index. Prereq> Art 107, Art 108, Art 208, Art 346
Typically Offered: Fall, Spring

ART 465 Graphic Design for Packaging Credits: 4
This course defines the role of packaging in product identification, presentation, and production. The unique challenges of adapting typography, illustration, design and materials to three-dimensional forms are explored. Research includes marketing objectives, structural integrity and display aesthetics. Prereq> Art 107, Art 108, Art 208, Art 346 and instructor consent
Typically Offered: Spring

ART 466 Papermaking: History, Elements and Techniques Credits: 4
Investigation and explanation of papermaking by hand as it relates to printmaking, drawing, and sculpture. History of papermaking stressing the last hundred years. Techniques of the craft, traditional sheet forming and use of paper pulp as pure plastic material with same educational goals as metal, ceramics, and wood. Prereq> Art 102, 104, 112, 212 & completion of or con reg in Art 108 & 208; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ART 469 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART 470 Special Topics in 4D Art Credits: 3 - 4
Topics courses exploring historical, theoretical and studio components surrounding time-based art forms including digital animation, video, installation, and visual art performance. Prereq> Art 318 Introduction to Video, Performance and Installation Art; Graduate status; or consent of instructor
Typically Offered: Fall, Spring

ART 476 Intermediate Photography Credits: 4
Introduction to more advanced printing techniques, large format camera, critical analysis, and discussion of history of photography and current trends. Prereq> Art 208 & 376; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 506 Advanced Relief Printmaking Credits: 4
Emphasis on color problems, surface qualities; studio practice, discussion, critiques. Prereq> Art 208 & 306; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 508 Colloquium in Art Credits: 1
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 511 Art Performance Credits: 3 - 4
An exploration of art genres that often incorporate a form of time-based performance, including but not limited to elements found in theater, dance, music, spoken word/poetry, etc. Prereq> Art 208 and at least one of the following: Art 318, 418, 518; or Grad st; or cons inst
Typically Offered: Occasionally
ART 512 Advanced Drawing I Credits: 4
Drawing course taught in a structured format where students work on various problems/issues in drawing. Prereq> Art 412; or Art grad st; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 514 Advanced Sculpture I Credits: 4
Instruction in the use of plastics, metals, wood, clay, plaster, paint, etc. as required by the individual in terms of the formal and conceptual basis of the work. Prereq> Art 208 & 314; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 516 Advanced Lithography Credits: 2 - 3
(See Art 316). Prereq> Art 316 and cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ART 518 Artist's Video Credits: 4
Principles and techniques in video art. Prereq> Art 208 & 318; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ART 521 Installations and Environments Credits: 4
Studio projects in site-specific art making supplemented by readings and examples of relevant contemporary artists’ work. Prereq> Art 208 and either Art 214 or Art 318; or art grad status; or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ART 522 Advanced Painting I Credits: 4
Technical processes; emphasis on personal expression, concepts, in various approaches to painting. Prereq> Art 422 or 452; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 524 Advanced Ceramics I Credits: 4
Thrown and hand-built forms, clay bodies, glazes, firing, general studio procedure; emphasis on development of personal concepts. Prereq> Art 208 & 324; or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 526 Advanced Etching/Intaglio Credits: 4
Research in advanced intaglio techniques. Color printing. Prereq> Art 208 & 326; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 528 Computer-Mediated Art Credits: 4
Advanced concepts and techniques of the computer in art: interactive work, animation, and kinetic imagery. Prereq> Art 208 & 428; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ART 529 3D Digital Studio II Credits: 4
Intermediate/advanced class covering the theory and practice of 3D digital modeling and animation software as a tool for making art. Prereq> Art 429 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ART 531 Screen Performance Credits: 3 - 4
Focuses on performance made for the screen including first person narrative, spoken word, video dance, fictional cinema, experimental documentary and other forms of mediated performance practice. Prereq> None Typically Offered: Spring

ART 532 Advanced Life Drawing I Credits: 4
Further examination of the percepts of drawing with the human figure. Emphasis on formal elements. Problems of structure. Intense studio practice working from the model. Prereq> Art 332; Art grad st; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 534 Advanced Wood Working Credits: 4
Prereq> Art 334 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
ART 536 Advanced Serigraphy Credits: 4
(See Art 336). Prereq> Art 208 & 336; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 542 Advanced Watercolor I Credits: 4
Transparent and opaque watercolor media; studio practice, critiques, field trips. Prereq> Art 208 & 342; or art grad st; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 544 Advanced Art Metal I Credits: 4
Prereq> Art 208 & 344; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 546 Graphic Design for Publications Credits: 4
This course will cover the theory and practice of designing newspapers, magazines, books, and other narrative forms. Emphasis will be placed on advanced typographic theory, and advanced digital and manual production skills. Prereq> Art 107, Art 108, Art 208, Art 346, and instructor consent
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 548 Special Topics: Advanced Level Credits: 1 - 4
Special Topic in Art - Advanced Level. Prereq> Will vary according to topic. See notes
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 552 Advanced Painting: New Figuration II Credits: 4
Continuation of Art 452. Prereq> Art 452; or art grad st; or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART 554 Advanced Glassworking Credits: 4
Continuation of 354. Prereq> Art 208 & 354; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ART 556 Graphic Design for Interactive Media Credits: 4
This course applies graphic design theory and process to interactive media, including web documents and other forms of electronic publishing. Topics covered include visual design; the fundamentals of website structure and navigation; web typography; accessibility and usability; and writing HTML and CSS. Projects examine the web as a platform for both client-driven and self-published work. Prereq> Art 107, Art 108, Art 208, Art 346
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART 565 Typeface Design Credits: 4
This course will examine conceptual and technical processes used for designing fonts and typefaces in a digital environment. Prereq> Art 107, Art 108, Art 208, Art 346 and instructor consent
Typically Offered: Spring

ART 569 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART 570 Advanced Topics in 4D Art Credits: 3 - 4
Topics courses exploring advanced concepts in historical, theoretical and studio practices in the discipline of time-based art forms, including but not limited to: digital animation, video, installation, and visual art performance. Prereq> Prerequisites include prior completion of Art 470; or graduate status; or consent of instructor
Typically Offered: Fall, Spring

ART 572 Set Design II Credits: 3
Historical survey of visual theatre, painting, and architectural styles adapted to various dramatic forms. Application of design elements and styles to contemporary theatre productions. Prereq> Theatre 372 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART 576 Advanced Photography Credits: 4
Emphasis on advanced techniques, color, personal concepts and expression, criticism, communicative potential of photography. Prereq> Art 476 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
ART 608 Interdisciplinary Critique in the Visual Arts Credits: 3
Group critique for advanced students working in the various disciplines of the visual arts. Prereq> Grad or Sr st and cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ART 612 Advanced Drawing II Credits: 3 - 4
A continuation of 512 (Advanced Drawing I). Prereq> Art 512; or Art grad st; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 614 Advanced Sculpture II Credits: 3 - 4
Continuation of 514. Prereq> Art 514; or Art grad st, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 618 Advanced Artists' Video Credits: 4
Advanced course in the production of contemporary video art, emphasizing editing skills and the use of special effects, as well as critical analysis and theoretical issues. Prereq> Art 518 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 622 Advanced Undergraduate Painting Workshop Credits: 3
Continuation of 522. Prereq> Art 222 & two of the following: Art 322, 422, 452, 522, 552 or 652; & cons inst through competitive portfolio review
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ART 624 Advanced Ceramics II Credits: 4
Continuation of 524. Prereq> Art 524 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 629 3D Digital Studio III Credits: 4
An advanced project based class in 3D Digital Animation. Students will complete a single major animation project based on their own proposal as approved by the instructor. Prereq> Art 529 or cons instr
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ART 632 Advanced Life Drawing II Credits: 3 - 4
Continuation of 532. Prereq> Art 532; pr Art grad st; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 636 Computer Augmented Printmaking Credits: 4
Advanced computer imaging for printmaking. Emphasis is on self-initiated projects that combine printmaking or photographic techniques with digital output. Prereq> Art 356 & one of the following: Art 306, 316, 326, 328, 336, or 376; or cons inst
Typically Offered: Fall

ART 642 Advanced Watercolor II Credits: 4
Continuation of 542. Prereq> Art 542; or art grad st; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 644 Advanced Art Metal II Credits: 4
Prereq> Art 544 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ART 646 Art of the Printed Book Credits: 4
Introduction to the art of the printed book using traditional and state of the art printing processes in a studio format. Prereq> Art 346 and either Art 356 or 446; or cons inst
Typically Offered: Occasionally

ART 652 Advanced Painting: New Figuration III Credits: 4
Continuation of Art 552. Prereq> Art 552; or art grad st; or cons inst
Typically Offered: Fall, Spring
ART 656 Design Portfolio and Professional Practice Credits: 4
Advanced level graphic course designed to prepare senior level students for entrance into the design profession. Portfolio and resume preparation will be the primary emphasis. Legal and professional practice topics also will be addressed. Prereq> Art 346, 428, 546 or 556; and cons inst
Typically Offered: Occasionally

ART 660 Art and Technology Credits: 4
An advanced seminar/studio class dealing with theoretical and aesthetic issues relating to the use of technology in contemporary art practice. Readings, and lectures will prepare students for weekly discussions. Each student will complete one research project and one studio project. Prereq> One of the following: Art 420, Art 428, Art 429, Art 458, Art 518, Art 528, Art 529, Art 636, or cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring

ART 669 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Level: Advanced
L&S Credit: Counts for LAS credit
Typically Offered: Occasionally

ART 674 Selected Topics on Afro-American Artists Credits: 3
Works of Black artists in the U.S. discussed historically in terms of movements which they created and in terms of trends evolving on an international scale. Jr st and cons inst. Prereq> Jr st and cons inst
Ethnic Studies: Yes
L&S Breadth: Humanities
L&S Level: Advanced
L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring

ART 699 Independent Study Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced
L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring, Summer

ART 700 Introduction to Graduate Studies in Art Credits: 3
Introduction to graduate study in art. Will explore the relationships between the contemporary art world, research and studio practice, theoretical issues, and education in the arts. Also addresses building and sustaining a career in the arts. Prereq> First Year Art Grad st
L&S Credit: No degree credit in L&S
Typically Offered: Fall

ART 722 Graduate Painting I Credits: 2 - 3
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 726 Graduate Intaglio Printmaking I Credits: 2 - 3
Refinement of advanced intaglio methods; exploration toward and individual and mature imagery in graphics materials. Prereq> Art 526 and cons inst
Typically Offered: Occasionally

ART 736 Graduate Graphics Workshop I Credits: 2 - 6
Open to experienced graphics students; all graphics media available; emphasis on development of personal concepts; individual conferences. Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 826 Graduate Intaglio Printmaking II Credits: 2 - 3
Continuation of 726. Prereq> Art 726 and cons inst
Typically Offered: Occasionally

ART 836 Graduate Graphics Workshop II Credits: 2 - 6
Continuation of 736. Prereq> Art 736 and cons inst
Typically Offered: Occasionally

ART 908 Seminar-Art Credits: 3
Prereq> Grad st and cons inst
Typically Offered: Fall, Spring, Summer

ART 912 Advanced Research-Drawing Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally
ART 914 Advanced Research-Sculpture Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 922 Advanced Research-Painting Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 924 Advanced Research-Ceramics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 942 Advanced Research-Watercolor Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 944 Advanced Research-Art Metal Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 996 Advanced Research-Graphics Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART 999 Independent Study Credits: 1 - 4
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ART EDUCATION (DEPT OF ART)

ART ED 322 Information Design for Visual Learning Credits: 3
Building a foundation in art, design, and visual culture, students will develop information design skills enabling them to create visual presentation tools using a wide variety of digital software and hardware as well as traditional media for instruction and learning. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ART ED 323 Art in Elementary Education Credits: 3
Basic principles and problems in teaching art; basis for an understanding and evaluation of children's art work. Prereq> Jr st & adm to Elem or Art TC Prog, or Educ Spec, or cons inst. May not be taken con with Curric/ Art Ed 324
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ART ED 324 Art in Secondary Education Credits: 3
Methods and philosophies of teaching art; problems in implementing theories in practical situations in junior and senior high schools. Prereq> Jr st & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ART ED 325 Computers in Elementary and Secondary Art Education Credits: 3
Application of computers in elementary and secondary art education for studio and instructional purposes. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

ART ED 326 Design Education Credits: 3
Study and application of information, environment, object, and experience design to K-12 art education. L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

ART ED 423 Student Teaching in Art in Elementary Schools Credits: 2 - 6
Prereq> Art Ed, Curric 323
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
ART ED 424 Student Teaching in Art in Secondary Schools Credits: 2 - 6
Prereq> Art Ed, Curric 324
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ART ED 470 Practicum in Elementary School Art Credits: 3
Selection of appropriate instructional materials and their application to a practical problem in teaching to selected students. Prereq> Jr st & cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

ART ED 493 Practicum in Secondary School Art Credits: 3
Observation and instruction of elementary and secondary pupils in a laboratory setting. Lecture and discussion of topics related to art instruction. Prereq> Art Ed 323 & 470
L&S Credit: No degree credit in L&S Typically Offered: Fall

ART ED 557 Learning Through Design Credits: 3
Study of design fields (information design, environmental design, and experience design) in order to identify, examine, and research how designers create objects that enhance experiences with respect to learning, work, and leisure. Prereq>
L&S Credit: No degree credit in L&S Typically Offered: Fall, Summer

ART ED 570 Art in Exceptional Education Credits: 3
Approaches to developing programs and teaching art to exceptional students in public schools, special schools, and community institutions. Prereq> Jr st & 3 cr in studio art, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

ART ED 699 Independent Reading and Research Credits: 1 - 3
Prereq> Second sem Sr and cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ART ED 900 Contemporary Practices in Art Education Credits: 3
Typically Offered: Occasionally

ART ED 951 Seminar in Art Education Credits: 3
Examination and analysis of ideas and studies in art education and related areas preparatory to formulating research problems. Prereq> Grad st & cons inst
Typically Offered: Occasionally

ART ED 999 Advanced Independent Reading Credits: 1 - 3
Prereq> Grad st and cons inst
Typically Offered: Occasionally

COUNSELING PSYCHOLOGY

COUN PSY 105 Human Resources Develop: Awareness Processes-Cnsl&Guid Perspective Credits: 1
Didactic and experiential learning and exploration to provide basic understanding of inter- and intrapersonal relations. Topics include values clarification, information acquisition, skill acquisition, human relations, self-understanding, self-development, and self-evaluation. May be repeated. See Timetable for section emphasis. Prereq> Cons inst. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

COUN PSY 110 Human Resources Development: Career Strategies Credits: 1
Exploration and vocational development through didactic and experiential learning. Career education concerns the place and value of work in the individual's life span and style--development and assessment of self, an understanding of the world of work, and facilitation of decision-making, planning, and preparation. May be repeated. See Timetable for section emphasis. Prereq> Cons inst. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

COUN PSY 115 Human Resources Development: Educational Effectiveness Credits: 1
Exploration of personal, institutional, and community resources that optimize academic success and persistence. Utilizes didactic and experiential methods to develop higher level learning, skill, and understanding. May be repeated. See Timetable for section emphasis. Prereq> Cons inst. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
COUN PSY 125 A Wisconsin Experience Seminar Credits: 1
Examine transition to UW Madison through exploration of the research university and the Wisconsin Experience. A variety of texts, including a novel and textbook will provide a context for discussion, writing, and experiential assignments. Twelve students per section, supportive environment. Prereq> Open to Fr or transfers only
L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COUN PSY 225 Coming to Terms with Cultural Diversity: Invitation to Dialogue Credits: 3
This course is designed as an introduction to social issues raised by global and national trends toward heightened contact among persons from diverse social and cultural groups. It will fulfill the ethnic studies requirement for University of Wisconsin undergraduates. Prereq> Open to Fr
Ethnic Studies: Yes L&S Breadth: Social Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COUN PSY 325 Seminar: Students Seeking Educational Equity and Diversity (SEED) Credits: 3 - 4
Students use personal experiences, readings, and discussions as frameworks for interrogating social, cultural, and political inequities. Students engage in dialogues and experiential activities about social differences to promote critical consciousness and intercultural competence across disciplines. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

COUN PSY 350 Peer Leadership and Mentorship with Transitioning Students Credits: 1
Examines student development in the first college year and strategies upper class students can utilize to be effective leaders and mentors of new students. Course textbook provides foundation for discussion, writing, and experimental assignments. Prereq > Open to sophomores and above
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

COUN PSY 620 Special Topics in Counseling and Guidance Credits: 1 - 6
Instruction and/or practice in specialized counseling approaches, strategies, and techniques; working with various populations of clients served by counselors. Prereq> Jr st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

COUN PSY 625 Guidance of Talented Students Credits: 3
For teachers, counselors, and administrators of talented school age children. How to more effectively assess personal and social aspects of pupil learning needs and provide relevant interventions in order to facilitate personal and social development. Case study approach to assessment emphasized. Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Summer

COUN PSY 650 Theory and Practice in Interviewing Credits: 3
Theoretical bases for conducting interviews; types of interviewing; introduction to counseling and interviewing techniques. Limited opportunity to practice. Prereq> Jr st
L&S Breadth: Social Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COUN PSY 665 Career Development Throughout the Life Span Credits: 3
For educators and students preparing for teaching, counseling, and administrative positions. Relationships among education, work and life style as well as factors influencing individual career development; rationale for career education and application of Wisconsin and other state models; strategies for development and evaluation of career education/ career guidance programs and activities. Prereq> Jr st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Summer

COUN PSY 699 Independent Reading Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

COUN PSY 719 Introduction to Qualitative Research Credits: 3
Provides an overview of qualitative inquiry, examining assumptions, standards, and methods for generating and communicating interpretations. Methodological and theoretical works illustrate case study, ethnography, narrative, and action research. This course does not include a field method component. Prereq> Grad st
Typically Offered: Occasionally

COUN PSY 726 Ethnic and Racial Diversity in Social Development Credits: 3
Review of empirical and theoretical research on ethnic/racial diversity in social development across childhood, adolescence and early adulthood with emphasis on implications for counseling and school psychology. Prereq> Counseling psych or ed psych department major or consent of instructor
Typically Offered: Occasionally
COUN PSY 729 Advanced Social Psychology Credits: 3
Intensive examination of theoretical conceptions in contemporary social psychology, including learning-theoretic, reinforcement, incentive, cognitive, and psychodynamic approaches, and research in selected topic areas reflecting these approaches, such as aggression, attitude formation and change, conformity, limitation and modeling, interpersonal attraction, perception of others, prosocial behavior, and social influence. Prereq> Grad st or Sr st and cons inst
Typically Offered: Occasionally

COUN PSY 730 Professional and Ethical Issues in Counseling Credits: 3
Designed to prepare mental health professionals to think and act in an ethical manner in all of their professional activities. Examines the interplay between legal and ethical issues in mental health counseling. Students will learn the major ethical guidelines of the American Counseling Association (ACA). Prereq> Department major or consent of instructor
Typically Offered: Fall, Spring, Summer

COUN PSY 735 Legal and Ethical Bases of Counseling and Psychology Credits: 3
Legal and ethical issues for psychologists, with an emphasis on the APA ethics code and Wisconsin statutes relevant to psychological research and practice. Prereq>
Typically Offered: Fall

COUN PSY 736 Seminar in Psychology of Individual Differences Credits: 3
Graduate-level seminar in the psychology of individual differences, providing broad and general coverage of theory and research related to individual and cultural differences. Prereq>
Typically Offered: Fall

COUN PSY 737 Seminar in History and Systems of Psychology Credits: 3
Graduate-level seminar in the history of psychology, providing broad and general coverage of the development of psychology as a scientific discipline. Includes coverage of philosophy of science and systems of psychological inquiry, with applications to current research in psychology. Prereq>
Typically Offered: Summer

COUN PSY 788 Qualitative Research Methods in Education: Field Methods I Credits: 3
Introductory field methods experience in qualitative research. Students will learn to define good research questions, determine which methods of data collection and analysis are useful for addressing those questions, engage in these methods, reflect on their utility in education research. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 719 or cons inst
Typically Offered: Spring

COUN PSY 789 Qualitative Research Methods in Education: Field Methods II Credits: 3
Focus on data analysis and translation of finds and implications. Students will gain theoretical and practical knowledge and skills regarding coding and analysis techniques, use of qualitative analytic tools, strategies for sharing findings with audiences beyond research team. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 788
Typically Offered: Spring

COUN PSY 791 Foundations of Clinical Mental Health Counseling Credits: 3
History & development of profession; professional ethics; credentialing; major theories & models; roles; and principles including prevention, intervention, consultation, education, advocacy, & systems promoting mental health and well-being. Prereq> Dept major or consent of instructor
Typically Offered: Occasionally

COUN PSY 800 Theories of Counseling Credits: 3
Historical and philosophical foundations of counseling. Examination of individual counseling theories, research, roles and practices within the counseling profession. Prereq> Dept major or cons inst
Typically Offered: Occasionally
COUN PSY 801 Assessment and Testing in Mental Health Counseling Credits: 3
Reviews the procedures, approaches, theories, and applications associated with the educational and psychometric appraisal of groups and individuals; methods for collecting and evaluating data including validity, reliability and other psychometric properties; social and cultural and other factors associated with evaluating individuals and groups.
Prereq> Dept major or consent of instructor; course in measurement or statistics
Typically Offered: Occasionally

COUN PSY 802 Theory and Practice of Group Work for Counselors Credits: 3
Theoretical postulates and applied strategies in group work as used by professional counselors; includes group laboratories. Prereq> Couns Psy 800 & 805 or cons inst
Typically Offered: Occasionally

COUN PSY 803 Guidance Program Planning and Management Credits: 3
Consultation and guidance program planning and management from an institutional perspective. Special emphasis given to students at risk and legal and ethical aspects of counseling in K-12 settings. Prereq> Dept majors or cons inst
Typically Offered: Occasionally

COUN PSY 804 Research in Guidance and Counseling Credits: 3
Critiquing research and developing essential research and evaluation skills. Students are expected to complete the initial stages of the research required for their degree. Prereq> Statistics crse & dept major or cons inst
Typically Offered: Occasionally

COUN PSY 805 Helping Relationships and Techniques Credits: 3
Understanding and development of basic and advanced helping, interviewing, and counseling skills; consultation theory and application; development of counselor and client self understanding; facilitation of client or consultee change. Prereq> Department major or consent of instructor
L&S Credit: No degree credit in L&S
Typically Offered: Occasionally

COUN PSY 806 Supervised Practicum in Counseling I Credits: 3
Prereq> Dept major, Couns Psy 800, 805 & Master's prgm approval
Typically Offered: Occasionally

COUN PSY 807 Supervised Practicum in Counseling II Credits: 2 - 5
Continuation of 806. Prereq> Couns Psy 802, 665, or 865, 806 & Master's prgm approval
Typically Offered: Occasionally

COUN PSY 808 Supervised Practicum in Counseling III: Advanced Credits: 2 - 5
Continuation of 807. Prereq> Couns Psy 807 & Master's prgm approval
Typically Offered: Occasionally

COUN PSY 810 Masters Level Internship in Counseling and Guidance Credits: 1 - 9
Full-time involvement. Various assignments. Requires participation in a concurrent seminar. Prereq> Couns Psy 808 & Master's prgm approval
Typically Offered: Occasionally

COUN PSY 825 Counseling Psychology Techniques With Families Credits: 3
Approaches to counseling intervention for families across the life-cycle. Specific attention paid to family stress.
Prereq> Dept major or cons inst
Typically Offered: Occasionally

COUN PSY 850 Consultation Procedures for Counselors Credits: 3
A systematic investigation of and the application of consultation procedures for counselors in educational, community, and rehabilitative agencies. Consultation as applied with individuals and organizational structures.
Prereq> Cons inst
Typically Offered: Occasionally

COUN PSY 855 Student Development Theory in the Practice of Student Affairs Credits: 1 - 3
Follows the development of college students from pre-entry through graduation from various student perspectives-traditional, under represented, international, disabled and returning adult. Prereq> Couns psych or ed admin dept major or cons inst
Typically Offered: Occasionally
COUN PSY 860 Multicultural Counseling Credits: 3
Essential aspects of the cultural adaptation process as applied to counseling interventions with culturally/ethnically diverse client populations. Prereq> Dept major or cons inst
Typically Offered: Occasionally

COUN PSY 865 Theory and Practice of Career Intervention Credits: 3
Theoretical foundations and principles relating to practice of career counseling, career guidance, and career education for professional counselors. Prereq> Grad st in counseling or couns psych or cons inst
Typically Offered: Occasionally

COUN PSY 890 Advanced Assessment Techniques in Counseling Psychology Credits: 3
Methods commonly employed by counseling psychologists in the assessment of the problems of living of normal adults. Diagnostic assessment and assessment of career interests, personality, behavior, and social environment. Development of written individual assessment reports. Prereq> Couns Psy 801 or equiv; doctoral st in counseling, rehabilitation or school psychology or related studies; or cons inst
Typically Offered: Occasionally

COUN PSY 900 Counseling Psychology Practicum--Foundational Credits: 2 - 6
Foundational practicum and seminar in counseling psychology. Prereq> Couns Psych 808 or equiv, Ph.D. prgm approval. Lec 1: Foundational Lec 2: Advanced (2 sem of lec 1)
Typically Offered: Occasionally

COUN PSY 901 Couns Psych Pract: Group Counseling, Consultation, College Teaching Credits: 2 - 6
Supervised practice in group counseling, consultation, and/or college teaching with a focus on psychosocial development and human relations. Prereq> Cons inst & Couns Psy 952 for grp couns; Couns Psy 850 for consultn. Majors in coun psych, rehab psych, school psych or minor in CP
Typically Offered: Occasionally

COUN PSY 902 Counseling Psychology Practicum in Supervision Credits: 2 - 6
Practicum in supervising counselor trainees in laboratory and field settings. Prereq> Couns Psy 900 & 953, or cons inst. May be repeated
Typically Offered: Occasionally

COUN PSY 903 Counseling Psychology Practicum--Advanced Credits: 3
Advanced practicum and topical seminar in counseling psychology. Prereq> Coun Psy 900
Typically Offered: Fall, Spring

COUN PSY 904 Counseling Psychology Externship Credits: 1 - 3
Advanced training in counseling psychology assessment, intervention, and/or supervision. Prereq> Coun Psy 903, sufficient progress toward degree completion (e.g., preparation for preliminary examination, progress on disseration)
Typically Offered: Fall, Spring

COUN PSY 905 Research Practicum in Counseling Psychology Credits: 3
Supervised research experience in the field of counseling psychology. Students will read about, discuss, and practice research skills that are critical at various phases of the research design and implementation process. Prereq> Coun Psy 950, 1 course in Introductory Statistics
Typically Offered: Fall, Spring

COUN PSY 920 Workshop in Counseling Psychology Credits: 1 - 3
(May be repeated.) Problems and areas of inquiry, especially for in-service and continuing education of practicing student personnel workers and those in related fields. Prereq> Cons inst
Typically Offered: Occasionally

COUN PSY 925 Seminar in Counseling Psychology Credits: 3
History, ethical and professional issues and problems, and current status of the psychological specialty of counseling psychology. Prereq> Couns psych or rehab psych & special ed majors or cons inst
Typically Offered: Occasionally
COUN PSY 926 Legal and Ethical Bases of Counseling Psychology Credits: 3
Examination of ethical codes, statutes, administrative rules, standards for providers, and cases which regulate the practice of professional psychology and the role of the counseling psychologist. Prereq: Dept Ph.D. stdts or cons inst
Typically Offered: Occasionally

COUN PSY 944 Internship Preparation Credits: 1
Primary goal of this course is to help students in Counseling Psychology, Rehabilitation Psychology & Special Education, and the School Psychology Program prepare for their internship by providing recourses, guidelines, and support in selecting and applying to internship sites. Prereq: Dissertator status in the department
Typically Offered: Fall

COUN PSY 950 Research Methods in Counseling Psychology Credits: 2 - 3
Historical, philosophical, descriptive, experimental, case-study and other models of research in counseling psychology. Prereq: Dept Ph.D. stdts & Ed Psych 760 or equiv; or cons inst
Typically Offered: Occasionally

COUN PSY 951 Counseling Psychology Research in Individual Intervention Credits: 2 - 3
Theory and research related to the counseling dyad. Prereq: Couns Psy 950 or cons inst
Typically Offered: Occasionally

COUN PSY 953 Counseling Psychology Research in Training and Supervision Credits: 2 - 3
Theory and research in the preparation and supervision of counselors and counseling psychologists. Prereq: Couns Psy 900 & 950 or cons inst
Typically Offered: Occasionally

COUN PSY 954 Seminar: Topical Research in Counseling Psychology Credits: 2 - 3
Special topics in counseling psychology are announced each semester and listed in the Timetable. Prereq: Couns Psy 950 or cons inst
Typically Offered: Occasionally

COUN PSY 956 Seminar: Research in Vocational Psychology and Career Development Credits: 2 - 3
Theory and research in vocational behavior and career development. Prereq: Couns Psy dept major & Couns Psy 665 or equiv; or cons inst
Typically Offered: Occasionally

COUN PSY 958 Psychopathology: Diagnosis and Intervention in Counseling Psychology Credits: 3
This course covers the psychological science of abnormal psychology, including etiology, manifestation, diagnosis and treatment of mental health disorders. The course emphasizes research on developmental psychopathology and cultural issues in assessment and diagnosis.
Typically Offered: Summer

COUN PSY 960 Research Methods in Counseling Psychology, II Credits: 3
Advanced training in research methods in counseling psychology to build skills in conceptualization, research design, data analysis and interpretation. Prereq: Coun Psy 950, Ed Psych 761 or equiv
Typically Offered: Fall

COUN PSY 990 Research or Thesis Credits: 1 - 12
Prereq: Grad st
Typically Offered: Occasionally

COUN PSY 995 Predoctoral Internship Credits: 0
Registration for Ph.D. students who have successfully defended the dissertation and are in the process of completing the required predoctoral internship. Prereq: Successful dissertation defense
Typically Offered: Fall, Spring, Summer

COUN PSY 999 Independent Reading Credits: 1 - 3
Prereq: Grad st
Typically Offered: Occasionally

CURRICULUM AND INSTRUCTION
CURRIC 207 Practicum in Teaching Chinese Credits: 2
Systematic observation and participation in classes of Chinese language in the schools. Prereq> Jr st or cons inst; con reg in Curric 307; appl on file in Fld Exper Off, 109 Education
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 208 Practicum in Teaching Japanese Credits: 2
Systematic observation and participation in classes of Japanese language in the public schools. Prereq> Jr st or cons inst; con reg in Curric 308; appl on file in Fld Exper Off, 109 Education
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 209 Digital Media and Literacy Credits: 3
This course is about digital media in all of its forms - from Wikipedia to YouTube mashups to mobile apps - and how these new ways of doing and making are related to learning. Over the course of semester we will explore theories of knowing and learning as they relate to digital media. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 240 Critical Aspects of Teaching, Schooling, and Education Credits: 3
This course investigates aspects of social justice and equity as they relate to teaching, schooling and education. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 243 Practicum in World Languages (K-12) Credits: 3
Systematic observation and participation in world language classes (French, German, or Spanish) in the public school. Prereq> Adm to K-12 world lang educ prog; passing the oral proficiency exam in target lang; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 255 Practicum in Latin Credits: 3
Introduces prospective Latin teachers to first-hand experience of high school teaching. Systematic observation of high school language and culture courses and participation in a range of instructional activities. Prereq> Admission to the Latin teacher cert prog. Con reg in Curric 355
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 277 Videogames & Learning Credits: 3
Explores current research on videogames and learning. Students critically reflect on the intellectual and educational merits and drawbacks of videogames and how videogame culture shapes how individuals think and learn. Prereq> Sophomore standing
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CURRIC 290 Practicum in Secondary Science Education Credits: 3
School-based experiences in science classes prior to student teaching. Attention given to planning, instruction, laboratory management and evaluation. Prereq> Adm to secondary science educ prog
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 296 Practicum in Secondary School English Credits: 3
Systematic observation and involvement in English instruction, grades 6-12. Prereq> Adm to secondary English educ prog
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 300 Introduction to Music Education Credits: 2
Introduction to the field of music education, including philosophy, history, and current practices and trends. Survey of music education in and out of schools as situated within diverse, pluralistic communities. Prereq> Concurrent enrollment in CURRIC/MUSIC 303
L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CURRIC 301 Music Learning and Teaching 1 Credits: 2
The learning and teaching of music at the elementary and middle school levels. Prereq> Successful completion of CURRIC/MUSIC 300. Admission to the music education certification program. Concurrent enrollment in CURRIC/MUSIC 337
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
CURRIC 302 Music Learning and Teaching 2 Credits: 2
The learning and teaching of music at the high school level. Prereq> Successful completion of CURRIC/MUSIC 301 with a grade of "C" or higher. Concurrent enrollment in CURRIC/MUSIC 337
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CURRIC 303 Fieldwork in Music Communities Credits: 1
Fieldwork in music communities in the Madison area. Prereq> Must be taken concurrently with CURRIC/MUSIC 300
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CURRIC 304 Composition, Arrangement, and Orchestration for the Music Teacher Credits: 2
Introduction to the teaching of musical composition, arrangement, and orchestration. Special emphasis on how music technologies interact with conceptions of composition, arrangement, and orchestration; implications for music learning and teaching. Prereq> Successful completion of MUS-PERF 104 or equivalent
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CURRIC 305 Integrating the Teaching of Reading with Other Language Arts Credits: 3
Theory, research and instructional practices supporting the teaching of reading, writing, speaking and listening skills in an integrated curriculum from kindergarten through grade twelve. Prereq> SPE, Com Dis, Art Ed, Mus Ed, Phy Ed, or cons inst. SPE, con reg in Curric 370 & 374 required
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 306 Methods in Teaching Chinese Credits: 3
Methods of teaching Chinese language in elementary and secondary schools. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

 CURRIC 307 Methods in Teaching Japanese Credits: 3
Methods of teaching Japanese language in elementary and secondary schools. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 308 Methods in Teaching Chinese Credits: 3
Prepares prospective teachers of children 8/9 to 12/13 to teach reading and writing across all content areas. Prereq> Admission to the MC-EA Content Area Focused Elementary Education Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 309 Methods in Teaching Japanese Credits: 3
Exploration of ways teachers foster student learning through writing, speaking and listening; focus on process approaches to learning, cooperative learning, classroom discourse, journal use, learning logs, and language use of diverse learners. Prereq> Admission to secondary certification progm. Con reg in same section of Curric 537
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 310 Language Acquisition and Use In and Out of Schools, Middle Childhood through Early Adolescence Credits: 3
Focuses on forms and features of English language, and language used in and out of schools. Students explore theories of second language acquisition, school-based language practices, and how to support language development for English learners. Prereq> Admission into the MC-EA program
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 311 Language Acquisition and Use In and Out of Schools, Middle Childhood through Early Adolescence Credits: 3
This course addresses social, cultural, and educational issues related to schooling for young English learners. It provides an overview of multiple factors that impact teaching and learning for these students. These issues include (but are not limited to): theories relating to language use and learning; registers and varieties of English; program structures and designs; school and classroom environments, and connections between families and schools. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 312 ESL/Bilingual Issues Credits: 3
Surveys critical issues related to literacy for early childhood teachers including early literacy and language learning, insights into cultural differences related to literacy and language, and knowledge of the social dimensions of literacy. Prereq> Acceptance into the elementary education program
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 313 Language and Literacy Across the Secondary Curriculum Credits: 3
Exploration of ways teachers foster student learning through writing, speaking and listening; focus on process approaches to learning, cooperative learning, classroom discourse, journal use, learning logs, and language use of diverse learners. Prereq> Admission to secondary certification progm. Con reg in same section of Curric 537
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 314 Becoming Literate in and out of Schools Credits: 3
Surveys critical issues related to literacy for early childhood teachers including early literacy and language learning, insights into cultural differences related to literacy and language, and knowledge of the social dimensions of literacy. Prereq> Acceptance into the elementary education program
L&S Credit: No degree credit in L&S  Typically Offered: Fall
CURRIC 315 Reading and Writing Across the Curriculum in Early Childhood Credits: 3
Provides early childhood educators with information, strategies, and activities for instructing young children with literacy. Teachers explore the multiple sources of information that young readers must orchestrate as they learn to read. Prereq> Curric 314
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 316 ESL/Bilingual Methods Credits: 3
Designed to help students identify/develop methodological approaches and techniques that coordinate instructional practice with current theories on language and learning. Students will develop criteria for designing, implementing, and evaluating appropriate lessons and materials that integrate with classroom curricula and goals. Prereq> Admission to the Middle Childhood-Early Adolescence (MC-EA)/ESL Certification Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 317 Dimensions of Literacy Credits: 3
Surveys critical literacy issues for elementary teachers. Provides understandings related to literacy and language learning, insights into cultural differences related to literacy and language, and knowledge of the social dimensions of literacy. Addresses various theories that inform literacy teaching including deficit versus strength models of literacy learning, meaning-based models, systematic instruction, and sociocultural approaches. Prereq> Admission to the Middle Childhood-Early Adolescence (MC-EA)/ESL Certification Program
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 318 Teaching Reading and Writing Credits: 3
Designed to provide elementary educators with information and instructional strategies to support literacy learning. Addresses a wide range of literacy abilities including reading, writing, comprehending, and decoding. Focuses on the continuing developmental processes associated with becoming competent readers and writers. Prereq> None
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 322 Information Design for Visual Learning Credits: 3
Building a foundation in art, design, and visual culture, students will develop information design skills enabling them to create visual presentation tools using a wide variety of digital software and hardware as well as traditional media for instruction and learning. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 323 Art in Elementary Education Credits: 3
Basic principles and problems in teaching art; basis for an understanding and evaluation of children's art work. Prereq> Jr st & adm to Elem or Art TC Prog, or Educ Spec, or cons inst. May not be taken con with Curric/ Art Ed 324
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 324 Art in Secondary Education Credits: 3
Methods and philosophies of teaching art; problems in implementing theories in practical situations in junior and senior high schools. Prereq> Jr st & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 325 Educating Young English Learners Credits: 3
Addresses social, cultural, and educational issues related to schooling for young English learners. Provides an overview of multiple factors that impact teaching and learning for these students. Prereq> Acceptance to the EC-ESL Certification Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 326 Language Use and Acquisition in Early Childhood Credits: 3
Students will become familiar with aspects of forms and features of the English language, and language use in and out of schools. Analysis of language learning and use across settings provides tools to enhance practice. Prereq> Admission to the EC-ESL Certification Program
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 327 Methods of Teaching Young English Learners Credits: 3
This course is designed to help students identify, develop and implement methodological approaches and techniques for teaching English learners that coordinate instructional practice with current theories on language and learning. Prereq> Admission to Early Childhood-ESL Certification Program
L&S Credit: No degree credit in L&S  Typically Offered: Spring
CURRIC 328 Artistic Lives of Children Credits: 3
Prepares prospective teachers of children ages 4/5 to ages 8/9 to teach about the arts and to develop children’s artistic selves. Prereq> Admission to the Early Childhood/English as a Second Language Elementary Education Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 330 Practicum in Family and Consumer Education Credits: 2
Systematic observation and involvement in family and consumer sciences instruction. Prereq> Adm to fam & consumer educ teacher cert prog
Typically Offered: Spring

CURRIC 332 Teaching Choral Music in the Secondary School Credits: 2
Materials and methods; organizing and administering the choral program; effective teaching and rehearsal techniques for choral groups. Prereq> Admission to Music Ed; con reg in Curric 337; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 337 Practicum in Teaching Music Credits: 1
Observation and participation in K-12 music education settings. Prereq> Admission to Music Education; concurrent registration in CURRIC/MUSIC 301 or CURRIC/MUSIC 302
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CURRIC 338 The Language of Schooling Credits: 3
Addresses aspects of forms, features and functions of the English language, including an understanding of multiple varieties and registers of English, and how language use functions in and out of schools. Attention to the use of dual/multiple languages by emergent bilinguals, relationships between first and additional languages, and supporting students to develop repertoires that include forms of language for school success. Prereq> Admission to the Middle Childhood- Early Adolescence (MC-EA)/ESL Certification Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 339 Cultural Foundations of Learning and Development Credits: 3
Addresses core ideas of learning theory and human development focusing on the middle childhood population. Explores how learning and development are necessarily situated in local and global contexts, offering a cultural frame for understanding the work of teachers. Prereq> Admission to the Middle Childhood-Early Adolescence (MC-EA)/ESL teacher certification program
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 340 Elementary Education Practicum One Credits: 3
In this practicum and its corresponding seminar, students explore the various relationships among education, curriculum, and instruction across contexts of home, community and school. Practica sites are in preschools, neighborhood centers, and after-school sites serving children from diverse backgrounds. Prereq> Admission to the elem educ prog
Typically Offered: Fall, Spring

CURRIC 342 Teaching World Languages (K-8) Credits: 3
An undergraduate course in semester two or three of a four-semester certification sequence; success in first semester courses as well as ‘Intermediate High’ minimum oral proficiency level in the target language are required. Prereq> Adm to French, German or Spanish TC prog & con reg in Curric 243; passing oral proficiency exam
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 343 Teaching World Languages (6-12) Credits: 3
Theories, principles, and practical applications of instructional strategies and curriculum development for teaching a world language (Spanish, German, French, etc.) in secondary schools. Prereq> Adm to world lang TC prog & con reg in Curric 243; passing the oral proficiency exam in target lang; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 344 Teaching Vocal Styles in the Music Classroom Credits: 1
Introduction to the teaching and learning of diverse vocal styles. Special emphasis on what makes each style distinct, as well as the acquisition practices associated with each style. Prereq> None
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring
CURRIC 348 Teaching of Hebrew Credits: 2
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 354 Teaching Music Credits: 3
Development of musical skills and understandings. Ways of including music in the curriculum. Prereq> EED and completion of previous sequence coursework
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 355 Teaching of Latin Credits: 2
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 358 Practicum in Social Studies in the Secondary School Credits: 3
Prereq> Adm to secondary social studies educ prog
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 359 Teaching of History and the Other Social Studies Credits: 3
Prereq> Admission to intern program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 361 Practicum in Mathematics in the Secondary School Credits: 3
Observation and participation in high school and middle school mathematics classes. Students assume some responsibility for planning and instruction in a class. Prereq> Adm to secondary math educ prog
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 362 Drama in Education Credits: 3
Introduction to philosophy, methodologies, and practice of drama in education. Includes demonstrations and practice teaching with children. Prereq> So st
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CURRIC 363 Practicum in Early Childhood Education in Kindergarten Credits: 1 - 3
For undergraduate preschool-kindergarten majors. Reserve two mornings, two afternoons, or one day for observation-participation in classrooms. Prereq> C&I 550 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 364 Introduction to Education Credits: 3
Nature of teaching; fundamental issues which confront the teacher and bases for making decisions; overview of the program, field trips to educational sites. Prereq> EED
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 365 Teaching Mathematics in Inclusive Settings Credits: 4
Designed to introduce preservice teachers to a variety of approaches for teaching mathematics to students in inclusive schools. Prereq> Admission to certification program or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 367 Elementary Teaching Practicum II Credits: 3
Students will observe, supervise small groups, develop lesson plans for instruction, and teach a series of lessons in the related subject matter of reading, language arts, children's literature, and inclusive schooling. Prereq> EED; Curric 364
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 368 The Teaching of Reading Credits: 2
This course examines the psycholinguistics of reading; reading in social and cultural contexts in schools, families, communities, and workplaces; and the politics of reading. The course provides strategies for teaching all children to read. Prereq> Admission to the Middle Childhood to Early Adolescent Content Area Focused Elementary Education Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
CURRIC 369 The Teaching of Language Arts Credits: 2
This course focuses on written and oral language development of children from infancy through early adolescence. It explores the cognitive, social, cultural, and political implications of literacy education. Prereq> Admission to the Middle Childhood to Early Adolescent Content Area Focused Elementary Education Program General Education: COM B L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 370 Teaching Mathematics Credits: 3
Students in this course investigate the mathematics in the elementary school curriculum, how critical mathematics concepts and skills are learned, and how those concepts can be taught. Prereq> Math 130, 131; EED (completion of previous sequence coursework) or SPE
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 371 Teaching Social Studies Credits: 3
This course examines recent trends in the field of social studies. Students are challenged to develop social studies curricula and instructional strategies that help prepare children for active citizenship in a democratic, multicultural, technological society. Prereq> EED and completion of previous sequence coursework
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 372 Teaching Science Credits: 3
Students will explore how children learn science, how to create classrooms where children learn to inquire, and how to assess children's learning. Students will conduct their own inquiries as the basis for considering these issues. Prereq> EED and completion of previous sequence coursework
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 373 Elementary Teaching Practicum III Credits: 3
Students will observe, supervise small groups, develop lesson plans for instruction, and teach a series of lessons relating theories of learning with the subject matter of mathematics and art. Prereq> EED; Curric 367, 368, 369, 422 & Curric/RP & SE 506
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 374 General Educ Practicum & Instructional Planning for Diverse Learners Credits: 2 - 5
In this practicum and seminar students develop lesson plans, design an integrated curriculum unit, and employ active and collaborative learning strategies in general education classrooms. Prereq> Adm to Spec Educ TC Prog; Jr st & con reg in Curric 305 & 370
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 375 Proseminar Credits: 1 - 3
An ad hoc seminar for the exploration of new frontiers in curriculum and instruction. Prereq> None
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 390 Teaching of Science in Secondary Schools Credits: 3
Prereq> Admission to Secondary Science Certification Progm. Con reg in Curric 290 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 393 The Teaching of Secondary School Mathematics I Credits: 3
This course provides an introduction to issues associated with mathematics curriculum and instruction in secondary schools. Instructional strategies, classroom management, and assessment of learning are examined in the context of current and reformed curricula. Prereq> Adm to secondary program
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 394 The Teaching of Secondary School Mathematics II Credits: 3
This secondary methods course provides a more indepth examination of the issues associated with mathematics curriculum and instruction in secondary schools. A special emphasis is on curriculum choices and assessment practices. Prereq> Curric 393
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 395 Uses of Technologies in Secondary School Mathematics Credits: 3
Introduces students to the calculator and computer technologies used in secondary school mathematics and to the ways these technologies can be used effectively in mathematics instruction. Prereq> Admission to SED/Math cert prgm; at least 3 required Math/Stats crses at 300 level or above; and a 4th required crse in Math/Stats or con reg
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
CURRIC 396 Teaching of English Credits: 3
Prereq> Admission to English Educ cert prog; con enr in Curric 296
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 399 Independent Study Credits: 1 - 3
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

CURRIC 400 Educational Technology in the Classroom Credits: 1
Introduction to the use of educational technology in the classroom. Production and evaluation skills will be emphasized. Prereq> Enrollment in a teacher cert prog
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 407 Student Teaching in Chinese Credits: 4 - 12
Classroom teaching for one semester under guidance and observation of cooperating teachers. Prereq> Cons inst; appl on file in Fld Exper Off, 109 Education
L&S Credit: No degree credit in L&S Typically Offered: Spring

CURRIC 408 Student Teaching in Japanese Credits: 4 - 12
Teaching in classroom under guidance and observation of cooperating teachers. Prereq> Cons inst; appl on file in Fld Exper Off, 109 Education
L&S Credit: No degree credit in L&S Typically Offered: Spring

CURRIC 420 Teaching Popular Instrumental Music 1 Credits: 1
Development of critical perspectives, musical knowledge, and pedagogical skills needed to teach instrumental popular music. This class will focus on popular string instruments, their electronic counterparts, and emerging technologies for the performance and production of popular music. Prereq> None
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

CURRIC 421 Teaching Popular Instrumental Music 2 Credits: 1
Development of critical perspectives, musical knowledge, and pedagogical skills needed to teach instrumental popular music. This class will focus on popular percussion instruments, their electronic counterparts, and emerging technologies for the performance and production of popular music. Prereq> None
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

CURRIC 422 The Teaching of Children's Literature Credits: 3
Instructional strategies and curriculum development for teaching children's literature. Prereq> EED and completion of previous sequence coursework
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 423 Student Teaching in Art in Elementary Schools Credits: 2 - 6
Prereq> Art Ed, Curric 323
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CURRIC 424 Student Teaching in Art in Secondary Schools Credits: 2 - 6
Prereq> Art Ed, Curric 324
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CURRIC 425 Concerns and Constraints in Teaching Young Children Credits: 3
Examines programmatic, professional, and technical forces that motivate and constrain teachers' work. Questions the assumptions and philosophies that are the foundation of various teaching practices. Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 426 History, Theory, and Dramatic Criticism in Theatre for Young Audiences Credits: 3 - 4
Historiographical perspectives in theatre for young audiences; analysis of plays for young people, theoretical implications, assumptions, current developments. Prereq> Theatre 120 or 160 or 200 or 362 or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CURRIC 427 Methods of Teaching Family and Consumer Education Credits: 3
Theory and principles of teaching and learning in family and consumer education. Prereq> Jr st or cons inst
Typically Offered: Spring
**CURRIC 428 Program Planning in Family and Consumer Education** Credits: 3  
Theory and processes of program planning for formal and informal educational settings; relation of vocational education to secondary, adult, and continuing education programs. Prereq: Jr st or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

**CURRIC 430 Student Teaching in Family and Consumer Education** Credits: 12  
Supervised student teaching at the middle and high school levels. Prereq: Adm to fam & consumer sci teacher cert prog  
Typically Offered: Fall

**CURRIC 431 Young Adult Literature for Schools** Credits: 3  
Survey of needs and interests of young adults, with emphasis on young adult literature, reading interests, and use of trade books and other media in the junior/middle and senior high school curricula. Prereq: Jr or Sr st with initial preference given SED Jrs and Srs or admission to English ed or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

**CURRIC 440 Elementary Teaching Practicum IV** Credits: 3  
Students will observe, supervise small groups, develop lesson plans for instruction, and teach a series of lessons in the related subject matter of social studies, science, dance/physical education, and music. Prereq: EED; Curric 370 & 373, Art Ed/Curric 322, Ede Psych 301  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 442 Student Teaching in World Languages (K-8)** Credits: 2 - 12  
An undergraduate course in semester two or three of a four-semester certification sequence; success in first semester courses as well as 'Intermediate High' minimum oral proficiency level in the target language are required. Prereq: Adm to French, German or Spanish TC prog & Curric 243 & 342  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 443 Student Teaching in World Languages (6-12)** Credits: 2 - 12  
Practice teaching in world languages education programs (French, German, Spanish, etc.) in the secondary schools. Prereq: Adm to world lang TC prog & Curric 243 & 342; appl on file in Fld Exper Off, 109 Education  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 448 Student Teaching in Hebrew** Credits: 2 - 8  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 454 Student Teaching in the Middle School** Credits: 1 - 10  
Supervised student teaching in the middle school for elementary education majors and special certification students. Prereq: Adm to Elem TC Prog; Curric 370, 371, 372 & 373 or concurrent registration  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**CURRIC 455 Student Teaching in Latin** Credits: 2 - 12  
Prereq: Adv Reg in Stdt Teach Ofc, 105 Educ  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 457 Student Teaching in Health Education** Credits: 2 - 8  
Prereq: Sr st; Curric & Instr 520  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 458 Student Teaching in History and Social Studies in the Middle School** Credits: 2 - 12  
Supervised student teaching in the middle school. Students employ and evaluate a variety of approaches to social studies curriculum and instruction. Prereq: Adm to stdt teaching prog; adv reg in 109 Educ Bldg  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 459 Student Teaching in History and Social Studies in the High School** Credits: 2 - 12  
Prereq: Adm to secondary social studies educ prog  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**CURRIC 460 International Student Teaching** Credits: 2 - 12  
Supervised student teaching in an international location. Prereq: Successful completion of all pre-requisite coursework for student teaching, minimum 2.5 GPA  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
CURRIC 462 Theatre for Young Audiences: Production Credits: 3 - 6
A practical class: preparation and performance of a production for young audiences, with development and implementation of accompanying educational material. Prereq> Cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CURRIC 463 Seminar in Kindergarten Through Middle School Teaching Credits: 2 - 6
Workshop to provide an opportunity to make specific plans for the full-time teaching experience. Prereq> Curric 370, 371, 372 & 373; con reg in Curric 464 or 465 or 498
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 464 Student Teaching in the Elementary School Credits: 1 - 10
Sect 1: For undergraduate elementary education majors and special certification students. Sect 2: For child development majors satisfying kindergarten certification. Prereq> Adm to Elem or PK3 TC Prog; Curric 370, 371, 372 & 373 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 465 Student Teaching in the Kindergarten Credits: 1 - 10
Prereq> Adm to PK3 TC Prog; Curric 370, 371, 372 & 373 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 466 Student Teaching in Music-Elementary Credits: 2 - 12
Prereq> Adv reg in stdt teach ofc, 109 Educ
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 467 Student Teaching in Music-Secondary Credits: 2 - 12
Prereq> Adv reg in field experience office, 109 Education
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 468 Early Childhood/English as a Second Language Student Teaching Credits: 5 - 10
Student teaching for students in the Early Childhood/English as a Second Language certification program. Prereq> Admission to EC/ESL certification program; successful completion of program semesters 1 - 3
Typically Offered: Spring

CURRIC 470 Practicum in Elementary School Art Credits: 3
Selection of appropriate instructional materials and their application to a practical problem in teaching to selected students. Prereq> Jr st & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 472 Student Teaching of English in the Middle School Credits: 2 - 12
Supervised student teaching in the middle school. Students employ and evaluate a variety of approaches to English curriculum and instruction. Prereq> Admission to English teacher cert prog. Adv reg in Educ Academic Services Off, B117 Education Bldg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 478 Elementary School Physical Education Student Teaching Credits: 2 - 8
Prereq> Adv reg in stdt tchg ofc, 109 Educ
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 479 Middle School or High School Physical Education Student Teaching Credits: 2 - 8
Prereq> Adv reg in stdt tchg ofc, 109 Educ
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 490 Student Teaching in Science in the High School Credits: 2 - 12
Prereq> Adm to secondary science educ prgm
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 493 Practicum in Secondary School Art Credits: 3
Observation and instruction of elementary and secondary pupils in a laboratory setting. Lecture and discussion of topics related to art instruction. Prereq> Art Ed 323 & 470
L&S Credit: No degree credit in L&S  Typically Offered: Fall
CURRIC 494 Student Teaching in High School Mathematics Credits: 2 - 12
Prereq> Adv reg in stdt tchg ofc, 109 Educ
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 495 Student Teaching in Science in the Middle School Credits: 2 - 12
Supervised student teaching at the middle school. Students employ and evaluate a variety of approaches to science curriculum and instruction. Prereq> Curric 290, 390; admission to cert prog; appl on file in Fld Exper Off, 109 Education
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 496 Student Teaching of English in the High School Credits: 2 - 12
Prereq> GPA of 2.75 in English. Adv reg in stdt tchg ofc, 109 Educ
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 497 Student Teaching in Middle School Mathematics Credits: 4 - 12
Supervised student teaching at the middle school. Students employ and evaluate a variety of approaches to mathematics curriculum and instruction. Prereq> Adm to secondary math educ prog
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 500 Literacy and Language Development Credits: 3
Survey and critical analysis of language and literacy development in and out of school, with a focus on the elementary school years. Prereq> Grad st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 501 Health Information for Teachers Credits: 3
Basic scientific health knowledge and its application to the total school program. Prereq> Junior standing or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 502 Literacy in Communities and Workplaces Credits: 3
Examines the relationship of communities, schools and workplaces in the development of multiple forms of reading, writing, and oral language. Includes settings such as adult basic education, family literacy programs, workplace education, and community groups. Implications for literacy education. Prereq> Grad st
L&S Credit: No degree credit in L&S Typically Offered: Spring

CURRIC 503 Literacy Across the Curriculum Credits: 3
Survey and critical analysis of theories and practices for literacy development across the curriculum. Reading, writing, oral language, and technology as situated in the content areas. Focus on middle and high schools. Prereq> Curric 303 or 368, or equiv, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 504 Literacy Assessment and Intervention Credits: 3
Theories and practices in regard to assessing and intervening in literacy development for a variety of different sorts of learners, including those facing various reading or writing difficulties.
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 506 Strategies for Inclusive Schooling Credits: 3
Comparison of historical and current practices in special education; legal, philosophical, and programmatic changes leading to inclusive models of education; emphasis on concepts of collaboration, cooperative learning structures, and curricular and instructional adaptations to accommodate learners with disabilities in general education classrooms. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 507 Inclusive Education in Secondary Schools Credits: 2
Comparison of historical and current practices in special education; legal, philosophical, and programmatic changes leading to inclusive models of education; emphasis on concepts of universal design for learning, methods of differentiation, collaboration among educators, and responsive instructional strategies for learners with disabilities in general education classrooms. Prereq> Admission to the Secondary Education Masters Program
Typically Offered: Fall
CURRIC 515 Holocaust: History, Memory and Education Credits: 3
This course explores the ways in which Holocaust history, memory and education are mutually entangled, politically charged and morally complex. Using primarily American sites of memory, students will critically analyze a variety of representations of the Shoah—in literature, films, memoirs, monuments, museums and classrooms. Prereq> Jr st or cons inst

CURRIC 516 Religion and Public Education Credits: 3
Examines theories and practices related to the role of religion in public schooling and its accompanying tensions: political and philosophical, practical and personal. Prereq> Jr st or cons inst
L&S Breadth: Social Science L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

CURRIC 525 Theatre in Education Credits: 3 - 4
Theory and practice of theatre in elementary and secondary educational settings. Students in this course devise, script, and present programs as actor-teachers and interact with audiences. Prereq> So st & cons inst
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CURRIC 530 Science in the Elementary School Credits: 3
Present courses of study in elementary science, analysis of pupil learning difficulties at different grade levels, available materials and books, evaluation of present methods of teaching, individual problems and research. Prereq> Grad st or adm to 2nd deg elem TC Prog or Spec or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 536 Teaching Diverse Youth in Secondary School Credits: 2
Teaching Diverse Youth is designed to 1) to foster understandings of culturally relevant pedagogy and 2) to promote cultural awareness at the individual and institutional levels, and equitable and anti-racist behaviors as well as social justice in educational practices. As a class, we will examine the meanings of multicultural education and will work to understand how teachers can encourage, develop, and support learning, and create practices that establish high expectations for all learners. Students are expected to reflect on how they, the schooling they have experienced, and other social institutions participate in maintaining the hegemony and power of whiteness, middle class power, able
Typically Offered: Summer

CURRIC 537 Teaching Diverse Learners Credits: 3
This course is designed to foster cultural awareness at the individual and institutional levels, and to promote equitable and anti-racist behaviors as well as social justice in educational practices. Prereq> Admission to Masters of Science in Professional Education (MSPE) program
Typically Offered: Fall, Spring

CURRIC 541 Organization and Administration of School Health Programs Credits: 3
Theory, philosophy, patterns, and responsibilities. Prereq> Curric 501; admission to certificate program in elementary or secondary education or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 542 Teacher Education About Alcohol and Other Drugs Credits: 3
Social and cultural factors which influence the use and abuse of alcohol and other selected psychoactive drugs. Emphasis on educational concepts and processes important for instructional planning, curriculum strategies, value clarification, evaluation of learning, and countermeasure research developments. Prereq> Curric 501; admission to certificate program in elementary or secondary education or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 546 Language Arts in the Elementary School Credits: 3
Survey and critical appraisal of research programs, practices, and trends in the study and teaching of the English language, communication, media, composition, and related areas. Prereq> Grad st or adm to 2nd deg elem TC Prog or Spec or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
CURRIC 550 Methods, Materials and Activities in Early Childhood Education Credits: 3
Activities and materials for use in preschools and kindergartens related to different models of early childhood education, to developmentally appropriate curricular goals, and to professional practices of early childhood educators. Majors in preschool-kindergarten education must take this course concurrently with either Curric 363 or Home Mgt 463. Prereq> C&I/Home Mgt 350; con reg in C&I 363 or Home Mgt 463
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 555 Values and Character Education Credits: 3
An analysis of the function of values and valuing process in the social studies. Pedagogical problems associated with handling normative content and questions in the classroom. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 559 Advanced Practices in the Teaching of Social Studies Credits: 3
This course assumes understanding and skill in basic classroom management, lesson and unit planning. Content will include research and practice on such topics as social studies instruction for diverse pupils, critical thinking, and authentic assessment. Prereq> Curric 359 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 561 Teacher Education in Human Sexuality Credits: 3
Student teachers plan educational experiences through which children and youth can learn about human potential in sexuality. Prereq> Curric 501; admission to certificate program in elementary or secondary education or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 562 Drama in Education: Advanced Studies Credits: 3 - 4
Advanced studies in theories and practices of drama in education. Prereq> Theatre 362 or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CURRIC 564 Advanced Problems on the Teaching of World Languages Credits: 3
Recent developments in technologies and methods of teaching world languages; exploration and analysis of teaching practices; critical review of relevant literature and adaptation of materials; recent innovations in elementary and secondary world language teaching. Prereq> Tchg experience or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 566 Practicum in Special Education in the Arts Credits: 1 - 3
Field experience with special education students in classroom settings in music and art. Prereq> Jr st in special field; completion or con reg in Curric 565; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 567 Issues, Materials and Methods in Health Education Credits: 3
Principles, materials, and methods. Prereq> Curric 501, 541, 542, & 561 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CURRIC 570 Art in Exceptional Education Credits: 3
Approaches to developing programs and teaching art to exceptional students in public schools, special schools, and community institutions. Prereq> Jr st & 3 cr in studio art, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

CURRIC 590 Advanced Practices in the Teaching of Science Credits: 3
Prereq> Curric 390 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 596 Advanced Practices in Teaching English in Secondary Schools Credits: 3
Using an inquiry framework in which beginning and experienced teachers act as researchers, this course will explore central issues of theory and practice in the teaching of English in middle and secondary schools. Prereq> Curric 396 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CURRIC 600 Methods of Instruction with Technology Credits: 3
Selection, evaluation, and use of instructional media; emphasis on instructional materials. Prereq> Grad st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
CURRIC  603 Local Design and Production of Electronic Instructional Materials  Credits: 3
Introduction to instructional design, production and evaluation of computer-based instructional materials.  Prereq> Grad st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC  604 Seminar on Literacy  Credits: 3
Examines current research on reading, writing and varieties of oral language from perspective of sociocognitive and sociocultural literacy studies. Course deals with various theories of school, community, and workplace literacy, different approaches to literacy pedagogy and curricula, assessment practices, and interventions for learners with various needs.  Prereq> Grad st
Typically Offered: Fall, Spring, Summer

CURRIC  606 Critical Educational Practice on the Internet  Credits: 2 - 3
Utilization of internet sites and sources in instructional settings; lab experience; critical review of sites and electronic network literature.  Prereq> Grad st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC  607 Educational Media, Representation and the Construction of Knowledge  Credits: 3
Theories and critiques of representation and how they relate to production of educational media, and to curriculum and pedagogy using film, video, and multimedia; problems and issues associated with representational practices and the social construction of knowledge.  Prereq> Curric 600 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC  620 Field Project in Library and Information Agencies  Credits: 3
Analysis of field experience through seminars, individual conferences, required reading and consultations with cooperating librarians and information specialists. Enrollment limited.  Prereq> LIS 450, 451 & 551; electives appropriate to the proposed project; & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CURRIC  626 Action Research in Schools  Credits: 3
Provides instruction and support to students who want to conduct research on their own practices in schools.  Prereq> Grad st or cons inst
Typically Offered: Fall, Spring

CURRIC  630 Professional Development for Schools and Community Educators  Credits: 1 - 6
Specific construction and theoretical implications for professional in-service and field student teaching assignments. Learning materials and school systems program needs for children.  Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC  632 Literature and Literacy  Credits: 3
Role of literature in literacy development from pre-school to high school. Theories and practices in regard to interpretation, reader response, criticism, genres, multiculturalism, and literature for early literacy and in content learning.  Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC  635 Epistemology of Mathematics for Teachers  Credits: 2
Course focuses on the nature of knowing mathematics.  Prereq> Must be admitted to the Graduate Secondary Teacher Education Program
Typically Offered: Summer

CURRIC  636 Mathematical Knowledge Teaching  Credits: 3
This course addresses the mathematical concepts necessary for the effective instruction of number and generalization at the middle school level.  Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC  637 Mathematical Knowledge for Teaching: Ratios and Proportions  Credits: 3
This course addresses the mathematical concepts necessary for the effective instruction of rational number and proportional reasoning at the middle school level.  Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall
CURRIC 638 Mathematical Knowledge for Teaching: Geometry and Measurement Credits: 3
This course addresses the mathematical concepts necessary for the effective instruction of geometry, measurement, and trigonometry at the middle school level. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 639 Mathematical Knowledge for Teaching: Algebra and Functions Credits: 3
This course addresses the mathematical concepts necessary for the effective instruction of algebra and functions at the middle school level. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CURRIC 640 Mathematical Knowledge for Teaching: Conjecturing and Reasoning Credits: 3
This course addresses the mathematical concepts necessary for supporting students’ abilities to conjecture, justify, and prove in middle-school mathematics. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 660 Early Childhood Education Credits: 2 - 3
Trends, basic principles, issues, evaluation, and curriculum planning for the group education of preschool children. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 662 Elementary School Curriculum Credits: 3
Basic concepts of curriculum, the relation of foundation areas to the problems of curriculum development, modern trends in developing educational programs for children. Prereq> Grad st or adm to 2nd deg elem TC Prog or Spec or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CURRIC 663 Learning Environments for Initial Education Programs Credits: 3
Historical residues, basic theories, and contemporary patterns of instruction underlying educational programs for the very young child (3-9). Integrating and contrasting features of comprehensive curricula for the very young: play, communication foundations, self concepts, health, performing arts, and other areas of educational concern. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 664 Developing & Evaluating Materials & Equipment-Early Childhood Educ Credits: 3
Commercial and student-produced learning materials analyzed and evaluated in light of curricular and developmental theories. Students design and construct learning materials, activities, and equipment in conjunction with required laboratory projects. Prereq> Admission to a program in elem ed, pre-school kindergarten, or child devel-pre-school, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CURRIC 671 Proseminar in Music Education Credits: 2
Subject differs each semester. Current topics related to methodology in the various areas: elementary, junior high school general music, choral music in secondary schools, instrumental music. Prereq> Grad st or Spec with tchg exper or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 672 Issues in ESL Education Credits: 3
Overview of issues that influence and determine the language and academic development of English language learners. Students explore social, cultural and educational contexts and practices as they relate to the education of this population. Prereq> Grad st or Ed Sp
Typically Offered: Spring

CURRIC 673 Learning Second Language and Literacies Credits: 1 - 6
Explores theoretical and practical aspects of second language and literacy development in schooling for English learners. Includes a fieldwork component. Informed by theories, students conduct and analyze data from classroom-based research, investigating implications for learning and teaching. Prereq> Grad standing or Sp
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CURRIC 674 Advanced Methods in Teaching English as a Second Language Credits: 3 - 6
Designed to help students identify/develop and implement methodological approaches and techniques for supporting the language and literacy development of English learners that coordinate with current theories on language and learning  Prereq> Grad standing or Ed Sp, authorization required
Typically Offered: Fall
CURRIC 675 General Seminar  Credits: 1 - 3
Prereq> Variable
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 676 Bilingualism and Biliteracy in Schools  Credits: 3 - 4
This course addresses issues in bilingual education, including: program design; patterns of language use; effective instruction to promote dual language development and biliteracy; integrated curriculum; assessment; history and context; national and local policy. It includes a practicum component. Prereq> Admission to the bilingual cert program
L&S Credit: No degree credit in L&S  Typically Offered: Summer

CURRIC 677 Education, Health and Sexuality: Global Perspective and Policies  Credits: 3
Employs a lifecycle approach to examine the issues at the intersection of education and health that people face throughout the world, but especially in poor countries. Particular attention is placed on sexuality education, reproductive health, and infectious disease epidemics.
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CURRIC 690 Independent Field Work  Credits: 1 - 9
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CURRIC 699 Independent Reading  Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CURRIC 700 Organization of Instructional Technology  Credits: 3
Organizing for instructional design in educational institutions at various levels such as local school, county, district, college, and university systems. Field work related to university outreach programs.
Typically Offered: Occasionally

CURRIC 702 Sociocultural Theory  Credits: 3
Sociocultural theories posit that the fundamental mechanism for teaching and learning is social interaction. In this course, we will examine the varying positions within this general body of theoretical literature, compare and contrast how each position construes the fundamentally social nature of thinking and learning, and consider the methods entailed by each given theory. Prereq> Graduate Standing
Typically Offered: Spring

CURRIC 703 Theories and Models of Instructional Systems Design  Credits: 3
An examination of the major instructional design models and their theoretical, empirical, historical, and philosophical foundations in technology and media. Prereq> Curric 600 or 603 or an equiv crse
Typically Offered: Occasionally

CURRIC 704 Curriculum Planning  Credits: 3
The concept of curriculum in modern American education. Prereq> Grad st
Typically Offered: Occasionally

CURRIC 706 Secondary School Curriculum  Credits: 3
Functions of the secondary school, recent developments and varying approaches to goals, integration and balance in the curriculum. Prereq> Grad st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CURRIC 708 The Study of Teaching  Credits: 3
Alternative research approaches to the study of teaching; for example, process-product, aptitude treatment interaction, ethnographic. Prereq> Grad st
Typically Offered: Occasionally

CURRIC 710 An Introduction to the Literature of Mathematics Education  Credits: 3
Present thought and practice in grades K-14. Development of mathematics education programs in U.S.; present mathematics programs and recommendations for improvement and change; investigation of instructional strategies; recent efforts to evaluate the status of mathematics achievement in U.S. Prereq> Grad st; cons inst
Typically Offered: Occasionally
CURRIC 711 Culture, Curriculum, and Learning Credits: 3
Exploration of literature and recent debates related to cultural and linguistic diversity, learning, and instruction. Discussions will focus on education within and across home, community, and school contexts, including a focus on home-school-community relationships. Prereq> Summer registration is restricted to those admitted to Teach for Diversity MAT Degree Programs
Typically Offered: Occasionally

CURRIC 712 Introduction to Curriculum and Instruction: Research and resources Credits: 3
This is a required course for all new doctoral or masters students in C&I in which they will become familiar with faculty, procedures, policy, and the wide range of research in this area. Prereq> None
Typically Offered: Fall, Spring

CURRIC 714 Research and Evaluation Paradigms in Curriculum and Instruction Credits: 3
An analysis of differing orientations to evaluation and research. Emphasis on assumptions, attitudes, and expectations of what constitutes scientific knowledge and explanation; relationship of research orientation, methods of inquiry, theory, and practice.
Typically Offered: Occasionally

CURRIC 715 Design of Research in Curriculum and Instruction Credits: 3
Introductory survey of empirical foundations of research. Development of methods and tools of research. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CURRIC 716 Reform and Change in Curriculum and Instruction Credits: 3
Social, political and epistemological assumptions underlying current efforts towards curriculum and instructional reform in elementary and secondary schools. Prereq> Grad st
Typically Offered: Occasionally

CURRIC 718 Introduction to Narrative Inquiry Credits: 3
The course includes material on framing, generating, gathering, and analyzing stories that people tell. Prereq> Grad or special students
Typically Offered: Fall

CURRIC 719 Introduction to Qualitative Research Credits: 3
Provides an overview of qualitative inquiry, examining assumptions, standards, and methods for generating and communicating interpretations. Methodological and theoretical works illustrate case study, ethnography, narrative, and action research. This course does not include a field method component. Prereq> Grad st
Typically Offered: Occasionally

CURRIC 720 School Practicum in Communication Sciences & Disorders Credits: 3
Supervised experience in a public/private school setting with children manifesting speech, language and/or hearing problems. The practicum shall involve evaluation and management of a variety of communicative disorders, as well as participation in the multi-disciplinary team process. Prereq> Com Dis 390 or 790 or equiv prior clinic practice; Graduate standing; consent of instructor; and advanced registration in Office of Field Experience
L&S Level: Advanced  Typically Offered: Fall, Spring

CURRIC 723 Life History: Theories & Methods Credits: 3
Focuses on framing, generating, collecting, and analyzing data gathered from interviews and documents related to people's lives. Prereq> Graduate or special students may take the course, no prerequisites.
Typically Offered: Spring

CURRIC 725 Ethnographic Methods in Curriculum and Instruction Credits: 3
Introduction to ethnographic research methods, including their place in the general area of qualitative inquiry, its philosophical foundation in educational anthropology, and methods of data collection, analysis, and writing. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CURRIC 726 Qualitative Methods of Studying Children and Contexts Credits: 3
Examines the theoretical, methodological, and ethical issues in studying children from interpretive perspectives. A small group research project, focused on examination of an individual child and context, provides an introduction to qualitative methods within fieldwork. Prereq> Grad st
Typically Offered: Occasionally
CURRIC 731 Collaborative Teamwork for Inclusive School Reform Credits: 3
The process of collaboration and its multiple forms among professionals in the creation of inclusive school communities are critically examined. Various methods and tools for collaboration are explored that promote effective team relationships, problem solving, and co-planning of differentiated curriculum and instruction. Activities and projects are problem-based and focus on generating solutions to programmatic, student-specific, or school-wide issues related to inclusive education. Class participants acquire skills to engage in collaborative teamwork and act as change facilitators within a school system. Prereq> Admission to the Masters of Science for Professional Educators program, grad
Typically Offered: Summer

CURRIC 732 Foundations of Science Education Credits: 3
Examination of the interrelationships among education, science, and society in the United States since the mid-nineteenth century. Analysis of current issues and problems in science education from this historical perspective. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CURRIC 733 Public Engagement with Science Credits: 3
This course examines the influence of science in everyday life. It is intended to give students both academic context (research and theory) and a firsthand look at how science matters to people who are not themselves scientists. Prereq> None
Typically Offered: Every Other Fall

CURRIC 734 Science Studies and Science Education Credits: 3
Examination of the key ideas from the field of science and technology studies (history, philosophy, sociology of science, etc.) and how they have been taken up in both the school science curriculum as well as the science education research community. Prereq> None
Typically Offered: Occasionally

CURRIC 735 Epistemic Practice and Science Teaching Credits: 2
This course pursues the following questions: Where does our scientific knowledge come from and how does science work to generate that knowledge? In what ways might science education meaningfully engage learners in science? This course is part of the Secondary Teacher Education Master's with Certification program for students pursuing Secondary science teacher certification. Other interested students may inquire about the course by contacting the instructor. Prereq> None
Typically Offered: Summer

CURRIC 743 Educational Technology for Deep Language Learning Credits: 1 - 3
Critical understanding of recent developments in research related to educational technology and its implications for World Language Education and Second Language Acquisition. The course addresses the limits of instrumental reason and the need for reflective practice and theoretical wisdom for appropriate technology integration into teaching, global learning of other cultures, computer-assisted language learning (CALL), Computer-Mediated-Communication (CMC), learning languages in Multi-User Virtual Environments (MUVE), multimedia and emerging technologies in teaching languages and culture. Prereq> Graduate standing or consent of instructor
Typically Offered: Occasionally

CURRIC 744 Perspectives in Multicultural Education Credits: 3
A critical examination of the conceptual and theoretical traditions that contribute to the educational reform and ideology known as multicultural education. Includes readings from ethnic studies, black studies, feminist theory, antiracist pedagogy, bilingual education, and critical race theory. Prereq> Grad st
Typically Offered: Occasionally

CURRIC 746 The Adult Learner: Implications for Curriculum and Instruction Credits: 3
Analysis of the principles and instructional models applicable to the instruction of adults. Attention to the integration of research on learning and teaching in informal and formal educational settings. L&S Credit: No degree credit in L&S
Typically Offered: Occasionally

CURRIC 748 Proseminar: Issues & Problems in Teaching-Learning in Adult Educ Credits: 3
A planned, systematic analysis of basic issues; instructional group strategies, instructional modes, independent learning, etc. Prereq> Cons inst
Typically Offered: Occasionally
CURRIC  760 Sex/Gender-Related Issues in Curriculum and Instruction Credits: 3
A poststructural feminist analysis of educational discourse and practice; examines selected sex/gender issues in curriculum and instruction; explores some implications for classroom teaching of the complex interrelationships between sex/gender, race, social class, sexuality, and ability/disability. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC  761 Introduction to Resources in Music Education Credits: 3
Reference and research materials from the social sciences, humanities, and music education. Research strategies. Prereq> Grad st or Spec with tchg exper or cons inst
Typically Offered: Occasionally

CURRIC  764 Globalization and Linguistic Human Rights in Education Credits: 2 - 3
An introduction to language instruction policies and linguistic human rights. Examines teaching and learning in a multilingual society. Explores the various dimensions of the language used in the schools for instruction in different countries during the globalization process. Prereq> Grad st
Typically Offered: Fall, Spring, Summer

CURRIC  765 Globalization and Teaching: Dimensions for Curriculum Planning Credits: 3
Critically examines efforts to introduce teaching and curriculum on globalization in elementary and secondary schooling, as well as in teacher education. Prereq> Enrolled in Departmental Global Studies, Teaching, and the Curriculum (GSTC) program or cons inst
Typically Offered: Fall, Summer

CURRIC  778 Teaching, Literacies, and Identities Credits: 3
In this class, we will explore issues related to identity through three interrelated concepts--teaching, literacies, and diversity--from a variety of perspectives, including psychology, sociology, narrative studies, and sociocultural perspectives. Within each perspective we will explore what "identity" means and how each conceptualization is related to teaching and learning, especially for children from diverse communities and backgrounds. Prereq> None
Typically Offered: Spring

CURRIC  788 Qualitative Research Methods in Education: Field Methods I Credits: 3
Introductory field methods experience in qualitative research. Students will learn to define good research questions, determine which methods of data collection and analysis are useful for addressing those questions, engage in these methods, reflect on their utility in education research. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 719 or cons inst
Typically Offered: Spring

CURRIC  789 Qualitative Research Methods in Education: Field Methods II Credits: 3
Focus on data analysis and translation of finds and implications. Students will gain theoretical and practical knowledge and skills regarding coding and analysis techniques, use of qualitative analytic tools, strategies for sharing findings with audiences beyond research team. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 788
Typically Offered: Spring

CURRIC  800 Issues in Educational Communication Technologies Credits: 3
Comprehensive and critical analysis of the major theoretical and methodological debates which have characterized the field; their historical and philosophical origins and their relation to changes in technologies designed for purposes of instruction. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC  801 Interactive Media and Computers in the Curriculum Credits: 3
Theory and practice of designing, developing, and implementing computer courseware for the classroom, including interactive video and instructional computer-based media. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC  802 Discourse Analysis Credits: 3
Theories and methods for analyzing "discourse" or language in use. Covers formal and informal written text, formal and informal oral speech, and face-to-face and online social interaction, with particular focus on cultural and social institutions and norms (such as school) and learning through social interaction. Prereq> Graduate standing
Typically Offered: Occasionally
CURRIC 805 Guiding and Directing the School Reading Program Credits: 3
Issues and practices in reading program development from first through twelfth grade. Emphasis on the various roles and responsibilities of instructional leaders in reading program development. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC 810 Goals, Content and Programs in Mathematics Education Credits: 3
Persistent issues. Analysis of current programs and the identification of the mathematical content of K-12 education. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC 811 The Instruction of Mathematics Credits: 3
Persistent issues. Analysis of current research and examination of current programs to identify how they reflect different theories of learning and instruction. Prereq> C&I 810 or cons inst
Typically Offered: Occasionally

CURRIC 812 Curricular Issues in Mathematics Education Credits: 3
Analysis of research and evaluation of programs as they operate within the school environment. Prereq> C&I 811 or cons inst
Typically Offered: Occasionally

CURRIC 815 Research with Computer-Based Tools in Curriculum and Instruction Credits: 3
Epistemological and methodological issues involved in research with computer-based tools in curriculum and instruction. Prereq> Curric 715 or equiv and cons inst
Typically Offered: Occasionally

CURRIC 821 Constructionism Credits: 3
This course is a survey of constructionist theory, research, and tools. Course content and activities will help students develop a deeper understanding of the history, theories, philosophies, tools, research, and technologies of constructionism and its children. Prereq> Graduate standing
Typically Offered: Occasionally

CURRIC 829 Proseminar in American Curriculum Theory: 1890-Present Credits: 3
Major movements in the field such as Herbartianism, scientific curriculum planning, rational decision making, group process, and structure of the disciplines. Analysis of major documents and leading figures. Prereq> Curric 662 or 704 or 706 or cons inst
Typically Offered: Occasionally

CURRIC 830 Theory and Design of the Curriculum Credits: 3
Dimensions of theory and their interrelationships with reference to the curriculum field. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC 832 Teaching for Conceptual Change in Science Credits: 3
Examination of science teaching strategies and programs based on research into students' conceptions of natural phenomena. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CURRIC 840 Field Work in School Reading Programs Credits: 2 - 7
Supervised field experience in working with school-wide reading programs. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC 841 The Educational Role of the Family in Early Childhood Development Credits: 3
Socialization practices associated with development and education in early childhood; focus on parental teaching practices which influence techniques, communication styles, and cognitive styles within the context of social class and family structure; emphasis on theory, research, and educational applications. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CURRIC 844 Culturally Relevant Pedagogy Credits: 3
Pedagogy that explores the relationships between culture and learning as well as teacher ideology and beliefs systems. Examines critical pedagogy and pedagogies of resistance. Prereq> Grad st
Typically Offered: Occasionally
CURRIC 855 Issues in Elementary Education Credits: 3
Critical survey of issues and trends; their social, educational basis; implications for elementary schools; examination and analysis of major problems. Prereq> Grad st
Typically Offered: Occasionally

CURRIC 860 Supervision in Teacher Education Credits: 1 - 3
For those who are or wish to be university supervisors or cooperating teachers in practicum or student teaching programs. Study and discussion of factors which enter into the supervision of prospective teachers. Prereq> Cons inst
Typically Offered: Occasionally

CURRIC 864 Semiotics for Education Credits: 1 - 3
This course is dedicated to Semiotics or the study of sign action for education purposes, described as any activity or process including the production of meaning and apprenticeship. Prereq> Graduate standing and consent of instructor
Typically Offered: Fall, Spring, Summer

CURRIC 870 Action Research in Teacher Education Credits: 3
Examination of issues related to action research as a professional development activity and a form of research. Prereq> Grad st
Typically Offered: Occasionally

CURRIC 900 Advanced Seminar in Digital Media Credits: 2 - 3
Survey and critical analysis of selected research and other literature in the major divisions of the field, with emphasis according to individual interest. Prereq> Consent of instructor
Typically Offered: Occasionally

CURRIC 910 Seminar-Curriculum Development Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

CURRIC 916 Smr: Special Topics in Research & Evaluation in Curriculum & Instruction Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

CURRIC 920 Seminar in English Language Arts Education Credits: 3
Topics vary each semester. Review of current scholarship and evaluation of various aspects of English language arts education. Prereq> Grad st and cons inst
Typically Offered: Occasionally

CURRIC 942 Seminar in Research on Mathematics Education Credits: 1 - 3
Selected investigations; design of individual research activities; advanced level. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CURRIC 945 Seminar in Music Education Credits: 2 - 3
Subject differs each semester; comprehensive issues, including current views on topics such as psychology of music; sociology of music; aesthetics. Prereq> Grad st or Spec with tchg exper or cons inst
Typically Offered: Occasionally

CURRIC 946 Past Perspectives on Music Education Credits: 3
Analysis of music education in primary and secondary schools to 1980 via examination of historical, philosophical, and psychological sources. Explores ideas that have shaped the field in the past and investigates the influence of these ideas on current thinking. Prereq> Grad st or Spec with tchg exper or cons inst
Typically Offered: Occasionally

CURRIC 947 Current Issues in Music Education Credits: 3
An exploration of current issues facing music education and an examination of future directions for the field. Students identify and investigate topics affecting them and their schools. Prereq> Grad st or cons inst
Typically Offered: Occasionally
CURRIC 948 Diversity Issues in Music Teaching Credits: 3
A critical analysis of music teaching discourse and practice; focuses on selected issues pertaining to gender, race, sexuality, and ability/disability. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CURRIC 949 Seminar in the Study of Teacher Education: Professional Development Credits: 3
Examination of issues in, and approaches to, design, implementation, and evaluation of professional development for inservice teachers. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CURRIC 950 Seminar in the Study of Teacher Education Credits: 3
Examination of issues related to preservice teacher education and teacher education reform. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CURRIC 951 Seminar in Art Education Credits: 3
Examination and analysis of ideas and studies in art education and related areas preparatory to formulating research problems. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CURRIC 955 Seminar in Moral Education Credits: 3
Pedagogical, psychological, and research issues associated with current approaches to values and moral education. Primary focus is on these issues as they relate to curriculum and instruction in public schools. Prereq> Curric 555 or cons inst
Typically Offered: Occasionally

CURRIC 960 Seminar-Science Education Credits: 1 - 3
Research methods in improving instruction in elementary and secondary science education. Prereq> Grad st and cons inst
Typically Offered: Occasionally

CURRIC 963 Seminar-Educational Planning & Curric Change-Developing Countries Credits: 3
Analyses and critiques of educational plans related to the social, political, economic, and educational contexts of the target countries. Supervised practice in planning curricular change and educational reforms for particular countries in the light of realistic requirements and constraints. Prereq> Grad st & Curric/Ed Pol 640 or Ed Pol 340 or Ed Admin 875 or cons inst
Typically Offered: Occasionally

CURRIC 964 Seminar in World Language Education Credits: 1 - 3
Seminar intended to help graduate students in World Language Education, Second Language Acquisition, and any language area develop a review of literature and a research project. Prereq> Graduate standing and consent of instructor
Typically Offered: Fall, Spring, Summer

CURRIC 975 General Seminar Credits: 2 - 3
For the exploration of new frontiers. Prereq> Cons inst & Grad st
Typically Offered: Occasionally

CURRIC 976 Seminar in Reading Credits: 2 - 3
Series of advanced seminars on such topics as: diagnostic and remedial teaching; sociology of reading; developmental reading; linguistics in the teaching of reading; or others as designated. Prereq> Curric 500 or 503 or cons inst
Typically Offered: Occasionally

CURRIC 990 Research or Thesis Credits: 1 - 12
Prereq> Grad st and cons inst
Typically Offered: Occasionally

CURRIC 991 Post-Secondary Teaching Practicum Credits: 3
Opportunity for students to gain an understanding about the design and instruction of teacher education courses. Prereq> Open only to Curriculum and Instruction doctoral students.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
CURRIC 999 Independent Reading Credits: 1 - 3
For the benefit of superior graduate students unable to secure needed content in regular courses. Prereq> Grad st and cons inst
Typically Offered: Occasionally

DANCE

DANCE 1 Workshop in Dance Activity Credits: 1 - 2
Prereq> Prereq varies according to topic
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 2 Ballroom Dance I Credits: 1
Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 3 Ballroom Dance II Credits: 1
Prereq> Dance 002 or consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 4 Modern Jazz Dance Credits: 1
Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 5 Modern Jazz Dance II Credits: 1
Prereq> Dance 004 or consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 11 Contemporary Dance I Credits: 1
P Consent of instructor. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 12 Contemporary Dance II Credits: 1
Prereq> Contemporary Dance I or consent of instructor. Open to Freshmen.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 13 Contemporary Dance III Credits: 1
Prereq> Contemporary Dance II, consent of instructor. Open to Freshmen.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 21 Ballet I Credits: 1
Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 22 Ballet II Credits: 1
Prereq> Dance 021 or cons inst. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 23 Ballet III Credits: 1
Prereq> PE Dance 022 or cons inst. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 56 Movement Improvisation Credits: 1
Introductory level exploration of movement improvisation. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 111 Contemporary Dance Technique and Theory I Credits: 1 - 3
Level I Core course in technique. Study and practice of the fundamental principles of contemporary dance technique and theory. Exploration of the body as a creative and expressive instrument. Audition at first class meeting determines course eligibility and placement. Prereq> Previous dance training. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall
DANCE 112 Contemporary Dance Technique and Theory II Credits: 1 - 3
Level I Core course in technique. Study and practice of the fundamental principles of contemporary dance technique and theory. Exploration of the body as a creative and expressive instrument. Audition at first class meeting determines course eligibility and placement. Prereq> Previous dance training. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 116 Workshop in World Dance Credits: 2
An experiential lecture/lab exploration in different traditional or folk dance forms from around the world. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 118 African Dance Credits: 1
Technique and practice of several basic African dance forms with study of their musical, historical and cultural contexts. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 121 Asian American Movement Credits: 3
Techniques of exercises and movement forms derived from several Asian cultures as taught in the United States. Studied in the context of the construction and expression of ethnic and cultural identity. Prereq> Open to Freshmen
Ethnic Studies: Yes  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DANCE 125 Ballet Technique I Credits: 1 - 2
Introduction to basic skills and terminology; includes barrework, center work, petit allegro, grand allegro; focus on form, kinesthetic principles and aesthetic values. Prereq> Beginner level. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 126 Ballet Technique I-B Credits: 1 - 2
Level I Core continued expanding terminology, further developing barre work, center work, petit allegro, grand allegro; focus on form, kinesthetic principles and aesthetic values. Prereq> Dance 125. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 131 Somatic Theory and Practices Credits: 2
Integration of body and mind is explored through various somatic practices. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 132 Workshop in Body Studies and Practices Credits: 1
This course is a laboratory in mind-body practice. When offered, the course title will reflect the type of body practices or modalities covered. Each specific practice will focus on increased bodily awareness and function for the performing artist. The class will include movement practices, readings, discussion, writing assignments, videos and performances/lectures. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 135 Pilates Mat I Credits: 1
Pilates is a physical conditioning program that creates balance, improves posture, decompresses joints and creates elongated, toned muscles. The exercises focus on core strength, breath, and a flexible spine. Pilates Mat I will teach students the Level I-III Mat exercises. Students explore functional anatomy and imagery-based alignment. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 136 Pilates Equipment Lab I Credits: 1
Pilates Equipment Lab I will focus on learning Level I & II (Lab I) exercises on the Pilates equipment, which includes the Reformer, Cadillac, Low Chair, and High Barrel. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 140 Dance Production Credits: 2
Introduction to design and production for the performing arts with emphasis on dance. Students learn use of lighting, sound and other scenographic elements in theory and with practical experience. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
DANCE 144 Rhythmic Training for Dancers Credits: 2
The study of rhythmic theory to educate dancers about musical time and structure. Basic notation, aural comprehension of rhythm, and rhythm activities are emphasized. Prereq> Dance major or consent of instructor; Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 152 Dance Performance Workshop Credits: 1
Practice and experience in performing for student in the early stages of development. Prereq> Dance 111, 112 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 156 Movement as Material Through Improvisation Credits: 2
Use of improvisation to develop a personal movement vocabulary and explore compositional form. Prereq> Dance 002, Dance major or minor, certificate or consent or instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 157 Introduction to Movement Analysis Credits: 2
An examination of the qualitative variations in movement processes as they relate to human function and expression. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 159 Collaborative Arts Workshop Credits: 2
Collaborative Arts Workshop focuses on sharing ideas by creating dance and theatre through a collaborative process. The course will expose students to a range of artistic disciplines with the focus of collaboratively developing a concert program projected through the lens of hip hop theatre. Students will engage in various art disciplines to develop interdisciplinary tools through a collaborative process that will strengthen and teach creative problem solving skills. Prereq> By audition
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 162 First Year Workshop Credits: 1
This course, designed for incoming dance majors, introduces students to the world of contemporary dance, and covers topics in contemporary dance performance and professionalism. Prereq> Dance major standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 165 World Dance Cultures: Traditional to Contemporary Credits: 3
A survey course providing students with a framework for understanding and appreciating the significance of dance in and as human culture. The course includes reading assignments, lecture, video and studio practice as opportunity to physically experience material discussed. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DANCE 200 Writing the Moving Body Credits: 3
Examines performance texts from the 20th century to the present, and applies them through written analyses. Prereq> Open to Freshmen
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 205 Dance Credits: 1 - 4
Introduction to basic elements of modern, jazz and ballet dance forms; emphasis on dance in the physical education curriculum. Prereq> PE majors. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 211 Contemporary Dance Technique and Theory III Credits: 1 - 3
Continuation of 111 and 112. Exploration of dance dynamics and quality through improvisation and the practice of set dance sequences. Prereq> Advanced beginner/Intermediate level. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 212 Contemporary Dance Technique and Theory IV Credits: 1 - 3
Continuation of 211. Further development of skills. Development of dance phrases and movement vocabulary for invention. Prereq> Advanced beginner/Intermediate level. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
DANCE 213 New Movement Techniques Credits: 1 - 2  
Exploration of new movement techniques in dance outside of traditional forms and methods. Prereq: Intermediate level mod technique or consent of instructor. Open to Freshmen  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 218 African Dance Performance Credits: 2  
Technique, practice and performance of complex African and African-based dances in relation to polyrhythmic musical and percussive accompaniment. Study of historical and cultural contexts of these forms. Development of improvisational skills in dialogue with musicians. Prereq: Dance 118 or consent of instructor  
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DANCE 225 Ballet Technique II Credits: 1 - 2  
Emphasis on basic skills; barrework, center work, petit and grand allegro, adagio, and increased use of demi-pointe. Focus on form, kinesthetic principles and aesthetic values. Prereq: Advanced beginner/Intermediate level. Open to Freshmen  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 226 Ballet Technique II-B Credits: 1 - 2  
Level II Core continued expanding terminology, further developing barre work, center work, petit allegro, grand allegro; focus on form, kinesthetic principles and aesthetic values. Prereq: Dance 225. Open to Freshmen  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 231 Introduction to Dance/Movement Therapy Credits: 2  
Orientation to the scope of dance therapy as a profession. Historical framework, theoretical rationale, and present application of dance/movement therapy. Prereq: So st & cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 232 Introduction to Dynamics of Dance Therapy Credits: 2  
Fieldwork in community programs. Prereq: Dance 231 & cons inst  
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DANCE 235 Pilates Mat II Credits: 1  
Pilates Mat II is a continuation of Pilates Mat I and will teach students the intermediate to advanced level mat exercises, which continue to focus on core strength, breath and spinal flexibility while challenging upper body strength, range of motion in the hips and spine, spinal extension and inverted balance. Prereq: Dance 135 or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 236 Pilates Equipment II Credits: 1  
Pilates Equipment Lab II will focus on learning Level III (Lab II) exercises on the Pilates equipment, which includes the Reformer, Cadillac, Low Chair, and High Barrel. Prereq: Dance 136 or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 237 Pilates Studio I Credits: 3  
Pilates Studio I is designed to give students experience in teaching Pilates, which includes private, semi-private, and small group sessions. Classes give student-teachers class structure formats, including an understanding of the instructor to student relationship, pacing of class sessions, and the physical detail with which Pilates is taught. Prereq: Dance 135; Dance 136; Dance 236; or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 240 Dance Production Laboratory Credits: 1  
Gives the students hands on experience working with the technical aspects of dance program performances. Prereq: Dance 140 or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 241 Music Fundamentals for Dancers Credits: 3  
Study of the elements of music and their relationship to movement, a history of contemporary music and modern dance and an introduction to digital audio applications for choreography. Prereq: Music 111, Music 151, or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
DANCE 249 Survey of Interarts and Technology Credits: 3
History and practice of interarts and technology from the early 1900's to present; includes relevant technological developments from previous eras. Provides an overview of hybrid and technologically mediated forms of artistic expression. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Fall

DANCE 255 Movement Composition for the Performing and Visual Arts Credits: 2
Basic principles of solo composition explored and applied to movement in visual and performing arts. Prereq> Dance 151. Not open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Spring

DANCE 259 Collaborative Arts Performance Lab: Devising Collaborative Performance through Hip Hop Arts Credits: 1 - 2
Collaborative Arts Performance Lab is a unique course where students work together to create a repertory company which produces performances of short hip hop theater and other collaborative performance art works for public viewing. It is a creative workshop space where experimental works are researched and developed. These workshops are open to all First Wave students, including Freshmen, and will involve the development of collaborative and small group pieces as well as artistic training with a focus on individual and multi-voice work, theater improvisation, dance/movement. Prereq> None
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

DANCE 265 Dance History I: Dance Art from the Renaissance to the 1950's Credits: 3
An overview of the history of Western dance art from the Renaissance to the high-modern era with emphasis on the development of European ballet and American modern dance. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Spring

DANCE 311 Contemporary Dance Technique and Theory V Credits: 1 - 3
Level III. Contemporary dance technique and theory on the intermediate level. Emphasis on movement skills employing proper body alignment. 311 Prereq> Intermediate/Advanced level. Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Fall

DANCE 312 Contemporary Dance Technique and Theory VI Credits: 1 - 3
Continuation of 311 Prereq> Intermediate/Advanced level. Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Spring

DANCE 318 Cultural Cross Currents: West African Dance/Music in the Americas Credits: 3
The influence of traditional West African dance/music heritage in historical, artistic, social contexts in the development of new hybrid forms of music/dance created by cross-pollination of cultures of Africans, Europeans and indigenous peoples in the New World. Prereq> Sophomore standing
Ethnic Studies: Yes L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

DANCE 321 Javanese Performance Credits: 2
Technique and practice of classical Javanese dance in its musical, historical and cultural contexts. Prereq> Junior standing or consent of instructor
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

DANCE 325 Ballet Technique III Credits: 1 - 2
Intermediate: barrework, center work, petit and grand allegro, adagio, demi-pointe, and more complex combinations and skills. Focus on form, kinesthetic principles, and aesthetic values. Prereq>
Intermediate/Advanced level. Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

DANCE 326 Ballet Technique III-B Credits: 1 - 2
Intermediate level continued: barrework, center work, petit and grand allegro, adagio, demi-pointe, and more complex combinations and skills. Focus on form, kinesthetic principles, and aesthetic values. Prereq>
Intermediate/Advanced level. Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
DANCE 330 Functional Anatomy for Movement Practices Credits: 1
Functional Anatomy for Movement Practices provides students with an understanding of functional anatomy in kinetic terms. Class will explore efficient musculoskeletal function as it relates to pedestrian movement and vigorous movement. Students will learn how to see and feel the difference between healthy movement and movement pathology. Prereq> Dance 135; Dance 136; Dance 131; or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

DANCE 331 Dynamics of Dance Therapy Credits: 3
Movement lab integrating theory and techniques of dance therapy. Field work in community service projects. Prereq> Intro crse in dance/movement therapy and/or Jr st and cons inst
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

DANCE 332 Dynamics of Dance Therapy Credits: 3
Continuation of 331 Prereq> PE Dance 331
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

DANCE 336 Pilates Equipment Lab III Credits: 2
Pilates Equipment Lab III covers the Intermediate to Advanced exercises (Level IV and V) on all equipment. The Level IV/V exercises challenge a body's uniform development, range of motion in all actions of the spine, hips and shoulders, and require great control and balance. These exercises are great cross-training for athletes, dancers or Pilates enthusiasts who wish to feel the advanced movement potential of their own bodies. Prereq> Dance 236 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

DANCE 337 Pilates Studio II Credits: 3
Class will cover the Pilates Level IV-V (Intermediate-Advanced) material on the equipment and continues work from Dance 237: Pilates Studio I. Prereq> Dance 235, Dance 237 and Dance 336 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

DANCE 341 Sound Design for the Performing and Visual Arts Credits: 3
Production of audio soundtracks to complement the work of artists. The relationship of sound and music to dance, video, film, computer art, and other interdisciplinary forms. Prereq> Art, Dance or Com Arts major or consent of instructor
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

DANCE 345 Video Design for the Performing and Visual Arts Credits: 3
Provides technical and aesthetic knowledge of the use of video camera and editing techniques; introduction to digital video; relationship of video to the performing and visual arts. Prereq> Dance major, Dance 255 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

DANCE 355 Dance Composition II Credits: 2
Composition and performance of dances based on pre-classic and modern dance forms to include practical application of theater production, costuming, and stage design. Prereq> Dance 255
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

DANCE 360 Current Topics in Dance Credits: 1 - 3
A special topics course that addresses various areas in the field. Prereq> None
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

DANCE 365 Dance History II: Directions and Issues of Contemporary Dance Credits: 3
Surveys dance history from the 1960's to the present. Through research, video viewing, and discussions, students grasp aesthetic ideas of modern dance; contextualize the major components of contemporary dance; and characterize trends and styles relative to underlying philosophies. Prereq> Dance 265
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

DANCE 371 Creative Dance for Children Credits: 3
Sensitization of the potential teacher to the movement needs of the child; activities for elementary level with emphasis on movement structures which allow child's own responses; readings, observation, and practice teaching. Prereq> Dance 151, 167 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally
DANCE 372 Teaching of Dance to Adults Credits: 3
Theory and practice. Student participation in the teaching of movement as a creative dance experience. Prereq> Dance 161, 167, 255
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 374 Teaching Dance Credits: 3
Teaching Dance is designed to provide methods and materials for appropriate dance instruction in the public and private sectors for an array of ages. The course advocates for Dance Education in both public and private settings and emphasizes the value of Dance in enhancing the quality of life for all people. Prereq> Dance 131, Dance 157 and Dance 255 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 375 Pilates Teaching Methods Credits: 1
Pilates Teaching Methods is designed to give student an understanding of the practice of teaching and learning Pilates. Students develop understanding of body mechanics as well as an appreciation of the variety of movement possibilities and compensatory patterns present in individual bodies. Class will consist of lecture, discussion, practice teaching and mentorship as students begin the process of teaching Pilates. Prereq> Dance 135 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 376 Pilates Teaching I Credits: 3
Pilates Teaching I students complete a minimum of 3 hours of teaching per week (or equivalent) working with individuals and/or group classes. Pilates Teaching I candidates will teach Level I-III work. Students will also attend periodic seminars and mentor meetings. Prereq> Pilates Certificate Candidate; Dance 135; Dance 136; Dance 236; Dance 237; and Dance 375
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 379 Practicum in Dance Credits: 1 - 2
Prereq> Dance 371 or 372
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 399 Independent Project Credits: 1 - 3
Prereq> So st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DANCE 411 Contemporary Dance Technique and Theory VII Credits: 1 - 3
Level IV. Advanced level. A wide range of movement experiences emphasizing increasing complexity of design and rhythmic structure. 411 Prereq> Advanced level. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 412 Contemporary Dance Technique and Theory VIII Credits: 1 - 3
Continuation of 411 Prereq> Advanced level. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 421 Javanese Performance Repertory Credits: 2
Introduction to Javanese theatre performance in a Javanese epic tradition. Includes use of Javanese gamelan music as accompaniment for dance drama. Prereq> None
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DANCE 425 Ballet Technique IV Credits: 1 - 2
Intermediate/advanced: pirouettes in large poses, combinations of turning and jumping, extended and varied combinations. Increased focus on the development of artistic expression and musicality. Prereq> Intermediate/Advanced level. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 426 Ballet Technique IV-B Credits: 1 - 2
Level IV Core continued expanding terminology, further developing barre work, center work, petit allegro, grand allegro; focus on form, kinesthetic principles and aesthetic values. Prereq> Dance 425
L&S Credit: No degree credit in L&S  Typically Offered: Spring
DANCE 431 Dance Therapy Practicum Credits: 3
One semester supervised experience in psychiatric setting, i.e., special school, hospital, or community mental health center, and one semester of independent study. Prereq> Dance 332, Senior st and consent of instructor
L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

DANCE 441 Advanced Sound Design Credits: 3
Advanced instruction in the production of soundtracks to complement the work of artists in dance, video, film, computer art and other interdisciplinary forms. Prereq> Dance/Art 341
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

DANCE 445 Advanced Video Design Credits: 3
Advanced work in video production with an emphasis on the incorporation of digital video technology. Prereq> Dance 345 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 451 Dance Repertory Theater Credits: 1 - 3
Study of choreography created by member of the faculty and guest artists, leading to public performance. Prereq> Audition at first class meeting. Must take a majors level (100 or higher) modern or ballet technique course concurrently. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DANCE 452 Dance Repertory Theater Credits: 1 - 3
Study of choreography created by member of the faculty and guest artists, leading to public performance. Prereq> Audition at first class meeting. Must take a majors level (100 or higher) modern or ballet technique course concurrently. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DANCE 455 Dance Composition III Credits: 2
Principles of organization in group composition. Planning, composing and presenting of group dances. Prereq> Dance 255
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 462 Senior Seminar Credits: 3
This course, designed for dance seniors, enables students to reflect on the entirety of their dance coursework, to develop their own current work in performance and dance scholarship, and to prepare for future engagement with the discipline outside the university. Prereq> Senior st & Dance 355 & 365
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 463 Senior Project Credits: 1 - 2
This is a capstone course that focuses on artistic and scholarly senior dance projects such as choreography, performance, pedagogy, research studies, papers, and articles. Prereq> Senior standing & Dance 355 and 365
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 467 History of Western Theatrical Dance Credits: 3
An overview of Western theatrical dance history from the Renaissance to the present. Prereq> Junior standing or consent of instructor
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

DANCE 469 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
Typically Offered: Occasionally

DANCE 474 Elementary School Dance Student Teaching Credits: 1 - 8
Prereq> Curric 378
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
DANCE 476 Pilates Teaching II Credits: 3
Pilates Certificate student teachers (ST) will complete a minimum of 3 hours of teaching per week (or equivalent) working with individuals one on one or with group classes. Student Teaching II candidates are expected to cover all Pilates work Level I-V. Students will also attend weekly seminars and mentor meetings. Prereq> Pilates Certificate Candidate, Dance 235; Dance 336; Dance 337; Dance 330; and Dance 376
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DANCE 477 Middle or Secondary School Dance Student Teaching Credits: 1 - 8
Prereq> Curric 378
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DANCE 541 Multimedia Sound Design Credits: 3
An overview of digital audio and its relation to the production of multimedia CD-ROMs. An examination of a variety of software programs for the personal computer to enable students to create sound/music in a digital domain. Prereq> Dance 341 and Dance 441 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 551 Dance Repertory Theater Credits: 1 - 3
Prereq> Advanced technique level or consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 552 Dance Repertory Theater Credits: 1 - 3
Prereq> Advanced technique level or consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 555 Advanced Composition Credits: 2
Creation of advanced group composition projects exploring multimedia, multidisciplinary and performance forms with an emphasis on self-direction. Prereq> Dance 355 or 455 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 560 Current Topics in Dance: Workshop Credits: 1 - 3
Prereq> Prereq varies according to topic
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 569 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
Typically Offered: Occasionally

DANCE 633 Theory and Philosophy of Dance Credits: 3
Prereq> Junior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DANCE 669 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
Typically Offered: Occasionally

DANCE 699 Independent Project Credits: 0 - 3
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DANCE 761 Lecture Demonstration in Dance Credits: 2
The preparation and execution of a selected dance topic with lecture and demonstration material. To be presented to an audience. Prereq> Grad st
Typically Offered: Occasionally

DANCE 762 Dance Curriculum Practices Credits: 2
Curricular issues as they apply to dance. Prereq> Grad st and Dance 561
Typically Offered: Occasionally
DANCE 955 Seminar-Dance  Credits: 2  
Visible elements of dance and their communicative and expressive effects. Prereq> Grad st & Dance 151, 255, 355, or equiv  
Typically Offered: Occasionally

DANCE 990 Research or Thesis  Credits: 1 - 12  
Typically Offered: Occasionally

DANCE 999 Independent Project  Credits: 1 - 3  
Typically Offered: Occasionally

ED LEADERSHIP & POLICY ANALYSIS

ELPA 313 Education for Employment for Elementary and Secondary School Pupils  Credits: 1  
Emphasis on the background and development of education for employment; federal, state, and local roles in education and employment; the seven elements of education for programs; and education for employment partnerships involving community, administrators and teachers.  
L&S Credit: No degree credit in L&S  
Typically Offered: Spring

ELPA 350 Peer Leadership and Mentorship with Transitioning Students  Credits: 1  
Examines student development in the first college year and strategies upper class students can utilize to be effective leaders and mentors of new students. Course textbook provides foundation for discussion, writing, and experimental assignments. Prereq > Open to sophomores and above  
L&S Credit: No degree credit in L&S  
Typically Offered: Fall, Spring

ELPA 502 Workshop in Educational Leadership and Policy Analysis  Credits: 1 - 3  
Practical problems derived from student interests and needs; not applicable to the doctoral program; may be repeated. Prereq> Jr st  
L&S Credit: No degree credit in L&S  
Typically Offered: Fall, Spring, Summer

ELPA 541 Organization and Administration of School Health Programs Credits: 3  
Theory, philosophy, patterns, and responsibilities. Prereq> Curric 501; admission to certificate program in elementary or secondary education or consent of instructor  
L&S Credit: No degree credit in L&S  
Typically Offered: Fall, Spring, Summer

ELPA 600 Cooperative Program Off-campus Term Credits: 0  
Course for participants in M.S. cooperative program to maintain UW-Madison status during terms when taking courses from partner institution. Prereq> Admission to M.S. cooperative program  
L&S Credit: No degree credit in L&S  
Typically Offered: Occasionally

ELPA 609 Proseminar: Issues in Continuing and Postsecondary Education Credits: 1 - 3  
Systematic analysis of contemporary issues. Different issues each semester. Prereq> Cons inst  
L&S Credit: No degree credit in L&S  
Typically Offered: Occasionally

ELPA 660 Foundations of Education for Work Credits: 2 - 3  
Analysis of perspectives and issues associated with the development of work-focused education policies and practice. Prereq> Sr st or cons inst  
L&S Credit: No degree credit in L&S  
Typically Offered: Fall, Spring, Summer

ELPA 661 Organization and Operation of Education for Work Programs Credits: 3  
Procedures, policies and research associated with various systems of work-related education. Prereq> Tchg experience or cons inst  
L&S Credit: No degree credit in L&S  
Typically Offered: Fall, Spring, Summer

ELPA 662 Designing Education for Work Curricula Credits: 3  
Theory, practice and research in the development of education for work curricula. Analysis of practice in secondary, post-secondary, adult, and workplace contexts. Prereq> Cons inst  
L&S Credit: No degree credit in L&S  
Typically Offered: Fall, Spring, Summer
ELPA 665 Career Development Throughout the Life Span Credits: 3
For educators and students preparing for teaching, counseling, and administrative positions. Relationships among education, work and life style as well as factors influencing individual career development; rationale for career education and application of Wisconsin and other state models; strategies for development and evaluation of career education/ career guidance programs and activities. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Summer

ELPA 700 Field Experience in Educational Leadership Credits: 3
Supervised field experience: elementary, secondary, vocational, technical, higher, and/or special education at local, state, or national level.  Prereq> Consent of instructor
Typically Offered: Occasionally

ELPA 701 Introduction to Higher and Post-Secondary Education Credits: 3
Examines the history and philosophy of higher and postsecondary education; the major participants; curriculum; governance and leadership; relations with state and federal government; and current issues. Prereq> Grad st
Typically Offered: Occasionally

ELPA 702 Introduction to Educational Leadership Credits: 3
Integration of research, theory, and standards of practice for effective leadership in contemporary educational organizations. Prereq> Grad standing
Typically Offered: Occasionally

ELPA 703 Evaluating and Supporting Quality Classroom Teaching Credits: 3
Enables school leaders to evaluate teaching practice and to recognize and support quality classroom teaching in K-12 classrooms. Students will apply established evaluation frameworks to video cases of classroom practice. Topics will include a review of supervision and evaluation theories, basics of video production, and the link between evaluation practices and professional development. Prereq> Grad st, ELPA 702 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ELPA 704 Introduction to Adult and Continuing Education Credits: 3
Definitions, beliefs, purpose, philosophical approaches, and the practice of continuing and vocational education in the modern world. Concerns and orientations of adults who continue to learn. Participation in vocational programs: trends and developments, long-term goals, and futuristic thinking.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ELPA 705 Community Building, Action and Learning: Leadership Dynamics Credits: 2
Examines community building and collaborative action in the context of efforts to renew community connections in todays fragmented localities. Gives special emphasis to leadership roles and dynamics and especially shared leadership. Applies a model of the learning community to these challenges.
Typically Offered: Occasionally

ELPA 710 Introduction to Intercollegiate Athletics Administration Credits: 3
Examines the administration of intercollegiate athletics in higher education institutions with particular emphasis on providing practical and theoretical approaches. Concepts will be addressed by the practical experiences of guest lecturers and through content-specific knowledge about the intercollegiate athletics research-based literature. Prereq> Cons inst
Typically Offered: Spring

ELPA 715 Governance and Administration of Colleges and Universities Credits: 3
Functions organization, and administrative practices of colleges and universities; role of governing boards, administrators, faculty members, and students in policy making. Prereq> Grad st
Typically Offered: Occasionally

ELPA 719 Introduction to Qualitative Research Credits: 3
Provides an overview of qualitative inquiry, examining assumptions, standards, and methods for generating and communicating interpretations. Methodological and theoretical works illustrate case study, ethnography, narrative, and action research. This course does not include a field method component. Prereq> Grad st
Typically Offered: Occasionally
ELPA 725 Research Methods and Procedures in Educational Administration Credits: 3
Introduction to the research process. Role of theory and hypothesis testing in research. Introduction to research problems, questions, hypotheses, variables, constructs, definitions, measurement, research and experimental designs, sampling, descriptive statistics, proposal writing, types of research and statistical computing. Critical analysis of published research. Prereq> Grad st
Typically Offered: Occasionally

ELPA 726 Data-Based Decision-Making for Educational Leadership Credits: 3
Prepares educational leaders to engage in data-driven decision making from a system-wide perspective. A second objective is to provide students with basic data analysis skills they can use in their graduate studies. Prereq> Grad standing
Typically Offered: Occasionally

ELPA 730 Program Development in Continuing Education Credits: 3
Basic concepts related to effective program development. Focus on the concepts relevant to programming with adults: (1) philosophical basis for change through adult education programs, (2) programming processes, (3) community and clientele analysis, (4) program involvement, (5) program design. Prereq>
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ELPA 735 Leadership for Equity and Diversity Credits: 3
Coordinating and effective utilization of school-based special services in the context of student diversity with attention to values, theory, and research underlying curriculum, instruction and policy, in terms of social class, gender, sexual orientation, disability, and race. Prereq> Grad standing
Typically Offered: Occasionally

ELPA 736 Administration of Student Services in Higher Education Credits: 3
Organization and administration of student services in higher education including philosophy, current issues, student development, program planning, financial aid, auxiliary services, housing, counseling, advising, social and health services, student organizations, legal aspects, and special populations. Prereq> Grad st
Typically Offered: Occasionally

ELPA 741 Introduction to College Teaching Credits: 2
Exploration of critical aspects, principles of learning, curriculum development, and teacher evaluation. Prereq> Grad st and cons inst
Typically Offered: Occasionally

ELPA 742 Facilitating Learning for Adults Credits: 3
Analysis of concepts and procedures for helping adults learn. Emphasis on the teaching-learning transactions that encourage and assist adults in their learning activities. Prereq> ELPA 746 or equiv background in the adult learning fld
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ELPA 743 The Adult Distance Learner Credits: 3
The adult distance learner in society; social contexts that encourage distance learning; differences and similarities with respect to conventional learners and learning; distance and autonomy; basis in learning theory; program options and alternatives; problems and issues; the characteristics of adult distance learners. Prereq> ELPA 746 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ELPA 746 The Adult Learner: Implications for Curriculum and Instruction Credits: 3
Analysis of the principles and instructional models applicable to the instruction of adults. Attention to the integration of research on learning and teaching in informal and formal educational settings.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ELPA 748 Proseminar: Issues & Problems in Teaching-Learning in Adult Educ Credits: 3
A planned, systematic analysis of basic issues; instructional group strategies, instructional modes, independent learning, etc. Prereq> Cons inst
Typically Offered: Occasionally
ELPA 750 Governance and Administration of Education for Work Programs Credits: 3
Theory, research, and leadership practices pertaining to the organization and administration of programs preparing youth and adults for work, including federal, state, local, and district programs of vocational-technical education, education-business partnerships, training, apprenticeships, and economic development. Prereq> ELPA 702 for ELPA majors; Grad st for other fields
Typically Offered: Occasionally

ELPA 765 Issues in Educational Policy Analysis Credits: 3
Theory, research, and practical experience in educational policy analysis, including the social construction of policy problems in education; the design, implementation, and evaluation of policy responses; and the practical and ethical dilemmas of the policy analyst. Prereq> Grad st or cons inst
L&S Level: Advanced  Typically Offered: Occasionally

ELPA 770 School-Community Engagement Credits: 3
Critical examination of school-community engagement and collaboration. Examines theory and practice of mutually beneficial collaboration in diverse education settings, including leadership issues in collaborative settings, and facilitators and inhibitors to effective collaboration. Prereq> ELPA 702 or consent of instructor
Typically Offered: Occasionally

ELPA 777 Higher and Post-Secondary Education Capstone Seminar Credits: 3
This capstone seminar is designed to provide students with an opportunity to use concepts and theories learned in previous coursework to analyze professional issues facing higher education administrators. The goal of the course is to assist students with career transitions and provide a culminating experience for the master's program. Prereq> ELPA 701 and consent of instructor
Typically Offered: Spring

ELPA 780 Teacher Leadership and Learning Communities Credits: 3 - 4
Focuses on knowledge and skills teachers need to be leaders in their schools in facilitating the development of strong learning communities that include students, teachers, families, administrators, and other educators. Main objectives are to help students understand key concepts, theories, and models used in building and sustaining effective learning communities; develop skills in creating practices that contribute to effective teacher leadership; and identify and strengthen skills needed to lead schools to build learning communities that promote student learning. Prereq> Enrollment in the Master of Science for Professional Educators program or consent of instructor
Typically Offered: Fall

ELPA 785 Staff Personnel Systems in Education Credits: 3
Personnel systems and collective bargaining processes for professional and nonprofessional staff in education including elementary, secondary, higher and post-secondary education. Prereq> ELPA 702 & 703 or cons inst for ELPA majors; Grad st for other fields
Typically Offered: Occasionally

ELPA 788 Qualitative Research Methods in Education: Field Methods I Credits: 3
Introductory field methods experience in qualitative research. Students will learn to define good research questions, determine which methods of data collection and analysis are useful for addressing those questions, engage in these methods, reflect on their utility in education research. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RT & SE 719 or cons inst
Typically Offered: Spring

ELPA 789 Qualitative Research Methods in Education: Field Methods II Credits: 3
Focus on data analysis and translation of findings and implications. Students will gain theoretical and practical knowledge and skills regarding coding and analysis techniques, use of qualitative analytic tools, strategies for sharing findings with audiences beyond research team. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RT & SE 788
Typically Offered: Spring

ELPA 795 Economics of Education Credits: 3
Shows how basic economic concepts are applied to the study of education policy and what economic research has concluded about the efficiency of various types of education systems. Prereq> Grad st
Typically Offered: Occasionally
ELPA 810 Doctoral Inquiry in Educational Leadership and Policy Analysis Credits: 3
Introduction to inquiry in the field of educational leadership and policy analysis for first semester doctoral students. Provides an introduction to research through engagement with ideas, including identifying and crystallizing meaningful problems, fundamentals of research design, and key challenges in conducting disciplined inquiry. Prereq: Admission to ELPA Doctoral program
Typically Offered: Fall

ELPA 812 Leadership and Coordination of Continuing and Technical Education Credits: 3
Theory, research, concepts, and processes of leadership and program coordination integral to various continuing and technical education programs. Prereq: Grad st
Typically Offered: Occasionally

ELPA 814 Technology in Continuing and Higher Education Credits: 3
Basic concepts, theories, principles, issues, and recent research pertaining to the utilization of educational technologies in continuing and higher education; the application of such knowledge to analyzing and evaluating various organizational and program arrangements. Prereq: Initial grad crse in adult & cont educ, higher educ, educ leadership, org behav, or mgmt
Typically Offered: Occasionally

ELPA 815 Problems in College and University Administration Credits: 3
Theory and research applied to the study of policy issues and problems in college and university administration. Prereq: ELPA 715
Typically Offered: Occasionally

ELPA 817 Reflective Practice in Higher, Postsecondary and Continuing Education Credits: 3
Current educational philosophies. Each student develops an adult educational philosophy. Prereq: Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ELPA 820 Business Administration of School Systems Credits: 3
Financial management; financial accounting; computer systems and business management; financial reports; insurance; salary schedules; indebtedness; budgetary procedure; school budgets; audits; and pupil transportation. Prereq: ELPA 702 or cons inst
Typically Offered: Occasionally

ELPA 822 Introduction to Quantitative Inquiry in Education Credits: 3
Prepares doctoral students to use the concepts and methods of quantitative social science research to conduct research on education issues. Topics include hypothesis testing, statistical inference, point estimates, graphic and numerical data displays, correlation and regression. Prereq: Graduate standing
Typically Offered: Fall

ELPA 824 Field Research Designs & Methodologies in Educational Administration Credits: 3
This introduction to qualitative inquiry focuses on research design, the major qualitative methods and techniques used in field research, data analysis, communicating field research, ethical challenges, and trustworthiness in conducting qualitative research. Prereq: ELPA 725 or cons inst
Typically Offered: Occasionally

ELPA 825 Advanced Research Methods in Educational Administration Credits: 3
Research designs for problems in educational administration including role of theory and hypothesis testing; variable definition and measurement; correlational, survey, experimental and non-experimental, factorial and single-subject designs. Prereq: Ed Psych 761 or Stat 301 or Soc 361 or ELPA 824 or Ed Pol 720; or cons inst
Typically Offered: Occasionally

ELPA 826 Evaluation for Administrative Decision Making in Education Credits: 3
Theory and methods of evaluation for administrators. Models and techniques related to educational needs assessment, program and product development, formative and summative evaluation. Use of evaluative information for administrative decision making and administration of educational evaluation projects. Prereq: Grad st
Typically Offered: Occasionally
ELPA 827 Surveys and Other Quantitative Data Collection Strategies Credits: 3
This course examines the methods and concepts of survey research methods as they are commonly used in
education research. Strategies include surveys (phone, mail, electronic, in person), logs/diaries, and experience
sampling instruments. Emphasis is given to self-administered surveys, including periodic surveys, since these
strategies are the most common in education research. Prereq> Graduate standing
Typically Offered: Fall

ELPA 830 School Finance and Resource Allocation Credits: 3
Contemporary bases for collecting and distributing local, state, and federal funds for elementary and secondary
education; problems and issues in financial support of education; current, alternative and more effective uses of
educational resources. Prereq> Grad standing
Typically Offered: Occasionally

ELPA 831 Financing Postsecondary Education Credits: 3
Contemporary bases for collecting and distributing funds for postsecondary education provided by two-year
institutions, colleges and universities; problems and issues in financing postsecondary institutions; economic
aspects of expenditures for postsecondary education. Prereq> Grad st
Typically Offered: Occasionally

ELPA 835 Leadership for Inclusive Schooling Credits: 3
Examines historical and organizational context of special education administration at the federal, state and local
levels. Includes policy implementation, constituency management, coordination, communication, and current
issues. Prereq> ELPA 702 & 735
Typically Offered: Occasionally

ELPA 840 Public School Law Credits: 3
Legal aspects of public K-12 education. Legal structure; employee rights; employee discipline; curriculum;
students' rights; student discipline, special education; torts; contracts, religion. Impact of federal and state
constitutions, statutes, and court decisions on education. Prereq> Grad standing
Typically Offered: Occasionally

ELPA 842 Legal Foundations of Special Education and Pupil Services Credits: 3
Legal requirements and issues relative to special education and pupil services programs; special education,
juvenile justice, programs for English language learners, programs for children who are homeless; examination of
applicable federal and state statutes and case law. Prereq> ELPA 840 or equiv
Typically Offered: Occasionally

ELPA 844 Technology and School Leadership Credits: 3
Investigates how school leaders develop and use technological tools and systems to improve student learning
and effect change in schools. Prereq> Graduate standing
Typically Offered: Occasionally

ELPA 845 School-Level Leadership Credits: 3
Dimensions of school-level leadership includes a focus on dimensions of the principal's leadership role,
leadership tasks needed to advance equity and excellence in student learning, and distributed leadership.
Prereq> ELPA 702 or consent of instructor
Typically Offered: Occasionally

ELPA 846 The School Superintendency Credits: 3
The course focus is systematic leadership for equity in learning. Investigation of leadership and political theories,
professional competencies, and the personal commitment involved in the role of the school superintendent.
Covers the evolution of theoretical and practical perspectives of the school superintendency, including internship
experiences. Prereq> ELPA 702 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally
ELPA 847 Instructional Leadership and Teacher Capacity Credits: 3
Creating and sustaining successful teaching and learning environments for students and staff is the guiding theme of this course. It is designed to provide teachers, learning specialists, principals, and other administrators with the foundations of research, theory, and best practices of instructional leadership to enhance teachers' capacity for equity and excellence in student learning. Prereq> ELPA 703 or consent of instructor
Typically Offered: Occasionally

ELPA 848 Professional Development and Organizational Learning Credits: 3
Examines educators' professional learning in organizations and its contributions to organizational change, learning, and renewal.
Typically Offered: Occasionally

ELPA 860 Organizational Theory and Behavior in Education Credits: 3
Theoretical constructs and empirical research relating to administering organizations in education. Emphasis on administrative behavior with special attention to planning and organizational improvement. Prereq> ELPA 702 or cons inst for ELPA majors; Grad st for other fields
Typically Offered: Occasionally

ELPA 870 The Politics of Education Credits: 3
Policy development in education as a political process; community power, state and national politics in educational decision making; role of leadership and pressure groups, particularly the educational lobbies, in the shaping of educational policy at local, state, and national levels. Prereq> Grad st
Typically Offered: Occasionally

ELPA 872 Educational Policy Research Design and Implementation Credits: 3
A policy research methods course which explores theories and practices relating to the development and implementation of educational policy with attention to matching appropriate policy research designs to policy goals and organizational contexts. Prereq> ELPA 870 or cons inst
Typically Offered: Occasionally

ELPA 875 Theory and Practice of Educational Planning Credits: 3
Theory, research and practice in advanced program planning and evaluation involving elementary, secondary and higher and post-secondary education. Prereq> ELPA 702 or cons inst for ELPA majors. Grad st for other fields
Typically Offered: Occasionally

ELPA 880 Academic Programs in Colleges and Universities Credits: 3
Explores higher education curriculum including academic program philosophy and design, planning and development, program innovations, liberal education, academic majors, graduate and professional education, program review and evaluation. Prereq> ELPA 715
Typically Offered: Occasionally

ELPA 881 Ideas of the University: Images of Higher Learning for the 21st Century Credits: 3
Through engaging a diverse range of voices representing multiple stakeholders, this course explores alternative images and models to guide universities in the twenty-first century.
Typically Offered: Occasionally

ELPA 882 Minority-Serving Institutions of Higher Education Credits: 3
Examines the origins, contemporary landscape, structures, and stakeholders of minority-serving institutions (MSIs) -- historically black colleges and universities (HBCUs), Hispanic-serving institutions (HSIs), and tribal colleges and universities (TCUs) -- including related challenges and opportunities for research and practice. Prereq> Grad st & ELPA 701 or equiv, or cons inst
Typically Offered: Occasionally

ELPA 890 Applied Research in Educational Administration Credits: 3
Supervised research on topics in the administration of elementary and secondary education. Course is designed for students seeking the Specialist Certificate. Prereq> ELPA 725 & Ed Psych 760 or equiv
Typically Offered: Occasionally

ELPA 900 Internship in Educational Administration Credits: 3
In administration and other leadership positions in elementary and secondary, vocational, technical, and adult, and higher educational systems or other educational agencies. Prereq> Post-master st, approp advanced cr & cons inst
Typically Offered: Occasionally
ELPA 910 Seminar in Educational Law Credits: 3
Interpretation and critique of legal authority impacting education. Topics may include education and religion, students’ rights, teachers’ rights, and federal involvement in education. Prereq> ELPA 840 or 841 or equiv
Typically Offered: Occasionally

ELPA 915 Seminar: College and University Administration Credits: 3
Research and discussion on topics in college and university administration. Prereq> ELPA 715 & 825
Typically Offered: Occasionally

ELPA 925 Seminar on Dissertation Research Credits: 3
Planning and development of dissertation research in educational administration. Prereq> ELPA 825 or cons inst
Typically Offered: Occasionally

ELPA 940 Special Topics Seminar in Educational Leadership Credits: 1 - 3
Research on and/or discussion of selected topics in educational leadership and policy analysis. Prereq> Cons inst
Typically Offered: Occasionally

ELPA 950 Seminar-Organizational Theory and Behavior in Education Credits: 3
Theory and research on organizations, leadership, and administrator behavior. Prereq> ELPA 860 or cons inst
Typically Offered: Occasionally

ELPA 960 Seminar in Educational Finance Credits: 3
Problems of financing education; school financial management; and related research. Prereq> Post-masters st & ELPA 820 & 830 or cons inst
Typically Offered: Occasionally

ELPA 964 Hierarchical Linear Modeling Credits: 3
Introduction to the statistical methodology of hierarchical linear modeling, including random intercept and random slope and intercept models; models for longitudinal data; and multilevel generalized linear models. Prereq> Ed Psych 760 & 761, or equiv
Typically Offered: Occasionally

ELPA 965 Seminar in the Politics of Education Credits: 3
Research related to power structure, decision making, pressure groups, and professional influence in the formulation of public policy in education at the local, state, and national levels. Prereq> Post-masters st or cons inst
Typically Offered: Occasionally

ELPA 970 Seminar in Educational Planning Credits: 3
Comprehensive planning practices and procedures in selected educational settings and development of related research projects. Advanced study of topics related to the design and development of educational policies and operations, including appropriate research needs and methods. Prereq> Cons inst
Typically Offered: Occasionally

ELPA 990 Research or Thesis Credits: 1 - 12
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ELPA 999 Independent Reading Credits: 1 - 3
Prereq> Grad st and cons inst
Typically Offered: Occasionally

EDUCATIONAL POLICY STUDIES

ED POL 107 The History of the University in the West Credits: 3 - 4
The history of the university in the Western world from its beginnings in the 10th century to the present. Concentrates on universities, students, and professors in Italy, France, England, Germany, and the United States. Prereq> Open to All Undergrads
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
ED POL 140 Introduction to Education Credits: 3
An introduction to fundamental educational questions, concepts, perspectives and ideas, designed to enable students to more thoughtfully examine and assess proposed and existing educational policies and practices. Prereq> Admission to Educ Fellows prgm. Open to Fr
Typically Offered: Fall

ED POL 150 Education and Public Policy Credits: 3
Educational controversies in social contexts. An examination of fundamental dilemmas concerning the nature and purpose of educational systems in the U.S. Prereq> Open to All Undergrads
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 200 Race, Ethnicity, and Inequality in American Education Credits: 3
Theories and research concerning the reasons for racial and ethnic differences in educational performance; the significance of contemporary and historical debates over educational inequality; policies and practices to reduce inequality in education. Prereq> So st or cons inst
Ethnic Studies: Yes  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 300 School and Society Credits: 3
Contemporary issues and trends in public schooling. Topics include: cultural differences; achieving equality through schooling; schools as social institutions; the rights of students and teachers; and the nature and organization of the teaching profession. Prereq> Soph st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 302 School and Society: Race, Social Class and Education in America Credits: 1
Prereq> Jr st and pre-cert students
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ED POL 304 School and Society: The Educ of Black Americans: The Formative Years Credits: 1
Development of separate and unequal public education for black Americans, from the Civil War to World War I, and the meaning of the Washington-DuBois debate. Prereq> Junior standing & pre-cert students
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ED POL 317 School and Society: Colonialism and Schools Credits: 1
Examination of learning environments in the U.S. and abroad characterized by social inequalities. Comparisons of ghetto schools, rural schools, suburban schools, mission schools, government training schools, and schools on Indian reservations. Prereq> Junior standing & pre-cert stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ED POL 330 Radical School Reform Credits: 3
Experimental modes of education focusing on schools in the U.S. and in other countries such as Great Britain, China, and the Soviet Union. Theoretical discussions of radical educational concepts. Field work in area alternative schools. Prereq> Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ED POL 335 Globalization and Education Credits: 3
Introduces students to the origins, development, and debates in the field of globalization and education (GE); explores educational experiences in settings around the world; and examines how GE studies and approaches can inform learning, teaching, and research practices. Prereq> Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 340 Comparative Education Credits: 3
Selected systems of education (Western and non-Western) within the respective socio-cultural and political contexts, and an introduction to comparative methodology. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 399 Independent Reading Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
ED POL 412 History of American Education  Credits: 3
Place and function of educational endeavors and institutions in American society and among particular groups, such as native Americans, Blacks, the poor, and immigrants. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 440 Education in the New Europe  Credits: 3
Post-war developments in selected European systems of education with particular reference to the relationship between educational policies and the socio-political structure. Prereq> Senior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ED POL 450 Rethinking "After-School" Education  Credits: 3
This course will provide students with the opportunity to engage with and discuss historical, ideological, and contemporary issues within community-based after school programs at large and within the Madison context. Students will also examine the social and political context of after school programs to better understand the ways in which they have the potential to meet important needs of youth and communities. Rethinking After School Education is a community-based learning course intended to provide students with a theoretical understanding of community-based educational spaces serving youth, as well as an applied and practical approach to working with and being of service to community-bas
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ED POL 460 Cultural Pluralism and Educational Policy  Credits: 3
An examination of the issues which emerge as a result of cultural and linguistic diversity within schools. Emphasis on those programs and institutions developed specifically to address these issues at the elementary, secondary, and university levels. Prereq> Jr st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 470 Asian Americans in U.S. Schools  Credits: 3
This course examines the historical and contempory experiences of Asian Americans in elementary, secondary, and post-secondary schools in the United States. Prereq> Jr st
Ethnic Studies: Yes  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 475 Education and Jewish Civilization  Credits: 3
Examines the changing role of education in Jewish history and debates within Jewish civilization concerning the nature and value of learning. Topics include: relationships between learning and life; ethical and pedagogical dimensions of teacher-student relationships; gender and learning. Prereq> So st or cons inst
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 477 Political Socialization  Credits: 3 - 4
Political values and orientations acquired during childhood, youth, and later life under various cultural conditions; emphasis upon how both earlier and later political learning is articulated or not with the changing nature of the political system, and the influence of family, school and other agents of socialization, and the nature of transmission of political ideas across generations. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 478 Comparative History of Childhood and Adolescence  Credits: 3
Growth of modern childhood and adolescent sub-cultures, class differences, literary and pictorial representations, legal and demographic developments, and the growth of educational theories and institutions. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 479 Paideia: Education in Western Culture  Credits: 2 - 3
An examination of the role that education has played in transmitting the values and ideals of Western culture. Prereq> So st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
ED POL 500 Topics on Social Issues and Education Credits: 3
Contemporary social issues or problems and their significance for educational purposes and practices. Prereq: Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ED POL 505 Issues in Urban Education Credits: 3
Urban education and its relationship to developing political, social, and economic factors. Prereq: Jr st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 510 Urban School Policy Credits: 3
This course examines urban school problems, politics, and policies in the United States. Among the issues we will consider are: the framing of K-12 urban schools; the social, economic and political factors shaping urban schools and school policy; frameworks for explaining urban school policy; goals for school reform; and contemporary policy proposals for urban school systems. The focus is on system-level educational problems, politics, and policies, though we will give some attention to schools and classrooms. Prereq: Junior standing or consent of instructor
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ED POL 516 Religion and Public Education Credits: 3
Examines theories and practices related to the role of religion in public schooling and its accompanying tensions: political and philosophical, practical and personal. Prereq: Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ED POL 518 Introduction to Debates in Higher Education Policy Credits: 3
Critical examination of debates surrounding contemporary higher education policies; emphasis on those policies affecting college access and success. Prereq: Jr, Sr, or Grad st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ED POL 540 Modern Philosophies of Education Credits: 3
Critical comparison of present-day schools of thought on the nature, objectives, and functions of American education. Prereq: Jr st
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 545 Philosophical Conceptions of Teaching and Learning Credits: 3
Examination and analysis of conceptions of teaching and learning in classical philosophical works and in contemporary literature in the philosophy of education. Prereq: Jr st or cons inst
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 548 Educational Ethics Credits: 2 - 3
A philosophical examination of selected moral issues facing school personnel. Prereq: Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ED POL 550 Philosophy of Moral Education Credits: 3
Critical examination of classical and contemporary conceptions of moral education. Prereq: Jr st
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 560 Gender and Education Credits: 3
The impact of gender on educational performance and opportunity and the problems of integrating family and alternative lifestyle needs into educational policy and planning. Prereq: Jr st and background in social sciences or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 561 Women in Higher Education Credits: 3
Analysis of the patterns of public and higher education that lead to differential education, job, and career opportunities for men and women, and evaluation of compensatory, corrective, and preventative measures to these problems. Prereq: Background in the social sciences & womens studies or consent of instructor, Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
ED POL 565 The Education of Black Americans Credits: 3
Educational policies, practices, and programs that affect Black America's learning and development. Focus upon possible changes which must occur if blacks are to be educated for survival. Prereq> Jr st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 567 History of African American Education Credits: 3
An examination of the social, economic, political, and cultural issues influencing the education of Black Americans from the early nineteenth century to the 1960s. Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 570 Anthropology and Education Credits: 3
The current and historical relation of anthropology to education with particular reference to culture contact and social change, cultural perspectives on education and educational systems, learning as cultural transmission, and application of anthropological knowledge to curriculum. Prereq> Jr st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 591 Schooling and the Rights of Children Credits: 3
A basic review of factors surrounding the changing context of children's rights. Social forces, including the political and economic aspects of children's rights as they pertain to the child and the school. Selected court cases. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ED POL 595 Language Politics, Ethnicity, and Education Credits: 3
An examination of language policy and education with special reference to political and ethnic issues. Case studies derived from North America, Europe, Asia, Africa, and Latin America with emphasis on bilingual education policies in the U.S. Prereq> Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ED POL 600 Problems in Educational Policy Credits: 1 - 3
Policy area and faculty vary each semester. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ED POL 618 Community Colleges: Issues and Research Credits: 3
An exploration of the American community college, with an emphasis on the critical evaluation and assessment of community college research. This course pays special attention to issues of educational opportunity and inequality. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ED POL 622 History of Radical and Experimental Education in the US and UK Credits: 3
Examines the comparative history of radical and experimental education in the United States and United Kingdom since 1800. It focuses on the social, cultural, and intellectual history of diverse educational experiments, including experiments related to socialism, abolitionism, anarchism, and religious fundamentalism. Prereq> Jr st or cons inst
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ED POL 635 The Sociology of School Organization Credits: 3
Goals, work process, structure, control, and culture in the school. Impact of other organizations, of family, of social class and ethnic context on the school. Educational innovation and school process. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED POL 648 Sociology of Education Credits: 3
Educational institutions as social systems; role relationships, community contexts, relevant values and ideals, stratification, mobility, and recruitment to varied educational organizations, comparative educational systems. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) and Soc 360 or equivalent, or School of Education classification, or consent of instructor
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ED POL 665 History of the Federal Role in American Education Credits: 3
This course examines the history of federal aid to education, emphasizing the post-World War II period. It addresses such topics as desegregation; bilingual, special, and compensatory education; policy implementation and evaluation; and the connections between executive, legislative, and judicial actions. Prereq> Jr st
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ED POL 675 Introduction to Comparative and International Education Credits: 3
Introduction to comparative and international education theories, policies, topics, and methods. Includes case studies of current policy issues, which might include decentralization and governance, HIV/AIDS, neoliberalism, language, access and quality, testing and accountability, or educational borrowing and transfers. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ED POL 677 Education, Health and Sexuality: Global Perspective and Policies Credits: 3
Employs a lifecycle approach to examine the issues at the intersection of education and health that people face throughout the world, but especially in poor countries. Particular attention is placed on sexuality education, reproductive health, and infectious disease epidemics.
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ED POL 699 Independent Reading Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED POL 701 Introduction to Educational Policy Studies Credits: 3
An introduction to diverse scholarly perspectives in educational policy studies. Prereq> Grad st in EPS
Typically Offered: Occasionally

ED POL 713 History of Higher Education in Europe and America Credits: 3
Development of colleges, universities, and higher learning in Europe and America. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ED POL 717 The History of Teacher Education Credits: 3
Issues and problems in the preparation of public school teachers. Analysis of the history of teacher education from 19th century Prussia to the present in the United States. Prereq> Grad st; Srs by cons inst
Typically Offered: Occasionally

ED POL 719 Introduction to Qualitative Research Credits: 3
Provides an overview of qualitative inquiry, examining assumptions, standards, and methods for generating and communicating interpretations. Methodological and theoretical works illustrate case study, ethnography, narrative, and action research. This course does not include a field method component. Prereq> Grad st
Typically Offered: Occasionally

ED POL 720 Proseminar in Social Sciences and Educational Policy Studies Credits: 3
Introduction to social science (anthropological, sociological, and social psychological) approaches to the study of educational policy issues. Central conceptions, methodologies, and substantive issues of various disciplines, as applied to study of educational policy. Prereq> Cons inst
Typically Offered: Occasionally

ED POL 721 Global Service Learning and Reflection Credits: 3
In this class, we will learn skills and techniques for thinking critically about what it means to be involved in global service and to be an agent of social change. This community-based learning course is designed to address three aspects of community-based learning: personal growth, civic learning, and a critical reflection on what it means to work in international development education. This class is divided into two concurrent activity streams: community-based learning experiences and classroom reflection. Prereq> Graduate standing or consent of instructor
Typically Offered: Fall, Spring, Summer
ED POL 723 Education for Global Change Credits: 3
How do people conceptualize and utilize education to (attempt to) create individual, familial, community, institutional, national, and global change? The class aims to push our collective understanding about the diverse ways that people have conceptualized change, its goals, and the mechanisms through which to produce change around the world. We will explore a diverse range of educational approaches (including formal, informal, non-formal, and "traditional" educational models) to transforming the world. It draws on a range of disciplinary and sectoral approaches, including education, public health, and public policy; and a broad range of change models, including individual and peer behavior
Typically Offered: Fall, Spring, Summer

ED POL 724 Poverty and Education: Transnational Perspectives on Policy and Practice Credits: 3
This course addresses current debates about the nature of poverty, how it might be ameliorated, how poverty is related to other inequities and unequal relations of power, and how theories of international development might help us analyze these changing relations around the world. These questions will be examined from a theoretical, historical, and practical perspective by providing an introduction to historical and contemporary debates on poverty, with a specific focus on the polities, practices, and institutions of education. Education is often understood as a way to end poverty. What are the underlying assumptions behind this idea? What are the contemporary educational interventions desi
Typically Offered: Fall, Spring, Summer

ED POL 736 The Sociology of Teaching Credits: 3
Considers teachers and teaching through overlapping perspectives. Teaching as a career, in organizational context, in community context. Effects of teachers' backgrounds and match with students. Gendered character of teaching as an occupation. Interplay of commonality and difference in the occupation. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ED POL 740 Classics in Education Credits: 3
Reading and discussion. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ED POL 745 Political Economy and Education Credits: 3
This course seeks to provide an introduction to political economy in the field of education from a theoretical, historical, and comparative perspective. Prereq> Graduate standing or consent of instructor
Typically Offered: Spring

ED POL 750 African Education: Past, Present and Future Credits: 3
Survey of indigenous and introduced forms of African education, formal and informal, in comparative format. The impact of Islam and Christianity on traditional educational styles. The struggle for modernity and cultural autonomy within the context of imperialism and international rivalries. Problems of nation-building, popular participation, and human resource development; educational planning and international cooperation. Prereq> Grad standing or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ED POL 755 Methods of Qualitative Research Credits: 3
Introduces qualitative, or ethnographic, research methods, emphasizing those suitable for educational and other organizational settings. Considers strengths and limitations of qualitative approaches in relation to varied research problems. Explores methodological procedures from entry into the field through writing. Prereq> Cons inst
Typically Offered: Occasionally

ED POL 760 Education in Developing Societies Credits: 3
Selected systems of education with particular reference to the consequences of educational transfer or borrowing, and to education, nation building, and modernization. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ED POL 765 Issues in Educational Policy Analysis Credits: 3
Theory, research, and practical experience in educational policy analysis, including the social construction of policy problems in education; the design, implementation, and evaluation of policy responses; and the practical and ethical dilemmas of the policy analyst. Prereq> Grad st or cons inst
L&S Level: Advanced Typically Offered: Occasionally
ED POL 775 Policy Issues in Educational Assessment Credits: 3
Policy alternatives at K-12 level analyzed in historical and comparative perspective. Special focus on use of assessment as lever for school reform.
Typically Offered: Occasionally

ED POL 780 Special Topics in Educational Policy Studies Credits: 3
Topics vary each semester. See timetable for current topic. Prereq> Grad st
Typically Offered: Occasionally

ED POL 788 Qualitative Research Methods in Education: Field Methods I Credits: 3
Introductory field methods experience in qualitative research. Students will learn to define good research questions, determine which methods of data collection and analysis are useful for addressing those questions, engage in these methods, reflect on their utility in education research. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 719 or cons inst
Typically Offered: Spring

ED POL 789 Qualitative Research Methods in Education: Field Methods II Credits: 3
Focus on data analysis and translation of finds and implications. Students will gain theoretical and practical knowledge and skills regarding coding and analysis techniques, use of qualitative analytic tools, strategies for sharing findings with audiences beyond research team. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 788
Typically Offered: Spring

ED POL 795 Economics of Education Credits: 3
Shows how basic economic concepts are applied to the study of education policy and what economic research has concluded about the efficiency of various types of education systems. Prereq> Grad st
Typically Offered: Occasionally

ED POL 805 Gender Issues in International Educational Policy Credits: 3
Exploration and analysis of recent debates related to gender issues in international educational policy, including the intersection of education and demographic processes, the play of history and culture, and the social construction of gender. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ED POL 830 School Finance and Resource Allocation Credits: 3
Contemporary bases for collecting and distributing local, state, and federal funds for elementary and secondary education; problems and issues in financial support of education; current, alternative and more effective uses of educational resources. Prereq> Grad standing
Typically Offered: Occasionally

ED POL 855 Issues in Elementary Education Credits: 3
Critical survey of issues and trends; their social, educational basis; implications for elementary schools; examination and analysis of major problems. Prereq> Grad st
Typically Offered: Occasionally

ED POL 860 Proseminar: Theory and Method in Comparative Education Credits: 3
Critical analysis of theories, methods, and intellectual perspectives that have been employed in comparative studies of education. Prereq> Grad st and cons inst
Typically Offered: Occasionally

ED POL 870 Theories of Social and Educational Change Credits: 3
Analysis of several social theories emphasizing the explanation of social change, the role of education in the change process, and the implications for educational policy in contemporary society. Prereq> Grad st and cons inst
Typically Offered: Occasionally

ED POL 872 Educational Policy Research Design and Implementation Credits: 3
A policy research methods course which explores theories and practices relating to the development and implementation of educational policy with attention to matching appropriate policy research designs to policy goals and organizational contexts. Prereq> ELPA 870 or cons inst
Typically Offered: Occasionally
ED POL  890 Marketization and Education Policy  Credits: 3
This course examines the origins, trends and issues in educational markets in education and what research within and outside of education has concluded about the effects of existing varieties of marketization in education and short and long term effects.  Prereq> Open to Grad stdts
Typically Offered: Fall, Spring

ED POL  903 History of Education of Multicultural America  Credits: 3
Selected topics, issues and themes concerning the history of education of various groups of people of color in the United States, as well as selected issues, topics and themes focusing on immigration and ethnicity.  Prereq>
Grad st
Typically Offered: Occasionally

ED POL  906 Proseminar on the History of Education  Credits: 1 - 3
Reading in European or American educational history.  Prereq> Grad st and cons inst
Typically Offered: Occasionally

ED POL  907 Seminar-History of Education  Credits: 1 - 3
Studies in European and American educational history.  Prereq> Grad st and cons inst
Typically Offered: Occasionally

ED POL  908 Seminar-Sociology of Education  Credits: 3
Selected topics.  Prereq> Grad st or cons inst
Typically Offered: Occasionally

ED POL  909 Comparative History of Education in Colonial Societies  Credits: 3
Prereq> Grad st
Typically Offered: Occasionally

ED POL  911 Seminar in Urban Education  Credits: 2 - 3
Historical and contemporary urban education. Emphasis: preparation of graduate students to conduct research in problems of minority groups, and family influences on children. Open to graduate students in other disciplines and specialties which relate to the schools’ program in urban centers.  Prereq> Grad st or cons inst
Typically Offered: Occasionally

ED POL  920 Seminar in Education and Public Policy  Credits: 3
Educational policy in the context of broader social policy, role of research and analysis in the formulation and implementation of policy, and specific policy issues. Focus varies: one topic or several related topics.  Prereq>
Cons inst
Typically Offered: Occasionally

ED POL  925 Seminar Issues in Higher Education  Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

ED POL  955 Seminar- Qualitative Methodology  Credits: 3
An intensive, practice-oriented exploration of one qualitative research method such as participant-observation, interviewing, narrative analysis, oral history or ethnognography. Treatment of the method includes: logics of inquiry, analysis of data obtained through the method, and uses of the method.  Prereq> Grad st; soc, educ, or related soc sci background & cons inst
Typically Offered: Occasionally

ED POL  961 Seminar in Comparative Education: Area Studies  Credits: 3
Area varies. Possible areas: Africa, Ibero-America, Asia, and the Near East.  Prereq> Grad st & cons inst
Typically Offered: Occasionally

ED POL  962 Seminar in Cross National Studies of Educational Problems  Credits: 3
Topics vary. Examples: education and the formation of elites; education and socio-economic development; the social functions of examinations; comparative studies in church-state-school relationships; the status of teachers; American overseas programs in educational modernization.  Prereq> Grad st & cons inst
Typically Offered: Occasionally
ED POL 963 Seminar-Educational Planning & Curric Change-Developing Countries  Credits: 3
Analyses and critiques of educational plans related to the social, political, economic, and educational contexts of the target countries. Supervised practice in planning curricular change and educational reforms for particular countries in the light of realistic requirements and constraints. Prereq> Grad st & Curric/Ed Pol 640 or Ed Pol 340 or Ed Admin 875 or cons inst
Typically Offered: Occasionally

ED POL 970 Seminar in Anthropology and Education  Credits: 3
Anthropological theory, methodology, and field techniques with specific reference to school ethnography and cross-cultural studies of socialization and education. Topics vary. Prereq> Grad st
Typically Offered: Occasionally

ED POL 990 Research or Thesis  Credits: 1 - 12
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ED POL 999 Independent Reading Credits: 1 - 3
Prereq> Grad st and cons inst
Typically Offered: Occasionally

EDUCATIONAL PSYCHOLOGY

ED PSYCH 121 The Adolescent  Credits: 2 - 3
Physiological, social, and cognitive changes characterize transition from childhood to adult life. L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ED PSYCH 301 Human Abilities and Learning  Credits: 2 - 3
Principles and techniques of learning, individual differences in abilities. Prereq> So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED PSYCH 320 Human Development in Infancy and Childhood  Credits: 2 - 3
Normative processes and individual differences in physical, mental, social and emotional development and behavior from infancy through late childhood. Prereq> None
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED PSYCH 321 Human Development in Adolescence  Credits: 2 - 3
Physiological, social, and cognitive changes which characterize the transition from childhood to adult life. Prereq> None
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ED PSYCH 326 Mind, Brain and Education  Credits: 3
This course will provide an overview of methods and findings at the interface between education and neuroscience. Readings and lectures will present findings on brain development from birth to adolescence, brain changes in response to learning and how individual differences in brains relate to individual differences in learning. Educationally relevant domains including language acquisition and bilingualism, the brain basis of reading and mathematics and executive functions like memory, attention and emotion will be highlighted. Prereq> Sophomore standing
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ED PSYCH 331 Human Development From Childhood Through Adolescence  Credits: 3
Social and psychological aspects of human development from early childhood through adolescence; implications for education. Prereq> Enrl in, or Sophomore standing w/pre-certificat in, one of these teacher certificate programs: art for preschool/kindgrtn-grade 12; music for p/k-12; phy ed for p/k- 12; spec ed p/k-12, & grades 1-9
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
ED PSYCH 360 Informed Statistical Reasoning in an Uncertain World Credits: 2 - 3
Lectures and readings that introduce concepts and tools or statistical reasoning and analysis are coordinated with simulation activities designed to develop future educators' statistical literacy and decision-making skills in real-world problem contexts. Course assumes little prior statistics knowledge. Prereq> School of Ed stdts or admission to cert prgm in School of Ed
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ED PSYCH 506 Contemporary Issues in Educational Psychology Credits: 3
Influence of educational psychology upon issues and innovations in education. See Timetable for current topic.
Prereq> None
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ED PSYCH 521 Adolescent Development in Educational Contexts Credits: 3
Normative patterns of physical, mental, social, moral, and psychological development during adolescence, with special emphasis on influences of educational settings and implications for schooling. Individual differences in adolescent development resulting from family and cultural background, personal characteristics, and historical events. Prereq> Admission to secondary educ cert prgm
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ED PSYCH 533 Thinking, Feeling, & Learning Credits: 3
Covers the cognitive and emotional foundations of behavior with special reference to processes of learning and change. How does the science of thinking and feeling inform interventions such as teaching, counseling, or parenting? Topics covered include: dual-systems theories, neural and behavioral aspects of emotion and cognitive control, intuition, and expertise. We focus on the relation between unconscious, automatic processes and deliberate, effortful processes guiding behavior. Prereq> Consent of Instructor
Typically Offered: Fall

ED PSYCH 540 Introduction to Professional School Psychology Credits: 2
Introduction to the professional roles and functions of school psychologists; historical development; legal and ethical issues; overview of assessment, intervention, and consultation for children and adolescents at risk for, or with, academic, behavioral, emotional, and social difficulties; applied research in school psychology. Prereq> Grad st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

ED PSYCH 541 Applied Behavior Analysis in Classrooms Credits: 3
Application of behavioral analysis to educational situations for both exceptional and normal children and adolescents.
L&S Credit: No degree credit in L&S Typically Offered: Fall

ED PSYCH 542 The Biological Basis of Behavior Credits: 3
Content will focus on: neuroscience foundational concepts relevant to clinical mental health practice, neuroanatomy, neurophysiology, psychopharmacology, disease states; ontological and phylogenic neurodevelopment. Course will also provide overview of ethical/cultural implications of these scientific advances. Ethical/Cultural/Economic Applications. Prereq> Grad st & at least 8 credits of undergraduate biology (or the equivalent). Students must have a basic understanding of biology and human anatomy and physiology. This prerequisite would normally be met by two or three undergraduate level courses in biology
L&S Credit: No degree credit in L&S Typically Offered: Fall

ED PSYCH 551 Quantitative Ethnography Credits: 3
Explores the theoretical foundations and practical use of quantitative ethnography, focusing on new insights in the field of cognitive modeling and automated coding and their use in applied fields such as anthropology, education, market research, product development, assessment, and training. Prereq> Ed Psych 301, graduate standing, or consent of instructor
Typically Offered: Every Other Fall

ED PSYCH 570 Foundations of Educational Measurement Credits: 3
Theory of mental measurement, types of scales, reliability, validity, psychometric evaluation of published tests. Prereq> Any A-level Quantitative Reasoning course
General Education: QR-B L&S Credit: No degree credit in L&S Typically Offered: Fall
ED PSYCH 621 Adolescent Development in Educational Contexts Credits: 2
Overview of physical, cognitive, emotional, and social development during adolescence as these factors influence and are influenced by young people's experiences in educational institutions. Prereq: Enrollment in Secondary Teacher Education Masters degree and certification program
Typically Offered: Fall

ED PSYCH 699 Independent Reading Undergrad Credits: 1 - 6
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ED PSYCH 707 Personality Correlates of School Learning Credits: 3
Nature of personality and adjustment, relationship of personality to learning, implications of personality attributes and pupil behaviors for school curriculum, classroom, and pupil personnel services.
Typically Offered: Occasionally

ED PSYCH 708 The Study of Teaching Credits: 3
Alternative research approaches to the study of teaching; for example, process-product, aptitude treatment interaction, ethnographic. Prereq: Grad st
Typically Offered: Occasionally

ED PSYCH 709 Seminar in Research in Educational Psychology I Credits: 3
Areas of research in field, emphasis on logic of inquiry and development of strategies for investigating particular problems.
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ED PSYCH 710 Seminar in Research in Educational Psychology II Credits: 3
Planning and conducting empirical research project, with assistance from faculty advisor and course faculty. Prereq: Ed Psych 709
Typically Offered: Occasionally

ED PSYCH 711 Current Topics in Educational Psychology Credits: 1 - 3
Prereq: Cons inst
Typically Offered: Occasionally

ED PSYCH 714 Problem Solving, Thinking and Creativity Credits: 3
Theories and definitions of creativity, creative personality, creative thinking and problem solving processes, creativity testing, teaching for creative development, and teaching thinking skills. Prereq: Grad st
Typically Offered: Occasionally

ED PSYCH 715 Practicum for Teachers of the Gifted and Talented Credits: 3
Planning and conducting learning experiences for gifted students. Prereq: Ed Psych 501 and Grad st
Typically Offered: Occasionally

ED PSYCH 719 Introduction to Qualitative Research Credits: 3
Provides an overview of qualitative inquiry, examining assumptions, standards, and methods for generating and communicating interpretations. Methodological and theoretical works illustrate case study, ethnography, narrative, and action research. This course does not include a field method component. Prereq: Grad st
Typically Offered: Occasionally

ED PSYCH 720 Child Development Credits: 3
Individual development in infancy and childhood. Individual differences in and contextual influences on physical, cognitive, social, and personality development.
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ED PSYCH 721 Adolescent Development Credits: 3
Individual differences in and contextual influences on physical, cognitive, social, and personality development.
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ED PSYCH 722 Adult Development and Aging Credits: 3
Overview of individual development from young adulthood through middle and old age. Review of major conceptualizations of adult development and recent research regarding personality change, intellectual functioning, career and family stages, social relations, biological changes, sexuality, death and dying. Prereq: Ed Psych 723 or Ed Psych/Chld&Fam 725 or cons inst
Typically Offered: Occasionally
ED PSYCH 723 Developmental Processes Across the Life Span Credits: 3
Life-span perspective on studying individual development from conception to death. Emphasis on multidisciplinary, multidirectional, and contextual approaches to physical, psychological, social, and intellectual developmental processes. Prereq> Grad st
Typically Offered: Occasionally

ED PSYCH 725 Theory and Issues in Human Development Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

ED PSYCH 726 Ethnic and Racial Diversity in Social Development Credits: 3
Review of empirical and theoretical research on ethnic/racial diversity in social development across childhood, adolescence and early adulthood with emphasis on implications for counseling and school psychology. Prereq> Counseling psych or ed psych department major or consent of instructor
Typically Offered: Occasionally

ED PSYCH 731 Laboratory in Developmental Research Credits: 3
Emphasis on developing skills necessary for researchers in human development, observational techniques, experimental methods in infant and child research, design of lab equipments, research design for developmental problems.
Typically Offered: Occasionally

ED PSYCH 735 Legal and Ethical Bases of Counseling and Psychology Credits: 3
Legal and ethical issues for psychologists, with an emphasis on the APA ethics code and Wisconsin statutes relevant to psychological research and practice. Prereq>
Typically Offered: Fall

ED PSYCH 736 Seminar in Psychology of Individual Differences Credits: 3
Graduate-level seminar in the psychology of individual differences, providing broad and general coverage of theory and research related to individual and cultural differences. Prereq>
Typically Offered: Fall

ED PSYCH 737 Seminar in History and Systems of Psychology Credits: 3
Graduate-level seminar in the history of psychology, providing broad and general coverage of the development of psychology as a scientific discipline. Includes coverage of philosophy of science and systems of psychological inquiry, with applications to current research in psychology. Prereq>
Typically Offered: Summer

ED PSYCH 740 Cognitive Assessment of Children in the Schools Credits: 3
Theories of intelligence and intelligence testing, construction and validation of the Binet and Wechsler tests, administration of tests, interpretation of test results and report writing, recent research in intelligence testing. Prereq> Ed Psych 570 & 760 or Psych 210 & 370 or cons inst
Typically Offered: Occasionally

ED PSYCH 741 Social, Emotional, and Behavioral Assessment Credits: 3
Knowledge and skills necessary to conduct comprehensive assessments of social, emotional, and behavioral difficulties in children and adolescents; theoretical foundations; assessment procedures and instruments; diagnostic and eligibility criteria; early identification and intervention. Prereq> Ed Psych 740 or cons inst
Typically Offered: Occasionally

ED PSYCH 742 Assessment and Intervention for Academic Skill Problems Credits: 3
Assessment methods and intervention strategies for children with academic skill problems in educational settings; practice in application of assessment and intervention approaches to case studies. Prereq> Cons inst
Typically Offered: Occasionally
ED PSYCH 745 Designing and Managing the Learning Environment Credits: 3
This course provides students with knowledge and skills necessary to effectively and efficiently engage with students and manage the classroom environment. Students' ability to support the academic and social-emotional growth of children will be enhanced through knowledge gained regarding children's self-regulation, motivation, school climate, multi-tiered behavioral interventions, and schoolwide positive behavior support. Prereq> Students must be enrolled in the Master of Science for Professional Educators program or have consent of instructor
Typically Offered: Summer

ED PSYCH 752 Engaging with Education Research Credits: 1
This course introduces students to issues in consuming and conducting education research. The focus of the course is on research paradigms and methods frequently used in education research. Prereq> Enrollment in the Master of Science for Professional Educators program or consent of instructor
Typically Offered: Summer

ED PSYCH 760 Statistical Methods Applied to Education I Credits: 3
Introductory descriptive statistics and statistical inference; measures of central tendency and variability, confidence intervals, theory of hypothesis testing, correlation techniques.
Typically Offered: Occasionally

ED PSYCH 761 Statistical Methods Applied to Education II Credits: 3
Analysis of variance and covariance, multiple linear regression; chi-square and various nonparametric techniques. Prereq> Ed Psych 760 or Psych 210
Typically Offered: Occasionally

ED PSYCH 762 Introduction to the Design of Educational Experiments Credits: 3
Classical experimental designs and their application to educational research, factorial treatment arrangements, confounding, repeated measures design, and related topics. Prereq> Ed Psych 760, 761
Typically Offered: Occasionally

ED PSYCH 763 Regression Models in Education Credits: 3
An applied introduction to regression techniques is given, covering nonparametric regression, multiple linear regression and logistic regression. All applied analyses are done in the statistical programming language R. Prereq> Ed Psych 760 and 761, or equivalent introductory statistics courses (with consent of instructor)
Typically Offered: Fall

ED PSYCH 771 Test Construction Credits: 3
Procedures for development and analysis of educational tests and questionnaires; strategies for measurement of achievement, attitude, and interests; procedures for item analysis and assessment of reliability and validity. Prereq> Ed Psych 760 and 570
Typically Offered: Occasionally

ED PSYCH 773 Factor Analysis, Multidimensional Scaling and Cluster Analysis Credits: 3
Major types of factor models, nonmetric multidimensional scaling methods and clustering procedures. Methods of data collection, mathematical algorithms, estimating the number of factors, transformation and identification of factors. Prereq> Ed Psych 761
Typically Offered: Occasionally

ED PSYCH 775 Policy Issues in Educational Assessment Credits: 3
Policy alternatives at K-12 level analyzed in historical and comparative perspective. Special focus on use of assessment as lever for school reform.
Typically Offered: Occasionally

ED PSYCH 780 Teacher Leadership and Learning Communities Credits: 3 - 4
Focuses on knowledge and skills teachers need to be leaders in their schools in facilitating the development of strong learning communities that include students, teachers, families, administrators, and other educators. Main objectives are to help students understand key concepts, theories, and models used in building and sustaining effective learning communities; develop skills in creating practices that contribute to effective teacher leadership; and identify and strengthen skills needed to lead schools to build learning communities that promote student learning. Prereq> Enrollment in the Master of Science for Professional Educators program or consent of instructor
Typically Offered: Fall
ED PSYCH 788 Qualitative Research Methods in Education: Field Methods I Credits: 3
Introductory field methods experience in qualitative research. Students will learn to define good research questions, determine which methods of data collection and analysis are useful for addressing those questions, engage in these methods, reflect on their utility in education research. Prereq: Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 719 or cons inst
Typically Offered: Spring

ED PSYCH 789 Qualitative Research Methods in Education: Field Methods II Credits: 3
Focus on data analysis and translation of findings and implications. Students will gain theoretical and practical knowledge and skills regarding coding and analysis techniques, use of qualitative analytic tools, strategies for sharing findings with audiences beyond research team. Prereq: Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 788
Typically Offered: Spring

ED PSYCH 791 Master of Science for Professional Educators Capstone Credits: 1 - 4
The MSPE Capstone course is a class in which students complete an investigation of a policy or practice in their classroom, school, or school district. Students' capstone investigations are individualized to their interests and practice and reflect research and content knowledge gained from preceding MSPE courses. Prereq: Students must be enrolled in the Master of Science for Professional Educators
Typically Offered: Fall, Spring

ED PSYCH 792 Tools for Thought Credits: 3
Cognitive analysis of educational technologies, exploring relationships among tools, thinking, and learning. Studies of Froebel's gifts and occupations, typewriters, film and video, spreadsheets, word processors, the Internet, and other tools for analyzing technology and education.
Typically Offered: Occasionally

ED PSYCH 795 Introduction to Learning Sciences I Credits: 3
Survey of major theories and elementary cognitive and social processes in learning. Prereq: Grad st
Typically Offered: Occasionally

ED PSYCH 796 Introduction to the Learning Sciences II Credits: 3
Principles of learning emphasizing higher order cognitive and social processes. Prereq: Ed Psych 795 or cons inst
Typically Offered: Occasionally

ED PSYCH 821 Constructionism Credits: 3
This course is a survey of constructionist theory, research, and tools. Course content and activities will help students develop a deeper understanding of the history, theories, philosophies, tools, research, and technologies of constructionism and its children. Prereq: Graduate standing
Typically Offered: Occasionally

ED PSYCH 822 Introduction to Quantitative Inquiry in Education Credits: 3
Prepares doctoral students to use the concepts and methods of quantitative social science research to conduct research on education issues. Topics include hypothesis testing, statistical inference, point estimates, graphic and numerical data displays, correlation and regression. Prereq: Graduate standing
Typically Offered: Fall

ED PSYCH 827 Surveys and Other Quantitative Data Collection Strategies Credits: 3
This course examines the methods and concepts of survey research methods as they are commonly used in education research. Strategies include surveys (phone, mail, electronic, in person), logs/diaries, and experience sampling instruments. Emphasis is given to self-administered surveys, including periodic surveys, since these strategies are the most common in education research. Prereq: Graduate standing
Typically Offered: Fall

ED PSYCH 840 Clinical Practicum in School Psychology Credits: 1 - 6
Applied experience in comprehensive psychological and educational evaluation procedures with children, parent interviewing, school consultation; remedial therapeutic, and counseling techniques with children and parents; practicum experience individually determined by student's prior training and course work. Prereq: Ed Psych 740, 741 & cons inst
Typically Offered: Occasionally
ED PSYCH 844 Childhood and Adolescent Psychopathology in Schools Credits: 3
Reviews major psychological disorders of childhood and adolescence as relevant to schools; examines etiology and developmental course, documenting major characteristics and behavior correlates of disorders; provides a comparison of major diagnostic and classification systems for childhood psychopathology. Prereq> Grad st
Typically Offered: Occasionally

ED PSYCH 845 Psychopharmacological Treatments for Children and Adolescents Credits: 3
Provides an overview of psychopharmacological treatments of childhood and adolescent disorders in educational settings. Topics covered include basic biological principles of drugs and drug treatment, specific drug classifications and their biological actions, drug treatments for childhood disorders, and professional issues. Prereq> Grad st & cons inst
Typically Offered: Occasionally

ED PSYCH 861 Statistical Analysis and Design in Educational Research Credits: 3
A non-parametric perspective of classical experimental designs and their application to educational research, factorial treatment arrangements, repeated measures designs, and related topics. Prereq> Ed Psych 760 or equiv
Typically Offered: Occasionally

ED PSYCH 862 Multivariate Analysis Credits: 3
Advanced statistics devoted to multivariate distribution theory and analysis; multivariate analysis of variance, discriminant analysis, canonical correlation, etc., considered in relation to each other; review of contributions of Fisher, Hotelling, Rao, and others. Prereq> Ed Psych 861 or cons inst
Typically Offered: Occasionally

ED PSYCH 870 Test Theory I Credits: 3
Theory and principles of test development and validation, classical test theory, introduction to theory and method of scaling, statistical procedures, especially applicable to psychometrics. Prereq> Ed Psych 570 and 760
Typically Offered: Occasionally

ED PSYCH 871 Test Theory II Credits: 3
Continuation of 870. Theory underlying validity, scoring procedures, prediction and classification, normal, binomial, Poisson and logistic models. Prereq> Differential calculus and an intermed crse in stat required
Typically Offered: Occasionally

ED PSYCH 880 Prevention Science Credits: 3
This course provides a theoretical, empirical and practical foundation for prevention science as it relates to the prevention of human social problems. Research and evaluation methods, program design strategies, best practices and policy as they relate to the field of prevention are also examined. Prereq> 2nd yr Grad st or cons inst
Typically Offered: Occasionally

ED PSYCH 881 Capstone Seminar in Prevention Science Credits: 1
This course provides an opportunity for students to meet with prevention professionals and scholars from across campus and the community to explore current and emerging issues of prevention research and professional practice. Prereq> HDFS/Ed Psych/Nurs/Soc Work 880 & cons inst
Typically Offered: Occasionally

ED PSYCH 901 Seminar in Human Learning Credits: 2 - 3
Prereq> Grad st
Typically Offered: Occasionally

ED PSYCH 920 Seminar in Child Development Credits: 2 - 3
Specialized seminar focusing on topics in the social, emotional, and cognitive development of children. Investigations of the relations between development, learning, and behavior in educational contexts. See timetable for current topics. Prereq> Cons inst
Typically Offered: Occasionally

ED PSYCH 921 Seminar in Adolescent Development Credits: 2 - 3
Selected aspects of intellectual, emotional, physiological, personality and social development in adolescence. Understanding adolescent behavior in educational settings.
Typically Offered: Occasionally
ED PSYCH 922 Seminar in Adult Development and Aging Credits: 2 - 3
Variables in adult development and the aging process, intellectual changes, social and personality development in adulthood, implications for adult education. Prereq> Ed Psych 722 or 723 or cons inst
Typically Offered: Occasionally

ED PSYCH 925 Advanced Seminar in Human Development Credits: 2 - 3
This course is designed to provide an in-depth review and analysis of specific areas of human development, such as cognitive, moral, language, neurological, social, and personality development. Prereq> None
Typically Offered: Fall, Spring

ED PSYCH 928 Seminar: Interdisciplinary Approaches to Life-Span Development Credits: 3
An interdisciplinary examination of selected aspects of human development across the life-span. The influences of biological, psychological, family, economic, cultural and historical forces upon personality, cognitive, moral and social development throughout the life course. Prereq> Ed Psych 723, Soc 575 or Cave 640 or cons inst
Typically Offered: Occasionally

ED PSYCH 942 Systems of Consultation in School Psychology Credits: 2 - 3
Mental health, behavioral and organization development models of consultation in school psychology. Overview of evidence-based prevention and intervention programs as implemented in a consultation problem-solving process. Prereq> Cons inst
Typically Offered: Occasionally

ED PSYCH 943 Internship in School Psychology Credits: 1 - 12
Supervised individualized placements in appropriate schools, institutions, and community agencies; controlled exposure to job demands of school psychologists; experience in dealing with problem children, adolescents, and their families. Prereq> Cons inst
Typically Offered: Occasionally

ED PSYCH 944 Internship Preparation Credits: 1
Primary goal of this course is to help students in Counseling Psychology, Rehabilitation Psychology & Special Education, and the School Psychology Program prepare for their internship by providing recourses, guidelines, and support in selecting and applying to internship sites. Prereq> Dissertator status in the department
Typically Offered: Fall

ED PSYCH 945 Evaluation Research Credits: 3
A comprehensive introduction to practice of program evaluation research in social welfare and human development. Developments in descriptive, experimental, quasi-experimental, theory-driven, and naturalistic evaluations detailed. Topics include assessment, evaluation design, monitoring, outcome evaluation, selection bias, program theory, meta-analysis and utilization. Prereq> Grad st
Typically Offered: Occasionally

ED PSYCH 946 Advanced Assessment and Intervention Techniques Credits: 3
Advanced assessment practices and the corresponding link to intervention; intervention strategies and programs designed to improve the academic, emotional, behavioral and social functioning of children and adolescents. Prereq> Cons inst
Typically Offered: Occasionally

ED PSYCH 947 Evidenced-based Child and Adolescent Psychotherapy Credits: 3
Critical review of various psychotherapeutic approaches (cognitive, behavioral, psychodynamic) with special emphasis on identifying and implementing evidence-based assessment and interventions for a variety of behavioral and emotional problems experienced by children and adolescents. Prereq> Cons inst
Typically Offered: Occasionally

ED PSYCH 948 Research and Measurement Seminar in School Psychology Credits: 3
Focus on research and measurement methods, special topics, technical writing, and ethical principles in conducting research in school psychology. Emphasis on skills needed to design and complete individual research projects. Prereq> Consent of instructor
Typically Offered: Occasionally

ED PSYCH 960 Structural Equation Modeling Credits: 3
Introduction to the theory and practice of structural equation modeling in the educational and social sciences, including path analysis, confirmatory factor analysis and hybrid models. Prereq> Ed Psych 760 & 761, or equiv
Typically Offered: Occasionally
ED PSYCH 961 Seminar-Statistics and Research Design Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

ED PSYCH 963 Design & Analysis of Quasi-Experiments for Causal Inference Credits: 3
An applied introduction to causal inference with regression discontinuity designs, interrupted time series designs, non-equivalent control group designs (matching designs), and instrumental variable designs is given. Prereq> Ed Psych 763 or equivalent regression courses (with consent of instructor)
Typically Offered: Spring

ED PSYCH 964 Hierarchical Linear Modeling Credits: 3
Introduction to the statistical methodology of hierarchical linear modeling, including random intercept and random slope and intercept models; models for longitudinal data; and multilevel generalized linear models. Prereq> Ed Psych 760 & 761, or equiv
Typically Offered: Occasionally

ED PSYCH 971 Advanced Seminar in Educational Measurement and Statistics Credits: 1 - 2
Each week, students will read and discuss a different current article from the educational statistics and measurement literature. The purpose of this course is to explore a variety of subjects in which students might like to eventually conduct research. Prereq> Ed Psych 871 or cons inst
Typically Offered: Occasionally

ED PSYCH 990 Research or Thesis Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

ED PSYCH 995 Predoctoral Internship Credits: 0
Registration for Ph.D. students who have successfully defended the dissertation and are in the process of completing the required predoctoral internship. Prereq> Successful dissertation defense
Typically Offered: Fall, Spring, Summer

ED PSYCH 999 Independent Reading Credits: 1 - 3
Prereq> Grad St
Typically Offered: Occasionally

KINESIOLOGY

KINES 100 Exercise, Nutrition, and Health Credits: 2
Guidelines and assessment methods for fitness and nutrition. Motivation, adherence and stress-reduction techniques discussed. Lecture-demonstration concerning effects of exercise and nutrition on health and well-being. Team-taught by faculty and staff with expertise in exercise physiology, nutrition, and psychology. Prereq> Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

KINES 104 Aquatics Credits: 1
Attainment and maintenance of a high degree of personal efficiency in swimming strokes and proficiency in fundamental aquatic skills, and an understanding of the fundamental physiological, mechanical and kinesiological principles as they relate to aquatic performance. Prereq> Swimming I or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 115 Physiology of Human Performance Credits: 3
Humans are capable of achieving astonishing performances in athletics, in work and in other extraordinary situations. These extraordinary performances often provide important insights into physiological processes and their limits. This course integrates information from biology, chemistry, psychology, mechanics, etc., to understand the factors that determine and limit human performance from the molecular level all the way up to whole body movement. The emphasis in the class is on using case studies to investigate physiological processes underlying movement, exercise, and performance. Prereq> None
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
KINES 116 First Aid and Basic Life Support Credits: 2
Techniques and procedures to deal effectively with common emergencies. Includes training in airway obstruction, cardiopulmonary resuscitation, automated external defibrillation, injuries, and medical emergencies. Prereq> Open to Freshmen & all students-not to count credit towards degree for L&S students
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 119 Introduction to Kinesiology Credits: 2
Introduces students to the field of kinesiology and the Department of Kinesiology at the University of Wisconsin-Madison. Introductory material about physical activity and health will be provided, and career opportunities in kinesiology will be discussed. Prereq> Open to All Undergrads
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 121 Foundations of Physical Education Credits: 2
Introduction to physical education teaching, movement education, and an operational understanding of the scientific study of human movement. Lecture and lab. Prereq> PEC, PED or consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 123 Living well: Lifestyle balance and health promotion for college students Credits: 2
This course is designed to promote student's wellness as they manage college life and its demands. It examines health and well being related to college students' time-use patterns; balance among daily activities; daily routines and habits; circadian rhythms, energy cycles and sleep; self-care activities; and stress management. Students in this course apply course material to their own lives by participating in a self-analysis of their lifestyle, participating in mindfulness and other wellness activities, and engaging in a lifestyle balance project. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 125 Adapted Fitness and Personal Training Credits: 1
Fitness class for developing individualized personal goals. Accommodates persons having temporary or permanent disability. Alternative to dropping from other program classes due to injury or other medical reason. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 126 Gymnastics for Teaching Credits: 2
Teaching progressions, spotting, and safety in men's and women's gymnastics events and equipment. Prereq> Kines 121
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 127 Introduction to Athletic Training Credits: 2
An introductory course covering issues and basic concepts regarding prevention, management, and treatment of athletic injuries. The role of the athletic trainer in the sports medicine field is emphasized. Prereq> PKN or PED classification, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 129 Introduction to Yoga Practice Credits: 1
An introduction to yoga practice, philosophy, history, and traditions.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 134 Movement Techniques for Stress Management Credits: 1
Use of movement strategies to develop skills for reducing tensions associated with stress. Strategies include neuromuscular relaxation, flexibility exercises and movement awareness techniques. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 140 Science and Practice of Resistance Training Credits: 2
Lectures and demonstrations on the principles of resistance training and associated physiological effects designed for practitioners who wish to gain a detailed understanding of the science of resistance training. Prereq> None
Typically Offered: Fall, Spring
KINES 145 Choosing To Move: Constructing an Active Lifestyle  Credits: 2
Will promote physical activity at a level to achieve health benefits, particularly in students who currently are insufficiently active (less than 150 minutes each week of moderate intensity physical activity). Students will apply course materials (e.g., behavior change strategies) to their own lives by completing self-analysis of their physical activity levels and then developing a physical activity plan to increase current physical activity levels, as well as a plan to maintain the activity after the course has ended.  Prereq> None
Typically Offered: Fall, Spring, Summer

KINES 147 Tai Chi Ch’uan  Credits: 1
Learn and practice 24-movement Yang Style Tai Chi Form and Animal Frolic Qi Gong Form  Prereq> None
Typically Offered: Fall, Spring, Summer

KINES 197 Techniques in Athletic Training  Credits: 1
An applied clinical approach to basic skills commonly used in the field of athletic training. Designed for students interested in athletic training, and an appropriate elective for those who plan to teach or coach. Prereq> PKN or PED classification, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

KINES 227 Introduction to Clinical Anatomy of Human Movement  Credits: 2
Designed to provide students with a foundational knowledge in musculoskeletal anatomy and anatomical considerations related to human movement and physical activity. Prereq> Kines 127, enrolled in Kines 127, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 239 Physical Education and Sport: Their American Heritage  Credits: 3
Changing concepts developed in the U.S. which have led to the current status of the profession.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

KINES 240 Methods of Teaching Invasion Games and Sports  Credits: 1
An examination of differences and similarities of various invasion games. Sequencing of skills and development of concepts to produce effective performance. Instruction in the teaching of invasion games to incorporate individuals of all ability levels. Prereq> KNS or PED classification or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

KINES 277 Kendo: Integration of Martial Arts and Liberal Arts  Credits: 2
Kendo practice (martial art) supplemented by lecture describing its historical roots and philosophical background.
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

KINES 300 Practicum in Kinesiology  Credits: 1 - 3
Supervised experience in a specialized area of physical education. Prereq> Jr st & Kines 335 or 318 or 314, kines major or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 301 Advanced Techniques in Athletic Training  Credits: 2
A course to provide the future athletic training professional with a foundation in advanced athletic training techniques. Sample topics include: injury prevention, emergency care, orthopedic appliance applications, protective equipment, environmental considerations, and computer applications. Prereq> Kines 127, 197, acceptance into athletic training clinical program, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 314 Physiology of Exercise  Credits: 4
Fundamental knowledge about, and appreciation for, the adaptability of human physiological systems in meeting a range of exercise demands. Prereq> College chem & physiol; major in kinesiology or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

KINES 315 Assessment and Research in Physical Activity Pedagogy  Credits: 3
Course topics and laboratory experiences will focus on parameters that are measured in physical activity pedagogy; instruments for measuring physical activity, health related fitness, knowledge, and psychological characteristics; concepts of assessment and research, basic statistical methods; and action research. Prereq> Math 112 or exempt status; major in kinesiology or cons inst
General Education: QR-B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
KINES 316 Adapted Physical Activity Credits: 3
An understanding of foundations, assessment and pedagogy for individuals with disabilities in a variety of physical activity settings. Emphasis on individual differences, life-span, and self-actualization. Prereq: Anat 329 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 317 Recognition and Evaluation of Athletic Injuries Credits: 4
The evaluative skills and knowledge needed for minimum competency in the recognition and evaluation of common injuries in athletes and active populations. Prereq: Kines 127 & 197, acceptance into athletic training clinical program, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 318 Biomechanics of Human Movement Credits: 3
Analysis of human action through the application of mechanical principles. Prereq: Anatomy 328 & 329 and Math 112; major in kinesiology, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 323 Physical Education for Elementary School Children Credits: 3
Introduction to program development in physical education for elementary education majors. Prereq: El Ed majors or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 325 Group Development and Behavior Management Credits: 3
Provide students with opportunities and experiences to learn and participate in the development of groups. Provide students with strategies and experiences in the management of behaviors and techniques to maintain a safe and productive teaching environment. Prereq: None
Typically Offered: Spring

KINES 327 Current Topics in Outdoor Pursuits Credits: 1
Introduce students to several outdoor activities to enable the teaching of these topics. Prereq: Kinesiology 370 or consent of instructor
Typically Offered: Summer

KINES 330 Research in Kinesiology Credits: 2
The research process as applied in kinesiology, including hypothesis development, ethical issues, study design, measurement and statistical concepts, and presentation of results. Includes exposure to current research within the Department of Kinesiology. Prereq: Math 112 or exemption; Stats 371 or Psych 210 or equivalent; kinesiology major or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 332 Specialized Teaching Experience Credits: 1
Prereq: Kines 361, Curric 378, PEC designation or cons inst; current CPR & First Aid certification
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 335 Methods of Teaching Elementary Physical Education Credits: 3
Theory, organization, and teaching; small group teaching in elementary schools. Prereq: Kines 360 & Curric 378; PEC designation or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 350 Introduction to Exercise Psychology Credits: 3
Emphasis on the psychological foundations of exercise with motivational techniques, perception of effort, personality dynamics, and mental health serving as the focal points. Prereq: Junior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 351 Principles and Philosophy of Physical Education Credits: 2
The purposes, values, nature, scope, and significance of physical education.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
KINES 353 Physical Education in a Multicultural Society  Credits: 2
Familiarize students with perspectives of diversity, the concepts and importance of culturally responsive teaching, and the Act 31 requirement for teacher education students within a physical education/activity context. Students will have opportunities to incorporate concepts from class into their Multicultural Field Experience. Prereq> Kinesiology major and Junior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 355 Socio-Cultural Aspects of Physical Activity  Credits: 3
An introduction to the philosophy of physical activity/education, history of physical activity/education and sport, and sociology of sport. Prereq> Kinesiology major and Junior standing or consent of instructor. Successful completion of or exemption from Communication Part A requirement. Courses designated as satisfying the Part A requirement cannot be used to satisfy the Communication Part B requirement.
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Spring

KINES 357 Therapeutic Strategies in Athletic Training I  Credits: 4
A study of therapeutic intervention strategies used by athletic trainers. Evidence guided principles and clinical applications of therapeutic exercise, use of physical agents, indications and contra-indications, program design, progression, and standard documentation. Prereq> Kines 317 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

KINES 358 Therapeutic Strategies in Athletic Training II  Credits: 4
A study of therapeutic intervention strategies used by athletic trainers. Evidence guided principles and clinical applications of therapeutic exercise, use of physical agents, indications and contra-indications, program design, progression, and standard documentation. A continuation of Kines 357. Prereq> Kines 357
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 360 Lifespan Motor Development  Credits: 3
(For majors) Motor development in individuals at various points in the life span; use of such information as a framework for assessing levels of motor development. How to observe movement, interpreting and using such information as one important basis for planning what and how to teach. Prereq> Major in kinesiology or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring, Summer

KINES 361 Motor Learning and Performance  Credits: 3
A basic and up-to-date view of the major processes and mechanisms underlying the performance and learning of motor skills. Principles in motor learning and control are systematically introduced to produce a meaningful conceptual framework. Prereq> Psych 202 or Ed Psych 331; major in kinesiology or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

KINES 364 Assessment and Programming in Adapted Physical Education  Credits: 3
Physical education methods, programs and assessment procedures related to individuals with a variety of disabilities. Prereq> Kines 316 & 315 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 365 Practicum: Adapted Physical Education  Credits: 2
A practicum experience for individuals who are emphasizing the area of Physical Education/Special Populations. Six hours per week working with individuals who have disabling conditions. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

KINES 370 Planning and Teaching Physical Education  Credits: 2
Designed for students that will become physical educators. Teach students how to design appropriate learning experiences, develop caring and safe learning environments, and develop content specific to physical education. Challenge students to become reflective physical educators. Prereq> Kines 360; Physical Education BS degree program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 371 Methods of Teaching PK-12 Dance and Gymnastics  Credits: 3
Methods of instruction in movement concepts, educational dance and gymnastics. Students will gain practice in planning, teaching, and assessing home school students, as well as practice in assessing their own teaching. Students will apply concepts presented in Kines 370 Planning and Teaching Physical Education. Prereq> Successful completion (or concurrent) of Kinesiology 370, Dance 2, Dance 205 Kinesiology major, or consent of instructor
Typically Offered: Spring
KINES 372 Methods of Teaching PK-12 Educational Games and Fitness Credits: 3
Address methods of instruction in motor skills, educational games and fitness. Students will gain practice in planning, teaching, and assessing public school students, as well as practice in assessing their own teaching. Students will apply concepts presented in Kinesiology 370 Planning and Teaching Physical Education. Prereq: Successful completion of Kinesiology 370, Kinesiology major, or consent of instructor
Typically Offered: Fall

KINES 373 Methods of Teaching Secondary Sport Concepts and Skills Credits: 3
Addresses methods of instruction in sport tactical concepts and skills. Students will gain practice in planning, teaching, and assessing secondary school students, as well as practice in assessing their own teaching. The goal is for students to develop into proficient teachers. Students will apply concepts presented in Kinesiology 370 Planning and Teaching Physical Education. Prereq: Successful completion of Kinesiology 370, Kinesiology major and junior standing, or consent of instructor.
Typically Offered: Spring

KINES 390 Principles of Exercise Leadership Credits: 2
Introduction to the design of individual and group exercise programs utilized in fitness leadership roles. Supervised practical experience will be provided in class to assist the development of student leadership skills. Prereq: Kines 314 & Anat 329, kines major or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 399 Independent Study Credits: 1 - 3
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

KINES 400 Organization and Administration of Athletic Training Programs Credits: 3
Principles of organizational theory and administrative practice as they apply to athletic training and sports medicine programs. Emphasis on developing knowledge and skills needed for entry-level professionals in the athletic training field. Prereq: Kines 358 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

KINES 412 Organization and Administration of Physical Education Credits: 2
The presentation of materials and depth study of the organization and administration of a sound program of physical education, the knowledge of which is mandatory for all physical education teachers. Prereq: Jr st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

KINES 417 Advanced Clinical Assessment Techniques in Athletic Training Credits: 2
Designed to provide students with knowledge and skills in advanced clinical assessment techniques used in the evaluation of injuries, illnesses, and conditions found in physically active populations. Prereq: Kines 317 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 427 Fitness Testing and Exercise Prescription Credits: 3
Fitness assessment and exercise prescription principles are applied to the health-related fitness components through discussion and lab activities. Prereq: 762-335 Human Physiology
Typically Offered: Spring

KINES 450 Field Experience in Athletic Training Credits: 2
Each student serves as assistant athletic trainer or athletic trainer in a high school for one semester. Prereq: Kines 397 & 398 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

KINES 457 Medical Problems of Exercise and Sports Credits: 3
Responses of the human body to exercise and sports with specific discussion of acute and chronic medical problems which may affect performance. Emphasis on cardiopulmonary, metabolic, nutritional, fluid-electrolyte, heat-temperature regulation. Prereq: Athletic training area of conc or cons inst
General Education:  COM B  L&S Credit: No degree credit in L&S  Typically Offered: Spring
KINES 462 Methods of Teaching Secondary Physical Education Credits: 3
Designed to help students understand teaching methods at the secondary level. There will be opportunities to visit middle and high schools for observation and practice teaching. Prereq> Kines 318 or con reg; Kines 361; Curric 378; PEC classification or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

KINES 478 Elementary School Physical Education Student Teaching Credits: 2 - 8
Prereq> Adv reg in stdt tchg ofc, 109 Educ
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

KINES 479 Middle School or High School Physical Education Student Teaching Credits: 2 - 8
Prereq> Adv reg in stdt tchg ofc, 109 Educ
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

KINES 499 Seminar in Athletic Training Credits: 1
An advanced undergraduate seminar for students in the athletic training education program. Research trends, evidence-based clinical practice, and current topics in the field of athletic training are emphasized. Prereq> Kines 400 or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

KINES 501 Health Information for Teachers Credits: 3
Basic scientific health knowledge and its application to the total school program. Prereq> Junior standing or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

KINES 508 Workshop in Kinesiology Credits: 1 - 3
Prereq> Grad st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

KINES 516 Physical Activity for Diverse Abilities Credits: 3
Students will develop knowledge and skills necessary to provide meaningful and inclusive physical activity for diverse abilities across the life-span. Prereq> ANATOMY 328, major in Kinesiology, or consent of instructor
Typically Offered: Fall, Summer

KINES 521 Physical Activity and Health Credits: 3
Research evidence regarding how physical activity and fitness are related to health (e.g., during pregnancy and aging) and disease, especially cardiovascular diseases, obesity, diabetes, osteoporosis, and cancer. Application and communication of knowledge in practical situations. Prereq> Kines 314 or cons inst
General Education: COM B L&S Credit: No degree credit in L&S Typically Offered: Fall

KINES 523 Clinical Exercise Testing & Training Credits: 3
Physiological basis and methods of human exercise testing and training. Topics: clinical exercise physiology, exercise testing protocols, cardiopulmonary monitoring, basic ECG interpretation, exercise prescription. Prereq> Kines 314 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

KINES 525 Nutrition in Physical Activity and Health Credits: 3
The purpose of this course is to provide undergraduate and graduate students with both scientific knowledge and application of nutrition related to exercise, health, and sports. Prereq> Admission to Kinesiology(Athletic Training, Exercise and Movement Science, or Physical Education Teacher Education) or Nutritional Science major and Physiology 335
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

KINES 527 Principles of Strength and Conditioning Credits: 3
Present/discuss the scientific basis and current practices of strength and conditioning for athletic performance. Training program design and training methods, for performance enhancement, related to the areas of strength, power, speed, and endurance. Prereq> Admission to Athletic Training, Exercise and Movement Science or Physical Education Teacher Preparation Program, 742-314 - or consent of instructor
Typically Offered: Spring
KINES 531 Neural Control of Movement Credits: 3
Intermediate course on neuronal circuits and neurophysiological mechanisms involved in the control of human motor behavior. Including discussion of: 1) sensorimotor integration, 2) interactions between spinal, brainstem, and cerebral cortical levels of control, and 3) how motor control knowledge is created and evaluated. Prereq: College anatomy and physiology; major in kinesiology or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

KINES 541 Organization and Administration of School Health Programs Credits: 3
Theory, philosophy, patterns, and responsibilities. Prereq: Curric 501; admission to certificate program in elementary or secondary education or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 542 Teacher Education About Alcohol and Other Drugs Credits: 3
Social and cultural factors which influence the use and abuse of alcohol and other selected psychoactive drugs. Emphasis on educational concepts and processes important for instructional planning, curriculum strategies, value clarification, evaluation of learning, and countermeasure research developments. Prereq: Curric 501; admission to certificate program in elementary or secondary education or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 561 Teacher Education in Human Sexuality Credits: 3
Student teachers plan educational experiences through which children and youth can learn about human potential in sexuality. Prereq: Curric 501; admission to certificate program in elementary or secondary education or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 567 Issues, Materials and Methods in Health Education Credits: 3
Principles, materials, and methods. Prereq: Curric 501, 541, 542, & 561 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 590 Current Topics in Kinesiology Credits: 1 - 3
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

KINES 600 Advanced Exercise Psychology Credits: 3
Exercise and performance examined from the standpoint of motivation, personality dynamics, psychophysics, mental health, social psychology, and behavioral medicine. Prereq: Grad st or cons inst
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 614 Biological Factors Influencing Exercise Performance Credits: 3
Exploration of selected factors relative to performance and exercise physiology: e.g., ergogenic aids, nutritional factors, gender and age of the athlete, and long term competitive events. Prereq: Kines 314, kines major or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

KINES 615 Laboratory Techniques in Exercise Physiology Credits: 2
Laboratory procedures and skills commonly used in exercise physiology. Prereq: Kines 314, kines major or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

KINES 618 Biomechanics Credits: 2 - 3
Biomechanics of human movement and skill with emphasis on kinematics and kinetics. Prereq: Kines 218, Anat 329, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

KINES 699 Independent Study Credits: 1 - 3
Prereq: Kines major & Sr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

KINES 700 Psychological Effects of Exercise Credits: 3
Consequences of involvement in acute and chronic exercise on selected psychological states such as anxiety, depression, hostility, and self-esteem. Prereq: Kines 600 or cons inst
Typically Offered: Occasionally
KINES 721 Neural Basis for Movement Credits: 3
How the central nervous system organizes skilled human performance. Evolution of neuromuscular mechanisms, suberving skills, and the causes and limitations of movement at high speeds and high levels of force. Prereq> Neuroanatomy or neurophysiology or physiological psychology
Typically Offered: Occasionally

KINES 773 Cardiorespiratory Adaptations to Environment and Exercise Credits: 3
Examination of the effects of acute and chronic exercise and exposure to hypo- and hyperbaric environments on physiological responses; mechanisms underlying these responses. Prereq> Physiol 720 or cons inst
Typically Offered: Occasionally

KINES 774 Metabolic Responses to Exercise and Environmental Stress Credits: 2
Examination of the metabolic and biochemical responses to acute and chronic exercise and environmental stress. Emphasis placed on the mechanisms underlying these responses. Prereq> Physiol 720 or cons inst
Typically Offered: Occasionally

KINES 775 Analyzing Teaching in Physical Education Credits: 3
Examines various approaches to the study and improvement of physical education teaching. Conceptual and technical developments in the analysis of teaching, research systems, research findings, and practical approaches to observing teacher and student behavior and interaction. Prereq> Cons inst
Typically Offered: Occasionally

KINES 779 Human Muscle Function in Health and Disease Credits: 2
Multidisciplinary seminar on human muscle function in health and disease. The course is geared toward advanced undergraduate and graduate students in kinesiology, physical and occupational therapy, motor control and behavior, neurophysiology resident in neurology and other related allied health professionals. Prereq> Cons inst
Typically Offered: Occasionally

KINES 785 Human Occupation and Health Credits: 3
This course focuses on the nature of human occupation (everyday purposeful activity) and its relationship to well-being and health. Theories of occupation and health are critically examined. Prereq> Grad st or cons inst
Typically Offered: Occasionally

KINES 791 Physical Activity Epidemiology Credits: 3
Recommendations for and surveillance of physical activity in the U.S., and associations with health and disease at the population level. Emphasis on measurement techniques, study design and research considerations. Prereq> Grad st or cons inst
Typically Offered: Occasionally

KINES 800 Seminar-Exercise Psychology Credits: 2
Research oriented developments in exercise psychology. Prereq> Grad st
Typically Offered: Occasionally

KINES 851 Curriculum Development in Physical Education Credits: 3
Theory of curriculum development; principles applied. Problems in designing and changing curricula.
Typically Offered: Occasionally

KINES 853 Physical Education Curriculum in Higher Education Credits: 2
Planning and conducting the general college physical education curriculum. Application of principles of curriculum development in the context of current issues. Prereq> Kines 851 or cons inst
Typically Offered: Occasionally

KINES 861 Principles of Motor Control and Learning Credits: 3
Theories and experimental findings in motor control, acquisition and retention of motor behavior. Topics: attention, models of motor control, kinesthesia, learning, information processing, memory, transfer, feedback, age and gender differences. Prereq> Kines 361 or cons inst
Typically Offered: Occasionally
KINES 870 Principles of Measuring Motor Behavior Credits: 3
Test theory and its applications to measures of motor performance. Topics: measurement scales, reliability, validity, intraindividual variability, criterion score determination, measurement of change and criterion- and norm-referenced measurement. Prereq> Kines 315, Ed Psych 570, stat or cons inst
Typically Offered: Occasionally

KINES 885 Seminar in Occupation and Health Credits: 1
This seminar will focus on current theoretical and methodological issues and problems within the study of human occupation and health. Prereq> Grad st or cons inst
Typically Offered: Occasionally

KINES 900 Seminar in Kinesiology Credits: 1
This course provides a forum for students, faculty and staff from the department of kinesiology to present and discuss research and current issues related to the field of kinesiology. Prereq> Grad st or cons inst
Typically Offered: Occasionally

KINES 950 Seminar in Physical Activity Pedagogy Credits: 2
Current research in physical activity pedagogy with specific application to school, community and private youth physical activity programs. Prereq> Grad st or cons inst
Typically Offered: Occasionally

KINES 951 Seminar-Biomechanics Credits: 2
Prereq> Cons inst
Typically Offered: Occasionally

KINES 953 Human Biodynamics Seminar Credits: 1
Prereq> Kines 753 or cons inst
Typically Offered: Occasionally

KINES 955 Seminar - Physical Activity Epidemiology Credits: 1
Current research developments in physical activity epidemiology. Prereq> Grad st or cons inst
Typically Offered: Occasionally

KINES 960 Seminar-Motor Development Credits: 2
Prereq> Kines 880 or cons inst
Typically Offered: Occasionally

KINES 961 Seminar in Motor Control and Learning Credits: 2
Prereq> Kines 861 or cons inst
Typically Offered: Occasionally

KINES 963 Seminar-Motor Behavior Credits: 1
Typically Offered: Occasionally

KINES 970 Seminar-Measurement of Motor Behavior Credits: 2
Prereq> Kines 870
Typically Offered: Occasionally

KINES 990 Research or Thesis Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

KINES 991 Research in Physical Activity- Theory and Design Credits: 3
Basic principles of scientific inquiry and their application to the study of physical activity. Prereq> Stat 301, or Ed Psych 561, or equiv, or cons inst
Typically Offered: Occasionally

KINES 999 Independent Reading Credits: 1 - 4
Prereq> Grad st
Typically Offered: Occasionally

OCCUPATIONAL THER (DEPT-KINES)
OCC THER 100 Orientation to Occupational Therapy  Credits: 1
An opportunity to explore occupational therapy as a potential career; introduction to the general concepts of human occupation and adaptation; survey of OT practice settings and clinical groups.  Prereq> Open to Freshmen
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring

OCC THER 610 Professional Skills I: Professional Practice in Occupational Therapy  Credits: 2
The nature of professionalism and the development of the profession of occupational therapy; professional ethics; settings in which occupational therapists practice; the therapeutic process including principles of testing and measurement and documentation as these relate to occupational therapy practice.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

OCC THER 611 Professional Skills II: Communication & Interpersonal Skills in OT  Credits: 2
Communication with clients in occupational therapy, collaboration with other professionals about patient care and communicating with the public about occupational therapy; group dynamics and functional groups in occupational therapy; issues of culture and difference related to occupational therapy practice.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring

OCC THER 612 Professional Skills III: Organization and Management in OT Practice  Credits: 3
Principles and practices of organization and management and their application in both traditional and innovative occupational therapy practice settings.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

OCC THER 613 Professional Skills IV: Community-based OT Practice  Credits: 2
Knowledge and skills related to the practice of occupational therapy in innovative practice settings including occupation-based program planning and grant writing. Offered during the final semester on campus, also addresses issues related to career development in occupational therapy.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring

OCC THER 620 Occupational-based Theory and Practice  Credits: 2
Theories of human occupation. Research related to the form, function, and meaning of daily occupations for the individual and society.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

OCC THER 621 Assessment of Occupational Participation  Credits: 3
Skills required for assessment of occupational participation in various settings including the demands inherent in occupations, an individual's capacity to participate in the occupation, and environmental factors constraining and supporting participation.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

OCC THER 622 Infant and Childhood Occupations and Therapeutic Interventions  Credits: 4
Current research, theory, and core concepts relating to the therapeutic use of occupations to facilitate participation of children with disabilities and their families in everyday routines within their communities.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring

OCC THER 623 Adolescent and Young Adult Occupations and Therapeutic Interventions  Credits: 4
Theoretical foundations of occupational science related to occupational participation typically encountered during the adolescent and young adult years including the development of occupational engagement, conditions that may disrupt occupational roles, assessment, and therapeutic intervention processes.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

OCC THER 624 Middle and Late Adulthood Occupations and Therapeutic Interventions  Credits: 4
Theoretical foundations of occupational science as related to occupational participation typically encountered during the middle and late adulthood including the development of occupational engagement, conditions that may disrupt occupational roles, assessment, and therapeutic intervention processes.  Prereq> Current enrl in MS in occ ther or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring
OCC THER 625 Level-I Fieldwork: Infants and Children Credits: 1
Supervised clinical experience involving occupational therapy practice with children; companion course to Ther Sci 622. Prereq> Current enr in MS in occ ther or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

OCC THER 626 Level-I Fieldwork: Adolescents and Young Adults Credits: 1
Supervised clinical experience involving occupational therapy practice with adolescents and young adults; companion course to Ther Sci 623. Prereq> Current enr in MS in occ ther or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

OCC THER 627 Level-I Fieldwork: Middle and Late Adulthood Credits: 1
Supervised clinical experience involving occupational therapy practice with adults and elders; companion course to Ther Sci 624. Prereq> Current enr in MS in occ ther or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

OCC THER 629 Medical Lectures for Occupational Therapy Credits: 2
The study of medical and surgical management of individuals with a variety of orthopedic and neurological conditions relevant to occupational therapy practice. Lectures are presented by UW Hospital medical staff and occupational therapists experienced in the treatment of these conditions. Prereq> Anatomy 622; current enr in MS in occ ther prgm or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

OCC THER 662 Level II Fieldwork A Credits: 6
The first of two twelve-week, full-time supervised experiences of applied occupational therapy practice. Student conducts evaluations and provides treatment under supervision for an assigned caseload in an approved practice setting. The student begins Level II fieldwork after all academic coursework has been successfully completed. Prereq> Ther Sci 648, 649 & cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

OCC THER 664 Level II Fieldwork B Credits: 6
The second of two twelve-week, full-time supervised experiences of applied occupational therapy practice. Student conducts evaluations and provides treatment under supervision for an assigned caseload in an approved practice setting. The student begins Level II fieldwork after all academic coursework has been successfully completed. Prereq> Ther Sci 640, 641 & cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

OCC THER 671 Scientific Inquiry in OT I: Evidence-Based Practice. Credits: 2
Addresses the role of evidence in supporting occupational therapy practice. Covers the concepts, methods, and strategies related to evidence-based practice. The goal is to encourage the development of critical reading and writing skills. Prereq> Current enr in MS in occ ther prgm or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

OCC THER 672 Scientific Inquiry in Occupational Therapy II: Research Design and Methods Credits: 2
Supports the generation and use of evidence in occupational therapy practice. The course provides an overview of research design with particular relevance to understanding human occupation and the practice of occupational therapy. Prereq> Current enr in MS in occ ther prgm or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

OCC THER 673 Scientific Inquiry in OT III: Data Collection and Analysis. Credits: 3
Supports the development of a research proposal and the skills needed to implement a research project. Through a series of lectures, discussions, and lab activities students are guided through the development of a research proposal and analysis of data. Prereq> Current enr in MS in occ ther prgm or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

OCC THER 674 Scientific Inquiry in OT IV: Scientific Writing for Publication Credits: 2
Students complete a research project proposed in the previous course. Emphasis is on interpretation and dissemination of findings and contributing to the evidence for practice via development of a final paper and a poster presentation. Prereq> Current enrollment in MS in occupational therapy program or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Spring

PHYSICAL EDUC ACTIVITY PROGRAM
PE ACTIV 102 Beginning Swimming Credits: 1
Basic mechanical, physiological and psychological concepts, fundamental safety skills, and basic swimming strokes (front and back). Prereq> Non-swimmer. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 111 Self-defense and Assault Prevention Credits: 1
Introduction to the principles and skills of self-defense and their application to the prevention of assaults. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 126 Archery Credits: 1
Basic skills and knowledge of safety, etiquette, equipment, rules and tournament regulations. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 127 Bowling I Credits: 1
Basic skills and knowledge of safety and etiquette, understanding ball slide, rotation, spin angles applicable to lane dressing and ball porosity, terminology, rules, league, and tournament regulations. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 130 Running (Aerobic Fitness) Credits: 1
Basic skills and knowledge of running. Various types of running workouts, gradually increasing time or distance to increase training load. Train heart, lungs, blood vessels, and working muscles for aerobic fitness. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 131 Cross Training for Basic Fitness Credits: 1
Improve aerobic fitness, muscle strength, muscle endurance, and flexibility. Utilize various types of exercise (weight training, jump rope, swimming, water aerobics, circuit training, running, stair climbing, rowing and stationary cycling). Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 132 Weight Training Credits: 1
Basic knowledge and principles relevant to physiology of strength, power, and muscle endurance considered to achieve specific goals. Specialization permitted after eight weeks of program. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 133 Rhythmic/Step Aerobics Credits: 1
Pattern vigorous movements to music to improve cardiovascular fitness. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 138 Golf I Credits: 1
Basic skills and knowledge of proper grip, stance, putting, chipping, pitch shots, and full swing. Basic rules and etiquette. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

PE ACTIV 140 Ice Skating I Credits: 1
Basic skills and knowledge for non-skater. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 145 Ice Skating II Credits: 1
Ice skating techniques designed for the advanced beginner. Prereq> P E Activ 140 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 146 Windsurfing Credits: 1
Skills and knowledge needed in sailboard recreation and competition. Prereq> Entrance swim test. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 148 Introduction to Fly Fishing Credits: 1
An activity course designed to provide students with the introductory skills and knowledge needed to enjoy the lifelong activity of fly fishing. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable
PE ACTIV 149 Fitness Walking Credits: 1
A fitness walking class designed to introduce students to walking as a lifetime activity. General exercise, nutrition, injury prevention and weight management principles will be presented. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 155 Badminton I Credits: 1
Basic skills and knowledge of serve, overhead clear, drop shots, and smash. Concepts of court position, singles and doubles strategies, and rules. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 157 Topics in Fencing Credits: 1
Basic skills and knowledge of various fencing forms. Develop hand-eye and hand-foot coordination, balance, and aerobic capacity. Topics may include foil, sabre, theatrical, etc. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 162 Tennis I Credits: 1
Basic skills and knowledge of tennis. Develop forehand and backhand strokes, serve and volley. Increase flexibility, muscular strength, and endurance. Basic singles and doubles play. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 163 Racquetball I Credits: 1
Basic skills and knowledge of racquetball. Emphasis on stroke production involving service, forehand, backhand and ceiling shots, and selection and placement. Strategy and rules for game play. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 170 Basketball I Credits: 1
Instruction and practice for the inexperienced player. Emphasis on offensive and defensive fundamentals, individual offense and defense, team offense and defense, and game play. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 173 Soccer I Credits: 1
An introduction to offensive, defensive and transition playing skills in soccer for inexperienced players; exposure to rules, concepts of basic team play, and conditioning methods developed through a progression of controlled playing experiences leading to 11 player competition. Both indoor and outdoor soccer experiences will be provided. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 175 Volleyball I Credits: 1
Instruction and practice for the inexperienced player. Emphasis on offensive and defensive fundamentals, team offense and defense, and game play. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 177 Team Handball I Credits: 1
Instruction and practice for the beginning player in the fundamental skills of team handball. Areas of concentration include offensive fundamentals, defensive fundamentals, individual and team offense, individual and team defense, and game play. Prereq> Open to all Undergrads
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 179 Softball Credits: 1
Instruction and practice for the inexperienced and experienced players. Emphasis on offensive and defensive fundamentals, team offense and defense, and game play. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 191 Canoeing Credits: 1
Skills and knowledge to safely control craft on flat water: tandem and solo. Lecture and demonstration but predominately skill practice on Lake Mendota. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 192 Kayaking Credits: 1
Skills and knowledge to paddle kayaks. Basic techniques and safety. Flat water, touring and white water techniques and equipment. Primarily skill practice on Lake Mendota. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable
PE ACTIV 193 Downhill Skiing I Credits: 1
Basic skills of balance, rotary, edging and pressure skills, wedge and parallel turns, divided into ability levels as needed. Experienced students review integration of basic skills and parallel skiing, optimum use of shaped skis, and moguls. Snowboarding I also offered under this number. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 194 Orienteering Credits: 1
A sport of cross country navigation using map, compass and terrain association techniques to locate control markers. Can be used as a recreational or a competitive sport activity. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 196 Cross Country Skiing I Credits: 1
Basic skills and knowledge of cross-country skiing. Technique, safety, theory, conditioning, striding, and skating are developed. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 197 Sailing I Credits: 1
Basic skills and knowledge for safe use of small sailboat on inland lakes for recreation and competition. Emphasis on safety considerations. Prereq> Completion of entrance swim test. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 201 Intermediate Swimming Credits: 1
Knowledge and skill necessary to swim five basic strokes (front crawl, back crawl, elementary backstroke, sidestroke, breaststroke) to increase endurance, gain further understanding of mechanical and physiological concepts. Increase and improve safety and rescue skills. Prereq> PE Activ 102 or equiv proficiency. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 211 Introduction to Martial Arts Credits: 1
Basic skills of a selected martial art practiced as an art form requiring discipline and dedication. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

PE ACTIV 212 Basic Scuba I Credits: 1
Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 227 Bowling II Credits: 1
Prereq> PE Activ 127 or equiv. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 230 Topics in Advanced Fitness Training Credits: 2
For students with exposure to the activity desiring training at a higher skill and knowledge level. Topics will change due to student interest and instructor availability. See the current Timetable for listing. Prereq> Entry level crse in topic or cons inst. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

PE ACTIV 231 Marathon/Distance Training Credits: 2
Advanced running course. Principles of long distance/marathon running are discussed and applied; provides a foundation for high level aerobic fitness. Lecture/discussion in areas of biomechanics, nutrition, training principles and programs, physiology, and running performance. Tempo/endurance featured throughout course. Prereq> Min 1 yr running experience. Currently running approx 20 miles/wk. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable

PE ACTIV 232 Weight Training II Credits: 1
Intermediate and advanced resistance training concepts. Opportunity to formulate and perform individualized routines incorporating high-intensity training methods. Techniques for building and shaping all major muscle groups and sub-groups for specialization. Prereq> PE Activ 132. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Not Applicable
PE ACTIV 238 Golf II Credits: 1
Strengthen basic skills. Comprehensive review of putting, approach shots, and full swing. Identify causes of hook or slice. Introduction to shots from hazard. Driving range and on-course experience. Prereq> PE Activ 138 or equiv. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 244 Power Skating Credits: 1
Develop technique for maximum power in forward, backward, and lateral stroking. For hockey players, officials, and figure skaters. Prereq> Cons inst. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 255 Badminton II Credits: 1
Strengthen knowledge of game play, strategies and additional skills. For student with sound background in badminton. Prereq> PE Activ 155 or equiv. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 257 Fencing II Credits: 1
Continuation of 157. Students may continue to specialize in the weapons trained with in course 157. Prereq> PE Activ 157 or cons inst. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 262 Tennis II Credits: 1
Intermediate. Review and strengthen basic skills. Approach shots, spin serve, overhead lob and smash added. Prereq> PE Activ 162 or equiv. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 263 Racquetball II Credits: 1
Intermediate to advanced. Comprehensive review of basics. Introduction to new shots and advanced drills to improve all stroke and shot techniques. Emphasis on shot selection and execution in context of game setting. Strategies for singles and doubles play. Prereq> Racquetball I or cons inst
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 270 Basketball II Credits: 1
Instruction and practice for experienced players. Emphasis on refining fundamental skills, developing offensive and defensive strategies, officiating, and game play. Prereq> PE Activ 170 or equiv. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 273 Soccer II Credits: 1
Offensive, defensive, and transition playing skills and team tactics in soccer for experienced players. Prereq> PE Activ 173 or equiv or cons inst
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 275 Volleyball II Credits: 1
Instruction and practice in power volleyball for experienced players. Emphasis on refining fundamental skills, playing complex offenses and defenses, and officiating. Prereq> PE Activ 175 or equiv. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 295 Bicycling Credits: 1
Usually mountain biking in spring and road biking in fall. Improve personal riding skills and fitness. Components include safety, proper bike fit, bike maintenance, trail/road etiquette, riding techniques, fitness development. Prereq> Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*

PE ACTIV 300 Workshop in Physical Activity Credits: 1 - 2
Topics will change due to student interest and instructor availability. See the current Timetable for listing. Prereq> Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Fall, Spring*

PE ACTIV 301 Swimming Endurance and Stroke Proficiency Credits: 1
Focuses on the knowledge and skills necessary to swim at an advanced level, to increase endurance using a variety of training methods, and to gain further understanding of the concepts of swimming and water safety. Prereq> PE Activ 201 or equiv instruction at intermed level. Open to Fr
L&S Credit: *No degree credit in L&S* Typically Offered: *Not Applicable*
PE ACTIV 303 Aquatic Conditioning Credits: 1
Introduces skilled swimmer to training concepts to improve and maintain personal fitness level. Provides background for development of sound personal training program in aquatics. Prereq> PE Activ 301 or adv swimming proficiency
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 307 Swimming for Triathlons Credits: 1
A course for intermediate to advanced level swimmers with emphasis on front crawl and breast stroke techniques. Training methods, skills, and safety specific to open water swimming will be a major focus. Prereq> PE Activ 201 or equiv. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 308 Principles of Lifeguarding and Swimming Supervision Credits: 2
Lifeguarding at swimming pools or at non-surf, open water beaches. Prereq> Entry test given on first class meeting. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 310 Water Safety Instructor Credits: 2
Attain and maintain high degree of personal efficiency in rescue/swimming skills, understand principles of learning and their applications to aquatics. Develop sound teaching methods and progressions for learning in area of aquatics and water safety to prepare to teach within the American Red Cross swimming and water safety program. Prereq> Current lifeguarding certificate or cons inst. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 313 Lifeguard Training Renewal Credits: 1
For the student who has current lifeguard certification. Upgrading of skills necessary to maintain a high level of proficiency in lifeguarding techniques. Successful completion of requirements will lead to American Red Cross recertification. Prereq> Current certification in Lifeguard Training (Amer Red Cross or YMCA), First Aid, and CPR (Red Cross or Heart Assoc)
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 318 Topics in Martial Arts Credits: 1 - 2
A one semester course with rapier and dagger, and hand-and-a-half sword. The practice and study of fencing using archaic weapons that will include the sociological and philosophical study of archaic weapons use and concepts of warriordship, chivalry and honor as existed in the Medieval and Renaissance eras.
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 330 Triathlon Training Credits: 2
An intensive conditioning program based on a cross-training approach to safely achieve a high level of personal fitness commensurate with participation in a triathlon event (swimming, bicycling and running). Prereq> Completion of swim test (minimum 500 yd/12 min administered first activity day)
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

PE ACTIV 362 Tennis III Credits: 1
Advanced. Major attention to demands and preparation for organized competitive play. Strategies and tactics for singles/doubles game play. Prereq> PE Activ 262 or equiv. Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Not Applicable

REHAB PSYCH & SPECIAL EDUC

RP & SE 200 Issues in Special Education Credits: 3
Designed for students interested in learning about special education, particularly careers in this field. Course will provide information on the history and evolution of special education and special educators¿ roles. Prereq> Only students with Freshman or Sophomore standing may enroll
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

RP & SE 300 Individuals with Disabilities Credits: 3
An overview of the characteristics and problems of exceptional children and youth. Definition and classification systems, etiology of handicapping conditions, educational services, and adult adjustment. Current controversies and future trends. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
RP & SE  330 Behavior Analysis: Applications to Persons with Disabilities  Credits: 3
Children with exceptional learning and behavior characteristics (contrasting views and practices); a humanistic
behavioral approach; development and evaluation of behavior change programs, classification and foundations of
exceptional learning and behavior characteristics, and facilitating behavior change in different settings. Prereq>
RP & SE 300 & SPE or RPS or PSR
L&S Credit:  No degree credit in L&S  Typically Offered: Fall, Spring

RP & SE  360 Prepracticum: Special Education  Credits: 1 - 3
L&S Credit:  No degree credit in L&S  Typically Offered: Occasionally

RP & SE  365 Teaching Mathematics in Inclusive Settings  Credits: 4
Designed to introduce preservice teachers to a variety of approaches for teaching mathematics to students in
inclusive schools. Prereq> Admission to certification program or consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered: Spring

RP & SE  401 Augmentative and Alternative Communication and Assistive Technology for Students with Disabilities  Credits: 1
Covers theoretical foundations for the assessment and selection of assistive technology and augmentative and
alternative communication (AAC) for students with significant disabilities. Prereq> Admission to certification
program or consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered: Spring

RP & SE  402 Methods in Teaching Functional Skills  Credits: 1
Applies knowledge and skills for functional assessment and applied behavior analysis in the design and
implementation of an individualized, functional curriculum for students with moderate to profound intellectual
disabilities and autism spectrum disorders. Prereq> RP&SE 300 & admission to certification program or consent
of instructor
L&S Credit:  No degree credit in L&S  Typically Offered: Fall

RP & SE  403 Promoting Adolescent Literacy for Students with Disabilities  Credits: 1
Designed to prepare future special educators to plan and provide language and reading instruction to adolescents
with disabilities. Prereq> RP&SE 300 and RP&SE 465 or consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered: Fall

RP & SE  404 Methods in Teaching Science & Social Studies for Students with Disabilities  Credits: 1
Prepares future special educators to plan and provide Science and Social Studies instruction to a broad range of
students with disabilities. Prereq> RP&SE 300 and admission to certification program or consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered: Spring

RP & SE  405 Current Topics in Special Education  Credits: 1
Explores current issues, topics, and trends in special education. Prereq> Consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered: Spring, Summer

RP & SE  450 Collaborating with Families of Individuals with Disabilities  Credits: 3
The impact of disability on families; collaborative approaches to involving families in service planning. Prereq>
RP&SE 300 & Jr st
Typically Offered: Spring, Summer

RP & SE  464 Diagnosis, Assessment, and Instructional Planning in Special Education  Credits: 4
Introduction to assessment terms and tools used to assist in the identification and diagnosis of students with
disabilities; provide the skills necessary to collect and use assessment data to promote the successful outcomes
in core academic instruction for students with disabilities. Prereq> RP & SE 300 & admission to cert program or
cons inst
L&S Credit:  No degree credit in L&S  Typically Offered: Fall

RP & SE  465 Language and Reading Instruction for Students with Disabilities  Credits: 4
Designed to prepare future special educators to plan and provide language and reading instruction to a broad
range of students with disabilities. Prereq> RPSE 300 and admission to certification program or consent of
instructor
General Education:  COM B  L&S Credit:  No degree credit in L&S  Typically Offered: Spring
RP & SE 466 Diversity in Special Education Credits: 3
Introductory overview of special education for culturally and linguistically diverse (CLD) learners with disabilities. Prereq> RP & SE 300 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

RP & SE 467 Elementary Student Teaching Seminar Credits: 2
Course addresses professionalism, research and problem solving, assessment, and collaborative skills relevant to the elementary special education student teaching placement. Prereq> Admission to certification program, concurrent registration in RP&SE 477 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

RP & SE 468 Secondary Student Teaching Seminar Credits: 2
Course addresses professionalism, research and problem solving, assessment, and collaborative skills relevant to the secondary special education student teaching placement. Prereq> Admission to certification program, consent of instructor, or concurrent registration in RP&SE 478
L&S Credit: No degree credit in L&S Typically Offered: Spring

RP & SE 469 Academic Instruction: Learning and Behavioral Disabilities Credits: 3
Features of effective academic instruction for students with learning and behavioral disabilities. Applications to reading, language, writing, spelling, mathematics, science, and social studies instruction. Phonemic awareness and phonics instruction included. Prereq> RP & SE 300 & 330 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Summer

RP & SE 470 Individuals with Learning and Behavioral Disabilities Credits: 3
Provides basic and comprehensive information about biological, educational, sociological, cultural, economic and legal phenomena that impinge upon individuals with a wide array of learning and behavioral disabilities. Prereq> RP & SE 300, So st or cons inst
Typically Offered: Fall, Spring

RP & SE 471 Methods and Curriculum: Learning and Behavioral Disabilities, K-9 Credits: 3
Individualized educational planning in academic, social-emotional and behavioral areas for students with learning and behavioral disabilities, grades kindergarten through nine. Philosophy and content based on application of theory-to-practice and empirical techniques. Prereq> RP & SE 469, 470, admission to cert prog & con reg in 475
L&S Credit: No degree credit in L&S Typically Offered: Fall

RP & SE 472 Methods in Transition and Vocational Education Credits: 3
Provides information and methods necessary to provide individualized programming in transition and vocational education for students with disabilities, grades six through twelve. Prereq> RPSE 300 and admission to the SE certificate program or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

RP & SE 473 Management: Students with Learning and Behavioral Disabilities Credits: 3
Topics and issues regarding the educational management of students with learning and behavioral disabilities in grades kindergarten through twelve. Prereq> RP & SE 469, 470 & admission to cert prog
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

RP & SE 474 Diagnosis and Assessment: Learning and Behavioral Disabilities Credits: 3
Educational evaluation, including participation in Multi-Disciplinary Team planning and curriculum based assessment of pupils with learning and behavioral disabilities in grades kindergarten through twelve. Prereq> RP & SE 471 or 472 & admission to cert prog
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

RP & SE 475 Special Education Practicum: Middle Childhood - Early Adolescence Credits: 3 - 6
Practicum teaching in an approved placement with a qualified cooperating teacher serving students with disabilities in any of grades K-8, supervised by a qualified university supervisor. Placement schedule determined by course instructor. Prereq> Admission to Special Education certificate program and consent of department
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
RP & SE 476 Practicum: Students with Learning and Behavioral Disabilities, 6-12 Credits: 5 - 7
A minimum of 225 hours per semester required. An approved placement with a qualified cooperating teacher and supervised by a teacher certified in special education (intellectual disabilities, behavioral/emotional disabilities, learning disabilities). Approved placement for students in grades six through twelve. Prereq> RP & SE 469, 470, admission to cert prog & con reg in 472
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

RP & SE 477 Special Education Student Teaching: Middle Childhood - Early Adolescence Credits: 6 - 12
Full time student teaching in an approved placement with a qualified cooperating teacher serving students with disabilities in any of grades K-8, supervised by a qualified university supervisor. Placement schedule follows the host school district calendar. Prereq> Admission to Special Education certificate program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

RP & SE 478 Special Education Student Teaching: Early Adolescence - Adolescence Credits: 6 - 12
Full time student teaching in an approved placement with a qualified cooperating teacher serving students with disabilities in any of grades 6-12, supervised by a qualified university supervisor. Placement schedule follows the host school district calendar. Prereq> Admission to Special Education certificate program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

RP & SE 479 Language and Reading Instruction: Learning & Behavioral Disabilities Credits: 3
Specific methods, strategies, and procedures for assessing and teaching reading and language skills to students with learning and behavioral disabilities. Covers methods of teaching phonemic awareness, phonics, fluency, vocabulary, and text comprehension. Prereq> RP & SE 469
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

RP & SE 500 Rehabilitation-Counseling Psychology: Foundations Credits: 3
History, philosophy, principles, legislation, and development of vocational rehabilitation; organizational structure and objectives of the principal community agencies. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Summer

RP & SE 501 Rehabilitation-Counseling Psychology: Applications Credits: 3
Introduction to rehabilitation and human service programs for people with disabilities and other special needs. Emphasis on communication relevant to professional service, particularly writing. Prereq> Con reg in RP&SE 630 for 3 cr
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

RP & SE 505 Biological, Psychosocial, and Vocational Aspects of Disabilities Credits: 3
This course will provide students with an overview of disabilities with an emphasis on biological, psychosocial, and vocational aspects. Prereq> RP&SE 300 & SPE or RPS or PSR
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Summer

RP & SE 506 Strategies for Inclusive Schooling Credits: 3
Comparison of historical and current practices in special education; legal, philosophical, and programmatic changes leading to inclusive models of education; emphasis on concepts of collaboration, cooperative learning structures, and curricular and instructional adaptations to accommodate learners with disabilities in general education classrooms. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

RP & SE 540 Assessment of Adults with Disabilities Credits: 3
Assesses the vocational status and potential of people who have disabilities, with paper and pencil and situational-performance tests. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

RP & SE 550 Rehabilitation Psychology-Medical Aspects Credits: 2 - 3
Medical and psychiatric care and rehabilitation; physical restoration; etiology, prognosis and therapy of common disabling conditions.
L&S Credit: No degree credit in L&S  Typically Offered: Spring
RP & SE 560 Psychosocial Aspects of Chronic Illness and Disability Credits: 3
Provides a Bio-psycho-social approach to the dynamics of coping and adjustment to disability and chronic illness and investigates the effects of prevailing societal attitudes towards persons with disabilities and strategies for attitude change. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

RP & SE 630 Internship in Rehabilitation or Special Education Credits: 2 - 6
Practicum experience in state or community agencies or in public school programs serving individuals with physical, cognitive, emotional, learning, social or behavioral problems. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

RP & SE 631 Introduction to Augmentative Communication Credits: 3
Overview of assistive technology applications for individuals with significant motor, cognitive, and/or perceptual disabilities. Emphasis is placed on augmentative and alternative communication, alternative access, seating and positioning and computer interface. Prereq> Jr st or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

RP & SE 660 Special Topics Credits: 1 - 6
An individualized approach in a variety of settings to learning problems encountered by those working with the atypical. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

RP & SE 670 Practitioner Research in Special Education Credits: 3
Instruction and practice in the use of applied research techniques by the special educator.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

RP & SE 690 Research or Thesis Credits: 1 - 3
Prereq> Masters stdts cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

RP & SE 699 Independent Reading Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

RP & SE 700 Seminar: Rehabilitation Psychology Research Credits: 2 - 3
Continuing seminar for students in rehabilitation counseling; methods, research information, dissemination, and/or thesis development. May be repeated for credit. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 710 Multicultural Issues in Special Education Credits: 3
This course is designed to engage participants in an exploration and discussion of issues and trends in special education as relates to the diversity of populations, based on race/ethnicity, socioeconomic backgrounds, disability label, gender, language dominance, etc., receiving special education. Prereq> Grad st or cons inst
Typically Offered: Fall, Spring, Summer

RP & SE 719 Introduction to Qualitative Research Credits: 3
Provides an overview of qualitative inquiry, examining assumptions, standards, and methods for generating and communicating interpretations. Methodological and theoretical works illustrate case study, ethnography, narrative, and action research. This course does not include a field method component. Prereq> Grad st
Typically Offered: Occasionally

RP & SE 725 Career Counseling and Job Placement for People with Disabilities Credits: 3
Basic aspects of career development and job placement for people with disabilities.
Typically Offered: Occasionally

RP & SE 729 Advanced Social Psychology Credits: 3
Intensive examination of theoretical conceptions in contemporary social psychology, including learning-theoretic, reinforcement, incentive, cognitive, and psychodynamic approaches, and research in selected topic areas reflecting these approaches, such as aggression, attitude formation and change, conformity, limitation and modeling, interpersonal attraction, perception of others, prosocial behavior, and social influence. Prereq> Grad st or Sr st and cons inst
Typically Offered: Occasionally
RP & SE 735 Legal and Ethical Bases of Counseling and Psychology Credits: 3
Legal and ethical issues for psychologists, with an emphasis on the APA ethics code and Wisconsin statutes relevant to psychological research and practice. Prereq>
Typically Offered: Fall

RP & SE 736 Seminar in Psychology of Individual Differences Credits: 3
Graduate-level seminar in the psychology of individual differences, providing broad and general coverage of theory and research related to individual and cultural differences. Prereq>
Typically Offered: Fall

RP & SE 737 Seminar in History and Systems of Psychology Credits: 3
Graduate-level seminar in the history of psychology, providing broad and general coverage of the development of psychology as a scientific discipline. Includes coverage of philosophy of science and systems of psychological inquiry, with applications to current research in psychology. Prereq>
Typically Offered: Summer

RP & SE 741 Computer Software and Qualitative Data Analysis Credits: 3
This course is designed to provide students opportunity to gain knowledge and skill for coding and analyzing qualitative data using NVivo, a qualitative analysis software package. Qualitative data includes audio, video, and visual artifacts and representations collected and created through interviews, document reviews, memos, and observation. It is a lab course; therefore, students bring their own data and work through analytic exercises following an individualized path to assignment completion. Readings and discussions will focus on epistemic perspective and analysis. Prereq> RPSE 788 and RPSE 789 or consent of instructor
Typically Offered: Summer

RP & SE 788 Qualitative Research Methods in Education: Field Methods I Credits: 3
Introductory field methods experience in qualitative research. Students will learn to define good research questions, determine which methods of data collection and analysis are useful for addressing those questions, engage in these methods, reflect on their utility in education research. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 719 or cons inst
Typically Offered: Spring

RP & SE 789 Qualitative Research Methods in Education: Field Methods II Credits: 3
Focus on data analysis and translation of finds and implications. Students will gain theoretical and practical knowledge and skills regarding coding and analysis techniques, use of qualitative analytic tools, strategies for sharing findings with audiences beyond research team. Prereq> Coun Psy/Curric/ELPA/Ed Pol/Ed Psych/RP & SE 788
Typically Offered: Spring

RP & SE 801 Research, Policies and Practices in Special Education Credits: 3
Issues, research and theory in the education of individuals with disabilities. Advanced technical writing and reporting. Prereq> Post masters st & cons inst
Typically Offered: Occasionally

RP & SE 802 Specialized Studies of Individuals with Disabilities Credits: 3
Links among research, theory and practice in relation to major contemporary issues. Prereq> Post masters st & cons inst. Part of initial 2 crse requirement in spec educ doctoral study, 801-802
Typically Offered: Occasionally

RP & SE 803 Current Issues in Special Education Credits: 1
Required of all full-time graduate students in special education; student research and current topics of special interest. Prereq> Req of all full-time Ph.D. stdts in spec ed
Typically Offered: Occasionally

RP & SE 810 Rehabilitation Counseling Psychology-Techniques Credits: 2 - 3
Counseling tools and techniques as used in the rehabilitation process with disabled or disadvantaged persons; use of counseling theory and techniques, diagnostic procedures and the decision-making process, and relationships within a multi-disciplinary team.
Typically Offered: Occasionally
RP & SE 820 Rehabilitation Counseling Psychology-Theories and Issues Credits: 2 - 3
Theoretical bases of counseling and related individualized procedures used in rehabilitation counseling; relevance for professional practice with physically, mentally and culturally handicapped persons; evaluation of related research. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 835 Leadership for Inclusive Schooling Credits: 3
Examines historical and organizational context of special education administration at the federal, state and local levels. Includes policy implementation, constituency management, coordination, communication, and current issues. Prereq> ELPA 702 & 735
Typically Offered: Occasionally

RP & SE 840 Rehabilitation Counseling Psychology-Group Procedures Credits: 3
Theory, technique, and supervised practice in conducting group counseling and related procedures with persons with physical and mental handicaps. Prereq> Crses in counseling thry & tech & cons inst
Typically Offered: Occasionally

RP & SE 850 Consultation Procedures for Counselors Credits: 3
A systematic investigation of and the application of consultation procedures for counselors in educational, community, and rehabilitative agencies. Consultation as applied with individuals and organizational structures. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 860 Rehabilitation Counseling Psychology-Clinical Practice Seminar Credits: 1
Concurrent seminar for clinical practice students in 880, 890, and 900 or 910. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 870 Seminar: Assessment in Rehabilitation Psychology Credits: 3
Evaluation of current literature related to theory, models, methods and practice in assessment. Prereq> Ed Psych 370, 371, & 372, or RP & SE 340, or equiv, & ED Psych 561, or Psych 615, or equiv, or written cons inst
Typically Offered: Occasionally

RP & SE 871 Foundations of Special Education Credits: 3
This course is designed to engage participants in a critical exploration of Special Education issues and trends as located in social, cultural, philosophical, and historical contexts. Prereq> None
Typically Offered: Fall

RP & SE 872 Seminar in Special Education Research Credits: 3
This course is designed to equip students with the knowledge and skills necessary to be thoughtful critically consumers and producers of education and special education research. The course is designed to: (a) provide students with an overview of the variety of research methods and approaches typically used in special education and the utility of these methods and approaches in addressing educational problems and issues; (b) prepare students to critically appraise published peer-reviewed research in special education; (c) allow students to develop the skills necessary to summarize, synthesize and expand upon research already conducted on topics of personal and professional relevance; and (d)
Typically Offered: Spring

RP & SE 873 Professional Development for Future Special Education Researchers and Faculty in Higher Education Credits: 1
The purpose of this course is to provide students with information and professional development on careers in academia. This repeatable course is designed for students to take multiple times to correspond to their developmental needs and professional development interests. Prereq> Graduate student; RPSE 871
Typically Offered: Fall, Spring

RP & SE 880 Rehabilitation Counseling Psychology-Supervised Practicum I Credits: 2 - 3
Practical experience in counseling handicapped persons. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 890 Rehabilitation Counseling Psychology-Supervised Practicum II Credits: 2 - 3
Practical experience in counseling handicapped persons. Prereq> Cons inst
Typically Offered: Occasionally
RP & SE 900 Rehabilitation Counseling Psychology-Supervised Practicum III Credits: 2 - 3
Practical experience in counseling handicapped persons. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 903 Psychosocial Theory and Research in Rehabilitation Psychology Credits: 3 - 6
Review of theory and research. Prereq> Cons inst or RP & SE 801 & RP & SE 802
Typically Offered: Occasionally

RP & SE 904 Advanced Topics in Special Education Credits: 3
Review of issues and research related to individuals with disabilities. Topics vary each semester. Prereq> Cons inst or RP&SE 801 & 802
Typically Offered: Occasionally

RP & SE 910 Rehabilitation Counseling Psychology-Internship Credits: 6 - 12
Full-time supervised experience in a rehabilitation setting. Activities include: the work of the counselor on the job; the work of the counselor educator in supervision; research activity; counselor coordinator on the job. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 920 Rehabilitation Counseling Psychology-Counseling Supervision Credits: 1 - 3
Clinical experience with concurrent instruction in the supervision of rehabilitation counseling practicum students; participation in practicum seminar of master's students. May be repeated for credit. Prereq> Cons inst
Typically Offered: Occasionally

Field work in therapeutic intervention, organization and administration, and clinical needs assessment within various special education service delivery settings. Opportunity to relate relevant theoretical backgrounds to clinical organization and field problems. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 925 Seminar in Counseling Psychology Credits: 3
History, ethical and professional issues and problems, and current status of the psychological specialty of counseling psychology. Prereq> Couns psych or rehab psych & special ed majors or cons inst
Typically Offered: Occasionally

RP & SE 930 Rehabilitation Counseling Psychology-Practice Teaching Credits: 1 - 3
Supervised experience in teaching activities with concurrent instruction. May be repeated for credit. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 940 Rehabilitation Counseling Psychology-Supervised Research Credits: 1 - 3
Supervised practicum participation in a rehabilitation research project. May be repeated for credit. Prereq> Cons inst, only doctoral stdts
Typically Offered: Occasionally

RP & SE 941 Internship: Research Credits: 1 - 3
Supervised participation in conducting, evaluation, and reporting university level research. May be repeated for credit. Prereq> Cons inst
Typically Offered: Occasionally

RP & SE 944 Internship Preparation Credits: 1
Primary goal of this course is to help students in Counseling Psychology, Rehabilitation Psychology & Special Education, and the School Psychology Program prepare for their internship by providing recourses, guidelines, and support in selecting and applying to internship sites. Prereq> Dissertator status in the department
Typically Offered: Fall

RP & SE 980 Adult Cognitive Assessment Credits: 3
Administration, scoring and interpretation of measures of adult intelligence; introduction to neurophychological and other cognitive assessment approaches; discussion of issues and applications in rehabilitation practice. Prereq> Cons inst, Ph D stdts only, course in tests and measurement
Typically Offered: Occasionally
RP & SE 983 Seminar: Professional Issues in Rehabilitation Psychology Credits: 3 - 6
Historical development of rehabilitation programming and the professional specialties of rehabilitation psychology; basic philosophy, theoretical systems and processes; professional and scientific ethics; and other professional issues. Prereq> Grad st, cons inst
Typically Offered: Occasionally

RP & SE 984 Seminar: Principles of Behavior Change in Rehabilitation Psychology Credits: 3 - 6
Theories and principles underlying individual and group methods of management, education, and rehabilitation of handicapped individuals; assessment of methods as related to acquisition of new skills or modification of ineffective behavior; problems in the application of methods in the home, school, institutional, and work settings; unique considerations for specific handicapping conditions. Prereq> Grad st and cons inst
Typically Offered: Occasionally

RP & SE 985 Individuals with Disabilities: Advanced Research Methodologies Credits: 3
Prereq> Cons inst, Grad st, 2 crses in stats, 1 crse in measurement
Typically Offered: Occasionally

RP & SE 990 Research or Thesis Credits: 1 - 3
Prereq> Cons inst (PhD stdts)
Typically Offered: Occasionally

RP & SE 995 Predoctoral Internship Credits: 0
Registration for Ph.D. students who have successfully defended the dissertation and are in the process of completing the required predoctoral internship. Prereq> Successful dissertation defense
Typically Offered: Fall, Spring, Summer

RP & SE 999 Independent Reading Credits: 1 - 3
Prereq> Cons inst (PhD stdts)
Typically Offered: Occasionally

THEATRE AND DRAMA

THEATRE 120 Introduction to Theatre and Dramatic Literature Credits: 3 - 4
Reading important plays, attending stage productions, writing and thinking critically about theatre and drama. Emphasis on developing analytic skills in dramatic literature and theatre production. 4-credit option requires additional writing. Prereq> Open to Fr. 4 cr sections meet Com B requirement
L&S Breadth: Literature L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

THEATRE 140 Voice Training Credits: 3
Correct use of breath, note, tone and word relating to actors' and speakers' function. Concentration on individual minor speech problems. Prereq> So st or cons inst
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

THEATRE 150 Introduction to Acting Credits: 3
Action, voice and analysis of character for portrayal of realistic roles. Prereq> Open to Fr
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

THEATRE 160 Introduction to Stage Production Credits: 3
Scenery, costumes, lighting, sound, and stage management in stage production. Emphasis on interrelationship between technical and artistic components of production process. Lectures and practical experience in two lab areas for University Theatre productions. Prereq> Open to Fr
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

THEATRE 161 Backstage Laboratory I Credits: 2
Weekly labs and specified performance assignment in which students learn through practical participation in University Theatre productions; lab choices include scenery and costume construction, lighting, and sound. Prereq> Open to all Undergrads
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

Credits: 3
Slavic playwrights and the European tradition of theatre and drama. Prereq> Sr st or cons inst L&S Breadth: Literature L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

THEATRE 424 Contemporary World Theatre and Dramatic Literature

Credits: 3
Considers important current trends in performance and dramatic literature worldwide. Writing component includes both literary and performance criticism. When possible, some course materials are linked to University Theatre productions. Prereq> Jr st, Theatre 224 & 324 L&S Breadth: Literature L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

THEATRE 426 History, Theory, and Dramatic Criticism in Theatre for Young Audiences

Credits: 3 - 4
Historiographical perspectives in theatre for young audiences; analysis of plays for young people, theoretical implications, assumptions, current developments. Prereq> Theatre 120 or 160 or 200 or 362 or cons inst L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally
THEATRE 431 History of Theatres and Staging Credits: 3
Theatre architecture, scenery, costume, acting, directing, and modes of staging in Europe from 500 B.C. Pre-req: Jr st
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

THEATRE 440 Musical Performance for the Actor Credits: 3
Styles and genres of the modern American and British musical theatre for performers. Their application to audition techniques and scene/song presentations. Pre-req: Jr st or cons inst
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

THEATRE 442 Mask Characterization Credits: 3
Process-oriented acting class focused on physical characterization through the use of character masks. Development of a character through a series of exercises/explorations culminating in presentation of character/monologue. Repeatable for credit. Prereq: Theatre 342 or cons inst
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

THEATRE 450 Acting Styles Credits: 1 - 3
Study and demonstration of the various acting styles from the Greek to the modern. Concentration on two specific styles in a semester. Prereq: Theatre 250, 350, or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

THEATRE 462 Theatre for Young Audiences: Production Credits: 3 - 6
A practical class: preparation and performance of a production for young audiences, with development and implementation of accompanying educational material. Prereq: Cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

THEATRE 464 Costume Technology Topics Credits: 3 - 4
Examines techniques used to create costumes. Rotating topics including draping, period patternmaking, tailoring, crafts, and painting. Lab required for 4th credit. Prereq: Theatre 163 or cons inst
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

THEATRE 466 Stage Lighting Design II Credits: 3 - 4
Detailed study of lighting design techniques and professional practices for commercial and resident theatres. Prereq: Theatre 366 & either Theatre 370 or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

THEATRE 467 History of Western Theatrical Dance Credits: 3
An overview of Western theatrical dance history from the Renaissance to the present. Prereq: Junior standing or consent of instructor
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

THEATRE 469 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq: Consent of department
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

THEATRE 470 Fundamentals of Technical Direction Credits: 3
Organizational and planning responsibilities of the performing arts technical director. Estimating, scheduling, purchasing, safety, materials, resources, organizational structures. Prereq: Theatre 170 or equiv & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

THEATRE 471 Stage Properties Credits: 3
Materials, processes and organizational techniques commonly used in the fabrication of stage properties. Prereq: Theatre 170, 370, 372 or equiv
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

THEATRE 472 Scenic Painting Credits: 3
Painting scenery for the stage. Techniques for painting drops, flats, and props in a range of illusion effects.
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally
THEATRE 477 Diaspora and Theatre Credits: 3
Study of the drama and theatre of a variety of immigrant communities in three Western locations: Britain, the United States, and Canada. Course focuses on current theories of diaspora and transnationalism, the place of theatre in diasporic writing, and the literary, performative, and material dimensions of the genre. Prereq> Sophomore Standing
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Fall

THEATRE 521 The Pre-Modern Drama of Europe: 1650-1850 Credits: 3
Plays and essays from the European repertoire (England, France, Germany, Spain, Russia, Italy) prior to the rise of Realism and representing several theatrical forms (new-classicism, romanticism) and including such playwrights as Wycherley, Behn, Congreve, Racine, Moliere, Beaumarchais; Schiller, Goethe, Kleist, Lope de Vega, Calderon, Ostrovsky, Goldoni, etc. Prereq> Jr st or cons inst
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

Survey of interdisciplinary literature on social/performative folklore aesthetics and environments by in-depth study of three festivals and ceremonies. Required field trips. Prereq> Jr st or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

THEATRE 541 Acting Shakespeare Credits: 1 - 3
Studio presentation of Shakespearean drama with emphasis on language and verse structure; techniques for enhancing performances skills. Prereq> Theatre 240, 350 and cons inst. Repeatable with cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
THEATRE  542 Movement Styles  Credits: 3
Process oriented acting class focused on selected movement styles, theatrical violence and problems for major
genres of theatrical performance selected from Greek, Elizabethan, Restoration, Contemporary and Comedic
texts.  Prereq> Theatre 342 or cons inst
L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

THEATRE  550 Advanced Scene Study  Credits: 1 - 3
Intensive scene study from the major works of selected modern playwrights.  Prereq> Theatre 250, 350 and
instructor consent.  Repeatable with instructor consent
L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

THEATRE  551 Advanced Asian Stage Discipline and Production  Credits: 1 - 3
A continuation of 351; discipline work applied to selected acting problems in the production context.  Prereq->
Theatre 351 & cons inst.  Repeatable with cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

THEATRE  557 Advanced Theatre for Cultural and Social Awareness  Credits: 3
Practical implementation of theories and skills developed in Theatre 357.  Students participate in training
engagements addressing issues of sensitive subject matter (race relations, cultural diversity, gender, sexual
orientation) for U.S. businesses, organizations, and schools.  Prereq-> Theatre 357 or cons inst
Ethnic Studies: Yes  L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Spring

THEATRE  560 Lighting Design for Architecture  Credits: 3
An aesthetic and practical application of theatrical and commercial lighting techniques to architectural
installations.  Prereq-> Jr st, Theatre 466, or cons inst
L&S Level:  Intermediate/Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

THEATRE  561 Backstage Laboratory III  Credits: 1 - 2
Emphasis on fulfilling one major assignment in theatre performance or production situation such as actor, stage
manager, master carpenter, wardrobe master, properties master.  Prereq-> Theatre 361 or cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring, Summer

THEATRE  562 Drama in Education: Advanced Studies  Credits: 3 - 4
Advanced studies in theories and practices of drama in education.  Prereq> Theatre 362 or cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

THEATRE  563 Costume Design II  Credits: 3
Problems in use of line, form, color, texture, and movement in the design of costumes for the stage.  Class
projects include investigation into classical and contemporary drama.  Prereq> Grad st or cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Spring

THEATRE  566 Stage Lighting Design III  Credits: 3
Styles of lighting design in various genres of dramatic presentation.  Design for LORT theatres.  Prereq-> Theatre
466
L&S Level:  Intermediate/Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

THEATRE  568 Directing Lab  Credits: 3
Analysis, conceptualization and rehearsal of a play culminating in a performance presented for an audience.
Prereq> Theatre 368 & cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

THEATRE  569 Interdisciplinary Studies in the Arts  Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations.  Prereq> Consent of
department
L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring, Summer

THEATRE  570 Advanced Stagecraft  Credits: 3
An intensive study of stage rigging, scenic locomotion, set construction and structural analysis techniques.
Prereq> Theatre 160, Theatre 370 or equiv, or cons inst; may be taken concurrent with 370
L&S Level:  Intermediate/Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally
THEATRE 571 Scenery Automation-Mechanics  Credits: 1 - 3
Metalworking, automation and plastics forming as applied to scenery construction. Health and safety considerations are explored in each subject area. Prereq> High school level algebra and basic trigonometry
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

THEATRE 572 Set Design II  Credits: 3
Historical survey of visual theatre, painting, and architectural styles adapted to various dramatic forms. Application of design elements and styles to contemporary theatre productions. Prereq> Theatre 372 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

Study of drama, dramatic theory and theatrical practices in postcolonial cultures, primarily in Asia, Africa and the Caribbean. Course considers status of drama/theatre in postcolonial studies and focuses on issues of form, language, intertextuality, trans-culturation, material organization and reception. Prereq> Junior standing or consent of instructor
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

THEATRE 578 Modern American Drama and Theatre  Credits: 3
Representative twentieth-century plays from Glaspell and O'Neil to the present considered within contemporary cultural, theatrical and academic context. Prereq> Junior standing
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 579 Advanced Concepts in Stage Management  Credits: 2
Advanced study of organizational behaviors, theatre infrastructures, styles & communication techniques in relation to Stage Management. Prereq> So st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

THEATRE 595 Topics in Theatre and Drama: Study Abroad  Credits: 1 - 6
A course carried with a UW-Madison study abroad program which has no equivalent on this campus. Prereq> Current reg in a UW-Madison study abroad prog
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

THEATRE 611 Senior Seminar  Credits: 3
Discussion and research on selected topics in dramatic theory and criticism; theatre history, theatre/drama education, and production. Limited enrollment. Prereq> Major in Theatre & Drama and Sr st or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 619 Special Topics in Theatre and Drama  Credits: 1 - 3
Specialized subjects of current interest in design, performance, technology, history, dramatic theory, literature criticism, and theatre/drama education. Prereq> Jr st and cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 631 Theories of Acting  Credits: 3
Interdisciplinary and cross-cultural seminar on the historical, cultural, performative, aesthetic, and ideological construction of acting on stage. Prereq> Sr st, Grad st or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
THEATRE 661 Advanced Production Practicum Credits: 1 - 3
Provides students the opportunity to apply their knowledge in a production setting. Enrollment is limited to designated Dramaturg, Lighting Designer, Costume Designer, Set Designer, Technical Director, Assistant Dramaturg, Assistant Designers, or Assistant Technical Director on a season production for the University Theatre. Prereq> Cons Inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 666 Stage Lighting Design IV Credits: 3
Design for opera and musical comedy through presentation of scenes in the lab. Further exploration of lighting design styles. Prereq> Theatre 566 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

THEATRE 669 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

THEATRE 670 Advanced Study in Theatre Design and Technology Credits: 4
In-depth study of theories, skill, and issues in set, costume, and lighting design and theatre technology. Meets with Graduate Core Curriculum. Rotating topics. Prereq> Jr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

THEATRE 681 Senior Honors Thesis Credits: 3
Prereq> Sr st & written cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 682 Senior Honors Thesis Credits: 3
Prereq> Theatre 681 & written cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 691 Senior Thesis Credits: 2 - 3
Prereq> Sr st & 3.25 GPA and written cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 692 Senior Thesis Credits: 2 - 3
Prereq> Theatre 691 & written cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 698 Directed Study Credits: 1 - 6
Cr/N. Prereq> Graded on a cr/n basis; Jr or Sr st and requires written cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 699 Directed Study Credits: 1 - 6
Prereq> Graded on a lettered basis; Jr or Sr st & requires written cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THEATRE 700 Proseminar: Introduction to Research in Theatre Credits: 3
Research problems; basic research tools. Prereq> Grad st
Typically Offered: Occasionally

THEATRE 731 Advanced Theatre History 500 BC to 1700 Credits: 3
Problems of scholarship in the dramatic, performance and staging practices of major traditions of world theatre history between 500 BCE and 1700 including the theatres of ancient Greece and Rome; medieval, Renaissance and early modern Europe; and the Muromachi and Tokugawa eras in Japan. THERAPEUTIC SCI (DEPT-KINES)

THER SCI 105 Health Care Systems: Interdisciplinary Approach Credits: 2
Introduction to health care systems. Factors affecting health and the value placed on health, the delivery of health care in different settings, the roles of various health workers, and the sociological and economic aspects of health care. Prereq: Open to all undergrads
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

THER SCI 148 Medical Terminology Credits: 1
Study of vocabulary relating to body systems, anatomical structures, medical processes and procedures, and diseases of human beings; medical word building principles. Prereq: Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

THER SCI 415 Organizational Influences on Interdisciplinary Practice Credits: 3
Analysis of major organizational factors affecting the practice of clinicians in health care delivery organizations. Prereq: Nurs/S&A Phm/Soc Wk/Ther Sci 105; Nurs 319 for Nursing majors; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

THER SCI 502 Neurology Credits: 1
Lectures on neurological conditions seen in occupational and physical therapy practice. Prereq: OCT 4 st, PTH 4 st, Anatomy 437 and 637
L&S Credit: No degree credit in L&S  Typically Offered: Fall

THER SCI 524 Therapeutic Use of Activity Credits: 2
The therapeutic use of purposeful activity and the principles of activity analysis as related to human occupation and adaptation; laboratory experience in selected therapeutic media. Prereq: OCT st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

THER SCI 534 Adaptation to Pediatric Disorders Credits: 3
Evaluation and treatment of infants and children with or at-risk for developmental disabilities; adaptation of the child within the family and/or school setting. Prereq: OCT 4 st, Anatomy 637
L&S Credit: No degree credit in L&S  Typically Offered: Spring

THER SCI 537 Clerkship in Pediatric Occupational Therapy Credits: 1
This fieldwork experience in a pediatric occupational therapy setting emphasizes standardized assessment, therapeutic intervention, consultation, and treatment planning related to a variety of pediatric disorders. Prereq: Con reg in Ther Sci 534
L&S Credit: No degree credit in L&S  Typically Offered: Spring

THER SCI 546 Adaptation/Construction of Equipment for People with Disabilities Credits: 3
Design and construction of equipment for the needs of the person with a disability. Adaptation, material selection and alternatives, environmental planning and tool equipment utilization. Prereq: OCT 3 or 4 st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

THER SCI 631 Introduction to Augmentative Communication Credits: 3
Overview of assistive technology applications for individuals with significant motor, cognitive, and/or perceptual disabilities. Emphasis is placed on augmentative and alternative communication, alternative access, seating and positioning and computer interface. Prereq: Jr st or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

THER SCI 636 Organization and Management Credits: 3
Strategies and techniques in the organization and management of occupational therapy and related services. Prereq: OCT 4 st & OT 370
L&S Credit: No degree credit in L&S  Typically Offered: Spring
THER SCI 639 Adaptation to Physical Disabilities I Credits: 3
Biomechanical aspects of typical and atypical human movement; physiological and psychological adaptation to
disabilities; assessment of the impact of biomechanical dysfunction on human occupation. Prereq> OCT 3 or 4
st, Anatomy 437
L&S Credit: No degree credit in L&S Typically Offered: Fall

THER SCI 640 Adaptation to Physical Disabilities II Credits: 4
Neurorehabilitative aspects of occupational therapy; assessment of the impact of neurological dysfunction on
human occupation; processes of physiological, psychological, and functional adaptation. Prereq> OCT 4 st, Ther
Sci 639
L&S Credit: No degree credit in L&S Typically Offered: Spring

THER SCI 641 Clerkship in Physical Disabilities Credits: 1
Student participates in a practicum experience in hospitals or other health care facilities for clinical training in
evaluation and treatment of individuals with a physical disability. Prereq> OCT 4 st & con reg in Ther Sci 640
L&S Credit: No degree credit in L&S Typically Offered: Spring

THER SCI 647 Interdisciplinary Issues in Early Childhood Intervention Credits: 2
Students address issues in interdisciplinary collaboration in the provision of family-centered, community-based
intervention with infants and toddlers who have special health and developmental needs and their families.
Interagency service coordination, current legislation and administrative rules are analyzed. Prereq> Grad st or Sr
in Nursing, Child & Fam, Com Dis, Kinesiology, Pharm or Soc Work; others with cons inst
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

THER SCI 648 Theory of Occupation, Adaptation, and Mental Health Credits: 4
Review of psychopathology; theoretical frames of reference; emphasis on assessment, treatment planning and
implementation for adaptation; use of self, groups, and occupation as therapeutic tools. Prereq> OCT 4 st &
Ther Sci 570
L&S Credit: No degree credit in L&S Typically Offered: Fall

THER SCI 649 Clerkship in Mental Health Credits: 1
A practicum in O.T. mental health treatment programs to gain clinical experience in evaluation and treatment of
people with mental health problems. Prereq> OCT 4 st & con reg in Ther Sci 648
L&S Credit: No degree credit in L&S Typically Offered: Fall

THER SCI 670 Advanced Fieldwork Credits: 4 - 6
Two or three month supervised practice in an area of occupational therapy specialization. Prereq> Ther Sci 662,
664 & cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

THER SCI 699 Directed Study Credits: 1 - 3
Supervised study enables students to strengthen their knowledge and skills in selected media or treatment areas.
Prereq> Dept majors & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

THER SCI 713 Neural Basis of Normal and Pathological Movement Credits: 3
Lectures and discussion directed toward an understanding of the neural substrates underlying movement in man.
Prereq> Neuroanatomy & cons inst
Typically Offered: Occasionally

THER SCI 720 Early Intervention for Children with Disabilities Credits: 3
The theory and empirical rationale for sensory stimulation as a form of specific environmental enrichment for high
risk infants and children with developmental delay will be explored. Prereq> Grad st in Phy Ther or Occ Ther or
cons inst
Typically Offered: Occasionally

THER SCI 750 Research Issues in Aging and Health Credits: 3
This course is designed to provide graduate students in health related disciplines with an examination of topics
and theoretical issues related to research in aging and health. Prereq> Grad st; prev course in aging; and cons
inst
Typically Offered: Occasionally
THER SCI 760 Research Issues in Early Development Credits: 3
Current topics, concepts, and theoretical issues in early developmental research that relate to occupational and physical therapists. Prereq> Grad st and cons inst
Typically Offered: Occasionally

THER SCI 775 Special Topics Credits: 1 - 3
Special Topics - Subject matter varies - See current Timetable. Prereq> Cons inst
Typically Offered: Occasionally

THER SCI 791 Research and Thesis Credits: 1 - 5
Research and thesis. Prereq> Cons inst
Typically Offered: Occasionally

THER SCI 799 Directed Study Credits: 1 - 3
Directed Study. Prereq> Cons inst
Typically Offered: Occasionally
B M E  1 Cooperative Education Program  Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career in industry.  Prereq>  So st
Typically Offered: Fall, Spring, Summer

B M E  200 Biomedical Engineering Design  Credits: 1
Students will work in a team on a client-centered biomedical engineering design project to learn concept generation, product analysis, specifications, evaluation, clinical trials, regulation, liability, and ethics.  Prereq>  So st in biomedical engineering
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E  201 Biomedical Engineering Fundamentals and Design  Credits: 2
Fundamentals of biomedical engineering and principles of design. Hands-on skills including computer-aided design, machining, and fabrication of a physical medical device prototype.  Prereq>  Sophomore standing in biomedical engineering
Typically Offered: Spring

B M E  300 Biomedical Engineering Design  Credits: 1
Students will work in a team on a client-centered biomedical engineering design project to learn concept generation, product analysis, specifications, evaluation, clinical trials, regulation, liability, and ethics.  Prereq>  BME 201, & 315 or con reg
Typically Offered: Fall

B M E  301 Biomedical Engineering Design  Credits: 1
Students will work in a team on a client-centered biomedical engineering design project to learn concept generation, product analysis, specifications, evaluation, clinical trials, regulation, liability, and ethics.  Prereq>  Jr st in biomed engr, BME 430 or con reg
Typically Offered: Spring

B M E  310 Bioinstrumentation  Credits: 3
A sophomore level first course in bioinstrumentation covering clinical and research measurements. Laboratory experiments complement the lectures.  Prereq>  Chem 109 or (Chem 103 and Chem 104); Physics 202 or Physics 208; Math 234 or concurrent registration. Open only to students in the BME program or consent of instructor
Typically Offered: Spring

B M E  315 Biomechanics  Credits: 3
This course will provide an introduction to the mechanical behavior of biological tissues and systems. Specific topics include: structure and function of biological tissues, mechanical properties of biological tissues, and analysis of specific tissues (i.e. bone, muscle, and soft connective tissues).  Prereq>  Math 234; Physics 202 or Physics 208; EMA 303 or ME 306. Open only to students in the BME program or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E  320 Introductory Transport Phenomena  Credits: 4
Mass, momentum, and energy transport; calculation of transport coefficients; solution to problems in viscous flow, heat conduction, and diffusion; dimensional analysis; mass, momentum, and heat transfer coefficients; over-all balances; elementary applications.  Prereq>  Physics 201, Math 319 or 320, CBE 250 with grade of C or better; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
B M E 389 Honors in Research Credits: 1 - 3
Undergraduate honors research projects supervised by faculty members. Not available for graduate credit.
Prereq> Admission to BME Undergraduate Honors in Research Program
Typically Offered: Fall, Spring, Summer

B M E 399 Independent Study Credits: 1 - 3
Prereq> So st in biomedical engineering & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

B M E 400 Capstone Design Course in Biomedical Engineering Credits: 3
This capstone course applies classroom study to solve a directed client-based biomedical engineering design project. Prereq> BME 301, 310, 315, 430, Sr st in biomed engr or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E 401 Physics for Medicine and Biology Credits: 3
Forces on bones and muscles; body fluid flow; electrodynamics of nerve impulses; electrocardiograms; magnetocardiograms and magnetoencephalograms; diffusion processes, membrane transport, kidney function; biological effects in magnetic resonance and ultra-low frequency electromagnetic radiation; laser applications.
Prereq> Physics 201 and 202 or Physics 207 and 208
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

B M E 402 Biomedical Engineering Design Credits: 1
Students work in a team to evaluate, refine, document and orally present a client-centered biomedical engineering design completed in capstone design course. Prereq> BME 400, Sr st in biomed engr or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 430 Biological Interactions with Materials Credits: 3
This course addresses the range of materials currently being utilized for various biomedical applications, the biological systems governing biomaterial applications, analytical techniques pertinent to biomaterial evaluation, and selected major medical applications in which biomaterials play an important role. Prereq> 1 yr of general biol or two semesters of zool, & 1 semester of organic chem, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 461 Mathematical and Computer Modeling of Physiological Systems Credits: 3
Mathematical and computer modeling of physiological systems; principal emphasis on cardiovascular system and individual nerve cells; other topics include respiratory system and skeletal-muscle system; extensive use of "hands-on" computer modeling using ACSL. Prereq> ECE 330 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 462 Medical Instrumentation Credits: 3
Design and application of electrodes, biopotential amplifiers, biosensors, therapeutic devices. Medical imaging. Electrical safety. Measurement of ventilation, blood pressure and flow. Lecture and lab. Prereq> ECE 342 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E 463 Computers in Medicine Credits: 3
Study of microprocessor-based medical instrumentation. Emphasis on real-time analysis of electrocardiograms. Labs and programming project involve design of biomedical digital signal processing algorithms. Prereq> ECE 330, Comp Sci 302
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E 489 Honors in Research Credits: 1 - 3
Undergraduate honors research projects supervised by faculty members. Not available for graduate credit.
Prereq> Admission to BME Undergraduate Honors in Research Program
Typically Offered: Fall, Spring, Summer

B M E 501 Radiological Physics and Dosimetry Credits: 3
Interactions and energy deposition by ionizing radiation in matter; concepts, quantities and units in radiological physics; principles and methods of radiation dosimetry. Prereq> Calculus and modern physics
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
B M E 505 Biofluidics Credits: 3
Introduction to blood rheology, blood flow dynamics in arteries, capillaries and veins, airflow in the lungs, and other physiological flow phenomena. Healthy and diseased states will be considered. Special topics may include ocular flow dynamics and electro-chemical-fluidics in cartilage. Prereq> EMA 201; EMA 202 or ME 240; Physiol 335; or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

B M E 510 Introduction to Tissue Engineering Credits: 3
Overview of tissue engineering, including discussion of cell sources, cell-material interactions, tailoring biomaterials, methods of culture and characterization of engineering tissues, ethical issues, concluding with case studies of specific types of tissue engineering. Optional laboratory exercises offered throughout semester. Prereq> BME 430 or equiv, or cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Fall

B M E 511 Tissue Engineering Laboratory Credits: 1
Tissue engineering refers to the generation of biological substitutes to restore, maintain, or improve tissue function. Laboratory techniques are multi-disciplinary, from basic biological sciences, engineering, and biotechnology. Engineering approaches and analysis will be applied to theses techniques. Prereq> BME 510 con reg or consent of instructor
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring

B M E 515 Therapeutic Medical Devices Credits: 1
Design of medical devices to treat pathology. Open to majors in biomedical engineering. One lecture each week. Prereq> BME 310, BME 315, Physiol 335. Con reg in BME430
L&S Credit: No degree credit in L&S
Typically Offered: Spring

B M E 517 Biology in Engineering Seminar Credits: 1
Current topics at the interface of biology and engineering with special emphasis on the ways in which engineers have contributed to knowledge and advances in biology. Prereq> Jr st in engr & one college-level biol crse
L&S Credit: No degree credit in L&S
Typically Offered: Fall

B M E 520 Stem Cell Bioengineering Credits: 3
Covers engineering approaches that are used to understand and manipulate stem cells. Concepts covered include: introduction to stem cell biology, quantitative modeling of stem cell signaling, methods to engineer the stem cell microenvironment, and the role of stem cells in tissue development and regeneration. Prereq> Math 319 or 320, Zoology 470 or 570, Chem 343, or cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Fall

B M E 530 Medical Imaging Systems Credits: 3
2D Fourier image representation, sampling, and image filtering with applications in medical imaging. Principles of operation, impulse responses, signal-to-noise, resolution and design tradeoffs in projection radiography, tomography, nuclear medicine, ultrasound, and magnetic resonance imaging. Prereq> ECE 330 or Med Phys 473 or equiv or cons inst. Knowledge of linear signals & systems, convolution, basic probability, ID Fourier Transforms
Typically Offered: Spring

B M E 535 Introduction to Energy-Tissue Interactions Credits: 3
Explore physical interactions between thermal, electromagnetic and acoustic energies and biological tissues with emphasis on therapeutic medical applications. Prereq> Graduate student or senior level in Engineering or Medical Physics or consent of instructor
L&S Credit: No degree credit in L&S
Typically Offered: Fall

B M E 545 Engineering Extracellular Matrices Credits: 3
Overview of the structure, function and biophysical properties of extracellular matrix (ECM) proteins, followed by discussion of how control or manipulation of ECM protein expression and distribution impacts on cell and tissue function, concluding with impacts of engineering ECM for regenerative medicine. Prereq> Zoology 151 or equiv., BME 430 or equiv. Also recommended: Zoology 570 or equiv., Bmolchem 503 or equiv
L&S Credit: No degree credit in L&S
Typically Offered: Spring
B M E 550 Introduction to Biological and Medical Microsystems  Credits: 3
Introduces students to the field of MEMS (Micro-Electro-Mechanical-Systems), as it applies to biology and
medicine. Topics will cover methodology of traditional MEMS devices, how they can be incorporated with
biological systems, and methods for micro-structuring biological materials. Prereq: Zool 152, BME 310, or cons
inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E 556 Systems Biology: Mammalian Signaling Networks  Credits: 3
Introduction to the experimental and mathematical modeling techniques used in systems biology through lectures
and critical analyses of relevant publications with a primary focus on gene/protein networks and mammalian
systems. Prereq: Zoology 570 or BME 510; and Math 319 or Math 320 or Math 340; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 560 Biochemical Engineering  Credits: 3
Properties of biological molecules; enzyme kinetics, enzyme reactors, and enzyme engineering; metabolic
engineering; microbial growth kinetics; bioreactor design; bioseparations. Prereq: CBE 310; CBE 320; Zoo 151
or 153; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E 564 Occupational Ergonomics and Biomechanics  Credits: 3
Introduces engineers how to design manufacturing and industrial operations in which people play a significant
role, so that human capabilities are maximized, physical stress is minimized, and workload is optimized.
Examples and topics emphasize industrial applications. Prereq: ISYE 349, or Biomed Engr 315, or Grad
standing
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 566 Physics of Radiotherapy  Credits: 4
Ionizing radiation use in radiation therapy to cause controlled biological effects in cancer patients. Physics of the
interaction of the various radiation modalities with body-equivalent materials, and physical aspects of clinical
applications; lecture and lab. Prereq: Med Phys 501
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 567 The Physics of Diagnostic Radiology  Credits: 3
Physics of x-ray diagnostic procedures and equipment, radiation safety, general imaging considerations; lecture
and lab. Prereq: Modern physics, calculus, and Fourier analysis, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

B M E 568 Magnetic Resonance Imaging (MRI)  Credits: 3
Physics and technology of magnetic resonance imaging (MRI), emphasizing techniques employed in medical
diagnostic imaging. Major topics: physics of MR, pulse sequences, hardware, imaging techniques, artifacts, and
spectroscopic localization. Prereq: Crses in mod physics & calc, incl Fourier Anal, req. Crses in other med
imaging tech e.g. Med Phys 567, & crses in signal processing, or Med Phys 573 recommended
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 573 Medical Image Science: Mathematical and Conceptual Foundations  Credits: 3
The conceptual and mathematical foundations of medical imaging, including both deterministic and stochastic
aspects. Prereq: 1 yr each of undergrad physics & calc or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

B M E 574 Imagine in Medicine: Applications  Credits: 3
Continuation of 573, with application of concepts to practical medical imaging problems and emerging quantitative
imaging techniques. Prereq: Med Phs/BME 573 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

B M E 575 Diagnostic Ultrasound Physics  Credits: 2 - 3
Propagation of ultrasonic waves in biological tissues; principles of ultrasonic measuring and imaging
instrumentation; design and use of currently available tools for performance evaluation of diagnostic
instrumentation; biological effects of ultrasound. Prereq: Modern physics, calculus & Fourier analysis or consent
of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall
B M E 578 Non-Ionizing Diagnostic Imaging Credits: 3
This is a graduate level core course covering the physics associated with magnetic resonance imaging and diagnostic ultrasound emphasizing techniques employed in medical diagnostic imaging. Major MRI topics include: physics of MR, pulse sequences, hardware, imaging techniques, artifacts, and spectroscopic localization. Ultrasound based topics covered include: propagation of ultrasonic waves in biological tissues, principles of ultrasonic measuring and imaging instrumentation, design and use of currently available tools for performance evaluation of diagnostic instrumentation, and biological effects of ultrasound. At the completion of this course, students should have an understanding of the topics.
Typically Offered: Spring

B M E 601 Special Topics in Biomedical Engineering Credits: 1 - 3
Topics vary. Prereq> Grad st or cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Occasionally

B M E 603 Topics in Bio-Medical Engineering Credits: 1 - 3
Various aspects of living systems of interest to the mechanical engineer, such as the mechanics of hearing and vision, cardiac and central nervous systems, artificial organs, blood flow behavior, and energy-transfer processes. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S
Typically Offered: Occasionally

B M E 615 Tissue Mechanics Credits: 3
This course will focus on solid mechanics of prominent musculoskeletal and cardiovascular tissues. Their normal and pathological behaviors (stiffness, strength, relaxation, creep, adaptive remodeling, etc.) in response to physiological loading will be examined and quantified. Prereq> BME 315 or cons inst
Typically Offered: Fall

B M E 619 Microscopy of Life Credits: 3
Survey of state of the art microscopic, cellular and molecular imaging techniques, beginning with subcellular microscopy and finishing with whole animal imaging. Prereq> 2nd semester intro physics including light & optics (e.g. 104, 202, 208) or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

B M E 662 Design and Human Disability and Aging Credits: 3
Design of products for persons with physical, sensory or cognitive impairments is covered as well as the design of standard mass market products. Interdisciplinary teams explore specific disabilities, then design a standard mass market product in competition with each other. Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Spring

B M E 699 Advanced Independent Study Credits: 1 - 5
Under faculty supervision. Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

B M E 701 Seminar in Biomedical Engineering Credits: 0
Speakers present current research, reviews of previous research, or topics of interest to biomedical engineering graduate students and faculty. Prereq> Grad st in biomedical engineering
Typically Offered: Occasionally

B M E 702 Graduate Cooperative Education Program Credits: 1 - 2
Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students.
Typically Offered: Occasionally

B M E 710 Advances in Medical Magnetic Resonance Credits: 3
This course studies in some depth the theory and applications of magnetic resonance (MR) in medicine. It provides the necessary theoretical background to understand advanced MR techniques including magnetic resonance imaging (MRI). Prereq> Med Phys 568 or cons inst
Typically Offered: Occasionally

B M E 762 Biomedical Instrumentation Credits: 3
Design and application of specialized biomedical instrumentation. Information retrieval techniques. Lab. Prereq> ECE 462 or cons inst
Typically Offered: Occasionally
B M E 763 Projects in Computers in Medicine  Credits: 3
Applications of digital computers to the solution of problems in clinical and research medicine. Hardware and software student projects. Prereq> ECE 463
Typically Offered: Occasionally

B M E 775 Advanced Ultrasound Physics  Credits: 3
Foundations of acoustic wave equations, diffraction phenomena and acoustic beam formation, models for acoustic scattering from discrete structures and inhomogeneous continua, speckle statistics including speckle correlation, applications of these topics in medical imaging. Prereq> Med Phys 575, Physics 311, 322, 325, Math 234, or cons inst
Typically Offered: Occasionally

B M E 782 Modeling Biological Systems  Credits: 3
Literature survey of mathematical models in biology at the molecular and cellular levels; application of chemical kinetics and thermodynamics to biological systems; comparison of deterministic and stochastic strategies. Prereq> Math 319 or 320 or cons inst
Typically Offered: Occasionally

B M E 783 Design of Biological Molecules  Credits: 3
Introduction to the methodologies for engineering the structure and function of biological molecules, especially proteins. Students will develop an understanding for the integration of computation and experiment to address biological molecular engineering problems. Prereq> Biocore 303 or Biochem 501 or Zoology 570; or cons inst
Typically Offered: Occasionally

B M E 790 Master's Research and Thesis  Credits: 1 - 9
Under faculty supervision. Prereq> Grad st; for Master's candidates only
Typically Offered: Occasionally

B M E 801 Seminar on Development of Medical Devices and Drugs  Credits: 1
This course will give an overview of three major sectors of medical product and technology development including pharmaceuticals, medical devices and combination products. Regulatory framework, disclosure and patenting, technical design and development strategy, academia-specific development challenges will be among the major lecture topics. Prereq> Graduate student or consent of instructor
Typically Offered: Fall

B M E 890 Pre-dissertation Research  Credits: 1 - 9
Under faculty supervision. Prereq> Grad st; for pre-dissertators only
Typically Offered: Occasionally

B M E 915 Computation and Informatics in Biology and Medicine  Credits: 1
Participants and outside speakers will discuss current research in computation and informatics in biology and medicine. This seminar is required of all CIBM program trainees. Prereq> Cons inst
Typically Offered: Occasionally

B M E 990 Research and Thesis  Credits: 1 - 9
Under faculty supervision. Prereq> Dissertator status & cons inst
Typically Offered: Occasionally

B M E 999 Advanced Independent Study  Credits: 1 - 9
Under faculty supervision. Prereq> Cons inst
Typically Offered: Occasionally

BIOSTATISTICS & MED INFORMATIC

B MI 617 Health Information Systems  Credits: 3
Provides grounding in core concepts of health information systems. Major applications include clinical information systems, language and standards, decision support, image technology and digital libraries. Evaluation of IE tools and perspectives designed to improve the quality, efficiency and effectiveness of health information. Prereq> Senior or Graduate standing, or consent of instructor
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHEMICAL & BIOLOGICAL ENGR
CBE 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 250 Process Synthesis Credits: 3
An introduction to the invention of processes for the large scale, low cost processing of materials such as water, chemicals, petroleum products, food, drugs and wastes. Open to students in any field. Prereq> Chem 329 or Chem 343 or concurrent registration
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 255 Introduction to Chemical Process Modeling Credits: 3
Introduction to modeling of chemical processes and introduction to using modern computational tools to analyze the models. Prereq> Math 319 or 320 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 310 Chemical Process Thermodynamics Credits: 3
Introduction to thermodynamics, energy balances, applications to steady state and unsteady state processes, behavior of pure fluids, chemical reaction equilibria. Prereq> Math 234, Physics 201 or equiv; CBE 255 or equiv or con reg; CBE 250 with a grade of C or better
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 311 Thermodynamics of Mixtures Credits: 3
Properties of ideal and non-ideal vapors and liquids, ideal and non-ideal multicomponent vapor-liquid and liquid-liquid equilibria, complex chemical reaction equilibria, electrolytic solutions, surface thermodynamics, solid phase thermodynamics. Prereq> CBE 310 with a grade of C or better
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 320 Introductory Transport Phenomena Credits: 4
Mass, momentum, and energy transport; calculation of transport coefficients; solution to problems in viscous flow, heat conduction, and diffusion; dimensional analysis; mass, momentum, and heat transfer coefficients; over-all balances; elementary applications. Prereq> Physics 201, Math 319 or 320, CBE 250 with grade of C or better; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 324 Transport Phenomena Lab Credits: 3
Determination of thermodynamic properties, transport properties, and transfer coefficients; study of related phenomena. Prereq> CBE 310 & 320, or concurrent registration; Stat 324
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 326 Momentum and Heat Transfer Operations Credits: 3
Analysis of chemical engineering operations involving fluid flow and heat transfer. Flow of fluids through ducts and porous media; motion of particulate matter in fluids; general design and operation of fluid-flow equipment. Conductive, convective and radiative heat exchange with and without phase change; general design and operation of heat-exchange equipment. Prereq> CBE 310 & 320 with grades of C or better
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CBE 361 Biomolecular Engineering Laboratory Credits: 3
Instruction and laboratory experiments in basic molecular biology techniques, recombinant protein production, fermentation processes, protein purification and characterization, and related bioengineering laboratory topics. Geared towards chemical engineering students with interests in biotechnology and synthetic biology. Prereq> CBE 250; Zoo 151 or 153 or equivalent; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CBE 424 Operations and Process Laboratory Credits: 5
Experiments in unit operations, and supervised individual assignments selected from areas such as: fluid dynamics, analytical methods, reaction kinetics, plastics technology, and use of computers in data processing and simulation. Prereq> CBE 324, 326, 426 & 430; or consent of instructor
General Education: COM B  L&S Credit: No degree credit in L&S  Typically Offered: Summer
CBE 425 Undergraduate Rheology Seminar Credits: 0 - 1
Rheology seminar course encouraged for all interested in professions related to polymers, suspensions or rheology; will not count toward credit requirement of the major. Prereq> Cons inst or Jr st
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

CBE 426 Mass Transfer Operations Credits: 3
Analysis of chemical engineering operations involving mass transfer. Differential and stagewise separation processes; simultaneous heat and mass transfer; mass transfer accompanied by chemical reaction; general design and operation of mass-transfer equipment. Prereq> CBE 311 & 320 with grades of C or better, or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CBE 430 Chemical Kinetics and Reactor Design Credits: 3
Analysis and interpretation of kinetic data and catalytic phenomena; application of basic engineering principles to chemical reactor design. Prereq> CBE 311 & 320; or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CBE 440 Chemical Engineering Materials Credits: 3
Structure and properties of metallic and nonmetallic materials of construction; interrelations between chemical bonding, structure, and behavior of materials. Prereq> Chem 345
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CBE 450 Process Design Credits: 3
Analysis and design of chemical processing systems and equipment. Prereq> CBE 326, 426 & 430 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CBE 470 Process Dynamics and Control Credits: 3
A systematic introduction to dynamic behavior and automatic control of industrial processes; lab includes instrumentation, measurement and control of process variables by using conventional hardware and real-time digital computers. Prereq> CBE 326; CBE 430 or concurrent registration
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CBE 489 Honors in Research Credits: 1 - 3
Undergraduate honors research projects supervised by faculty members. Prereq> Admission to CBE honors in research prgm
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CBE 505 Aspects of Industrial Chemistry and Business Fundamentals Credits: 3
The objective of this course is to educate students in the chemistry and chemical engineering that defines societies’ standard of living. Commercial chemical processes will be reviewed. Practical realities of how a discovery moves from research to commercial product will be taught through examples and case studies. Financial concepts that guide investment will be reviewed. Prereq> Junior standing and Chem 345
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Every Other Spring

CBE 510 Introduction to Tissue Engineering Credits: 3
Overview of tissue engineering, including discussion of cell sources, cell-material interactions, tailoring biomaterials, methods of culture and characterization of engineering tissues, ethical issues, concluding with case studies of specific types of tissue engineering. Optional laboratory exercises offered throughout semester. Prereq> BME 430 or equiv, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

CBE 517 Biology in Engineering Seminar Credits: 1
Current topics at the interface of biology and engineering with special emphasis on the ways in which engineers have contributed to knowledge and advances in biology. Prereq> Jr st in engr & one college-level biol crse
L&S Credit: No degree credit in L&S Typically Offered: Fall

CBE 520 Stem Cell Bioengineering Credits: 3
Covers engineering approaches that are used to understand and manipulate stem cells. Concepts covered include: introduction to stem cell biology, quantitative modeling of stem cell signaling, methods to engineer the stem cell microenvironment, and the role of stem cells in tissue development and regeneration. Prereq> Math 319 or 320, Zoology 470 or 570, Chem 343, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall
CBE 525 Macromolecular Hydrodynamics Credits: 3
Observed phenomena in polymeric flow systems. Techniques of viscometry and viscoelastic measurements for polymeric fluids. Rheological models. Analytical solutions to flow problems: non-Newtonian viscosity, linear viscoelasticity, normal stresses, recoil, stress relaxation, etc. Dimensional analysis. Unit operations of the polymer industry: extrusion, blow molding, injection molding, mixing. Prereq> CBE 320 or ME 363 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CBE 535 Heterogeneous Catalysis: Principles and Applications Credits: 3
This course discusses catalytic phenomena, with extensions to reactor design and catalyst characterization. Examples will be drawn from current problems in catalysis. Prereq> CBE 430 or cons inst
Typically Offered: Spring

CBE 540 Polymer Science and Technology Credits: 3
Synthesis, properties, and fabrication of plastic materials of industrial importance. Prereq> Chem 345; CBE 326 & 430, or concurrent registration; Stat 324; or consent of instructor
L&S Credit: No degree credit in L&S

CBE 541 Plastics and High Polymer Laboratory Credits: 1 - 3
Experiments on polymerization, fabrication, and testing of plastics. Prereq> CBE 540 or concurrent registration; or Chem 664 or concurrent registration
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CBE 544 Processing of Electronic Materials Credits: 3
Physics and chemistry principles underlying microelectronic materials processing. Effects of processing on materials and structures important in microelectronic and opto-electronic devices. Prereq> CBE 440 or MS&E 351 or ECE 335; or cons inst
L&S Level: Intermediate L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CBE 547 Introduction to Colloid and Interface Science Credits: 3
Introduction to topics in colloid and interface science. Topics include: sedimentation and diffusion, solution thermodynamics, rheology, light scattering, surface tension and contact angle, adsorption, association colloids, particle interactions, electrokinetics, and colloidal stability. Prereq> Chem 561 or 562 or equiv, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

CBE 555 Seminar-Chemical Engineering Connections Credits: 1
Considers a variety of current engineering applications and problems. Students will investigate background information on topics of their choice, and present seminars to describe how engineering fundamentals interact with societal impact and how our undergraduate education in chemical engineering is relevant to societal concerns at large. Prereq> Sr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CBE 560 Biochemical Engineering Credits: 3
Properties of biological molecules: enzyme kinetics, enzyme reactors, and enzyme engineering; metabolic engineering; microbial growth kinetics; bioreactor design; bioseparations. Prereq> CBE 310; CBE 320; Zoo 151 or 153; or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

CBE 562 Special Topics in Chemical Engineering Credits: 1 - 3
Topics of specialized interest to majors in chemical engineering. Given on demand. Prereq> Jr st and cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CBE 565 Food Process Engineering Credits: 3
Application of engineering principles to the quantitative analysis of food processing systems. Physical/chemical characteristics of biological systems, flow processes, preservation processes and separation processes. Prereq> CBE 326 & 426; Chem 345
L&S Credit: No degree credit in L&S Typically Offered: Spring
CBE 567 Solar Energy Technology  Credits: 3  
Radiant energy transfer and its application to solar exchangers; energy balances for solar exchangers, review of theory, economics, and practice of solar energy applications. Prereq> ME 364 or CBE 326 or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CBE 575 Instrumental Analysis for Chemical Engineers  Credits: 3  
Instrumental methods as applied to chemical and physical processes in chemical engineering. Spectroscopic, optical, and electrochemical methods; chromatography, differential thermal analysis, and microscopy. Prereq> CBE 324 or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CBE 599 Special Problems  Credits: 1 - 4  
Research or independent study.  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CBE 620 Intermediate Transport Phenomena  Credits: 3  
Mass, momentum, and energy transport; kinetic theory of transport properties; analytical and approximate solutions to the equations of change; boundary layer theory; turbulence; simultaneous heat and mass transfer; multicomponent diffusion. Prereq> Grad standing in CBE or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CBE 660 Intermediate Problems in Chemical Engineering  Credits: 3  
Illustrations of solving chemical engineering problems by using a variety of mathematical topics such as ordinary and partial differential equations, Laplace transform, Bessel functions, matrices, and tensor analysis. Problem formulation and interpretation of results emphasized. Prereq> Grad st in CBE or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CBE 699 Advanced Independent Studies  Credits: 1 - 5  
Research on assigned topics.  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CBE 702 Graduate Cooperative Education Program  Credits: 1 - 2  
Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students.  
Typically Offered: Occasionally

CBE 710 Advanced Chemical Engineering Thermodynamics  Credits: 3  
Application of thermodynamic principles to selected topics, including equations of state, non-ideal solutions, and complex physical and chemical equilibria. Prereq> Grad st in CBE or cons inst  
Typically Offered: Occasionally

CBE 720 Physicochemical Hydrodynamics  Credits: 3  
Tensor analysis; partial differential equations for multi-component fluid mixtures; applications to laminar flow, turbulent flow, porous media, particulate systems; two-phase flow problems; interfacial transport; boundary-layer methods and variational procedures. Prereq> CBE 620 & 660, or cons inst  
Typically Offered: Occasionally

CBE 725 Structural Theories of Fluid Dynamics  Credits: 3  
Interconnection between fluid structure and bulk flow properties, kinetic theory of polymer solutions, polymer melts, suspensions and emulsions, deduction of rheological constitutive equations, Brownian motion. Configuration-space and phase-space kinetic theory. Prereq> Grad st in CBE or cons inst  
Typically Offered: Occasionally

CBE 730 Chemical Reactor Principles  Credits: 3  
Application of chemical kinetics and transport phenomena in the design and operation of industrial reactors. Prereq> Grad st in CBE or cons inst  
Typically Offered: Occasionally
CBE 731 Computational Modelling of Reactive Systems Credits: 3
Typically Offered: Occasionally

CBE 735 Kinetics and Catalysis Credits: 2 - 3
Survey of kinetic principles and factors which influence reaction rates, with particular emphasis on catalysts and catalytic reactions. May include a seminar on modern catalytic research. Prereq> Grad st in CBE or cons inst
Typically Offered: Occasionally

CBE 740 Solid State of Macromolecules Credits: 3
Techniques of characterization of solid polymers; mechanical, electrical, optical, diffusional and surface properties. Prereq> CBE 540 or Chem 664 or cons inst
Typically Offered: Occasionally

CBE 747 Advanced Colloid and Interface Science Credits: 3
Advanced topics in colloid and interface science. Topics include: intermolecular forces, stability of thin films, association colloids, liquid crystals, microhydrodynamics, electrostatics, electrokinetics, colloidal stability, and dispersion rheology. Prereq> CBE 547 or cons inst
Typically Offered: Occasionally

CBE 750 Advanced Chemical Process Synthesis and Optimization Credits: 3
Methodologies for synthesis and optimization of chemical process systems. Application of linear, nonlinear, and mixed integer programming to steady state process optimization, production planning, and flowsheet synthesis. Prereq> Graduate standing in CBE or consent of instructor
Typically Offered: Occasionally

CBE 760 Advanced Problems in Chemical Engineering Credits: 3
Application of selected topics in intermediate mathematics to solution of problems in transport phenomena, transient phenomena in unit operations, process dynamics, and thermodynamics; reading of research literature and development of skill in engineering analysis. Prereq> CBE 660 or cons inst
Typically Offered: Occasionally

CBE 770 Advanced Process Dynamics and Control Credits: 3
Modern methods for the mathematical analysis and control of dynamical systems. Application to physico-chemical systems. Real-time computer control. Prereq> Grad st in CBE or cons inst
Typically Offered: Occasionally

CBE 777 Nonlinear Dynamics, Bifurcations and Chaos Credits: 3
Advanced interdisciplinary introduction to qualitative and geometric methods for dissipative nonlinear dynamical systems. Local bifurcations of ordinary differential equations and maps. Chaotic attractors, horseshoes and detection of chaos. Prereq> Cons inst
Typically Offered: Occasionally

CBE 781 Biological Engineering: Molecules, Cells & Systems Credits: 3
Protein engineering and protein-protein interactions, receptor-ligand binding, cell metabolism and signaling, metabolic engineering and synthetic biology, tissue engineering. Additional topics may be covered such as: regenerative medicine, biomaterials, microbe-host interactions. Prereq> None
Typically Offered: Fall

CBE 782 Modeling Biological Systems Credits: 3
Literature survey of mathematical models in biology at the molecular and cellular levels; application of chemical kinetics and thermodynamics to biological systems; comparison of deterministic and stochastic strategies. Prereq> Math 319 or 320 or cons inst
Typically Offered: Occasionally

CBE 783 Design of Biological Molecules Credits: 3
Introduction to the methodologies for engineering the structure and function of biological molecules, especially proteins. Students will develop an understanding for the integration of computation and experiment to address biological molecular engineering problems. Prereq> Biocore 303 or Biochem 501 or Zoology 570; or cons inst
Typically Offered: Occasionally
CBE 790 Master's Research or Thesis Credits: 1 - 9
Prereq> Grad st, for Master's candidates only
Typically Offered: Occasionally

CBE 820 Special Topics in Transport Phenomena Credits: 1 - 3
Turbulent transport, rheology, droplet mechanics, multicomponent systems. Prereq> Cons inst
Typically Offered: Occasionally

CBE 826 Special Topics in Separation Methods Credits: 1 - 3
Differential migration methods, chromatographic separations, thermal diffusion. Prereq> Cons inst
Typically Offered: Occasionally

CBE 830 Special Topics in Solid Catalysts Credits: 1 - 3
Properties affecting activity and regeneration of solid catalysts; crystal defects, electron distribution, magnetic susceptibility, pore distribution, surface structure. Prereq> Cons inst
Typically Offered: Occasionally

CBE 840 Special Topics in Physical Properties Credits: 1 - 3
Corresponding states methods, mixtures, ionic systems, equilibria, molecular theories. Prereq> Cons inst
Typically Offered: Occasionally

CBE 850 Special Topics in Experimental Techniques Credits: 1 - 3
Operation of new research equipment, novel experimental techniques, special methods of chemical analysis. Prereq> Cons inst
Typically Offered: Occasionally

CBE 851 Special Topics in Engineering Data Analysis Credits: 1 - 3
Planning of experiments and analysis of data on chemical kinetics, catalysts, vapor-liquid equilibria, etc.; graphical and numerical correlation methods; digital computer applications. Prereq> Cons inst
Typically Offered: Occasionally

CBE 870 Special Topics in Process Dynamics and Control Credits: 1 - 3
Modern control theory applied to chemical systems. Prereq> Cons inst
Typically Offered: Occasionally

CBE 890 Pre-Dissertator's Research Credits: 1 - 9
Prereq> Grad st, for post-master's, pre-dissertator stdts only
Typically Offered: Occasionally

CBE 915 Computation and Informatics in Biology and Medicine Credits: 1
Participants and outside speakers will discuss current research in computation and informatics in biology and medicine. This seminar is required of all CIBM program trainees. Prereq> Cons inst
Typically Offered: Occasionally

CBE 920 Seminar on Advances in Transport Phenomena Credits: 1
Critical review of recent and current research in transport phenomena and allied disciplines. Prereq> Cons inst
Typically Offered: Occasionally

CBE 925 Rheology Research Seminar Credits: 0 - 1
Exploration of the most recent research literature on viscoelasticity, constitutive equations, non-Newtonian flow systems, fluid metering devices, kinetic theory of macromolecules, and rheooptical phenomena. Periodic reports on recent advances made by research workers in the various rheology groups on the Madison campus. Prereq> Cons inst
Typically Offered: Occasionally

CBE 926 Seminar in Plasma-Aided Manufacturing Credits: 0 - 1
Seminar on topical issues and research in plasma-aided manufacturing. Prereq> Cons inst
Typically Offered: Occasionally

CBE 932 Biotechnology Training Program Seminar Credits: 1
Biotechnology Training Program trainees will present their research for critical review by audience. Prereq> Grad st. Required of Biotechnology Training Program trainees
Typically Offered: Occasionally
CBE 935 Seminar in Application of Chemical Principles to New Processes Credits: 1
Application of chemical and physical principles to investigation of new processes and the development of innovative applications of these principles. Emphasis on the approach, the experimental identification and resolution of important parameters, and the inventive process. Case histories. Prereq> Grad st in CBE or cons inst
Typically Offered: Occasionally

CBE 940 Polymer Materials Science Seminar Credits: 1
Recent advances in the physics and engineering of high polymer systems. Topics: new theoretical developments and experimental techniques focusing on understanding bulk macromolecular properties.
Typically Offered: Occasionally

CBE 960 Research Seminar Credits: 1
Typically Offered: Occasionally

CBE 961 Seminar-Chemical Engineering Credits: 0 - 1
Typically Offered: Occasionally

CBE 963 Seminar in Chemical-Physical Fluid Dynamics Credits: 1
Combustion physics, reactive gas dynamics, and chemical and gas dynamic lasers. Prereq> Grad st in ChE or cons inst
Typically Offered: Occasionally

CBE 969 Advanced Topics in Liquid-Phase Reaction Engineering Credits: 1
Engineering aspects of chemical reactions in solution, including homogeneous and heterogeneous catalysis, interphase mass transfer, interfacial phenomena and solution thermodynamics. Problems in the areas of electrochemical processing, hydrometallurgy, and water treatment. Prereq> Grad St in ChE or Cons Inst
Typically Offered: Occasionally

CBE 970 Seminar on Process Analysis, Synthesis, Dynamics and Control Credits: 1
Critical review of recent and current research in these areas. Prereq> Cons inst
Typically Offered: Occasionally

CBE 990 Thesis-Research Credits: 1 - 12
Prereq> Dissertator status
Typically Offered: Occasionally

CBE 999 Advanced Independent Studies Credits: 1 - 6
Typically Offered: Occasionally

CIVIL AND ENVIRONMENTAL ENGR

CIV ENGR 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 251 Engineering Spatial Measurements Credits: 2
Introduction to the fundamentals of engineering measurements; units of measurement; significant figures; errors in measurement; measuring devices and their calibration; measurements of distances, angles, elevations and other engineering quantities; construction measurements; reference coordinate systems for point positioning, datums; mapping. Prereq> Math 221, ME 170 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 290 Construction Systems Credits: 3
Course focuses upon the building construction industry. Buildings include many engineered systems, such as foundations, structural, and exterior cladding. Course addresses construction methods and techniques for sitework, excavation, paving, cast-in-place concrete, precast concrete, masonry, structural steel, and moisture protection. Course uses case examples of individual systems. Prereq> So st
Typically Offered: Spring
CIV ENGR 291 Problem Solving Using Computer Tools Credits: 3
Introduction to engineering computations with emphasis on computer tools and computer based measurement, data collection, and processing. Tools will include computer aided drafting, spreadsheets, other engineering computation tools, and hardware and software for laboratory and spatial measurements. Prereq> EMA 202 or 304
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 299 Independent Study Credits: 1 - 3
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

CIV ENGR 307 Fundamental Computations for Land Information Systems Credits: 1
The nature of errors in spatial measurements; propagation of errors in computations; concept of least squares adjustments with applications to two-dimensional conformal and affine transformations used in Land and Geographic Information Systems; introduction to projective and polynomial transformations. Prereq> Math 211 or 221 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 308 Spatial Frameworks for Land Information Systems Credits: 1
Spatial reference framework requirements for multipurpose Land Information Systems (LIS); overview of surveying and mapping methods; geoid and ellipsoid; giodetic datums; plane coordinate systems; U.S. Public Land Survey System; LIS applications of Global Positioning System (GPS). Prereq> Math 114 or equiv & Jr st, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 310 Fluid Mechanics Credits: 3
Fluid statics and dynamics, dimensional analysis, flow of an ideal fluid, flow of a real fluid--including laminar and turbulent flow, applications to engineering problems. Prereq> Math 234 & EMA 202 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 311 Hydroscience Credits: 3
Introduction to the water cycle, its relationship to the environment and human attempts to conserve, control, and utilize water judiciously. Fundamentals of hydrology, hydraulics, coastal engineering and water resources engineering. Prereq> Civ Engr 310
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 315 Hydrology Credits: 3
Water cycle as related to air mass properties and movement, precipitation, evaporation, snowmelt, infiltration, streamflow, floods, and groundwater. Statistical hydrology, and hydrologic simulations--including runoff prediction, streamflow and reservoir routing, impoundment operation studies, and urban hydrology. Prereq> Comp Sci 211 or 302 & Civ Engr 311 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 320 Environmental Engineering Credits: 3
Fundamental sanitary aspects of environmental engineering. Role of the engineer in the control of the environment; water supply and wastewater problems; solid waste disposal; air pollution; and administration in environmental engineering. Prereq> 1 year college chem
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 321 Environmental Pollution Control for Non-Engineers Credits: 3
Water, land, and air pollution control technology to show the engineering approach to pollution problems, to outline solutions based on current technology, and to consider technical and economic constraints on solutions. Prereq> Basic science or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 322 Environmental Engineering Processes Credits: 3
Combination of theory and laboratory practice to study basic unit operations and processes in environmental engineering. Emphasis on water and wastewater treatment processes, such as coagulation/flocculation, chemical precipitation, filtration, adsorption, activated sludge, anaerobic digestion, and substrate utilization kinetics. Prereq> Civ Engr 320
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
CIV ENGR 325 Design of Water Distribution and Waste-Water Collection Systems Credits: 3
Application of basic principles in Sanitary Engineering and Hydraulics to the design of conduits, water distribution systems, reservoirs, pumping stations, stormwater and sanitary sewerage systems, and appurtenances. Prereq: Civ Engr 320 & 311
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CIV ENGR 330 Soil Mechanics Credits: 4
Basic principles of soil mechanics and fundamentals of application in engineering practice; soil composition and texture; classification; permeability and seepage; consolidation; settlement; shear strength; lateral earth pressures; fundamentals of retaining structures, shallow and deep foundations, slope stability; sub-surface exploration; lab. Prereq: EMA 303 or 304 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 340 Structural Analysis I Credits: 4
Analysis of statically determinate and indeterminate beams, trusses, and rigid frames; deflections by virtual-work, moment-area; influence lines; force methods; structural design loads, introduction to structural design, approximate methods. Prereq: EMA 303 & Mech Engr 307 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 357 An Introduction to Geographic Information Systems Credits: 4
Design, implementation and use of automated procedures for storage, analysis and display of spatial information. Covers data bases, information manipulation and display techniques, software systems and management issues. Case studies. Meets with Geography 377. Prereq: Intro crse in envrnmntl or mapping sci and an intro crse in computer programming or computer concepts
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 358 Hydrographic and Topographic Surveying Credits: 1
Principles of conducting the field surveys necessary to prepare a hydrographic or topographic map. Project planning and scheduling; control surveys; data collection for mapping; leveling to establish datum; control surveys for photogrammetric mapping. Prereq: Civ Engr 251 or 450 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 365 City Planning Credits: 3
Comprehensive planning process, zoning, subdivision regulations, subdivision design, planned unit development theory and design, alternative development strategies, growth control, citizen participation. Prereq: Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 370 Transportation Engineering Credits: 3
Characteristics of transportation supply and demand; measuring and estimating demand; social and environmental impacts; planning of transportation systems; characteristics of transportation modes; interaction between modes; mode interfaces; transportation technology; economics; public policy, implementation and management. Prereq: Stat 311 or Stat 324
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 372 On-Site Waste Water Treatment and Dispersal Credits: 2
On-site treatment and dispersal of waste water from homes, commercial sources and small communities. Sources, pretreatment units, nutrient removal units, constructed wetlands, surface and soil dispersal systems, recycle and reu se systems, regulations, alternative collection systems. Prereq: Chem 103
Typically Offered: Fall

CIV ENGR 392 Building Information Modeling (BIM) Credits: 2
Provides students with an introduction to the use of Building Information Modeling (BIM) technology in the construction industry. The course allows students to gain experience in using computer tools such as the Autodesk Revit Family to model building designs. Prereq: M E 160 or M E 170
L&S Credit: Counts for LAS credit  Typically Offered: Fall

CIV ENGR 395 Materials for Constructed Facilities Credits: 3
Properties and tests of materials used in the initial construction or repair of facilities (including buildings, transportation systems, utility systems, and reinforced earth). Introduction to laboratory and field measurement techniques to assess material performance capabilities. Technical report preparation. Prereq: EMA 303 & 307
L&S Credit: No degree credit in L&S  Typically Offered: Spring
CIV ENGR 403 Geometric Analysis of Vertical Aerial Photographs Credits: 1
Elementary photogrammetric procedures for obtaining reliable measurements from aerial photographs. Photographic measurements and refinements; geometry of vertical aerial photographs; scale and relief displacement; stereoscopy and parallax. Introduction to stereoplotters and orthophotoscopes. Camera calibration. Introduction to analytical photogrammetry and flight planning. Prereq> Math 221 or equivalent & Civ Engr 301, or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 405 Digital Orthophotography Credits: 1
A laboratory-oriented course; topics include: Image orientation, use of digital elevation models, image scanning, transforming digital elevation models and orthophotos between coordinate systems; orthoimage mosaics including color balance, feathering, and seam lines; the use of a bundle adjustment in the creation of orthoimage mosaics. Prereq> Civ Engr 403 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 410 Hydraulic Engineering Credits: 3
Engineering approaches to measurement, control and conveyance of water and wastewater flows, emphasizing analysis, design, characteristics and selection of: measurement devices, distribution and collection pipe systems, and pumps and turbines with consideration of plant, quality, economic, reliability, and security aspects. Prereq> Civ Engr 310 & 311 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 411 Open Channel Hydraulics Credits: 3
Analysis and characteristics of flow in open channels (natural and artificial); channel design considerations including uniform flow (rivers, sewers), flow measuring devices (weirs, flumes), gradually varied flow (backwater and other flow profiles, flood routing), rapidly varied flow (hydraulic jump, spillways), and channel design problems (geometric considerations, scour, channel stabilization, sediment transport). Prereq> Civ Engr 311
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 412 Groundwater Hydraulics Credits: 3
Engineering fundamentals of groundwater flow. Mass and momentum conservation, diffusion, and dispersion. Applications to wells, recharge, plumes, and convective transport. Physical models and elementary numerical methods, including flow nets. Some laboratory work.
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 414 Hydrologic Design Credits: 3
An introduction to the design of engineering structures which control and/or utilize runoff, emphasizing the sizing of structures to meet hydrologic uncertainty. Applies principles and techniques from several disciplines, including hydrology, hydraulics, probability and statistics. Specific techniques include flood frequency analysis; risk analysis; design storm and historic storm techniques; rainfall-runoff modeling. Prereq> Civ Engr 315 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

CIV ENGR 415 Water Resources Engineering Credits: 3
Application of principles of hydraulics, hydrology and water control to problems in erosion control, flood control, water power, irrigation, navigation, and river basin planning; includes design principles of water regulating structures. Prereq> Civ Engr 311
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 416 Optimization and Simulation of Water Resources Systems Credits: 3
Basic concepts of systems analysis applied to water resources. Introduction to optimization and simulation methodology. Development and application of water quality management models. Use of stochastic and parametric hydrologic models. Prereq> Civ Engr 311 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

CIV ENGR 417 Hydrological Investigations Credits: 2
For power, irrigation, soil conservation, or municipal purposes. Prereq> Cons inst or Civ Engr 315
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 422 Elements of Public Health Engineering Credits: 3
Prereq> Consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
CIV ENGR 423 Air Pollution Effects, Measurement and Control Credits: 3
The influence of man-caused pollution on the atmosphere, globally and locally. Evaluation of human health, economic, and aesthetic effects of air pollution. Techniques for measurement of atmosphere pollutant concentrations and determination of local and regional air quality. Detailed presentation of air pollution sources and methods for their control. The role of local, state and federal government in air pollution control. Prereq> Senior standing
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 424 Environmental Engineering Laboratory Credits: 2
Basic chemistry and chemical calculations applied to environmental engineering, lab methods and interpretation of results for chemical and biological analyses of water and wastewater. Prereq> Chem 103 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 426 Design of Wastewater Treatment Plants Credits: 3
Unit operations in wastewater treatment; physical, chemical, and biological processes for treatment of wastewater; sludge treatment and disposal; design of a wastewater treatment plant; site visits to wastewater treatment plants. Prereq> Civ Engr 310 or 316, & Civ Engr 320, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 427 Solid and Hazardous Wastes Engineering Credits: 3
Basic concepts in designing, evaluating, and operating solid wastes storage, collection, and disposal systems; waste reduction, resource recovery, incineration and land disposal methods; hazardous wastes engineering; legal, political, and administrative considerations. Prereq> Civ Engr 310 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 428 Water Treatment Plant Design Credits: 3
Preliminary studies and design of water treatment processes and subordinate plant facilities; project control of design project; unit operations in water treatment; groundwater treatment; preliminary cost estimates; introduction of computer-aided design concept; site visits to water treatment plants. Prereq> Civ Engr 310, 320
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CIV ENGR 429 Environmental Systems Optimization Credits: 3
Design and analysis of complex environmental systems to capture policy trade-off in managing water, land, air, and energy resources. Illustration of models that describe decision variables and constraints to capture the full range of alternative policy choices. Heuristic and formal solution procedures to select best project alternatives. Prereq> Introductory calculus
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CIV ENGR 431 CEE Automated Laboratory and Field Measurement Credits: 3
Covers basic use of laboratory and field instrumentation and data acquisition systems for CEE measurements such as strain, force, and pressure. Also includes methods of minimizing measurement error. Prereq> Comp Sci 110, 310, & Jr st in CEE
Typically Offered: Fall, Spring

CIV ENGR 440 Structural Analysis II Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 442 Wood Structures I Credits: 3
Properties of wood, basic concepts of structural design, design of wood structural members by LRFD including beams, columns and connections. Sawn, glued-laminated, sheathing and composite wood construction products. Concrete formwork. Prereq> Civ Engr 340
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 444 Practical Applications of GPS Surveying Credits: 2
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
CIV ENGR 445 Steel Structures I Credits: 3
Design loads, codes, specifications and standards; philosophies of design; load and resistance factor design (LRFD); allowable stress design (ASD); properties and types of structural steel; residual stresses; behavior and LRFD design criteria for tension members, compression; laterally braced and unbraced beams; essentials of bolted and welded connections. Prereq> Civ Engr 340
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 447 Concrete Structures I Credits: 3
Behavior of reinforced concrete structural elements; concepts of design and proportioning sections for strength and serviceability; background of specification requirements; strength design applied to beams, columns, and members under combined axial load and bending; continuous beams. Prereq> Civ Engr 340
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 449 Structural Systems Credits: 4
Specialized topics in structural design and structural engineering related to construction processes. Emphasis on understanding behavior of structural systems rather than individual components. Topics may include: structural bracing during construction, impact of fire on strength and design for fire ratings, special considerations in long span structures, selection of structural system layouts and other unique subjects. Prereq> Civ Engr 445 or 447, 440 recommended
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 450 Short Course in Surveying Credits: 3
Surveying and mapping for non-engineering students; use of instruments in measuring distances and angles, traverse computations, applications of surveying in preparing maps of small areas, public land-system. Prereq> For non-engineers
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 460 Uncertainty Analysis for Engineers Credits: 3
This course introduces undergraduates to approaches for quantifying uncertainty in engineering analyses. Both analytical and computational methods are demonstrated. Prereq> Statistics 311, Math 431, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 489 Honors in Research Credits: 1 - 3
Undergrad honors research projects supervised by faculty members. Not available for graduate credit. Prereq> Admission to the CEE honors in research program
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CIV ENGR 491 Legal Aspects of Engineering Credits: 3
Legal principles and institutions germane to engineering practice; formation and performance of engineer-client and owner-contractor relationships; preparation of technical specifications; surety bonds and insurance; construction liens; contract administration; construction contract remedies; intellectual property of engineers; engineers' obligations to society and their fellow engineers. Prereq> Sr st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 492 Integrated Project Estimating and Scheduling Credits: 3
Principles of estimating and scheduling for the construction industry, engineer's preliminary and final estimates' quantity take offs and cost and duration determinations for major items related to a construction project; use manual and computer techniques. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CIV ENGR 494 Civil and Environmental Engineering Decision Making Credits: 3
Planning, designing, and managing civil engineering systems. Fundamentals of the systems approach; marginal analysis; optimization techniques; decision analysis; economic analysis; cost-effectiveness analysis. Case study applications. Prereq> Math 221 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
CIV ENGR 495 Civil and Environmental Engineering Systems Modeling Techniques Credits: 3
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 496 Electrical Systems for Construction Credits: 3
Basic electricity, utility systems, standards and codes, electrical construction materials, branch circuit design, motor branch circuit design, feeder and service design, estimating and management concepts in electrical contracting, grounding, lighting, telecommunications. Prereq> Physics 202
Typically Offered: Fall, Spring

CIV ENGR 497 Mechanical Systems for Construction Credits: 3
Introduction to building mechanical systems. Plumbing, heating, ventilation, air conditioning, fire protection, automation/controls and process systems. Introduction to mechanical systems design and cost estimating. Mechanical system management. Prereq> Physics 202
Typically Offered: Spring

CIV ENGR 498 Construction Project Management Credits: 3
Characteristics of Construction Industry; project organizations; the design and construction process; labor, material, and equipment utilization; cost estimation; construction pricing and contracting; construction planning; cost control, monitoring accounting; and management systems construction. Prereq> Junior standing or consent of instructor
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

CIV ENGR 500 Water Chemistry Credits: 3
Elements of fresh and marine water chemistry; acid-base, precipitation, complexation, oxidation-reduction, adsorption, and biochemical reactions in natural waters and water treatment processes. Prereq> Chem 103, 104, 221 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 501 Water Analysis-Intermediate Credits: 3
Principles and applications of chemical and instrumental methods for the chemical analysis of water. Prereq> Chem 103
L&S Credit: No degree credit in L&S Typically Offered: Fall

CIV ENGR 502 Environmental Organic Chemistry Credits: 3
Environmental behavior of anthropogenic organic compounds. Physical-chemical properties and compound specific reactivities. Environmental processes controlling transport and fate; air-water exchange, sorption, chemical and photochemical reactions and transformations. Environmental fate modeling. For graduate students in environmental science and engineering. Prereq> Civ Engr 500, Chem 343 or equiv, or cons inst
Typically Offered: Spring

CIV ENGR 514 Coastal Engineering Credits: 2 - 3
The effect of natural forces associated with storms, hurricanes, and water-level variations on the coastal zone, and efforts made to combat these forces. Wave and storm-surge prediction, the change of waves as they approach shore, and wave forces on the shore; shore erosion and littoral drift; nearshore pollution in lakes and oceans; harbor, breakwater, and revetment design. Prereq> Civ Engr 311 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Spring

CIV ENGR 522 Hazardous Waste Management Credits: 3
Environmental regulations, remediation site characterization, contaminant characterization, detailed engineering and management considerations related to the design and operation of hazardous waste remediation systems involving water pollution, air pollution, solid waste, and groundwater pollution. Prereq> Civ Engr 320 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
<th>Prerequisites</th>
<th>L&amp;S Credit</th>
<th>Typically Offered</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIV ENGR 530</td>
<td>Seepage and Slopes</td>
<td>3</td>
<td>Practical aspects of seepage effects and ground water flow. Stability of natural and man-made slopes under various loading conditions. Design and construction of earth dams and embankments. Flow net and its use; wells; filters; total and effective stress methods of slope analysis; selection of pertinent soil parameters. Prereq&gt; Civ Engr 330</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Fall, Spring</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 531</td>
<td>Retaining Structures</td>
<td>3</td>
<td>Rigid and flexible earth retaining structures. Analysis and design of retaining walls, anchored bulkheads, braced cuts, tie back cuts, mechanically stabilized earth, and slurry trench walls. Lateral earth pressure due to soil, water, surcharge loads, etc., local and overall stability and the design of anchorage and bracing systems. Prereq&gt; Civ Engr 330; Comp Sci 310 or cons inst</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Fall, Spring</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 532</td>
<td>Foundations</td>
<td>3</td>
<td>Shallow and deep foundations. Analysis and design of footings, mats, piers and piles, and related fill and excavation operations. Consolidation settlement, time rate of settlement, stress distribution, elastic (immediate) settlement, load bearing capacity; methods to reduce settlements and increase shear strength; the selection of a foundation system. Prereq&gt; Civ Engr 330 &amp; Comp Sci 310 or cons inst</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Fall, Spring</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 534</td>
<td>Field Methods in Geological Engineering</td>
<td>3</td>
<td>Methods of site investigations for the rational design of structures in rocks and soil. Field reconnaissance, exploratory drilling, in situ testing, during and post-excavation monitoring. Prereq&gt; Civ Engr 330 &amp; GLE 474, or consent of instructor</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Fall</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 543</td>
<td>Precast Concrete</td>
<td>3</td>
<td>Design of structural systems using precast concrete components, capacity of prestressed components, fire ratings, connections and construction of precast systems. Prereq&gt; Civ Engr 447</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Occasionally</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 545</td>
<td>Steel Structures II</td>
<td>3</td>
<td>Composite construction; composite vs. non-composite behavior; shored vs. unshored construction; stability of frames; elastic analysis of frames including second order effects; strength of members subject to combined flexure and axial compression; plate girders; vertical flange buckling; flexural and shear strength; flexure and shear interaction; stiffener requirements. Prereq&gt; Civ Engr 445</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Fall, Spring</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 547</td>
<td>Concrete Structures II</td>
<td>3</td>
<td>Deflections under short duration and sustained loads; compression members with emphasis on stability and secondary bending moments; two-way slab systems; prestressed concrete including prestress losses; design of shear walls, special topics in strut and tie modelling, compression field theory and design for torsion may be covered; flexure analysis; design of sections; and shear strength. Prereq&gt; Civ Engr 447</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Fall, Spring</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 556</td>
<td>Remote Sensing Digital Image Processing</td>
<td>3</td>
<td>Techniques of enhancement and quantification of remote sensing imagery. Emphasis on processing and analyzing data gathered by airborne and satellite sensors. Techniques to quantitatively analyze data from photography, electro-optical scanners, satellite systems, and radar and passive microwave systems. A 5-week practicum with applications to: agriculture and forestry, geology and soils, water quality, and urban and regional planning. Prereq&gt; Civ Engr/Envir St/Forestry 303 or authorization</td>
<td>L&amp;S Level: Advanced L&amp;S Credit: Counts for LAS credit</td>
<td>Typically Offered: Spring</td>
<td></td>
</tr>
<tr>
<td>CIV ENGR 570</td>
<td>Environmental Impact of Transportation Systems</td>
<td>3</td>
<td>Nature of the ecosystem and ecosystem modeling, the nature of transportation produced impacts on man's social, economic, physical and emotional well being, on wildlife, natural areas, agricultural areas; environmental economics; measuring and evaluating environmental quality, and citizen tactics in response to environmental issues. Prereq&gt; Jr st or cons inst</td>
<td>L&amp;S Credit: No degree credit in L&amp;S</td>
<td>Typically Offered: Occasionally</td>
<td></td>
</tr>
</tbody>
</table>
CIV ENGR 571 Urban Transportation Planning Credits: 3
Principles of planning, evaluation, selection, adoption, financing, and implementation of alternative urban transportation systems; formulation of community goals and objectives, inventory of existing conditions; transportation modeling--trip generation, distribution, modal choice, assignment, technological characteristics and operation of modern transit and other movement systems. Prereq> Civ Engr 370 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CIV ENGR 572 Airports Credits: 2
The nature of air travel and aircraft technology; environmental impacts; airport operations and flight control; airport planning and design; site selection, configurations, design details; new airport concepts; terminals, support functions; airport access; heliport design and operation. Prereq> Civ Engr 370 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 573 Geometric Design of Transport Facilities Credits: 3
Problems in ground transportation facility design; generation, capacity, location and design; rural and urban at-grade intersection design; grade separations; interchanges; parking lots and terminals. Prereq> Civ Engr 370
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 574 Traffic Control Credits: 3
Traffic data collection studies; measures of effectiveness and evaluation of traffic system performance; design and application of traffic control devices; design of traffic signal systems; operational controls and traffic management strategies. Prereq> Civ Engr 370 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 575 Advanced Highway Materials and Construction Credits: 3
Soils, soil stabilization, aggregates, bituminous materials and mixtures, general highway materials and construction of rigid and flexible pavements.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Summer

CIV ENGR 576 Advanced Pavement Design Credits: 3
Covers the principles of stress and strain analyses in typical highway pavement structures due to loading from traffic and climate. Also covers the most commonly used analysis and design procedures/software to determine thickness of pavement layers and prediction of performance. Prereq> Civ Engr 395
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 577 Transportation Administration Credits: 2
Historical development, organization and administration of transportation departments; transportation surveys and planning, economic analysis, finance, administration of construction projects, control of maintenance operations. Prereq> Civ Engr 370
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 578 Senior Capstone Design Credits: 4
The application of theoretically and academically acquired knowledge to a civil and environmental engineering problem in as near "real-world" as possible. Prereq> Completion of at least 1 crse which carries 3 cr of design
Typically Offered: Fall, Spring

CIV ENGR 579 Seminar-Transportation Engineering Credits: 1
Current problems and research developments in transportation, highways, traffic engineering, and transportation planning and systems analysis. Prereq> Sr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 592 Construction Labor Productivity Management Credits: 3
Comprehensive systems approach to construction labor productivity management and methods improvement. Productivity measurements including work sampling, crew balance charts, process charts, flow diagram and others. The course also includes external factors affecting labor productivity, such as change orders, overmanning, stacking of trades and weather. An integral part of this course is the impact of safety on productivity.
Typically Offered: Fall
CIV ENGR 595 Planning/Design/Construction Integration Credits: 3
Students will be involved in construction engineering and management aspects of projects. These projects will be student team efforts supervised by the course faculty members and mentors from professional practice. Prereq> Sr st in Civil & Environmental Engineering or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 596 Constructability Analysis Credits: 3
Project facility delivery process; conceptual planning, design, construction, operation and maintenance, construction knowledge and experience, analysis of facility design from a construction perspective, constructability concepts. Prereq> Jr st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 609 Special Topics in Water Chemistry Credits: 1 - 3
Given on demand. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 618 Special Topics in Hydraulics and Fluid Mechanics Credits: 1 - 3
Given on demand. Prereq> Prereq varies with topic
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 619 Special Topics in Hydrology Credits: 1 - 3
Given on demand. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 623 Microbiology of Waterborne Pathogens and Indicator Organisms Credits: 3
Source, environmental fate and transport of major groups of waterborne pathogens, including epidemiology and testing of associated indicator organism. Management and treatment technologies for prevention of pathogen transmission. Prereq> Soil Sci 523 or Civ Engr 322 or cons inst
Typically Offered: Fall

CIV ENGR 629 Special Topics in Environmental Engineering Credits: 1 - 3
Given on demand. Prereq> Sr st
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 631 Toxicants in the Environment: Sources, Distribution, Fate, & Effects Credits: 3
Nature, sources, distribution, and fate of contaminants in air, water, soil, and food and potential for harmful exposure Prereq> Chem 343 & 345 or equiv; Chem 561 or equiv; Physics 103 & 104 or equiv; Math 211; or cons inst
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

CIV ENGR 633 Waste Geotechnics Credits: 3
The geotechnical aspects of waste disposal and storage. Critical aspects of geotechnical design, construction, and testing relevant to the performance of earthen structures used for the storage and disposal of wastes or the remediation of contaminated sites are discussed. Prereq> Civ Engr 330 & 320 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 635 Remediation Geotechnics Credits: 3
Geotechnical practice for remediation of sites containing contaminated soil and groundwater is discussed. Topics include non-invasive and invasive subsurface exploration techniques, methods to monitor for the presence of contaminants in the saturated and unsaturated zones, and geotechnically-oriented remedial action technologies. Prereq> Civ Engr 320 & 330
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

CIV ENGR 639 Special Topics in Geotechnical Engineering Credits: 1 - 4
Given on demand. Prereq> Cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

CIV ENGR 641 Highway Bridges Credits: 3
Design applications in structural steel, reinforced and prestressed concrete to simple span and continuous highway bridges; AASHTO Specifications and loading applications; composite concrete-steel bridges; lateral and longitudinal forces on superstructure and substructure and substructures; pier design; multicell box culverts. Prereq> Civ Engr 445, 447
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
CIV ENGR 649 Special Topics in Structural Engineering  Credits: 1 - 3
Given on demand.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 655 Computerized Land Information Systems  Credits: 3
Theory and use of multipurpose land information systems in landscape architecture, civil engineering, and environmental studies. Topics include: system design; reference systems; data capture, structure, and quality; cadastral information; implementation; and land planning applications. Laboratory applications using spatial computer technology. Prereq> Junior standing & 1) one course in surveying, cartography, remote sensing, or air photo interpret, or 2) consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

CIV ENGR 656 Engineering Application of Land and Geographic Information Systems  Credits: 3
Network models and analysis; linear referencing systems; dynamic segmentation; network overlay; surface modeling and analysis; facilities management concepts; relationship to infrastructure life cycle; applications include pavement management, safety analysis, various routing problems, stormwater runoff, and subsurface characterization; case studies; laboratory. Prereq> Math 222 and Civ Engr 307 and Civ Engr 308 and Civ Engr 357 or Civ Engr/Envir St/Land Arch 655
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

CIV ENGR 659 Special Topics in Geospatial Information Engineering  Credits: 1 - 3
Given on demand. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CIV ENGR 669 Special Topics in Construction Engineering and Management  Credits: 1 - 4
Advanced topics of special interest to seniors and grad students in construction engineering and management.
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CIV ENGR 670 Transit Systems Planning  Credits: 3
Transit planning in the urban transportation planning process; transit demand models; computer packages; corridor planning; system design; bus and rail operations; paratransit; new modes. Prereq> Civ Engr 571 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CIV ENGR 677 Practicum in Transportation  Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CIV ENGR 679 Special Topics in Transportation and City Planning  Credits: 3
Given on demand. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CIV ENGR 694 Management of Civil Infrastructure Systems  Credits: 3
Comprehensive systems approach to civil infrastructure and asset management with emphasis on transportation facilities. Social, political, economic factors that influence transportation planning, design, construction, maintenance and operation. Needs assessment, information management, performance measurement, life cycle cost and benefits analysis, prioritization and optimization, budgeting and finance. Prereq> Grad st or cons inst, & Civ Engr 494 or equiv
L&S Credit: Counts for LAS credit  Typically Offered: Spring

CIV ENGR 695 Design and Construction of Bituminous Mixtures  Credits: 3
Selection of aggregates and binders for asphalt mixtures, mechanical and durability properties of mixtures, engineering principles relating binder and mixtures properties to pavement performance, mixture production and construction, design for constructibility, specification and contracting methods, quality control and quality assurance, pavement performance and management, pavement maintenance and rehabilitation. Prereq> Civ Engr 395 or 575
Typically Offered: Fall, Summer

CIV ENGR 699 Independent Study  Credits: 1 - 9
Prereq> So st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
CIV ENGR 700 Chemistry of Natural Waters Credits: 3
Application of chemical principles to cycling of important elements in natural waters; mineral weathering, cycles of carbon, nitrogen, phosphorus, silicon, sulfur, and minor elements in natural waters; relationships of atmospheric chemistry to natural waters. Prereq: Civ Engr 500 or cons inst
Typically Offered: Occasionally

CIV ENGR 702 Graduate Cooperative Education Program Credits: 1 - 2
Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students.
Typically Offered: Occasionally

CIV ENGR 704 Environmental Chemical Kinetics Credits: 3
This course examines the fundamental molecular processes that govern the fate and transformation of organic contaminants in natural environmental systems and engineered treatment processes. We will emphasize the kinetics describing these processes and focus on transformation mechanisms of organic contaminants in aquatic systems. Specific topics include partitioning between air, water, and solids; chemical kinetics; substitution, hydrolysis, and redox reactions; oxidation reactions encountered in ozone and chlorine-based disinfection systems; and photochemical and biological transformations. Prereq: CIV ENGR 500; Graduate Standing
Typically Offered: Every Other Spring

CIV ENGR 710 The Chemistry of Air Pollution Credits: 2
The course will cover background and modern research methods for the application of chemical analysis tools to understanding of the origin, composition, and the chemical transformations of pollutants that occur in the atmosphere. Emphasis will be directed at the pollutants impacting human health, climate change, and ecosystem degradation. Approximately half of the course materials will be taken from the scientific literature and will provide the opportunity to advance skills in the critical reading of journal articles. The course is directed at graduate students conducting research and interested in air pollution and environmental chemistry. As part of the course, students will gain experie
Typically Offered: Every Other Fall

CIV ENGR 712 Problems of Turbulent Flow Credits: 2
Transition from laminar to turbulent flow; statistical parameters of turbulence; variance spectra, instability theories, basic features of organized motion in turbulent states, phenomenological theories; transport mechanisms of turbulence, energy transformations in turbulent flow, applications to wall bounded (boundary layers), and free (jet, wake, plume) flows, and to stratified fluids, similarity requirements for modeling of turbulent flow. Prereq: Cons inst or Civ Engr 711
Typically Offered: Occasionally

CIV ENGR 714 Flow Through Porous Media Credits: 3
Properties of a porous medium; Darcy's Law; conservation of mass; potential flow-conformal mapping; diffusion equation; application to problems in seepage, groundwater, and hydraulics of wells. Prereq: Civ Engr 611 or cons inst
Typically Offered: Occasionally

CIV ENGR 716 Statistical Modelling of Hydrologic Systems Credits: 3
Real world applications of probability and statistics to the analysis and modeling of problems in surface and groundwater hydrology. Assumes basic knowledge of probability and statistics. Prereq: Stat 311 or cons inst
Typically Offered: Occasionally

CIV ENGR 717 Water Resources Management Practicum Planning Seminar I Credits: 1
This is the first of two seminars used for planning the activities of the Summer Session Water Resources Management Practicum (ENVIR ST 719). Prereq: Consent of instructor
Typically Offered: Fall

CIV ENGR 718 Water Resources Management Practicum Planning Seminar II Credits: 2
This seminar is used for planning the field work, analysis and reporting of the Summer Session Water Resources Management Practicum (ENVIR ST 719). Prereq: Adv Grad standing or consent of instructor
Typically Offered: Occasionally
CIV ENGR 719 Water Resources Management Summer Practicum Credits: 4
Interdisciplinary team of students and staff working with agency personnel, citizen groups, and/or private sector representatives on the analysis of a contemporary, problem-oriented water resource issue. Physical, biological, economic and social aspects of the issue analyzed. Comprehensive written report results, practicum's findings and management recommendations. Prereq> Envir St/Civ Engr/Urb R Pl 718 or consent of instructor
Typically Offered: Occasionally

CIV ENGR 721 Biological Principles of Environmental Engineering Credits: 3
Biological principles important to diagnosing and controlling pollution through environmental engineering applications such as fate and transport of contaminants in the environment, eutrophication, water treatment for human consumption, biological waste treatment for pollution control and bioenergy generation. Prereq> Students must be accepted into an online Master of Engineering degree program
Typically Offered: Every Other Fall

CIV ENGR 730 Engineering Properties of Soils Credits: 3
Determination and interpretation of soil properties for engineering purposes; physio-chemical properties of soil-water systems, permeability and capillarity, compression characteristics of soils, measurement of soil properties in the triaxial test, properties of frozen soils and permafrost. Prereq> Civ Engr 330
Typically Offered: Occasionally

CIV ENGR 731 Properties of Geosynthetics Credits: 3
Properties and behavior of geosynthetics (plastics sheets and geotextiles used in geotechnical and geo-environmental construction) are discussed and measured in a laboratory setting. Students learn how to measure and quantify geomechanical and hydraulic behavior of geosynthetics which are used in design. Prereq> Grad st & Civ Engr 330, or cons inst
Typically Offered: Occasionally

CIV ENGR 732 Unsaturated Soil Geoengineering Credits: 3
Engineering principles of unsaturated soils as they apply to geotechnical and geoenvironmental systems. Effect of soil water suction and stress on hydraulic conductivity, shear strength, and compressibility of soils in the context of geoengineering problems of flow and stability. Prereq> Grad st & Civ Engr/GLE 330 or cons inst
Typically Offered: Occasionally

CIV ENGR 733 Physicochemical Basis of Soil Behavior Credits: 3
Applications of physiochemical, mineralogical and environmental considerations to the engineering behavior of soils. Soil composition, formation, fabric, pore fluid chemistry and interaction of phases. The particulate nature of soils and the fabric-engineering property (volume change, strength, deformation and conduction) relationships. Prereq> Civ Engr 330 or consent of instructor
Typically Offered: Occasionally

CIV ENGR 735 Soil Dynamics Credits: 3
Geotechnical considerations of earthquake engineering and foundation vibrations. Seismic surveying; ground motion during earthquakes; determination of soil properties for ground response analysis; dynamic properties of soils; soil structure interaction effects; soil liquefaction; dynamic analysis of earth dams; settlements resulting from earthquakes, lateral earth pressures during earthquakes; foundation vibrations. Prereq> Civ Engr/EMA 530, EMA 545 or cons inst
Typically Offered: Occasionally

CIV ENGR 739 Special Topics in Geotechnical Engineering Credits: 1 - 4
Advanced topics of special interest to graduate students in geotechnical engineering. Prereq> Cons inst
Typically Offered: Occasionally

CIV ENGR 740 Advanced Methods of Structural Analysis Credits: 3
Advanced topics in modern structural analysis including development of stiffness matrices, modeling connections, nonlinear geometry, nonlinear materials. Prereq> Civ Engr 440
Typically Offered: Occasionally

CIV ENGR 744 Structural Dynamics and Earthquake Engineering Credits: 3
Response of Single Degree of Freedom (SDOF) systems; numerical evaluation of dynamic response; earthquake response of SDOF systems; response spectra; Multi Degree of Freedom (MDOF) systems; natural frequencies and vibration modes; modal superposition; direct integration; damping of MDOF systems; earthquake response of MDOF systems; earthquake resistant design (basic principles). Prereq> Civ Engr 440 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally
CIV ENGR 749 Special Topics in Structural Engineering Credits: 1 - 4
Advanced topics of special interest to graduate students in structural engineering. Prereq> Cons inst
Typically Offered: Occasionally

CIV ENGR 750 Analytical & Digital Photogrammetry Credits: 3
Image and object space coordinate systems; coordinate transformations; image coordinate refinement;
collinearity equations; space resection and space intersections; relative orientation; strip and block formation and
adjustment. Technology for deriving and acquiring digital images. Image processing algorithms used to display
and locate control points. Algorithms for image correlation and elevation calculations. Mapping with non-
photographic sensors. Prereq> Civ Engr 404 & 407
Typically Offered: Occasionally

CIV ENGR 757 Transportation Location Referencing Systems Credits: 3
Linear referencing systems; integration of one-, two-, and three-dimentional systems; spatial/temporal
referencing; transformations and error propagation; location reference message specifications and ITS datum;
navigation, tracking, and routing; relationship to geographic information systems. Prereq> Civ Engr 407 & 452; &
Civ Engr 357 or 655
Typically Offered: Occasionally

CIV ENGR 758 Image Processing Algorithms for Remote Sensing Credits: 3
The details of programming image processing algorithms for remote sensing data analysis on microcomputers are
discussed. Practical algorithms for a variety of image processing tasks including image display, image
transformation, and image classification using a number of different hardware configurations are covered.
Prereq> Comp Sci 302 or equiv & Envir St/Civ Engr/Land Arc 566, or cons inst
Typically Offered: Occasionally

CIV ENGR 772 Practicum in Transportation Management and Policy Credits: 3
Integrative capstone course in transporation management and policy. Interdisciplinary team experience in the
application of theoretical knowledge and analytical tools for developing policy and making management decisions
on "real-world" problems. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CIV ENGR 790 Master's Research or Thesis Credits: 1 - 9
Prereq> Grad st, for Master's candidates only
Typically Offered: Occasionally

CIV ENGR 795 Characterization of Asphalt Binders Credits: 3
Fundamentals of asphalt production methods, refining practices, and modification techniques. Asphalt rheological
testing, linear and non-linear visco-elasticity, conventional and Superpave characterization techniques. The role of
asphalt rheology in pavement response and pavement performance. Course includes hands-on training on using
different rheometers used in binder grading systems. Prereq> Civ Engr 395 or 575
Typically Offered: Occasionally

CIV ENGR 810 Problems in Oceanography Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

CIV ENGR 811 Theory of Water Waves Credits: 3
Formulation of the free surface wave problem; small-amplitude wave theory; finite-amplitude wave theory;
shallow-water waves; effect of structures on waves; density-stratified flow. Prereq> Civ Engr 611 or cons inst
Typically Offered: Occasionally

CIV ENGR 821 Environmental Engineering: Biological Treatment Processes Credits: 4
Advanced theory and applications of biological systems for the treatment of wastes; lab techniques to assess
treatability and to provide design parameters. Prereq> Civ Engr 320 or equiv & cons inst
Typically Offered: Occasionally

CIV ENGR 822 Environmental Engineering: Physical/Chemical Treatment Process Credits: 4
Advanced theory and applications of chemical and physical-chemical processes for the treatment of water and
wastewater; lab techniques to assess design requirements and treatability. Prereq> Civ Engr 320 or equiv or
cons inst
Typically Offered: Occasionally
CIV ENGR 824 Water and Wastewater: Field Evaluations Credits: 3
Advanced evaluation of water and wastewater treatability for the purpose of designing water and wastewater treatment systems. Consideration to discharge of end products to the environment and possible reuse schemes.
Prereq> Cons inst
Typically Offered: Occasionally

CIV ENGR 839 Land Use and Communication Systems Planning Credits: 3
Application of systems analysis to the planning of land use and transportation systems; system modeling; environmental impacts; value measurement; decision-making strategies. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CIV ENGR 890 Pre-Dissertation's Research Credits: 1 - 9
Prereq> Grad st, for post-master's, pre-dissertation stdts only
Typically Offered: Occasionally

CIV ENGR 909 Seminar-Water Chemistry Research Credits: 1
Armstrong. Prereq> Grad st
Typically Offered: Occasionally

CIV ENGR 911 Limnology and Marine Science Seminar Credits: 1
Sections in various fields of zoological research. Prereq> Grad st in limnology & marine sci grad prgm or cons inst
Typically Offered: Occasionally

CIV ENGR 919 Seminar-Hydraulic Engineering and Fluid Mechanics Credits: 1
Current research and review of literature in theoretical and applied fluid mechanics and hydraulic engineering. Prereq> Grad st
Typically Offered: Occasionally

CIV ENGR 929 Seminar-Environmental Engineering Credits: 1
Current research and literature on water, wastewater, water pollution control, solid wastes engineering and management. Prereq> Grad st
Typically Offered: Occasionally

CIV ENGR 939 Geotechnical Engineering Seminar Credits: 1
Geotechnical analysis, design, and construction. Prereq> Cons inst
Typically Offered: Occasionally

CIV ENGR 949 Seminar-Structural Engineering Credits: 1
Structural analysis, design, and construction. Prereq> Grad st
Typically Offered: Occasionally

CIV ENGR 950 Environmental Monitoring Seminar Credits: 1
Current research and literature dealing with environmental remote sensing and geographic information systems. Prereq> Grad st
Typically Offered: Occasionally

CIV ENGR 951 Seminar-Geospatial Information Engineering Credits: 1
Current research and literature on problems. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CIV ENGR 970 Colloquium in Transportation Management and Policy Credits: 1
Current issues, case studies, research, and literature dealing with transportation management and policy development. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CIV ENGR 990 Thesis Credits: 1 - 12
Required for some M.S. and all Ph.D. degrees. Prereq> Dissertator status
Typically Offered: Occasionally
CIV ENGR  999 Advanced Independent Study  Credits:  1   -   9
Prereq> Grad st
Typically Offered: Occasionally

ELECTRICAL AND COMPUTER ENGR

E C E  1 Cooperative Education Program  Credits:  1
Work experience which combines classroom theory with practical knowledge of operations to provide students
with a background upon which to base a professional career.  Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

E C E  203 Signals, Information, and Computation  Credits:  3
Introduction to the signals, information, and computational techniques in electrical engineering.  Prereq> Open to
Freshmen.  Math 222 & Physics 202
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E  210 Introductory Experience in Electrical Engineering  Credits:  2
An introduction to electrical and electronic devices, circuits and systems including software and hardware
focusing on a real-world project.  Prereq> Advanced math competence - algebra, trigonometry or suitable
placement scores.  Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E  219 Analytical Methods for Electromagnetics Engineering  Credits:  1
Reviews basic calculations in electromagnetic engineering upon which all higher level concepts and physical
model construction are based.  It emphasizes quantitative calculation mastery in three spatial dimensions and/or
time-frequency analysis.  Applies analysis tools from vector calculus and complex exponentials to the calculation
and prediction of electrical system properties.  Examples include calculating electric and magnetic fields, electric
potentials, or electric flux from change or current sources, and calculating the amplitudes and phases of electric or
magnetic fields due to time-oscillating sources.  Prereq> Math 234 or concurrent registration; ECE 203 or
current registration
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E  220 Electrodynamics I  Credits:  3
Potential theory; static and dynamic electric and magnetic fields; macroscopic theory of dielectric and magnetic
materials; Maxwell's equations; boundary conditions; wave equation; introduction to transmission lines.  Prereq>
Physics 202, ECE 219; ECE 230 or concurrent registration
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E  230 Circuit Analysis  Credits:  4
Kirchhoff's laws, resistive circuits, equivalent circuits using Thevenin-Norton theories, small signal analysis, dc
operating point, first-order circuits, second-order circuits, SPICE and circuit simulation methods, sinusoidal steady
state, phasors, poles and zeros of network functions, ideal transformed linear and non-linear two-port networks.
Prereq> Math 222, Physics 202
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E  235 Introduction to Solid State Electronics  Credits:  3
An introduction to the physical principles underlying solid-state electronic and photonic devices, including
elements of quantum mechanics, crystal structure, semiconductor band theory, carrier statistics, and band
diagrams.  Offers examples of modern semiconductor structures.  Prereq> Open to Fr.  Math 222 & Physics 202
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

E C E  252 Introduction to Computer Engineering  Credits:  2
Logic components built with transistors, rudimentary Boolean algebra, basic combinational logic design, basic
synchronous sequential logic design, basic computer organization and design, introductory machine- and
assembly-language programming.  Prereq> Open to Freshmen
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

E C E  270 Circuits Laboratory I  Credits:  1
Experiments cover Kirchhoff's laws, inductors, basic operational amplifier circuits, and frequency response.
Prereq> ECE 170; ECE 230 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
E C E 271 Circuits Laboratory II  Credits: 1
Experiments cover electronic device characteristics, limitations and applications of operational amplifiers, and feedback circuits. Prereq> ECE 270; ECE 340 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

E C E 301 Transmission Lines and Networks Laboratory  Credits: 1
Experiments demonstrating the principles of lumped and distributed transmission lines for transient and sinusoidal excitation. Standing wave patterns, impedance matching, and characteristics of microwave devices. Prereq> ECE 271; ECE 420 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E C E 303 Introduction to Real-Time Digital Signal Processing  Credits: 2
"Real-Time Digital Signal Processing" emphasizes the implementation of DSP algorithms on a digital signal processor in "real-time." Many of the signal processing algorithms that were used in ECE203 will be reviewed in Matlab and then will be implemented on a floating point signal processor in "real-time" using the C programming language. You will explore many basic digital signal processing processes in real-time. Followed by a student chosen project. You will gain the ability to create and develop your own Digital Signal Processing projects for a modern digital signal processor using an Integrated Development Environment. Lab hardware will be provided. Prereq> ECE 203
Typically Offered: Fall, Spring

E C E 304 Electric Machines Laboratory  Credits: 1
Terminal characteristics of electric machines, elements of speed control, voltage regulation, and applications in systems. Emphasis on the experimental approach to the solution of complex physical problems. Prereq> ECE 271; ECE 355 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E C E 305 Semiconductor Properties Laboratory  Credits: 1
Introduction to some fundamental properties of semiconductor materials and devices through the use of characterization techniques common in modern electronic industry. These concepts include: charge carriers; energy bands; space charge regions; carrier drift, diffusion and recombination; light emission; and lattice vibrations. Prereq> ECE 271; ECE 335 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E 306 Linear Active Circuits Laboratory  Credits: 1
Direct coupled and operational amplifier characteristics; applications of feedback; practical aspects. Prereq> ECE 271; ECE 342 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E 308 Nonlinear Electronic Circuits Laboratory  Credits: 1
An experimental study of selected nonlinear electronic circuits and devices using diodes, transistors, op-amps, timers, data converters, and logic components. Prereq> ECE 271; ECE 342 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E 313 Optoelectronics Lab  Credits: 1
Light detection using photovoltaic and photoconductive detectors and phototransistors. Light generation using light emitting diodes and laser diodes. Light transmission using optical fibers. Optoisolators and optical switches. Light emitting diode and liquid crystal displays. Prereq> ECE 271; 340; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

E C E 315 Introductory Microprocessor Laboratory  Credits: 1
Software and hardware experiments with a microcomputer system. Assembly language programming, simple input/output interfacing, and interrupt processing in microcomputer systems. Prereq> ECE 351; ECE 353. Concurrent registration in 353 is allowed if 315 is taken second half of semester
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E 317 Sensors Laboratory  Credits: 1
A hands-on introduction to a variety of different sensor types. Labs incorporate implementation concerns involving interference, isolation, linearity, amplification, and grounding. Prereq> ECE 271, ECE 340 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring
E C E 320 Electrodynamics II Credits: 3
Static and dynamic electromagnetic fields; forces and work in electromechanical systems; magnetic circuits; plane wave propagation; reflection of plane waves; generalized transmission line equations; current and voltage on transmission lines; impedance transformation and matching; Smith charts. Prereq> ECE 220; Math 319 or 320 or concurrent registration, or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E C E 330 Signals and Systems Credits: 3
Time-domain response and convolution; frequency-domain response using Fourier series, Fourier transform, Laplace transform; discrete Fourier series and transform; sampling; z-transform; relationships between time and frequency descriptions of discrete and continuous signals and systems. Prereq> ECE 203; ECE 230 or equivalent
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

E C E 331 Introduction to Random Signal Analysis and Statistics Credits: 3
Introduction to probability, random variables, and random processes. Confidence intervals, introduction to experimental design and hypothesis testing. Statistical averages, correlation, and spectral analysis for wide sense stationary processes. Random signals and noise in linear systems. Prereq> ECE 330
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E C E 332 Feedback Control Systems Credits: 3
Modeling of continuous systems; computer-aided solutions to systems problems; feedback control systems; stability, frequency response and transient response using root locus, frequency domain and state variable methods. Prereq> ECE 330
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E C E 334 State Space Systems Analysis Credits: 3
Analysis of systems using matrix methods to write and solve state-variable differential equations. Additional topics include stability, controllability, observability, state feedback, observers, and dynamic output feedback. Prereq> Math 320 or 340 or con reg
L&S Credit: No degree credit in L&S Typically Offered: Spring

E C E 335 Microelectronic Devices Credits: 3
Characteristics of semiconductors; study of physical mechanisms and circuit modeling of solid state electronic and photonic devices; principles of microelectronic processing and examples of integrated circuits. Prereq> E C E 220, E C E 230, and E C E 235
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E C E 340 Electronic Circuits I Credits: 3
A first course in modeling, characterization, and application of semiconductor devices and integrated circuits. Development of appropriate models for circuit-level behavior of diodes, bi-polar and field effect transistors, and non-ideal op-amps. Application in analysis and design of linear amplifiers. Frequency domain characterization of transistor circuits. Prereq> ECE 230
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

E C E 342 Electronic Circuits II Credits: 3
A second course in modeling and application of semiconductor devices and integrated circuits. Advanced transistor amplifier analysis, including feedback effects. Design for power amplifiers, op-amps, analog filters, oscillators, A/D and D/A converters, and power converters. Introduction to transistor level design of CMOS digital circuits. Prereq> ECE 340
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E C E 350 Professional Expression Credits: 3
Typical communicative problems of the professional engineer; schedules, job specifications, equipment performance specifications, step-by-step directions, presentation of data, professional articles, abstracts, technical proposals, oral presentations; reports. Prereq> ECE Sr with 102 cr or more, satisfaction of comm skills requirement, & consent of dept
General Education: COM B L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

E C E 351 Digital Logic Laboratory Credits: 1
Logic gate characteristics, combinational logic, latches and flip-flops, synchronous and asynchronous sequential logic, simple systems. Prereq> ECE 170, ECE/Comp Sci 352; ECE 230 or con reg
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
E C E 352 Digital System Fundamentals Credits: 3
Logic components, Boolean algebra, combinational logic analysis and synthesis, synchronous and asynchronous sequential logic analysis and design, digital subsystems, computer organization and design. Prereq: Comp Sci/ECE 252
General Education: QR-B L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring, Summer

E C E 353 Introduction to Microprocessor Systems Credits: 3
Introduction to architecture, operation, and application of microprocessors; microprocessor programming; address decoding; system timing; parallel, serial, and analog I/O; interrupts and direct memory access; interfacing to static and dynamic RAM; microcontrollers. Prereq: ECE 352, Comp Sci 354, ECE 340 or concurrent registration
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E C E 354 Machine Organization and Programming Credits: 3
An introduction to computer organization using assembly and machine language. Number representation, computer arithmetic, instruction sets, I/O interrupts, and programming interrupts. Projects involve detailed study and use of a specific computer hardware and software system. Prereq: Comp Sci 302 & ECE/Comp Sci 252
General Education: QR-B L&S Breadth: Natural Science L&S Level: Intermediate L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring

E C E 355 Electromechanical Energy Conversion Credits: 3
Energy storage and conversion, force and emf production, coupled circuit analysis of systems with both electrical and mechanical inputs. Applications to electric motors and generators and other electromechanical transducers. Prereq: ECE 230, ECE 320
L&S Credit: No degree credit in L&S Typically Offered: Spring

E C E 356 Electric Power Processing for Alternative Energy Systems Credits: 3
Introduction to electrical power processing technologies that are necessary to convert energy from alternative sources into useful electrical forms. Several specific alternative energy sources are examined, providing platforms for introducing basic concepts in power electronics, electric machines, and adjustable-speed drives. Prereq: ECE 230 or ECE 376 or equiv or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

E C E 370 Advanced Laboratory Credits: 2
Experiments related to the required core material. Prereq: ECE 271, ECE 320, ECE 330, ECE 335, ECE 351
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

E C E 376 Electrical and Electronic Circuits Credits: 3
DC and AC electrical circuit analysis methods, and analog and digital circuit design and analysis including operational amplifier linear circuits, digital combinational logic circuits, and computer interface circuits which combine both digital and analog devices for interfacing physical systems. Includes five laboratory sessions. Prereq: Math 222 & Physics 202
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

E C E 377 Fundamentals of Electrical and Electro-mechanical Power Conversion Credits: 3
Fundamentals of electromagnetic induction and application to transformers and induction heating; Lorentz forces with a focus on the operation and control of DC and AC motors and linear actuators; electrical power conversion using power electronics for motor drives and direct power converters. Includes five laboratory sessions. Prereq: Math 234, familiarity with ordinary differential equations, Physics 202 & ECE 376
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E C E 379 Special Topics in Electrical and Computer Engineering Credits: 1 - 4
Topics of special interest to undergrads in electrical and computer engineering. Prereq: So St and cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

E C E 399 Independent Study Credits: 1 - 3
Prereq: Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer
E C E 401 Electro-Acoustical Engineering Credits: 3
Principles of plane and spherical sound waves; acoustical, mechanical, and electrical analogies; electroacoustic transducer materials and techniques; specific types of transducers such as microphones and loudspeakers.
Prereq> ECE 330, 340 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 409 Introductory Feedback Control Laboratory Credits: 4
Concepts in modern feedback control applied to hardware-based design problems. This lab gives students a wide range of conceptual and hardware experience, rather than focusing on specific applications. Weekly exercises consist of theory, design, simulation, testing, and data analysis. Prereq> ECE 332 or ECE 334 or ME 446 or ME 447
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 411 Introduction to Electric Drive Systems Credits: 3
Basic concepts of electric drive systems. Emphasis on system analysis and application. Topics include: dc machine control, variable frequency operation of induction and synchronous machines, unbalanced operation, scaling laws, adjustable speed drives, adjustable torque drives, coupled circuit modelling of ac machines.
Prereq> ECE 355
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 412 Power Electronic Circuits Credits: 3
Operating characteristics of power semiconductor devices such as Bipolar Junction Transistors, IGBTs, MOSFETs and Thyristors. Fundamentals of power converter circuits including dc/dc converters, phase controlled ac/dc rectifiers and dc/ac inverters. Practical issues in the design and operation of converters. Course available on videotape. Prereq> ECE 342 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E C E 415 System Modeling, Identification and Simulation Credits: 3
Principles of mathematical modeling of linear and nonlinear, continuous and discrete systems. Real-time computer-assisted simulation and identification of engineering systems (electrical, mechanical, hydraulic, acoustic, etc.). Methods of on-line and off-line system identification. Introduction to the behavior of forced and unforced nonlinear dynamic systems. Prereq> Comp Sci 312 or 412, ECE 330, Math 340
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E C E 417 Digital Control Credits: 3
Fundamentals of sampled linear systems from a control perspective, encompassing both frequency-domain and time-domain control strategies. Topics covered include analysis of difference equations, the z-transform, sampling, stability, minimality, discrete approximation, and stabilization techniques. Prereq> ECE 334; ECE 332 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 420 Electromagnetic Wave Transmission Credits: 3
Transmission lines: frequency domain analysis of radio frequency and microwave transmission circuits including power relations and graphical and computer methods. Electromagnetic waves: planar optical components, pulse dispersion, phase front considerations for optical components, conducting waveguides, dielectric waveguides. Radiation: retarded potentials, elemental dipoles, radiating antenna characterization, receiving mode. Prereq> ECE 320
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E 427 Electric Power Systems Credits: 3
The electric power industry, operation of power systems, load flow, fault calculations, economic dispatch, general technical problems of electric power networks. Prereq> ECE 330 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 431 Digital Signal Processing Credits: 3
Sampling continuous-time signals and reconstruction of continuous-time signals from samples; spectral analysis of signals using the discrete Fourier transform; the fast Fourier transform and fast convolution methods; z-transforms; finite and infinite impulse response filter design techniques; signal flow graphs and introduction to filter implementation. Prereq> ECE 330
L&S Credit: No degree credit in L&S  Typically Offered: Fall
E C E 432 Digital Signal Processing Laboratory Credits: 3
Implementation of digital signal processing algorithms on special-purpose and general-purpose hardware. Use of assembly and high-level languages, and simulator to develop and test IIR, FIR filters and the FFT for modern DSP chips. Scaling for fixed point arithmetic. Use of high level languages to implement real time, object oriented component based DSP systems in general purpose computers. DSP applications, including data and voice communication systems. Prereq> ECE 431, Comp Sci 302
Typically Offered: Spring

E C E 434 Photonics Credits: 3
Introduction to ray optics, physical optics and interference, applications of Fourier optics, absorption, dispersion, and polarization of light. Second half of the course treats light sources, including lasers (gas, solid state, and semiconductor), modulation and detection of light. Prereq> ECE 320, ECE 335 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E C E 435 Introduction to Cryptography Credits: 3
Cryptography is the art and science of transmitting digital information in a secure manner. This course will provide an introduction to its technical aspects. Prereq> Math 320 or 340 or cons inst. Open to Fr
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

E C E 436 Communication Systems I Credits: 3
Amplitude, frequency, pulse, and pulse-code modulation. Narrow-band noise representation and signal-to-noise ratios for various modulation schemes. Pulse shaping, timing recovery, carrier synchronization, and equalization. Sampling, quantization and coding. Prereq> ECE 331
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 437 Communication Systems II Credits: 3
Statistical analysis of information transmission systems. Probability of error, design of receivers for digital transmission through additive white Gaussian noise channels and bandlimited channels. Spread spectrum communication systems. Channel capacity, source and error control coding. Prereq> ECE 331; ECE 436 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E C E 438 Communication Systems Laboratory I Credits: 1
Experiments in basic analog and digital modulation techniques, including amplitude modulation; frequency modulation; single side-band/quadrature modulation; eye patterns; noisy channels; amplitude, phase, and frequency shift keying. Prereq> ECE 271; ECE 436 or con reg or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 439 Introduction to Robotics Credits: 3
A system engineering approach to robotic science and technology. Fundamentals of manipulators, sensors, actuators, end effectors and product design for automation. Kinematics, control, and programming of manipulators, along with introduction to pattern recognition and computer vision. Prereq> ME 340 or ECE 332 or equiv & familiarity with a high level programming language such as Pascal, C, or Matlab
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E C E 440 Electromagnetic Fields and Waves Credits: 3
Laplace's and Poisson's equations; conformal mapping and boundary value problems; Maxwell's equations; boundary conditions, plane wave propagation, reflection and refraction at oblique incidence, surface impedance concept; ionized media; anisotropic materials; radiation from antennas. Prereq> ECE 420 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 444 Microwave Theory, Devices and Applications Credits: 3
Advanced analysis of waveguides, stripline, and microstrip; microwave circuit and device theory including ferrites, junctions and resonators; high frequency generation and amplification, microwave systems. Prereq> ECE 420
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E C E 445 Semiconductor Physics and Devices Credits: 3
Physics and properties of semiconductors, p-n junctions, metal-semiconductor contacts, homojunction and heterojunction bipolar transistor and physics, metal-oxide-semiconductor and heterostructure field-effect transistor and physics, thin-film resistors, memory devices, quantum devices. Prereq> ECE 335
L&S Credit: No degree credit in L&S  Typically Offered: Spring
E C E  447  Applied Communications Systems  Credits:  3
Analysis with design problems of electronic communications circuits. Emphasis on the nonlinear effects of large-
signal operation of active devices. Complete design of r.f. oscillator, amplifier, and mixer circuits. Prereq> ECE
340; ECE 420 recommended
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

E C E  453  Embedded Microprocessor System Design  Credits:  4
Hardware and software design for modern microprocessor-based embedded systems; study of the design
process; emphasis on major team design project. Prereq> ECE 315 & 353
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring

E C E  454  Mobile Computing Laboratory  Credits:  4
End-to-end project management; teamwork; fundamentals of disciplined development practices; introduction to
mobile computing platforms and systems; design, implementation, and deployment of mobile systems and
applications. Prereq> Computer Engineering Sr st or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

E C E  461  Mathematical and Computer Modeling of Physiological Systems  Credits:  3
Mathematical and computer modeling of physiological systems; principal emphasis on cardiovascular system and
individual nerve cells; other topics include respiratory system and skeletal-muscle system; extensive use of
"hands-on" computer modeling using ACSL. Prereq> ECE 330 or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring

E C E  462  Medical Instrumentation  Credits:  3
Design and application of electrodes, biopotential amplifiers, biosensors, therapeutic devices. Medical imaging,
Electrical safety. Measurement of ventilation, blood pressure and flow. Lecture and lab. Prereq> ECE 342 or
cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

E C E  463  Computers in Medicine  Credits:  3
Labs and programming project involve design of biomedical digital signal processing algorithms. Prereq> ECE
330, Comp Sci 302
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

E C E  466  Electronics of Solids  Credits:  3
Electronic, optical and thermal properties of crystalline solids. Energy-momentum dispersion of fundamental
particles and excitations in solids leading to microscopic theories of conductivity, polarizability and permeability.
Influence of materials characteristics on the performance of electronic and photonic devices. Prereq> ECE 335,
305, or consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered:  Spring

E C E  468  Digital Computer Projects in Control and Instrumentation  Credits:  4
On-line and real-time applications of digital computers in instrumentation and control systems; design of hardware
interfaces and software; emphasis on student projects. Prereq> Comp Sci 302, ECE 271, 332 (or a control crse);
or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

E C E  489  Honors in Research  Credits:  1 - 3
Undergraduate honors research projects supervised by faculty members. Not available for graduate credit.
Prereq> Admission to ECE honors in research prgm
Typically Offered:  Fall, Spring, Summer

E C E  491  Senior Design Project  Credits:  3
Engineering design projects supervised by faculty members. Not available for graduate credit. Prereq> Sr st &
cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer
E C E 504 Electric Machine & Drive System Laboratory Credits: 2 - 3
Steady state and dynamic performance of electric machines in combination with power electronic converters. Parameter measurement, performance evaluation, design of experimental procedures for problem solving, use of digital data acquisition systems and signal processing equipment in system evaluation. Prereq: ECE 304 and 411 or con reg 411 and cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

E C E 506 Software Engineering Credits: 3
Ideas and techniques for designing, developing, and modifying large software systems. Topics include software engineering processes; requirements and specifications; project team organization and management; software architectures; design patterns; testing and debugging; and cost and quality metrics and estimation. Students will work in large teams on a substantial programming project. Prereq: COMPSCI 367 and at least one of COMPSCI 407, 536, 537, 545, 552, 559, 564, 570, or 679
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

E C E 511 Theory and Control of Synchronous Machines Credits: 3
The idealized three phase synchronous machine time domain model including saliency, time invariant form using Park's transformation, sudden short circuits and other transient conditions, reduced order models, excitation system and turbine/governor control, dynamics of multiple machine systems, transient stability and subsynchronous resonance. Prereq: ECE 355, ECE 427, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

E C E 512 Power Electronics Laboratory Credits: 3
This laboratory introduces the student to measurement and simulation of important operating characteristics of power electronic circuits and power semiconductor devices. Emphasis is on devices, circuits, gating methods and power quality. Prereq: ECE 412 or consent required
L&S Credit: No degree credit in L&S Typically Offered: Fall

E C E 520 Foundations of Dynamic Physical Systems Credits: 3
Modern descriptions of dynamic physical systems, including classical mechanics, variational dynamics, statistical mechanics and thermodynamics, information theory, quantum mechanics, wave theory, and eigenvalue theory. Emphasis on application to electrical engineering, including circuits, optics, and control problems. A survey intended for engineering and physical science students. (Ph.D. graduate students in Physics will not be granted credit towards an ECE minor requirement as a result of taking this course.) Prereq: ECE 320 & 335 or cons inst
L&S Breadth: Physical Science L&S Level: Intermediate/Advanced L&S Credit: No degree credit in L&S Typically Offered: Fall

E C E 525 Introduction to Plasmas Credits: 3
Basic description of plasmas: collective phenomena and sheaths, collisional processes, single particle motions, fluid models, equilibrium, waves, electromagnetic properties, instabilities, and introduction to kinetic theory and nonlinear processes. Examples from fusion, astrophysical and materials processing plasmas. Prereq: One crse in electromagnetic fields beyond elem physics
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

E C E 527 Plasma Confinement and Heating Credits: 3
Principles of magnetic confinement and heating of plasmas for controlled thermonuclear fusion: magnetic field structures, single particle orbits, equilibrium, stability, collisions, transport, heating, modeling and diagnostics. Discussion of current leading confinement concepts: tokamaks, tandem mirrors, stellarators, reversed field pinches, etc. Prereq: NEEP/Phys/ECE 525 or equiv
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

E C E 528 Plasma Processing and Technology Credits: 3
Introduction to basic understanding and techniques. Plasma processing of materials for semiconductors, polymers, plasma spray coatings, ion implantation, etching, arcs, extractive metallurgy and welding. Plasma and materials diagnostics. Prereq: Physics 322 or ECE 320 or equiv or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

E C E 531 Speech Signal Processing Credits: 3
L&S Credit: No degree credit in L&S Typically Offered: Spring
ECE 532 Theory and Applications of Pattern Recognition Credits: 3
Pattern recognition systems and components; decision theories and classification; discriminant functions; supervised and unsupervised training; clustering; feature extraction and dimensional reduction; sequential and hierarchical classification; applications of training, feature extraction, and decision rules to engineering problems. Prereq> ECE 331 or Math 431 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ECE 533 Image Processing Credits: 3
Mathematical representation of continuous and digital images; models of image degradation; picture enhancement, restoration, segmentation, and coding; pattern recognition, tomography. Prereq> ECE 330 or cons inst; Math 320 or 340 or equiv
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ECE 535 Photonic Communications and Sensing Systems Credits: 3
Modern photonic sources, detectors, and devices. Data encoding and transmission in optical fiber and free space. Limitations to optical transmission. Applications of linear and nonlinear optical effects to photonic devices. Photonic-based remote sensing. Illustrative examples of transmission and sensing systems. Topical subjects will be addressed. Prereq> ECE 434 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ECE 536 Integrated Optics and Optoelectronics Credits: 3
This course introduces the student to the physical principles, design concepts, and technological consequences of passive, electro-optic, and optic-electronic guided wave devices. Prereq> ECE 320, 335, & ECE 434 or 420 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ECE 537 Communication Networks Credits: 3
Study of communication networks with focus on performance analysis. Layered network structure. Basic protocol functions such as addressing, multiplexing, routing, forwarding, flow control, error control, and congestion response. Overview of transport, network, and link layer protocol standards. Introduction to wireless and mobile networks. Prereq> ECE 203, Comp Sci 367
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ECE 539 Introduction to Artificial Neural Network and Fuzzy Systems Credits: 3
Theory and applications of artificial neural networks and fuzzy logic: multi-layer perceptron, self-organization map, radial basis network, Hopfield network, recurrent network, fuzzy set theory, fuzzy logic control, adaptive fuzzy neural network, genetic algorithm, and evolution computing. Applications to control, pattern recognition, nonlinear system modeling, speech and image processing. Prereq> Comp Sci 302, or Comp Sci 310, or knowledge of C programming lang
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ECE 541 Analog MOS Integrated Circuit Design Credits: 3
Analysis, design and applications of modern analog circuits using integrated bipolar and field-effect transistor technologies. Provides the student with a working knowledge of the basic circuits used in modern analog integrated circuits and techniques for analysis and design. Prereq> ECE 342 or ECE 340 & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ECE 542 Introduction to Microelectromechanical Systems Credits: 3
Introduction to MEMS technology, devices and systems. Fundamentals of MEMS in fabrication, process integration, material mechanics of MEMS structures, sensors and actuators. Main topics in MEMS - microfluidics, optical MEMS, RF MEMS, BioMEMS, packaging, and CAD. Prereq> ECE 335 or 340, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ECE 543 Numerical Modeling of Semiconductor Devices and Processing Credits: 3
Study of semiconductor devices fabrication processes using advanced computer simulation tools. Specific devices are modeled from fabrication to electrical properties and parameters extraction. Deposition, lithography, etching, implant processes are discussed. Statistical methods are used to study the effect of process parameters (and variations) on device electrical properties. Prereq> ECE 335
L&S Credit: No degree credit in L&S  Typically Offered: Fall
ECE 544 Processing of Electronic Materials Credits: 3
Physics and chemistry principles underlying microelectronic materials processing. Effects of processing on materials and structures important in microelectronic and opto-electronic devices. Prereq> CBE 440 or MS&E 351 or ECE 335; or cons inst
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ECE 545 Advanced Microwave Measurements for Communications Credits: 3
Measurements at VHF and microwave frequencies; characteristics of microwave generators, amplifiers, passive devices and detection systems; measurement of frequency, noise and simple antenna patterns; time domain reflectometry, swept frequency network and spectrum analyzer techniques; lecture and lab. Prereq> ECE 301, ECE 444 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ECE 546 Lasers Credits: 2 - 3
General principles of laser operation; laser oscillation conditions; optical resonators; methods of pumping lasers, gas discharge lasers, e-beam pumped lasers, solid state lasers, chemical lasers, and dye lasers; gain measurements with lasers; applications of lasers. Prereq> Physics 322 or ECE 420 or equiv; Physics 545, or 449 or 531
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ECE 547 Advanced Communications Circuit Design Credits: 3
Principles underlying the design of r.f. and microwave communications circuits. Analysis and design of wideband nonlinear power amplifiers, S-parameter techniques for r.f. active circuit design, computer aided design techniques, r.f. integrated circuits, fundamentals of low noise r.f. design. Prereq> ECE 447, ECE 420 or con reg, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ECE 548 Integrated Circuit Design Credits: 3
Bipolar and MOS devices in monolithic circuits. Device physics, fabrication technology. IC-design for linear and nonlinear circuitry. Prereq> ECE 335
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ECE 549 Integrated Circuit Fabrication Laboratory Credits: 3
Monolithic integrated circuit fabrication; mask making, photolithography, oxidation, diffusion, junction evaluation, metallization, packaging, and testing. Prereq> ECE 548 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ECE 551 Digital System Design and Synthesis Credits: 3
Typically Offered: Fall, Spring

ECE 552 Introduction to Computer Architecture Credits: 3
The design of computer systems and components. Processor design, instruction set design, and addressing; control structures and microprogramming; memory management, caches, and memory hierarchies; and interrupts and I/O structures. Prereq> ECE/Comp Sci 352 & Comp Sci/ECE 354
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ECE 553 Testing and Testable Design of Digital Systems Credits: 3
Faults and fault modeling, test equipment, test generation for combinational and sequential circuits, fault simulation, memory and microprocessor testing, design for testability, built-in self-test techniques, and fault location. Prereq> ECE/Comp Sci 352; Comp Sci 367; ECE 353 or cons inst
Typically Offered: Fall

ECE 554 Digital Engineering Laboratory Credits: 4
Practical aspects of computer system design. Design, construction, and testing of significant digital subsystems. Design, construction, and programming of pipelined digital computers. Prereq> ECE 352; ECE/Comp Sci 552
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
E C E 555 Digital Circuits and Components Credits: 3
Principles and characterization of logic circuits. Design and analysis techniques for applied logic circuits. Transmission lines in digital applications. Families of circuit logic currently in use and their characteristics. Prereq> ECE 340; ECE/Comp Sci 352
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E C E 556 Design Automation of Digital Systems Credits: 3
Use of digital computers to simulate, partition, place and interconnect digital electronic systems. Prereq> ECE/Comp Sci 352; Comp Sci 367; or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E C E 561 Introduction to Charged Particle Accelerators Credits: 3
Charged particle accelerators and transport systems, behavior of particles in magnetic fields, orbit theory, stability criteria, acceleration theory. Applications to different types of accelerators. Prereq> Math 322, EMA 202 or Physics 311, Physics 322 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

E C E 600 Seminar in Electrical and Computer Engineering Credits: 0
Weekly or bi-weekly seminars on topics in electrical and computer engineering including automatic control, biomedical engineering, communications and signal processing, computer engineering, electromagnetic fields, energy and power systems, photonics, plasma, and solid state. Seminar on a particular topic may include lectures given by faculty, invited speakers, as well as group discussion. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E C E 601 Special Topics in Electrical and Computer Engineering Credits: 1 - 4
Advanced topics of special interest to students in various areas of Electrical and Computer Engineering. Prereq> Jr st & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E C E 602 Special Topics in Electrical and Computer Engineering Credits: 1 - 4
Advanced topics of special interest to students in various areas of electrical and computer engineering. Prereq> Jr st and cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E C E 630 All of Signal Processing Credits: 3
A broad range of basic and advanced signal processing concepts presented in a MATLAB intensive, application driven environment designed to acquaint students with the fundamental ideas and language of signal processing. Prereq> Grad st; Math 222; and Stat 311, 324 or 371; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E C E 641 Introduction to Error-Correcting Codes Credits: 3
A first course in coding theory. Codes (linear, Hamming, Golay, dual); decoding-encoding; Shannon's theorem; sphere-packing; singleton and Gilbert-Varshamov bounds; weight enumerators; MacWilliams identities; finite fields; other codes (Reed-Muller, cyclic, BCH, Reed-Solomon) and error-correction algorithms. Prereq> Math 320 or 340, and Math 541 or cons inst
L&S Breadth: Natural Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

E C E 699 Advanced Independent Study Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

E C E 702 Graduate Cooperative Education Program Credits: 1 - 2
Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students. Typically Offered: Occasionally
E C E 707 Mobile and Wireless Networking Credits: 3
Design and implementation of protocols, systems, and applications for mobile and wireless networking, particularly at the media access control, network, transport, and application layers. Focus is on the unique problems and challenges presented by the properties of wireless transmission, various device constraints such as limited battery power, and node mobility. Prereq> Comp Sci 640 or ECE 537 or cons inst
Typically Offered: Occasionally

E C E 711 Dynamics and Control of AC Drives Credits: 3
Principles of power converters, two axis models of AC machines and AC drives, simulation of drive systems, analytical modeling of drives, dynamic behavior of induction and synchronous motors and drive systems. Offered every third semester. Prereq> ECE 332 & 411 or cons inst
Typically Offered: Occasionally

E C E 712 Solid State Power Conversion Credits: 3
Advanced course in power electronics which provides an understanding of switching power converters. Included are DC-to-DC, AC-to-DC, DC-to-AC, and AC-to-AC converters, commutation techniques, converter control, interfacing converters with real sources and loads. Offered every third semester. Prereq> ECE 412 or cons inst
Typically Offered: Occasionally

E C E 713 Electromagnetic Design of AC Machines Credits: 3
Electromagnetic design concepts and application to AC machines, magnetic circuit concepts, calculation of equivalent circuit parameters of induction, synchronous and permanent magnet machines from geometric data, copper and iron loss calculations, theory and application of finite elements to electromagnetic devices. Offered every third semester. Prereq> ECE 411 or 511 or equiv
Typically Offered: Occasionally

E C E 714 Utility Application of Power Electronics Credits: 3
Power electronic application to utility systems is a rapidly growing field with major impact on the industry. This course will cover material on HVDC transmission, energy storage systems, renewable sources, static compensators, and flexible ac transmission systems. Prereq> ECE 412, ECE 427, cons inst
Typically Offered: Occasionally

E C E 717 Linear Systems Credits: 3
Equilibrium points and linearization; natural and forced response of state equations; system equivalence and Jordan form; Lyapunov, asymptotic, and BIBO stability; controllability and duality; control-theoretic concepts such as pole-placement, stabilization, observers, dynamic compensation, and the separation principle. Prereq> Math 340 or cons inst
Typically Offered: Occasionally

E C E 719 Optimal Systems Credits: 3
Optimality considerations in the study of dynamical systems; applications to electrical systems gain selection, tuning, conditions for optimality, feedback and instability, iterative methods, filtering, prediction, smoothing, dynamic programming controller synthesis, stability and robustness criteria. Prereq> ECE 334 or cons inst
Typically Offered: Occasionally

E C E 723 On-Line Control of Power Systems Credits: 3
Typically Offered: Occasionally

E C E 724 Waves and Instabilities in Plasmas Credits: 3
Waves in a cold plasma, wave-plasma interactions, waves in a hot plasma, Landau damping, cyclotron damping, magneto-hydrodynamic equilibria and instabilities, microinstabilities, introduction to nonlinear processes, and experimental applications. Prereq> NEEP/ECE/Physics 525 & Physics 721 or ECE 740 or cons inst
Typically Offered: Occasionally
E C E 725 Plasma Kinetic Theory and Radiation Processes Credits: 3
Coulomb Collisions, Boltzmann equation, Fokker-Planck methods, dynamical friction, neoclassical diffusion, collision operators radiation processes and experimental applications. Prereq> Physics, ECE, NEEP 525 & Physics 721 or ECE 740 or cons inst
Typically Offered: Occasionally

E C E 726 Plasma Magnetohydrodynamics Credits: 3
MHD equations and validity in hot plasmas; magnetic structure and magnetic flux coordinates; equilibrium in various configurations; stability formulation, energy principle, classification of instabilities; ideal and resistive instability in various configurations, evolution of nonlinear tearing modes; force-free equilibria, helicity, MHD dynamo; experimental applications. Prereq> NEEP/ECE/Physics 525 & Physics 721 or ECE 740 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

E C E 729 Theory of Information Processing and Transmission Credits: 3
Definition of measures of information and their properties, capacity of discrete and continuous channels with noise, source and channel coding theorems, fundamentals of channel coding, noiseless source coding, and source coding with a fidelity criterion. Prereq> ECE 331 or Math 431 or cons inst
Typically Offered: Occasionally

E C E 730 Modern Probability Theory and Stochastic Processes Credits: 3
Stochastic processes in linear and nonlinear systems; stationarity, continuity, ergodicity; power spectrum and systems; estimation theory, filtering and prediction; harmonic analysis; nonstationary normal processes. Prereq> ECE 331 or equiv
Typically Offered: Occasionally

E C E 731 Advanced Power System Analysis Credits: 3
Electrical transients due to faults and switching. Effect on power system design and operation. Traveling waves and surge protection. Computerized analysis of power transients. Prereq> Con reg ECE 511 or cons inst
Typically Offered: Occasionally

E C E 732 Advanced Digital Signal Processing Credits: 3
Advanced digital signal processing methods to include: statistical and deterministic least squares filter design, finite length register effects and their optimization in digital filters, introduction to adaptive filtering, applications in beamforming and spectral estimation. Prereq> ECE 431 and 331, or cons inst
Typically Offered: Occasionally

E C E 734 VLSI Array Structures for Digital Signal Processing Credits: 3
An overview of the architectures and design methodologies of VLSI array processors for digital signal processing. Emphasis is placed on the techniques of mapping algorithms onto array structures for real time signal processing. Prereq> ECE 431, 552, or equiv, or cons inst
Typically Offered: Occasionally

E C E 735 Signal Synthesis and Recovery Techniques Credits: 3
Signals and their representation. Signal synthesis subject to constraints on peak voltage, energy, duration-bandwidth product. The theory of alternating projections onto convex sets and applications to inverse problems in signal processing; signal recovery using incomplete data, image recovery in tomography using limited views, phase retrieval in optical astronomy. Prereq> ECE 431 or 533 or cons inst
Typically Offered: Occasionally

E C E 736 Wireless Communications Credits: 3
Theory, design and analysis of mobile wireless communication systems from a signal processing perspective. Emphasis on code-division multiple-access (CDMA) systems employing direct-sequence spread-spectrum (DS-SS) signaling. Topics include characterization of mobile wireless channels, demodulation of DS-SS signals, diversity techniques, interference suppression methods, and low-complexity adaptive receivers. Prereq> ECE 437 or equiv & ECE 730, or cons inst. ECE 732 recommended
Typically Offered: Occasionally

E C E 738 Advanced Digital Image Processing Credits: 3
Deterministic and stochastic spatio-temporal image models, transform domain processing, Markov random fields and anisotropic diffusion; MAP parameter estimation, ill-posed inverse problems, robust statistics and non-linear digital filtering in image processing. Applications to image restoration, motion estimation, (video) image compression (MPEG, JPEG) and tomography. Prereq> ECE 533 or cons inst
Typically Offered: Occasionally
E C E 739 Advanced Automation and Robotics Credits: 3
In-depth study of advanced automation concepts and of robotic manipulators. Topics including kinematics, trajectories, dynamic control and programming of robots along with concepts of flexible manufacturing and assembly operations. Prereq: ME 446 or ECE 332 or equiv; Math 320 or 340; proficiency in high level programming such as Fortran or Pascal, or cons inst
Typically Offered: Occasionally

E C E 740 Electromagnetic Theory Credits: 3
Time harmonic fields and waves in linear media with applications to radiation, guiding and scattering; wave and surface impedance and admittance concepts; duality, uniqueness, image theory, equivalence principle, induction and compensation theorems, reciprocity, Green's functions, wave functions, potential and transform theory. Prereq: ECE 420 or cons inst
Typically Offered: Occasionally

E C E 741 Semiconductor Diode Lasers and other Optoelectronic Devices Credits: 3
In the first part of the course this modern photonic technology will be overviewed, and key parameters and concepts will be introduced. In the second part, the basic mechanisms determining the relationship between optical gain and current density, as well as quantum-well laser structures will be treated. The third part will cover the physics of high-power phase-locked laser arrays or other optoelectronics devices. Prereq: ECE 320, ECE 335 or equiv; Physics 244 or 241, some basic electromagnetics & optics
Typically Offered: Occasionally

E C E 742 Computational Methods in Electromagnetics Credits: 3
Computational techniques for solving differential and integral equations that govern static, frequency-domain, and time-domain electromagnetic field phenomena. Applications of the finite-difference time-domain method, finite-element method, and method of moments to practical electromagnetics engineering problems. Prereq: ECE 420 or equiv & fluency in a high-level programming lang; Comp Sci 412 or equiv recommended
Typically Offered: Occasionally

E C E 743 High-Power Diode Lasers and Amplifiers Credits: 3
In the first part, the basics of single-mode diode lasers and amplifiers as well as their applications will be treated. The second part will include in-depth treatment of the four basic types of high-power coherent diodes: phase-locked arrays, master-oscillator power amplifiers, unstable resonators, and external-cavity-controlled resonators. Prereq: ECE 320, ECE 335 or equiv; Physics 244 or 241, some basic electromagnetics and optics
Typically Offered: Occasionally

E C E 744 Theory of Microwave Circuits and Devices Credits: 3
Scattering matrices; symmetrical junctions; impedance and ABCD matrices; equivalent circuits. Wave propagation in periodic structures and anisotropic media; Floquet's theorem; Brillouin diagrams; Hartree harmonics; tensor permeability, conductivity, and permittivity; coupled wave equations; normal modes; applications in ferrite devices. Prereq: ECE 444 or ECE 740 or cons inst
Typically Offered: Occasionally

E C E 745 Solid State Electronics Credits: 3
Physical principles underlying the action of semiconductor devices, chemical bonding and energy band structure, Boltzmann transport theory, optical and high frequency effects, diffusion and drift, interfaces, properties of elemental and compound semiconductors. Prereq: Cons inst
Typically Offered: Occasionally

E C E 746 Quantum Electronics Credits: 3
Elementary aspects of Lagrange theory of fields and field quantization; Bose, Fermi and Pauli operators; interaction of fields; quantum theory of damping and fluctuations; applications to lasers, nonlinear optics, and quantum optics. Prereq: ECE-Physics 546; Physics 721 or ECE 740
Typically Offered: Occasionally

E C E 748 Linear Waves Credits: 3
General considerations of linear wave phenomena; one dimensional waves; two and three dimensional waves; wave equations with constant coefficients; inhomogenous media; random media. Lagrangian and Hamiltonian formulations; asymptotic methods. Prereq: ECE 440 or Physics 322 or cons inst
Typically Offered: Occasionally
E C E 749 Coherent Generation and Particle Beams Credits: 3
Fundamental theory and recent advances in coherent radiation charged particle beam sources (microwave to X-ray wavelengths) including free electron lasers, wiggler/wave-particle dynamics, Cerenkov masers, gyrotrons, coherent gain and efficiency, spontaneous emission, beam sources and quality, related accelerator concepts experimental results and applications. Prereq> ECE 740 or Physics 721, or equiv, or cons inst
Typically Offered: Occasionally

E C E 750 Real-time Computing Systems Credits: 3
Introduction to the unique issues in the design and analysis of computer systems for real-time applications. Hardware and software support for guaranteeing timeliness with and without failures. Resource management, time-constrained communication, scheduling and imprecise computations, real-time kernels and case studies. Prereq> ECE/Comp Sci 552 & Comp Sci 537 or cons inst
Typically Offered: Occasionally

E C E 751 Embedded Computing Systems Credits: 3
Embedded applications, embedded processors and multiprocessors, embedded system design and simulation, configurable/reconfigurable embedded systems, embedded compilers and tool chains, run-time systems, application design and customization, hardware and software co-design, low-power design. Prereq> ECE 552
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

E C E 752 Advanced Computer Architecture I Credits: 3
Processor design, computer arithmetic, pipelining, multi-operation processors, vector processors, control units, precise interrupts, main memory, cache memories, instruction set design, stack machines, busses and I/O, protection and security. Prereq> ECE, Comp Sci 552 & Comp Sci 537
Typically Offered: Occasionally

E C E 753 Fault-Tolerant Computing Credits: 3
Fault modeling, redundancy techniques and reliability evaluation, error detecting and correcting codes, self-checking circuits, fault diagnosis, software fault tolerance, and case studies. Prereq> ECE/Comp Sci 552, Math/Stat 431 or equiv, or cons inst
Typically Offered: Occasionally

E C E 755 VLSI Systems Design Credits: 3
Overview of MOS devices and circuits; introduction to integrated circuit fabrication; topological design of data flow and control; interactive graphics layout; circuit simulation; system timing; organizational and architectural considerations; alternative implementation approaches; design project. Prereq> ECE 340, ECE/Comp Sci 352, ECE/Comp Sci 552
Typically Offered: Occasionally

E C E 756 Computer-Aided Design for VLSI Credits: 3
Broad introduction to computer-aided design tools for VLSI, emphasizing implementation algorithms and data structures. Topics covered: design styles, layout editors, symbolic compaction, module generators, placement and routing, automatic synthesis, design-rule checking, circuit extraction, simulation and verification. Prereq> Comp Sci 367, good programming skills, Comp Sci/ECE 755 strongly recommended, Comp Sci/ECE 352
Typically Offered: Occasionally

E C E 757 Advanced Computer Architecture II Credits: 3
Parallel algorithms, principles of parallelism detection and vectorizing compilers, interconnection networks, SIMD/MIMD machines, processor synchronization, data coherence, multithreaded dataflow machines, special purpose processors. Prereq> Comp Sci, ECE 752
Typically Offered: Occasionally

E C E 759 High Performance Computing for Applications in Engineering Credits: 3
An overview of hardware and software solutions that enable the use of advanced computing in tackling computationally intensive Engineering problems. Hands-on learning promoted through programming assignments that leverage emerging hardware architectures and use parallel computing programming languages. Prereq> COMP SCI 302 or COMP SCI 368
Typically Offered: Fall

E C E 762 Biomedical Instrumentation Credits: 3
Design and application of specialized biomedical instrumentation. Information retrieval techniques. Lab. Prereq> ECE 462 or cons inst
Typically Offered: Occasionally
E C E 763 Projects in Computers in Medicine  Credits: 3
Applications of digital computers to the solution of problems in clinical and research medicine. Hardware and software student projects. Prereq: ECE 463
Typically Offered: Occasionally

E C E 777 Nonlinear Dynamics, Bifurcations and Chaos  Credits: 3
Advanced interdisciplinary introduction to qualitative and geometric methods for dissipative nonlinear dynamical systems. Local bifurcations of ordinary differential equations and maps. Chaotic attractors, horseshoes and detection of chaos. Prereq: Cons inst
Typically Offered: Occasionally

E C E 790 Master's Research or Thesis  Credits: 1 - 9
Prereq: Grad st, for Master's candidates only
Typically Offered: Occasionally

E C E 817 Nonlinear Systems  Credits: 3
Modelling nonlinear systems, linearization, equilibria, solution concepts, phase plane analysis, stability concepts, Lyapunov methods, oscillations, vector space methods, control system nonlinearities and design. Selected topics from the following: input-output methods, switching and variable structure systems, feedback linearization, and Lyapunov robustness. Prereq: ECE 717 or equiv
Typically Offered: Occasionally

E C E 818 Analysis and Design of Linear Multivariable Feedback Systems  Credits: 3
This course will treat multivariable feedback systems, with particular emphasis on generalizing classical frequency domain techniques for single input/single output systems to the multi-input/multi-output case. Illustrative examples will be drawn from electric power systems, multi-dimensional filters, and robotics. Prereq: ECE 717 or equiv
Typically Offered: Occasionally

E C E 821 Optimal Control and Variational Methods  Credits: 3
Variational methods in optimal control, functional analytic and vector space tools, time-optimal control and reachable sets, the Pontryagin Maximum Principle, linear quadratic regulators, stability of optimized systems, introduction to H-infinity control. Prereq: ECE 717 or equiv
Typically Offered: Occasionally

E C E 830 Estimation and Decision Theory  Credits: 3
Estimation and decision theory applied to random processes and signals in noise: Bayesian, maximum likelihood, and least squares estimation; the Kalman filter; maximum likelihood and maximum a posteriori detection; adaptive receivers for channels with unknown parameters or dispersive, fading characteristics; the RAKE receiver; detection systems with learning features. Prereq: ECE 730 or equiv
Typically Offered: Occasionally

E C E 841 Electromagnetic Radiation and Transmission  Credits: 3
Applications of Maxwell's field equations to radiation problems; transmission of radio waves; radiation and impedance characteristics of various antennas and arrays. Analysis of complete antenna systems. Prereq: ECE 440 or cons inst
Typically Offered: Occasionally

E C E 842 Topics in Applied Algebra  Credits: 3
Applied topics with emphasis on algebraic constructions and structures. Examples include: algebraic coding theory; codes (algebraic-geometric, convolutional, low-density-parity-check, space-time); curve and lattice based cryptography; watermarking; computer vision (face recognition, multiview geometry). Prereq: Cons inst
Typically Offered: Occasionally

E C E 845 Transport in Semiconductor Devices  Credits: 3
Transport of carriers in electronic devices, starting from the Boltzmann equation and the quantum mechanical treatment of scattering, and covering applications to devices; transport in 2D structures; modeling of transport; experiments and devices involving hot electrons. Prereq: ECE 745
Typically Offered: Occasionally
E C E  848 Nonlinear Waves  Credits: 3
General considerations of nonlinear wave phenomena; nonlinear hyperbolic waves; nonlinear dispersion;
nonlinear geometrical optics; Whitham's variational theory; nonlinear and parametric instabilities; solitary waves;
inverse scattering method.  Prereq>  ECE 748 or cons inst
Typically Offered:  Occasionally

E C E  890 Pre-Dissertator's Research  Credits: 1 - 9
Prereq>  Grad st, for post-master's, pre-dissertator stdts only
Typically Offered:  Occasionally

E C E  901 Special Topics in Communications  Credits: 1 - 3
Prereq>  Cons inst
Typically Offered:  Occasionally

E C E  902 Special Topics in Computers  Credits: 1 - 3
Prereq>  Cons inst
Typically Offered:  Occasionally

E C E  903 Special Topics in Control  Credits: 1 - 3
Prereq>  Cons inst
Typically Offered:  Occasionally

E C E  904 Special Topics in Physical Electronics  Credits: 1 - 3
Prereq>  Cons inst
Typically Offered:  Occasionally

E C E  905 Special Topics in Power Systems  Credits: 1 - 3
Prereq>  Cons inst
Typically Offered:  Occasionally

E C E  908 Special Topics in Plasmas and Controlled Fusion  Credits: 1 - 3
Prereq>  Cons inst
Typically Offered:  Occasionally

E C E  922 Seminar in Plasma Physics  Credits: 0 - 1
Prereq>
Typically Offered:  Occasionally

E C E  990 Research or Thesis  Credits: 1 - 12
Prereq>  Dissertator status
Typically Offered:  Occasionally

E C E  999 Advanced Independent Study  Credits: 1 - 3
Prereq>  Grad st
Typically Offered:  Occasionally

ENGINEERING PHYSICS

E P  271 Engineering Problem Solving I  Credits: 3
Solution of engineering problems using commercially-available software tools (spreadsheets, symbolic
manipulators, and equation solvers). The emphasis will be on nuclear engineering problems, including radioactive
decay, nuclear cross sections, scattering, and criticality.  Prereq>  Math 222, Physics 201
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall

E P  468 Introduction to Engineering Research  Credits: 1
An introduction to the conduct of engineering research: the scientific method, ethics in research, documentation
and treatment of research data, publication practices, and the structure of the broader research community are
covered.  Prereq>  Open to EP majors only
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall
E P 469 Research Proposal in Engineering Physics Credits: 1
An introduction to current research topics in engineering physics. Development of an undergraduate research proposal supervised by faculty members. Prereq> EP 468. Open to EP majors only
L&S Credit: No degree credit in L&S Typically Offered: Spring

E P 471 Intermediate Problem Solving for Engineers Credits: 3
Use of computational tools for the solution of problems encountered in engineering physics applications. Topics covered include orbital mechanics, structural vibrations, beam and plate deformations, heat transfer, neutron diffusion, and criticality. Emphasis will be on modeling, choice of appropriate algorithms, and model validation.
Prereq> Math 319 & NEEP 271 or Comp Sci 310
L&S Breadth: Physical Science L&S Credit: Counts for LAS credit Typically Offered: Spring

E P 476 Introduction to Scientific Computing for Engineering Physics Credits: 3
Basic tools of professional scientific computation for UNIX environments are taught. Programming skills in a compiled language are developed through engineering examples. Applications reinforce engineering problem-solving skills first examined in introductory courses, while motivating progressively more advanced computational methods.
Prereq> NEEP 271 or Comp Sci 310; Comp Sci 412 or equivalent; Math 319; or consent of instructor
L&S Breadth: Physical Science L&S Credit: Counts for LAS credit Typically Offered: Spring

E P 547 Engineering Analysis I Credits: 3
Methods of higher mathematics; stress on problem solving rather than rigorous proofs; linear algebra, calculus of variations, Green's function. Prereq> A year of advanced calculus such as Math 321 & 322
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

E P 548 Engineering Analysis II Credits: 3
Function of complex variable, series solution of different equations, partial differential equations. Prereq> A year of math beyond calculus
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

E P 562 Applied Superconductivity Credits: 3
Introduction to superconductivity; critical current models; metallurgy of type II superconductors; structure dependencies of critical currents; conductor and magnet design, cryogenic stabilities; alternating current effect; special systems engineering. Prereq> MS&E 350 or 351; Physics 241 or consent of instructor
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

E P 566 Cryogenics Credits: 3
Applications of cryogenics, material properties at low temperatures, refrigeration and liquifaction systems, measurement techniques, insulation, storage and transfer of cryogenics, safety and handling. Prereq> ME 361 or Physics 415, ChE 320 or ME 364
Typically Offered: Occasionally

E P 568 Research Practicum in Engineering Physics I Credits: 3
Undergraduate research projects supervised by faculty members. Prereq> EP 468 & 469. Open to EP majors only
L&S Credit: No degree credit in L&S Typically Offered: Fall

E P 569 Research Practicum in Engineering Physics II Credits: 3
Undergraduate research projects supervised by faculty members. Senior thesis. Prereq> EP 468, 469, & 568. Open to EP majors only
L&S Credit: No degree credit in L&S Typically Offered: Fall

E P 602 Special Topics in Engineering Physics Credits: 1 - 3
Subject matter, credits and prerequisites vary. Prereq> Vary
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

E P 615 Micro- and Nanoscale Mechanics Credits: 3
An introduction to micro- and nanoscale science and engineering with a focus on the role of mechanics. A variety of micro- and nanoscale phenomena and applications covered, drawing connections to both established and new mechanics approaches.
Prereq> EMA 303 or ME 306 or consent of instructor
L&S Breadth: Physical Science L&S Credit: Counts for LAS credit Typically Offered: Spring
E P 759 High Performance Computing for Applications in Engineering Credits: 3
An overview of hardware and software solutions that enable the use of advanced computing in tackling computationally intensive Engineering problems. Hands-on learning promoted through programming assignments that leverage emerging hardware architectures and use parallel computing programming languages. Prereq> COMP SCI 302 or COMP SCI 368
Typically Offered: Fall

E P 920 Engineering Physics Graduate Seminar Credits: 0 - 1
Students will be able to enroll for credit more than once because the topics of the course will differ substantially from semester to semester. Our MS requirements permit up to 3 credits within the 30-credit minimum for the degree. Prereq>
Typically Offered: Fall, Spring

ENGR MECHANICS & ASTRONAUTICS

E M A 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career in industry. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

E M A 201 Statics Credits: 3
Principles of mechanics, force systems, equilibrium, structures, distributed forces, moments of inertia of areas, and friction. Prereq> Math 222 or concurrent registration. Open to Freshmen
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

E M A 202 Dynamics Credits: 3
Kinematics, force-mass-acceleration relations, work and energy, impulse and momentum, moments of inertia and mass. Prereq> EMA 201 or 214; and Math 222; or consent of instructor
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

E M A 214 Statics and Mechanics of Materials Credits: 4
Principles of mechanics, force systems, equilibrium, centroids and centers of gravity, friction; stress and strain, applications to axial loads, torsion and bending of beams, deflections of beams, material properties, elastic stability. Prereq> Math 221. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E M A 291 Projects in Engineering Mechanics & Astronautics Credits: 1 - 3
Individual engineering projects under staff supervision. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E M A 303 Mechanics of Materials Credits: 3
Stress and strain, torsion, bending of beams, shearing stresses in beams, compound stresses, principal stresses, deflections of beams, statically indeterminate members, columns. For civil engineers. Prereq> EMA 201 & Math 222
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

E M A 307 Mechanics of Materials Lab Credits: 1
Data processing, tension/compression tests, creep stress concentrations, fatigue, fracture, composite materials, combined stress, beam flexure, dynamic loads, buckling. Prereq> ME 306 or concurrent registration
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

E M A 395 Materials for Constructed Facilities Credits: 3
Properties and tests of materials used in the initial construction or repair of facilities (including buildings, transportation systems, utility systems, and reinforced earth). Introduction to laboratory and field measurement techniques to assess material performance capabilities. Technical report preparation. Prereq> EMA 303 & 307
L&S Credit: No degree credit in L&S  Typically Offered: Spring
E M A 405 Practicum in Finite Elements Credits: 3
Use of finite elements (FE) for solving practical problems in mechanics. Elementary theory of FE is discussed. A
commercial computer program is used for applications. Major emphasis is on behavior of FE, modeling, and
evaluation of results for correctness. Prereq> EMA 214, 303, 304, or 306; EMA 202 or 221; knowledge of
elementary matrix algebra or consent of instructor
L&S Breadth: Physical Science  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

E M A 425 Undergraduate Rheology Seminar Credits: 0 - 1
Rheology seminar course encouraged for all interested in professions related to polymers, suspensions or
rheology; will not count toward credit requirement of the major. Prereq> Cons inst or Jr st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

E M A 469 Design Problems in Engineering Credits: 3
The design philosophy is presented. Students will be required to apply their knowledge of elementary mechanics,
engineering and basic science to arrive at acceptable solutions to a variety of design problems. Prereq> EMA
221, 307; ECE 376; ME 363, 361; MS&E 350; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E M A 471 Intermediate Problem Solving for Engineers Credits: 3
Use of computational tools for the solution of problems encountered in engineering physics applications. Topics
covered include orbital mechanics, structural vibrations, beam and plate deformations, heat transfer, neutron
diffusion, and criticality. Emphasis will be on modeling, choice of appropriate algorithms, and model validation.
Prereq> Math 319 & NEEP 271 or Comp Sci 310
L&S Breadth: Physical Science  L&S Credit: Counts for LAS credit  Typically Offered: Spring

E M A 476 Introduction to Scientific Computing for Engineering Physics Credits: 3
Basic tools of professional scientific computation for UNIX environments are taught. Programming skills in a
compiled language are developed through engineering examples. Applications reinforce engineering problem-
solving skills first examined in introductory courses, while motivating progressively more advanced computational
methods. Prereq> NEEP 271 or Comp Sci 310; Comp Sci 412 or equivalent; Math 319; or consent of instructor
L&S Breadth: Physical Science  L&S Credit: Counts for LAS credit  Typically Offered: Spring

E M A 489 Honors in Research Credits: 1 - 3
Undergraduate research and senior honors thesis in engineering mechanics and astronautics. Prereq> Honors
candidacy in engineering mechanics
Typically Offered: Fall, Spring, Summer

E M A 506 Advanced Mechanics of Materials I Credits: 3
Analysis and design of load-carrying members, shear center, unsymmetrical bending, curved beams, beams on
elastic foundations, energy methods, theories of failure, thick-walled cylinders, stress concentrations, design to
prevent failure by excessive elastic deformation, plastic deformation and fracture. Prereq> EMA 214, 304, or
306/307
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E M A 508 Composite Materials Credits: 3
Physical properties and mechanical behavior of polymer, metal, ceramic, cementitious, cellulosic and biological
composite systems; micro- and macro-mechanics; lamination and strength analyses; static and transient loading;
fabrication; recycling; design; analytical-experimental correlation; applications. Prereq> ME 342 or ME 444 or
ME/EMA 570 or EMA 506 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E M A 518 Fatigue of Engineering Materials Credits: 3
Influence of repeated stress in engineering design, fatigue testing machines and procedures, factors influencing
fatigue properties, theory of fatigue failure. Prereq> EMA 214, 304, or 306/307
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E M A 519 Fracture Mechanics Credits: 3
Introduction to the mechanics of fracture of linear and nonlinear materials. Crack stress and deformation fields;
stress intensity factors; crack tip plastic zone; fracture toughness testing; energy release rate; J-integral. Criteria
for crack growth initiation/stability; application to design. Prereq> EMA 214, 304, or 306/307
L&S Credit: No degree credit in L&S  Typically Offered: Spring
E M A 521 Aerodynamics Credits: 3
Potential flow theory; stream functions; vortex filaments and sheets. Two- and three-dimensional wing theory. Doublet and panels methods. Propeller theory. Prereq> EMA 202; CEE 310 or ME 363; Math 234; or consent of instructor
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

E M A 522 Aerodynamics Lab Credits: 3
Teams of two or three students perform case study of a wing using computer simulations and lab experiments. Experimental and computational results are compared against theoretical predictions developed in prerequisite class. Results are presented in three oral and three written reports. Prereq> EMA 521
L&S Credit: No degree credit in L&S Typically Offered: Spring

E M A 523 Flight Dynamics and Control Credits: 3
L&S Credit: No degree credit in L&S Typically Offered: Spring

E M A 540 Experimental Vibration and Dynamic System Analysis Credits: 3
Application of digital data acquisition to the investigation of mechanical components, structures and systems using time histories, transforms and response functions to characterize free, forced and transient inputs. Introduction to sensors, instrumentation and methods appropriate for dynamic system response. Prereq> ME 340 or ME 440 or EMA 545 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

E M A 547 Engineering Analysis I Credits: 3
Methods of higher mathematics; stress on problem solving rather than rigorous proofs; linear algebra, calculus of variations, Green's function. Prereq> A year of advanced calculus such as Math 321 & 322
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

E M A 548 Engineering Analysis II Credits: 3
Function of complex variable, series solution of different equations, partial differential equations. Prereq> A year of math beyond calculus
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

E M A 550 Astrodynamics Credits: 3
Coordinate system transformations, central force motion, two body problem, three and n-body problem, theory of orbital perturbations, artificial satellites, elementary transfer orbits, and elementary rocket dynamics. Prereq> EMA 202 or 221; or Physics 311 or con reg; or cons inst
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring
E M A 552 Energy Methods in Mechanics Credits: 3
Variational principles of mechanics, virtual displacements, minimum potential energy; Hamilton's principle and Lagrange equations. Applications include stress analysis, elastic stability, dynamics and vibrations of rigid and elastic systems. Prereq: Senior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E M A 569 Senior Design Project Credits: 3
Students will select specific engineering design projects. These projects will be student team efforts supervised by individual faculty members. Prereq: EMA 469, & any two of EMA 542, 545, 506; or consent of instructor
Typically Offered: Spring

E M A 570 Experimental Mechanics Credits: 3
Experimental methods for design and analysis of mechanical components, structures and materials. Electrically and optically recorded stress, strain and deformation data; computer acquisition/reduction/presentat techniques; applications to static and transient events, sensors, transducer design, NDT, fracture and residual stresses.
Prereq: ME 306 or EMA 214 or 303 or 304 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E M A 599 Independent Study Credits: 1 - 3
Prereq: Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

E M A 601 Special Topics in Engineering Mechanics Credits: 1 - 3
Selected topics in such areas as structural mechanics, dynamics, experimental mechanics, vibrations, engineering materials, soil mechanics, engineering analysis, rheology, etc. Prereq: Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E M A 605 Introduction to Finite Elements Credits: 3
A first course in finite elements, with theory and applications in stress analysis and in areas related to structural mechanics. Practice in the use and/or development of computer programs. Prereq: EMA 303, 304 or ME 306; Math 340; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E M A 610 Structural Finite Element Model Validation Credits: 3
An introduction to test-based validation of finite element models for the design and analysis of dynamic structures.
Prereq: EMA 405, EMA 545 or ME 440
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E M A 611 Advanced Mechanical Testing of Materials Credits: 3
Theory and use of servo-controlled, electro-hydraulic equipment for research of mechanical properties of engineering materials. Measurement of stress, strain, hysteresis energy, and material properties during deformation and at fracture. Analysis of four significant components of total strain. Prereq: EMA 307 & either EMA 506 or con reg in EMA 506
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E M A 615 Micro- and Nanoscale Mechanics Credits: 3
An introduction to micro- and nanoscale science and engineering with a focus on the role of mechanics. A variety of micro- and nanoscale phenomena and applications covered, drawing connections to both established and new mechanics approaches. Prereq: EMA 303 or ME 306 or consent of instructor
L&S Breadth: Physical Science L&S Credit: Counts for LAS credit  Typically Offered: Spring

E M A 622 Mechanics of Continua Credits: 3
Tensor analysis; analysis of stress, strain and rate of strain; application of Newtonian mechanics to deformable media; mechanical constitutive equations; field equations of fluid mechanics and elasticity. Prereq: Math 340 & Math 321 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced L&S Credit: Counts for LAS credit  Typically Offered: Spring

E M A 630 Viscoelastic Solids Credits: 3
Linear theory of viscoelasticity; non-aging materials; Boltzmann superposition principle; time-temperature superposition boundary value problems. Applications: vibration damping, relaxation of stress, creep, droop, and sag in structural members, sound absorption, creep buckling, settlement of foundations, tire mechanics, and shock attenuation. Prereq: EMA 506 or equiv; or EMA 303 & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall
E M A 642 Satellite Dynamics Credits: 3
Review of Euler's equations, torque-free motion, stability of rotation, energy dissipation effects, gyroscopic
instruments, gyrodynamics of the Earth, gravity gradient stabilized satellites, spin stabilized satellites, dual spin
satellites, tethered satellites, mass movement techniques, space vehicle motion and rocket dynamics. Prereq>
EMA 542
L&S Credit: No degree credit in L&S Typically Offered: Spring

E M A 690 Master's Research Credits: 1 - 9
Prereq> Grad st
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

E M A 697 VKI Aeronautical/Astronautical Research Practicum Credits: 2
Students perform research in the areas of fluid dynamics or aerospace plasma applications at the Von Karman
Institute for Fluid Dynamics, under direct supervision of the VKI faculty and the UW faculty advisor. Prereq> Any
4 of the following: EMA 521, 547, 548, NEEP 525, 526, 527, 528, ME 563, 572, 573, 773, 775
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

E M A 700 Theory of Elasticity Credits: 3
Equations of elasticity in curvilinear and rectangular coordinates; two dimensional problems; problems of
prismatic bars; variational methods and energy principles; complex variable and numerical methods; thermal
stress problems. Prereq> EMA 506 & Math 321 or cons inst
Typically Offered: Occasionally

E M A 702 Graduate Cooperative Education Program Credits: 1 - 2
Work experience that combines classroom theory with practical knowledge of operations to provide students with
a background on which to develop and enhance a professional career. The work experience is tailored for MS
students from within the U.S. as well as eligible international students.
Typically Offered: Occasionally

E M A 703 Linear Viscoelasticity and Plasticity Credits: 3
Linear theory of solid and fluid viscoelasticity. Solution of problems by transform techniques. Wave propagation.
Thermoviscoelasticity. Yield criteria. Plastic stress-strain relations. Solution of problems for the perfectly plastic
material and the elastoplastic material. Prereq> EMA 622 or cons inst
Typically Offered: Occasionally

E M A 705 Advanced Topics in Finite Elements Credits: 3
Finite element methods for problems with linear and nonlinear media. Stress analysis, heat transfer, and fluid
Nonlinear iteration methods. Instructor may also select additional material. Prereq> EMA 605
Typically Offered: Occasionally

E M A 706 Plates, Shells and Pressure Vessels Credits: 3
Stress and deflection analysis of structural plates and membranes under mechanical and thermal loads;
variational and numerical methods; instability and vibrations; membrane shell theory; cylindrical shells; pressure
vessel and piping design applications; ASME Pressure Vessel Code. Prereq> ME 444 or EMA 506 or cons inst
Typically Offered: Occasionally

E M A 708 Advanced Composite Materials Credits: 3
Contemporary topics such as new materials; smart materials/structures/systems; fatigue; fracture; experimental
techniques; nondestructive evaluation; transient, micro, three-dimensional, nonlinear, inelastic and environmental
effects; manufacturing methods: repair and applications. Prereq> ME/EMA 508 or cons inst
Typically Offered: Occasionally

E M A 719 Advanced Fracture Mechanics Credits: 3
Rigorous, systematic development of principal concepts and theories of modern fracture mechanics. Topics
include stress and deformation fields for stationary and growing cracks in linear elastic, nonlinear elastic, elastic-
plastic and viscoelastic materials; J-integral theory and applications; criteria for crack growth, stability and
fracture. Prereq> EMA 519 & 622, or cons inst
Typically Offered: Occasionally
E M A 722 Introduction to Polymer Rheology Credits: 3
Formulation of constitutive equations using embedded base vectors. Viscosity, normal stress differences, stress relaxation, elastic recoil. Polymer rheology; homogeneous strain history. Prereq> Math 320 or cons inst
Typically Offered: Occasionally

E M A 725 Structural Theories of Fluid Dynamics Credits: 3
Interconnection between fluid structure and bulk flow properties, kinetic theory of polymer solutions, polymer melts, suspensions and emulsions, deduction of rheological constitutive equations, Brownian motion. Configuration-space and phase-space kinetic theory. Prereq> Grad st in CBE or cons inst
Typically Offered: Occasionally

E M A 742 Theory and Applications in Advanced Dynamics Credits: 3
Dynamical systems theory, advanced rigid body attitude dynamics, Lagrange's equations of motion, conservation laws, quasi-coordinates, Routh's method for ignorable coordinates, Hamilton's equations of motion, dynamic stability, Liapunov stability methods, angular momentum methods for systems of rigid bodies, modeling of rotating elastic systems, Kane's equations of motion, deterministic chaos. Prereq> EMA 542 or Physics 311 or cons inst
Typically Offered: Occasionally

E M A 745 Advanced Methods in Structural Dynamics Credits: 3
Emphasis is placed on techniques used to analyze aerospace structures. Variational principles, Hamilton's extended principle, Lagrange's equations, mathematical models for continuous systems, natural modes of vibrations, dynamic response using mode superposition, mode acceleration, residual flexibility, vibration analysis using finite element methods, advanced substructure representations, component mode synthesis, systems with rigid body modes for aeronautical and astronautical systems. Prereq> EMA 545, EMA 405 or equiv or cons inst
Typically Offered: Occasionally

E M A 747 Nonlinear and Random Mechanical Vibrations Credits: 3
Exact solutions and sectorial linearization; free and forced vibration of mechanical systems with nonlinear restoring force; self-excited mechanical vibrations and relaxation vibrations; subharmonic responses; nonlinear vibration of mechanical systems with more than one degree of freedom; nonlinear vibration of bounded continuous media; random excitation and random response, random vibrations of mechanical systems and structures; random vibrations of nonlinear mechanical systems; failure of materials under random vibrations. Prereq> EMA 745
Typically Offered: Occasionally

E M A 759 High Performance Computing for Applications in Engineering Credits: 3
An overview of hardware and software solutions that enable the use of advanced computing in tackling computationally intensive Engineering problems. Hands-on learning promoted through programming assignments that leverage emerging hardware architectures and use parallel computing programming languages. Prereq> COMP SCI 302 or COMP SCI 368
Typically Offered: Fall

E M A 790 Master's Research and Thesis Credits: 1 - 9
Prereq> Grad st. For Master's candidates only
Typically Offered: Occasionally

E M A 800 Advanced Theory of Elasticity Credits: 3
General solutions of the basic equations of the theory of elasticity; tensor calculus; Boussinesq problem and the half space; elastic layer and contact problems; integral transforms; complex variable and numerical methods; variational principles; and energy principles; crack problems; deformation of a cylinder and a sphere; nonlinear and thermal stress problems. Prereq> EMA 700 or cons inst
Typically Offered: Occasionally

E M A 806 Mechanical Instability Credits: 3
Combined axial and lateral loading of beams; buckling of columns, frames, rings and tubes; flexural-torsional instability of beams; snap buckling of arches; buckling of thin circular and rectangular plates; cylindrical shell instability; numerical methods. Prereq> ME 444 or EMA 506 or cons inst
Typically Offered: Occasionally

E M A 822 Advanced Mechanics of Continua Credits: 3
Continuation of Engrmech 622. Theory of material behavior, nonlinear elasticity; thermoelasticity; viscoelasticity. Prereq> EMA 622 or 722 or cons inst
Typically Offered: Occasionally
E MA 825 Molecular Network Theories for Polymeric Materials Credits: 3
Typically Offered: Occasionally

E MA 845 Vibration and Wave Propagation in Solids II Credits: 3
Wave equations in three dimensions and solutions; wave propagation in an extended elastic medium; reflection and refraction; Rayleigh waves; vibration and wave propagation in membranes, plates, and shells; exact, classical, and refined theories; vibration and wave propagation in viscoelastic solids; plastic waves and shock waves; thermal vibration and wave propagation; vibration and wave propagation in layered media. Prereq> EMA 700 & 745
Typically Offered: Occasionally

E MA 890 Pre-Dissertator Research Credits: 1 - 9
Prereq> Grad st. For pre-dissertator stdts only
Typically Offered: Occasionally

E MA 922 General Tensor Analysis and Rheology Credits: 3
Typically Offered: Occasionally

E MA 925 Rheology Research Seminar Credits: 0 - 1
Exploration of the most recent research literature on viscoelasticity, constitutive equations, non-Newtonian flow systems, fluid metering devices, kinetic theory of macromolecules, and rheooptical phenomena. Periodic reports on recent advances made by research workers in the various rheology groups on the Madison campus.
Typically Offered: Occasionally

E MA 990 Research and Thesis Credits: 1 - 12
Prereq> Dissertator status
Typically Offered: Occasionally

ENGR PROFESSIONAL DEVELOPMENT

E PD 116 Interpretation of Technology in Literature Credits: 3
An examination of the world of modern science and technology as the literary artist sees it. A study of writers who have confronted and interpreted the implications of man's new creations: the computer, the spaceship, nuclear power, and biological manipulation. Prereq> Open to Fr
L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

E PD 151 Technical Information Resources Credits: 1
Development of information retrieval skills and effective search strategies, focusing on technical information resources appropriate for engineers and scientists. Selection and use of electronic bibliographic databases, indexes and abstracts, patents and government information, library catalogs, and computer networks will be integral to individual and team projects. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E PD 155 Basic Communication Credits: 2
Emphasis on writing and critical reading. Planning, preparing, and revising informative and persuasive communication; adapting writing for intended audiences; grammar, usage and style; critical reading of prose models in the sciences and humanities; using information resources; videotaped oral presentations; collaborative writing using computers. Prereq> Open to Fr. Stdts may receive degree cr for only one Com A crse taken in residence
General Education: COM A  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

E PD 157 Technical Graphics Credits: 1
An introduction to effective graphical displays of technical data and information for both analysis and communication. Basic methods used in the construction of graphs, charts, drawings, and schematics.
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
**E P D 199 Freshman Independent Study** Credits: 1 - 3
Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**E P D 265 Teams and the Engineering Profession** Credits: 1
The communication strategies necessary for effective teamwork in engineering and science professions is the focus of this project-based course. Project options include international, ethical, and engineering business plan issues. Key communication elements are team structures, interpersonal skills, team theories, application, and evaluation. Prereq> EPD 155 or other crse that satisfies Part A Communication Requirement or EPD 160 or cons inst
Typically Offered: Spring

**E P D 275 Technical Presentations** Credits: 2
This course focuses on the principles and theory of effective oral technical presentations and provides a framework for applying the principles in professional settings common to the engineering profession. The course consists of five parts: 1) preparation, delivery, and evaluation of oral presentation on technical subjects, 2) analysis of professional "real-world" technical presentations, 3) survey of presentation technology, 4) self-analysis including listening and non-verbal skills, and 5) practice of group discussion and interview skills. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**E P D 299 Sophomore Independent Study** Credits: 1 - 3
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**E P D 305 Basic Chinese for Professionals I** Credits: 3
Fundamental elements of written and spoken communication in Chinese, primarily in a business context, supported by relevant cultural information.
L&S Credit: No degree credit in L&S  Typically Offered: Fall

**E P D 306 Basic Chinese for Professionals II** Credits: 3
Continuation of EPD 305. Prereq> EPD 305
L&S Credit: No degree credit in L&S  Typically Offered: Spring

**E P D 330 Basic Technical Japanese I** Credits: 3
Introduces the three types of Japanese writing and most grammar necessary for reading technical writing in the sciences. Prereq> Sr or Grad st
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**E P D 332 Basic Technical Japanese II** Credits: 3
Completes the grammar necessary for reading technical writing in the sciences. Concludes with individual projects in specialized fields. Prereq> EPD/E Asian 330
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

**E P D 355 Intermediate Business Chinese for Professionals I** Credits: 3
Professionals will learn the business vocabulary and the patterns of communication they will need in order to conduct business in a Chinese-language environment. Part one of a two-course sequence. Prereq> EPD 306
L&S Credit: No degree credit in L&S  Typically Offered: Fall

**E P D 356 Intermediate Business Chinese for Professionals II** Credits: 3
Professionals will learn the business vocabulary and the patterns of communication they will need in order to conduct business in a Chinese-language environment. Part two of a two-course sequence. Prereq> EPD 355
L&S Credit: No degree credit in L&S  Typically Offered: Spring

**E P D 374 Intermediate Technical Japanese I** Credits: 3
Fundamentals of Japanese grammar and the most frequent 300 Kanji in the physical sciences; reading, comprehending and translating Japanese scientific texts. Prereq> E Asian 203 or cons inst. Does not satisfy L&S language or major requirement
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**E P D 375 Intermediate Technical Japanese II** Credits: 3
Continuation of 374; development of a Kanji frequency list and translation of a technical article. Prereq> EPD/E Asian 374 or cons inst. Does not satisfy L&S language or major requirement
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
E P D 377 Business Japanese Communication Credits: 3
Improvement of oral and written communication skills that are specific to business contexts. Review of essential grammar and honorific expressions for proper styles of communication. Development of the understanding of cultural and geographical factors that influence business practices in Japan. Prereq> E Asian 203-204 or equiv prev lang training (consult instr)
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

E P D 378 Network Skills for Remote Learners Credits: 1
This course is designed to provide students with the knowledge, skills, and attitudes they need to be efficient and effective independent learners in a networked environment. The three primary modules for the course include: learning management, information management, and computer skills. Prereq> Admission to Master of Engineering in Engineering Management or Master of Engineering in Engine Systems distance degree program or department consent
L&S Credit: No degree credit in L&S Typically Offered: Summer

E P D 392 Writing User Manuals and Software Documentation Credits: 2
An introduction to writing instructions, specifications and documentation to support users of consumer and industrial products including computer software, with emphasis on effective use of graphics and the importance of user-oriented organization. Prereq> EPD 397
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E P D 395 Elements of Computer-Assisted Publishing Credits: 3
This course focuses on concepts of the writing-to-publishing process and computer-assisted publishing. It integrates principles of technical writing and graphic design with the use of microcomputers. Laboratory work includes the design of a technical document. Prereq> EPD 397 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E P D 397 Technical Communication Credits: 3
Communication for engineering, science, and technology; theory and practice in planning, preparing, and critiquing reports, proposals, instructions, and business correspondence; research strategies, collaborative work; oral presentations. Prereq> Junior standing
General Education: COM B L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

E P D 398 Technical Communications Internship Credits: 1
Two component course: 1) professional writing experience entailing approximately 80 hours internship with a local corporation, industry, government agency, or educational unit; and 2) one 50 minute class every other week to structure the internship and provide discussion of related issues. Prereq> EPD 397; 6 cr in other communicatn crses or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

E P D 399 Junior Independent Study Credits: 1 - 3
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

E P D 405 Intermediate Technical Chinese I Credits: 3
Engineers and engineering students will learn the specialized vocabulary and grammatical patterns they will need in order to read Chinese scientific and technical documents. (Part one of a two-course sequence.) Prereq> EPD 356, E Asian 201 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

E P D 406 Intermediate Technical Chinese II Credits: 3
Engineers and engineering students will learn the specialized vocabulary and grammatical patterns they will need in order to read Chinese scientific and technical documents. (Part two of a two-course sequence.) Prereq> EPD 405
L&S Credit: No degree credit in L&S Typically Offered: Spring

E P D 416 Engineering Applications of Statistics Credits: 3
Course provides knowledge and skills to apply statistics to many types of engineering problems. Focuses on developing statistically-based experimental techniques and tests for measures of validity, application of computer-based statistical tools, and approaches to distillation of data. Prereq> Admission to Master of Engineering in Engineering Management distance degree program or department consent
Typically Offered: Fall
E P D  470 Engineering Problem Solving with Computers  Credits: 3
Develops computer-assisted skills necessary for solving complex engineering problems. Uses a series of case
studies that develop techniques for solving linear and nonlinear algebraic systems, optimization problems, data
approximation problems, and systems of ordinary differential equations. Prereq> Admission to Master of
Engineering in Engineering Management distance degree program or department consent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E P D  497 Technical Editing  Credits: 1
Principles and practices of editing technical and scientific documents. Overview of the editing process; defining
the editor's rules and responsibilities, revising at structural and sentence levels, and addressing stylistic
conventions of technical fields. Application to technical and scientific documents such as reports, proposals, and
user manuals.  Prereq> EPD 397 or cons inst
Typically Offered: Fall, Spring

E P D  499 Senior Independent Study  Credits: 1 - 3
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

E P D  518 Quality Engineering and Quality Management  Credits: 3
The overall purpose of this course is to enhance the learners’ basic business and decision-making skills related to
quality systems and process improvement.  Prereq> Admission to Master of Engineering in Engineering
Management distance degree program or department consent
Typically Offered: Spring

E P D  597 Technical and Professional Communication  Credits: 3
This course emphasizes essential concepts and strategies of effective written and oral communication. Topics
include writing, documenting, and publishing individual and collaborative research and technical projects;
managing communication aspects of technical projects; oral presentations, conference skills, theses and
dissertations.  Prereq> Cons inst
Typically Offered: Fall, Spring

E P D  601 Japanese for Business and Industry  Credits: 3 - 4
Business language and commercial practices in contemporary Japanese society.  Prereq> EPD/E Asian 375 or E
Asian 304 or consent of instructor
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

E P D  602 Japanese for Politics and Government  Credits: 3 - 4
Language and patterns of expression used in political discourse and policymaking in Japan.  Prereq> EPD/E
Asian 375 or E Asian 304 or consent of instructor
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

E P D  603 Advanced Technical Japanese Seminar  Credits: 3 - 4
Students will read an intermediate/advanced Japanese university textbook in the sciences and view videotaped
lectures by Japanese university faculty members in parallel with the content of the textbook.  Prereq> EPD/E
Asian 430 or consent of instructor
Typically Offered: Spring

E P D  604 Research in Japanese Technical Literature  Credits: 2 - 6
Graduate students in the sciences and engineering pursue individual projects to explore recent Japanese
literature in their research fields.  Prereq> EPD 530 or EPD 603 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

E P D  611 Engineering Economics and Management  Credits: 3
This course addresses principles and practices of interpreting financial information and performing engineering-
related economic analyses. This course focuses on the practical use of economic information for decision-making.
The four course modules are: 1) Basic Accounting Concepts; 2) Management Concepts; 3) Pricing and Product
Decisions; and 4) Systems.  Prereq> Admission to Master of Engineering in Engineering Management distance
degree program or department consent
L&S Credit: No degree credit in L&S  Typically Offered: Fall
E P D  612 Technical Project Management  Credits: 3
Learn key principles and tools of project management applicable to a broad range of engineering projects. The course covers techniques for project planning, scheduling, resource allocation, and project tracking, as well as the interface between projects and the organizations within which they are executed. Prereq: Admission to Master of Engineering in Engineering Management distance degree program or department consent
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E P D  613 International Engineering Strategies and Operations  Credits: 3
Provides a comparative examination and analysis of global trends and regional variations for engineering concepts, standards and practices. Using organizational case studies, the course will describe and analyze multinational engineering operations and summarize best practices and caveats. Prereq: Admission to Master of Engineering in Engineering Management distance degree program or department consent
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E P D  615 Independent Reading and Research in Applied Engineering  Credits: 1
Provides an opportunity to do independent reading and research in an applied engineering topic of student's choice, under the guidance of a UW faculty member. Learn a variety of in-depth research techniques with assistance from Wendt Engineering Library. Present results of research at subsequent Master of Engineering in Engineering Management residency session in late August. Prereq: Admission to Master of Engineering in Professional Practice degree program & B.S. in engineering or equivalent
Typically Offered: Summer

E P D  617 Communicating Technical Information  Credits: 3
Develops skills necessary for engineering professionals to communicate technical and managerial information. Covers approaches for communicating to diverse audiences and for action-oriented purposes. Emphasizes communication problem solving and communication efficiency. Includes individual and collaborative projects using oral, written, and electronic media. Prereq: Admission to Master of Engineering in Engineering Management distance degree program or department consent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E P D  618 Applied Leadership and Management of Engineering Organizations  Credits: 3
Addresses strategies, models, and practices for leading and managing engineering organizations in a context directly relevant to practicing engineers. Students will engage in self-reflection about styles, beliefs, and past experiences with leadership and management. Course project of direct relevance to student's organization will integrate theory, models, case studies, and real-time experiences from student's workplace. Students will gain broad exposure to diverse approaches to leadership and management, and a deeper understanding of how to put what is being learned into effective action. Prereq: Admission to Master of Engineering in Engineering Management distance degree program or de
L&S Credit: No degree credit in L&S  Typically Offered: Spring

E P D  622 Engine Design I  Credits: 2
The overall purpose of this course is to provide the learners with an understanding of engine applications, customer need assessment, and engineering product planning. Prereq: Admission to Master of Engineering in Engine System degree prgm & B.S. in engr or equiv. EPD 621
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E P D  623 Engine Design II  Credits: 4
The overall purpose of this course is to provide the learners with an advanced understanding of internal combustion engine design. Prereq: Admission to Master of Engineering in Engine Systems degree prgm & B.S. in engr or equiv. EPD 621 & 622
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E P D  624 Engine Performance and Combustion  Credits: 4
Provides learners with a physically based understanding of combustion, efficiency, and exhaust emission formation and control in internal combustion engines. Prereq: Admission to Master of Engineering in Engine System degree prgm & B.S. in engr or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E P D  625 Engine Fluid Dynamics  Credits: 3
The overall purpose of this course is to provide the learners with a physically based understanding of fluid dynamics and air handling system design in internal combustion engines. Prereq: Admission to Master of Engineering in Engine Systems degree prgm & B.S. in engr or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
E P D 626 Engine Project Management Credits: 3
Learn and practice how to plan, manage, and control a variety of projects, from simple design exercises to the complete design, analysis, development and release to production of a new engine. Prereq> Admission to Master of Engineering in Engine Systems degree prgm & B.S. in engr or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E P D 627 Perspectives on Engine Modeling Credits: 2
Learn about problem definition and planning, tool selection, model construction, calibration, application and data presentation in order to integrate the most appropriate modeling tools into an engine design and development project. Prereq> Admission to Master of Engineering in Engine Systems degree prgm & B.S. in engr or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E P D 628 Analysis of Trends in Engines Credits: 2
Take a scientifically-based look at trends in energy availability, emission control and refueling, and technological advances to make an assessment of the future of engines and powertrain systems for vehicles throughout the world. Prereq> Admission to Master of Engineering in Engine Systems Degree Program and B.S. in Engineering or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Summer

E P D 629 Engine Systems and Controls Credits: 4
Explore fundamental control concepts for development and analysis, modeling requirements and considerations related to control and diagnostics, and the application of these tools to engine systems. Prereq> Admission to Master of Engineering in Engine Systems Degree Program and B.S. in Engineering or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E P D 641 Essential Skills for Engineering Productivity Credits: 2
Essential Skills for Engineering Productivity (ESEP) provides the knowledge, skills and attitudes needed to be efficient and effective independent learners in a networked environment. This course focuses on key concepts and critical skills for remote learning, teamwork, working with colleagues at a distance, and engineering productivity. Additionally, a large component of this course teaches effective ways of getting engineering information across to large or small audiences in live or web based presentations. Prereq> Admission to an online Master of Engineering Program
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E P D 642 Thermal Systems Engineering Credits: 2
Use the 1st and 2nd laws of thermodynamics in the analysis of engines, and utilize ideal gas mixture, thermodynamics and combustion principles to determine adiabatic flame temperature and chemical equilibrium. Prereq> Admission to Master of Engineering in Engine Systems Degree Program and B.S. in Engineering or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E P D 643 Analysis of Trends in Engines - Legislative Drivers and Alternative Fuels Credits: 1
With a scientifically-based approach, this course will consider trends in energy availability, emission control and regulation, and technological advances for assessing the future of engines and powertrain systems in vehicle applications throughout the world. Prereq> Admission to Master of Engineering in Engine Systems Degree Program and B.S. in Engineering or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Fall

E P D 644 Analysis of Trends in Engines - Powertrain Technologies and Manufacturing Credits: 1
Take a scientifically-based look at trends in technological advances to make an assessment of the future of engines and powertrain systems for vehicles throughout the world as well as manufactoring constraints on future development of engines. Prereq> Admission to Master of Engineering in Engine Systems Degree Program and B.S. in Engineering or equivalent.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

E P D 654 Teaching in Science and Engineering Credits: 2 - 3
Introduction to teaching and learning in science and engineering at the college level. Includes exploration of the learning process, teaching methodology, assessment strategies, course design, teaching philosophies, and careers in education, science, and engineering. Prereq> Grad stdt in sci or engr or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring
E P D 660 Core Competencies of Sustainability Credits: 3
Introduces real-world pragmatic skills and applications in sustainability competencies. Content reaches across engineering expertise, from chemical engineering to buildings to product design and energy. Modules cover ecological footprinting, lifecycle assessment, resource use and integrated engineering practice. Prereq> Junior standing
L&S Credit: No degree credit in L&S Typically Offered: Fall

E P D 661 Industrial Ecology: Sustainability Tools in Context Credits: 3
Introduces sustainability frameworks and addresses industrial ecology by learning how and when to use a range of tools that offer systems thinking perspectives (e.g. Mass Flow analysis, Footprinting, SLCA, SWOT, EIO LCA, LCA, MIPS). Assist in constructing an evaluation matrix to evaluate tool application contexts, and discuss the relationship between optimizing systems through the use of tools and larger sustainability issues/goals. Prereq> Acceptance in the ME-Sustainable Systems Engineering program
L&S Credit: No degree credit in L&S

E P D 663 Engineering Sustainability and Society Seminar and Conference Credits: 1
Each April, the University of Wisconsin Nelson Institute for Environmental Studies hosts an Earth Day Conference in Madison, Wisconsin. The conference provides a forum for a diverse community of academia, industry and the community to discuss environmental, social, and economic aspects of sustainability. This online course prepares students in the Master of Engineering Sustainable Systems Engineering program to attend this conference through research projects and classroom discussion prior to Earth Day on the conference theme and its relationship with engineering practice. Students then travel to Madison, Wisconsin for the conference and discussion with faculty before and after the conference
L&S Credit: No degree credit in L&S

E P D 669 Sustainable Systems Engineering Capstone Credits: 3
The Sustainable Systems Engineering (SSE) Capstone gives teams of students the opportunity to demonstrate their ability to think globally, sustainably, and creatively. Throughout this course, students will gain real-world experience by applying theory, tools, and research to conceptualize, analyze, and design a solution to a real-world problem within a social and environmental context. Projects should showcase the knowledge and analytical skills acquired during the SSE program, and integrate tools, science and communication to address a community or industry need. Students will also work with an industry mentor and customer throughout their project. Prereq> Completion of at least 21 credit
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E P D 690 Special Topics in Engineering Professional Development Credits: 1 - 3
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

E P D 699 Independent Study Credits: 1 - 3
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

GEOLOGICAL ENGINEERING

G L E 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career in industry. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

G L E 171 Introduction to Geological Engineering Credits: 1
Comprehensive introduction to engineering applications of earth sciences. Exploitation and management of geologic resources; mitigation of geologic hazards such as landslides and earthquakes; abatement of environmental problems such as land and water pollution; design of surface and underground excavations; principal methods of geological engineering. Prereq> Open to Fr
L&S Credit: No degree credit in L&S Typically Offered: Spring

G L E 291 Problem Solving Using Computer Tools Credits: 3
Introduction to engineering computations with emphasis on computer tools and computer based measurement, data collection, and processing. Tools will include computer aided drafting, spreadsheets, other engineering computation tools, and hardware and software for laboratory and spatial measurements. Prereq> EMA 202 or 304
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
**GLE 330 Soil Mechanics** Credits: 4
Basic principles of soil mechanics and fundamentals of application in engineering practice; soil composition and texture; classification; permeability and seepage; consolidation; settlement; shear strength; lateral earth pressures; fundamentals of retaining structures, shallow and deep foundations, slope stability; sub-surface exploration; lab. Prereq> EMA 303 or 304 or con reg
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

**GLE 350 Introduction to Geophysics: The Dynamic Earth** Credits: 3
Methods of geophysics applied to earth structure and plate tectonics. Principles of seismology, gravity, geodesy, magnetism and heat flow. Prereq> Math 221
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

**GLE 360 Principles of Mineralogy** Credits: 3
Minerals, their physical and chemical properties, crystallography, and geologic significance. Prereq> 1 sem college chem or concurrent registration
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**GLE 370 Elementary Petrology** Credits: 3
Igneous, sedimentary and metamorphic rocks, studied in hand sample and thin section. Prereq> Geosci 360
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

**GLE 371 Introduction to Environmental Remote Sensing** Credits: 3
Introduction to the Earth as viewed from above, focusing on use of aerial photography and satellite imagery to study the environment. Includes physical processes of electromagnetic radiation, data types and sensing capabilities, methods for interpretation, analysis and mapping, and applications. Prereq> Math 114 & Sophomore standing
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**GLE 372 Intermediate Environmental Remote Sensing** Credits: 3
Examines intermediate-level concepts in information extraction, data processing and radiative transfer relevant to remote sensing of the environment. Includes transforms, image correction, classification algorithms and change detection, with emphasis on applications for land use planning and natural resource management. Prereq> Envir St 301 or consent of instructor, sophomore standing
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

**GLE 401 Special Topics in Geological Engineering** Credits: 1 - 3
Course will focus on a variety of topics in the field of geological engineering. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

**GLE 431 Sedimentary & Stratigraphy Lab** Credits: 1
Field- and specimen-based laboratory course in Sedimentology & Stratigraphy; emphasizes qualitative and quantitative description and interpretation of sediments and sedimentary deposits. Prereq> Geosci 204, Geosci 360, Geosci 370
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**GLE 444 Practical Applications of GPS Surveying** Credits: 2
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

**GLE 455 Structural Geology** Credits: 4
Principles of rock deformation, structures in layered rocks, structural analysis, intrusive structures. Lab: three-dimensional problems involving structural concepts; field trip. Prereq> Geosci 202, 204, one term of physics. Geosci 360 and 370 recommended or concurrent registration
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

**GLE 462 Geologic Hazards** Credits: 3
Recognition, characterization and mitigation of geologic hazards. Topics include: landslides, flooding, coastal hazards, earthquakes and volcanic hazards. Technical reports, group presentations and a final mitigation design project. Prereq> GLE/Civ Engr 330 or Geoscience 455 or GLE/MS&E 474
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
GLE 474 Rock Mechanics Credits: 3
Classification of rock masses, stress and strain in rock, elastic and time-dependent behavior of rock, state of stress in rock masses, failure mechanisms, lab testing, geological and engineering applications. Prereq> EMA 201 or 214, 304, or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

GLE 475 Rock Mechanics Applications to Environmental Problems Credits: 3
Classification of rock for specific engineering purposes, in situ testing, applications to surface mining and slope stability, applications to underground mining and excavations, applications to waste disposal and underground storage, applications to novel methods of in situ mining, applications to earthquakes. Prereq> MS&E 474 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

GLE 476 Field Methods in Geological Engineering Credits: 3
Methods of site investigations for the rational design of structures in rocks and soil. Field reconnaissance, exploratory drilling, in situ testing, during and post-excavation monitoring. Prereq> CEE 330 & Geol Engr 474, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

GLE 478 Introduction to Geological Engineering Design Credits: 1
Review of geological engineering design projects. Discussion of design processes, team approaches, and ethics in geological engineering practice. Preparation of a project proposal, data gathering and planning. Prereq> GLE 475 or senior standing in GLE, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

GLE 479 Geological Engineering Design Credits: 3
A practical problem in an area of geological engineering (such as development of a geologic resource or design of a structure in soil and/or rock) is selected and then the principles and processes of design and analysis are applied to the solution of the problem. Prereq> Sr st & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

GLE 489 Honors in Research Credits: 1 - 3
Undergraduate honors research projects supervised by faculty members. Not available for graduate credit. Prereq> Admission to the GLE honors in research program
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

GLE 530 Seepage and Slopes Credits: 3
Practical aspects of seepage effects and ground water flow. Stability of natural and man-made slopes under various loading conditions. Design and construction of earth dams and embankments. Flow net and its use; wells; filters; total and effective stress methods of slope analysis; selection of pertinent soil parameters. Prereq> Civ Engr 330
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

GLE 531 Retaining Structures Credits: 3
Rigid and flexible earth retaining structures. Analysis and design of retaining walls, anchored bulkheads, braced cuts, tie back cuts, mechanically stabilized earth, and slurry trench walls. Lateral earth pressure due to soil, water, surcharge loads, etc., local and overall stability and the design of anchorage and bracing systems. Prereq> Civ Engr 330; Comp Sci 310 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

GLE 532 Foundations Credits: 3
Shallow and deep foundations. Analysis and design of footings, mats, piers and piles, and related fill and excavation operations. Consolidation settlement, time rate of settlement, stress distribution, elastic (immediate) settlement, load bearing capacity; methods to reduce settlements and increase shear strength; the selection of a foundation system. Prereq> Civ Engr 330 & Comp Sci 310 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

GLE 594 Introduction to Applied Geophysics Credits: 3
Survey of applied geophysics, including seismic refraction, seismic reflection, electrical resistivity, gravity, and magnetics methods. The course will cover the basic physics of each method and modeling techniques and field procedures. Prereq> 1 yr of college calc, 1 yr of college physics
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
GLE 595 Field Methods in Applied and Engineering Geophysics  Credits: 1
The application of geophysical field methods for delineating near-surface features and/or structures as applied to
engineering, environmental and exploration problems.  Prereq> 1 yr coll calc, 1 yr coll physics or EMA 201, 202 &
Physics 202, prev or con reg in GLE/Geoscience 594
L&S Level:  Advanced   L&S Credit:  Counts for LAS credit   Typically Offered:  Fall

GLE 597 Borehole Geophysics  Credits: 3
Examines the use of borehole geophysical techniques to characterize geological materials, structures, and
formation fluids in the region surrounding a well bore. Applications include formation evaluation for oil exploration,
hydrologic, environmental, and mineral deposit characterization, and geoengineering analysis.  Prereq> 1 yr coll
calc, 1 yr coll physics or EMA 201, 202 & Physics 202, GLE/Geology 594
Typically Offered:  Spring

GLE 627 Hydrogeology  Credits: 3 - 4
Mathematical treatment of the physical principles governing the flow of groundwater; emphasis on well hydraulics
and flow system analysis; problem sets and class projects.  Prereq> Intro course in geol, Jr st & Math 221 or
equiv
L&S Level:  Intermediate   L&S Credit:  Counts for LAS credit   Typically Offered:  Fall

GLE 629 Contaminant Hydrogeology  Credits: 3
Physical and chemical processes governing the transport of solutes in groundwater; application of hydrogeologic
and geochemical theory and practice to the protection of aquifers from contamination; problem sets and group
projects.  Prereq> Geoscience 627 and college level chemistry or cons inst
L&S Level:  Advanced   L&S Credit:  Counts for LAS credit   Typically Offered:  Spring

GLE 633 Waste Geotechnics  Credits: 3
The geotechnical aspects of waste disposal and storage. Critical aspects of geotechnical design, construction,
and testing relevant to the performance of earthen structures used for the storage and disposal of wastes or the
remediation of contaminated sites are discussed.  Prereq> Civ Engr 330 & 320 or cons inst
L&S Credit:  No degree credit in L&S   Typically Offered:  Fall, Spring

GLE 635 Remediation Geotechnics  Credits: 3
Geotechnical practice for remediation of sites containing contaminated soil and groundwater is discussed. Topics
include non-invasive and invasive subsurface exploration techniques, methods to monitor for the presence of
contaminants in the saturated and unsaturated zones, and geotechnically-oriented remedial action technologies.
Prereq> Civ Engr 320 & 330
L&S Credit:  No degree credit in L&S   Typically Offered:  Fall, Spring

GLE 699 Independent Study  Credits: 1 - 3
Prereq> Cons inst
L&S Level:  Advanced   L&S Credit:  Counts for LAS credit   Typically Offered:  Occasionally

GLE 705 Advanced Rock Mechanics  Credits: 3
Elastic, viscoelastic and plastic behavior of rock, crack phenomena and mechanisms of rock fracture, finite
element solutions, dynamic rock mechanics, engineering and geological applications.  Prereq> MS&E 474, 475,
or equiv, or cons inst
Typically Offered:  Occasionally

GLE 724 Groundwater Flow Modeling  Credits: 3
An introduction to the principles of modeling groundwater flow systems, with emphasis on regional flow system
analysis. Conceptual understanding of governing equations, and the use of finite difference techniques to solve
such equations are stressed.  Students develop their own codes and are introduced to packaged models,
including those developed by the U. S. Geological Survey.  Prereq> Geosci 627 or equivalent, calculus
Typically Offered:  Occasionally

GLE 730 Engineering Properties of Soils  Credits: 3
Determination and interpretation of soil properties for engineering purposes; physio-chemical properties of soil-
water systems, permeability and capillarity, compression characteristics of soils, measurement of soil properties in
the triaxial test, properties of frozen soils and permafrost.  Prereq> Civ Engr 330
Typically Offered:  Occasionally
GLE 731 Properties of Geosynthetics Credits: 3
Properties and behavior of geosynthetics (plastics sheets and geotextiles used in geotechnical and geoenvironmental construction) are discussed and measured in a laboratory setting. Students learn how to measure and quantify geomechanical and hydraulic behavior of geosynthetics which are used in design. Prereq> Grad st & Civ Engr 330, or cons inst
Typically Offered: Occasionally

GLE 732 Unsaturated Soil Geoengineering Credits: 3
Engineering principles of unsaturated soils as they apply to geotechnical and geoenvironmental systems. Effect of soil water suction and stress on hydraulic conductivity, shear strength, and compressibility of soils in the context of geoengineering problems of flow and stability. Prereq> Grad st & Civ Engr/GLE 330 or cons inst
Typically Offered: Occasionally

GLE 733 Physicochemical Basis of Soil Behavior Credits: 3
Applications of physiochemical, mineralogical and environmental considerations to the engineering behavior of soils. Soil composition, formation, fabric, pore fluid chemistry and interaction of phases. The particulate nature of soils and the fabric-engineering property (volume change, strength, deformation and conduction) relationships. Prereq> Civ Engr 330 or consent of instructor
Typically Offered: Occasionally

GLE 735 Soil Dynamics Credits: 3
Geotechnical considerations of earthquake engineering and foundation vibrations. Seismic surveying; ground motion during earthquakes; determination of soil properties for ground response analysis; dynamic properties of soils; soil structure interaction effects; soil liquifaction; dynamic analysis of earth dams; settlements resulting from earthquakes, lateral earth pressures during earthquakes; foundation vibrations. Prereq> Civ Engr/EMA 530, EMA 545 or cons inst
Typically Offered: Occasionally

GLE 790 Master's Research or Thesis Credits: 1 - 9
Prereq> Grad st; Master's candidates only
Typically Offered: Occasionally

GLE 801 Special Topics in Geological Engineering Credits: 1 - 3
Prereq> Grad st
Typically Offered: Occasionally

GLE 890 Pre-Dissertator's Research Credits: 1 - 9
Prereq> Grad st, for post-master's, pre-dissertator stdts only
Typically Offered: Occasionally

GLE 900 Seminar Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

GLE 990 Research and Thesis Credits: 1 - 9
Prereq> Grad stdt with dissertator status
Typically Offered: Occasionally

GLE 999 Independent Work Credits: 1 - 3
Prereq> Grad st
Typically Offered: Occasionally

INDUSTRIAL & SYSTEMS ENGR

ISYE 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career in industry. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
ISYE 191 The Practice of Industrial Engineering  Credits: 1
An introduction to industrial engineering subject matter areas, problem types, and design/analysis approaches, techniques, and methodologies. Special emphasis on formulation and design alternatives for problem solving. Not open to students with advance standing in I.E. Prereq> Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ISYE 313 Engineering Economic Analysis  Credits: 3
Financial accounting principles and cost systems, interpretation and use of accounting reports and supplemental information for engineering economic analyses, consideration of cost-volume-profit analyses, use of discounted cash flow techniques, flexible budgeting, transfer pricing, and capital budgeting. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ISYE 315 Production Planning and Control  Credits: 3
Techniques and applications of control concepts in the design of inventory, production, quality, and project-planning systems; use of the computer as a component in such systems. Prereq> STAT 311 or MATH 431 (or concurrent registration)
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ISYE 320 Simulation and Probabilistic Modeling  Credits: 3
Analysis of stochastic systems using both analytic methods and computer simulation. Empirical and theoretical models of arrival and service processes. State spaces and state transition probabilities. Simulation of queueing and manufacturing systems. Continuous time Markov analysis of manufacturing systems. Prereq> Stat 311 or equiv, Stat 312 or con reg, Math 320 or Math 340
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ISYE 321 Simulation Modeling Laboratory  Credits: 1
Computer exercises involving generation and analysis of random variables, spreadsheet models of queueing systems, use of simulation software packages. Project. Prereq> Con reg in IE 320 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

ISYE 323 Operations Research-Deterministic Modeling  Credits: 3
Basic techniques for modeling and optimizing deterministic systems with emphasis on linear programming. Computer solution of optimization problems. Applications to production, logistics, and service systems. Prereq> Math 222, Math 320 or Math 340
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ISYE 349 Introduction to Human Factors  Credits: 3
Design for people-machine interaction, including an introduction to the relevant underlying human sciences. Theory, data, and measurement problems in human information processing, anthropometry, training and industrial safety. Laboratories, discussions, and a design project. Prereq> Intro probability or statistics
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ISYE 350 Junior Design Laboratory  Credits: 3
This course introduces industrial engineering students to the tools needed for advanced design courses through experiential learning and hands-on opportunities to conduct experiments, take relevant measurements, analyze real-world data, design systems, and to make and test prototypes of their designs. Prereq> Junior standing or higher in Industrial and Systems Engineering, Comp Sci 302 or 310, Stat 311, and ISyE 315
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ISYE 389 Honors in Research  Credits: 1 - 3
Undergraduate honors research projects supervised by faculty members. Not available for graduate credit.
Prereq> Admission to IE Undergraduate Honors in Research Program
Typically Offered: Fall, Spring, Summer

ISYE 415 Introduction to Manufacturing Systems, Design and Analysis  Credits: 3
Introduction to the technologies, processes and systems of modern discrete part manufacturing. Emphasis on development of an understanding of the behavior of integrated systems. Prereq> Ind Engr 315, 320, 321; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
ISYE 417 Health Systems Engineering Credits: 3
Introduction to the application of industrial engineering methods to the analysis and improvement of health care delivery. Exploration of common problems of decision making and control in health care. Examination of social, regulatory and economic factors unique to health care. Prereq> ISyE 320, ISyE 349
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ISYE 425 Introduction to Combinatorial Optimization Credits: 3
Exact and heuristic methods for key combinatorial optimization problems such as: shortest path, maximum flow problems, and the traveling salesman problem. Techniques include problem-specific methods and general approaches such as branch-and-bound, genetic algorithms, simulated annealing, and neural networks. Prereq> Math 221 or Comp Sci 302 or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ISYE 433 Introduction to Optimization Methods Credits: 3
Numerical problems selected from: unconstrained nonlinear optimization (functions of a single variable, functions of n-variables) with applications to nonlinear least squares; geometric programming as illustrated by an engineering application; integer programming as an approach to facilities location; linear and dynamic programming as applied section and one-dimensional optimization methods based on polynomials, the secant method, Newton's method, penalty functions, geometric programming, branch and bound, the simplex method, and dynamic programming. Emphasis on implementability of methods, rates of convergence, and reliability. Prereq> Math 223
L&S Breadth: Natural Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ISYE 449 Sociotechnical Systems in Industry Credits: 3
The analysis of industrial jobs and organizations. Classical theories and techniques, such as scientific management and work measurement; recent developments such as quality of working life and sociotechnical systems analysis. Review of literature and field-site applications. Prereq> Ind Engr 349 and Bus 530
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ISYE 450 Senior Design Project Credits: 3
This course will provide students a team-based project experience to address a real-world design challenge posed by an external organization. Student-teams will work in close collaboration with the project client to design a new system or process, or redesign an existing one, by integrating and applying appropriate ISyE knowledge, methodologies and tools for problem definition and analysis; idea generation; solution development, evaluation and justification; and implementation planning and impact assessment. Prereq> Senior standing in ISyE 313; ISyE 323, ISyE 349, ISyE 350; ISyE 415 or ISyE 417 (or concurrent registration in one of them); EPD 397 (or concurrent registration in EPD 397)
Typically Offered: Fall, Spring

ISYE 460 Uncertainty Analysis for Engineers Credits: 3
This course introduces undergraduates to approaches for quantifying uncertainty in engineering analyses. Both analytical and computational methods are demonstrated. Prereq> Statistics 311, Math 431, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ISYE 466 Theory of Design I Credits: 3
Determining the real design problem, generating innovative alternatives, and selecting an effective solution. Concepts of systems, models, and strategies for purposeful activities. Design and control of design projects; organization of group interactions. A design project required. Prereq> Ind Engr 313 & 315
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ISYE 476 Industrial Engineering Projects Credits: 3
Complete design of an industrial engineering system in a real world setting, e.g., manufacturing, hospital, communications, food processing, distribution, transportation, etc. Prereq> Ind Engr 320, 321, 349; EPD 397; or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

ISYE 489 Honors in Research Credits: 1 - 3
Undergraduate honors research projects supervised by faculty members. Not available for graduate credit. Prereq> Admission to IE undergraduate Honors in Research Program
Typically Offered: Fall, Spring, Summer
I SY E 510 Facilities Planning Credits: 3
Introduction to plant location theory and analysis of models of plant location; models for determining plant size and time phasing; line balancing models; techniques for investigating conveyor and other material handling problems; and models of plant layout. Prereq> IE 315, 323, 349 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

I SY E 512 Inspection, Quality Control and Reliability Credits: 3
Inspection data for quality control; sampling plans for acceptance inspection; charts for process control. Introduction to reliability models and acceptance testing. Prereq> Stat 224
L&S Credit: No degree credit in L&S  Typically Offered: Spring

I SY E 513 Analysis of Capital Investments Credits: 3
A second course in quantitative methods for analyzing capital investments in technological environments, both public and private. Replacement models; comparison of alternative investment models; risk analysis; case studies. Prereq> Ind Engr 313, Ind Engr 323, Stat 311
L&S Credit: No degree credit in L&S  Typically Offered: Fall

I SY E 515 Engineering Management of Continuous Process Improvement Credits: 3
This course addresses the role of the industrial engineer as a "manager" of continuous improvement in design and production processes. It provides modern tools and techniques for planning and managing team projects, integrating the concepts of total quality, data based decision making, and resource management. Prereq> EPD 397 & Sr or Grad st, or cons inst
Typically Offered: Fall

I SY E 516 Introduction to Decision Analysis Credits: 3
Overview of modeling techniques and methods used in decision analysis, including multiattribute utility models, decision trees, and Bayesian models. Psychological components of decision making are discussed. Elicitation techniques for model building are emphasized. Practical applications through real world model building are described and conducted. Prereq> Stat 224
L&S Credit: No degree credit in L&S  Typically Offered: Spring

I SY E 517 Decision Making in Health Care Credits: 3
Introduction to the use of decision sciences in health-care. Conceptual understanding of medical decision making and its tools including decision trees, sensitivity analysis, Markov (decision) processes, and Monte Carlo simulations with examples from the current medical literature. Prereq> STAT 311 or cons instr
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

I SY E 520 Quality Assurance Systems Credits: 3
Introduces engineers to applications of total quality concepts and tools to develop, implement, and maintain an effective quality assurance system in a manufacturing or service organization. Emphasis is on documentation development, team-based improvement strategies, and international quality standards. Prereq> Sr or Grad st, or cons inst
Typically Offered: Spring

I SY E 525 Linear Programming Methods Credits: 3
Real linear algebra over polyhedral cones; theorems of the alternative for matrices. Formulation of linear programs. Duality theory and solvability. The simplex method and related methods for efficient computer solution. Perturbation and sensitivity analysis. Applications and extensions, such as game theory, linear economic models, and quadratic programming. Prereq> Math 443 or 320 or 340 or cons inst
L&S Breadth: Natural Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

I SY E 526 Advanced Linear Programming Credits: 3 - 4
Review of linear programming. Polynomial time methods for linear programming. Quadratic programs and linear complementarity problems and related solution techniques. Solution sets and their continuity properties. Error bounds for linear inequalities and programs. Parallel algorithms for linear and quadratic programs. Prereq> Comp Sci 525 or equival, 302 or equiv, or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

I SY E 549 Human Factors Engineering Credits: 3
Analysis and design of man-machine systems using human performance models and data. Emphasis on systems involving communication and control. Projects using digital and analog computer simulation techniques for system design. Prereq> IE 349 or equiv
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
I SY E  552  Human Factors Engineering Design and Evaluation  Credits: 3
Evaluation, analysis, and design recommendations for improving human performance and productivity in applied settings. Collection of instrument-based and user survey data. Emphasis on ergonomics, human factors and sociotechnical systems engineering approaches and problems. Design project required. Prereq> Ind Engr 349 & EPD 397, or cons inst  
Typically Offered: Occasionally

I SY E  555  Human Performance and Accident Causation  Credits: 3
A systems view of accident causation, with emphasis on the human performance limitations important in industrial and other accidents. Models of causation, data collection systems, economic evaluation, and safety programs. Small group projects. Prereq> IE 349 or Psych 225 or equivalent & an intro stats crse or consent of instructor for Grad students  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

I SY E  556  Occupational Safety and Health Engineering  Credits: 3
Introduction to the principles of safety and health hazards in the industrial environment. This course provides engineers with the fundamentals of measurement, evaluation, regulation, and control of hazardous conditions, toxic substances, physical agents, and dangerous processes in industrial operations. Prereq> IE 349 or Grad st or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

I SY E  558  Introduction to Computational Geometry  Credits: 3
Introduction to fundamental geometric computations and algorithms, and their use for solving engineering and scientific problems. Computer representations of simple geometric objects and paradigms for algorithm design. Applications from areas of engineering analysis, design and manufacturing, biology, statistics, and other sciences. Prereq> Comp Sci 367 or equiv, Math 223 or equiv, or cons inst  
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

I SY E  559  Patient Safety and Error Reduction in Healthcare  Credits: 2
Techniques for evaluating and reducing risks in medical procedures, including probabilistic risk assessment methods, failure mode and effects analysis, human factors analysis, and quality management. Discussions of patient safety standards, recommendations from agencies, and continual quality improvement. Prereq> Jr st or cons inst  
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

I SY E  564  Occupational Ergonomics and Biomechanics  Credits: 3
Introduces engineers how to design manufacturing and industrial operations in which people play a significant role, so that human capabilities are maximized, physical stress is minimized, and workload is optimized. Examples and topics emphasize industrial applications. Prereq> ISYE 349, or Biomed Engr 315, or Grad standing  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

I SY E  565  Ergonomics in Service  Credits: 3
Analysis, evaluation and design of workstations and workspaces in the service industry, in particular, computer workstations and other forms of information and communication technology. Ergonomic, sociotechnical and job design issues. Implementation and effectiveness of ergonomic interventions. Prereq> Ind Engr 349 or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

I SY E  574  Methods for Probabilistic Risk Analysis of Nuclear Power Plants  Credits: 3
Methods for risk and reliability analysis of engineered systems, particularly as applied in the nuclear power industry. Fault trees and event trees, Bayesian data analysis, probabilistic risk management. Some familiarity with nuclear plant safety systems is helpful, but not required. Prereq> Stat 224  
Typically Offered: Occasionally

I SY E  575  Introduction to Quality Engineering  Credits: 3
Introduction to statistically based quality improvement methods useful in industrial settings; observational methods and design of experiments; experimentation to discover influential factors and to analyze sources of variation; robust products. There will be a one hour discussion section each week. Prereq> One intro crse in statistical methods, or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall
ISYE 578 Facilities Location Models Credits: 3
The theory and methods of facility location. Plant and warehouse siting, plant layout problems and location of service facilities such as hospitals and fire stations. Cases of actual applications. Prereq> OIM 410 or Ind Engr 323, or equivalent
L&S Credit: No degree credit in L&S Typically Offered: Spring

ISYE 601 Special Topics in Industrial Engineering Credits: 1 - 3
In various areas. Sample topics: "Simulation" and "Systems Design". Prereq> Junior standing and consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ISYE 602 Special Topics in Human Factors Credits: 3
Various special topics in human factors engineering. Course topic may vary from semester to semester. Different versions of this course may be offered in same semester. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ISYE 605 Computer Integrated Manufacturing Credits: 3
An introduction to computer-integrated design and manufacturing with a focus on manufacturing process planning. Emphasis on concurrent engineering principles, manufacturing process engineering, computer-aided process planning, NC programming, and CAD/CAM integration. Course provides experience with CAD/CAM software and NC machines. Prereq> Ind Engr 315 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

ISYE 608 Safety and Quality in the Medication Use System Credits: 3
Addresses the problems of medication errors and quality in health care, problem resolutions, methods of assessment, and intervention implementation and quality management. Prereq> DPH-3 st or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Spring

ISYE 610 Design of Program Evaluation Systems Credits: 3
Design of systems for evaluating the effectiveness (efficiency, benefits, costs, resource utilization, contribution) of socio-technical systems. Measurement, analysis and interpretation of results including implications for engineering research. Extensive case studies. Prereq> Sr or Grad st in ind engr or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

ISYE 611 Systems Modeling Credits: 3
A fundamental approach to the description of the structure and behavior of complex systems. Epistemological foundations; the philosophy of general systems theory; qualitative modeling--cross impact matrices and oval diagramming; systems dynamics--linear and nonlinear models; emphasis on modeling of behavior in industrial, social and biological settings. Prereq> Math through differential equations, Grad st in ind engr and cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ISYE 612 Information Sensing and Analysis for Manufacturing Processes Credits: 3
Focuses on the sensing and multivariate data modeling and analysis techniques for monitoring, diagnosis, and quality improvement of manufacturing processes. The techniques introduced can find wide applications in health care, financial engineering, service industry applications, human factors, etc. Prereq> Math 320 & Stat 311, Sr or Grad st, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

ISYE 613 Multiple Criteria Evaluation: Utility Assessment Models and Methods Credits: 3
Modern systems evaluation problems often involve trade-offs on multiple performance criteria or dimensions of value. This course provides an introduction to the mathematical theory and real-world practice of developing quantitative models to represent highly qualitative judgments that are made in systems evaluations involving multiple criteria. Prereq> Math 234 or equiv & Grad st, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ISYE 615 Production Systems Control Credits: 3
An intermediate to advanced course stressing the application of recent operations research techniques to production planning, scheduling and inventory control. Prereq> IE 315, 320, 321, 323, Stat 311, 312
L&S Credit: No degree credit in L&S Typically Offered: Occasionally
**I SY E 617 Health Information Systems**  Credits: 3
Provides grounding in core concepts of health information systems. Major applications include clinical information systems, language and standards, decision support, image technology and digital libraries. Evaluation of IE tools and perspectives designed to improve the quality, efficiency and effectiveness of health information. Prereq: Senior or Graduate standing, or consent of instructor
L&S Level: **Intermediate/Advanced**  L&S Credit: **Counts for LAS credit**  Typically Offered: **Occasionally**

**I SY E 620 Simulation Modeling and Analysis**  Credits: 3
Introduction to simulation modeling and analysis techniques with application to production, logistics, service, and other systems. Emphasis on model building, application of basic statistical data analysis, and the use of simulation for design, evaluation, and improvement of such systems. Introduction to available software. Case studies. Prereq: Comp Sci 302 or equiv & Stat 312 or equiv
L&S Credit: **No degree credit in L&S**  Typically Offered: **Spring**

**I SY E 624 Stochastic Modeling Techniques**  Credits: 3
Techniques for modeling systems in which uncertainty is an essential factor. Emphasizes why, how and when techniques can or cannot be applied, rather than their mathematical derivation. Case studies and/or examples from such areas as logistics, production, and service industries. Prereq: Stat 311, Math 320 or Math 340
L&S Credit: **No degree credit in L&S**  Typically Offered: **Fall, Spring**

**I SY E 625 Discrete Event Simulation**  Credits: 3
Analysis and optimization of real-world systems by means of computer simulation. Structure of simulation models, simulation languages, and the statistical aspects of simulation. Prereq: Comp Sci 467, Stats 311 or equiv
L&S Credit: **No degree credit in L&S**  Typically Offered: **Spring**

**I SY E 632 Introduction to Stochastic Processes**  Credits: 3
L&S Breadth: **Natural Science**  L&S Level: **Advanced**  L&S Credit: **Counts for LAS credit**  Typically Offered: **Fall, Spring**

**I SY E 633 Queuing Theory and Stochastic Modeling**  Credits: 3
Reliability theory; coherent systems and reliability bounds. Markovian queues and Jackson networks. Steady-state behavior of general service time queues. Priority queues. Approximation methods and algorithms for complex queues. Simulation. Dynamic programming; applications to inventory and queueing. Prereq: Math, Ind Engr 632 or cons inst
L&S Breadth: **Natural Science**  L&S Level: **Advanced**  L&S Credit: **Counts for LAS credit**  Typically Offered: **Occasionally**

**I SY E 635 Tools and Environments for Optimization**  Credits: 3
Formulation and modeling of applications from computer sciences, operations research, business, science and engineering involving optimization and equilibrium models. Survey and appropriate usage of software tools for solving such problems, including modeling language use, automatic differentiation, subroutine libraries and web-based optimization tools and environments. Prereq: Comp Sci302, Math 340 or equiv
L&S Breadth: **Physical Science**  L&S Level: **Intermediate**  L&S Credit: **Counts for LAS credit**  Typically Offered: **Occasionally**

**I SY E 641 Design and Analysis of Manufacturing Systems**  Credits: 3
Covers a broad range of techniques and tools relevant to the design, analysis, development, implementation, operation and control of modern manufacturing systems. A significant portion of the coursework involves a group project with industry. This course also serves as the capstone course for the MSMSE degree. Prereq: Grads: MSE major or cons inst; Undergrads: IE 315 or 605, & cons inst
L&S Credit: **No degree credit in L&S**  Typically Offered: **Spring**

**I SY E 643 Performance Analysis of Manufacturing Systems**  Credits: 3
This course examines the state of the art in the use of stochastic network theory to develop performance models of modern manufacturing systems. Prereq: ISyE 624 or ISyE 632, Comp Sci 302 or Comp Sci 367 or Graduate standing
L&S Credit: **No degree credit in L&S**  Typically Offered: **Occasionally**
I SY E 645 Engineering Models for Supply Chains Credits: 3
The course will provide an overview of engineering fundamentals behind supply chains. Topics covered will include modeling and design of multi-stage production distribution systems, multi-echelon inventory models, theory of supply chain contracts, value of flexibility and information sharing in supply chains. Prereq> ISyE 323, ISyE 415
Typically Offered: Fall

I SY E 650 Labor-Management Relations for Engineers Credits: 3
Analysis of labor-management relations problems, policies, and procedures of concern to the engineering profession. Prereq> Jr st in College of Engr
L&S Credit: No degree credit in L&S Typically Offered: Fall

I SY E 652 Sociotechnical Systems Credits: 3
Sociotechnical systems theory with applications to the design of organizations and jobs. Open systems and organizational environments. Analysis of the technical and social systems and techniques for "whole" system consideration. Organizational design strategy. Field site analyses by student teams. Prereq> Grad st or IE 349
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

I SY E 653 Organization and Job Design Credits: 3
Design of productive organizations and people's roles within them. Issues including boundary location, organizational decision levels, autonomous work groups, implementation and diffusion. Roles of the union. Case studies. Prereq> Grad st or IE 349
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

I SY E 655 Advanced CAD/CAM Credits: 3
Focuses on the state-of-the-art in CAD/CAM methodologies and tools for manufacturing applications such as wire-EDM, casting, sheet metal fabrication, rapid prototyping, tool and die making, and cost estimation. Prereq> A crse on manufacturing processes, IE 605 or equiv, & cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

I SY E 662 Design and Human Disability and Aging Credits: 3
Design of products for persons with physical, sensory or cognitive impairments is covered as well as the design of standard mass market products. Interdisciplinary teams explore specific disabilities, then design a standard mass market product in competition with each other. Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

I SY E 663 Occupational Stress Credits: 3
This course examines the nature of occupational stress, what it is, how it is measured, its antecedents and its consequences, and its effects on human performance and health. Prereq> IE 349, Bus 530, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

I SY E 664 Advanced Ergonomics I Credits: 3
Biomechanical and physiological modeling and measurement techniques, useful in the study and mitigation of physical stressors in the industrial workplace. Prereq> Grad st in human factors progm or cons inst & con reg in IE 665
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

I SY E 671 E-Business: Technologies, Strategies and Applications Credits: 3
Overview of core concepts of e-commerce and e-business technologies, strategies and applications. Covers business-to-consumer, business-to-business and intra-business models by using real-world examples and cases from various industries. Prereq> Senior or Graduate standing
L&S Credit: No degree credit in L&S Typically Offered: Fall

I SY E 672 E-Business Transformation: Design, Analysis and Justification Credits: 3
Analytical and integrative approaches for e-business strategy formulation, analysis and justification and development of implementation roadmap. Emphasizes development of analytical reasoning and managerial thinking through creation of assessment tools and decision aids to guide various aspects of e-business transformation. Prereq> Sr or Grad st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring
ISYE 699 Advanced Independent Study Credits: 1 - 5
Under faculty supervision. Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ISYE 702 Graduate Cooperative Education Program Credits: 1 - 2
Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students.
Typically Offered: Occasionally

ISYE 703 Quality of Health Care: Evaluation and Assurance Credits: 1 - 3
Implementation, oversight, and management of quality-oriented activities in health care settings. Overview of current and historical activities, approaches, and issues confronting health care related to quality assessment, assurance, and improvement. Prereq> Major or minor in population health, or cons inst
Typically Offered: Occasionally

ISYE 705 Proseminar in Engineering Psychology and Human Factors Engineering Credits: 1
This required course is for engineering psychology and industrial engineering graduate students. This will be an inter-disciplinary seminar in which faculty from Psychology and the Human Factors Engineering programs will present their research and lead discussion of topics including methodological issues. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ISYE 708 Societal Risk Management of Technological Hazards Credits: 3
Issues involved in decision-making regarding technological risks and risk management in areas such as nuclear power, hazardous waste disposal, and pollution control. Risk perception and cognitive biases; risk analysis and decision analysis; political issues in risk management; regulatory mechanisms; and risk communication. Selected case studies. Prereq> Stat 311 or Math 431 or Soc 360, IE 516, & Grad st; or cons inst
Typically Offered: Occasionally

ISYE 715 Advanced Methods for Quality Improvement Credits: 3
This course is a sequel to IE 575, integrating statistical approaches to engineering/manufacturing quality improvement. Examination of measurement processes; statistical modeling; international standards; overview of Taguchi's contributions and statistical consequences. Prereq> Ind Engr 575 or cons inst
Typically Offered: Occasionally

ISYE 719 Stochastic Programming Credits: 3
Stochastic programming is concerned with decision making in the presence of uncertainty, where the eventual outcome depends on a future random event. Topics include modeling uncertainty in optimization problems, risk measures, stochastic programming algorithms, approximation and sampling methods, and applications. Prereq> Comp Sci 525; Math 431 or Stat 311; or cons inst
Typically Offered: Occasionally

ISYE 720 Integer Programming Credits: 3
Formulation of integer programming problems and the characterization of optimization problems representable as integer and mixed-integer programs. The degree of difficulty of classes of integer programs and its relation to the structure of their feasible sets. Optimality conditions. Branch-and-bound, cutting plane, and decomposition methods for obtaining solutions or approximating solutions. Prereq> Comp Sci 525 or cons inst
Typically Offered: Occasionally

ISYE 722 Computer-Based Data Management Credits: 3
Use, control and administration of centralized and distributed data bases. Topics include the definition, design, creation, revision, interrogation, update, security and integrity of data bases. Prereq> Info Sys 371 or cons inst
Typically Offered: Occasionally

ISYE 723 Dynamic Programming and Associated Topics Credits: 3
Typically Offered: Occasionally
I SY E 726 Nonlinear Optimization I Credits: 3
Theory and algorithms for nonlinear optimization, focusing on unconstrained optimization. Line-search and trust-region methods; quasi-Newton methods; conjugate-gradient and limited-memory methods for large-scale problems; derivative-free optimization; algorithms for least-squares problems and nonlinear equations; gradient projection algorithms for bound-constrained problems; and simple penalty methods for nonlinearly constrained optimization. Prereq: Familiarity with basic mathematical analysis and either Math 443 or 320; or cons inst
Typically Offered: Occasionally

I SY E 727 Convex Analysis Credits: 3
Typically Offered: Occasionally

I SY E 729 Behavioral Analysis of Management Decision Making Credits: 3
Examination of behavioral science literature dealing with the processes by which individuals, small groups and organizations make decisions. Understanding decision-making behavior in order to improve managerial performance; modeling decision-making processes for systems design and theory building purposes. Prereq: Intro course in mgmt processes & intermediate course in stat
Typically Offered: Occasionally

I SY E 730 Nonlinear Optimization II Credits: 3
Theory and algorithms for nonlinearly constrained optimization. Relevant geometric concepts, including tangent and normal cones, theorems of the alternative, and separation results. Constraint qualifications. Geometric and algebraic expression of first-order optimality conditions. Second-order optimality conditions. Duality. Nonlinear programming algorithms: merit functions and filters; interior-point, augmented Lagrangian, and sequential quadratic programming algorithms. Prereq: Comp Sci 726 or equiv, or cons inst
Typically Offered: Occasionally

I SY E 745 Assembly Systems Design and Analysis Credits: 3
Dynamic analysis of parts feeding and orienting systems, stochastic process models of the performance of synchronous assembly machines, asynchronous power-and-free, and AGV/monotractor systems. System configuration and parametric design optimization, machine vision applications, Scara cell design, control and operation, product design for assembly. Prereq: Grad st in IE, MSE, or ME, and cons inst
Typically Offered: Occasionally

I SY E 753 Seminar in Organization and Job Design Credits: 3
Discussion of current theory and practice of job and organization design. Papers presented by students. Prereq: Ind Engr 653 or equiv & cons inst
Typically Offered: Occasionally

I SY E 764 Occupational Biomechanics Credits: 3
Advanced study of biomechanical and physiological modeling and measurement techniques useful in the study and mitigation of physical stressors in the industrial workplace and for preventing musculoskeletal disorders in manual work. Prereq: Ind Engr 564 or Grad st
Typically Offered: Occasionally

I SY E 790 Master's Research and Thesis Credits: 1 - 9
Prereq: Grad st; Master's candidates only
Typically Offered: Occasionally

I SY E 816 Special Topics in Systems Design Credits: 1 - 3
Subjects vary. Prereq: Cons inst
Typically Offered: Occasionally

I SY E 823 Special Topics in Operations Research Credits: 1 - 3
Subjects vary. Prereq: Cons inst
Typically Offered: Occasionally

I SY E 854 Special Topics in Organization Design Credits: 1 - 3
Prereq: Cons inst
Typically Offered: Occasionally
I SY E 859 Special Topics in Human Factors Engineering Credits: 1 - 3  
Prereq> Cons inst  
Typically Offered: Occasionally

I SY E 874 Special Topics in Ergonomics Credits: 1 - 3  
Topics vary. Prereq> Cons inst  
L&S Level: Advanced  
L&S Credit: No degree credit in L&S  
Typically Offered: Occasionally

I SY E 875 Assessment of Medical Technologies Credits: 3  
Basic ideas and tools of cost effectiveness analysis as applied in evaluating medical technologies. Addresses special problems and methods in assessing diagnostic technologies, including ROC analysis, and in measuring health for technology assessment. Uses "classical" and current journal literature. Prereq> Pop Hlth 797 & 800; or cons inst  
Typically Offered: Occasionally

I SY E 890 Pre-Dissertation's Research Credits: 1 - 9  
Prereq> Grad st; pre-dissertators only  
Typically Offered: Occasionally

I SY E 913 Seminar in Decision Sciences Credits: 1 - 3  
Current research topics in the field of decision sciences. Prereq> Grad st and cons inst  
Typically Offered: Occasionally

I SY E 920 Seminar in Operations Research Credits: 1 - 3  
Current research topics in the field of operations research. Prereq> Grad st and cons inst  
Typically Offered: Occasionally

I SY E 946 Advanced Topics in Manufacturing Systems Credits: 1 - 3  
Research topics course intended to survey the latest developments and research issues in manufacturing systems. Prereq> Grad st in IE, MSMSE, or ME; & cons inst  
Typically Offered: Occasionally

I SY E 961 Graduate Seminar in Industrial Engineering Credits: 1 - 3  
Prereq> Cons inst  
Typically Offered: Occasionally

I SY E 990 Research and Thesis Credits: 1 - 6  
Prereq> Dissertator status & cons inst  
Typically Offered: Occasionally

I SY E 999 Advanced Independent Study Credits: 1 - 6  
Under staff supervision. Prereq> Cons inst  
Typically Offered: Occasionally

INTERDIS COURSES (ENGR)

INTEREGR 101 Contemporary Issues in the Engineering Profession Credits: 2  
A survey of the engineering profession's contemporary role in society. Emphasis on the engineer's responsibility to society, including concerns for business principles, safety, ethics, and the environment; the role of engineers in achieving economic stability, growth, and improving the human condition. Prereq> Open to Fr & So only  
L&S Breadth: Social Science  
L&S Level: Elementary  
L&S Credit: Counts for LAS credit  
Typically Offered: Fall, Spring

INTEREGR 102 Introduction to Society's Engineering Grand Challenges Credits: 2  
Description and discussion of how engineering disciplines address specific engineering grand challenges in society. Focus on societal and multicultural issues encountered in engineering, as well as economic, ethical and political constraints on engineering solutions. Development of students' professional skills. Prereq> Fr or So st, or cons inst. Open to Fr  
L&S Credit: No degree credit in L&S  
Typically Offered: Fall, Spring
INTEREGR 103 Core Competencies for Engineering Leaders Credits: 2
Leadership is a core aspect of successful engineers, but it is rarely part of a formal curriculum. The course provides a solid foundation of leadership theory and practice to help future engineering professionals to be more effective in their technical work. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTEREGR 111 Introduction to the Engineering Design Process and Profession Credits: 2
Introduction to the engineering design process and profession through applied problem-solving. Emphasis on the engineering design process in industry, teamwork and communication skills; the engineer's responsibilities to customers and society; and the role of engineers in improving the human condition. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall

INTEREGR 150 Directed Studies in Engineering Foundation Courses Credits: 0
Directed study through College of Engineering Supplementary Instruction program. Group discussion and problem-solving coaching to enhance understanding of physics and its applications to engineering. Open only to students with engineering classification. Prereq> Enrollment in coll of engr. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTEREGR 160 Introduction to Engineering Design Credits: 3
This course provides the incoming freshman with an overview of engineering based on a "hands-on" experience with a client-centered engineering design project, which includes: 1) a team-based design project, 2) a survey of engineering disciplines, and 3) an introduction to computer tools and lab techniques. Prereq> HS physics or chem with con reg in calculus, or cons inst. Restricted to Fr only  Typically Offered: Fall

INTEREGR 250 Fundamentals of Engineering Ethics Credits: 1
Introduction to the fundamentals of engineering ethics, including the distinction between professional and personal ethics, moral theories and their role in evaluating ethical issues, schemas for analyzing ethical dilemmas, and an introduction to codes of ethics and licensing laws. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

INTEREGR 251 Topics in Engineering Ethics Credits: 1
Topics of special interest to undergraduates in engineering, emphasizing themes of engineering ethics and professional responsibility. Students may take this course more than once for credit, as allowed by their department’s curriculum rules. Prereq> InterEgr/STS 250. Open to Fr
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

INTEREGR 301 Engineering and Biology: Technological Symbiosis Credits: 1 - 4
Combining engineering with biology can result in fascinating new technologies. This course explores 3 topics at the very forefront of bio-engineering innovation as well as the social, political, and ethical issues that can affect realization. Prereq> ME 306 or ECE 230 or CBE 320 or MS&E 330 or Civ Engr 320 or EMA 303 or BSE 249
L&S Credit: No degree credit in L&S  Typically Offered: Fall

INTEREGR 400 Dean's Leadership Class Credits: 1
The focus of this course is to help leaders of student organizations learn about and practice essential leadership skills, and develop constructive viewpoints on leadership.
L&S Credit: No degree credit in L&S  Typically Offered: Fall

INTEREGR 413 Current Issues in International Engineering Credits: 1
Provides a comparative examination and analysis of global trends and regional variations for engineering concepts, standards and practices. Using organizational case studies, the course will describe and analyze multinational engineering operations and summarize best practices and caveats. Prereq> Admission to Intl Engr Cert Progm or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

INTEREGR 601 Topics in Interdisciplinary Engineering Credits: 1 - 3
Interdisciplinary topics of special interest to undergrad and grad students in engineering. Prereq>
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
INTEREGR 650 Women and Leadership in Medicine, Science and Engineering Credits: 1 - 3
Review and discussion of research on effective leadership; gender differences in leadership; unconscious assumptions about behaviors and traits of leaders; and approaches to counteracting biases. Required assignments vary with credits from reflective journal to literature review to research project. Prereq> Graduate students, Professional students: Upper-level undergrads with consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Spring

MATERIALS SCI AND ENGINEERING

M S & E 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Prereq> So st
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

M S & E 150 Materials Science for Non-Engineers Credits: 3
A non-mathematical treatment of the structure and resulting properties of metals, plastics, ceramics, glasses and composite materials. The interaction between materials and the environment, heat, mechanical forces, light, electric and magnetic fields. Prereq> HS chem or physics. Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M S & E 250 Introduction to Modern Materials Credits: 1
This course is designed to provide incoming students with an overview of the structure of materials and the relation to properties. Special emphasis is placed on modern materials and recent advancements in their application. Prereq> Open to Fr or stts who have not declared a major
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

M S & E 271 Materials Science and Engineering Problem Solving I Credits: 2
Introduction to the application of commercial software tools (spreadsheets and equation solvers) to solving materials science and engineering problems, including heat and mass balances, steady state heat transfer and diffusion, nucleation, and solidification. Prereq> Open to MS&E majors
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M S & E 299 Independent Study Credits: 1 - 3
Prereq> Open to Freshmen. Consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M S & E 330 Thermodynamics of Materials Credits: 4
Introduction to thermodynamics of materials, equilibrium constants, solutions, heterogeneous equilibria and electrochemistry. Prereq> Chem 104 & Math 222
L&S Credit: No degree credit in L&S Typically Offered: Fall

M S & E 331 Transport Phenomena in Materials Credits: 3
Basic principles of fluid flow, heat transfer and diffusion are introduced. Examples relevant to design and processing of materials including metals, semiconductors, glasses, polymers, and ceramics are given. Prereq> MS&E 330
L&S Credit: No degree credit in L&S Typically Offered: Spring

M S & E 332 Macroprocessing of Materials Credits: 3
Topics include: ironmaking and steelmaking; production of Cu, Zn, Al and Mg by electrolysis; solidification processing of alloys by ingot casting, continuous casting and directional solidification; growth of bulk single crystals of semiconductors and ceramics from melts. Prereq> MS&E 330
L&S Credit: No degree credit in L&S Typically Offered: Fall

M S & E 333 Microprocessing of Materials Credits: 3
Integration of materials science theory and materials engineering practice as applied to the processing of materials at the microscopic level. Prereq> MS&E 332 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

M S & E 350 Introduction to Materials Science Credits: 3
Basic structure and resulting properties, phase equilibria, metastability, rate and growth processes in solids. Prereq> Chem 103 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
M S & E  351 Materials Science-Structure and Property Relations in Solids Credits: 3
Introduction to: atomic, electronic, and defect structures in materials; diffusional, mechanical and electrical properties of materials; and the role of structure and defects in diffusional, mechanical, and electrical properties. Prereq> Chem 104 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M S & E  352 Materials Science-Transformation of Solids Credits: 3
The basic factors that determine phase equilibria, structural and transformation characteristics of solids. Principles governing the thermodynamics and kinetics of phase transformations and microstructure evolution. Nucleation and growth processes in precipitation, recrystallization, solidification, oxidation, martensitic, ordering and spinodal reactions. Transformation behavior in polymers, biomaterials and nanomaterials. Prereq> MS&E 350, or 351 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M S & E  360 Materials Laboratory I Credits: 1
Laboratory instruction in sample preparation for and applications of quantitative microscopy, x-ray diffraction, and properties measurement in the context of structure-property relationships in materials. Prereq> MS&E 350, 351, or CBE 440 or concurrent registration
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

M S & E  361 Materials Laboratory II Credits: 2
Experimental principles of materials science. Thermal, kinetic, structural, and materials synthesis experiments and associated concepts, data analysis, and presentation. Prereq> MS&E 351 or concurrent registration & MS&E 360 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M S & E  362 Materials Laboratory III Credits: 2
Experiments in the mechanical and electronic properties of matter in bulk and thin films; computer instrument control; and data analysis. Prereq> MS&E 352 or concurrent registration & MS&E 361
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M S & E  371 Materials Science and Engineering Problem Solving II Credits: 3
Application of advanced spreadsheet features to the solution of complex materials science and engineering problems, including transport phenomena and microstructural characterization. Emphasis will be on algorithm development, structural programming and model validation. Prereq> Open only to MS&E majors
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M S & E  401 Special Topics in Materials Science and Engineering Credits: 1 - 3
Special topics of interest to students in materials science and engineering. Prereq> So st
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

M S & E  421 Polymeric Materials Credits: 3
Polymer chemistry and physics terminologies, structure-property relationship, polymer characterization, polymer synthesis, material requirements for optoelectronics including conjugated polymers, thin film transistors, light emitting diodes, non-linear optical materials, holographic data storage and liquid crystal polymers. Prereq> Chem 341 or equiv
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

M S & E  423 Nuclear Engineering Materials Credits: 3
Fundamentals of fuel and cladding behavior in terms of thermal properties, chemical behavior and radiation damage. Prereq> MS&E 350 or 351
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M S & E  433 Principles of Corrosion Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
M S & E 434 Introduction to Thin-Film Deposition Processes Credits: 3
Introduction to major thin-film deposition techniques and properties of thin films. Evaporation, plasma assisted processes with emphasis on sputter deposition, chemical vapor deposition ion beams. Film properties and characterization methods, applications. Prereq> MS&E 330 and 351, or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

M S & E 435 Joining of Materials: Structural, Electronic, Bio and Nano Materials Credits: 3
L&S Credit: No degree credit in L&S Typically Offered: Spring

M S & E 441 Deformation of Solids Credits: 3
Elastic and plastic deformation of real solids. Dislocation theory with applications to metals and alloys. Fracture, fatigue, brittle failure and methods for measuring the mechanical properties of materials. Prereq> EMA 214 or concurrent registration or consent of instructor, & MS&E 352 or concurrent registration
L&S Credit: No degree credit in L&S

M S & E 445 Multicomponent Phase Equilibria Credits: 3
Applications of the phase rule to metallurgical and mineralogical reactions. Prereq> Sr st
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M S & E 448 Crystallography and X-Ray Diffraction Credits: 3
Crystal symmetry, projection methods, X-ray studies of structural problems in the solid state. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

M S & E 451 Introduction to Ceramic Materials Credits: 3
Primary objectives are to: 1) analyze how atoms and ions combine to form 3D crystals and glasses; 2) examine phase equilibria to understand the driving forces for the formation of particular ceramic phases; 3) introduce and discuss the nature of defects in ceramics; 4) discuss the migration of matter and of charge in ceramics; and 5) discuss properties and processing technologies of ceramics. Prereq> MS&E 330 & 352
L&S Credit: No degree credit in L&S Typically Offered: Fall

M S & E 456 Electronic, Optical, and Magnetic Properties of Materials Credits: 3
Quantitative description of electronic, optical, and magnetic structure-property relationships of materials. Strategies for the development of new materials and introduction to applications of these materials. Prereq> MS&E 351 & 333; one of Physics 205, 241, or 244
L&S Credit: No degree credit in L&S Typically Offered: Fall

M S & E 461 Advanced Metal Casting Credits: 3
Metallurgical and engineering principles applied in the foundry and related industries, primarily for those interested in foundry engineering. Prereq> ME 311 or MS&E 370
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M S & E 462 Welding Metallurgy Credits: 3
Metallurgical principles applied to welding; mechanisms of strengthening, phase equilibria, and microstructure of the weld zone. Modern processes including laser and electron beam welding. Prereq> MS&E 370 or ME 313 and MS&E 350 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M S & E 463 Materials for Elevated Temperature Service Credits: 3
The design, properties, processing and selection of high temperature materials for structural applications. The fundamentals of diffusion, phase transformations, dislocation motion and oxidation governing the high temperature mechanical properties and structural performance of metallic and ceramic materials. Prereq> Consent of instructor or senior standing
L&S Credit: No degree credit in L&S Typically Offered: Occasionally
M S & E  465 Fundamentals of Heat Treatment Credits: 3  
Principles of phase transformations, heat transfer and mechanical properties as applied to heat treatment practice. The design, modeling and analysis of heat treatment processes. Prereq> Senior standing  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M S & E  470 Capstone Project I Credits: 1  
Capstone experiences in materials design, selection, and application for MS&E students. Emphasis on creativity and application of fundamental principles in problem identification, experimental design, data acquisition and analysis, and presentation of results. Prereq> MS&E 331, MS&E 352 and MS&E 362  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M S & E  471 Capstone Project II Credits: 3  
Capstone experiences in materials design, selection and application for MS&E students. Emphasis on creativity and application of fundamental principles in problem identification, experimental design, data acquisition and analysis, and presentation of results. Prereq> MS&E 470  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M S & E  474 Rock Mechanics Credits: 3  
Classification of rock masses, stress and strain in rock, elastic and time-dependent behavior of rock, state of stress in rock masses, failure mechanisms, lab testing, geological and engineering applications. Prereq> EMA 201 or 214, 304, or cons inst  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

M S & E  475 Rock Mechanics Applications to Environmental Problems Credits: 3  
Classification of rock for specific engineering purposes, in situ testing, applications to surface mining and slope stability, applications to underground mining and excavations, applications to waste disposal and underground storage, applications to novel methods of in situ mining, applications to earthquakes. Prereq> MS&E 474 or cons inst  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

M S & E  530 Thermodynamics of Solids Credits: 3  
Thermodynamics of condensed matters as applied to materials science and engineering. Prereq> MS&E 330 or equiv  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M S & E  541 Heterogeneous and Multiphase Materials Credits: 3  
Principles of the mechanics of solid multiphase systems. Role of heterogeneity and anisotropy in determining physical properties including elastic, dielectric and piezoelectric properties. Applications in lightweight structures, ultrastrong materials, materials for protection of the body, and materials for the replacement of human tissues. Materials with fibrous, lamellar, particular, and cellular structures. Heterogeneous materials of biological origin. Biomimetic and bio-inspired materials. Prereq> EMA 303 or ME 306 or MS&E 441 or equivalent  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M S & E  544 Processing of Electronic Materials Credits: 3  
Physics and chemistry principles underlying microelectronic materials processing. Effects of processing on materials and structures important in microelectronic and opto-electronic devices. Prereq> CBE 440 or MS&E 351 or ECE 335; or cons inst  
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M S & E  553 Nanomaterials & Nanotechnology Credits: 3  
The principal objectives of the course are to: i) introduce advanced processing methods for synthesizing nanomaterials, ranging from single nanoparticles to three-dimensional nanostructures, ii) discuss important thermodynamic and kinetic theories related to such processing, iii) describe methods for characterizing the structure and properties of nanomaterials, iv) discuss current and emerging applications for nanomaterials, and v) illustrate the interdisciplinary nature of nanotechnology and address critical challenges. Prereq> Senior or graduate student status in a physical sciences program  
L&S Credit: No degree credit in L&S  Typically Offered: Spring
M S & E 560 Fundamentals of Atomistic Modeling Credits: 3
Introduction to basic concepts of atomistic modeling in materials, including classical and quantum mechanical energy methods, energy optimization, molecular statistics, molecular dynamics, and Monte Carlo. Relevant aspects of thermodynamics, statistical mechanics, quantum mechanics, and computer programming will also be presented. Prereq> Sr st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M S & E 570 Properties of Solid Surfaces Credits: 3
Introduction to structure and electronic properties; surface energy; thermodynamics of surfaces; diffusio. Surface barriers, work function, vibrational and electronic states. Chemical interactions: chemisorption, oxidation, corrosion, absorption kinetics, catalysis. Experimental methods and applications in metals, semiconductors. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M S & E 699 Independent Study Credits: 1 - 4
Courses in Metallurgical Engineering
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

M S & E 702 Graduate Cooperative Education Program Credits: 1 - 2
Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students.
Typically Offered: Occasionally

M S & E 705 Advanced Rock Mechanics Credits: 3
Elastic, viscoelastic and plastic behavior of rock, crack phenomena and mechanisms of rock fracture, finite element solutions, dynamic rock mechanics, engineering and geological applications. Prereq> MS&E 474, 475, or equiv, or cons inst
Typically Offered: Occasionally

M S & E 748 Structural Analysis of Materials Credits: 3
Introduction to transmission electron microscopy of materials, including imaging, diffraction, and microanalysis. Prereq> MS&E 448
Typically Offered: Occasionally

M S & E 750 Imperfections and Mechanical Properties Credits: 3
Mathematical theory of dislocations and other crystal imperfections; mechanical properties of crystals in relation to imperfections. Prereq> Cons inst
Typically Offered: Occasionally

M S & E 751 Advanced Materials Science: Diffusion and Reactions Credits: 3
Selected topics in materials science and engineering such as phase stability, diffusion and kinetic processes in metals, semi-conductors and ceramics. Prereq> MS&E 352 or equiv
Typically Offered: Occasionally

M S & E 752 Advanced Materials Science: Phase Transformations Credits: 3
Phase transformations, nucleation theory and the role of structural imperfections, alloy phase equilibria, interface reactions and growth kinetics, continuous transformations. Prereq> MS&E 352 and 530 or equivalent
Typically Offered: Occasionally

M S & E 756 Structure and Properties of Advanced Electronic Materials Credits: 3
Prepares graduate students for research in electronic materials and related areas by examining (1) how does the physical structure of a material affect its electronic structure and properties: and (2) state-of-the-art advance electronic materials. Topics include: molecular and organic semiconductors; carbon nanomaterials (nanotubes, nanoribbons and graphene); advances in conventional bulk zinc-blende and wurtzite semiconductors; polycrystalline, amorphous, and disordered materials; state-of-the-art high- & low-k dielectrics; and up-and-coming and next-generation materials. Prereq> Physics 551 or MS&E 456 or equivalent
Typically Offered: Fall

M S & E 758 Transmission Electron Microscopy Laboratory Credits: 1
An introduction to the practice of transmission electron microscopy (TEM) and TEM sample preparation through hands-on laboraory training. Prereq> MS&E 748 or con reg & cons inst
Typically Offered: Occasionally
M S & E  760 Molecular Dynamics and Monte Carlo Simulations in Materials Science  Credits: 3
Students will learn algorithms and develop codes for molecular dynamics (MD) and Monte Carlo (MC) simulations of materials. Techniques for parallel programming (MPI) will be introduced and practiced. Advanced techniques based on MD and MC will be presented. Prereq> Grad st or cons inst
Typically Offered:  Spring

M S & E  770 Methods of Surface and Interface Characterization  Credits: 3
Principles and engineering applications of major methods of structural and chemical characterization of surfaces and interfaces, including scanning electron microscopy, low-energy electron diffraction, Auger electron spectroscopy, ESCA, ion scattering methods, and ellipsometry, mostly in metals and metal/non-metal structures. Lecture and lab project. Prereq> MS&E 570 or cons inst
Typically Offered:  Occasionally

M S & E  790 Master's Research or Thesis  Credits: 1 - 9
Prereq> Grad st, for Master's candidates only
Typically Offered:  Occasionally

M S & E  803 Special Topics in Materials Science  Credits: 1 - 3
Typically Offered:  Occasionally

M S & E  890 Pre-Dissertator's Research  Credits: 1 - 9
Prereq> Grad st, for post-master's, pre-dissertator stdts only
Typically Offered:  Occasionally

M S & E  900 Materials Research Seminar  Credits: 1
Introduces graduate students to the breadth, wealth and practices of materials research at the University of Wisconsin and in the professional materials research community. Prereq> Intended for, but not limited to, 1st yr grad stdts
Typically Offered:  Occasionally

M S & E  990 Research and Thesis  Credits: 1 - 9
Typically Offered:  Occasionally

M S & E  999 Independent Work  Credits: 1 - 3
Typically Offered:  Occasionally

MECHANICAL ENGINEERING

M E  1 Cooperative Education Program  Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career in industry. Prereq> So st
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

M E  132 Machine Shop and Welding  Credits: 3
Practical experience in various machine shop, welding, and sheet metal operations; also includes blueprint reading, glass blowing, metal coating, brazing, plastic forming, and metal spinning. Prereq> Open to Fr & all stdts
L&S Credit:  No degree credit in L&S  Typically Offered:  Occasionally

M E  160 Architectural Graphics  Credits: 3
The skill of communicating through the graphic media of freehand and instrumental drawing. Architectural presentation, isometric, perspective and shades and shadows. Prereq> Open to Freshmen
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring

M E  170 Civil Engineering Graphics  Credits: 2
To develop an awareness of and appreciation for work that is characteristic of civil engineering. Graphical communication including lettering, drawing equipment and techniques; geometric construction, orthographic projections, pictorial drawing, and technical sketching, isometric, oblique and perspective projections, descriptive geometry, computer-aided design drawing, applications to civil engineering problems. Prereq> Open to All Undergrads
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring
M E 231 Introductory Engineering Graphics Credits: 2
A freshman level course which provides the undergraduate engineering student with a background in descriptive geometry, orthographic projection, engineering drawing standards and annotation, and computer-aided engineering graphics. Point line and plane relationships in projection; multi-view engineering drawings; auxiliary and section views; basic dimensioning and annotation; engineering applications. Prereq> Pre-admission to College of Engr. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

M E 240 Dynamics Credits: 3
Rectilinear and curvilinear motion of a particle; force, mass, acceleration; work, potential, and kinetic energy; impulse and momentum; kinematics of rigid bodies; moving coordinate systems with relative motion; general planar rigid body kinematics and kinetics. Applications to linkages, cams and geared systems. Prereq> EMA 201, Math 222
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

M E 291 Undergraduate Mechanical Engineering Projects Credits: 1 - 3
Individual lab projects under staff supervision. Prereq> Cons inst. Apprvl of ME dept comm
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

M E 299 Independent Study Credits: 1 - 3
Prereq> Cons inst. Aprvl of ME dept comm
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

M E 306 Mechanics of Materials Credits: 3
Mechanical stress and strain, deformation under tension and compression, torsion of shafts, beam bending stresses and deflections, design of beams and shafts, pressure vessels, principal stress and strain, buckling, impact, strain energy analysis. Prereq> EMA 201, Math 222
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

M E 307 Mechanics of Materials Lab Credits: 1
Data processing, tension/compression tests, creep stress concentrations, fatigue, fracture, composite materials, combined stress, beam flexure, dynamic loads, buckling. Prereq> ME 306 or concurrent registration
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

M E 313 Manufacturing Processes Credits: 3
A quantitative and qualitative study of manufacturing processes including machining, forming; welding, and casting for metals; and extrusion, injection molding, thermoforming, and blow molding for plastics. Emphasis on process selection for optimum design. Laboratory experiments and demonstrations. Quality, strength, and economic evaluations. Prereq> MS&E 350 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

M E 314 Manufacturing Fundamentals Credits: 3
An introduction to techniques for modeling in materials processing and improving decision making in increasing the productivity of design and manufacturing processes. Quality improvement and engineering simulation tools are presented as well as the methods of engineering economy and the role of manufacturing automation and systems, through lectures and laboratories. Prereq> Stat 224 & ME 313 or cons inst
L&S Level: Intermediate  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

M E 321 Energy Conversion Technologies Credits: 3
This course reviews engineering economics and thermodynamics for use in analysis and understanding of energy consumption and production technologies which include: power plants, engines, renewables, residential heating, commercial energy usage, radioactivity, air/water/land pollution, environmental impacts and regulations in society. Prereq> Thermodynamics or HS physics & chem with basic knowledge of biology, or cons inst
Typically Offered: Occasionally

M E 331 Geometric Modeling for Engineering Applications Credits: 3
A junior level course introduces undergraduate engineering students to fundamental concepts in geometric modeling of engineering form, and computer-aided design of shapes, components, and assemblies. Lectures are reinforced by the laboratory experience where students operate modern commercial computer-aided design systems to model and to learn the basics of engineering communication, specification, and annotation. Prereq> ME 231 & Math 320& Comp Sci 302 & either ME 240 or EMA 202
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
ME 340 Introduction to Dynamic Systems Credits: 3
Mathematical modeling and analysis of dynamic systems with mechanical, thermal, and fluid elements. Topics: time domain solutions, analog computer simulation, linearization techniques, block diagram representation, numerical methods and frequency domain solutions. Prereq: Comp Sci 302, ME 240 or EMA 202 or equiv, Math 320
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 342 Design of Machine Elements Credits: 3
Analysis and design of machine elements and machines; loads, stresses, deflections, material selection, fatigue failure, finite elements; mechanical power transmission components including gearing, bearings, shafting, and frictional devices. Prereq: ME 306, 307 or EMA 307, and ME 331, 340
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ME 349 Engineering Design Projects Credits: 3
Applied engineering design projects. Emphasis on design of practical mechanical engineering systems, devices and/or components. Two 2-hr labs and one lecture per week. Lecture focuses on the design process, creativity, patents, and other applications to practical problems. Prereq: ME 314, 342 & 364
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ME 350 Advanced Graphic Analysis Credits: 3
Graphical construction of plane and space curves and surfaces. Advanced topics in descriptive geometry. Vector analysis in two and three dimensions. Transformation of axes for solids. Nomography as it applies to engineering problems. Graphical constructions useful for simulation and in solving engineering problems. Vehicle employed for graphics in the above material will be the microcomputer. Prereq: ME 331 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ME 351 Interdisciplinary Experiential Design Projects I Credits: 3
First of a two-course sequence in which students design and fabricate systems and devices, typically having an interdisciplinary aspect. In the first course, emphasis will be on project planning, team dynamics, problem identification, and conceptual design and evaluation. Prereq: Sr st in ME or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 352 Interdisciplinary Experiential Design Projects II Credits: 3
Second of a two-course sequence in which students design and fabricate systems and devices, typically having an interdisciplinary aspect. In the second course, emphasis will be on detailed design, fabrication, testing, and modification of concepts developed in the previous course. Prereq: ME 351 & Sr st in ME or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 361 Thermodynamics Credits: 3
First and second laws of thermodynamics; thermodynamic properties of gases, vapors, and gas-vapor mixtures; energy-systems analysis including power cycles, refrigeration cycles and air-conditioning processes. Introduction to thermodynamics of reacting mixtures. Prereq: Math 234 & Comp Sci 302, ME 240 or EMA 202, or equivalent
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 363 Fluid Dynamics Credits: 3
Laws of mechanics and thermodynamics applied to fluids at rest and in motion; potential flow; dimensional analysis; viscous flow; pipe flow; boundary-layer theory; compressible flow. Prereq: Math 320, ME 361 & Comp Sci 302 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 364 Elementary Heat Transfer Credits: 3
Fundamental concepts of conduction, convection, radiation. Heat-exchanger principles. Prereq: ME 363 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

ME 368 Engineering Measurements and Instrumentation Credits: 4
Theory of modern instrumentation, the design and execution of experiments and the analysis of experimental data. Laboratory provides direct experience with concepts in the context of experimental design for hypothesis testing, for product evaluation and for control system design. Prereq: ME 340, 361 & ECE 376
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring
M E 370 Energy Systems Laboratory Credits: 3
Experimental evaluation and analysis of performance of various energy conversion systems such as turbines, compressors, refrigerators, fans, and internal combustion engines. Prereq> ME 363, 368, & EPD 397
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

M E 379 Mechanical Dissection Credits: 1
Laboratory examination of the design of pumps, turbines, engines, heat-exchangers, household appliances, and other mechanical equipment. Operational design materials, manufacturing, failure and marketing considerations. Prereq> Sr st in mech engr or cons inst
Typically Offered: Fall, Spring

M E 409 Introductory Feedback Control Laboratory Credits: 4
Concepts in modern feedback control applied to hardware-based design problems. This lab gives students a wide range of conceptual and hardware experience, rather than focusing on specific applications. Weekly exercises consist of theory, design, simulation, testing, and data analysis. Prereq> ECE 332 or ECE 334 or ME 446 or ME 447
L&S Credit: No degree credit in L&S Typically Offered: Fall

M E 417 Introduction to Polymer Processing Credits: 3
Description of the physical, thermal, mechanical, and rheological properties of polymeric materials relevant to their processing behavior. Review of the basic transport phenomena equations: mass, momentum, and energy. Analysis of various processing operations for the manufacture of polymeric articles, with particular emphasis on: extrusion, injection molding, blow molding, thermoforming, and compression molding. Discussion of plastics recycling issues. Prereq> Sr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

M E 418 Engineering Design with Polymers Credits: 3
Implications for plastics part design of polymer classification, structure, melt rheology, mixing, polymer blends, anisotropy, solidification, mechanical behavior, failure. Plastics design for electrical, optical, acoustic and barrier properties. Prereq> Sr st or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer

M E 419 Fundamentals of Injection Molding Credits: 3
All major aspects of injection molding with emphases on design, processing, process physics, computer-aided engineering (CAE), troubleshooting, and advanced molding processes. Field trip, video presentation, case studies, term project with oral presentation, and hands-on sessions using commercial CAE simulation software. Prereq> Sr or Grad st
Typically Offered: Occasionally

M E 420 Introduction to Polymer Composites Processing Credits: 3
A brief description of the physical, thermal, rheological and mechanical properties of composite materials. Apply fundamental transport phenomena concepts to solve problems dealing with flow through porous media, fiber orientation, curing reactions, shrinkage and warpage and mechanics of composites. Introduction of various processing operations for the manufacture of composites products, with particular emphasis on resin transfer molding, vacuum assisted resin infusion, injection and compression molding, filament winding, braiding and pultrusion. The course includes laboratory experiments, CAE applied to composites product design, and a final group project producing a composites product. Pr
L&S Credit: No degree credit in L&S Typically Offered: Spring, Summer

M E 424 Statistical Experimental Design Credits: 3
This course provides a systematic introduction to statistical design and analysis of experiments. Topics include: principles of randomization, blocking and replication, randomized blocking designs, Latin square designs, full factorial and fractional factorial designs and response surface methodology. Substantial focus will be devoted to engineering applications. Prereq> An introductory statistics course (Stat 224 or Stat 301 or Stat 302 or Stat 324 or Stat 371)
L&S Breadth: Natural Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

M E 425 Undergraduate Rheology Seminar Credits: 0 - 1
Rheology seminar course encouraged for all interested in professions related to polymers, suspensions or rheology; will not count toward credit requirement of the major. Prereq> Cons inst or Jr st
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring
M E 426 Reliability Credits: 3
Engineering reliability, analysis of failure data, estimates of hazard rates and failure distributions for the reliability of components and/or systems, acceptance sampling plans for quality control. Prereq> Stat 224 or cons inst
L&S Breadth: Natural Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

M E 428 Numerical Control Credits: 3
Principles of numerical control systems, design considerations, manual and computer-aided programming exercises, economic aspects, and related laboratory experiments on numerically controlled machine tools. Prereq> Sr st in engr or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 429 Metal Cutting Credits: 3
Theory and applications of metal cutting; basic principles; significant features of current research. Chip formation mechanics, three-dimensional machining operations, tool life and machinability, economics of metal removal, and precision engineering. Prereq> Sr st in engr or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M E 435 Joining of Materials: Structural, Electronic, Bio and Nano Materials Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 437 Advanced Welding Processes and Materials Selection Credits: 3
Analysis of industrial welding problems. Material and process description and selection. Corrosion control and fracture prevention, hydrogen damage, hot cracking, weld defects and prevention, automatic control of welding processes. Prereq> ME 313 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 439 Introduction to Robotics Credits: 3
A system engineering approach to robotic science and technology. Fundamentals of manipulators, sensors, actuators, end effectors and product design for automation. Kinematics, control, and programming of manipulators, along with introduction to pattern recognition and computer vision. Prereq> ME 340 or ECE 332 or equiv & familiarity with a high level programming language such as Pascal, C, or Matlab
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 440 Intermediate Vibrations Credits: 3
Harmonic motion; natural frequencies and vibration of damped and undamped single and multi-degree of freedom systems; modal analysis; influence coefficients; lumped-mass modeling; dynamic load factors; Rayleigh's method; flow-induced vibrations; shaft whirl; balancing; vibration absorbers and tuned mass dampers; finite element modeling. Prereq> ME 306, ME 340
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 441 Rheology of Foods and Biomaterials Credits: 3
Fundamentals of rheology and rheological evaluations of food and biomaterials; structure-function relationships. Prereq> Physics 201 or CBE 320 or ME 363 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 443 Design and Analysis of Rotating Machinery Credits: 3
Some important mechanical problems found in turbines and other high-speed rotating machinery, such as: steady stresses from centrifugal forces; vibration problems; and dynamic instability of high-speed rotors. Mathematical techniques readily adaptable to computer solution. Prereq> ME 340 & 342 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 444 Design Problems in Elasticity Credits: 3
Analysis of elastic systems by strain-energy techniques. Determination of stresses and deflections in statically indeterminate structures encountered in design. Resilience in springs. Prereq> ME 342 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
ME 445 Mechatronics in Control & Product Realization Credits: 3
The course will cover fundamentals of electromechanical control systems with a focus on subsystem design impacts at the system level. Students will learn how to integrate microcontrollers into products for control and/or instrumentation and learn how to create intelligent interfaces. * Motor & sensor interfaces * C programming * Control computer system architecture * Software and hardware principles for computer control The following experience would be extremely advantageous to have coming in but in not assumed: Experience designing/fabricating/debugging digital circuits and active/passive analog circuits. Experience in any function based programming language (Matlab/Python/Java/C/C++). Exp Typically Offered: Fall

ME 446 Automatic Controls Credits: 3
Sequencing control. Theory of linear feedback control systems with illustrative examples taken from applications encountered by mechanical engineers; differential equations for defining dynamic system response, Laplace transforms, and transient and frequency response concepts. Prereq> ME 340 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

ME 447 Computer Control of Machines and Processes Credits: 3
Discrete control theory reduced to engineering practice through a comprehensive study of discrete system modeling, system identification and digital controller design. Selected industrial processes and machines utilized as subjects on which computer control is to be implemented. Focus: computer control economics and planning as well as the control theory and programming. Prereq> ME 340 or equiv or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

ME 448 Mechanical Systems Analysis Credits: 3
Integrated treatment of mathematical modeling and analysis of mechanical systems. Modeling of linear and nonlinear systems and their performance under transient, periodic and random loads. Prereq> Sr or Grad st in engr or phys sci
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ME 449 Redesign and Prototype Fabrication Credits: 3
The focal point of all lectures and labs is a semester long project. Lectures cover principals of design, manufacturing and prototype evaluation. Students will perform a re-design of a thermo-mechanical device using knowledge/skills acquired both through this course and previous course offerings in thermal sciences, mechanics and dynamics, manufacturing, and design. The lab component provides students with instruction and hands-on experience using the manufacturing tools/processes available in the College of Engineering. In addition, during the lab the students will apply the concepts of the lectures to the fabrication of the semester project. Each student constructs his or her own device du
L&S Credit: No degree credit in L&S Typically Offered: Spring

ME 450 Design and Dynamics of Vehicles Credits: 3
Dynamic modelling of vehicles, tire mechanics, suspension kinematics, vehicle stability, vehicle structural design criteria, vehicle vibrations and ride criteria, design considerations for vehicles. Prereq> ME 340 or equiv, Comp Sci 310 or equiv, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ME 451 Kinematics and Dynamics of Machine Systems Credits: 3
Graphical, analytical, and computer methods for the kinematic and dynamic analysis of mechanical linkages, mechanisms, and geared and cam systems. Prereq> ME 240 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

ME 452 Advanced Mechanics of Machinery Credits: 3
Concepts, principles, procedures, and theories in advanced machine design. Combined stress failure theories, design with dynamic loading including impact and fatigue, and special topics in machine element design. Prereq> ME 342 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

ME 461 Thermal Systems Modeling Credits: 3
Analysis and design of engineering systems involving applications of thermodynamics, economics, heat transfer, and fluid flow. Prereq> ME 364 or equiv or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally
M E 462 Welding Metallurgy Credits: 3
Metallurgical principles applied to welding; mechanisms of strengthening, phase equilibria, and microstructure of the weld zone. Modern processes including laser and electron beam welding. Prereq> MS&E 370 or ME 313 and MS&E 350 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 466 Air Pollution Effects, Measurements and Control Credits: 3
Overview of human health and environmental effects, and legislation regarding air pollution. Atmospheric transport and transformation of air pollutants. Emissions of air pollutants from power plants, transportation and industrial sources. Control technology for particulate and gaseous emissions. Monitoring and measurement of air pollutants. Application to boilers, engines, industrial processes and solid waste-to-energy technology. Prereq> Senior standing in engr or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 467 Refrigeration Credits: 3
Analysis, design, performance prediction of vapor-compression and absorption refrigeration components and systems; applications to heat pumps and cryogenics. Prereq> ME 361 or equiv & ME 364 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 469 Internal Combustion Engines Credits: 3
Fundamental principles of engine operation and application including cycle analysis, gas analysis, effect of operating conditions and engine design on air pollution. Prereq> ME 361 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M E 470 Optical Applications in Mechanical Engineering Credits: 3
Review of geometric optics; lasers; optical measurement system and design; laser material processing system and design; introduction to fiber optic delivery and detection. Prereq> Physics 202
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 471 Gas Turbines and Jet Propulsion Credits: 3
Principles of thermodynamics and fluid dynamics utilized in the analysis and design of gas-turbine cycles, components and systems for stationary, automotive and aircraft applications. Prereq> ME 363 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 475 Engineering Principles of Agricultural Machinery Credits: 3
Engineering design principles of machines for the production, processing and handling of crops for food, fuel, biomass and fiber. Environmental and biological factors that influence machine design and operation. Economic and capacity analysis of machines and systems. Prereq> EMA 202 or ME 240, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M E 476 Engineering Principles of Off-Road Vehicles Credits: 3
Engineering design principles of heavy-duty vehicles intended for off-road use: fuels, engine cycles, engine principles and construction, clutches, mechanical and hydrostatic transmissions, final drives, traction systems, traction modeling, dynamic behavior, suspension systems and braking. Prereq> ME 361, EMA 202 or ME 240 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 489 Honors in Research Credits: 1 - 3
Undergraduate honors research projects supervised by faculty members. Prereq> Admission to mech engr honors in research prgm
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

M E 491 Mechanical Engineering Projects I Credits: 1 - 3
Individual lab projects under staff supervision. Prereq> Dept approval
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

M E 492 Mechanical Engineering Projects II Credits: 1 - 3
Continuation of 491
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
M E 508 Composite Materials Credits: 3
Physical properties and mechanical behavior of polymer, metal, ceramic, cementitious, cellulosic and biological composite systems; micro- and macro-mechanics; lamination and strength analyses; static and transient loading; fabrication; recycling; design; analytical-experimental correlation; applications. Prereq> ME 342 or ME 444 or ME/EMA 570 or EMA 506 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Spring

M E 510 Facilities Planning Credits: 3
Introduction to plant location theory and analysis of models of plant location; models for determining plant size and time phasing; line balancing models; techniques for investigating conveyor and other material handling problems; and models of plant layout. Prereq> IE 315, 323, 349 or cons inst
L&S Credit: No degree credit in L&S

M E 512 Inspection, Quality Control and Reliability Credits: 3
Introduction to reliability models and acceptance testing. Prereq> Stat 224
L&S Credit: No degree credit in L&S Typically Offered: Spring

M E 513 Analysis of Capital Investments Credits: 3
A second course in quantitative methods for analyzing capital investments in technological environments, both public and private. Replacement models; comparison of alternative investment models; risk analysis; case studies. Prereq> Ind Engr 313, Ind Engr 323, Stat 311
L&S Credit: No degree credit in L&S Typicaly Offered: Fall

M E 514 Additive Manufacturing Credits: 3
Rapid prototyping (RP) has emerged as a popular manufacturing technology to accelerate product creation. This novel manufacturing technology enables the building of parts that have traditionally been impossible to fabricate because of their complex shapes and the variety in materials. Prereq> ME 313 or consent of instructor
L&S Credit: No degree credit in L&S

M E 520 Two-Phase Flow and Heat Transfer Credits: 3
Two-phase flow and heat transfer in engineering systems. Pool boiling and flow boiling, Phenomenological modeling. Prereq> ME 361 or Ch E 310 or equiv, Ch E 320 or ME 364 or equiv
L&S Credit: No degree credit in L&S

M E 525 Macromolecular Hydrodynamics Credits: 3
Observed phenomena in polymeric flow systems. Techniques of viscometry and viscoelastic measurements for polymeric fluids. Rheological models. Analytical solutions to flow problems: non-Newtonian viscosity, linear viscoelasticity, normal stresses, recoil, stress relaxation, etc. Dimensional analysis. Unit operations of the polymer industry: extrusion, blow molding, injection molding, mixing. Prereq> CBE 320 or ME 363 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M E 532 Theory and Applications of Pattern Recognition Credits: 3
Pattern recognition systems and components; decision theories and classification; discriminant functions; supervised and unsupervised training; clustering; feature extraction and dimensional reduction; sequential and hierarchical classification; applications of training, feature extraction, and decision rules to engineering problems. Prereq> ECE 331 or Math 431 or cons inst
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

M E 535 Computer-Aided Geometric Design Credits: 3
This course is designed to acquaint the student with computer-aided design technology used for geometric design of mechanical product. Currently used methods of creating three-dimensional computer-aided design (CAD) models will be discussed. The papadigms of three-dimensional wire-frame modeling, surface modeling and solids modeling as applied in product design will be taught. The course will be project oriented and will emphasize building and querying CAD models. Prereq> ME 232 or equiv, progrmg backgrnd & Sr or Grad st, or cons inst
Typically Offered: Fall
M E 539 Introduction to Artificial Neural Network and Fuzzy Systems Credits: 3
Theory and applications of artificial neural networks and fuzzy logic: multi-layer perceptron, self-organization map, radial basis network, Hopfield network, recurrent network, fuzzy set theory, fuzzy logic control, adaptive fuzzy neural network, genetic algorithm, and evolution computing. Applications to control, pattern recognition, nonlinear system modeling, speech and image processing. Prereq> Comp Sci 302, or Comp Sci 310, or knowledge of C programming lang
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

M E 540 Experimental Vibration and Dynamic System Analysis Credits: 3
Application of digital data acquisition to the investigation of mechanical components, structures and systems using time histories, transforms and response functions to characterize free, forced and transient inputs. Introduction to sensors, instrumentation and methods appropriate for dynamic system response. Prereq> ME 340 or ME 440 or EMA 545 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 545 Fluid Power Credits: 3
Generation, transmission, and utilization of power in systems in which the working fluid is oil or air; analysis and evaluation of pumps, motors, valves, and other fluid components; dynamic analysis and control of fluid power systems. Prereq> ME 340 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 549 Product Design Credits: 3
A project oriented, interdisciplinary course with an emphasis on designing competitive, quality products. The product development process is covered from problem identification through detail design and evaluation. Included among the topics covered are: idea generation and evaluation, visualization, and quality. Prereq> Sr or Grad st in engr or Grad st in other college or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M E 552 Energy Methods in Mechanics Credits: 3
Variational principles of mechanics, virtual displacements, minimum potential energy; Hamilton's principle and Lagrange equations. Applications include stress analysis, elastic stability, dynamics and vibrations of rigid and elastic systems. Prereq> Senior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 556 Engineering Acoustics and Noise Control Credits: 3
Fundamentals and applications of engineering acoustics including design criteria based on human response. Special emphasis is placed on the study of machinery noise and noise control techniques. Prereq> ME 340 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

M E 558 Introduction to Computational Geometry Credits: 3
Introduction to fundamental geometric computations and algorithms, and their use for solving engineering and scientific problems. Computer representations of simple geometric objects and paradigms for algorithm design. Applications from areas of engineering analysis, design and manufacturing, biology, statistics, and other sciences. Prereq> Comp Sci 367 or equiv, Math 223 or equiv, or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

M E 561 Intermediate Thermodynamics Credits: 3
Fundamentals; phase and chemical equilibria; availability; thermodynamic relationships. Prereq> ME 364 or equivalent or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

M E 563 Intermediate Fluid Dynamics Credits: 3
Incompressible and compressible, laminar and turbulent flow of fluids. Classical and finite-difference analysis using differential and integral formulation of the continuity, momentum and energy equations. Application to ducts, plates, spheres, blades, pumps, turbines, lubrication, shockwaves, nozzles, diffusers and other mechanical engineering equipment. Prereq> ME 363 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

M E 564 Heat Transfer Credits: 3
Applications of conduction, convection, and thermal-radiation principles to combined-mode problems; analytical and numerical techniques; heat-exchanger design; thermal stresses. Prereq> ME 364 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring
ME 565 Power Plant Technology Credits: 3
Design and performance of power plants for the generation of electric power; fossil and nuclear fuels, cycle analysis, component design and performance, plant operation, control, economics and environmental impact. Advanced concepts. Prereq: ME 361 or consent of instructor
L&S Breadth: Physical Science L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

ME 566 Cryogenics Credits: 3
Applications of cryogenics, material properties at low temperatures, refrigeration and liquifaction systems, measurement techniques, insulation, storage and transfer of cryogenics, safety and handling. Prereq: ME 361 or Physics 415, ChE 320 or ME 364
Typically Offered: Occasionally

ME 567 Solar Energy Technology Credits: 3
Radiant energy transfer and its application to solar exchangers; energy balances for solar exchangers, review of theory, economics, and practice of solar energy applications. Prereq: ME 364 or CBE 326 or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall

ME 569 Applied Combustion Credits: 3
Introduction to and analysis of combustion processes and combustion technology for gaseous, liquid, and solid fuels. Application to combustion engines, furnaces, fixed-bed, fluidized-bed, and suspension burning boilers. Prereq: ME 364 or equiv
L&S Credit: No degree credit in L&S Typically Offered: Fall

ME 570 Experimental Mechanics Credits: 3
Experimental methods for design and analysis of mechanical components, structures and materials. Electrically and optically recorded stress, strain and deformation data; computer acquisition/reduction/presentat techniques; applications to static and transient events, sensors, transducer design, NDT, fracture and residual stresses. Prereq: ME 306 or EMA 214 or 303 or 304 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

ME 572 Intermediate Gas Dynamics Credits: 3
Thermodynamics and fluid dynamics of compressible gas flows with friction and heat transfer, and application to nozzles, shock tubes and propulsion devises. Wave phenomena and engine port tuning. Physics of high temperature gases and equilibrium, non-equilibrium and frozen flows. Prereq: ME 363 or equiv or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 573 Computational Fluid Dynamics Credits: 3
Course provides an in-depth introduction to the methods and analysis techniques used in computational solutions of fluid mechanics and heat transfer problems. Model problems are used to study the interaction of physical processes and numerical techniques. Contemporary methods for boundary layers, incompressible viscous flows, and inviscid compressible flows are studied. Finite differences and finite volume techniques are emphasized. Prereq: ME 363, Comp Sci 310 or 412 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 577 Automatic Controls Laboratory Credits: 4
Control theory is reduced to engineering practice through the analysis and design of actual systems in the laboratory. Experiments are conducted with modern servo systems using both analog and digital control. Systems identification and modern controls design are applied to motion and torque control. Prereq: ME 446 & 447 or ECE 332 & 416 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ME 601 Special Topics in Mechanical Engineering Credits: 1 - 3
Such as vibrations, balancing, lubrication and wear, special manufacturing processes, automation, energy systems, etc. Prereq: Senior standing & consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring, Summer
ME 603 Topics in Bio-Medical Engineering Credits: 1 - 3
Various aspects of living systems of interest to the mechanical engineer, such as the mechanics of hearing and vision, cardiac and central nervous systems, artificial organs, blood flow behavior, and energy-transfer processes. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ME 641 Design and Analysis of Manufacturing Systems Credits: 3
Covers a broad range of techniques and tools relevant to the design, analysis, development, implementation, operation and control of modern manufacturing systems. A significant portion of the coursework involves a group project with industry. This course also serves as the capstone course for the MSMSE degree. Prereq> Grads: MSE major or cons inst; Undergrads: IE 315 or 605, & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ME 643 Performance Analysis of Manufacturing Systems Credits: 3
This course examines the state of the art in the use of stochastic network theory to develop performance models of modern manufacturing systems. Prereq> ISyE 624 or ISyE 632, Comp Sci 302 or Comp Sci 367 or Graduate standing
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

ME 699 Advanced Independent Study Credits: 1 - 3
Prereq> Approval of Mech Engr dept comm
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ME 702 Graduate Cooperative Education Program Credits: 1 - 2
Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students.
Typically Offered: Occasionally

ME 706 Plates, Shells and Pressure Vessels Credits: 3
Stress and deflection analysis of structural plates and membranes under mechanical and thermal loads; variational and numerical methods; instability and vibrations; membrane shell theory; cylindrical shells; pressure vessel and piping design applications; ASME Pressure Vessel Code. Prereq> ME 444 or EMA 506 or cons inst
Typically Offered: Occasionally

ME 708 Advanced Composite Materials Credits: 3
Contemporary topics such as new materials; smart materials/structures/systems; fatigue; fracture; experimental techniques; nondestructive evaluation; transient, micro, three-dimensional, nonlinear, inelastic and environmental effects; manufacturing methods: repair and applications. Prereq> ME/EMA 508 or cons inst
Typically Offered: Occasionally

ME 710 Photomechanics Credits: 3
Photoelasticity, holography, speckle interferometry, moire and high-speed photography. Two- and three-dimensional applications involving static, dynamic and thermal loadings, including inelastic and anisotropic materials. Prereq> ME/EMA 570 or ME 444 or EMA 506 or cons inst
Typically Offered: Occasionally

ME 714 Advanced Materials Processing and Manufacturing Credits: 3
Discusses the systematic integration of processing-material-performance relationships in various advanced materials processing and manufacturing processes. Prereq> ME 313 or cons inst
Typically Offered: Occasionally

ME 717 Advanced Polymer Processing Credits: 3
Advanced analysis and modeling of plastics extrusion, injection molding, and other processes; mold and equipment design; materials consideration. Prereq> ME 417 or equiv or cons inst
Typically Offered: Occasionally

ME 718 Modeling and Simulation in Polymer Processing Credits: 3
This course is designed to acquaint the student with computer simulation technology used for the engineering of polymer processes. Prereq> ME 417 or equiv or cons inst
Typically Offered: Occasionally
M E 720 Advanced Powder Processing and Particulate Engineering  Credits: 3
Advanced analysis of manufacturing processes involving powder materials, including metals, polymers, ceramics, and pharmaceuticals; powder metallurgy; ceramics processing; micromeritics, including particle size and shape analysis, surface characterization, and bulk powder behavior. Prereq> ME/M&ME 420 or equiv or cons inst
Typically Offered: Occasionally

M E 722 Introduction to Polymer Rheology  Credits: 3
Formulation of constitutive equations using embedded base vectors. Viscosity, normal stress differences, stress relaxation, elastic recoil. Polymer rheology; homogeneous strain history. Prereq> Math 320 or cons inst
Typically Offered: Occasionally

M E 735 Computer Integrated Concurrent Design  Credits: 3
This course is designed to acquaint the student with concurrent design methods and analysis techniques as applied to computer-aided design models of artifacts. The role of design and manufacturing features in CAD systems will be discussed. The methods for mapping/extracting manufacturing features from design features for performing manufacturability assessment, die-design and disassembly evaluation of designs will be taught. Prereq> ME 232 & ME 313 or equiv, progrm background
Typically Offered: Occasionally

M E 739 Advanced Automation and Robotics  Credits: 3
In-depth study of advanced automation concepts and of robotic manipulators. Topics including kinematics, trajectories, dynamic control and programming of robots along with concepts of flexible manufacturing and assembly operations. Prereq> ME 446 or ECE 332 or equiv; Math 320 or 340; proficiency in high level programming such as Fortran or Pascal, or cons inst
Typically Offered: Occasionally

M E 740 Advanced Vibrations  Credits: 3
Vibration of mechanical components subject to dynamic loads; analytical, numerical and finite element methods applied to the analysis and design of mechanical systems consisting of cables, bars, shafts, beams, frames, rings, membranes, plates and shells. Prereq> ME 440 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

M E 746 Dynamics of Controlled Systems  Credits: 3
Emphasis on obtaining equations which define the behavior of physical systems frequently subjected to control; mechanical processing, fluid power, and thermal systems; analytical, experimental, and computer techniques. Prereq> ME 446 & 447, or cons inst
Typically Offered: Occasionally

M E 747 Advanced Computer Control of Machines and Processes  Credits: 3
Digital control theory, design methodology, and techniques for controller implementation on digital computers. Advanced single and multi-axis motion generation on algorithms. Multiple processor control systems. Multiple objective control systems for machinery guidance and manufacturing processes. Precision control. Prereq> ME 446 & 447, or ECE 516, or cons inst
Typically Offered: Occasionally

M E 748 Optimum Design of Mechanical Elements and Systems  Credits: 3
Formulation and solution of mechanical design problems by use of mathematical programming methods. Prereq> Cons inst
Typically Offered: Occasionally

M E 751 Matrix Methods in the Design and Analysis of Mechanisms  Credits: 3
Typically Offered: Occasionally

M E 753 Friction, Lubrication and Wear  Credits: 3
Behavior of frictional surfaces under different types of loading. Mechanisms of heat generation and surface damage (wear, scuffing, pitting, fretting, etc.). Rheological effects. Effect of lubrication. Surface interaction in metal cutting. Design considerations. Prereq> Cons inst
Typically Offered: Occasionally
M E 758 Solid Modeling Credits: 3
Mathematical modeling, computer representations, and algorithms for manipulation of two- and three-dimensional solid objects on a computer. Applications of solid modeling to design, representation, and analysis of mechanical parts and processes; other engineering and scientific applications of solid modeling. Prereq> Comp Sci 367 or equiv, Math 340 or equiv, or cons inst
Typically Offered: Occasionally

M E 759 High Performance Computing for Applications in Engineering Credits: 3
An overview of hardware and software solutions that enable the use of advanced computing in tackling computationally intensive Engineering problems. Hands-on learning promoted through programming assignments that leverage emerging hardware architectures and use parallel computing programming languages. Prereq> COMP SCI 302 or COMP SCI 368
Typically Offered: Fall

M E 761 Topics in Thermodynamics Credits: 3
Thermostatic behavior of nonideal gases; equations of state, with emphasis on their empirical and statistical development, including mixture rules; more detailed study of chemical and phase equilibrium; selected applications of the foregoing; real gas processes, combustion, direct energy conversion devices. Prereq> ME 561 or cons inst
Typically Offered: Occasionally

M E 764 Advanced Heat Transfer I-Conduction Credits: 3
Analytical methods in conduction; Bessel functions, separation of variables, Laplace transforms, superposition, oscillating solutions; computer methods; finite differences, finite elements. Prereq> ME 564 or cons inst
Typically Offered: Occasionally

M E 765 Advanced Heat Transfer II-Convection Credits: 3
Convection and mass-transfer principles, including boundary-layer phenomena in laminar and turbulent flow; internal flows; heat transfer in high-velocity flow, numerical methods. Prereq> ME 564 or cons inst
Typically Offered: Occasionally

M E 766 Advanced Heat Transfer III Radiation Credits: 3
Analysis, including the nature of thermal radiation; radiative characteristics of surfaces; radiative heat transfer in evacuated enclosures and in enclosures containing an absorbing and emitting or a scattering medium. Techniques for obtaining solution to the governing integral equations; lumped-system approximation, successive approximations, variational methods and quadratures. Prereq> ME 564 or cons inst
Typically Offered: Occasionally

M E 769 Combustion Processes Credits: 3
Combustion theory and practice. Thermodynamics of combustion, flame theory, detonation, spray and droplet combustion related to various engine applications. Prereq> ME 561 or cons inst
Typically Offered: Occasionally

M E 770 Advanced Experimental Instrumentation Credits: 3
Theory and design of instruments for transient physical phenomena especially related to internal combustion engines. Prereq> Cons inst & basic electron course
Typically Offered: Occasionally

M E 772 Advanced Gas Dynamics Credits: 3
One-dimensional unsteady flows, including analysis of unsteady interactions in time-distance and pressure-velocity planes; plane detonation waves; steady two-dimensional flows, including subsonic similarity rules, supersonic turning processes, method of characteristics, oblique and bow shocks; a related topic chosen by the class. Prereq> ME 572 or cons inst
Typically Offered: Occasionally

M E 773 Boundary Layer Theory Credits: 3
Concepts of laminar and turbulent flow. Boundary-layer approximations. Similarity and integral methods of solution. Internal flows, flow over surfaces, jets, rotating elements, and the effects of compressibility. Prereq> ME 563 or Ch E 320 or equiv or cons inst
Typically Offered: Occasionally
M E 774 Chem Kinetics of Combust Systems Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

M E 775 Turbulent Heat and Momentum Transfer Credits: 3
Stochastic methods in turbulent heat and momentum transfer; fully developed turbulence; numerical methods including model applications to boundary layers, reacting flows, mass transfer, and unsteady flows; linear and non-linear stability and transition; emphasis on applications of interest to Mechanical Engineers. Prereq> ME 563 or equiv
Typically Offered: Occasionally

M E 780 Robot Motion Planning Credits: 3
A unified view on geometric, algorithmic, and computational issues of automatic planning of motion for mobile robots and arm manipulators in a complex environment. Planning with complete information--configuration space, connectivity graphs, computational complexity; with partial information--algorithm convergence, topological issues. Effect of system kinematics. Relation between sensing media and algorithm efficiency. Prereq> Math 340 or equiv, & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

M E 790 Master's Research and Thesis Credits: 1 - 9
Prereq> Grad st; Master's candidates only
Typically Offered: Occasionally

M E 806 Mechanical Instability Credits: 3
Combined axial and lateral loading of beams; buckling of columns, frames, rings and tubes; flexural-torsional instability of beams; snap buckling of arches; buckling of thin circular and rectangular plates; cylindrical shell instability; numerical methods. Prereq> ME 444 or EMA 506 or cons inst
Typically Offered: Occasionally

M E 825 Molecular Network Theories for Polymeric Materials Credits: 3
Typically Offered: Occasionally

M E 851 Advanced Topics in Kinematics Credits: 3
Transformation geometry and spatial kinematics. Introduction to algebraic and differential geometries with applications in kinematics. Three-dimensional synthesis theories in kinematics. A study of unsolved problems in kinematics. Prereq> Math 340 or equiv, ME 451, and cons inst
Typically Offered: Occasionally

M E 850 PhD Research and Thesis Credits: 1 - 9
Prereq> Grad st, for post-master's PhD candidates who have not attained dissertator status
Typically Offered: Occasionally

M E 903 Graduate Seminar Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally

M E 922 General Tensor Analysis and Rheology Credits: 3
Typically Offered: Occasionally

M E 925 Rheology Research Seminar Credits: 0 - 1
Exploration of the most recent research literature on viscoelasticity, constitutive equations, non-Newtonian flow systems, fluid metering devices, kinetic theory of macromolecules, and rheooptical phenomena. Periodic reports on recent advances made by research workers in the various rheology groups on the Madison campus.
Typically Offered: Occasionally
M E 964 Special Advanced Topics in Mechanical Engineering Credits: 1 - 3
Advanced topics in design, manufacturing, energy, etc. Prereq> Cons inst
Typically Offered: Occasionally

M E 990 Dissertator Research and Thesis Credits: 1 - 9
Prereq> Dissertator status
Typically Offered: Occasionally

M E 999 Advanced Independent Study Credits: 1 - 5
Prereq> Dept approval
Typically Offered: Occasionally

NUCLEAR ENGINEERING

N E 1 Cooperative Education Program Credits: 1
Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

N E 231 Survey of Nuclear Engineering Credits: 1
Consideration of work done by nuclear engineers; relevance of nuclear energy to society; environmental and other problems. Open to all students. Offered on a pass-fail basis only. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Spring

N E 234 Principles and Practice of Nuclear Reactor Operations Credits: 4
This course presents the theoretical and practical information required to understand operation of nuclear reactors. The course content includes all subjects which must be known by a person seeking an operating license for the university reactor. Instructors integrate information on similar operations and systems in a nuclear power plant. Prereq> Consent of instructor. Open to Freshmen
L&S Credit: No degree credit in L&S  Typically Offered: Fall

N E 305 Fundamentals of Nuclear Engineering Credits: 3
Properties of nuclei, nuclear structure, radioactivity, nuclear reactions, fission, resonance reactions, moderation of neutrons. Prereq> Physics 241 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

N E 321 Energy Conversion Technologies Credits: 3
This course reviews engineering economics and thermodynamics for use in analysis and understanding of energy consumption and production technologies which include: power plants, engines, renewables, residential heating, commercial energy usage, radioactivity, air/water/land pollution, environmental impacts and regulations in society. Prereq> Thermodynamics or HS physics & chem with basic knowledge of biology, or cons inst
Typically Offered: Occasionally

N E 373 Nuclear Energy and the Environment Credits: 3
Fission and fusion processes, nuclear reactors, power plants, radioactivity, biological effects, radiation and thermal releases, governmental regulations' impact on society. Prereq> HS physics or chem; knowledge of basic biology or consent of instructor; not open to NEEP stdts
L&S Breadth: Natural Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

N E 405 Nuclear Reactor Theory Credits: 3
The neutronics behavior of fission reactors, primarily from a theoretical, one-speed perspective. Criticality, fission product poisoning, reactivity control, reactor stability and introductory concepts in fuel management, followed by slowing down and one-speed diffusion theory. Prereq> NEEP 305, Math 319 & 321
L&S Breadth: Physical Science  L&S Credit: Counts for LAS credit  Typically Offered: Spring

N E 406 Nuclear Reactor Analysis Credits: 3
The neutronics behavior of fission reactors, both from a theoretical and computational multi-group perspective. Multi-group diffusion theory, finite-difference and nodal methods, core heterogeneous effects, pin power reconstruction, thermal neutron spectra, fine group whole spectrum calculations and coarse group constant generation. Prereq> NEEP 405
L&S Credit: No degree credit in L&S  Typically Offered: Fall
N E 408 Ionizing Radiation Credits: 3
Sources, interactions, and detection of ionizing radiation. Biological effects, shielding, standards of radiation protection. Prereq> NEEP 305 or consent of instructor
L&S Breadth: Physical Science  L&S Credit: Counts for LAS credit  Typically Offered: Spring

N E 411 Nuclear Reactor Engineering Credits: 3
Reactor heat generation and removal; steady- and unsteady-state conduction in reactor elements; single phase, two-phase, and liquid metal cooling, core thermal design. Prereq> NEEP 305, ME 361, ChE 320 or ME 364
L&S Credit: No degree credit in L&S  Typically Offered: Fall

N E 412 Nuclear Reactor Design Credits: 3 - 5
Reactor design projects, reactor hazards, economics. Prereq> NEEP 405, 411, Comp Sci 302 or NEEP 271
L&S Credit: No degree credit in L&S  Typically Offered: Spring, Summer

N E 423 Nuclear Engineering Materials Credits: 3
Fundamentals of fuel and cladding behavior in terms of thermal properties, chemical behavior and radiation damage. Prereq> MS&E 350 or 351
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

N E 424 Nuclear Materials Laboratory Credits: 1
Practical application of materials issues for nuclear systems including welding, non-destructive examination, optical microscopy, electron microscopy, to understand radiation damage and corrosion. Prereq> M S & E 350, N E 423 and/or N E 541 recommended
L&S Credit: No degree credit in L&S  Typically Offered: Fall

N E 427 Nuclear Instrumentation Laboratory Credits: 2
Experiments on nuclear instrumentation, counting, data analysis. One three-hour lab, one lecture per week. Prereq> NEEP 305 or Physics 741
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

N E 428 Nuclear Reactor Laboratory Credits: 2
Experiments on reactor operation, flux measurement, measurements of reactor parameters, using pool type reactor. One three-hour lab per week. Prereq> NEEP 405, 427
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

N E 433 Principles of Corrosion Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

N E 460 Uncertainty Analysis for Engineers Credits: 3
This course introduces undergraduates to approaches for quantifying uncertainty in engineering analyses. Both analytical and computational methods are demonstrated. Prereq> Statistics 311, Math 431, or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

N E 489 Honors in Research Credits: 1 - 3
Undergraduate research and senior honors thesis in nuclear engineering. Prereq> Honors candidacy in nuclear engineering
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

N E 506 Monte Carlo Radiation Transport Credits: 3
Use of Monte Carlo technique for applications in nuclear engineering and medical physics. Major theory of Monte Carlo neutral particle transport is discussed. Standard Monte Carlo transport software is used for exercises and projects. Major emphasis is on analysis of real-world problems. Prereq> NEEP 305 or equiv and one of NEEP 405, 408, Med Phys 501 or 569, or consent of instructor
L&S Breadth: Physical Science  L&S Credit: Counts for LAS credit  Typically Offered: Spring
N E 512 Fast Breeder Reactors  Credits: 3
Survey of physical, technical, and economic features of fast breeder reactors. Need for and design objectives, core design principles and plant systems. Discussion of major safety problems and design solutions. Prereq> NEEP 405, 411
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

N E 520 Two-Phase Flow and Heat Transfer  Credits: 3
Two-phase flow and heat transfer in engineering systems. Pool boiling and flow boiling. Phenomenological modeling. Prereq> ME 361 or Ch E 310 or equiv, Ch E 320 or ME 364 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Spring

N E 525 Introduction to Plasmas  Credits: 3
Basic description of plasmas: collective phenomena and sheaths, collisional processes, single particle motions, fluid models, equilibria, waves, electromagnetic properties, instabilities, and introduction to kinetic theory and nonlinear processes. Examples from fusion, astrophysical and materials processing processing plasmas. Prereq> One crse in electromagnetic fields beyond elem physics
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

N E 526 Laboratory Course in Plasmas  Credits: 3
Provides a background in the techniques for creating, exciting, and measuring the properties of lab plasmas and using the associated apparatus. Prereq> NEEP, Physics or ECE 525 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

N E 527 Plasma Confinement and Heating  Credits: 3
Principles of magnetic confinement and heating of plasmas for controlled thermonuclear fusion: magnetic field structures, single particle orbits, equilibrium, stability, collisions, transport, heating, modeling and diagnostics. Discussion of current leading confinement concepts: tokamaks, tandem mirrors, stellarators, reversed field pinches, etc. Prereq> NEEP/Phys/ECE 525 or equiv
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

N E 528 Plasma Processing and Technology  Credits: 3
Introduction to basic understanding and techniques. Plasma processing of materials for semiconductors, polymers, plasma spray coatings, ion implantation, etching, arcs, extractive metallurgy and welding. Plasma and materials diagnostics. Prereq> Physics 322 or ECE 320 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

N E 533 Resources From Space  Credits: 3
This is a course on the location, extraction, and use of resources that exist in space. These resources include raw materials for life support, structure, and energy. Prereq> Sr st, 1st-yr grads in engr or physical sci, or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

N E 536 Feasibility St of Power from Controlled Thermonuclear Fusion  Credits: 3
Introduction to the use and design of possible fusion reactors. Problems of the plasma confinement and energy density, neutronics of blanket design, and radiation damage. Prereq> NEEP 405, 411
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

N E 541 Radiation Damage in Metals  Credits: 3
A survey of the nature of point defects, how these defects are produced, how the defects migrate and cluster, and what effects point defects and defect clusters have on the physical and mechanical properties of metals. Prereq> MS&E 350 or 351
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

N E 550 Advanced Nuclear Power Engineering  Credits: 3
Analysis of nuclear systems for the production of useful power. Emphasis: thermodynamic cycles, reactor types, coupling of reactor and power plant, design synthesis, and plant economics. Prereq> NEEP 405 and 411
L&S Credit: No degree credit in L&S  Typically Offered: Fall

N E 555 Nuclear Reactor Dynamics  Credits: 3
Basic equations and physical parameters of point reactor kinetics without feedback effects; the nuclear reactor as a total system; reactor excursions, Fuchs-Nordheim and Bethe-Tait models; space-time reactor dynamics; synthesis methods. Prereq> NEEP 405
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
### NE 561 Introduction to Charged Particle Accelerators Credits: 3
Charged particle accelerators and transport systems, behavior of particles in magnetic fields, orbit theory, stability criteria, acceleration theory. Applications to different types of accelerators. Prereq> Math 322, EMA 202 or Physics 311, Physics 322 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

### NE 565 Power Plant Technology Credits: 3
Design and performance of power plants for the generation of electric power; fossil and nuclear fuels, cycle analysis, component design and performance, plant operation, control, economics and environmental impact. Advanced concepts. Prereq> ME 361 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

### NE 569 Health Physics and Biological Effects Credits: 3 - 4
Physical and biological aspects of the use of ionizing radiation in industrial and academic institutions; physical principles underlying shielding instrumentation, waste disposal; biological effects of low levels of ionizing radiation; lecture and lab. Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

### NE 571 Economic and Environmental Aspects of Nuclear Energy Credits: 3
Economics of the nuclear fuel cycle. Economic and environmental impact the nuclear fuel cycle. Impact on design, plant siting and regulation. Prereq> NEEP 405 & NEEP 411
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

### NE 574 Methods for Probabilistic Risk Analysis of Nuclear Power Plants Credits: 3
Methods for risk and reliability analysis of engineered systems, particularly as applied in the nuclear power industry. Fault trees and event trees; Bayesian data analysis, probabilistic risk management. Some familiarity with nuclear plant safety systems is helpful, but not required. Prereq> Stat 224
Typically Offered: Occasionally

### NE 602 Special Topics in Reactor Engineering Credits: 0 - 3
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

### NE 699 Advanced Independent Study Credits: 0 - 3
L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

### NE 705 Advanced Reactor Theory Credits: 3
The neutron transport equation and its application to the analysis of nuclear reactors. Numerical solution methods, including the multi-group model, one-group equations, energy-averaged constants, discrete ordinates, and Monte Carlo methods. Perturbation theory and variational techniques for practical problems. Prereq> NEEP 405
Typically Offered: Occasionally

### NE 708 Societal Risk Management of Technological Hazards Credits: 3
Issues involved in decision-making regarding technological risks and risk management in areas such as nuclear power, hazardous waste disposal, and pollution control. Risk perception and cognitive biases; risk analysis and decision analysis; political issues in risk management; regulatory mechanisms; and risk communication. Selected case studies. Prereq> Stat 311 or Math 431 or Soc 360, IE 516, & Grad st; or cons inst
Typically Offered: Occasionally

### NE 724 Waves and Instabilities in Plasmas Credits: 3
Waves in a cold plasma, wave-plasma interactions, waves in a hot plasma, Landau damping, cyclotron damping, magneto-hydrodynamic equilibria and instabilities, microinstabilities, introduction to nonlinear processes, and experimental applications. Prereq> NEEP/ECE/Physics 525 & Physics 721 or ECE 740 or cons inst
Typically Offered: Occasionally

### NE 725 Plasma Kinetic Theory and Radiation Processes Credits: 3
Coulomb Collisions, Boltzmann equation, Fokker-Planck methods, dynamical friction, neoclassical diffusion, collision operators radiation processes and experimental applications. Prereq> Physics, ECE, NEEP 525 & Physics 721 or ECE 740 or cons inst
Typically Offered: Occasionally

NE 990 Research and Thesis  Credits: 1 - 6
Prereq> Dissertator status
Typically Offered: Occasionally

NE 999 Advanced Independent Study  Credits: 1 - 3
Typically Offered: Occasionally

PROFESSIONAL ORIENTATION

PRO OR 200 Career Orientation  Credits: 1
Career planning; consideration of types of work in engineering; interviewing procedures and effective use of placement services; opportunities, division of work, and requirement for engineers in many fields. Prereq> 2nd sem Jr st or Sr st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring
CNSR SCI 111 Financial Life Skills for Undergraduates Credits: 1
Applied personal finance course to provide undergraduates in their first two years of college (freshman and sophomores) the knowledge and tools needed to successfully manage personal finances during their college years. Topics include financial values and behaviors, credit and student loans, housing, transportation, financial services, and spending and saving plans. Prereq: Enrollment in this course is limited to Freshman and Sophomore standing.
Typically Offered: Fall, Spring

CNSR SCI 173 Consuming Happiness Credits: 3
As the saying goes, money can't buy happiness -- but in modern America, we certainly try. This course will provide an overview of the study of happiness and well-being, examine how consumers engage in consumption in pursuit of happiness, as well as explore the emergence of the experience economy, and the intersection of money and well-being. Students will read academic and popular pieces on positive psychology, prosocial spending and explore the psychology of persuasion in the promises associated with this industry. In addition to integrating visual media, students will have the opportunity to experience first-hand whether the advice works in their own lives. Prereq: None
L&S Level: Elementary L&S Credit: Counts for LAS credit
Typically Offered: Fall

CNSR SCI 250 Retail Leadership Symposium Credits: 1
Provides detailed examination of careers in the retailing industry. High level industry experts from leading companies in the retailing industry participate as guest speakers and panel members. Prereq: Open to Fr
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring

CNSR SCI 251 Financial Services Leadership Symposium Credits: 1
Provides detailed examination of careers in the financial services industry. High level industry experts from leading companies in the financial services industry participate as guest speakers and panel members. Prereq: None
Typically Offered: Fall, Spring

CNSR SCI 275 Consumer Finance Credits: 3
An introduction to concepts and methods used in personal and family financial planning. Methods for planning and allocating resources to attain specific financial objectives are discussed. Topics include investments in real and financial assets, consumer credit issues, and insurance, pension, tax, and estate planning. Prereq: Open to Freshmen
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring

CNSR SCI 299 Independent Study Credits: 1 - 3
Prereq: Consent of instructor
L&S Credit: No degree credit in L&S
Typically Offered: Fall, Spring

CNSR SCI 350 Mediation: A Mechanism for Serving the Consumer Interest Credits: 3
Will examine the area of dispute resolution for consumer complaints mediated by consumer affairs professionals. Discussion of how mediation empowers the consumer interest; consumer complaint behavior, and areas of dispute in industry and government will be integral parts of this course. Prereq: Open to Fr
L&S Credit: No degree credit in L&S
Typically Offered: Fall

CNSR SCI 357 Retailing Theory and Practice Credits: 2
Retailing organization and policies, the operation of the buying and selling functions, merchandise control and basic retail mathematics. Prereq: So st or cons inst
L&S Credit: No degree credit in L&S
Typically Offered: Fall
CNSR SCI 360 Sustainable and Socially Just Consumption  Credits: 3
Examines how consumers influence sustainability and social justice through their purchases and how policy and globalization influence their choices. Students conduct original consumer research, and present their findings in an oral presentation and a research paper. Prereq> Open to Freshmen
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CNSR SCI 370 Computer Applications in Retailing  Credits: 3
Application of computer technology and analysis within the retailing environment. Topics include: merchandise inventory control and distribution, trend analysis and forecasting, electronic POS systems, credit authorization and control, store design and planning, and ethical issues. Prereq> Jr st, Cnsr Sci 357
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 470 History of Consumer Movements in the United States  Credits: 3
A survey of the historical interpretations and analyses of consumer activist efforts in the United States from the mid-nineteenth century to the late twentieth century. Prereq> So st
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CNSR SCI 475 Family Economics  Credits: 3
Analysis of the family as a unique economic unit in the changing American economy. Prereq> Econ 101
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CNSR SCI 477 The Consumer and the Market  Credits: 3
Analysis of the consumer's market, consumer's behavior, and government policies affecting the consumer in the American economy. Prereq> Econ 101
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 478 Consumer Information  Credits: 3
Analysis of information available to consumers; evaluation of its sources and its quality. Examination of consumers' and consumerists' efforts to obtain information and to influence information sources. Evaluation of consumers' performances in the marketplace under conditions of incomplete information. Prereq> Cnsr Sci 477
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CNSR SCI 501 Special Topics  Credits: 1 - 3
Prereq> Prerequisites vary by topic
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 503 Preparation for Retailing Internship  Credits: 1
Course prepares students for the competitive interviewing process required for retailing internship placement. Students research individual companies, analyze industry trends, and develop strategies for effective interviewing. Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CNSR SCI 527 Consumer Spending and Saving Over the Lifecycle  Credits: 3
Analysis of consumer patterns of spending and saving from a lifecycle perspective using consumer expenditure data. Introduces consumption theory and economic, social and psychological factors affecting consumption patterns. Prereq> Cnsr Sci 275; Junior standing or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CNSR SCI 560 Retail Promotion  Credits: 3
Developing store image through visual merchandising, advertising, sales, and other promotional activities. Prereq> Cnsr Sci 357
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 561 Retail Channel Strategy & Omni-Channel Retailing  Credits: 3
This course immerses students in the effective design of retail channel strategies, where channels include physical stores, ecommerce, mobile, television and catalog. Special attention is paid to the ways in which retailers and consumers leverage more than one channel to create innovative and relevant experiences to enhance value and relationships. Students leverage the SoHE Digital Sandbox to experience these channels firsthand, constructing and testing their own omnichannel retail experiences. Prereq> Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
CNSR SCI 562 The Global Consumer  Credits: 3
Key issues in international retailing with consideration of the global consumer. Prereq> Consumer Science 257
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CNSR SCI 564 Retail Financial Analysis  Credits: 3
Provides tools for planning and analyzing retail financial performance. Includes elements of retail financial statements, pricing, purchasing terms and conditions, merchandise planning, inventory control, and economic factors that impact retail businesses. Prereq> Acct I S 100 or 300, Cnsr Sci 357
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CNSR SCI 565 Seminar in Consumer Science  Credits: 3
Analysis of the economic welfare of the family in a changing economy and current social policy issues. Prereq> Sr or Grad st and cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CNSR SCI 566 Women and Philanthropy: Theory and Practice  Credits: 3
Women control a large amount of money through earnings and inheritance. Women's development and roles as philanthropists are examined. Social and cultural values and gender differences are looked at as they apply to philanthropic behavior. Prereq> So st
L&S Breadth: Social Science  L&S Level: Intermediate  Typically Offered: Occasionally

CNSR SCI 567 Family Economics and Public Policy  Credits: 3
Analysis of objectives of public policies specifically concerned with the economic welfare of families as expressed or proposed in federal and state legislation; appraisal of their economic and social consequences; and analysis of the issue. Prereq> One econ course or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CNSR SCI 579 Consumer Policy Analysis  Credits: 3
Analysis of consumer policies enacted and proposed at federal, state, and municipal levels; application of economic analysis to consumer laws, public policies and regulations; study of the process of creating and enforcing legislation and impacts on consumers' well-being. Prereq> Junior standing and Consumer Sci 477
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CNSR SCI 601 Consumer Science Internship  Credits: 1 - 8
An internship in consumer affairs and retailing may be arranged through the Consumer Science Program Area. Prereq> Cons of supervising inst, advisor & internship program coordinator
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CNSR SCI 602 Field Experience in Retailing  Credits: 1
Minimum of 200 hours of approved retailing experience with grade reported as Cr/N. Written evaluation required from student and supervisor. Prereq> ETD 357 or con reg, Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

CNSR SCI 603 Retailing Internship  Credits: 1 - 6
A supervised/coordinated experiential learning opportunity involving company-specific training in executive level retailing functions. Prereq> Approval of faculty advisor, consent of program administrator
Typically Offered: Fall, Spring, Summer

CNSR SCI 627 Advanced Consumer Finance  Credits: 3
Studies financial markets and instruments from the perspective of individual consumers and their portfolio decisions over their lifetime. Prereq> Cnsr Sci 275 and one stats crse
L&S Credit: No degree credit in L&S  Typically Offered: Fall

CNSR SCI 635 Estate Planning for Financial Planners  Credits: 3
Analysis from a financial planner's perspective of the process of planning the accumulation, conservation, and distribution of an estate, in the manner that most effectively and efficiently accomplishes an individual's personal tax and non-tax objectives. Prereq> Consumer Science 275
L&S Credit: No degree credit in L&S  Typically Offered: Spring
CNSR SCI 657 Consumer Behavior Credits: 3
Analyses from social and psychological perspectives. Motivation, perception, learning and attitude formation. Effects of social class, family structure, cultural backgrounds and reference groups. Prereq> Intro course in econ & soc or psych or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 665 Household Risk Management Credits: 3
Application of advanced analytical techniques to examine household financial risk. Implications for financial planning of changes in family structure and earnings. Private and social insurance that guard against economic consequences of death, disability, ill health, retirement, marital dissolution. Use of financial planning software. Prereq> Econ 101, Cnsr Sci 275 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 675 Family Financial Counseling Credits: 3
Systems approach to family financial management, stressing development of interpersonal techniques by professionals who will assist individuals and families to become responsible financial managers. Prereq> Cnsr Sci 275 & 627 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

CNSR SCI 679 Consumer Interests and Government Credits: 3
Analysis of efforts to define and articulate consumer interests, nature and forms of governmental response to consumer interests, and the strengths and weaknesses of major governmental consumer agencies addressing themselves to consumer interests. Prereq> Consent of instructor if less than Junior standing
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CNSR SCI 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 691 Senior Thesis Credits: 2
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

CNSR SCI 699 Independent Study Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CNSR SCI 748 The Economic Organization of the Household Credits: 3
Applies intermediate microeconomic theory to analyze household resource allocation decisions. Surveys current household economic decision theories and models. Life cycle analysis of goods and service consumption, intrahousehold paid work, household production and leisure time allocation, household decisions about fertility, marriage and divorce. Prereq> Grad st & intermed microeconomics or cons inst
Typically Offered: Occasionally

CNSR SCI 853 Household Finance and Public Policy Credits: 3
Uses tools from economics, psychology, behavioral decision making, program evaluation and policy analysis to examine household financial well-being. Considers programs, policies and consumer protection regulations related to savings, consumer credit and financial capability. Critically examines consumer financial decision making using behavioral economics and related disciplines.. Prereq> Grad standing
Typically Offered: Occasionally

CNSR SCI 888 Advanced Consumer Behavior Credits: 3
The purpose of this class is to provide graduate students with a broad-based knowledge of the consumer behavior literature. The objective of the course is to develop students as active researchers in fields that require an understanding of consumer research. Prereq> A prior undergraduate or graduate course in consumer behavior, psychology or sociology.
Typically Offered: Fall

CNSR SCI 901 Graduate Special Topics in Consumer Science Credits: 1 - 3
Special topics in consumer science graduate studies.
Typically Offered: Occasionally
CNSR SCI 930 Seminar in Family Economic Policy Credits: 3
Graduate seminar on family economic well-being and the social and consumer policies that influence economic behavior and family economic status. Topics vary each year. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CNSR SCI 960 Seminar in Consumer Research Credits: 1 - 3
The indentification of concepts, frameworks and theories used in consumer research. An introduction to and critique of selected topical areas of consumer research. Prereq> Grad st or cons inst
Typically Offered: Occasionally

CNSR SCI 990 Research and Thesis Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally

CNSR SCI 999 Independent Study Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally

DESIGN STUDIES

DS 120 Design: Fundamentals I Credits: 3
Elements and principles of design. Lecture and studio experience relevant to design of the visual environment. Prereq> Open to Freshmen
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

DS 153 Fabric and Apparel Structures I Credits: 3
Introduction to the physical and aesthetic properties of fiber, yarn and fabric and to the fundamentals of apparel structure in the context of apparel design. Lectures and studio projects explore the interrelationship of fabric, design, and apparel construction. Prereq> None
L&S Credit: No degree credit in L&S Typically Offered: Fall

DS 154 Processes for Apparel Design: Clothing Construction II Credits: 3
Analysis of fabric suitability in relation to silhouette, target market and consumer end use. Fabrication and construction of a line of apparel for a specified individual and purpose. Emphasis on fabrics requiring special handling. Advanced construction techniques are introduced. Prereq> DS 153
L&S Credit: No degree credit in L&S Typically Offered: Spring

DS 210 Fashion Illustration Credits: 3
Introduction to visual communication of apparel design concepts using selected media. Focus is on drawing the fashion figure, using special techniques, with emphasis on the relationship of figure, garment, fabric, texture, and pattern. Prereq> Open to Fr. DS 120 or equiv, DS 153 or con reg, or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

DS 215 Patternmaking for 3D Forms Credits: 3
The principles and theories of flat pattern, drafting and draping methods for 3D accessories are explored. The principles of patternmaking are applied to headwear, handbags and footwear. Students complete projects that require designing, patterning and constructing hats, bags and footwear. Prereq> DS 153
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

DS 220 Design: Fundamentals II Credits: 3
Elements and principles of three-dimensional design. Lecture and studio experience relevant to design and analysis of the spatial environment. Prereq> DS 120 & ME 160 or Art 112; or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

DS 221 Person and Environment Interactions Credits: 3
Effects of building and outdoor spaces on people over the lifecourse. Prereq> Open to All Undergrads
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

DS 222 Interior Design I Credits: 4
Understanding and applying the process of solving design problems of interiors. Space planning; selection and use of furnishings and materials; preparation of presentations. Prereq> Admission to ID major or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall
DS 223 Interior Architectural Design Credits: 3
Building components, construction, interpretation of working drawing, and the process of project development.  
Prereq: DS 222 or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 225 Apparel Design I Credits: 3
Basic principles and elements of design as they apply to apparel. Emphasizing both process and product, students analyze fashion trends and practical problems while developing and executing original designs.  
Prereq: DS 210 & 253  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 226 Textile Design: Off-Loom Construction Credits: 3
Studio design problems in two and three dimensional off-loom constructions; off-loom weaving, looping, and knotting; historical reference and contemporary application.  
Prereq: Open to Freshmen. DS 120 or equivalent, DS 153 or concurrent registration, or consent of instructor  
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DS 227 Textile Design: Printing and Dyeing I Credits: 3
Surface design developed in print and resist techniques using historic and contemporary methods.  
Prereq: Open to Freshmen. DS 120 or equivalent, DS 153 or concurrent registration, or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 228 Textile Design: Structural Enrichment I Credits: 3
Historic and contemporary design techniques creating structural enrichment of textiles.  
Prereq: Open to Freshmen. DS 120 or equivalent, DS 153 or concurrent registration, or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 229 Textile Design: Weaving I Credits: 3
Development of individual design solutions within basic weave structures. Historical and technical influence on contemporary woven design.  
Prereq: Open to undergrads with DS 120 or equivalent, and DS 251, or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 251 Textile Science Credits: 3
Prereq: HS chem or consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 253 Patternmaking for Apparel Design Credits: 3
The theory and principles of pattern making through flat pattern and draping techniques.  
Prereq: DS 154  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 263 Flat Pattern Design Credits: 2  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 264 Dimensions of Material Culture Credits: 4
This course introduces students to the interdisciplinary field of material culture studies. It is intended for students interested in any professional endeavor related to material culture, including careers in museums, galleries, historical societies, historic preservation organizations, and academic institutions. During the semester, students have varied opportunities to engage with and contemplate the material world to which people give meaning and which, in turn, influences their lives. Sessions combine in some way the following: presentations from faculty members and professionals who lecture on a phase of material culture related to his/her own scholarship or other professional work; di  
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

DS 273 Flat Pattern Design Credits: 2  
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 299 Independent Study Credits: 1 - 3
Prereq: Consent of instructor  
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer
DS 319 Cloth to Clothing Credits: 3
This studio class will explore specific dye and manipulation techniques that directly relate to integrated textile and garment design. Working with color, composition and fabric movement we will discuss simple garment shapes and how they can be used in conjunction with expressive textiles. Prereq> DS 153, DS227, or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DS 320 Design: Sketching and Rendering Credits: 4
Introduction to various drawing media and techniques for visually communicating design concepts. Prereq> Mech Engr 160 & Art 112 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DS 322 Interior Design II Credits: 4
Design of residential interiors including space planning, lighting design, selections of materials and furniture, professional communication of design solutions. Emphasis on the aesthetic and functional needs of the family and residents with special needs. Prereq> DS 222 & DS 320 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 323 Computer Aided Design: Architecture and Interiors Credits: 3
The class emphasized the use of CAD (Computer Aided Design) as a design/problem solving method, and as a means of creating both construction documents and presentation drawings. Three dimensional CAD drawings are created using both parallel and perspective projection techniques. Prereq> ME 160 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DS 325 Fashion Art and Design Credits: 3
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 327 Textile Design: Manual/Computer Generated Imagery and Pattern Credits: 3
Studio problems in surface pattern design on textiles (motif, layout, repeats, colorways, coordinates), using various manual and computer methods. Development of imagery, design concepts, and presentation. Prereq> DS 120, DS 227 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 353 Comparative Studies in Clothing Credits: 3
Prereq> Experience in tchg or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 355 History of Fashion, 1400-Present Credits: 3
Changing form and meaning of costume in the West from Renaissance to present. Dress considered in relation to social/cultural milieu and as an art form. Includes treatment of the body; ethnic/class variations; couture; “antifashion”. Prereq> Junior standing or consent of instructor
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

DS 356 Sustainable Residential Construction Credits: 3
Properties and use of building materials, framing systems, HVAC systems, code requirements, conservation of natural resources in building construction and operation. Prereq> Math 112 or equiv. Open to Fr
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 360 Global Perspectives on Design and Culture Credits: 3
Explores how design reflects/encodes culture through cross-cultural examination of living environments and ways groups accommodate universal human needs such as seating and baby-carrying. Considers inter-cultural design interfaces and uses a design perspective to look at globalization issues. Prereq> DS 120 or other intro design class, or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DS 361 Design-Related International Experience Credits: 1 - 6
In-depth study of art/design concepts and/or practice in a specific culture. Each class looks at cultural issues through a particularized design-related lens. Students live and work in the country they are studying. Prereq> Basic design (DS 120 or Art 104) or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Summer
DS 363 American Decorative Arts and Interiors: 1620-1840  Credits: 3 - 4  
Interdisciplinary study of the design, production, and consumption of household objects and their American domestic settings, 17th through the early 19th centuries. Prereq> So st or cons inst  
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

DS 420 Twentieth Century Design  Credits: 3  
Design, including interior, furniture, graphic and textiles, is viewed through broader social and cultural issues including: an aesthetic to express a new age; processes, materials, and marketing techniques; roles for designers; consumer versus designer initiated production. Visits to local collections. Prereq> DS 120, or Art Hist 202, or cons inst  
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DS 421 History of European Interiors: Ancient Through 18th Century  Credits: 3  
Survey of major historical periods and styles of European interior design. Furniture and interior treatment as they affect the architectural space. Prereq> DS 120 or Art Hist 201 & 202  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

DS 422 History of American Interiors, 1620-1950  Credits: 3  
Survey of major periods and styles of American interior design. Furniture, wall, window, and floor treatments. Prereq> DS 120 or Art Hist 201 & 202  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DS 425 Apparel Design II  Credits: 3  
Development and execution of designs for special audiences. Examines sources of inspiration, selection of fabrics, decorative detailing and accessories. Emphasizes the importance of ability to visualize and express one's ideas verbally and through the use of technical flats and sketches. Prereq> DS 225 or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 427 Textile Design: Printing and Dyeing II  Credits: 3  
Focuses on silkscreen printing. Discharge, burnout, and chemical resist processes, specific to screen printing, will be introduced. Students will be asked to develop conceptual ideas and explore alternative ways of producing images. Prereq> DS 227, DS 327, or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 428 Textile Design: Structural Enrichment II  Credits: 3  
Structural enrichment of textiles including historic and contemporary design techniques. Historic resource material and adaptation of techniques for original expression. Prereq> DS 228 or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 429 Textile Design: Weaving II  Credits: 3  
Analysis of complex or compound hand weave techniques. Individual development of solutions to problems of structural textile design. Prereq> DS 229 or cons inst  
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 430 History of Textiles  Credits: 3  
Designs and meanings and interrelationships of textiles in selected cultures and time periods. Prereq> None  
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DS 451 Color Theory and Technology  Credits: 3  
Color technology and its impact on a variety of scientific and design oriented fields are discussed. Emphasis is placed on the spectrophotometric measurement of color and the use of computer technology to create, analyze and match color. Prereq> QR-A satisfied  
General Education: QR-B  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DS 464 Dimensions of Material Culture  Credits: 3  
Approaches to the interdisciplinary study of the material world in order to analyze broader social and cultural issues. Guest speakers explore private and public objects and spaces from historic, ethnographic, and aesthetic perspectives. Prereq> 1 crse 300 level or above from Art Hist or DS, or cons inst  
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
DS 469 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
Typically Offered: Occasionally

DS 501 Special Topics Credits: 1 - 3
Prereq> Prerequisites vary by topic
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DS 512 Material Culture Analysis: The Arts and the Consumer Society Credits: 3
The meanings of objects--both art objects and consumer goods. Interactions between people and objects; "decoding" objects as primary sources of information about the people/cultures that make and use them. Prereq> Jr st
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DS 520 Color Theory: Environmental Context Credits: 3
Studies the visual language of color from a human-environment perspective. Color theories and frameworks included relate to compositional, behavioral, preferential, cultural and pragmatic rationales and meaning. Prereq> ETD 120, or Art 302, or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

DS 525 Fashion Art and Design Credits: 4
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 528 Experimental Textile Design Credits: 2 - 3
Experimental design and decorative principles; elements and techniques for the animation of textile surfaces. Prereq> Course in design
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 545 Placemaking Credits: 3
Studies the affective qualities of man-made environments. Seeks understanding of specific qualities found in environments and the conditions that produce them. Students are encouraged to develop and implement a personal design philosophy. Prereq> Jr st, design studio, or cons inst
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

DS 548 Environmental Aesthetics Credits: 2 - 3
Analysis of visual characteristics and aesthetic qualities of physical environments; physiographic factors; functional needs; modes of perception; historical and cultural influences; role of design professions. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

DS 552 Textiles for Consumers Credits: 2
Prereq> A course in textiles
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 560 Lighting Design for Architecture Credits: 3
An aesthetic and practical application of theatrical and commercial lighting techniques to architectural installations. Prereq> Jr st, Theatre 466, or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

DS 561 Textiles: Specifications and End Use Analysis Credits: 3
Physical textile testings are studied. Emphasis is placed on the evaluation of textiles intended for use as apparel and for interiors. Writing specifications, and minimum performance standards are also discussed. Prereq> DS 251
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 567 Fashion in Contemporary Living Credits: 1
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 569 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
Typically Offered: Occasionally
DS 601 Internship Credits: 1 - 8
Prereq> Cons supervising inst, advisor & internship program coordinator; for Jr, Sr, & Grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DS 610 Apparel Design: Professional Practices Credits: 3
Professional orientation for apparel designers.  Prereq> DS 425 & 653 & Sr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DS 619 Synthetic Fibers Credits: 1
Fundamentals of chemical spinning of synthetic polymers to fibers and characterization and utilization of these fibers in textile and other applications will be discussed.  Prereq> Chem 345
Typically Offered: Fall, Spring

DS 620 Dyeing of Fibrous Material Credits: 1
Clarification of dyes and pigments will be discussed.  Emphasis will be placed on theory and mechanism of dyeing synthetics and natural fibers.  Prereq> Chem 345
Typically Offered: Occasionally

DS 622 Interior Design III Credits: 4
Design of commercial interiors with emphasis on design process, programming, space planning, selection of interior materials, furniture, and lighting.  Field trip required.  Prereq> DS 322
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 623 Interior Design IV Credits: 4
Design of commercial interiors with emphasis on acoustics, codes, costs, specifications, details, and visual presentation.  Field trip required.  Prereq> DS 622
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Summer

DS 624 Portfolio Preparation Credits: 3
Portfolio organization and presentation.  Development of resume, preparation for interviews, and coverage of professional practice.  Senior level portfolio review prerequisite for completion of course.  Prereq> DS 622
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Summer

DS 625 Apparel Design III Credits: 3
Creation of apparel for an identified market, with attention to design, color, fabric and fashion trends, production, costing and sourcing.  Following an industry model, students work in groups forming companies and design a line based on market research.  Prereq> DS 425
L&S Credit: No degree credit in L&S  Typically Offered: Spring

DS 628 Art and Clothing Credits: 3
Investigation of the use of clothing as a bridge between the disciplines of contemporary art and clothing design.  Art and design theories are applied to clothing through studio projects, papers, and presentations.  Prereq> DS 228 or 225 or 355 or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 630 Housing Environments for Older People Credits: 3
Investigation of the environmental needs and design considerations for supportive housing for older people.  Housing options are studied in terms of 1) how they support older people of various ages, capabilities, and finances; and 2) the implications of selecting a certain housing option.  Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 633 Advanced Interior and Architectural Design Visualization Credits: 3
Computer aided design (CAD) and computer visualization explored as interior and architectural design tools.  Simulation and analysis of 3D environments.  Prereq> DS 120; ME 160; & DS 323 or Art 326; or cons inst
Typically Offered: Spring

DS 635 Building Evaluation: Behavioral Perspectives Credits: 3
This course applies environment/behavior studies information to the process, method, and rationale for evaluating buildings or exterior spaces.  Prereq> Junior standing and ETD 221 or consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Spring
DS 639 Culture and Built Environment  Credits: 3
The course explores cultural values embedded in buildings through understanding physical configurations, social organizations, practiced/symbolic/representational aspects of buildings. The course covers a wide range of cultures and the built environments they produce including examples from the Americas, the Middle East, as well as those of the many ethnic minorities in the U.S. Prereq> Junior standing
Ethnic Studies: Yes  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

DS 640 Topics in Ethnographic Textiles  Credits: 3
Ethnographic survey of non-western textiles; technological, aesthetic, functional, and historical aspects. Geographical area varies: African, East Asian, Southeast Asian, Ibero-American or Native American textiles. Prereq> DS 430 or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DS 642 Taste  Credits: 3
Exploration of the idea of taste - both "good" and "bad", in "popular" and "high" culture. Cross-cultural readings from theoretical and historical perspectives, relating to architecture, landscape, public space, art, and clothing. Prereq> Grad st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall

DS 645 Comparative World Dress  Credits: 3
Variations in form, function and meaning of dress in diverse social and cultural contexts; dress as an art form. Prereq> Jr st
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

DS 663 Apparel Design  Credits: 6
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 669 Interdisciplinary Studies in the Arts  Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
Typically Offered: Fall, Spring, Summer

DS 673 Apparel Design  Credits: 6
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

DS 681 Senior Honors Thesis  Credits: 2 - 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

DS 691 Senior Thesis  Credits: 2 - 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

DS 699 Independent Study  Credits: 1 - 6
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

DS 720 Literature of Design Theory  Credits: 3
Theories from basic disciplines pertinent to design fields such as applied and decorative art. A range of conceptual approaches for studying the material artifact. Prereq> Sr st
Typically Offered: Occasionally

DS 920 Seminar in Design Studies  Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally

DS 930 Seminar in Textile Arts  Credits: 2
Prereq> Cons inst
Typically Offered: Occasionally
DS 940 Seminar in Textile Science Credits: 2
Prereq> Cons inst or DS 252
Typically Offered: Occasionally

DS 950 Seminar in Clothing Credits: 2
Prereq> Cons inst or DS 455
Typically Offered: Occasionally

DS 955 Practical Research Design and Methods of Empirical Inquiry Credits: 3
Provides a practical introduction to basic concepts of research question formulation, research designs and alternative methods of inquiry, implications for internal validity of the research and generalizability of the findings, operational definitions and measurement validity, reliability, utility and precision. Prereq> Grad st
Typically Offered: Occasionally

DS 990 Research and Thesis Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally

DS 999 Independent Study Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally

HUMAN DEVEL & FAMILY STUDIES

HDFS 299 Independent Study Credits: 1 - 3
Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 362 Development of the Young Child Credits: 3
This course provides a basic foundation for understanding development from conception through middle childhood. Content includes theoretical foundations, research findings, and practical applications. Prereq> Sophomore standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HDFS 363 Development from Adolescence to Old Age Credits: 3
This course provides a basic foundation for understanding development from adolescence through old age. Content includes theoretical foundations, research findings, and practical applications. Prereq> Sophomore standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HDFS 366 Family Relationships Credits: 3
Social, psychological perspective. Interactions between people in a familial setting across the life-span. Prereq> Sophomore standing
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 425 Research Methods in Human Development and Family Studies Credits: 3
Basics of research design used in studying family studies and individual development over the life course. Quantitative and qualitative research designs, participatory action research, and evaluation research, how research informs intervention and prevention programs. Prereq> HDFS 362 & HDFS 363 or equivalent
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 460 Intellect Developmt in Early Childhd & Relation to Pract Preschl Ed Credits: 3
Observation, discussion, and evaluation of methods and procedures for teachers; correlated reading in professional literature. Prereq> HDFS 362
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 461 Social & Emotional Developmpt of Young Child in Early Childhood Educ Credits: 3
Important teacher, parent, child interactions in various environments and their influence on social and emotional development. Prereq> HDFS 362
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
HDFS 464 Play-Development and Role Across the Lifespan Credits: 3
The role and function of play (and playfulness) in promoting development across the lifespan. Prereq> HDFS 362 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 467 Cultural Differences in US: Implications for Early Childhood Educ Credits: 3
The nature and expression of cultural differences in the classroom with particular focus on Afro-American, Anglo-American, Mexican American and Native American cultures. Bilingual, bicultural, and multicultural educational programs in theory and practice. Prereq> Sophomore standing & consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 468 Implications of Poverty for Early Childhood Education Credits: 2 - 3
Prereq> Consent of instructor
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 469 Family and Community Influences on the Young Child Credits: 3
Interaction of child in socialization settings, especially the family; socialization processes in the social system of child-family-community. Prereq> HDFS 362
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 470 Infants and Toddlers: Development in Various Care Settings Credits: 3
Review of cognitive, social, motor and language development of infants and toddlers. Applied aspects of interacting with infants and toddlers and their families. Prereq> HDFS 362 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 471 Parent - Child Relations Credits: 3
Parents' interaction with their children, programs for parents, and parents' interactions with other institutions.
Prereq> HDFS 362 or 363
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 474 Racial Ethnic Families in the U.S. Credits: 3
Examines the diversity of family life and human development across and within racial ethnic groups in the United States as shaped by race, ethnicity, culture, biculturalism, and the social contexts of history, economics, immigration, and socio-political conditions. Prereq> Sophomore standing
Ethnic Studies: Yes  L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 478 Development of Black Children and Their Families: Research and Policy Credits: 3
Developmental and social change issues related to Black American children and their families. Race-related socialization of children, early development in rural and urban Black families, exploration of theoretical paradigms, as well as the impact of social change on empirical research and theoretical perspectives. Prereq> An intro psych, child development, or human development crse
Ethnic Studies: Yes  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 501 Special Topics Credits: 1 - 3
Prereq> Prerequisites vary by topic
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 515 Gender Roles and Society Credits: 3
An investigation into the social, historical, psychological, and biological context of the construction of gender in families and other social institutions. Prereq> Jr st or cons inst; intro course in psych or sociol
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

HDFS 516 Stress and Resilience in Families Across the Lifespan Credits: 3
Examines family stress and resilience across the life cycle from psychological, sociological, and biosocial perspectives. Explores research relating to normative and non-normative family stress and resiliency factors. Topics include parenting, poverty, violence, work-family balance, aging, health and wellness and others. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
HDFS 517 Couple Relationships Credits: 3
Romantic relationships are universally desired, and individuals around the globe agree about what successful intimacy entails: we all want to be loved, supported, and cared for by partners we hold in high esteem. Nevertheless, intimate relationships can be difficult to form and maintain. This course covers a range of theoretical perspectives and methodologies to understand how it is that intimate relationships develop, thrive, or deteriorate over time. The course will also connect intimate relationship science to real life experiences. Prereq> Sophomore standing
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 521 African American Families Credits: 3
Historical background; variations in contemporary family patterns; courtship and marriage, reproduction, and socialization stresses; "culture of poverty" theories; sources of stability and change. Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

HDFS 522 American Indian Families Credits: 3
Interdisciplinary examination of American Indian families in historical and contemporary contexts. Emphasizes the changing experience and structure of Native families in response to changing political, economic, social, and cultural pressures and policies over the past 200 years and contemporary challenges. Prereq> Jr St
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

HDFS 535 A Family Perspective in Policymaking Credits: 3
Students will explore the relationship between family functioning and public/private policies at the local, state and federal levels; analyze the consequences of issues, policies or programs on family well-being; and, examine roles for professionals in influencing policy development. Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 566 Senior Seminar in Human Development and Family Studies Credits: 2
Final integrative seminar in child and family studies major. Topics include lifespan developmental and family theories, methodological, and applications of family studies; professional issues and ethics; and employment/graduate study opportunities in the field. Prereq> Sr st in CFS family st major opt
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 592 Research Experience in Human Development and Family Studies Credits: 1 - 3
Research experience under the supervision of a faculty member in Human Development and Family Studies. Prereq> None
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HDFS 601 Internship Credits: 1 - 8
Supervised internship in early childhood education programs. Prereq> Cons of supervising inst, advisor & internship program coordinator; for Jr, Sr, and Grad stdts
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

HDFS 616 Mass Media and Youth Credits: 3
Children's and adolescents' use of mass media and mass media effects on them. Particular attention is given to changes in comprehension and other cognitive activities that give insights into media use and effects. Prereq> Journ 565 or Com Arts 325 or HDFS 362 or LSC 251 or consent of instructor
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

HDFS 647 Interdisciplinary Issues in Early Childhood Intervention Credits: 2
Students address issues in interdisciplinary collaboration in the provision of family-centered, community-based intervention with infants and toddlers who have special health and developmental needs and their families. Interagency service coordination, current legislation and administrative rules are analyzed. Prereq> Grad st or Sr in Nursing, Child & Fam, Com Dis, Kinesiology, Pharm or Soc Work; others with cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

HDFS 650 Parent Education and Support Programs Credits: 3
The purposes, contexts, and implementation of parenting support and education programs are studied. Some sections may include a service learning component. Prereq> HDFS 362 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring
HDFS 662 Advanced Study of the Young Child Credits: 3
Research literature and current theories; topics of individual interest. Prereq> HDFS 362 or equiv
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 663 Developmental and Family Assessment Credits: 3
Introduces students to the process of family-focused developmental assessment with infants and young children, including family interviewing, taking developmental histories, observing children, and developmental screening. Prereq> HDFS 362 or equiv
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

HDFS 664 Proseminar: Human Development and Family Studies Credits: 1 - 3
Survey and introduction to Child and Family. Required of all first year graduate students in CFS. Credit varies by semester. Prereq> Grad standing in Chld&Fam
L&S Credit: No degree credit in L&S  Typically Offered: Fall

HDFS 681 Senior Honors Thesis Credits: 2 - 4
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 691 Senior Thesis Credits: 2
Prereq> Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

HDFS 699 Independent Study Credits: 1 - 6
Research literature and current theories; topics of individual interest. Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

HDFS 725 Theory and Issues in Human Development Credits: 3
Prereq> Cons inst
Typically Offered: Occasionally

HDFS 726 Ethnic and Racial Diversity in Social Development Credits: 3
Review of empirical and theoretical research on ethnic/racial diversity in social development across childhood, adolescence and early adulthood with emphasis on implications for counseling and school psychology. Prereq> Counseling psych or ed psych department major or consent of instructor
Typically Offered: Occasionally

HDFS 727 Culture and Human Development Credits: 3
This seminar examines a wide set of issues related to understanding the role of culture in processes of human growth and maturation, and a related set of issues dealing with how we research culture and human development. Prereq> Grad st
Typically Offered: Occasionally

HDFS 736 Youth Development in Community and Policy Contexts Credits: 3
Examines the process of youth development, community-building, and program design in community settings. Local mobilization interventions that promote community-building and youth development also will be explored. Prereq> Grad st. Srs with cons insr & significant experience in community orgs
Typically Offered: Occasionally

HDFS 760 Infancy and the Family Credits: 3
Understanding of infants' socio-emotional, language, cognitive, perceptual and motor development within the context of the family and other social settings. Issues related to early developmental psychopathology and intervention will also be covered. Prereq> Grad st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 761 Childhood and the Family Credits: 3
Explores family socialization topics relevant to development issues in the early and middle childhood. Relevant contextual issues i.e. class, caste, culture and gender will be interfaced with traditional topics such as, sex stereotyping, racial identity, play, social competence, attachment, moral development and aggression. Prereq> Grad st or cons inst
L&S Level: Advanced  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally
HDFS 762 Adolescence and the Family Credits: 3
Overview of current research and theory on adolescent development as it pertains to the family. Relation of empirical and theoretical literature to programs, policy, and practice. Prereq: Grad st or cons inst
L&S Level: Advanced  L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

HDFS 763 Aging and the Family Credits: 3
Psychological and social aspects of aging. Interaction of aged individual with the family and larger social systems. Developmental principles, methodological considerations, theoretical/empirical issues, and findings. Prereq: Sr or Grad st or cons inst
Typically Offered: Occasionally

HDFS 766 Current Issues in Family Living Credits: 1 - 3
Literature, research, and current trends, with implications for teaching, parent education, and other professions. Prereq: Prerequisites vary by topic
Typically Offered: Occasionally

HDFS 773 Analytic Approaches in Qualitative Research Credits: 3
Provides an overview of different analytic approaches to conducting qualitative research about individuals, families, and communities.
Typically Offered: Occasionally

HDFS 817 Couple Relationships: Theory, Research, and Application Credits: 3
This course will review current research on the nature, dynamics, and developmental course of couple relationships and explore the implications of this scientific knowledge for prevention/intervention programs and policy. Contemporary theories and empirical research will be examined. Prereq: Grad st or cons inst
Typically Offered: Occasionally

HDFS 818 Attachment Theory and Relationships Across the Lifespan Credits: 3
Examines parent-child and intimate relationships using attachment theory and research (and critiques of this approach), focusing on relationships formed in infancy and across the lifespan. Prereq: Grad st or cons inst
Typically Offered: Fall, Spring

HDFS 841 The Educational Role of the Family in Early Childhood Development Credits: 3
Socialization practices associated with development and education in early childhood; focus on parental teaching practices which influence techniques, communication styles, and cognitive styles within the context of social class and family structure; emphasis on theory, research, and educational applications. Prereq: Grad st or cons inst
Typically Offered: Occasionally

HDFS 842 Parent-Child Relations Across the Life Course Credits: 3
Parent-child relations as a dynamic reciprocal process from an interdisciplinary and multicultural perspective. Historical and contemporary views on parenthood across the life course will be covered in the context of traditional and nontraditional family forms. Prereq: Grad st or cons inst
Typically Offered: Occasionally

HDFS 843 Family Policy: How It Affects Families & What Professionals Can Do Credits: 3
Covers how policies affect families and whether policies would be more effective if approached from a family perspective. Students will learn theories for conceptualizing family policy, how to conduct family impact analysis, and strategies for connecting research and policymaking.
Typically Offered: Occasionally

HDFS 865 Family Theory I (Survey) Credits: 3
An advanced course which surveys the current theories and models used in family research and theory development. Focus will be on structure-functional, interactional, developmental, systems, and exchange theory in relation to family research and application. Prereq: Grad st or cons inst
Typically Offered: Occasionally

HDFS 866 Advanced Theory Seminar in Human Development and Family Studies Credits: 3
An advanced course in using, evaluating, and building the theories used in the field of child and family studies. Prereq: HDFS 725 & 865
Typically Offered: Occasionally
HDFS 867 Family Research Methodology Credits: 3
An advanced course in the research methodologies that are especially appropriate for family interactional research, that is, research on whole family systems. In interaction specific instrumentations will be used and evaluated by student's teams on volunteer families. Prereq> Grad st and cons inst. At least 1 crse in stats and/or rsch meth
Typically Offered: Occasionally

HDFS 868 Family Life Course: Changes in Roles and Processes Credits: 3
Changes in the family system, family roles, and intrafamilial relationships and processes over the family life course. Prereq> HDFS 865 or equiv
Typically Offered: Occasionally

HDFS 869 Advanced Seminar in Family Stress and Coping Credits: 3
Emphasis on theoretical explanations of family stress from various levels of analysis--individual, social network, family, community, and larger social context. Considers sources of stress and how families experience, respond to, cope with, and resolve stress. Prereq> Grad st or cons inst
Typically Offered: Occasionally

HDFS 870 Work and Family Credits: 3
Examination of the relation between the family and the economy. Focuses on theoretical explanations, historical trends, and contemporary patterns of labor allocation (including employment and housework) and family relationships. A research seminar. Prereq> Grad st or cons inst
L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

HDFS 871 Play and Early Childhood Development Credits: 3
In relation to cognitive, linguistic, socio-emotional, and divergent thinking development; environmental influences; conceptual and methodological problems with emphasis on recent theoretical/empirical research. Prereq> Grad st or cons inst
Typically Offered: Occasionally

HDFS 872 Bridging the Gap Between Research and Action Credits: 3
Addresses the critical skills and methods needed to gather and apply research-based knowledge and theory to human development and family studies. Strategies for conducting research relevant to social policy, programs, and the general public will be discussed as well as techniques for communicating research. Prereq> Grad st
Typically Offered: Occasionally

HDFS 880 Prevention Science Credits: 3
This course provides a theoretical, empirical and practical foundation for prevention science as it relates to the prevention of human social problems. Research and evaluation methods, program design strategies, best practices and policy as they relate to the field of prevention are also examined. Prereq> 2nd yr Grad st or cons inst
Typically Offered: Occasionally

HDFS 881 Capstone Seminar in Prevention Science Credits: 1
This course provides an opportunity for students to meet with prevention professionals and scholars from across campus and the community to explore current and emerging issues of prevention research and professionl practice. Prereq> HDFS/Ed Psych/Nurs/Soc Work 880 & cons inst
Typically Offered: Occasionally

HDFS 928 Seminar: Interdisciplinary Approaches to Life-Span Development Credits: 3
An interdisciplinary examination of selected aspects of human development across the life-span. The influences of biological, psychological, family, economic, cultural and historical forces upon personality, cognitive, moral and social development throughout the life course. Prereq> Ed Psych 723, Soc 575 or Cave 640 or cons inst
Typically Offered: Occasionally

HDFS 990 Research and Thesis Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally

HDFS 999 Independent Study Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally
INTERDIS COURSES (SOHE)

INTER-HE  111 Alcohol: Behavior, Culture and Science  Credits: 3
Provides a multidisciplinary exploration of alcohol use. Includes analysis of the chemical properties of ethanol, pharmacological and psychological effects, portrayals of alcohol in literature and media, historical and cultural differences, the nature and treatment of dependent drinking, and social policy.  Prereq> Open to Fr
L&S Breadth:  Social Science  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall

INTER-HE  130 Community Newswriting  Credits: 3
News of interest to consumers; radio and television writing.  Prereq>  So st or cons inst. Stdts cannot receive cr for both Ag Journ 111 & Ag Journ/Fam Com 130. Not open to Srs
General Education:  COM B  L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring

INTER-HE  150 Critical Perspectives in Human Ecology  Credits: 3
Nature of interdisciplinary study of human ecology, the inter-related economic, familial, and environmental contexts of individuals and communities; analysis of the critical perspectives offered by its various disciplines and sub-disciplines.  Prereq>  Open to Freshmen
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring

INTER-HE  201 Belonging, Purpose and the Ecology of Human Happiness: EcoYou  Credits: 3
This course explores the art and science of purposeful living by integrating academic knowledge with issues real and relevant to students’ lives including: identity and belonging; happiness, purpose and meaning; self-awareness and self-presentation; romantic, peer and family relationships; material culture, consumer behavior and financial well-being; and connections to community, culture, and society. From the microbes that inhabit our guts to political revolutions sparked by a tweet, human lives are embedded in an ecology of complex, interdependent systems. Using the lens of Human Ecology, you will address “big questions” like: How am I connected to others and to larger systems? What brings
L&S Breadth:  Social Science  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

INTER-HE  299 Independent Study  Credits: 1 - 3
Prereq>  Open to Freshmen, Sophomore or Junior & written consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered:  Occasionally

INTER-HE  300 Nonprofit Sector: Overview and Foundations  Credits: 3
Provide learners with the concepts and tools to analyze the broad environment in which nonprofits operate and assess the impact of this environment at the community and individual organizational level.  Prereq>  So st or cons of instr
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring

INTER-HE  330 Practicum in Family and Consumer Education  Credits: 2
Systematic observation and involvement in family and consumer sciences instruction.  Prereq>  Adm to fam & consumer educ teacher cert prog
Typically Offered:  Spring

INTER-HE  335 Communicating with Key Audiences  Credits: 3
Writing features, process and experience articles on consumer information.  Prereq>  Ag Journ, Fam Com 130 or cons inst
L&S Credit:  No degree credit in L&S  Typically Offered:  Occasionally

INTER-HE  340 Technology-based Family and Consumer Education Programs for Adults  Credits: 2
Focuses on family and consumer education programs for adults providing a concise overview of the use of technology to meet the educational needs of families and consumers with new life styles and a variety of learning styles.
L&S Credit:  No degree credit in L&S  Typically Offered:  Occasionally

INTER-HE  345 Strategic Planning for Nonprofit Organizations  Credits: 3
Study strategic planning within unique dynamics of nonprofit sector. Attention to purpose, organizational preparation, planning process and outcome, plan implementation and roles of leaders and stakeholders throughout.  Prereq>  Jr st or cons of instr
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring
INTER-HE 350 Community Issues and Service Learning Credits: 3
Academic and community-based explorations of selected issues faced by contemporary families and consumers, approached from human ecological perspectives. Requires 28 hours of fieldwork in community settings, in addition to class sessions. Prereq> Sophomore standing or consent of instructor
L&S Credit: No degree credit in L&S   Typically Offered: Fall, Spring

INTER-HE 375 Special Topics Credits: 1 - 4
Specialized subject matter of current interest to undergraduate students. Prereq> Cons inst
L&S Credit: No degree credit in L&S   Typically Offered: Fall, Spring, Summer

INTER-HE 399 Coordinative Internship/Cooperative Education Credits: 1 - 8
Prereq> So or Jr or Sr st & cons supervising inst, advisor, & internship program coordinator
L&S Credit: No degree credit in L&S   Typically Offered: Occasionally

INTER-HE 427 Methods of Teaching Family and Consumer Education Credits: 3
Theory and principles of teaching and learning in family and consumer education. Prereq> Jr st or cons inst
Typically Offered: Spring

INTER-HE 428 Program Planning in Family and Consumer Education Credits: 3
Theory and processes of program planning for formal and informal educational settings; relation of vocational education to secondary, adult, and continuing education programs. Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S   Typically Offered: Fall

INTER-HE 430 Student Teaching in Family and Consumer Education Credits: 12
Supervised student teaching at the middle and high school levels. Prereq> Adm to fam & consumer sci teacher cert prog
Typically Offered: Fall

INTER-HE 450 Capstone Seminar Credits: 3
Senior seminar which involves students in the development of a community-based research or educational project. Prereq> Sr st or cons inst, Inter-HE 150 and/or 350
Typically Offered: Spring

INTER-HE 455 Entrepreneurialism and Society Credits: 3
Explores entrepreneurialism in nonprofits, business, government, and arts and humanities contexts. With a broad approach of ideas, readings, and lectures, students will understand the ever-changing role that entrepreneurs play and contribute to society. Prereq> Jr st or cons inst
L&S Credit: No degree credit in L&S   Typically Offered: Fall, Spring

INTER-HE 460 Leadership and Management of Nonprofit Organizations Credits: 3
Survey of leadership and management roles and methods to achieve key organizational functions and enable nonprofit organizations to fulfill their role in civil society. Prereq> Jr st or cons of instr
L&S Credit: No degree credit in L&S   Typically Offered: Fall, Spring

INTER-HE 501 Special Topics Credits: 1 - 3
Prereq> Prerequisites vary by topic
L&S Credit: No degree credit in L&S   Typically Offered: Occasionally

INTER-HE 515 Principles of Adult Education Credits: 3
Explores the theory and research of adult education which underlies program planning, adult development and learning, and evaluation and the application of the related principles and concepts to the actual practice of adult education in diverse settings with diverse audiences.
Typically Offered: Fall, Spring

INTER-HE 550 Advanced Methods in Teaching Family and Consumer Education Credits: 3
Current philosophy, methods, and problems in effective teaching. Prereq> Teaching experience, cons inst
L&S Credit: No degree credit in L&S   Typically Offered: Occasionally
INTER-HE 560 Community Leadership Credits: 3
Explores community building and community action strategies for renewing fragmented connections in today's localities. Builds knowledge and skills for participation and leadership at team and multi-stakeholder community levels in the context of nonprofit organization work. Requires 5 hours of service learning. Prereq: Jr st or cons instr. Completion of INTER-HE 300
Typically Offered: Spring

INTER-HE 570 Community Based Research and Evaluation Credits: 3
Theoretical, critical, and analytical understanding and application of the conscious and systematic use of data, inquiry and analysis for community, organization and program diagnosis, intervention and evaluation in various community-based and nonprofit organizations. Prereq: Jr St or cons inst. Completion of QRA. Completion of Inter-HE 300
L&S Credit: No degree credit in L&S  Typically Offered: Spring

INTER-HE 601 Internship Credits: 1 - 6
Prereq: Cons of supervising inst, advisor and internship program coordinator
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTER-HE 650 Parent Education and Support Programs Credits: 3
The purposes, contexts, and implementation of parenting support and education programs are studied. Some sections may include a service learning component. Prereq: HDFS 362 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring

INTER-HE 660 Foundations of Education for Work Credits: 2 - 3
Analysis of perspectives and issues associated with the development of work-focused education policies and practice. Prereq: Sr st or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

INTER-HE 661 Organization and Operation of Education for Work Programs Credits: 3
Procedures, policies and research associated with various systems of work-related education. Prereq: Tchg experience or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

INTER-HE 662 Designing Education for Work Curricula Credits: 3
Theory, practice and research in the development of education for work curricula. Analysis of practice in secondary, post-secondary, adult, and workplace contexts. Prereq: Cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

INTER-HE 675 General Topics Credits: 2 - 3
L&S Credit: No degree credit in L&S  Typically Offered: Fall, Spring, Summer

INTER-HE 681 Senior Honors Thesis Credits: 2 - 4
Prereq: Honors program candidacy
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

INTER-HE 691 Senior Thesis Credits: 2
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

INTER-HE 699 Independent Study Credits: 1 - 4
Prereq: Jr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

INTER-HE 704 Introduction to Adult and Continuing Education Credits: 3
Definitions, beliefs, purpose, philosophical approaches, and the practice of continuing and vocational education in the modern world. Concerns and orientations of adults who continue to learn. Participation in vocational programs: trends and developments, long-term goals, and futuristic thinking.
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

INTER-HE 705 Community Building, Action and Learning: Leadership Dynamics Credits: 2
Examines community building and collaborative action in the context of efforts to renew community connections in today's fragmented localities. Gives special emphasis to leadership roles and dynamics and especially shared leadership. Applies a model of the learning community to these challenges.
Typically Offered: Occasionally
INTER-HE 730 Program Development in Continuing Education Credits: 3
Basic concepts related to effective program development. Focus on the concepts relevant to programming with adults: (1) philosophical basis for change through adult education programs, (2) programming processes, (3) community and clientele analysis, (4) program involvement, (5) program design. Prereq> 
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

INTER-HE 742 Facilitating Learning for Adults Credits: 3
Analysis of concepts and procedures for helping adults learn. Emphasis on the teaching-learning transactions that encourage and assist adults in their learning activities. Prereq> ELPA 746 or equiv background in the adult learning lid 
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

INTER-HE 743 The Adult Distance Learner Credits: 3
The adult distance learner in society; social contexts that encourage distance learning; differences and similarities with respect to conventional learners and learning; distance and autonomy; basis in learning theory; program options and alternatives; problems and issues; the characteristics of adult distance learners. Prereq> ELPA 746 or cons inst 
L&S Credit: No degree credit in L&S Typically Offered: Occasionally

INTER-HE 770 School-Community Engagement Credits: 3
Critical examination of school-community engagement and collaboration. Examines theory and practice of mutually beneficial collaboration in diverse education settings, including leadership issues in collaborative settings, and facilitators and inhibitors to effective collaboration. Prereq> ELPA 702 or consent of instructor 
Typically Offered: Occasionally

INTER-HE 793 Research Methods Credits: 3
Basic techniques: questionnaires, interviews, behavioral observation, sampling, experimental designs and data analysis using computer. Students learn to write a research proposal with literature review. Prereq> Grad st or cons inst 
Typically Offered: Occasionally

INTER-HE 810 Seminar Family Ecology Credits: 3
Prereq> Completion of Masters degree, rsch meth, 1 crse in Stats recommended during 3rd yr Grad study-repetition for max of 6 cr 
Typically Offered: Occasionally

INTER-HE 811 Seminar: Research Design and Methodology Credits: 1 - 3
For students actively involved in designing, analyzing, and writing up research projects or theses. Prereq> One course in research methods, one in statistics, and cons inst. Repetition for maximum of 4 cr 
Typically Offered: Occasionally

INTER-HE 812 Leadership and Coordination of Continuing and Technical Education Credits: 3
Theory, research, concepts, and processes of leadership and program coordination integral to various continuing and technical education programs. Prereq> Grad st 
Typically Offered: Occasionally

INTER-HE 819 Proseminar: Issues and Problems in Community Education Credits: 3
Survey and analysis of major issues and problems confronting rural education, implications for rural life, evaluation of proposed solutions. Attention to adult education and community development. Prereq> Grad st & cons inst 
Typically Offered: Occasionally

INTER-HE 826 Evaluation for Administrative Decision Making in Education Credits: 3
Theory and methods of evaluation for administrators. Models and techniques related to educational needs assessment, program and product development, formative and summative evaluation. Use of evaluative information for administrative decision making and administration of educational evaluation projects. Prereq> Grad st 
Typically Offered: Occasionally

INTER-HE 859 Proseminar: Issues and Problems in Family and Consumer Education Credits: 3
Analysis. Prereq> Cons inst 
Typically Offered: Occasionally
INTER-HE 950 Seminar in Family and Consumer Education Credits: 2
Implications of recent studies and research. Prereq> Experience in tchg or cons inst
Typically Offered: Occasionally

INTER-HE 990 Research and Thesis Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Occasionally

INTER-HE 999 Independent Study Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally
ENVIR ST 101 Forum on the Environment  Credits: 1 - 2
Lectures and discussions about environmental issues. Historical and contemporary environmental impacts of humans on the biosphere. Global futures: population, technology, societal values, resources and prospects for sustainable management. Prereq> Open to Fr
L&S Breadth: Soc Sci or Nat Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 102 Climate and Climate Change  Credits: 3
This course describes the basic climate principles governing the climate system. It describes the climate and climate variability at present, climate evolution in the past, and the projected climate change into the future. The scientific principles underlying the natural and anthropogenic greenhouse effect and climate model forecasts are elucidated. Prereq> None
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 106 Environmental Geology  Credits: 3
Application of geology to problems resulting from the ever more intense use of the earth and its resources. Lecture and discussion. Prereq> Not open to those who have had Geosci 101, 100, or 109. Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 112 Environmental Studies: The Social Perspective  Credits: 3
Importance of social factors in the generation and resolution of complex environmental problems with an interdisciplinary perspective. Comparison of specific communities in the more and less developed areas of the world. Prereq> Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 113 Environmental Studies: The Humanistic Perspective  Credits: 3
Environmental problems as approached by philosophy, literature, fine arts, history of science, and anthropology. Reflections on the past and present situation of our species and its relationship to the rest of nature offer suggestions toward possible alternative values for future. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST 115 Environmental Humanities: Asian/Pacific Perspectives  Credits: 3 - 4
Course offers a case-based approach to environmental studies from a humanistic perspective, taking into account diverse and connected transnational systems of Asia; materials draw on themes like forests, water, disaster, war, and conservation and wildlife. Course introduces disciplines in the Environmental Humanities (literature, religion, music, etc.) through studies in tradition, theory and practice across South Asia, Southeast Asia, East Asia and ocean and Pasifik regions including Aotearoa, New Zealand. Throughout the course we ask, how are environmental worldviews cast as the basis for action and understanding in the present? Prereq> None
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Fall

ENVIR ST 120 Global Physical Environments  Credits: 3
Global distribution and processes of climate, weather, ecosystems, landforms, and soils, emphasizing interrelationships. Prereq> Open to Fr. Not open to stdts with cr in Geog 127
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 121 Atmospheric Environment and Society  Credits: 2
Changing interactions between humans, other animals and plants, and the atmospheric environment, both in time and space. Prereq> Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ENVIR ST  125 Green Screen: Environmental Perspectives through Film  Credits: 3
From Teddy Roosevelt's 1909 African safari to the Hollywood blockbuster King Kong, from the world of Walt Disney to The March of the Penguins, cinema has been a powerful force in shaping public and scientific understanding of nature throughout the twentieth and twenty-first century. How can film shed light on changing environmental ideas and beliefs in American thought, politics, and culture? And how can we come to see and appreciate contested issues of race, class, and gender in nature on screen? This course will explore such questions as we come to understand the role of film in helping to define the contours of past, present, and future environmental visions in the United States, and the
L&S Breadth:  Humanities or Soc Sci  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Every Other Fall

ENVIR ST  126 Principles of Environmental Science  Credits: 4
This course relates principles of environmental science to our daily activities, with an eye to sustainability, conservation, and systems thinking. It introduces science as a process of inquiry and discovery rather than just a pre-established set of facts. Topics relate to energy, water, and land use, and include food, electric power, materials, buildings, transportation, and waste.  Prereq> Open to Freshmen
L&S Breadth:  Physical Science  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Spring

ENVIR ST  127 Physical Systems of the Environment  Credits: 5
Climatic regimes, landforms, soils, waters and life forms at the earth's surface in terms of energy-transforming processes, locational patterns, and changes through time.  Prereq> Open to Freshmen & not open to those with Geog 120, 123, 124, or 125 credit or ILS 132 credit
L&S Breadth:  Physical Science  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

ENVIR ST  129 Resources and People  Credits: 3 - 4
An introductory exploration into the relationships between humans and the earth¿s resources, including food, energy, physical materials, water, biota, and landscapes; it considers issues linked to population and scarcity, resource tenure, green consumerism, political economy, environmental ethics, risks and hazards, political ecology, and environmental justice.  Prereq> Open to Freshmen
L&S Breadth:  Social Science  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

ENVIR ST  171 Global Change: Atmospheric Issues and Problems  Credits: 2 - 3
Atmospheric problems of global significance. Greenhouse warming, ozone layer, acid rain, climate change. Study based on elementary principles of atmospheric science. Systems approach applied to changing atmospheric composition. Interactions among geochemical cycles, anthropogenic inputs and other parts of the environment.
L&S Breadth:  Physical Science  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

ENVIR ST  199 Directed Study  Credits: 1 - 2
Prereq> Open to Freshmen, consent of instructor
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ENVIR ST  200 Special Topics in Environmental Studies  Credits: 1 - 4
Topics vary each term, within the scope of the environmental physical sciences. These may encompass areas such as energy systems, earth system sciences, quantitative methods for environmental analysis, and application of scientific and engineering concepts to real-world environmental issues.  Prereq> Minimum pre-calculus; concurrent enrollment in calculus recommended. Open to Fr
L&S Credit:  No degree credit in L&S  Typically Offered:  Fall, Spring, Summer

ENVIR ST  201 Insects and Human Culture-a Survey Course in Entomology  Credits: 3
Importance of insects in man's environment, emphasizing beneficial insects, disease carriers, and agricultural pests that interfere with man's food supply. Environmental problems due to insect control agents.  Prereq> Open to Fr
L&S Breadth:  Biological Science  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall

ENVIR ST  213 Global Environmental Health: An Interdisciplinary Introduction  Credits: 3
The course provides an introduction to the intersections of health and environment on a global scale. Exposes students to a range of problems in global environmental health, including climate change, disease ecology, and the globalization of disease.  Prereq> None
L&S Breadth:  Humanities or Soc Sci  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Spring
ENVIR ST 230 Soil: Ecosystem and Resource Credits: 3
Soils are fundamental to ecosystem science. A systems approach is used to investigate how soils look and function. Topics investigated include soil structure, biology, water, fertility, and taxonomy as well as the human impact on the soil environment. Prereq> Not open to students with credits in Soil Sci 301
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 244 The Environment and the Global Economy Credits: 3
The "economic way of thinking" about global and regional environmental issues. Topics include climate change, biodiversity preservation, ocean fisheries, environmental impacts of international trade, poverty and the environment, and sustainability. Prereq> Open to Freshmen
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 250 Introduction to Sustainability Science Credits: 3
Course introduces issues connected with "Sustainability Science," the study of coupled human-natural systems with implications for resource use, human well-being, and the environment. Methods include risk assessment, life-cycle assessment, and conceptual modeling, as well as basic background on natural systems such as climate, water, and land use, and engineered systems including energy, transportation, land use, and materials. Prereq> A sem of calculus or concurrent enrollment in Math 136, 171, 211, 221 or equiv
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 260 Introductory Ecology Credits: 3
For nonbiology students: the relationships of organisms and the environment. Population dynamics and community organization, human-environment relationships, action programs. Prereq> Open to Freshmen. Does not count toward Botany or Zoology major
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 270 Environment and Religion Credits: 3 - 4
What are sources on which members of religious communities draw in order to understand and address environmental change? This course explores how religious persons and communities confront global environmental questions and challenges today, with case studies drawn from culturally and religiously plural societies such as India and Indonesia. Introducing diverse varieties of Christianity, Islam, and Hindu and Buddhist systems, course gives overview of some approaches in the environmental humanities related to philosophy, history, sociology and anthropology, and ethics. Fulfills requirement for Environmental Studies and Religious Studies degree programs. Prereq> Sophomore standing
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

ENVIR ST 307 Literature of the Environment: Speaking for Nature Credits: 3
19th and 20th century British and American literature. Prereq> So st; priority given to IES certificate students
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 309 People, Land and Food: Comparative Study of Agriculture Systems Credits: 3
Introduction to how and why humans have transformed natural landscapes around the world, including tropical deforestation. Exploration of different agricultural systems, and topics such as food security, land scarcity, bioenergy and the impacts of food production on the environment. Prereq> Sophomore standing
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST 315 Limnology-Conservation of Aquatic Resources Credits: 2
General limnology. Physical, chemical and biological characteristics and processes of lakes. Environmental problems and rehabilitation of lakes. Prereq> Intro course in biol; intro course in chem recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Summer

ENVIR ST 324 Soils and Environmental Quality Credits: 3
Interaction of soils with environmental contaminants and the role of soils in pollution control. Prereq> Chem 103 & 104 or equiv; Jr st
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST 325 Analysis of the Physical Environment Credits: 4
Selected associations of natural and human environments illustrative of the broad principles of physical geography. Practical application of data collection and the use of laboratory and field methods to Wisconsin examples employing quantitative and nonquantitative analytical methods; field trips; lab section. Prereq> Any intro crse in phy geog or phy geol or meteor or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
ENVIR ST  328 Environmental History of Europe Credits: 3
This class explores a new approach to a part of the world with a very old history, but one that is now 'modern' as any. The changing, complex relations between Europeans and their environments from antiquity to the twenty-first century offer instructive comparison with American and current global environmental concerns. Approaching Mediterranean and Western civilizations from an environmental viewpoint also offers fresh perspective on these enduring cultures. Prereq> Sophomore Standing
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST  331 Climatic Environments of the Past Credits: 3
Climatic change at timescales from the last 1,000,000 years to the last 1000 years. Examines how climate variability arises from interplay between external forcings, feedbacks within the earth system, and (more recently) human activity. Prereq> Atm Ocn/Geog/Envir St 121, or Geog 120, 123, 124 or 127 or Atm Ocn 100
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST  332 Global Warming: Science and Impacts Credits: 3
Climate change is underway and will continue into the foreseeable future. This course offers a fundamental understanding of how and why global warming is happening, and what to expect in the future. Together, we will investigate and discuss the evidence for change, the science that explains these observations, predicted impacts on humans and ecosystems, and the societal debate over proposed solutions. Prereq> Geog/IES 120 or 127 or Atm Ocn 100 or equivalent recommended. Freshmen permitted only with consent of instructor
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST  336 Our Hazardous Environment Credits: 3
An analysis of the unexpected: hazardous elements of our physical environment such as hurricanes, tornadoes, floods, earthquakes, etc., their physical characteristics, regional distribution, economic aspects, and human adjustments. Prereq> Geog/Envir St 120 or Geog/Envir St 127 or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST  337 Nature, Power and Society Credits: 3
Explores the links between nature, power and society in today's world. The course considers the complex relationships between humans and the earth's resources, including food, energy, natural resources, water, biota, and landscapes; it considers issues linked to population and scarcity, resource tenure, green consumerism, political economy, environmental ethics, risks and hazards, political ecology, and environmental justice. Prereq> Sophomore standing. Not open to students who took Geog/Env 139 in 2010-11, 2011-12 or 2012-13.
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST  339 Environmental Conservation Credits: 4
Examines major environmental conservation approaches in the U.S. and developing countries and how they are influenced by sociopolitical factors, cultural values and scientific understandings of nature. Historical and contemporary cases are explored with emphasis on biodiversity and climate change issues. Prereq> So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ENVIR ST  343 Environmental Economics Credits: 3 - 4
Microeconomic principles underlying the use of natural resources such as air, water, forests, fisheries, minerals and energy. These principles are applied in the examination of pollution control, preservation vs. development, deforestation, and other environmental issues. Prereq> AAE 215, Econ 101 or equivalent, or consent of instructor
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST  353 History of Ecology Credits: 3
The development of the science of ecology and related scientific issues and social attitudes, with a primary emphasis on developments from the late nineteenth century to the present. Prereq> Jr st or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST  356 Islam, Science & Technology, and the Environment Credits: 3 - 4
Survey of Muslim religious understandings of science, technology, nature and environment. Lectures and readings present a global perspective through case studies, covering sources such as the Qur'an, theology and law, and traditions of esoteric piety (mysticism), and historical and contemporary issues like medical ethics, virtual realities, and environmental change, challenge and crisis. Prereq> Sophomore standing
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Fall
ENVIR ST 360 Extinction of Species Credits: 3
A comprehensive treatment of the ecology, causes, and consequences of species extinction. Ecology and problems of individual species, habitat alteration and degradation, socio-economic pressures and conservation techniques and strategies. Prereq> So st. An intro biology course strongly recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Summer

ENVIR ST 361 Wetlands Ecology Credits: 3
Types, origins, settings, and structure of wetlands. Physical, biological, and cultural values, uses and assessments. Physical and biological characteristics and dynamics. Protection, management and restoration. Field trips, literature review, term paper, and personal observations required. Prereq> Upper class st; basic college-level biology or equiv (such as relevant physical sciences)
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 367 Renewable Energy Systems Credits: 3
Students will learn about the state-of-the-art in renewable energy applications including biomass for heat, electric power and liquid fuels as well as geo-energy sources such as wind, solar, and hydro power. Students will do engineering calculations of power and energy availability of renewable energy sources and learn about requirements for integrating renewable energy sources into production, distribution and end-use systems.
Prereq> College algebra, college-level physical science course
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ENVIR ST 368 Environmental Law, Toxic Substances, and Conservation Credits: 2
Development of and need for "environmental law"; an introduction to the legal system; public and private rights in the environment; regulation of pesticides and toxic substances; environmental legislation and rulemaking; environmental impact statements; professionals as expert witnesses. No prior knowledge of law assumed. For scientists and others dealing with environmental issues in academia, industry and government. Prereq> So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 371 Introduction to Environmental Remote Sensing Credits: 3
Introduction to the Earth as viewed from above, focusing on use of aerial photography and satellite imagery to study the environment. Includes physical processes of electromagnetic radiation, data types and sensing capabilities, methods for interpretation, analysis and mapping, and applications. Prereq> Math 114 & Sophomore standing
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST 372 Intermediate Environmental Remote Sensing Credits: 3
Examines intermediate-level concepts in information extraction, data processing and radiative transfer relevant to remote sensing of the environment. Includes transforms, image correction, classification algorithms and change detection, with emphasis on applications for land use planning and natural resource management. Prereq> Envir St 301 or consent of instructor, sophomore standing
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

ENVIR ST 373 Nuclear Energy and the Environment Credits: 3
Fission and fusion processes, nuclear reactors, power plants, radioactivity, biological effects, radiation and thermal releases, governmental regulations' impact on society. Prereq> HS physics or chem; knowledge of basic biology or consent of instructor; not open to NEEP stdts
L&S Breadth: Natural Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST 375 Field Ecology Workshop Credits: 3
Lecture labs wholly in field for intensive study of behavior of plants and animals and their relationship to environments and human impacts. Individual and group observations, measurements, interpretation, reports, typing personal experience with specifics to basic principles. Prereq> Some basic biology & ecology recommended; cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Summer

ENVIR ST 377 An Introduction to Geographic Information Systems Credits: 4
Design, implementation and use of automated procedures for storage, analysis and display of spatial information. Covers data bases, information manipulation and display techniques, software systems and management issues. Case studies. Meets with Civil & Environmental Engineering 357. Prereq> Intro crse in envrmntl or mapping sci and an intro crse in computer programming or computer concepts
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ENVIR ST 400 Special Topics in the Environment: Biological Aspects of Envir St Credits: 1 - 4
Topics vary each term, within the scope of the environmental biological sciences. These may encompass areas such as conservation biology, environmental ecology, issues in ethno botany and tropical ecology, environmental health, ecotoxicology, biodiversity, endangered resources, biological systems analysis, and field studies. Prereq: So st. Authorization may be required
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 401 Special Topics: Environmental Perspectives in the Physical Sciences Credits: 1 - 4
Topics vary each term, within the scope of the physical environmental sciences. These may encompass issues in energy resources, environmental measurement and analysis, modeling, remote sensing and GIS, environmental engineering and transportation, air and water resources, and global climate change. Prereq: So st. Authorization may be required
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 402 Special Topics: Social Perspectives in Environmental Studies Credits: 1 - 4
Topics vary each term, within the scope of the environmental social sciences. These may include issues in environmental policy, law, economics, land use, sustainability, food systems, energy policy, conflict resolution, environmental justice, and international development. Prereq: So st. Authorization may be required
L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 403 Geometric Analysis of Vertical Aerial Photographs Credits: 1
Elementary photogrammetric procedures for obtaining reliable measurements from aerial photographs. Photographic measurements and refinements; geometry of vertical aerial photographs; scale and relief displacement; stereoscopy and parallax. Introduction to stereoplotters and orthophotoscopes. Camera calibration. Introduction to analytical photogrammetry and flight planning. Prereq: Math 221 or equivalent & Civ Engr 301, or consent of instructor
L&S Credit: No degree credit in L&S Typically Offered: Fall, Spring

ENVIR ST 404 Special Topics: Humanistic Perspectives in Environmental Studies Credits: 1 - 4
Topics vary each term, within the scope of the environmental humanities. These may encompass themes in environmental ethics, literature, art, film, aesthetics and design, history, and indigenous knowledge. Prereq: So st. Authorization may be required
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 405 Digital Orthophotography Credits: 1
A laboratory-oriented course; topics include: Image orientation, use of digital elevation models, image scanning, transforming digital elevation models and orthophotos between coordinate systems; orthophoto mosaics including color balance, feathering, and seam lines; the use of a bundle adjustment in the creation of orthophoto mosaics. Prereq: Civ Engr 403 or cons inst
L&S Credit: No degree credit in L&S Typically Offered: Fall

ENVIR ST 410 Minerals as a Public Problem Credits: 3
Distribution of mineral resources; present and future problems of mineral supply; conservation of minerals, and mineral resources in relation to national and international policy. Prereq: Open to Fr
L&S Breadth: Natural Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ENVIR ST 411 Energy Resources Credits: 3
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ENVIR ST 430 Law and Environment: Rights and Resources Credits: 3
This class explores the burgeoning field of environmental studies through a focus on the historical development of legal rights in land and natural resources. It examines rights in natural resources in pre-modern European and non-Western traditions, traces the development of modern Anglo-American and selected global approaches to environmental law and governance, and considers the recent development of international environmental law. Prereq: Sophomore standing
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring
ENVIR ST 434 People, Wildlife and Landscapes Credits: 3
This course explores the relationship between humans and wildlife amidst diverse landscapes, both historic and contemporary, tropical and temperate. We study how humans shape wild animal populations by modifying physical environments, and by hunting, domesticating and introducing species. Prereq> Geog/Envir St 339
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 439 US Environmental Policy and Regulation Credits: 3 - 4
This course covers a broad cross-section of American environmental policy by focusing on specific statutes and policy arenas. In this course we will survey the basic elements of American environmental policy and regulation with a particular focus on the specific people, sites and scales at which environmental decision-making happens through primary-source case material. Understanding environmental outcomes in a complex society depends on observing both the structure of regulations and the geographic and social context in which such regulations emerge. This course will maintain a dual focus on (a) the legal and regulatory aspects of environmental regulation and (b) the specific geographic an
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST 441 Environmental Ethics Credits: 3 - 4
Adequacy of ethical theories in handling such wrongs as harm to the land, to posterity, to endangered species, and to the ecosystem itself. Exploration of the view that not all moral wrongs involve harm to humans. Inquiry into the notion of the quality of life and the ethics of the "lifeboat" situation. Prereq> 3 cr philos or envir studies, or Grad st in IES
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ENVIR ST 444 Practical Applications of GPS Surveying Credits: 2
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ENVIR ST 449 Government and Natural Resources Credits: 3 - 4
Problems of public policy and administration for development and use of natural resources. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Summer

ENVIR ST 452 World Forest History Credits: 3
Examines world forest history, with attention to links between societal change and forest change. Examines how different peoples have used or abused the forest, how societies have struggled to establish policies governing forests, and how perceptions of forests have evolved.
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST 453 Aesthetics of the Natural Environment Credits: 3
Philosophical theories of beauty, the sublime, and the picturesque, and their relevance to our appreciation of the natural environment. Prereq> Jr st and 3 cr in philos, or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST 460 American Environmental History Credits: 4
Survey of interactions among people and natural environments from before European colonization to present. Equal attention to problems of ecological change, human ideas, and uses of nature and history of conservation and environmental public policy. Prereq> So st
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ENVIR ST 461 Environmental Systems Concepts Credits: 3
A general systems approach to environmental problems: a philosophical-conceptual framework and a quantitative methodology for dealing with critical environmental issues that cross the boundaries of traditional disciplines. The nature of general systems, concepts and laws; the role of perspective in identification of system properties; the structure and behavior of environmental and ecological systems. For students with strong interests in environmental problems. Prereq> Envir St 126 & a crse in biology, or enroll in envir st undergrad prog. Authorization may be required
L&S Breadth: Interdivisional  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
ENVIR ST 462 Environmental Systems Methods Credits: 3
L&S Breadth: Interdisciplinary  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST 468 Managing the Environmental Impacts of Livestock Operations Credits: 2
Introduces nonpoint pollution policies and regulations and environmental losses impacting air and water quality. Discuss management practices that influence the cycling and balance of nitrogen and phosphorus across a farm and its components (livestock, crop and soil). Prereq> Jr st
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ENVIR ST 471 Introduction to Environmental Health Credits: 3
Impact of environmental problems on human health; biological hazards to human health from air and water pollution; radiation; pesticides; noise; problems related to food, occupation and environment of the work place; accidents. Physical and chemical factors involved. Prereq> A course in biology; Jr st
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 472 Scientific Background to Global Environmental Problems Credits: 3
A one-semester course designed to provide those elements of physics, atmospheric sciences, chemistry, biology and geology which are essential to a scientific understanding of global environmental problems. Specific examples of such problems include global warming, stratospheric ozone depletion, acid rain and environmental toxins. Three lectures per week. Prereq> HS algebra & 1 sem college level chem or physics, or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST 502 Air Pollution and Human Health Credits: 3
Toxicologic, controlled and epidemiologic studies on major air pollutants. Overview of study methods, lung physiology and pathology; air pollution sources, types, meteorology, sampling methods, controls and regulations. Prereq> Jr st, a course in biology
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ENVIR ST 506 Modeling and Analysis of Environmental Systems Credits: 3
Systems modeling; applications to environmental problems; systems methods. Prereq> Consent of instructor
L&S Breadth: Natural Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 510 Ecology of Fishes Credits: 3
Interactions of fishes with their physical, chemical, and biotic environment; physiological ecology, community ecology and fisheries sciences. Lake Mendota perch fishery and Shedd Aquarium field trips. Prereq> 1 yr biol & chem & Jr st
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 511 Ecology of Fishes Lab Credits: 2
Anatomy and taxonomy of Wisconsin fishes and projects in fish ecology. Prereq> Zool 510 or con reg
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 512 Science and Government Credits: 3 - 4
The effect of science and technology on demands for decisions of public policy related to theory of the role of government. Prereq> Cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ENVIR ST 513 Environment and Health in Global Perspective Credits: 3
Explores the historical relationships between environmental change and human health from the 17th through the 20th century. Topics include colonialism and disease, medical geography, urban pollution and reform, workplace hazards, environmental risk, and the anti-toxics and environmental justice movements. Prereq> Jr st
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

</table>

ENVIR ST 556 Remote Sensing Digital Image Processing Credits: 3
Techniques of enhancement and quantification of remote sensing imagery. Emphasis on processing and analyzing data gathered by airborne and satellite sensors. Techniques to quantitatively analyze data from photography, electro-optical scanners, satellite systems, and radar and passive microwave systems. A 5-week practicum with applications to: agriculture and forestry, geology and soils, water quality, and urban and regional planning. Prereq> Civ Engr/Envir St/Forestry 303 or authorization
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 557 Development and Environment in Southeast Asia Credits: 3
Examines the political, socio-cultural, economic and ecological aspects of contemporary development and human-environment relations in mainland Southeast Asia, applying a critical and theoretically informed perspective, and focusing largely on rural issues. Prereq> Sophomore standing
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 5575 Assessment of Environmental Impact Credits: 3
Overview of methods for collecting and analyzing information about environmental impacts on agricultural and natural resources, including monitoring the physical environment and relating impacts to people and society. Prereq> Jr st. Authorization may be required
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ENVIR ST 600 Environmental Studies Major Capstone Credits: 3
Investigation of a selected complex interdisciplinary environmental problem, e.g., desertification; energy in an age of scarcity; world hunger. Readings, papers, individual and team research, intensive discussions. Prereq> Senior standing & enrollment in the Envir Studies Certificate Program; authorization required
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ENVIR ST 601 Systems Thinking and Sustainable Businesses Credits: 3
Introduces students to the concept of systems thinking so as to allow them to use systems to bring about large scale social change, both within the business community and within our societal infrastructure. Prereq> Admitted bus stdt with Jr or Sr st or envir studies stdt
L&S Credit: No degree credit in L&S  Typically Offered: Spring

ENVIR ST 602 Sustainability in Practice: Capstone Credits: 3
An integrative capstone experience involving interdisciplinary teams applying the triple bottom line principals of sustainability to local, regional and global challenges. Prereq> Junior or Senior standing seeking Sustainability Certificate, or consent of instructor
Typically Offered: Spring

ENVIR ST 615 Conservation Biology Credits: 3
Application of ecological principles and human dimensions to the conservation of biological diversity. Topics: biodiversity science; conservation planning; population ecology; habitat loss, species exploitation, invasive species, pollution; human attitudes and activities as they affect the biosphere; approaches to monitoring interventions. Prereq> An ecology crse (eg, Botany/Zoology 460)
General Education: QR-B  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit

ENVIR ST 652 Decision Methods for Natural Resource Managers Credits: 3 - 4
Applications of quantitative methods, including optimization and simulation, to the management of natural resources, especially forests. Prereq> Math 211 or equiv & Comp Sci 132 or equiv
General Education: QR-B  L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit
Typically Offered: Spring

ENVIR ST 656 Engineering Application of Land and Geographic Information Systems Credits: 3
Network models and analysis; linear referencing systems; dynamic segmentation; network overlay; surface modeling and analysis; facilities management concepts; relationship to infrastructure life cycle; applications include pavement management, safety analysis, various routing problems, stormwater runoff, and subsurface characterization; case studies; laboratory. Prereq> Math 222 and Civ Engr 307 and Civ Engr 308 and Civ Engr 357 or Civ Engr/Envir St/Land Arch 655
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ENVIR ST 668 Green Politics: Global Experience, American Prospects Credits: 3
An examination of the writings and activities of green parties and movements around the globe in order to assess the potential of an explicit, radical environmental politics for the United States. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
ENVIR ST 671 Energy Economics Credits: 3
The method, application, and limitations of traditional economic approaches to the study of energy problems. Topics include microeconomic foundations of energy demand and supply; optimal pricing and allocation of energy resources; energy market structure, conduct, and performance; macro linkages of energy and the economy; and the economics of regulatory and other public policy approaches to the social control of energy. Prereq> Sr or Grad st and intermed econ or appropriate substitute per cons inst
L&S Breadth: Social Science L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ENVIR ST 681 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 682 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 691 Senior Thesis Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 692 Senior Thesis Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 695 Applications of Geographic Information Systems in Natural Resources Credits: 3
Course has four components: 1) Detailed review of GIS concepts; 2) Case studies; 3) GIS implementation methods; 4) Laboratory to provide "hands-on" GIS experience. Prereq> Land Arc/Envir St/Civ Engr 655 or Geog 377 or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

ENVIR ST 699 Directed Study Credits: 1 - 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ENVIR ST 707 Professional Skills for Global Systems Analysis Credits: 1
Trains students in interdisciplinary skills needed to research environmental sustainability and vulnerability in linked human, non-human natural systems. Instruction involves communication simulations, facilitation training, cross-disciplinary listening exercises, and other hands-on activities. Content is linked with Environmental Studies 506. Prereq> Con reg in Envir St 506 or cons inst
Typically Offered: Fall

ENVIR ST 710 Field Investigations in Wetland Ecology Credits: 3
Field research in wetlands conducted by student teams on vegetation and biotic communities, hydrology, processes of wetland formation, and ecological considerations for land use planning. The course includes seminars, discussions, and field research. Prereq> Grad st. Authorization may be required
Typically Offered: Occasionally

ENVIR ST 713 Studies in Environment and Health Credits: 1
Advanced readings in primary and secondary literature of environment and health, with emphasis on current historiographic issues. Prereq> Grad st, or con reg in Hist Med 513 or cons inst
Typically Offered: Occasionally

ENVIR ST 717 Water Resources Management Practicum Planning Seminar I Credits: 1
This is the first of two seminars used for planning the activities of the Summer Session Water Resources Management Practicum (ENVIR ST 719). Prereq> Consent of instructor
Typically Offered: Fall

ENVIR ST 718 Water Resources Management Practicum Planning Seminar II Credits: 2
This seminar is used for planning the field work, analysis and reporting of the Summer Session Water Resources Management Practicum (ENVIR ST 719). Prereq> Adv Grad standing or consent of instructor
Typically Offered: Occasionally
ENVIR ST 719 Water Resources Management Summer Practicum Credits: 4
Interdisciplinary team of students and staff working with agency personnel, citizen groups, and/or private sector representatives on the analysis of a contemporary, problem-oriented water resource issue. Physical, biological, economic and social aspects of the issue analyzed. Comprehensive written report results, practicum's findings and management recommendations. Prereq> Envir St/Civ Engr/Urb R Pl 718 or consent of instructor
Typically Offered: Occasionally

ENVIR ST 724 Agroecosystems and Global Change Credits: 3
Impacts of global change drivers (climate change, atmospheric chemistry, bioenergy, urbanization, policy) on agroecosystems and their associated goods and services; environmental impacts of agricultural land use and feedbacks to climate; modeling approaches; critical review of current scientific literature. Prereq> Grad st; coursework in either college-level biology or ecology; 1 sem college-level chemistry or physics; or cons inst
Typically Offered: Occasionally

ENVIR ST 740 Health Impact Assessment of Global Environmental Change Credits: 3
Covers contemporary methods of impact assessment in a framework to address global environmental health threats (e.g., global climate change, deforestation and biodiversity loss, and urban sprawl). Issues dovetail well (but do not overlap) with Introduction to Environmental Health. Prereq> Graduate standing or consent of instructor
Typically Offered: Occasionally

ENVIR ST 745 Meteorological Satellite Applications Credits: 2 - 3
Use of satellite imagery and measurements in meteorological research and operations; orbital characteristics; navigation; instrumentation. Prereq> Atm Ocn 640 or 1 yr calc-based college physics & Math 234
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ENVIR ST 750 Problems in Oceanography Credits: 3
Introduction to techniques used in the study of the biology, chemistry, geology, and physics of the marine environment. Prereq> Cons inst
Typically Offered: Occasionally

ENVIR ST 761 Colloquium in Air Pollution Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

ENVIR ST 772 Practicum in Transportation Management and Policy Credits: 3
Integrative capstone course in transporation management and policy. Interdisciplinary team experience in the application of theoretical knowledge and analytical tools for developing policy and making management decisions on "real-world" problems. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ENVIR ST 806 Local & Regional Approaches to Sustainability & Vulnerability Credits: 3
Evaluates what local-scale, place-based and social science / humanities approaches offer to analyses of environmental change, sustainability and vulnerability. Stresses interdisciplinary, both through content and through assignments that require students to bring their own disciplinary training and work together in teams. Prereq> Envir St 506 & Envir St 707 or cons inst, and con reg in Envir St 807
Typically Offered: Fall, Spring, Summer

ENVIR ST 807 Professional Skills for Regional and Local Sustainability Credits: 1
Trains students in the skills needed to research environmental vulnerability and sustainability from a regional or local perspective. Training in qualitative methods, cross-disciplinary presentation, and other hands-on activities. Content will be linked with Envir St 806. Prereq> Envir St 506 & Envir St 707 or cons instr, and con reg in Envir St 806
Typically Offered: Spring

ENVIR ST 808 Integrated Research Methods & Prof Skills: Humans & the Global Env Credits: 4
Trains students to conduct research, review alternatives, and promote solutions to environmental problems through team-based projects. Teams integrate research across scales and disciplines and learn to present and publicize their ideas to peers, media, and the public. Prereq> Envir St 506, Envir St 707, Envir St 806, Envir St 807 or cons inst
Typically Offered: Fall
ENVIR ST 809 Introduction to Energy Analysis and Policy Credits: 3
Interdisciplinary seminar for the Energy Analysis and Policy Curriculum. Strategy and policy problems in energy policy, both national and international. Prereq> Grad st & admission to Energy Anal and Policy curric or cons inst
Typically Offered: Occasionally

ENVIR ST 810 Energy Analysis Seminar Credits: 1 - 3
Interdisciplinary seminar for the Energy Analysis and Policy Curriculum. Quantitative energy content and energy flows as an aid to problem analysis and policy formulation. Prereq> Grad st & admission to Energy Anal and Policy Curric or cons inst
Typically Offered: Occasionally

ENVIR ST 821 Resources Policy Issues: Regional and National Credits: 2 - 3
Resource policy issues frequently faced by local and state governments and the federal government. Emphasis: (1) techniques for analysis of resource issues; (2) methods of collating knowledge from natural and social science disciplines which can make meaningful contributions to resolution of resource issues; (3) identification and analysis of strategic points of decision making in the legislative and executive branches of government; and (4) the application of planning techniques for accomplishing resource goals. Prereq> Cons inst
Typically Offered: Occasionally

ENVIR ST 843 Land Use Policy and Planning Credits: 3
Critical evaluation and analysis of land use policies and programs in relation to comprehensive planning and growth management issues in the U.S. The role of legislative and judicial processes and emerging public land use social values and philosophies in the development, regulation, and effectuation of innovative land use policies. Alternative land policy and growth guidance systems of select European countries. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ENVIR ST 860 Science and Environment Communication Credits: 3
Course uses available scholarship and commentary to track the evolution of mass media coverage of science and the environment. Emphasis on how journalists utilize evidence, the influence of scientific and journalistic norms on stories, and the effects of mass media on science and environment messages to the public. Prereq> Grad st
Typically Offered: Occasionally

ENVIR ST 861 Environmental Information and Education Programs Credits: 3
Examines information and education programs pertaining to environmental issues and policies. Emphasis on communication campaigns and programs aimed at public awareness, opinion, and behavior change. Includes program design, planning, and assessment. Prereq> Grad st & cons inst
Typically Offered: Occasionally

ENVIR ST 865 Water Resources Institutions and Policies Credits: 3
Governmental processes and policies for water resources management: major substantive problems and issues; political processes of decision making; problems of governmental organization and intergovernmental arrangements. Prereq> Grad st
Typically Offered: Occasionally

ENVIR ST 866 Global Environmental Governance Credits: 3
In-depth examination of the political and policy challenges posed by global environmental degradation. Analysis of international institutions for managing the global environment. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ENVIR ST 881 Benefit-Cost Analysis Credits: 3
This course will present the welfare economics underpinnings for evaluating the social benefits and costs of government activities. Issues such as uncertainty, the social discount rate, and welfare weights will be discussed; case studies from the environmental, social policy, and agricultural areas will be studied. Prereq> Grad st, Pub Affr 818 & 880 or Pop Hlth 875 & at least one crse in econ or cons inst
Typically Offered: Fall

ENVIR ST 900 Seminar Credits: 1 - 3
Special topics selected with each offering. Prereq> Grad st; authorization may be required
Typically Offered: Occasionally
ENVR ST 901 Environmental Studies Orientation Field Trip and Seminar Credits: 1 - 2
Field trip to introduce new graduate students in Environmental Studies to natural resource management problems and research. Seminar to acquaint students with teaching and research activities of faculty involved with IES. Prereq> Grad st in IES or cons inst
Typically Offered: Occasionally

ENVR ST 911 Limnology and Marine Science Seminar Credits: 1
Sections in various fields of zoological research. Prereq> Grad st in limnology & marine sci grad prgm or cons inst
Typically Offered: Occasionally

ENVR ST 917 Public Participation for Planning and Policy Making Credits: 3
Examines public participation for planning and policymaking in both urban and natural environments; considers different types of participation from agency consultation to negotiation; designing, conducting, and evaluating citizen participation are major features. Typically Offered: Occasionally

ENVR ST 922 Historical and Cultural Methods in Environmental Research Credits: 3
This course introduces graduate students from a wide array of departments and programs to different disciplinary and interdisciplinary methods for studying past environmental change and the human cultural contexts within which such change occurs. The course explores the disparate forms of evidence that can be used to reconstruct past environmental changes and their human meanings. The course also strives to build a strong sense of community among graduate students and faculty members at UW-Madison who share an interest in past environmental change by creating a context within which students from different departments and programs can work together while also getting to know faculty members. Typically Offered: Spring

ENVR ST 923 Seminar-Land Problems: Institutional Development Credits: 2 - 3
Land tenure and utilization research and policy problems. Prereq> Grad st
Typically Offered: Occasionally

ENVR ST 925 Seminar-Climatology Credits: 1 - 2
Historical climatology with emphasis on the last few centuries. Prereq> Grad st
Typically Offered: Occasionally

ENVR ST 950 Environmental Monitoring Seminar Credits: 1
Current research and literature dealing with environmental remote sensing and geographic information systems. Prereq> Grad st
Typically Offered: Occasionally

ENVR ST 951 Conservation of Biodiversity Credits: 3
This online course will cover theory, advanced research, and the professional practice of conservation of biodiversity in interdisciplinary, international perspective. The course will be divided into approximately 50% biodiversity science and 50% human dimensions of biodiversity conservation, fully integrated with each other in readings, hands-on online simulations, peer-to-peer discussions, and writing assignments. Within lectures, students will learn about biodiversity science; human activities that threaten biodiversity; conservation project planning; conservation interventions against habitat loss, species exploitation, invasive species, and pollution; human values, attitudes, and activism. L&S Credit: No degree credit in L&S
Typically Offered: Spring

ENVR ST 953 Introduction to Ecology Research at UW-Madison Credits: 1 - 2
This seminar course will introduce new graduate students to the diversity of ecologists across the UW-Madison campus. Course meetings will include discussions of key topics in professional development, research presentations by faculty members, and discussions of assigned papers with senior graduate students. Prereq> None
Typically Offered: Fall

ENVR ST 965 Seminar in River Basin Planning Credits: 2 - 3
Joint seminar with Urban and Regional Planning, and Engineering. Governmental and legal aspects of management; problems of public policy for control and use of water and related land resources. Prereq> Cons inst
Typically Offered: Occasionally
ENVIR ST 966 Seminar in Water Resources Planning Credits: 2 - 3
Governmental and legal aspects of water resources management; problems of public policy for control and use of water and related land resources. Prereq> Envir St, Urb R Pl 965, or Grad st & cons inst
Typically Offered: Occasionally

ENVIR ST 970 Colloquium in Transportation Management and Policy Credits: 1
Current issues, case studies, research, and literature dealing with transportation management and policy development. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ENVIR ST 972 Conservation Planning Credits: 3
Preparation of students to plan, monitor and evaluate the effectiveness of conservation projects and programs. Systematic and adaptive processes of conservation planning will be learned through lectures, readings, discussions, and work in small groups to prepare a conservation plan and/or review case study projects (e.g., a protected area, a landscape) with a conservation organization. Prereq> Students must be accepted into the Environmental Conservation professional master's program
Typically Offered: Summer

ENVIR ST 974 Environmental Conservation Cohort Seminar Credits: 1
Professional development course for incoming Environmental Conservation graduate students. Introduces students to important aspects of communication, collaboration, and professional practice as they relate to Environmental Conservation. Prereq> Students must be accepted into the Environmental Conservation professional master's program
Typically Offered: Summer

ENVIR ST 975 Environmental Conservation Leadership Seminar III Credits: 1
Professional development course for Environmental Conservation graduate students. Introduces students to important aspects of communication, negotiation, and cross-cultural professional practice as they relate to Environmental Conservation. Prereq> Students must be accepted into the Environmental Conservation professional master's program and have completed Envir St 974
Typically Offered: Occasionally

ENVIR ST 976 The Practice of Conservation Biology and Sustainable Development Credits: 1
A weekly series of presentations by persons who have direct experience in the practice of conservation biology and sustainable development. Presenters may be students, faculty staff or agency persons. Prereq> Grad st in IES program or cons inst
Typically Offered: Occasionally

ENVIR ST 977 Sustainable Development - Integral Perspective Credits: 3
This interdisciplinary graduate seminar has four main objectives: 1) review core concepts and history of sustainable development; 2) introduce students to innovative frameworks to sustainable development, including integral framework, institutional analysis, and the often overlooked cultural, philosophical and psychological underpinnings of environmental decision-making; 3) analyze case studies and examples through the lens of the frameworks presented; 4) provide a forum for graduate students to present their own research interests and examples regarding sustainable development. Some of the examples and case studies discussed are from Latin America, but will also include some from Wisconsin
L&S Credit: No degree credit in L&S  Typically Offered: Fall

ENVIR ST 978 Environmental Conservation Tools Modules Credits: 1
Tools modules for Environmental Conservation graduate students. Modules will provide training in specific tools and methods related to environmental conservation. Topics may include GIS, conservation finance, conservation governance & institutions, biodiversity monitoring, and science communication & environmental mediating. Prereq> Students must be accepted into the Environmental Conservation professional master's program
Typically Offered: Spring
ENVIR ST 979 Environmental Conservation Professional Practice Credits: 3
This course provides an online environment for the development and practice of the skills needed to be an environmental conservation professional and leader. It will help students analyze options and make good professional conservation judgments in complex and uncertain environmental, political, and economic settings. It will also give students the tools needed to assess and revise those judgments. The course will include exercises on the politics of environmental decisions, internal and external communication strategies, and program development and assessment strategies. The course builds on earlier classes' discussions of online communication and presentation skills. Prereq> Enrolled in
Typically Offered: Spring

ENVIR ST 980 Earth System Science Seminar Credits: 1
Topics in earth system science. Emphasis on the coupling between atmospheric, oceanic and land surface systems, involving physical geochemical and biological processes, and including interactions with human systems. Prereq> Grad st
Typically Offered: Occasionally

ENVIR ST 990 Research Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

ENVIR ST 992 Special Topics in Land Resources Credits: 2
In-depth investigation of a current topic integrating technical, social, and economic aspects of land resources management. Prereq> Land Resources major or cons inst
Typically Offered: Occasionally

ENVIR ST 993 Approaches to Interdisciplinary Environmental Research Credits: 2
A course to assist students undertaking interdisciplinary research. Preparation of a proposal or manuscript to professional standards. A review of other topics relevant to interdisciplinary work. Formal presentation of a research plan or other product to peers for review and evaluation. Prereq> Land resources major. Authorization may be required
Typically Offered: Occasionally

ENVIR ST 999 Advanced Independent Study Credits: 1 - 3
Prereq> Grad st
Typically Offered: Occasionally
AFRICAN LANGUAGES & LITERATURE

AFRICAN 120 The Literary Legacy of the Arabs Credits: 3
Prereq: Open to Fr
L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFRICAN 130 Introduction to Swahili Culture Credits: 3
A multi-disciplinary perspective on the history, language, literature, and artistic heritage of the Swahili; lectures, slides, tapes, and discussion. Prereq: Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFRICAN 201 Introduction to African Language and Literature Credits: 3
General survey of African languages, linguistics, oral traditions, and literatures. Prereq: Open to Fr
General Education: COM B  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFRICAN 210 The African Storyteller Credits: 3
The oral tradition and the written word; the composition of stories, relationship between performer and audience, and transmission of tradition in various African societies. Prereq: Open to Fr
L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFRICAN 211 The African Autobiography Credits: 3
The importance of autobiography in depicting social change in the lives of Africans. Prereq: So st or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFRICAN 230 Introduction to Yoruba Life and Culture Credits: 3
Introduction to some aspects of the life and culture of Yoruba-speaking people of West Africa, Cuba, Brazil, and Haiti, including the importance of Yoruba culture in the Americas. Prereq: Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 270 The Hero and Trickster in African Oral Traditions Credits: 3
Two major characters in African oral tradition as treated in narrative, epic and heroic poetry. Prereq: None
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 277 Africa: An Introductory Survey Credits: 4
African society and culture, polity and economy in multidisciplinary perspectives from prehistory and ancient kingdoms through the colonial period to contemporary developments, including modern nationalism, economic development and changing social structure. Prereq: Open to Fr
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFRICAN 297 African and African-American Linkages: An Introduction Credits: 4
Analysis of retention of African elements in African-American oral, written, and material culture. Social, cultural, and political issues regarding race, self-definition, and self-determination in both Africa and North America will be examined. Prereq: Open to Fr
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 300 African Literature in Translation Credits: 3
Introduction to the literature, oral or written, of a coherent cultural area of Africa, for those for whom texts in the original language are not accessible. Prereq: Open to Fr with cons inst. Not recommended for grad stdts
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
AFRICAN 301 Introduction to African Linguistics Credits: 3
African languages, including typology, comparative studies, sociolinguistic factors, and the relation of language to literature. Prereq: Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 306 Hausa Verbal Arts in Translation Credits: 3
Hausa verbal arts (in translation), including oral narratives, poetry, drama, novels, short stories, and with an emphasis on performance and stylistics. Prereq: Gen ed Com A crse. Open to Fr
General Education: COM B  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFRICAN 311 First Semester-A Language of East Africa Credits: 4 - 5
e.g. Kamba, Kirundi, Luganda, Luhy, Meru: speaking knowledge, description, structure, drills. Prereq: 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 312 Second Semester-A Language of East Africa Credits: 4 - 5
Continuation of 311. Prereq: African 311 or cons inst. 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 313 Third Semester-A Language of East Africa Credits: 4
Continuation of 311 and 312. More advanced speaking knowledge and grammatical analysis. Structure, reading, drills. Prereq: African 312 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 314 Fourth Semester-A Language of East Africa Credits: 4
Continuation of 313. Prereq: African 313 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 315 First Semester-A Language of Central Africa Credits: 4 - 5
e.g. Bemba, Cinyanja, Kikongo, Lingala, Shona: Speaking knowledge, description, structure, drills. Prereq: 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 316 Second Semester-A Language of Central Africa Credits: 4 - 5
Continuation of 315. Prereq: African 315 or cons inst. 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 317 Third Semester-A Language of Central Africa Credits: 4
Continuation of 315 and 316. More advanced speaking knowledge and grammatical analysis. Structure, readings, drills. Prereq: African 316 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 318 Fourth Semester-A Language of Central Africa Credits: 4
Continuation of 316. Prereq: African 317 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 321 First Semester Arabic Credits: 4 - 5
An important Afro-Asiatic language; description, drills, reading, speaking. Prereq: 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 322 Second Semester Arabic Credits: 4 - 5
Continuation of 321. Prereq: African 321 or consent of instructor. 4 credits for Grads, 5 credits for Undergrads (4 cr only Summer). Open to Freshmen
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring
AFRICAN 323 Third Semester Arabic Credits: 4
Advanced grammar and conversational practice, reading contemporary Arabic literature and other writings.
Prereq> African 322 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 324 Fourth Semester Arabic Credits: 4
Continuation of 323. Prereq> African 323 or consent of instructor
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 325 Colloquial Arabic Credits: 2
Prereq> African 321 & 322 or equiv
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 326 Colloquial Arabic Credits: 2
Prereq> African 325
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 327 Elementary Summer Immersion Arabic Credits: 8
Elementary level Arabic language taught in an 8-week residential summer language immersion format. Open only to students who have been admitted separately to the summer Arabic immersion program. Prereq> Students must be admitted to the summer Arabic immersion program in order to enroll
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Summer

AFRICAN 331 First Semester Swahili Credits: 4 - 5
The lingua franca of East Africa; description, drills, reading. Prereq> 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 332 Second Semester Swahili Credits: 4 - 5
Continuation of 331. Prereq> African 331 or consent of instructor. 4 credit for Grads, 5 credit for Undergrads (4 cr only Summer). Open to Freshmen
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 333 Third Semester Swahili Credits: 4
More advanced texts and emphasis on composition and conversational practice. Prereq> African 332 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 334 Fourth Semester Swahili Credits: 4
Continuation of 333. Prereq> African 333 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 335 First Semester-A Language of Southern Africa Credits: 4 - 5
Pedi, Tswana, Zulu: speaking knowledge, description, drills, reading. Prereq> 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 336 Second Semester-A Language of Southern Africa Credits: 4 - 5
Continuation of 335. Prereq> African 335 or cons inst. 4 cr for Grads, 4 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 337 Third Semester-A Language of Southern Africa Credits: 4
Continuation of 336; More advanced speaking knowledge and grammatical analysis. Structure, reading, drills. Prereq> African 336 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 338 Fourth Semester-A Language of Southern Africa Credits: 4
Continuation of 337. Prereq> African 337 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
AFRICAN 351 First Semester Xhosa  Credits: 4 - 5
An important language of the Nguni group of South African languages; description, drills, reading. Prereq> 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 352 Second Semester Xhosa  Credits: 4 - 5
Continuation of 351. Prereq> African 351 or cons inst. 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 353 Third Semester Xhosa  Credits: 4
More advanced texts and emphasis on structural analysis and conversational practice. Prereq> African 352 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 354 Fourth Semester Xhosa  Credits: 4
Continuation of 353. Prereq> African 353 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 361 First Semester Hausa  Credits: 4 - 5
Spoken Hausa as used in Nigeria: description, drills, reading. Prereq> 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 362 Second Semester Hausa  Credits: 4 - 5
Continuation of 361. Prereq> African 361 or cons inst. 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 363 Third Semester Hausa  Credits: 4
More advanced texts and emphasis on structural analysis and conversational practice. Prereq> African 362 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 364 Fourth Semester Hausa  Credits: 4
Continuation of 363. Prereq> African 363 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 370 Islam: Religion and Culture  Credits: 4
The emergence and development of Islam; schism; theology; asceticism; speculative and popular mysticism; literatures in diverse Islamic languages. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 371 First Semester Yoruba  Credits: 4 - 5
Introduction to the standard Yoruba language and culture of Nigeria: speaking, reading, writing skills. Prereq> 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 372 Second Semester Yoruba  Credits: 4 - 5
A development of basic Yoruba structure. Reading and writing simple stories in Yoruba. Prereq> African 371 or cons inst. 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 373 Third Semester Yoruba  Credits: 4
Advanced grammar and conversational practice. Reading contemporary Yoruba literature and other writings. Prereq> African 372 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 374 Fourth Semester Yoruba  Credits: 4
More advanced conversational skill, and introduction to simple Yoruba poems and plays. Prereq> African 373 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
AFRICAN 391 First Semester-A Language of West Africa  Credits: 4 - 5
e.g. Ewe, Igbo, Mende, Twi, Yoruba: Speaking knowledge, description, structure, drills. Prereq> 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 392 Second Semester-A Language of West Africa  Credits: 4 - 5
Continuation of 391. Prereq> African 391 or cons inst. 4 cr for Grads, 5 cr for Undergrads (4 cr only Summer). Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 393 Third Semester-A Language of West Africa  Credits: 4
Continuation of 391 and 392. Prereq> African 392 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 394 Fourth Semester-A Language of West Africa  Credits: 4
Continuation of 393. Prereq> African 393 or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 399 Directed Study of an African Language  Credits: 3
Directed language study for students experienced in language self instruction. The instructor will continue to consult with the student and monitor progress. Prereq> African 302 & cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFRICAN 402 Theory of African Literature  Credits: 3 - 4
Approaches to the analysis of African oral narrative performances, heroic poetry, epic, and the genres of written literature: Aesthetic, symbolic, and structural analysis and their interrelationships. Prereq> African 201 or 210 or 211, or Grad st, or cons inst
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 404 Semiotics  Credits: 3 - 4
The study of signs, including symbolic forms, with emphasis on nonverbal elements of oral performance of narrative traditions. Prereq> Jr st or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 411 African Poetry  Credits: 3 - 4
Analysis of oral and written poetry from various African cultures. Prereq> Jr st
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 412 Contemporary African Fiction  Credits: 3 - 4
A critical study of the major works. Prereq> Jr st or cons inst
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 413 Contemporary African and Caribbean Drama  Credits: 3 - 4
A critical study of the major works. Prereq> Jr st or cons inst
L&S Breadth: Literature  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 427 Intermediate Summer Immersion Arabic  Credits: 8
Intermediate level Arabic language taught in an 8-week residential summer language immersion format. Open only to students who have been admitted separately to the summer Arabic immersion program. Prereq> AFRICAN 322, or AFRICAN 327, or equivalent (two semesters of Arabic language). Students must be admitted to the summer Arabic immersion program in order to enroll
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Summer

AFRICAN 435 Advanced Studies in Swahili Language-Grammar  Credits: 3
Reading, conversation and composition beyond the fourth semester level with emphasis on linguistic structure and the grammatical analysis of texts appropriate to the level of the student. Prereq> African 334 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 436 Advanced Studies in Swahili Language-Readings  Credits: 3
Reading, conversation and composition beyond the fourth semester level with emphasis on the literary tradition of the language and concentration on texts appropriate to the level of the student. Prereq> African 435 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
AFRICAN 440 African/Francophone Film  Credits: 3
Studies the construction of narratives in cinema and literature; teaches to analyze and write about cinema; explores links between cinema and national or regional politics and ideology; examines spectatorship in relation to questions of identity formation.  Prereq> French 271
L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

AFRICAN 441 Written Literatures of Southern Africa  Credits: 3 - 4
In Xhosa, Zulu, Sotho, Ndebele, English and Afrikaans. In translation.  Prereq> Jr st or cons inst
L&S Breadth:  Literature  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

AFRICAN 445 Readings in Advanced Arabic Texts  Credits: 3
Selection from Quranic and post-Quranic Arabic texts to meet the needs of the students.  Prereq> Grad st and cons inst
L&S Breadth:  Literature  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall

AFRICAN 446 Readings in Advanced Arabic Texts  Credits: 3
Prereq> Grad st or cons inst required
L&S Breadth:  Literature  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Spring

AFRICAN 451 Lusophone African Literature  Credits: 3
Chronological and thematic survey of major trends, authors, and works of Lusophone Africa since 1936.  Prereq> Portuguese 221 & 311/312 or cons inst
L&S Breadth:  Literature  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring, Summer

AFRICAN 452 Masterpieces of Contemporary African and Caribbean Literatures  Credits: 3 - 4
New written literatures from Black Africa and the Caribbean.  Prereq> Jr st or cons inst
L&S Breadth:  Literature  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

AFRICAN 453 Modern African Literature in English  Credits: 3 - 4
Chief emphasis on modern African poetry, novel, drama, and short story.
L&S Breadth:  Literature  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

AFRICAN 454 Modern African Prose and Poetry in French  Credits: 3 - 4
Modern novel, drama and poetry by Africans from tropical Africa or the West Indies.  Prereq> Reading knowledge of French
L&S Breadth:  Literature  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

AFRICAN 455 Advanced Studies in Xhosa Language-Grammar  Credits: 3
Reading, conversation and composition beyond the fourth semester level with emphasis on linguistic structure and the grammatical analysis of texts appropriate to the level of the student.  Prereq> African 354 or cons inst
L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

AFRICAN 456 Advanced Studies in Xhosa Language-Readings  Credits: 3
Reading, conversation and composition beyond the fourth semester level with emphasis on the literary tradition of the language and concentration on texts appropriate to the level of the student.  Prereq> African 455 or cons inst
L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

AFRICAN 459 Islamic Culture: Meanings and History  Credits: 3
Muslim culture through religious and rational sciences (Quranic exegesis, mysticism, philosophy, scholasticism, schism), art, and literature.  Prereq> So st & LCA/Relig St 273 or 444 or African/LCA/Relig St 370, or cons inst

AFRICAN 465 Advanced Studies in Hausa Language-Grammar  Credits: 3
Reading, conversation and composition beyond the fourth semester level with emphasis on linguistic structure and the grammatical analysis of texts appropriate to the level of the student.  Prereq> African 364 or cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall

AFRICAN 466 Advanced Studies in Hausa Language-Readings  Credits: 3
Reading, conversation and composition beyond the fourth semester level with emphasis on the literary tradition of the language and concentration on texts appropriate to the level of the student.  Prereq> African 465 or cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Spring
AFRICAN 471 Oral Traditions and the Written Word Credits: 3 - 4
Analyses and comparisons of African oral narrative-performances and African written literatures. Prereq> African 210, 402, or cons inst
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 475 Fifth Semester Yoruba Credits: 3
Advanced linguistic structures, literature and poetry. Introduction to Yoruba cultures in the works of Wole Soyinka. Prereq> African 374 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFRICAN 476 Sixth Semester Yoruba Credits: 3
More complex linguistic structure. Proverbs. Yoruba cultural background in the works of Wole Soyinka. Prereq> African 475 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFRICAN 477 Fifth Semester, A Language of East Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 314 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 478 Sixth Semester, A Language of East Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 477 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 491 Fifth Semester, A Language of Central Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 318 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 492 Sixth Semester, A Language of Central Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 491 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 493 Fifth Semester, A Language of Southern Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 338 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 494 Sixth Semester, A Language of Southern Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 493 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 495 Fifth Semester, A Language of Northern Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 368 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 496 Sixth Semester, A Language of Northern Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 495 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 497 Fifth Semester, A Language of West Africa Credits: 3
Advanced linguistic structures and literature. Prereq> African 394 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 498 Sixth Semester, A Language of West Africa Credits: 3
Advanced linguistic structure and literature. Prereq> African 497 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 500 Language and Society in Africa Credits: 3 - 4
Language use in African societies; multilingualism; language in politics, religion, socialization.
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
AFRICAN 501 Structure and Analysis of African Languages Credits: 3 - 4
Emphasis on phonetics (including transcription), and on theories and problems of phonology, morphology, and syntax. Prereq> African 301 for Undergrads; none for Grads
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

AFRICAN 502 African Linguistic Structure-Phonology and Tonology Credits: 3 - 4
The sound systems of various African languages, with special emphasis on tonal systems. Problems of analysis and transcription. Prereq> African 501 or cons inst
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 503 African Linguistic Structures-Morphology and Syntax Credits: 3 - 4
Morphological and syntactic characteristics of various African languages, with emphasis on noun-class systems, pluralization, verbal systems and word formation. Prereq> African 501 or cons inst
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 504 African Linguistic Structures: Semantics and Pragmatics Credits: 3 - 4
Meaning and reference, language use and linguistic communication in Africa. Prereq> African 501 or cons inst
L&S Breadth: Humanities L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 525 Problems in Translation: African Languages Credits: 3 - 4
Theoretical and practical course in the translation of African and non-African languages. Prereq> African 402 & 501
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 527 Advanced Summer Immersion Arabic Credits: 8
Advanced level Arabic language taught in an 8-week residential summer language immersion format. Open only to students who have been admitted separately to the summer Arabic immersion program. Prereq> AFRICAN 324, or AFRICAN 427, or equivalent (four semesters of Arabic language). Students must be admitted to the summer Arabic immersion program in order to enroll. A placement test may be required for admission
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 571 Structure of an African Language Credits: 3 - 4
Linguistic description of one African language (such as Arabic, Kikuyu, Shona, Zulu) on various analytic levels, including history of written forms and, where applicable, dialects. Prereq> African 301, 501, 502 or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 575 Methods of Teaching African Languages: Theory and Practice Credits: 3
Theories and teaching methodologies for second language acquisition plus practical classroom techniques for teaching African languages. Prereq> Knowledge of an African language
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

AFRICAN 669 Special Topics Credits: 3
Prereq> Cons chair
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 670 Theories and Methods of Learning a Less Commonly Taught Language Credits: 2
This course is both theoretical and practical. Through reading, discussion, and research, students will explore theories of second language acquisition (SLA) and relate them to self-instructional methods. Each student will test and/or modify one or more theories/methods by putting these self-instructional methods into practice in order to learn a less commonly taught language (LCTL). Students will share their findings in writing and during class discussions, and write a final paper assessing their learning outcomes. This course is intended for those with prior experience in the study of African languages, or advanced study of other foreign languages. Prereq> Students must enroll concurrent
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 681 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

AFRICAN 682 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally
AFRICAN 697 Directed Study of a Less Commonly Taught Language Credits: 3 - 5
Monitored self-instruction of a less commonly taught language. Students will meet individually with the instructor. Requires development of an individualized study plan, bibliographic and online research, work with conversation partners online or in the community, and regular self-assessments. Prereq> Must be taken concurrently with African 670 during the first enrollment.
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFRICAN 698 Directed Study Credits: 1 - 6
Prereq> Graded on a Cr/N basis; requires consent of instructor and Junior or Senior standing
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFRICAN 699 Directed Study Credits: 1 - 6
Prereq> Graded on a lettered basis; requires cons inst and Jr or Sr st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFRICAN 701 Advanced Topics in African Linguistics Credits: 3
Advanced study of a topic in African linguistics. Content will vary with each offering. Prereq> Sr major or Grad & cons inst
L&S Level: Intermediate/Advanced  Typically Offered: Occasionally

AFRICAN 702 African Verbal Stylistics Credits: 3
Linguistic approaches to the verbal arts of Africa, oral, written, and in performance. Prereq> Grad st
Typically Offered: Occasionally

AFRICAN 901 Seminar in Modern African Literature: Women Writers Credits: 3
Special topics. Prereq> Grad st
Typically Offered: Occasionally

AFRICAN 902 Seminar in Traditional African Lit Credits: 3
Topics in oral art forms. Prereq> Grad st
Typically Offered: Occasionally

AFRICAN 903 Seminar in African Linguistics Credits: 3
Prereq> Grad st
Typically Offered: Occasionally

AFRICAN 921 Seminar in Comparison and Classification of African Languages Credits: 3
Diachronic African linguistics, problems of overall classification and comparative methodology, or study of a specific language family. Prereq> African 520, Ling 526, or cons inst
Typically Offered: Occasionally

AFRICAN 925 Seminar in Field Methods in African Languages and Literature Credits: 3
Field methods, techniques, and analytical approaches for students going to Africa to do research into African languages, linguistics, oral traditions, or literature for the Ph.D. dissertation. Seminar alternates yearly, on linguistics one year, oral tradition and/or literature the next.
Typically Offered: Occasionally

AFRICAN 935 Seminar in South African Oral & Written Literatures Credits: 3
One or more problems. Prereq> Grad st
Typically Offered: Occasionally

AFRICAN 950 Seminar on African Thought in Oral Tradition Credits: 3
Prereq> Grad st
Typically Offered: Occasionally

AFRICAN 955 Seminar in African Mythology Credits: 3
Prereq> African 201 or 440 or 470 or 471
Typically Offered: Occasionally

AFRICAN 980 Seminar: Literary Style and Linguistic Form Credits: 3
Prereq> Grad st, cons inst
Typically Offered: Occasionally
AFRICAN 983 Interdepartmental Seminar-African Studies Credits: 3
Interdisciplinary inquiry in African society and culture. Prereq> Grad st or cons inst
Typically Offered: Occasionally

AFRICAN 990 Thesis Credits: 1 - 9
Typically Offered: Occasionally

AFRICAN 999 Independent Reading and Research Credits: 1 - 3
Prereq> Grad st and cons inst
Typically Offered: Occasionally

AFRO-AMERICAN STUDIES

AFROAMER 120 Ideas of Race in Science and Society Credits: 3
Development of scientific concepts of race and intelligence, analysis of current I.Q. controversy, historical
background of the relationship between scientific theory and racism. Prereq> Open to Fr

Black literature and culture during the 1920's. Focus on unique Black literary expression of era, historical background, esthetics, polemical essays. Prereq: Junior standing & two courses in literature
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 603 The Black Arts Movement Credits: 3
Focuses on the notion of blackness as it is developed in the poetry and drama of key figures of the 1960s Black Arts Movement. Emphasizes the emergence of a critical discourse specific to a "new" black aesthetic. Prereq: Junior standing & two courses in literature
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 604 Afro-American Literary Modernism Credits: 3
Comparative analysis of Euro- and Afro-American Modernism. Emphasis on the Epic writings of Hughes, Tolson, Hayden, and Ellison. Prereq: Jr st & minimum of 2 crses in lit
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 605 Critical and Theoretical Issues in Afro-American Literature Credits: 3
A problem oriented course designed to focus on critical and theoretical writings about literature by major 20th century African-American writers. Students will be encouraged to test certain prevailing theories of African-American literature against their own readings of primary and secondary sources and to develop their ideas in a research paper. Prereq: Junior standing and 6 credits of literature
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFROAMER 606 Gender, Race and the Civil Rights Movement Credits: 3
This course focuses on the emerging field of gender studies in the scholarship on the post-World War II civil rights movement in the United States. Prereq: Jr st; inst permission required
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 624 African American Women's Activism (19th & 20th Centuries) Credits: 3
Examines Black women's struggles for racial justices; reconsiders conventional notions of leadership, politics and protest. Topics include abolitionism, anti-lynching campaigns, woman suffrage, labor movement, club movement, cultural expressions, civil rights protest, Black feminism/womanism, poverty and welfare rights, environmental racism, etc. Prereq: So st; instr permission required
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 625 History of the Civil Rights Movement in the United States Credits: 3
Civil rights history from 1930-1970. Legal, historical and economic origins of the civil rights movement. Study of the movement's impact on United States culture, politics, and international relations. Prereq: Jr or Sr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 631 Colloquium in Afro-American History Credits: 3
Readings, discussion, and research seminar for advanced students in Afro-American History. Prereq: Jr or Sr st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
AFROAMER 632 Historiography of Afro-American Studies Credits: 3
Traces the course and development of Afro-American historical studies from their early days to the present.
Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 635 Afro-American History to 1900 Credits: 3
Political, economic, and social development of American Blacks from their removal from Africa to the end of the nineteenth century.  Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFROAMER 636 Afro-American History Since 1900 Credits: 3
An in-depth analysis of social, economic, and political developments within the Black community in twentieth-century America.  Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFROAMER 643 Selected Topics in African Diaspora Art History Credits: 3
Art history of a specific African cultural tradition (eg. Yoruba, Kongo, Fon, Akan) and its transformation in the Caribbean, Central and South America in response to new social, historical, and hegemonic forces.  Prereq> Afro-Amer 241, 242, 243 or consent of instructor
Ethnic Studies: Yes  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFROAMER 662 Selected Topics in Multicultural American Literature Credits: 3
Exploration of the nature of multicultural, comparative American literary studies. Consideration of a formal, thematic or historical topic with emphasis on close reading of texts by African-American, Asian-American, American Indian, Jewish-American, Latino/a, and European-American writers.  Prereq> 6 credits of introductory literature
Ethnic Studies: Yes  L&S Level: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFROAMER 669 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations.  Prereq> Consent of department
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFROAMER 671 Selected Topics in Afro-American History Credits: 3
An intensive analysis of specific themes in the Black American experience. Subjects vary with the instructor.
Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 672 Selected Topics in Afro-American Literature Credits: 3
An intensive analysis of specific themes in the Afro-American experience. Subjects vary with instructor.  Prereq> Junior standing. Students wanting credit in English must have 6 credits of introductory literature
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AFROAMER 673 Selected Topics in Afro-American Society Credits: 3
An intensive analysis of specific themes in the Afro-American experience. The subjects vary with the instructor.
Prereq> Jr st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 674 Selected Topics on Afro-American Artists Credits: 3
Works of Black artists in the U.S. discussed historically in terms of movements which they created and in terms of trends evolving on an international scale. Jr st and cons inst.  Prereq> Jr st and cons inst
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 675 Selected Topics in Afro-American Culture Credits: 3
An intensive analysis of specific themes in the Afro-American experience.  Prereq> Varies with topic
Ethnic Studies: Yes  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
AFROAMER 676 Contemporary Black American Art: History and Criticism Credits: 3
Historical and critical analysis of the visual arts of contemporary Black American artists. Focus on masters of painting, sculpture, and graphic media with particular consideration for historical development and aesthetic value in form and content. Prereq> Afro-Am 242 or cons inst
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 677 Critical and Theoretical Perspectives in Black Women's Writings Credits: 3
Analyses and interpretations of literary works by black women writers through historical, philosophical, political, feminist, and other contemporary critical methods. Prereq> Undergrads: 2 crses in Afro-Amer lit above intro level, or equiv in another dept of lit. No prereq for Grads
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AFROAMER 678 Modern/Contemporary Art of Nigeria and the African Diaspora Credits: 3
This seminar will examine the history of modern and contemporary art in Nigeria and the African diaspora. It will analyze trans-cultural developments in paintings, sculpture, and other media, as it engages globalization, colonialism, Euro-primitivist modernism, postmodernism, postcolonialism, and feminism. Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFROAMER 679 Visual Culture, Gender and Critical Race Theory Credits: 3
Examines tensions between visual and verbal representations that variably construct and negotiate power relations in racialized human experience. Prereq> 3 crses at 300 level or above in any one of the following areas: Afro-Amer studies; art; art hist; com arts; curric & instr
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AFROAMER 681 Senior Honors Thesis Credits: 3
Prereq> Hon candidates & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFROAMER 682 Senior Honor Thesis Credits: 3
Prereq> Hon candidates & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFROAMER 691 Senior Thesis Credits: 2 - 3
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFROAMER 692 Senior Thesis Credits: 2 - 3
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AFROAMER 699 Directed Study in Afro-American Studies Credits: 1 - 6
Prereq> Graded on a lettered basis; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AFROAMER 790 Research and Thesis Credits: 1 - 12
Prereq> Masters st and cons inst
Typically Offered: Occasionally

AFROAMER 801 Historiography, Theory and Methods in Visual Culture Credits: 3
Prepares student for graduate work in the transdisciplinary study of Visual Cultures by building on the knowledge, theories, and methods that are fundamental to the discipline. It will develop skills in critical reading, research, analysis, writing, and oral presentation. Prereq> Grad st & cons inst
Typically Offered: Fall

AFROAMER 802 Visual Cultures: Topics in Visual Cultures Credits: 3
Content will vary to facilitate in-depth engagement of critical facts, theories, and images in specific areas of specialization. Prereq> Graduate standing & consent of instructor
Typically Offered: Fall, Spring

AMERICAN INDIAN STUDIES
AMER IND 100 Introduction to American Indian Studies Credits: 3
Focus is history, social organization, political experience, artistic expression of North American Indians, using methods and materials from a number of disciplines as an introduction to the interdisciplinary field. Prereq> Open to Fr
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 150 American Indians in Higher Education Credits: 1
This is the first semester of a two semester sequence. First semester topics examine issues in environmental studies, medicine, law, business, engineering and education. A secondary focus engages students in critical thinking, writing skills, university life and career decisions. Prereq> Cons inst. Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AMER IND 151 American Indians in the Sciences and Humanities Credits: 1
This course further introduces students to opportunities in higher education for American Indians. Topics include Physical Sciences, Anthropology/Archaeology, Sociology, History, English, and Visual Arts. This course focuses as well on methods used in the field, problem solving, conflict resolution, and simulations. Prereq> Amer Ind 150. Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AMER IND 172 Literatures of Native America Credits: 3
Introduction to the oral and written literatures of the peoples of native North America. An engagement with texts across historical periods, tribal groups, and regions to examine forms such as oratory, sermon, testimony, autobiography, and contemporary poetry and novels. Prereq> Open to Freshmen
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AMER IND 199 Directed Study Credits: 1 - 3
Independent study for freshmen and sophomores in collaboration with a faculty member. Prereq> Open to Fr and So only; cons inst
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AMER IND 208 An Introduction to the Archaeology of Native North America Credits: 3
Introduction for nonspecialists to the findings of archaeological research concerning native North America prior to European contact. Critical concepts for understanding and enjoying the archaeological literature and sites pertaining to America's Indian heritage will be emphasized. Prereq> Open to Fr
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 246 Literature by American Indian Women Credits: 3
Presents a broad range of literatures from diverse Native traditions and eras, to provide students with a basic knowledge of major issues affecting and best-known texts by American Indian women authors. Prereq> Open to Freshmen
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AMER IND 250 Indians of Wisconsin Credits: 3
Introduces students to the various American Indian Nations within Wisconsin's borders with an emphasis on their history, culture, and sovereignty. Examines individual tribes and bands as well as common issues that affect tribal and non-tribal people in Wisconsin. Prereq> Open to all undergraduates
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AMER IND 274 Indigenous Literature of the Great Lakes Credits: 3
A study of the literature and cultural expression of peoples indigenous to the Great Lakes of North America. Close critical examination of formal aesthetics, literary history, and contemporary issues in oral tradition, autobiography, drama, poetry, novel, and film. Prereq> Open to Freshmen
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
AMER IND 275 American Indian Oral Literatures Credits: 3
A study of American Indian oral literature including literature from Wisconsin tribes or from other regions such as Southwest or Great Plains. This course emphasizes Native American storytellers. Prereq> 6 credits of introductory literature or consent of instructor. Open to Freshmen
Ethnic Studies: Yes   L&S Breadth: Literature   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring, Summer

AMER IND 301 First Semester Ojibwe Credits: 3
Introduction to the Ojibwe language, spoken and written, with emphasis on oral tradition and extensive study of grammar. Prereq> Open to Fr
Ethnic Studies: Yes   L&S Breadth: Humanities   L&S Level: Elementary   L&S Credit: Counts for LAS credit   Typically Offered: Fall

AMER IND 302 Second Semester Ojibwe Credits: 3
Continuation of Ojibwe language study, with an emphasis on traditional winter cycle myths. Prereq> Amer Ind 301. Open to Fr
L&S Breadth: Humanities   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Spring

AMER IND 314 Indians of North America Credits: 3
Description and analysis of native cultures, and the role of environmental and historical factors in North America. Prereq> So st or cons inst
Ethnic Studies: Yes   L&S Breadth: Social Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

AMER IND 317 Peoples and Cultures of the Arctic Credits: 3 - 4
Traditional and contemporary cultures of the Eskimos and Indians of the American arctic and subarctic. Limited comparative data from circum-polar peoples of the Old World. Prereq> Anthro 100 or 104 or cons inst
L&S Breadth: Social Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

AMER IND 320 Native Peoples of the Southwest Credits: 3
Overview of Indian Peoples and cultures of the "Southwest" from historic times to present, including discussion of contemporary issues impacting tribes in the southwestern United States. Prereq> Open to all undergraduates
Ethnic Studies: Yes   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

AMER IND 325 American Indians in Film Credits: 3
A critical examination of the portrayal of the American Indian in film, including documentaries and films made by Native filmmakers. Prereq> Amer Ind 100, Com Arts 350 or cons inst
Ethnic Studies: Yes   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

AMER IND 353 Indians of the Western Great Lakes Credits: 3
Description and analysis of Indian cultures in the area around the western Great Lakes, with special emphasis on traditional cultures of the Indians in Wisconsin. Prereq> Anthro 100, 104 or cons inst
Ethnic Studies: Yes   L&S Breadth: Social Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

AMER IND 354 Archaeology of Wisconsin Credits: 3
Introduces students to the archaeological evidence for the diverse Native American cultures of Wisconsin over the past 12,000 years. Prereq> Jr st or cons inst
Ethnic Studies: Yes   L&S Breadth: Social Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

AMER IND 355 Archaeology of Eastern North America Credits: 3
Reviews the archaeological evidence pertaining to native North American lifeways of the eastern woodlands of North America from the earliest arrival of humans more than 12,000 years ago through sustained contact with Europeans. Prereq> Jr st, Anthro 102 or 112, or cons inst
Ethnic Studies: Yes   L&S Breadth: Social Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring
AMER IND 356 Archaeology of Western North America Credits: 3
Reviews the archaeological evidence pertaining to prehistoric Native North American lifeways of the Northwest Coast, the Plateau, the Great Basin, California, and the American Southwest. Emphasis is on significant cultural transitions such as the origins of sedentary villages, ranks and status, the development of agriculture, migration, and trade. Prereq: Anthro 102 or 112 or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 359 American Indian Art History: Contemporary Issues Credits: 3
A thematic introduction to contemporary (1960 - present) Native North American art drawing from historic (pre and post-contact) precedents. Topics are generated from the conceptual themes of contact, conflict, exchange, appropriation and re-appropriation of American Indian imagery, materials, and ideas. Prereq: Open to Fr
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AMER IND 371 Survey of North American Indian Languages Credits: 3
Overview of native languages of North America, including topics such as history, distribution, diversity, government policy, language endangerment, elaboration of cultural domains, language and worldview, speech styles, language structure (phonology, morphology, grammatical categories), performance (narrative, song), writing systems.
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AMER IND 401 Third Semester Ojibwe Credits: 3
Continuation of Ojibwe language study, with emphasis on traditional, seasonal cycle; grammar forms of word deviations. Prereq: Amer Ind 301, 302 or placement. Open to Fr
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AMER IND 402 Fourth Semester Ojibwe Credits: 3
Continuation of Ojibwe language study, emphasizing literary aspects of oral tradition. Grammatical focus on syntax and stylistics. Prereq: Amer Ind 301, 302, 401 or placement. Open to Fr
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AMER IND 431 American Indian Folklore Credits: 3
An introduction to the genres of American Indian Folklore. Special attention is given to creation stories, trickster tales, and the relationship between folklore and historical memory. Prereq: Jr st & one of the following: Anthro 314 or 344; Folklore 100 or 230 or 320; or cons inst
Ethnic Studies: Yes  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AMER IND 437 American Indian Women Credits: 3
Examines and interprets the roles of American Indian women in traditional societies, and in contemporary North America. Prereq: 1 crse in Amer Ind St, Anthro 314 or Women St 223, 101, or 102
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AMER IND 444 Native American Environmental Issues and the Media Credits: 3
Explores public understanding and media coverage of Native American environmental issues including treaty rights, air and water quality, land-into-trust, and sacred sites. Analysis of organizational and structural constraints of media coverage relating to issues of sovereignty and intergovernmental relationships. Prereq: Jr st
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AMER IND 450 Issues in American Indian Studies Credits: 3
Content varies depending on instructor. Special focus on American Indian thought and perspectives on subjects in the arts and sciences. Prereq: Cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AMER IND 466 Modernity in Native American Literatures-Western Hemisphere Credits: 3
Readings in contemporary American Indian genres: poetry, fiction, drama and creative non-fiction. Students who have taken English 649 prior to fall 2014 may not enroll in this course. Prereq: Consent of instructor for Freshmen
Ethnic Studies: Yes  General Education: COM B  L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
AMER IND 467 Contemporary American Indian Literature Since 1953 Credits: 3
A study of American Indian literary and cultural expression since 1953, the year of federal "termination" of Native nations and their subsequent revival. Close critical examination of historical and contemporary themes in autobiography, drama, poetry, and novel. Students who have taken English 650 prior to fall 2014 may not enroll in this course. Prereq> English 172 or consent of instructor
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AMER IND 471 Ethnohistory of American Indian Religious and Political Movements Credits: 3
The course explores the different ways in which American Indian peoples have sought to manage their on-going encounter with Europeans and Euro-Americans by examining a number of cases of intentional cultural change taking the form of religious and political movements. Prereq> 100-level crse in Amer Ind, hist, anthro, soc, or poli sci, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

AMER IND 474 Ethnobotany Credits: 3 - 4
Study of the interactions between human cultures and plants. Topics include: traditional resource management and agriculture; crop domestication, evolution, and conservation; archaeobotany; indigenous knowledge; folk taxonomy; plants in symbolism and religion; dietary patterns; phytochemistry; global movement of plants and peoples. Prereq> A five credit course in botany or biology (e.g., Botany 130, Biology 151) or cons inst
Ethnic Studies: Yes  L&S Breadth: Biological or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

AMER IND 490 American Indian History Credits: 3 - 4
Prereq> Jr St or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 516 Indians and the Spanish Borderlands Credits: 3
Explores the history and legacy of Spanish-Indian relations within the Spanish Empire in North America and centers on the disruptive and adaptive changes initiated by Indian peoples in response to colonialism. Prereq> Jr or Sr St
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AMER IND 522 American Indian Families Credits: 3
Interdisciplinary examination of American Indian families in historical and contemporary contexts. Emphasizes the changing experience and structure of Native families in response to changing political, economic, social, and cultural pressures and policies over the past 200 years and contemporary challenges. Prereq> Jr St
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 546 Writing Tribal Histories Credits: 3
Designed as a research and readings seminar, this course surveys recent approaches to American Indian tribal and reservation histories and allows students to fashion their own tribal and/or community research project. Prereq> 3 cr in Amer Indian studies or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

AMER IND 578 Poverty and Place Credits: 3
The allocation of economic and social rewards in the United States; emphasis on persistently poor regions and communities; analysis of selected minority groups and their poverty statuses; poverty programs and their consequences for structural and cultural changes. Prereq> Intro Soc course (Soc 140, 181, 210, or 211)
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 639 American Indians in Contemporary Society Credits: 3
Analysis of the social, economic, political, and legal status of American Indians in modern U.S. society, with emphasis on the emergence of tribal sovereignty, American Indian ethnic identity, pan-Indianism, and the special social/and economic problems faced by American Indians. Prereq> Intro Soc course (Soc 140, 181, 210, or 211) or Soc 134
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
AMER IND 658 American Indian Affairs Credits: 2 - 3
Contemporary concerns and conditions of American Indians examined in historical, cultural and legal perspective.
Prereq> Jr st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 676 American Indian Lands and Sovereignties Credits: 3
This seminar explores the cultural dimensions of historical and contemporary treaty-making and self-government in North America. Combines an examination of basic concepts, such as "property," "sovereignty," and "identity," with an in-depth analysis of selected case studies. Prereq> Amer Ind 490 or Amer Ind 314 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

AMER IND 699 Directed Study Credits: 1 - 3
Independent study for junior, senior and graduate students in collaboration with a faculty member. Prereq> Jr, Sr or Grad st, and cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

AMER IND 941 Indians and Empires Credits: 3
Examining the centuries of imperial competition in Native America, this seminar explores recent developments in early American Indian history. Prereq> Cons inst
Typically Offered: Occasionally

AMER IND 942 American Indian History, 1800-present Credits: 3
A readings course on American Indian resistance, adaptation, and revival during the U.S. National period. Prereq> Cons inst
Typically Offered: Occasionally

ANTHROPOLOGY

ANTHRO 100 General Anthropology Credits: 3
General understanding of humans in relation to cultures, evolutionary development and racial diversity, capacities for society, and the development of the world's major cultures. Prereq> Open to Fr. Not open to stdts with a prior coll anthro crse
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 102 Archaeology and the Prehistoric World Credits: 3
Introduction to prehistoric world from origins of human culture to the beginnings of written history as revealed by archaeological research at great sites and ruins around the globe. Archaeological analyses of famous prehistoric sites as case studies to illustrate concepts and techniques used by archaeologists in their efforts to understand the rise, florescence, and demise of vanished societies. Prereq> Open to Fr
L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 104 Cultural Anthropology and Human Diversity Credits: 3
Introduction to cultural anthropology for non-majors; comparative cross-cultural consideration of social organization, economics, politics, language, religion, ecology, gender, and cultural change. Includes 25% coverage of U.S. ethnic and racial minorities. Prereq> Open to Fr. Not for cr for those who have taken Anthro 204
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 105 Principles of Biological Anthropology Credits: 3
Genetic basis of morphological, physiological and behavioral variations within and between human populations, and their origins and evolution. Prereq> Open to Fr with HS biology or cons inst
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 106 Human Biology Laboratory Credits: 3
Lab training in the techniques of description and analysis of human morphological variations. Prereq> Anthro 105 or 107, or con reg, or cons inst
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

</table>
ANTHRO 301 Introduction to Linguistics: Descriptive and Theoretical Credits: 3
Elementary theory and practical work in phonetics, phonology, morphology, and syntax, with attention to formal grammar. Prereq: Open to Fr. Stds may not receive cr for both Linguis 101 & 301
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 302 Hominoid Evolution Credits: 3
The evolution of the Hominoida is reconstructed from direct and indirect evidence. Cladistic and phylogenetic analyses are used to study the relationships among species. Interpretations of the fossil record are presented from a historical perspective, focusing on the hominoid-hominid transition. Prereq: Anthro 105 or 107
L&S Breadth: Biological or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 303 Human Skeletal Anatomy Credits: 4
A comprehensive examination of skeletal anatomy at both the gross and histologic levels; methods for the archaeological identification of skeletal fragments; criteria for the estimation of age, sex, stature, and other aspects of forensic anthropology. Lecture and lab. Prereq: Anthro 105, 107, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 304 Heredity, Environment and Human Populations Credits: 3
Cultural and ecological factors influencing the composition and structure of human population; expression and distribution of genetic characters within and between populations; racial differences, race formations; constitutional studies, mating systems and their genetic consequences. Prereq: Cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 305 Chicanos in Ethnographic Representation Credits: 3
Develops a critical perspective from which to analyze the portrayal, depiction and analysis of Chicanos in social science and ethnographic literature. Prereq: Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 306 Art and Anthropology Credits: 3 - 4
Styles, techniques, and aesthetics of nonliterate people; their relation to other aspects of culture; prehistoric and contemporary art; recent influences. Prereq: Intro crse in anthro or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 307 Urban Anthropology Credits: 3
An integrated anthropological view of the city and urbanization as a human and cultural phenomenon, including major theories and concrete data from both 'first', 'second' and 'third' worlds, emphasizing the continuity of urban development from the first cities until now. Prereq: Anthro 104 or 204 or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 309 Prehistoric Europe Credits: 3
European prehistory from the earliest evidence of human occupation up to the threshold of the Classical Greek and Roman civilizations. Prereq: Anthro 112 or 321 or Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 310 Topics in Archaeology Credits: 3
Selected areas, periods or problems in archaeology. Prereq: Variable
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 311 Archaeological Chemistry Credits: 3
Introduction to laboratory analysis with particular reference to artifactual and non-artifactual remains. Lectures cover methods and interpretation of results; laboratory involves application of methods to archaeological materials. Prereq: Cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 314 Indians of North America Credits: 3
Description and analysis of native cultures, and the role of environmental and historical factors in North America. Prereq> So st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 317 Peoples and Cultures of the Arctic Credits: 3 - 4
Traditional and contemporary cultures of the Eskimos and Indians of the American arctic and subarctic. Limited comparative data from circum-polar peoples of the Old World. Prereq> Anthro 100 or 104 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 318 Peoples and Cultures of Africa Credits: 3 - 4
Native peoples and cultures with their changes and status under European domination and since independence. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 319 Peoples and Cultures of the Pacific Credits: 3
Native races and cultures of the Pacific as material for study of cultural development. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 321 The Emergence of Human Culture Credits: 3
Worldwide archaeological evidence for the development of human culture and behavior from the earliest appearance of human groups to the threshold of the agricultural revolution. Prereq> Prior crse in archaeology, So st, or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 322 The Origins of Civilization Credits: 3
Global archaeological survey of the origins of pristine civilizations beginning with the development of food production and ending with the emergence of the world's first civilizations. Focus of attention: Near East, Egypt, the Indus Valley, North China, Mesoamerica, and Peru. Prereq> Anthro 112 or 321 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 324 Indians of Middle America Credits: 3 - 4
Comparison and analysis of native cultures in Mexico and Guatemala, with emphasis on the principal ecological and historical factors which have influenced their development. Prereq> Anthro 100 or So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 326 Peoples of the Andes Under Inca and Spanish Rule Credits: 3
The Inca Empire and its subject peoples as seen through chronicles, the archaeological record, and unconventional sources; the European invasion; resistance, millenarism, and the emergence of modern Andean culture from the colonial matrix; the great insurrections; submersion and rediscovery of Andean institutions in the Republics; roots of modern ethnic conflict. Prereq> Anthro 112 or 321 or Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 327 Peoples of the Andes Today Credits: 3
Modern Quechua and Aymara-speaking peoples in Ecuador, Peru, and Bolivia: high-altitude herding and farming; Andean models for social organization; land-centered belief and ritual; ethnic discrimination and responses to it; transformations of the Andean cultures in urban and mining settings. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 328 Peoples and Cultures of Insular Southeast Asia Credits: 3 - 4
Representative ethnic groups and indigenous cultures of Taiwan, Philippines, Malaysia, Indonesia, Madagascar. Culture change in the area, with consideration of the impact of Indian, Islamic and European civilizations, and problems of contemporary cultures. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 329 The Anthropology of Lowland South America Credits: 3
Introduction to the anthropology of Lowland South America. Topics covered will include ecology, social organisation, ritual and shamanism, myth, warfare, cannibalism, gender relations, ethnicity, tribal society and the frontier, ethnographic writing and the use of historical materials. Prereq> So st or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 330 Topics in Ethnology  Credits: 3 - 4  
Content varies. Some representative topics: peoples and cultures of the European part of the USSR, peoples and cultures of Soviet Asia, anthropology of space and time, anthropology and history, pastoralists and pastoral Nomads, American Indian folklore, etc.  Prereq> Intro crse in cult anthro or cons inst  
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 331 Archaeology of Middle America  Credits: 3 - 4  
Development of the higher native civilizations of Meso-America as seen through archaeology; greatest emphasis placed on the Maya and Aztec of Mexico and Guatemala, but comparisons made with other parts of the New World.  Prereq> Anthro 100 or So st  
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 332 Archaeology of South America  Credits: 3 - 4  
The development of the higher native civilizations of South America as seen through archaeological data; greatest emphasis: the Andean region, but comparisons made to other parts of the New World.  Prereq> Anthro 112 or 321 or Jr st or cons inst  
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 333 Prehistory of Africa  Credits: 3  
A survey of the archaeological record of human development in Africa, beginning over two million years ago and continuing through the transition to farming and metallurgy; greatest emphasis on the stone age portion of prehistory.  Prereq> Anthro 112 or 321 or cons inst  
L&S Breadth:  Social Science  L&S Level:  Intermediate/Advanced  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 334 Civilization of Ancient Mexico  Credits: 3 - 4  
Description of Indian culture and society on the eve of Spanish conquest; rise of Meso-American civilization as seen from oral tradition and native pictorial manuscripts; adaptation of Indian life to Spanish rule.  Prereq> Anthro 100 or So st  
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 335 The Ancient Maya  Credits: 3  
A multi-faceted examination of the prehispanic Maya of southern Mexico and Central America that integrates archaeological and written sources. Special attention is given to the rise of lowland Maya civilization and its eventual dissolution.  Prereq> An intro crse in anthro or So st  
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 336 The Ethnography and Folklore of American Jewry  Credits: 3 - 4  
The culture of American Jewry is examined with special reference to its myths and rituals. Readings include the major monographs on the subject drawn from a variety of disciplines including history, anthropology, folklore, sociology, literature and religious studies.  Prereq> So or Jr st  
Ethnic Studies: Yes  L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 337 Arctic Archaeology  Credits: 3  
Reviews the archaeological data for the arctic and subarctic regions of Siberia, Alaska, Canada, Greenland, and Iceland. Emphasis will be on social and technological adaptations to arctic landscapes, the effects of global climatic change on arctic adaptations, foraging and mobility strategies of north hunters and gatherers, and the historical development of northern societies.  Prereq> Anthro 102 or 112  
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 338 Introduction to Prehistory and Archaeological Principles  Credits: 4  
Distance learning course that introduces the history, foundations, methods, and theories of modern anthropological archaeology. Provides experience with the analytical methods used by archaeologist through web-based laboratory exercises.  Prereq> Stdts may not receive cr for both Anthro 112 & 338  
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 339 Studies in Folk and Ethnic Genres in Performance  Credits: 3  
Folklore and performance theory: Modes of performance.  Prereq> Jr st or cons inst  
L&S Breadth:  Humanities  L&S Level:  Intermediate/Advanced  L&S Credit:  Counts for LAS credit  Typically Offered: Occasionally
ANTHRO 342 Cultures of Afro-America Credits: 3
Comparison of those parts of the New World where peoples of African descent provided a majority or major minority of the population, such as the British, French, Spanish and Dutch Caribbean and Brazil. Topics: persistence of African culture elements, slavery, the plantation system, agricultural peasant communities, problems of household and family organizations, and concepts of race class. Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 343 Anthropology of Religion Credits: 3 - 4
Anthropological approaches. Illustrated by critical considerations of outstanding contributions. Selected religious systems; areal and topical comparative studies; religion as an ethnographic problem. Prereq> Anthro 104 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 344 Anthropological Approaches to Folklore Credits: 3
Folklore as cultural process. Reviews interdisciplinary history of theories and methods, examining folklore in terms of genres, performance, cultural construction of gendered identities, sociology of knowledge, domination and resistance. Involves field collections. Enrollment limited to 25. Prereq> Anthro 100, 104, 204 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 345 Family, Kin and Community in Anthropological Perspective Credits: 3
Comparison of the form and function of such social institutions as marriage and the family, age and sex groups, secret societies, task groups, and class in cross-cultural perspective. Prereq> Anthro 104 or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 346 Peoples and Cultures of Russia Credits: 3 - 4
Focuses on the main characteristics of Russian society and culture in their historical development and ethnic diversity. Prereq> Jr or Sr st; others with cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 347 Field Methods and Problems Credits: 3 - 6
Survey of methods of field work in cultural anthropology; design of field studies; techniques for collection and analysis of empirical data; experimental field projects. Prereq> Anthro 300 or 340 and Jr st, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 348 Economic Anthropology Credits: 3 - 4
Production, distribution and consumption in nonliterate societies; land tenure and personal property concepts, prestige systems, and incentives to labor. Prereq> Anthro 104 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 350 Political Anthropology Credits: 3 - 4
Comparison and analysis of political structures, behavior and processes among selected peoples of the world; special emphasis on leadership, authority, power, and the origins of the states; the relevance of primitive political systems to anthropological theory and to the comparative study of politics. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 352 Ancient Technology and Invention Credits: 3
The origins and development of early technologies. Impact of key prehistoric and pre-industrial inventions on the course of human evolution. Prereq> Intro archaeol crse or cons inst
General Education: COM B  L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 353 Indians of the Western Great Lakes Credits: 3
Description and analysis of Indian cultures in the area around the western Great Lakes, with special emphasis on traditional cultures of the Indians in Wisconsin. Prereq> Anthro 100, 104 or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 354 Archaeology of Wisconsin Credits: 3
Introduces students to the archaeological evidence for the diverse Native American cultures of Wisconsin over the past 12,000 years. Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 355 Archaeology of Eastern North America Credits: 3
Reviews the archaeological evidence pertaining to native North American lifeways of the eastern woodlands of North America from the earliest arrival of humans more than 12,000 years ago through sustained contact with Europeans. Prereq> Jr st, Anthro 102 or 112, or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 356 Archaeology of Western North America Credits: 3
Reviews the archaeological evidence pertaining to prehistoric Native North American lifeways of the Northwest Coast, the Plateau, the Great Basin, California, and the American Southwest. Emphasis is on significant cultural transitions such as the origins of sedentary villages, ranks and status, the development of agriculture, migration, and trade. Prereq> Anthro 102 or 112 or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 357 Introduction to the Anthropology of Japan Credits: 3 - 4
Japanese culture from anthropological perspectives. Emphasis on the order of meaning which serves both as model for and model of the day-to-day behavior and thought processes of the Japanese. Prereq> Jr st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 358 Anthropology of China Credits: 3
Topics of immediate concern to the field of anthropology and Chinese studies. Focus on social and cultural changes in rural, urban, as well as ethnic minority settings in post-1949 China. Prereq> So st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 361 Elementary Quechua Credits: 4
Phonology and morphology; concentration on the acquisition of conversational skills; reading of texts of graded difficulty; three hours classroom and one hour lab. Prereq> Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Summer

ANTHRO 362 Elementary Quechua Credits: 4
Continuation of 361. Prereq> Anthro 361 or cons inst. Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring, Summer

ANTHRO 363 Intermediate Quechua Credits: 4
Advanced morphology and syntax; advanced conversation and composition; cultural background of Quechua speaking peoples through reading of myths, legends and folktales. Prereq> Anthro 362 or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 364 Advanced Quechua Credits: 4
Continuation of advanced conversation and composition; cultural background of Quechua-speaking peoples through reading of myths, legends, folktales; problems in dialectology. Prereq> Anthro 363 or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 365 Medical Anthropology Credits: 3
The ecology of health and disease in human cultures; health-related social systems and behavior cross-culturally; practical implications of medical anthropology for improving the health of specific populations. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 366 Intensive Introductory Quechua Credits: 6
Intensive initial course in Quechua language, emphasizing grammar and conversation. Summer session intensive format covers elementary level and includes early stages of intermediate learning. Prereq> Jr, Sr, or Grad st, or cons inst; stdts may not receive credit for both 366 & 361
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Summer

ANTHRO 369 Peoples and Cultures of Central and Eastern Europe Credits: 3 - 4
The course will provide the students with the basic information and a body of ethnographic/cultural/historical data on a variety of peoples of Central and Eastern Europe. Prereq> Jr, Sr, or Grad st, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 370 Field Course in Archaeology Credits: 3 - 6
An introduction to the techniques of field archaeology, including site survey, mapping, and excavation by participation in an actual archaeological field project. Also instruction in the description and analysis of artifacts. The site(s) excavated vary each year. Normally, residence off campus beyond commuting distance to Madison. At least 5 full work days per week usually required. Prereq> Anthro 102 or 112 or 321 & cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Summer

ANTHRO 372 Jews of Central and Eastern Europe Credits: 3 - 4
Course will focus on main characteristics of Central and Eastern European Jews (Ashkenazim) in their cultural-historical development. Prereq> So st or cons inst. Open to Fr with cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 374 The Anthropology of War Credits: 3
Introduces anthropological approaches to the study of war: topics will include theoretical explanations, the development of military organization and technology, peace, the rituals of war, war and society, and the ethnography of violent death. Prereq> So st
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 375 Introduction to Human Population Biology Credits: 3
Basic principles of Mendelian and population genetics; geographic variation in genetic markers among human populations and hypotheses about the establishment and current maintenance of such variation; genetic consequences of assortative mating and inbreeding; human adaptation to extreme environments. Prereq> Math 101, Anthro 105 or intro crse in biol or zoo, or cons inst. Zoo/Botany/Genetics 160 recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 376 First Semester Yucatec Maya Credits: 4
Introduction to Yucatec Maya language. Focus on acquiring vocabulary and grammar for basic conversational proficiency. Taught through in-class oral and aural exercises, language tapes, and primary texts. Students also learn about Maya culture, history, folklore, and language politics. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 377 Second Semester Yucatec Maya Credits: 4
Continued introduction to Yucatec Maya language. Focus on acquiring vocabulary and grammar for basic conversational proficiency. Taught through in-class oral and aural exercises, language tapes, and primary texts. Students also learn about Maya culture, history, folklore, and language politics. Prereq> Anthro 376. Open to Fr
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 390 Culture and Economy in Southeast Asia Credits: 3
Emphasis on how the indigenous social, political, and ecological features of Southeast Asian societies have been altered by confrontation with commercialization, colonial role, and modern capitalist development. Focus on changing relations of gender, kinship, ethnicity, and class in cultural change. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 391 Bones for the Archaeologist Credits: 3
An introduction to the principles and techniques in the identification and interpretation of animal bones. Short lectures and weekly laboratory exercises; analysis of an archaeological bone assemblage. Prereq> Intro archaeol crse or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 392 Ceramic Analysis in Archaeology Credits: 3
Principles and techniques of ceramic analyses used by archaeologists. Lectures and laboratory exercises. Prereq> Intro archaeol crse or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 393 Lithic Analysis in Archaeology Credits: 3
Procurement, manufacture, use, and analysis of stone artifacts. Lecture and laboratory sessions. Prereq> Prior crse in archaeology. So st
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 394 Data Analysis in Archaeology Credits: 3
Quantitative analysis of archaeological data; definition and recording of measurements; computer storage and analysis of data; elementary statistical procedures for description and analysis. Prereq> Prior crse in archaeology. So st
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 408 Introduction to Primates Credits: 3
History of primatology, definition of the order Primates, basic aspects of classification, taxonomy, geographical distribution, morphology, reproduction and development of the major taxa in the order. Prereq> Anthro 105 or 107 or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 410 Evolutionary Biology Credits: 3
Evolutionary biology, emphasizing how modern scientists study evolution. Topics include: nature and mechanisms of microevolution, macr evo lution, adaptation, speciation; systematics and taxonomy; quantitative genetics and measurement of natural selection; phylogenetic analyses of behavior, physiology, morphology, biochemistry; current controversies in evolution. Prereq> An elem course in zool or botany & So st; Genetics/Botany/Zool 160 or 466 recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 411 The Evolution of the Genus, Homo Credits: 3
Course will focus on the course of human evolution beginning with the Pliocene appearance of our genus, Homo, and ending with the worldwide spread of modern Homo sapiens sapiens throughout the Old World. Prereq> Anthro 105, or 107, or 302, or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 414 Bioarchaeology: Human Life from the Skeleton Credits: 3
Course will focus on elucidating biological characteristics from skeletal and other biological remains recovered in archaeological contexts. Prereq> Anthro 303 or 391, or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 424 Historical Anthropology Credits: 3
An introduction to historical approaches in anthropology: topics covered include early theories, evolutionism, ethnohistory, culture change, ritual and symbolic transformation, indigenous/oral histories, conceptions of time and the analysis of texts and visual images. Prereq> So st
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 430 Language and Culture Credits: 3 - 4
The relationship of language as a communication system to the culture transmitted by it. Principle problems in the interrelations of language and nonlinguistic human behavior. Prereq> So st or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 431 American Indian Folklore Credits: 3
An introduction to the genres of American Indian Folklore. Special attention is given to creation stories, trickster tales, and the relationship between folklore and historical memory. Prereq> Jr st & one of the following: Anthro 314 or 344; Folklore 100 or 230 or 320; or cons inst
Ethnic Studies: Yes  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 434 Paleontology of the Primates Credits: 3
Principles and history of primate evolution, including the emergence of humans, as seen from the fossil record. Particular attention to the early hominid phase of human evolution. Prereq> Zool 410 and cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 437 American Indian Women Credits: 3
Examines and interprets the roles of American Indian women in traditional societies, and in contemporary North America. Prereq> 1 crse in Amer Ind St, Anthro 314 or Women St 223, 101, or 102
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
ANTHRO 438 Functional and Evolutionary Biology of Primates Credits: 3
Lab. Comparative study of dental, cranial, and postcranial skeletal morphology in primates from a functional and evolutionary perspective. In-depth analysis of the behavioral-structural interface. Prereq> Anthro 408, 458, or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 439 Comparative Anatomy of Non-Human Primates Credits: 3 - 4
Course will focus on the variation in musculoskeletal systems in living nonhuman primates specifically: human, chimpanzee, and rhesus macaque. Dissection or prosection of rhesus is included. Variation is considered from an evolutionary perspective. Prereq> Anthro 408, 438, Psych 201, or Anthro 458, or cons inst. Anthro 303 recommended
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 440 Introduction to Anthropological Research Credits: 3
Supervised research on topics selected by students. Working independently or in small groups, students investigate problems in depth and report their conclusions. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 441 Peoples and Cultures of the European Parts of the Ex-Soviet Union Credits: 3
Main characteristics of peoples living in the European parts of the ex-Soviet Union. Topics covered: physical anthropological data, languages, ethnogenesis and ethnic history, traditional and modern economies, social and political institutions, religion, modernization, and current transformations. Prereq> Jr st or So st with cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 442 Peoples and Cultures of Ex-Soviet Asia Credits: 3
Main characteristics of peoples living in ex-Soviet Asia. Topics covered: physical anthropological data, languages, ethnogenesis and ethnic history, traditional and modern economies, social and political institutions, religion, and current transformations. Prereq> Jr st or So st with cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 443 Anthropology by Women Credits: 3
Contributions of women anthropologists to feminist and anthropological theories and research methods. Field research and gender. Current debates in women's studies and anthropology in light of recent research on women and gender in cross-cultural perspective. Prereq> So st; one women st crse or one anthro crse or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 448 Anthropology of Law Credits: 3
A comparative examination of the legal realm of tribal and peasant societies as seen in cross-cultural perspective. Describes the relationship of law to anthropology, presents theories of change of legal systems and provides ethnographic case studies. Prereq> Jr st or cons inst
L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 450 Illness and Healing in Anthropological Perspective Credits: 3
Illness perception and therapeutic systems of non-biomedical tradition in their relationship to culture and society. An emphasis on non-Western societies but some comparisons with biomedical science. Prereq> Anthro 104 or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 453 Study Abroad: Topics in Archaeology Credits: 1 - 6
A course carried with a UW-Madison study abroad program which has no equivalent on this campus. Prereq> Current reg with a UW-Madison study abroad prog
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 454 Study Abroad: Topics in Biological Anthropology Credits: 1 - 6
A course carried with a UW-Madison study abroad program which has no equivalent on this campus. Prereq> Current reg with a UW-Madison study abroad program
L&S Breadth: Biological or Soc Sci  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 455 Study Abroad: Topics in Cultural Anthropology Credits: 1 - 6
A course carried with a UW-Madison study abroad program which has no equivalent on this campus. Prereq> Current reg with a UW-Madison study abroad program
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 456 Symbolic Anthropology Credits: 3 - 4
The study of society through the analysis of symbolic systems. Myth, cosmology, ritual, political symbolism, the symbolic study of kinship, symbols and social change. Prereq> Jr st & Anthro 104 or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 458 Primate Behavioral Ecology Credits: 3
Primate behavior examined from an evolutionary and ecological perspective, focusing on adaptations to the social and non-social environment. Topics include: nepotism, reciprocity, competition, cooperation, and sex differences; the ecological role of primates in their communities is discussed. Prereq> Anthro 105, 107, or equiv, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 462 Anthropology of South Asia Credits: 3
Examines dominant intellectual paradigms informing anthropology of South Asia. Topics include debates on caste, kinship, socialization, religions, applied anthropology. Primary focus India but students may write research paper on any South Asian country. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 467 Peoples and Cultures of Northern India and the Himalayas Credits: 4
Prehistory and regional variations and interrelations of caste and tribal cultures in India north of the Vindhya Mountains. Similarities and contrasts of North Indian and neighboring cultures. Prereq> So st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 470 Ecological Anthropology Credits: 3
The comparative study of human populations in ecosystems. Relations between culture and the bio-physical environment, with the focus on cultural adaptation. Implications for anthropological theory, sociocultural evolution and contemporary problems. Prereq> Intro crse in anthro
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 471 Ethnohistory of American Indian Religious and Political Movements Credits: 3
The course explores the different ways in which American Indian peoples have sought to manage their on-going encounter with Europeans and Euro-Americans by examining a number of cases of intentional cultural change taking the form of religious and political movements. Prereq> 100-level crse in Amer Ind, hist, anthro, soc, or poli sci, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 474 Ethnobotany Credits: 3 - 4
Study of the interactions between human cultures and plants. Topics include: traditional resource management and agriculture; crop domestication, evolution, and conservation; archaeobotany; indigenous knowledge; folk taxonomy; plants in symbolism and religion; dietary patterns; phytochemistry; global movement of plants and peoples. Prereq> A five credit course in botany or biology (e.g., Botany 130, Biology 151) or cons inst
Ethnic Studies: Yes  L&S Breadth: Biological or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 477 Anthropology, Environment, and Development Credits: 3
Identifies and examines cultural and environmental factors which should be taken into account in planning effective development. Case studies of development programs in less developed countries. Possible contributions of anthropologists and environmental scientists in planning, implementing, and evaluating development programs. Prereq> An intro course in anthro or envir st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
ANTHRO 490 Undergraduate Seminar Credits: 3
Discussion and preparation of reports on specific topics indicated by changing title of seminar. Prereq> Jr st and cons inst. Not open to Grad stdts; intro crse appropriate to the topic
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 520 Ethnic Representations in Wisconsin Credits: 4
Representation and self-representation of ethnic cultures in Wisconsin. For example: museums, mass media, ethnic theater. Involves field work and/or archival research. Prereq> Anthro 300 or Folklore 200 or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 528 Anthropology of Drugs Credits: 3
Review the current state of anthropological studies of drugs and examine various approaches taken to the subject. Cover a broad range of drugs, from spices and stimulants, through tobacco and alcohol, to cocaine and heroin. Prereq> So st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 539 The Folklore of Festivals and Celebrations Credits: 3
Survey of interdisciplinary literature on social/performance folklore aesthetics and environments by in-depth study of three festivals and ceremonies. Required field trips. Prereq> Jr st or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 545 Psychological Anthropology Credits: 3
Survey of psychologically oriented approaches in cultural anthropology: ethnopsychiatry, the ethnography of emotion, conceptions of the self, cognitive development, and culturally defined deviance and mental illness. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 570 Anthropology and Education Credits: 3
The current and historical relation of anthropology to education with particular reference to culture contact and social change, cultural perspectives on education and educational systems, learning as cultural transmission, and application of anthropological knowledge to curriculum. Prereq> Jr st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 600 Seminar in Forensic Anthropology Credits: 3
Methods and procedures for the identification of human skeletal remains, including cause of death, ethnic affiliation, sex attribution, estimation of age, stature, and body weight. Seminar presentations and laboratory training and, when appropriate, observation and possible participation in autopsies on actual cases of unidentified human remains. Prereq> Anthro 303, or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 601 Proseminar in Biological Anthropology Credits: 3
A comprehensive overview of the major theoretical developments and debates in biological anthropology. Topics include the concept of adaptation, molecular and population genetics, the fossil record, and the interaction between genes, social behavior and culture. Prereq> Anthro 105 or 107 or cons inst; Jr, Sr, or Grad st
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 603 Seminar in Evolutionary Theory Credits: 3
Evolutionary theory relevant to human evolution including morphological, behavioral and genetical aspects. Prereq> Cons inst & instruction in morphology, heredity, & stat
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 604 Seminar: Topics in Physical Anthropology of the Living Credits: 3
Theory and practice of techniques in measurement and description of human variation. Topics change. When the topic warrants, lab sessions. Cons inst. Prereq> Grad st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 605 Seminar-Current Problems in Paleoanthropology Credits: 3
Research with attention on the evolutionary biology of hominids. Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 606 Ethnicity, Nations, and Nationalism Credits: 3 - 4
Analytical treatment of current anthropological approaches to the study of ethnicity, nation, and nationalism accompanied by case studies. Prereq> Sr or Grad st or cons inst
Ethnic Studies: Yes  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 619 Biology of Mind Credits: 3
Origins and structures of mind, brain, and consciousness. Transitions from early mammalian through primate to hominid intelligence. Genetics and plasticity in brain development. Modern studies of human brain mechanisms and consciousness. Prereq> Jr st; college level elem crse in biology or psych  
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 622 Cross-Cultural Spread of World Religions Credits: 3 - 4
A review of the origins, spread, and competition of three world religions: Christianity, Islam, and Buddhism in cross-cultural perspective. Prereq> Sr or Grad st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 632 Linguistic Anthropology Credits: 3
Ethnological analysis of linguistic systems and linguistic approaches to sociocultural systems including: ethnopoetics; folk biology; ethnography of speaking, discourse and pragmatics; semiotic interpretation of social behavior; cultural reconstruction for linguistic data. Prereq> Intro crse in linguis or anthro, or cons inst, or grad st
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 635 Visual Anthropology Credits: 3
Course is designed to create familiarity with the use of photography in anthropological research. Prereq> Anthro or folklore major or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 639 Field School: Ethnography of Wisconsin Festivals Credits: 6 - 8
A review of key methodological and theoretical approaches for studying festivals, in situ observation of summer festivals and small town folk and ethnic museums, and supervised writing and photographic assignments. Prereq> Cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Summer

ANTHRO 640 Problems in Biocultural Research Credits: 3
Supervised research on selected problems such as nutrition, disease, adaptation to extreme environments, industrial accidents, etc. Seminar format, students work independently or in small groups, to integrate biological and cultural data on aspects of the problem focus of the semester. Progress reports made orally throughout the course. Prereq> Jr, Sr, or Grad st and cons inst not ltd to majors in anthro
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 641 The Evolution of Human Diet Credits: 3 - 4
Diet as constrained by nutritional requirements throughout primate and human evolution. Topics covered: primate diets as models, diets of our primate and human ancestors, early agriculturalists, and modern gatherer-hunters. Prereq> Anthro 105 or 107 or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 650 Peasantries Credits: 3
An intensive theoretical and empirical introduction to peasantries in cross-cultural and historical perspective with particular attention to the cultural and class context of economic behavior and systems of belief which shape the nature of peasant participation in social change. Prereq> Jr st and cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 658 Ecological Models of Behavior Credits: 3
Examines the theoretical assumptions and empirical development of optimality models in behavioral ecology and social evolution, and applies these models to the evolution of body size and life history variables, foraging, social organization, cognition, and reproductive strategies. Prereq> Jr, Sr, or Grad st or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 660 Proseminar: History of Buddhism and Buddhist Social Institutions Credits: 3
A workshop on the promises and problems of reconstructing the religions and social lives of Buddhists in medieval India. Prereq> Jr st & two crses at 300 level or higher in Asian religions or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 666 The Anthropology of Shamanism and Occult Experience Credits: 3
Shamanism is a global form of religious practice involving direct contact with the spirit world through ecstatic and magical techniques. This course examines shamanic practice and considers allied forms of occult experience outside of the major world religions. Prereq> So st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 668 Primate Conservation Credits: 3
Evaluates the conservation status of non-human primates, and considers why different species are vulnerable to different kinds of threats. The ways in which regional and global conservation policies are developed and implemented will also be discussed. Prereq> Anthro 458 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 670 Proseminar-The Culture of Buddhist Tibet Credits: 3
As shaped by the influence of Buddhism. The Tibetan Buddhist economy. Sectarian subdivisions and political centers. Links to India and China, Tibet and Europe. Tibetan culture beyond the Himalayas. Present-day Tibetan Buddhist culture. Prereq> Cons inst & Sr or Grad st
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 675 Pastoralists & Pastoral Nomads in Cross-Cultural Perspectives Credits: 3
Comparative study of pastoralism/pastoral nomadism. Topics include the origins of animal husbandry and pastoral nomadism, main ecological, economic, sociopolitical and cultural characteristics of pastoralists and pastoral nomads, and the problem of their modernization. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 676 American Indian Lands and Sovereignties Credits: 3
This seminar explores the cultural dimensions of historical and contemporary treaty-making and self-government in North America. Combines an examination of basic concepts, such as "property," "sovereignty," and "identity," with an in-depth analysis of selected case studies. Prereq> Amer Ind 490 or Amer Ind 314 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ANTHRO 677 Public Monuments and Symbols Credits: 3
Focus on public monuments and symbols as a means through which the citizens of the modern state are socialized and common identities are changed, as well as on their role in social and cultural change. Prereq> Jr st or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ANTHRO 678 Global AIDS: Interdisciplinary Perspectives Credits: 3
Exploration of the global HIV/AIDS pandemic from social scientific, epidemiological, and humanistic perspectives. Course is directed by lead faculty from sponsoring departments, but also includes regular visiting lecturers from the UW and beyond. Prereq> Jr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ANTHRO 681 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 682 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 690 Problems in Anthropology Credits: 3 - 4
Independent research in specific problems in physical anthropology, archaeology, or cultural anthropology; under supervision. Prereq> Cons inst or Jr or Sr major or Grad st
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ANTHRO 691 Senior Thesis Credits: 2
Prereq> Cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 692 Senior Thesis Credits: 2
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ANTHRO 696 Archaeological Methods of Curation Credits: 1 - 3
Practicum in the curation of prehistoric stone, bone, and ceramics. Involves handling materials, identification of artifacts, conservation techniques, preparation of materials for storage or display. Prereq> Prior coursework in archaeology and cons instr
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 698 Directed Study Credits: 1 - 6
Prereq> Jr or Sr st. Graded on a Cr/N basis. Previous or con exposure to the same subj on an intmed level; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 699 Directed Study Credits: 1 - 6
Letter graded. Prereq> Previous or con exposure to the same subj on an intmed level, Jr or Sr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ANTHRO 774 Methods for Historical Research in Non-Literate Societies Credits: 3
Techniques and critical analysis applied to written, oral, archaeological, linguistic and cultural data. Stresses problems of synthesis. Exercises. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ANTHRO 800 Proseminar in Archaeological Method and Theory Credits: 3
Reading and discussion of techniques of data analysis, archaeological concepts, environmental archaeology, ethnohistory, and archaeology and anthropology. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ANTHRO 801 Proseminar-Archaeological Problems Credits: 3
In-depth coverage of selected areas, periods, and problems in contemporary archaeology based on reading, discussion, and lectures. Prereq> Grad st or Sr st
Typically Offered: Occasionally

ANTHRO 840 Proseminar in Cultural Anthropology Credits: 4
Selected theoretical topics in social, political, economic, and religious systems/organization. Intensive survey of literature and analysis of relevant materials. Prereq> Grad st; Anthro 340, 343, 345 or equiv or cons inst
Typically Offered: Occasionally

ANTHRO 860 History of Anthropological Theory Credits: 3
Intellectual history of the major theoretical debates and key figures in cultural anthropology up to the 1960's. Prereq> Grad st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  Typically Offered: Occasionally

ANTHRO 900 Fundamentals of Anthropological Theory Credits: 3
Seminar introducing students to fundamentals of anthropological thought using a cross-section of basic works in social science. Emphasizes discussion, critical analysis, and development of professional writing skills. Prereq> Grad st
L&S Level: Advanced  Typically Offered: Occasionally

ANTHRO 901 Intradisciplinary Seminar-Anthropology Credits: 2 - 3
Prereq> Grad st in Anthro or cons inst
Typically Offered: Occasionally

ANTHRO 905 Seminar-Human Biobehavioral Ecology Credits: 3
Interrelationships between systems of exploitation of natural resources and population dynamics exhibited by hunting, semi-agricultural, and stock-breeding populations. Population density, technology, physiological and cultural adaptation, differential reproduction, multiple uses of flora and faunal resources, knowledge of animal behavior, and cultural practices enhancing expansion, restructuring, or migration. Prereq> Grad st or cons inst
Typically Offered: Occasionally
ANTHRO 906 Methods and Hypothesis-Testing for Behavioral Ecologists Credits: 1 - 3
A detailed overview of field methods for behavioral ecologists, focusing specifically on behavioral and ecological sampling techniques. It addresses the challenging process of situating an empirical study within the context of theoretical paradigms. Prereq: Grad st or cons inst
Typically Offered: Occasionally

ANTHRO 909 Research Methods and Research Design in Cultural Anthropology Credits: 3
Theoretical and practical aspects of ethnographic research; history of field research in anthropology; research design issues; writing proposals; the fieldwork experience; methods of field data collection; ethical issues; data interpretation and analysis; writing ethnography. Prereq: Grad st or cons inst
Typically Offered: Occasionally

ANTHRO 910 Seminar in Historical Anthropology Credits: 3
Introduces current key texts in the field of historical anthropology and the fundamentals of methodology in historical ethnography. Emphasis is given to discussion, critical analysis and the development of research projects. Prereq: Grad st
L&S Level: Advanced Typically Offered: Occasionally

ANTHRO 914 Seminar-Ethnological Problems in North America Credits: 3
Of selected regions or areas of Indian cultures in North America and the interrelationships between regions. Prereq: Grad st and cons inst
Typically Offered: Occasionally

ANTHRO 915 Seminar-Ethnological Problems in South America Credits: 3
Theoretical problems and approaches in ethnology as exemplified in descriptive and analytical literature pertaining to non-Iberian, non-state organized peoples of historical and contemporary South America. Student concentrates upon specific research problems chosen in consultation with instructor. Prereq: Grad st or cons inst
Typically Offered: Occasionally

ANTHRO 917 Globalization and Transnational Cultures Credits: 3
Reviewing the current state of anthropological studies of globalization and examining various approaches taken to the subject. Focusing on works that conceptualize and theorize the transnational culture and ethnographies that represent and explore its multiplicity and complexity. Prereq: Grad st
Typically Offered: Fall

ANTHRO 919 Anthropology and International Health Credits: 2
Examination of international health issues from the theoretical and methodological perspectives of anthropology. Course includes case studies of applied medical anthropology work as well as critical analysis of development initiatives in public health. Prereq: Grad st
Typically Offered: Occasionally

ANTHRO 920 Anthropology of Gender Credits: 3
Theoretical and ethnographic approaches to the anthropology of gender, focusing on current works. Topics include sexual inequality, research methods, gender and history, gender and ethnographic writing, cultural constructions of masculinity, sexuality, and gender studies and anthropological theory. Prereq: Grad st
L&S Level: Advanced Typically Offered: Occasionally

ANTHRO 925 Seminar: Socio-Economic Change in Underdeveloped Areas Credits: 2 - 3
Social and economic factors relating to stability, growth, and change in the non-Western areas of the contemporary world. Prereq: Grad st & cons inst
Typically Offered: Occasionally

ANTHRO 940 Seminar-Problems in Cultural Anthropology Credits: 3
Current anthropological literature and methods. Assigned problems. Prereq: Grad st or Sr st with permission & cons inst
Typically Offered: Occasionally

ANTHRO 942 Seminar-Archaeological Problems Credits: 3
Current literature and methods and work on assigned problems. Prereq: Grad st
Typically Offered: Occasionally
ANTHRO 943 Seminar-Problems in Arctic Archeology I Credits: 3
Prereq> Grad st and cons inst
Typically Offered: Occasionally

ANTHRO 944 Seminar-Environmental Archaeology Credits: 3
Problems concerning the interrelationship between environment and prehistoric societies. Students conduct research on archaeological problems involving an interdisciplinary approach. Prereq> Grad st
Typically Offered: Occasionally

ANTHRO 945 Seminar-Archaeology Andean Area Credits: 3
Special problems in the archaeology of the Andean Area with particular attention to the Peruvian Andes. Prereq> Cons inst
Typically Offered: Occasionally

ANTHRO 970 Seminar in Anthropology and Education Credits: 3
Anthropological theory, methodology, and field techniques with specific reference to school ethnography and cross-cultural studies of socialization and education. Topics vary. Prereq> Grad st
Typically Offered: Occasionally

ANTHRO 982 Interdepartmental Seminar in the Latin-American Area Credits: 1 - 3
Prereq> Grad st & cons inst
Typically Offered: Occasionally

ANTHRO 983 Interdepartmental Seminar-African Studies Credits: 3
Interdisciplinary inquiry in African society and culture. Prereq> Grad st or cons inst
Typically Offered: Occasionally

ANTHRO 990 Research and Thesis Credits: 1 - 3
Typically Offered: Occasionally

ANTHRO 999 Reading and Research Credits: 1 - 9
Prereq> Grad st & cons of major prof
Typically Offered: Occasionally

ART HISTORY

ART HIST 101 The Study of Art, Present and Past Credits: 4
A critical introduction to the materials, techniques, and interpretation of art. Discussions of the art of various times and cultures, including contemporary America. Prereq> Open to Fr
L&S Breadth: Humanities L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 115 Freshman Seminar: Greek Art in Society Credits: 3
Examines Greek art in its social context. Focusing on Greek vases in the Elvehjem Museum, we will use a multimedia database to develop our understanding of these objects and their place in Greek culture. Prereq> Open to Fr
L&S Breadth: Humanities L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 201 History of Western Art I: From Pyramids to Cathedrals Credits: 4
Examines the arts and cultures of Europe and the Mediterranean basin before the Renaissance. We explore canonical works such as the pyramids at Giza, the Parthenon in Athens, the Venus di Milo, Hagia Sophia in Constantinople, the Book of Kells, the Great Mosque at Córdoba, Chartres cathedral, and Giotto's Arena Chapel. But we also define art broadly, to encompass the material culture of everyday life, including jewelry, ceramics, and textiles. We consider the social and historical contexts of art and artistic production - art and imperialism, ethnicity, technology, religious ritual and belief, and myth and storytelling. These explorations address basic human concerns: death and the afterlife
L&S Breadth: Humanities L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring
ART HIST 202 History of Western Art II: From Renaissance to Contemporary  Credits: 4
Examines the arts and cultures of Europe and North America from the Renaissance through the present. Our discussions will explore important masterpieces by such renowned artists as Leonardo da Vinci, Rembrandt van Rijn, Claude Monet, Paul Cézanne, Pablo Picasso, Frida Kahlo, and Frank Lloyd Wright alongside other works of fine art, architecture, the decorative arts, and photography. By studying the political, historical, social and cultural contexts of their making, we will begin to understand how certain works of art were valued from the moment of their making, fought over by different nations, bought, sold, stolen, or ignored for centuries and revived only recently for study. We will criti
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ART HIST 203 Survey of Asian Art  Credits: 3 - 4
Introduction to the artistic traditions of China and Japan from neolithic times to the nineteenth century and the Buddhist art of India with its subsequent East Asia embodiments. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 204 Introduction to Visual Cultures  Credits: 3
This is a foundation course in the transdisciplinary field of Visual Cultures. It examines theories and technologies of vision and visuality in their disparate manifestations over time and cultures and geographies. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 205 Global Arts  Credits: 4
As a global introduction to the practice of art history and visual and material culture, the course provides training in ways of analyzing works from around the globe and from the ancient through the contemporary. The course addresses key questions of method and practice, taking up issues such as ways of seeing, production and reception, function and use, modes of display, the market, and museums. The primary aim of the course is to develop an understanding of cultural differences and interactions. By exploring a range of kinds of work and tracing processes of cross-cultural exchange, transculturation and translation, the course develops sensitivity to visual and material form and a solid f
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 206 Survey of Photography: 1839 to 1989  Credits: 3 - 4
Survey of 150 years of photography's processes, practitioners, and genres. Emphasis on tensions between its commercial, vernacular, and artistic forms. Prereq> Open to Freshmen
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ART HIST 208 Western Architecture: Renaissance to Modern  Credits: 4
A chronological survey of the development of European architecture from the early fifteenth century to the twentieth. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 227 The Ends of Modernism  Credits: 4
This course considers the end of Modernist art as it gives way to what is called, problematically, contemporary art. While the term modern may generally mean what is vanguard or current, Modernism indicates a period of art (and the humanities) ranging from, arguably, 1880-1950. By considering its end, one can study four pivotal aspects of the movement: its origins, themes, and afterlives, as well as the art and histories that challenge its coherence. In this thematic survey, then, Modernism will emerge as a heterogeneous set of images and attendant discourses which, negatively or positively, continue to work within the contemporary artistic and cultural moment. Prereq> None
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

ART HIST 236 Bascom Colloquium in Art History  Credits: 3
A low-enrollment course developing skills in critical reading, logical thinking, use of evidence, and use of library resources. Emphasis on writing in the conventions of specific fields. Prereq> Successful completion of or exemption from Com A requirement. Open to Fr.
General Education: COM B  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
ART HIST 241 Introduction to African Art and Architecture Credits: 3
Regional styles of African art with reference to cultural function and aesthetics. Emphasis on the art of West and Central Africa. Historical beginnings with the ancient art of Nigeria and continuing into the royal and popular categories; comparisons as to subject, form, purpose, ethnic group, regional styles, and country. Prereq> Open to Fr

ART HIST 242 Introduction to Afro-American Art Credits: 3
Historical survey of Afro-American art. Beginning with the African heritage and concluding with creativity of the 1970's, it examines the evolution of Afro-American art. Attention to the aesthetic sensibilities of diverse styles as well as the social significance of Black art within the art arena. Prereq> Open to Fr
Ethnic Studies: Yes L&S Breadth: Humanities L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ART HIST 264 Dimensions of Material Culture Credits: 4
This course introduces students to the interdisciplinary field of material culture studies. It is intended for students interested in any professional endeavor related to material culture, including careers in museums, galleries, historical societies, historic preservation organizations, and academic institutions. During the semester, students will have varied opportunities to engage with and contemplate the material world to which people give meaning and which, in turn, influences their lives. Sessions combine in some way the following: presentations from faculty members and professionals who lecture on a phase of material culture related to his/her own scholarship or other professional work; discussions of articles; interactions with materials from cultural collections; visits to cultural sites.
L&S Breadth: Humanities L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Every Other Spring

ART HIST 300 The Art and Archaeology of Ancient Greece Credits: 3 - 4
Explores the art and archaeology of ancient Greece from the Bronze Age through the Hellenistic period. Prereq> Open to all Undergrads
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ART HIST 301 Greek Painting Credits: 3 - 4
Problems of techniques, style and iconography in wall and vase painting from Geometric to 403 B.C. Prereq> Soph st & Art Hist 201 or 300 or cons inst
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ART HIST 302 Greek Sculpture Credits: 3 - 4
Problems in style, techniques and reconstruction of glyptic sculpture, koroplastics and bronzes from the Late Bronze Age through fifth century B.C. Prereq> Soph st & Art Hist 201 or 300 or cons inst

L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 413 Art and Architecture in the Age of the Caliphs Credits: 3
The tenth century CE marked a period of drastic change in the Islamic world, as the unified Islamic caliphate splintered into three rival dynasties: the Sunni Iraqi Abbasids, Spanish Umayyads, and the Shi'ite Fatimids in Egypt. In their quest to dominate the Islamic world and control the Mediterranean, each dynasty openly competed and responded to the others in architectural projects, ceremonial practices and courtly arts. At the same time, the monolithic model of courtly patronage of the arts was replaced gradually by one in which the urban classes increasingly shaped the art market, resulting in new visual forms. This course considers this turning point in the history of Islamic culture th
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Every Other Spring

ART HIST 415 Topics in Medieval Art Credits: 3
An advanced lecture course, covering specific aspects of Medieval art. Topics may include: "Death and the Afterlife in Medieval Art"; "Civic Art and Architecture and Public Space in Medieval Italy"; "Rome in the Middle Ages"; "Pilgrimage & the Cult of the Saints in Medieval & Byzantine Art." L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ART HIST 428 Visual Cultures of South Asia Credits: 3
Concentrates on image complexes (art, photography, and cinema) and visual environments (architecture, urban planning, and public rituals) of South Asia; examination of visual culture through thematic issues such as, sexuality, patronage, cultural encounter, transculturation, ways of viewing, modernism, and nationalism. Prereq> Open to Fr
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ART HIST 430 Topics in Visual Culture Credits: 3
Introduces key issues, theories, and methods in visual cultures studies, emphasizing aspects that affect the practices of art history and providing a changing topical focus that addresses new research in this developing interdisciplinary area.
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ART HIST 431 Topics in Theory Credits: 3
Introduces philosophy and theory relevant to the study of art history and visual cultures with a focus on a particular body of theoretical work and an organization in terms of key questions and concepts.
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ART HIST 432 Multiculturalism and the New Museology Credits: 3 - 4
Museums and Multiculturalism addresses historic and current trends in museum studies and the impact of shifting professional and popular standards on these movements. The significance of the object in various cultural contexts is critically examined. Prereq> Open to Fr
Ethnic Studies: Yes L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ART HIST 433 Sign, Symbol, Stereotype: Native Icons Revealed Credits: 3 - 4
"Native Icons" critically examines images of Native American Indians - from the diverse contexts of fine arts, popular culture, photography and film - in historic and contemporary cultural contexts. Prereq> Open to Fr
Ethnic Studies: Yes L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ART HIST 435 Study Abroad in Ancient/Medieval Art Credits: 1 - 6
Treatment of an art historical topic in a course offered at a university outside the United States. Prereq> Art Hist 201 or 202; Jr st; or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

ART HIST 436 Study Abroad in Renaissance/Baroque/Northern Art Credits: 1 - 6
Treatment of an art historical topic in a course offered at a university outside the United States. Prereq> Art Hist 201 or 202; Jr st; or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

ART HIST 437 Study Abroad in 18th-20th Century Art Credits: 1 - 6
Treatment of an art historical topic in a course offered at a university outside the United States. Prereq> Art Hist 201 or 202; Jr st; or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

ART HIST 438 Study Abroad in African/Asian Art Credits: 1 - 6
Treatment of an art historical topic in a course offered at a university outside the United States. Prereq> Art Hist 201 or 202; Jr st; or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

ART HIST 440 Art and Power in the Arab World Credits: 3
This course considers the use of art and architecture as an expression of power in the Arab world, from the seventh century to the present. Beginning with the establishment of the caliphate and ending with the arts of revolution following the Arab Spring, we will investigate the shifting role of art and architecture in the quest for political dominance. With a particular focus on the arts of Cairo, Baghdad, Cordoba, Mecca, Jerusalem, Damascus, and the modern Arabian Gulf, we will explore competing visions of power and sources of legitimacy, through the lens of artistic production. Prereq> Sophomore standing
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Every Other Fall

ART HIST 443 History of Painting in India Credits: 3 - 4
An introduction to the history of Hindu, Buddhist, Jain and Islamic paintings of India. Prereq> So st
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 449 Topics in Architectural History Credits: 3
Assessment of how cultural phenomena help shape a given architectural development. Prereq> Cons inst
L&S Breadth: Humanities L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ART HIST 452 Art in Europe 1880-1914 Credits: 3 - 4
Fauvism, Expressionism, Cubism, and Futurism and their roots in late nineteenth century art. Prereq> Jr st; Art Hist 201 or 202; and at least one other upper-level crse in art hist or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally
ART HIST 453 Art in Europe, 1915-1955 Credits: 3 - 4
A survey of the major individuals, groups, and trends and their relation to the cultural and historical background. Prereq> Jr st; Art Hist 201 or 202; and at least one other upper-level crse in art hist or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 454 Art in Germany, 1900-1945 Credits: 3 - 4
Expressionism and its sources, with an emphasis on developments prior to World War I; the Bauhaus and the later careers of major figures. Prereq> Jr st; Art Hist 201 or 202; and at least one other upper-level crse in art hist or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 457 History of American Vernacular Architecture and Landscapes Credits: 3
Survey of American vernacular buildings and landscapes from the colonial period to the present. Emphasis is on acquiring descriptive tools and developing interpretive frameworks to explore the significance that these vernacular environments have had for their makers and users. Prereq> Jr st & at least one Art Hist crse, or cons inst
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 463 Topics in American Material Culture Credits: 3 - 4
In depth examination of special topics related to material culture and the decorative arts, including craftsmanship, consumerism, representations of race, ethnicity, and gender, and museum histories and exhibition practices. Prereq> Sophomore standing
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 464 Dimensions of Material Culture Credits: 3
Approaches to the interdisciplinary study of the material world in order to analyze broader social and cultural issues. Guest speakers explore private and public objects and spaces from historic, ethnographic, and aesthetic perspectives. Prereq> 1 crse 300 level or above from Art Hist or DS, or cons inst
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ART HIST 467 Form and Content in American Architecture: 1855-1900 Credits: 3 - 4
A study of the sources and the development of architecture in the United States during the second half of the nineteenth century. Prereq> Jr st & one crse in architect hist or cons inst
L&S Breadth: Humanities L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ART HIST 468 Frank Lloyd Wright Credits: 3 - 4
An analysis of Frank Lloyd Wright's architecture and writings. Prereq> Jr st & one crse in architect hist or cons inst
L&S Breadth: Humanities L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ART HIST 469 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 472 Chinese Figure Painting Credits: 3 - 4
An intermediate/advanced lecture course examining major masters, styles, techniques, and critical theories of Chinese figure painting in the context of traditional Chinese culture, including its relationship to ancestor worship, Confucian moral philosophy, Buddhist religion, and the projection of imperial authority. Prereq> Art Hist 203, 370, or 371; or consent of instructor
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ART HIST 475 Japanese Ceramics and Allied Arts Credits: 3
A history of Japanese ceramics and related topics such as Chinese and Korean ceramics and the tea ceremony. Emphasis placed on the technological, cultural, political, and economic, as well as aesthetic, dimensions of ceramic development. Prereq> Undergrads: a prev crse in art hist or design & satisfaction of Com B requirement. Knowledge of Japan recommended
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring
ART HIST 477 Portraiture in Premodern China Credits: 3
Examines the creation and use of portraits in China for rituals of commemoration, worship, and assertions of status. Besides issues of resemblance ("likeness") and artistic expression, we consider the development of visual codes used to construct social identities. Prereq> Art Hist 203 or 370 or 371 or 472; or E Asian 356 or 357; or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 478 Art and Religious Practice in Medieval Japan Credits: 3
A study of spaces, objects, and images within the context of religious belief and practice in Japan between 1300 and 1600, when great Zen monasteries grew up alongside older Buddhist/Shinto religious "megaplexes," and new salvationist sects spread throughout Japan. Prereq> Undergrads: a prev crse in art hist or relig studies & satisfaction of Com B requirement. Knowledge of Asian religion recommended
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ART HIST 479 Art and History in Africa Credits: 3 - 4
Selected African art traditions in their historical and cultural settings. Prereq> Jr st & one crse in African art or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 500 Proseminar: Special Topics in Art History Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 505 Proseminar in Ancient Art Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 506 Curatorial Studies Exhibition Practice Credits: 3
This course will engage students in all aspects of the preparation of an exhibition for the Chazen Museum of Art or other exhibition spaces on campus. Students will help conceptualize the exhibition and its layout, research and interpret individual objects, prepare wall texts for the display and other materials published in print or online in conjunction with the exhibition. The specific topic will be different each time the course is taught. Prereq> Junior Standing. At least one previous course in Art History at 300 level or above. Preference will be given to students enrolled in the Curatorial Studies Certificate programs
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 515 Proseminar in Medieval Art Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 525 Proseminar in Italian Renaissance Art Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 535 Proseminar in Northern European Painting Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 545 Proseminar in Italian Baroque Art Credits: 3 - 4
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 555 Proseminar in 19th Century European Art Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
ART HIST 556 Proseminar in 20th Century European Art Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ART HIST 557 Proseminar in 19th and 20th Century European Architecture Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 563 Proseminar in Material Culture Credits: 3
Interdisciplinary study of the way people use objects and environments to express identities and relationships in households, communities, and larger social/economic systems. Prereq> So st
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 567 Proseminar in American Architecture Credits: 3
Prereq> Jr st & cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 569 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 575 Proseminar in Japanese Art Credits: 3
Prereq> Any course treating Japanese art, or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 576 Proseminar in Chinese Art Credits: 3
Prereq> Cons inst or any other crse in Chinese art or Art Hist 203
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 579 Proseminar in African Art Credits: 3
Study of the art and architecture of a single African people in historical and cultural perspectives. Prereq> Junior standing or consent of instructor
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 600 Special Topics in Art History Credits: 3
Prereq> Jr st, or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 601 Introduction to Museum Studies I Credits: 3
History of museums and collecting; introduction to connoisseurship; studies and practices in art museum activities; experience in exhibition planning, research, cataloging, and installation. Prereq> Sr or Grad st; cons inst; ltd enrollment
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 602 Introduction to Museum Studies II Credits: 3
Continuation of 601  Prereq> Art Hist 601 & cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
ART HIST 603 Curatorial Studies Colloquium Credits: 3
This course is designed to introduce advanced undergraduate students to a broad range of questions, both theoretical and practical, related to curatorial practice. The core of the course is a series of sessions on curatorial strategies. Particular emphasis will be placed on integrative and collaborative approaches to curating a wide variety of material: art, film, music, books, anthropology/culture, archeology, history, geology, zoology, dance, etc. With this in mind, we will bring in a series of experts to engage with each other and with the class on the theories, objectives, and processes of conceiving, designing, and mounting exhibitions, as well as reaching different audiences with.

L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 621 Mapping, Making, and Representing Colonial Spaces Credits: 3
Spatial legacy of colonialism; explores important ways in which the population, landscape, architecture, and urban environment of colonies were mapped, made, and represented, particularly in the 19th and 20th centuries; theoretical and empirical analyses from diverse disciplines and spatial terrain. Prereq> Sr st or cons inst

L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ART HIST 643 Selected Topics in African Diaspora Art History Credits: 3
Art history of a specific African cultural tradition (e.g. Yoruba, Kongo, Fon, Akan) and its transformation in the Caribbean, Central and South America in response to new social, historical, and hegemonic forces. Prereq> Afro-Amer 241, 242, 243 or consent of instructor

Ethnic Studies: Yes  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 650 History of Books and Print Culture in Europe and North America Credits: 3
History of books and print culture in the West from ancient times to the present. Focus on the influence of reading and writing on social, cultural, and intellectual life. Methodologies, theories, and sources for study of book and print culture history. Prereq> Junior standing; or Graduate student in SLIS

L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ART HIST 669 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department

ART HIST 681 Senior Honors Thesis Credits: 3
Prereq> Cons inst

L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 682 Senior Honors Thesis Credits: 3
Prereq> Cons inst

L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ART HIST 691 Senior Thesis Credits: 3 - 6
Prereq> Sr st and cons inst

L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ART HIST 692 Senior Thesis Credits: 3 - 6
Prereq> Sr st and cons inst

L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ART HIST 697 Undergraduate Curatorial Studies Internship (Directed Study) Credits: 1 - 3
This directed study may serve as an elective for the new undergraduate certificate in Curatorial Studies, as an elective for the Material Culture certificate program, or for a specific stand-alone project. The goal is to give students credit for applied learning experiences in museums and other curatorial settings. Students must identify internship possibilities and have them approved for credit by the faculty member who will serve as instructor of record, and oversee the academic side of the internship. The nature of the internship will vary according to the host institution, but to be accepted for credit, it must have a substantial research component. Examples include

L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

ART HIST 698 Directed Study Credits: 2 - 3
Prereq> Graded on a Cr/N basis; requires Jr or Sr st and cons inst

L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
ART HIST 699 Directed Study Credits: 1 - 3
Prereq> Graded on a lettered basis; requires Jr or Sr st and cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ART HIST 700 The Art and Archaeology of Ancient Greece Credits: 3
Explores the art and archaeology of ancient Greece from the Bronze Age through the Hellenistic period. Prereq> Cons inst
Typically Offered: Fall

ART HIST 701 Practicum in Art History: Bibliography, Historiography, Methods Credits: 3
Required methodology course for first-year graduate students in art history. Intensive work in critical analysis and research methods; introduction to the methods and historiography of art history; orientation to source work in the Elvehjem collection and in University libraries. Prereq> First yr art hist grad stdt or cons inst
Typically Offered: Fall

ART HIST 703 Curatorial Studies Colloquium Credits: 3
This course is designed to introduce graduate students to a broad range of questions, both theoretical and practical, related to curatorial practice. The core of the course is a series of sessions on curatorial strategies. Particular emphasis will be placed on integrative and collaborative approaches to curating a wide variety of material: art, film, music, books, anthropology/culture, archeology, history, geology, zoology, dance, etc. With this ideal in mind, we will bring in a series of experts to engage with each other and with the class on the theories, objectives, and processes of conceiving, designing, and mounting exhibitions, as well as reaching different audiences with both physical

ART HIST 704 The Art and Archaeology of Ancient Rome Credits: 3
Explores the art and archaeology of ancient Italy, the Roman Republic, and the Roman Empire from the Iron Age to Late Antiquity. Prereq> Cons inst
Typically Offered: Spring

ART HIST 706 Topics in American Art History Credits: 3
This graduate-level course typically meets with an intermediate to advanced level lecture course. However, the requirements for graduate students are different, consisting of journal entries, presentations, and a substantial research paper as well as attendance and participation in the lectures. Topics vary but may include such topics as "History of American Art, 1607-present;" "American Genre;" "The Material Culture of American Suburbs;" and "Modernism in American, 1900-1960." Prereq> None
Typically Offered: Occasionally

ART HIST 707 Topics in Nineteenth-Century European Art Credits: 3
This course typically meets with an advanced undergraduate topics course that focuses on various themes of current interest in the art, architecture and visual culture of medieval Europe and the Mediterranean (including the Byzantine Empire and Islamic states of the Mediterranean rim). Topics include: Death and the Afterlife; Civic Art, Architecture and Public Space in Medieval Italy; Cultural Appropriation and Alterity in Medieval Art; and Image and Text in Medieval Manuscripts. Class alternates between lecture and discussion of current debates in the scholarly literature. Graduate students are required to write reading responses, a major research paper and give an oral presentation. Prereq> None
Typically Offered: Fall, Spring

ART HIST 712 Topics in African & African Diaspora Art History Credits: 3
This course typically meets with an intermediate to advanced level lecture course. However, the requirements for graduate students are different, consisting of mentoring, longer presentations, and a substantial research paper.
Prereq> None
Typically Offered: Occasionally

ART HIST 715 Topics in Medieval Art Credits: 3
This course typically meets with an advanced undergraduate topics course that focuses on various themes of current interest in the art, architecture and visual culture of medieval Europe and the Mediterranean (including the Byzantine Empire and Islamic states of the Mediterranean rim). Topics include: Death and the Afterlife; Civic Art, Architecture and Public Space in Medieval Italy; Cultural Appropriation and Alterity in Medieval Art; and Image and Text in Medieval Manuscripts. Class alternates between lecture and discussion of current debates in the scholarly literature. Graduate students are required to write reading responses, a major research paper and give an oral presentation. Prereq> None
Typically Offered: Fall, Spring
ART HIST 749 Topics in Architectural History Credits: 3
This graduate-level topics course typically meets with an intermediate to advanced level lecture course. However, the requirements for graduate students are different, consisting of journal entries, presentations, and a substantial research paper as well as attendance and participation in the lectures and activities. Topic varies but may include such topics as "History of American Vernacular Architecture and Landscapes;" "Frank Lloyd Wright and Modernism;" "Domestic Spaces;" and "Signature Buildings in World Architecture." Prereq> None
Typically Offered: Occasionally

ART HIST 775 Topics in Japanese Art History Credits: 3
This course typically meets with an intermediate to advanced level lecture course. However, the requirements for graduate students are different, consisting of journal entries, presentations, and a substantial research paper. Meets-with courses include "Arts of Japan," "Japanese Ceramics and Allied Arts," and "Art and Religious Practice in Medieval Japan." Prereq> None
Typically Offered: Fall, Spring

ART HIST 776 Topics in Chinese Art History Credits: 3
This course typically meets with an intermediate to advanced level lecture course. However, the requirements for graduate students are different, consisting of journal entries, presentations, and a substantial research paper. Meets-with courses include "Early Chinese Art: From Antiquity to the Tenth Century," "Later Chinese Art: From Tenth Century to Contemporary," and "Topics in Asian Art." Prereq> None
Typically Offered: Occasionally

ART HIST 779 Topics in Architecture & Urbanism of Asia Credits: 3
This course typically meets with an intermediate to advanced level lecture course. However, the requirements for graduate students are different consisting of a substantial research paper in addition to course assignments. Meets-with courses includes "Cities of Asia." Prereq> None
Typically Offered: Fall, Spring

ART HIST 797 Curatorial Studies Internships (Directed Study) Credits: 3
This 3-credit directed study fulfills the requirement for the new graduate certificate program in Curatorial Studies, and will be specifically used to give students credit for applied learning experiences in museums and other curatorial settings. Students must identify internship possibilities and have them approved for credit by the faculty member who will serve as instructor of record, and oversee the academic side of the internship. The nature of the internship will vary according to the host institution, but to be accepted for credit, it must have a substantial research component. Examples include but are not limited to: curating an exhibition or permanent collection display; producing w
Typically Offered: Not Applicable

ART HIST 799 Independent Study Credits: 1 - 6
Prereq> Grad st & cons inst
Typically Offered: Fall, Spring, Summer

ART HIST 800 Seminar: Special Topics in Art History Credits: 3
Prereq> Grad st & cons inst
Typically Offered: Occasionally

ART HIST 801 Historiography, Theory and Methods in Visual Culture Credits: 3
Prepares student for graduate work in the transdisciplinary study of Visual Cultures by building on the knowledge, theories, and methods that are fundamental to the discipline. It will develop skills in critical reading, research, analysis, writing, and oral presentation. Prereq> Grad st & cons inst
Typically Offered: Fall

ART HIST 802 Visual Cultures: Topics in Visual Cultures Credits: 3
Content will vary to facilitate in-depth engagement of critical facts, theories, and images in specific areas of specialization. Prereq> Graduate standing & consent of instructor
Typically Offered: Fall, Spring

Representation of Asians in American popular culture including film, print culture, tourism, music, advertising, internet, gaming, cartoons, cuisine. Prereq> Open to Fr
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 220 Ethnic Movements in the United States Credits: 3 - 4
Sociological analysis of historical and recent ethnic/racial conflict and movements in the U.S., including the relations between European Americans, African Americans, Mexican Americans, Native Americans, and Asian Americans, with additional material on other groups and relations. Prereq> Satisfied Comm A requirement
Ethnic Studies: Yes  General Education: COM B  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 230 Topics in Comparative Asian American Studies Credits: 3
Comparative exploration of specific issues in Asian American studies with an emphasis on Asian culture or the racial formation of minority groups in the U.S. Prereq> Open to Fr
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 240 Topics in Asian American Studies Credits: 3
An examination of specific themes in Asian American life and culture. Topics may include comparative analyses of Asian American communities, contemporary Asian American experience, and the specific concerns and histories of individual Asian groups in America, such as Korean, Hmong, South Asian, Southeast Asian, Chinese and Japanese. Prereq> So st or cons inst
Ethnic Studies: Yes  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 246 Southeast Asian Refugees of the "Cold" War Credits: 4
In-depth study of the peoples, conflicts, and wars in Cambodia, Laos, and Vietnam, with emphasis on the Cold War era (1945-1990) and on the resulting migration and resettlement of over one million Hmong, Khmer, Lao, and Vietnamese in the United States. Prereq> Open to Fr
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring
ASIAN AM 252 Gender and Sexuality in Asian American Literature and Culture Credits: 3
Study of Asian American literature with emphasis on gender and sexuality. This course may also contain a limited amount of discussion of other media. Prereq: 6 credits of introductory literature. Open to Freshmen
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 260 Topics in Asian American Culture Credits: 3
Themes in Asian American arts. Topics may include drama, dance, film, creative writing and visual arts.
Ethnic Studies: Yes  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 270 A Survey of Asian American Literature Credits: 3
Survey of Asian American literature from 1880 to present. Prereq: 6 credits of introductory literature or consent of instructor
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ASIAN AM 276 Chinese Migrations since 1500 Credits: 4
Introduces the comparative history of Chinese migrations to the U.S. and world. Examines patterns of movement; imagined communities through cultural identity, citizenship, queerness, heritage tourism, studying abroad, and transnational adoption; as well as sites of cultural production such as food, literature, architecture, and cinema.
Prereq: Sophomore standing or consent of instructor
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 369 Ethnic and Minority Religions in America Credits: 3
Overview of major world religions and diversity of religion in America from colonies to present with focus on late-20th-century U.S. Comparative studies of selected minority religions using historical, anthropological, and sociological perspectives.
Prereq: So st
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 420 Asian Americans and Media Credits: 3
Examines representations of Asian American in American media using historical, analytical, and critical approaches. Issues of cultural production, identity, race, politics, and gender are linked to examinations of specific media forms.
Prereq: Com Arts 347 or So st
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 430 Asian American Cultural Studies Credits: 3
Develops a critical methodology for analyzing Asians in the U.S. with an emphasis on law, history, political economy, art, literature, and education.
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 440 Special Topics in the Asian American Studies Program Credits: 3
Topics vary for this course. Please see Asian American website for description for the semester you are taking the course. Topics will have some content about Asian Americans of different ethnic groups (e.g., Hmong, Southeast Asian, East Asian Americans -Japanese, Chinese, Korean, Indian, etc.). THIS COURSE DOES NOT PROVIDE ETHNIC STUDIES CREDIT. THIS COURSE MAY INCLUDE SERVICE LEARNING OR COMMUNITY BASED RESEARCH/FIELD STUDIES ACTIVITIES.
Prereq: None
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 443 Mutual Perceptions of Racial Minorities Credits: 3
Survey course on the mutual perceptions of primarily people of African and Asian ancestry. It focuses on how these groups evaluate perceive and interact with one another and others such as Native Americans, whites and Hispanics. Social psychological perspectives are highlighted as is an international overview.
Prereq: Afro-Amer 151 or 673
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
ASIAN AM 462 Topic in Asian American Literature Credits: 3
Topics will vary. All topics will emphasize the following learning outcomes: awareness of history's impact on the present, ability to recognize and question assumptions, development of critical thinking skills, awareness of relations between self and others, and effective participation in a multicultural society. Prereq> Six (6) credits of introductory literature
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 463 Race and Sexuality in American Literature Credits: 3
Explores the intersection between race and sexuality in American literature with an emphasis on sex/gender difference, feminism, transgenderism, and nationalism. Focuses on the nature of literature as advocacy, with an emphasis on Asian-American issues. Students who have taken English 654 prior to fall 2014 may not enroll in this course. Prereq> Sophomore standing
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 464 Asian American Women Writers Credits: 3
A study of major texts by Asian American women writers. Prereq> 6 credits of introductory literature or consent of instructor
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ASIAN AM 465 Asian American Poetry Credits: 3
Throughout the history of Asian America, poetry has been a vehicle for the creation and exploration of an Asian American voice; in poetry we can see the continuing struggle over what form Asian American expression will take. Will it follow Asian or European models? Will it employ traditional forms, or experiment in search of new styles? Will it be individual or collective, introspective or political? We will explore these questions through a study of a wide range of Asian American poets from a variety of historical periods and ethnicities, including Janice Mirikitani, Lawson Fusao Inada, Li-Young Lee, John Yau, Myung Mi Kim, and Linh Dinh. Prereq> 6 Credits of introductory literature
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASIAN AM 470 Asian Americans in U.S. Schools Credits: 3
This course examines the historical and contemporary experiences of Asian Americans in elementary, secondary, and post-secondary schools in the United States. Prereq> Jr st
Ethnic Studies: Yes  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 540 Special Topics Credits: 3
Social science themes in Asian American studies. Topics may include the family, economics, poverty, inter-racial conflicts and cooperation, South Asian Americans.
Ethnic Studies: Yes  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ASIAN AM 560 Humanities Topics Credits: 3
Topics in the arts and humanities that illuminate the Asian American experience.
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 662 Mass Media and Minorities Credits: 4
Representations of minority groups in U.S. news and entertainment mass media. Historical, social, political, economic, and other factors influencing the mass mediated depictions of minorities. Prereq> Jr st
Ethnic Studies: Yes  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASIAN AM 699 Independent Study: Directed Readings in Asian American Studies Credits: 1 - 4
An independent studies course to allow students at an advanced level to pursue individual projects/subjects. Prereq> 9 cr in Asian American studies
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ASIAN AM 930 Asian American History and Culture Credits: 3
An interdisciplinary and thematic survey of key concepts and issues developed within the field of Asian American history and culture. Introduces students to research and methodological concerns of the field.
Typically Offered: Occasionally
ASTRONOMY

**ASTRON 100 Survey of Astronomy** Credits: 4
Modern exploration of the solar system; our galaxy of stars, gas and dust; how stars are born, age and die; unusual objects such as exploding stars, neutron stars, black holes, and exploding galaxies; other galaxies and groups of galaxies; current ideas about the large-scale structure and evolution of the universe; optional telescope viewing sessions. Prereq: Completion of QR-A. Open to all Undergrads. Stds may not receive cr for both Astron 100 & either Astron 103 or 104. Not open to stdts who meet prereq for Astron 200
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**ASTRON 103 The Evolving Universe: Stars, Galaxies, and Cosmology** Credits: 3
The universe is vast and ever-changing. Includes lifecycles of stars; supernovae and creation of elements; white dwarfs, pulsars and black holes; the Milky Way and galaxies; distances of stars and galaxies; quasars; expansion of universe; open and closed universes; the big bang. Prereq: Completion of QR-A. Open to all Undergrads. Stds may not receive cr for both Astron 100 & 103. Not open to stdts who meet prereq for Astron 200
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**ASTRON 104 Our Exploration of the Solar System** Credits: 3
Humanity is linked to the solar system in countless ways. Includes the sky and celestial motions; ancient astronomy; the Copernican revolution; gravity, orbits, and interplanetary travel; formation of solar system; survey of sun, planets and moons; asteroids, meteors and comets; origin of life. Prereq: Completion of QR-A. Open to all Undergrads. Stds may not receive cr for both Astron 100 & 104
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**ASTRON 113 Hands on the Universe** Credits: 1
Exploration of the universe via computer simulation of astronomical observations. Examples of topics include telescopes, the distances to stars, the spectra of the stars, star clusters, the Hubble expansion, and the large scale structure of the universe. Discovery through observation, hypothesis, and quantitative analysis is emphasized. Prereq: Open to all Undergrads. Intended to be taken concurrently with Astron 103. Prev Astron 100 or Astron 103 or cons inst acceptable. Satisfies QR-B only if Astron 100 or Astron 103 is also completed. Not open to stdts who have taken Astron 110
General Education: QR-B  L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

**ASTRON 114 Hands on the Solar System** Credits: 1
Exploration via computer simulation of astronomical observations. Examples of topics include the sky and celestial motions, Jupiter's moons, rocketry, colonization, and extra-solar planets. Naked-eye and telescope observations will also be made. Discovery through observation, hypothesis, and quantitative analysis is emphasized. Prereq: Open to all Undergrads. Intended to be taken concurrently with Astron 104. Prev Astron 100 or Astron 104 or cons inst acceptable. Satisfies QR-B only if Astron 104 is also completed. Not open to stdts who have taken Astron 110
General Education: QR-B  L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**ASTRON 150 Topics in Astronomy** Credits: 2
This course will intensively study selected topics of modern astronomy. Examples include missions to the planets, formation of stars and planets, end states of stellar evolution (supernovae, white dwarfs, pulsars, black holes), origin and evolution of the universe. Prereq: Astron 100, 103, or 104, as appropriate for topic, or cons inst. Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**ASTRON 160 Life in the Universe** Credits: 2
An examination of the origin and evolution of life in the universe based on our knowledge of astronomy, biology, and geology. Includes discussions on the search for extraterrestrial life and the history of life in our solar system. Prereq: Open to all undergrads
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**ASTRON 180 Honors Special Topics in Astronomy** Credits: 2 - 4
This course will intensively study selected topics of interest from modern astronomy. Examples of topics are telescopes and observing the sky, the formation of stars and planets, cosmology, history of astronomy, etc. Prereq: Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
ASTRON 199 Directed Study Credits: 1 - 3
Prereq> Astron 100 or equiv or cons inst. Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASTRON 200 The Physical Universe Credits: 3
Modern astrophysics involves applying physical principles to understand astronomical phenomena. Includes the solar system, stars, nebulae, galaxies, and cosmology, with emphasis on origins and evolution. Some nighttime observation with telescopes required. Prereq> Physics 202 or 208 or cons inst. Not open to stdts who have taken Astron 100 or 103. Simple calculus required
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ASTRON 206 History of Astronomy and Cosmology Credits: 3
The development of astronomical knowledge and cosmological views from the earliest times to the present, viewed in their social, philosophical, and technological contexts. Prereq> So st
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ASTRON 236 The History of Matter in the Universe Credits: 3
Multidisciplinary study of how the distribution of elements in the Universe has changed over the last 10-15 billion years by tracing the history of matter from the Big Bang to the present composition of the Earth. The course will emphasize connections between astronomy, geology, and chemistry. Readings will draw both on scientific journals and the popular press to allow us to engage the material on multiple levels. This course meets the University's Com-B requirement. Prereq> 1 yr college chem or physics, or cons inst. Open to Fr
General Education: COM B  L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ASTRON 310 Stellar Astrophysics Credits: 3
Properties of normal and peculiar stars as found from an analysis of the radiation they emit; introduction to radiation transfer. Theory of stellar atmospheres, interiors, and evolution. Prereq> Math 222 & Physics 205 or 241
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ASTRON 320 The Interstellar Medium Credits: 3
Properties of neutral and ionized interstellar gas, giant molecular clouds, the warm and hot intercloud medium, supernova remnants, and interstellar dust. Physical processes in low density gases including radiation transfer, excitation and ionization of interstellar atoms and molecules, and the interaction between gas and dust. Prereq> Math 222 and Physics 205 or 241
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ASTRON 330 Galaxies Credits: 3
Distribution of stars, gas, and dust within our Milky Way, and their motions. Nearby galaxies: our Local Group. Optical, radio, and other techniques for observing galaxies. Composition and motions of other galaxies; galaxies with active nuclei; galaxy formation. Prereq> Astron 310
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ASTRON 335 Cosmology Credits: 3
Introduction to the study of our Universe as a whole. Distribution of matter on the largest scales. Equations for cosmic expansion; making observations in an expanding curved spacetime. Nucleosynthesis and other tests of the Big Bang hypothesis. Gravitational collapse and the growth of structure. Prereq> Astron 310
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ASTRON 340 Solar System Astrophysics Credits: 3
Properties of solar system objects, solar atmospheric phenomena, physics of planetary atmospheres, results of recent planetary missions, comets, origin of the solar system. Prereq> Math 222 & Physics 205 or 241
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ASTRON 460 Experiences in Astronomical Observing Credits: 1
A basic introduction into astronomical research by undertaking a small observing project with optical and/or radio telescopes. Topics covered are: understanding the astronomical literature, observing and data reduction, writing scientific reports and papers, presenting scientific results, and basics of scientific ethics. Prereq> Cons inst. One of Astron 310, 320, 330, or 500 advised
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ASTRON 500 Techniques of Modern Observational Astrophysics Credits: 3
An introduction to astrophysics data collection. Students will be familiarized with the concepts, techniques, skills and resources needed to plan, obtain, reduce and interpret observations of astronomical objects. Prereq> Grad st or Astron 310 & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ASTRON 510 Radio Astronomy Laboratory Credits: 2
An introduction to the techniques of modern observational radio astronomy. The course covers fundamentals of radio astronomy, modern radio instrumentation, and observing techniques, through a mixture of classroom lectures, discussions, and hands-on observational projects with a small radio telescope. Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ASTRON 533 Resources From Space Credits: 3
This is a course on the location, extraction, and use of resources that exist in space. These resources include raw materials for life support, structure, and energy. Prereq> Sr st, 1st-yr grads in engr or physical sci, or cons inst
L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ASTRON 550 Astrodynamics Credits: 3
Coordinate system transformations, central force motion, two body problem, three and n-body problem, theory of orbital perturbations, artificial satellites, elementary transfer orbits, and elementary rocket dynamics. Prereq> EMA 202 or 221; or Physics 311 or con reg; or cons inst
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

ASTRON 570 Presenting Astronomy: Current Topics and Techniques Credits: 1
Emphasis on practical knowledge and teaching skills including visual astronomy equipment, reference materials, and demonstrations. Activities and field trips build facility with tools and concepts. Current events and developments are blended in lecture, discussion, laboratory, and guest presentations. Prereq> Grad st or cons inst
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Summer

ASTRON 620 Seminar in Astrophysical Topics Credits: 1 - 3
Current problems; topic changes. Prereq> Astron 310 or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

ASTRON 681 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ASTRON 682 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ASTRON 691 Senior Thesis Credits: 2 - 3
Prereq> Sr st astronomy-physics major & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ASTRON 692 Senior Thesis Credits: 2 - 3
Prereq> Astron 691 & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ASTRON 699 Directed Study Credits: 1 - 6
Prereq> L & S Undergrads need 2.5, Jr or Sr st & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

ASTRON 700 Basic Astrophysics I Credits: 2
Thermodynamics, atomic and molecular spectra, ionization and excitation, line and continuum opacities. Synchrotron radiation, Compton scattering, X-ray spectra. Radiative transfer, simple model atmospheres, radiative and convective energy transport. Prereq> Grad st in astronomy or physics, or cons inst
Typically Offered: Occasionally
ASTRON 702 Basic Astrophysics II Credits: 2
Basic particle and fluid dynamics of stellar and gaseous systems in astrophysics. Review of gravitational dynamics, 2-body relaxation, phase space, basic equations of fluid dynamics, waves, shocks, winds accretion, instabilities. Prereq> Grad st in astronomy or physics, or cons inst
Typically Offered: Occasionally

ASTRON 715 Stellar Interiors and Evolution Credits: 2
Physical principles, equilibrium of gaseous spheres, energy transport, energy generation, nucleosynthesis, main sequence red giant and electron degenerate stars. Advanced topics such as origins of stellar variability, binary star evolution, star formation, supernovae explosions, evolution with mass loss. Prereq> Astron 700 or cons inst
Typically Offered: Occasionally

ASTRON 720 The Interstellar Medium I: Basic Processes Credits: 2
Observational techniques for interstellar medium studies, overview of the role of interstellar gas in galaxies, dynamics, energetics, major theories of structure and evolution, introduction to star formations and supernova remnant evolution. Prereq> Astron 700
Typically Offered: Occasionally

ASTRON 730 Galaxies Credits: 2
Stellar content and dynamics of the Milky Way and other galaxies; galaxy types, evolution of normal galaxies, active nuclei, quasars, radio galaxies. Prereq> Grad st in Astron or cons inst
Typically Offered: Occasionally

ASTRON 735 Observational Cosmology Credits: 2
Extragalactic distance scale; groups and clusters of galaxies; distribution of galaxies and radio sources. Introduction to general relativity, cosmological models, microwave background, early universe, galaxy formation. Prereq> Grad st in Astron or cons inst
Typically Offered: Occasionally

ASTRON 750 Astronomical Instrumentation Credits: 3
This hands-on course teaches the fundamentals of the design and construction of experimental apparatus using astronomical instruments as the model for the process. It will cover key aspects of some of the most important topics in the field. Prereq> Astron 500 or cons inst
Typically Offered: Occasionally

ASTRON 910 Seminar in Astrophysics Credits: 0 - 1
Current topics. Prereq> Cons inst
Typically Offered: Occasionally

ASTRON 920 Seminar-Astrophysical Topics Credits: 1 - 3
Current problems; topic changes. Prereq> Grad st in astron or cons inst
Typically Offered: Occasionally

ASTRON 990 Research and Thesis Credits: 1 - 12
Prereq> Grad st in astron
Typically Offered: Occasionally

ASTRON 999 Advanced Independent Reading Credits: 1 - 2
Prereq> Grad st in astron
Typically Offered: Occasionally

ATMOSPHERIC & OCEANIC SCIENCES

ATM OCN 100 Weather and Climate Credits: 3
Nature and variability of wind, temperature, cloud and precipitation. Storm systems, fronts, thunderstorms, tornadoes and their prediction. Air composition and pollution. Global winds, seasonal changes, climate and climatic change. Prereq> Open to Fr. Stds may not receive cr for both Atm Ocn 100 & 101
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
ATM OCN 101 Weather and Climate Credits: 4
Nature and variability of wind, temperature, clouds and precipitation. Discussion session will include map analyses and basic quantitative lab exercises. Storm systems, fronts, thunderstorms, tornadoes and their prediction. Air composition and pollution. Global winds, seasonal changes, climate and climatic change. Prereq> Open to Fr. Stds may not receive cr for both Atm Ocn 100 & 101
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ATM OCN 102 Climate and Climate Change Credits: 3
This course describes the basic climate principles governing the climate system. It describes the climate and climate variability at present, climate evolution in the past, and the projected climate change into the future. The scientific principles underlying the natural and anthropogenic greenhouse effect and climate model forecasts are elucidated. Prereq> None
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 105 Survey of Oceanography Credits: 3 - 4
Nature and behavior of ocean water, interaction of oceans and atmosphere, structure of the ocean floor, life in the oceans, our relationship to the marine environment. Prereq> High school physics or chem recommended. Open to Freshmen
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 121 Atmospheric Environment and Society Credits: 2
Changing interactions between humans, other animals and plants, and the atmospheric environment, both in time and space. Prereq> Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 132 Earth's Water: Natural Science and Human Use Credits: 3
Water is central to the functioning of planet Earth. As humans increase their impact on Earth's systems and cohabitants, our understanding of the multiple roles of water becomes critical to finding sustainable strategies for human and exosystem health. This course explores the science of Earth's hydrosphere, with constant attention to human uses and impacts. Prereq> HS math & science. Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ATM OCN 152 Weather for Pilots Credits: 1 - 2
Weather for Pilots is an applied meteorology course designed for pilots and student pilots. The goal of the course is to provide a learning opportunity for those interested in studying advanced aviation-weather topics. Prereq> Open to Fr
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 171 Global Change: Atmospheric Issues and Problems Credits: 2 - 3
Atmospheric problems of global significance. Greenhouse warming, ozone layer, acid rain, climate change. Study based on elementary principles of atmospheric science. Systems approach applied to changing atmospheric composition. Interactions among geochemical cycles, anthropogenic inputs and other parts of the environment. L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 252 Introduction to Weather Analysis and Forecasting Credits: 3
Elementary issues in dynamics, thermodynamics, local and synoptic-scale circulations examined in the context of daily diagnoses and forecasting of the weather. Includes analysis of surface and upper air observations, satellite and radar data, output from numerical weather prediction models. Prereq> Physics 201 or 207, Math 221 or cons inst. Open to Fr
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ATM OCN 265 The Oceans and Climate Credits: 3
Introduction to the climate system. Interaction between atmosphere and the ocean. Principles of the ocean currents. Major current systems. Global fluxes and the deep-sea circulation. The ocean and climate change. Waves and tides. Climate forecasting. Wave forecasting. Prereq> HS physics; and 1 yr HS calc or con reg in Math 211 or 221. Open to Fr
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ATM OCN 310 Dynamics of the Atmosphere and Ocean I Credits: 3
Introduction to theory of fluid motions for atmosphere and ocean. Elementary kinematics, fundamental forces, effects of earth's gravity and rotation, concepts and applications of hydrostatic and geostrophic balance. Prereq> Physics 208 or con reg & Math 234 or con reg
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

ATM OCN 311 Dynamics of the Atmosphere and Ocean II Credits: 3
Intermediate theory of fluid motions for atmosphere and ocean. Emphasis on large scale applications and basic theory for geophysical wave types. Thermal wind shear, frictional flow, vorticity concepts, Rossby waves, Sverdrup ocean flow. Prereq> Atm Ocn 310, 330
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

ATM OCN 323 Science of Climate Change Credits: 3
This is a calculus-based treatment of climate system physics and the mechanisms of modern-day anthropogenic climate change. By the end of this course, students will understand: a. How solar radiation and rotating fluid dynamics determine the basic climate state; b. Mechanisms of natural variability and change in climate; c. Why anthropogenic climate change is occurring; and d. Which scientific uncertainties are most important to estimates of 21st century change. Prereq> PHYS 103, 201 or 207; and MATH 221 not open to students who have enrolled in ATM OCN 425
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ATM OCN 330 Physics of the Atmosphere and Ocean I Credits: 3
Physical variables, laws, characteristics and direct measurements for atmosphere and ocean. Thermodynamics and moist atmospheric processes. Basic physics of clouds, precipitation, and chemical constituents. Prereq> Physics 208 or con reg & Math 234 or con reg
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

ATM OCN 331 Climatic Environments of the Past Credits: 3
Climatic change at timescales from the last 1,000,000 years to the last 1000 years. Examines how climate variability arises from interplay between external forcings, feedbacks within the earth system, and (more recently) human activity. Prereq> Atm Ocn/Geog/Envir St 121, or Geog 120, 123, 124 or 127 or Atm Ocn 100
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ATM OCN 332 Global Warming: Science and Impacts Credits: 3
Climate change is underway and will continue into the foreseeable future. This course offers a fundamental understanding of how and why global warming is happening, and what to expect in the future. Together, we will investigate and discuss the evidence for change, the science that explains these observations, predicted impacts on humans and ecosystems, and the societal debate over proposed solutions. Prereq> Geog/IES 120 or 127 or Atm Ocn 100 or equivalent recommended. Freshmen permitted only with consent of instructor
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

ATM OCN 340 Physics of the Atmosphere and Ocean II Credits: 3
Radiation, energy budget, and cloud physics. Scattering, absorption, emission and diabatic heating by shortwave and longwave processes. Introduction to cloud physics including cloud nucleation processes, particle growth, precipitation development, and convective cloud processes. Prereq> Atmospheric-Oceanic 330
L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ATM OCN 401 Topics in Meteorology Credits: 2 - 3
Special topics to be given as the need and opportunity arise. May be repeated for credit. Prereq> Cons inst
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

ATM OCN 405 AOS Senior Capstone Seminar Credits: 1
Required senior seminar for AOS majors provides a synthesis and overview. Research on a topic of the student's choosing is presented at the end. Prereq> Atm Ocn 310, 311, 330, 340
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

ATM OCN 425 Global Climate Processes Credits: 3
Overview of physical processes of the atmosphere and its coupling to the ocean and land. Understanding its seasonal climatology and variability. Synthesis through application of junior AOS core dynamics and physics to quantitatively understand diabatic, transport, and dissipative processes. Examples include global warming, air-ocean coupling, ENSO, ozone hole, tropospheric water and chemistry issues, diurnal to interannual time scales. Prereq> Atm Ocn 311, 340, or cons inst
L&S Breadth: Physical Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall
ATM OCN 441 Radar and Satellite Meteorology Credits: 3
Provides undergraduate students with the necessary knowledge about radar and satellite meteorology. Prereq> Atm Ocn 340 or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ATM OCN 452 Synoptic Laboratory I: The Frontal Cyclone Credits: 4
Cyclone and frontal theory; case studies illustrating the structure and evolution of the frontal cyclone; diagnostic techniques: interpretation of satellite photographs, preparation of vertical cross sections and isentropic analysis. Prereq> Atm Ocn 311 & 340, or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ATM OCN 453 Synoptic Laboratory II: Mesoscale Meteorology Credits: 4
Local wind systems, thunderstorms, mesoscale convection systems, interactions with synoptic scale weather. Analysis, prediction, nowcasting and observation of mesoscale weather, including interpretation of satellite and radar information. Prereq> Atm Ocn 311 & 340, or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ATM OCN 455 Severe Storm Forcasting and Observation Credits: 1
Application of severe storm forecasting and nowcasting techniques under operational conditions. Severe storm observation and photography (storm chasing), application in the field. Prereq> Atm Ocn 453 or cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Summer

ATM OCN 471 Numerical Techniques in Weather Prediction Credits: 3
Introduction to mathematical aspects of numerical weather prediction models. Formulation and solution properties for finite-difference equations. Hands-on experimentation with simple models for energy balance, advection, and motion. Numerical performance of current operational numerical weather prediction models. Prereq> Atm Ocn 310, 311, 330 & 340 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ATM OCN 472 Scientific Background to Global Environmental Problems Credits: 3
A one-semester course designed to provide those elements of physics, atmospheric sciences, chemistry, biology and geology which are essential to a scientific understanding of global environmental problems. Specific examples of such problems include global warming, stratospheric ozone depletion, acid rain and environmental toxins. Three lectures per week. Prereq> HS algebra & 1 sem college level chem or physics, or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ATM OCN 508 Teacher Workshop in Satellite Meteorology Credits: 1 - 2
This workshop is designed to address the professional development needs for K-12 science teachers. L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ATM OCN 509 Teacher Workshop in Earth System Science - Web Credits: 1 - 3
These courses are designed to address the professional development needs for K-12 science teachers in the earth and space sciences. Topics will be designed to meet the Wisconsin State Science standards and be presented by science and education experts. Prereq> Cons inst
L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ATM OCN 520 Bioclimatology Credits: 3
Meteorology and climatology as they relate to problems in biology and agricultural production. Prereq> Jr st and 1 crse in either basic biology or basic meteorology
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ATM OCN 522 Tropical Meteorology Credits: 3
Characteristics of the tropical atmosphere; local and diurnal phenomena; tropical synoptic systems; circulation and energetics; mechanisms of tropical climate variations. Prereq> Atm Ocn 311, 340
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 528 Past Climates and Climatic Change Credits: 3
Climatic change throughout geologic time, especially in the last 10 millennia; mechanisms of change, evidence, and criteria, paleogeography and paleoclimatology, climate models. Prereq> Jr st or one year calculus-based college physics or introduction to weather and climate; or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ATM OCN 531 Global Climates Credits: 3
Special topics in climatology; a descriptive and explanatory analysis of the climatic characteristics of each continent, with emphasis on deviations from the world pattern. Prereq> Geog 321 or equiv or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 532 Environmental Biophysics Credits: 3
Plant-environment interactions with particular reference to energy exchanges and water relations. Models are used to provide a quantitative synthesis of information from plant physiology, soil physics, and micrometeorology with some consideration of plant-pest interactions. Prereq> Intro calc, Physics 103, Botany 130 & comp programing; or cons inst
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ATM OCN 535 Atmospheric Dispersion and Air Pollution Credits: 3
Physical principles of atmospheric transport processes. Variation of transport in time and place. Local and regional concentrations of pollutants. Environmental implications of air pollution and control strategies. Prereq> Math 212, Physics 202, or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 575 Climatological Analysis Credits: 3
Mathematical and statistical tools applicable to the investigation of climatological problems; nature and treatment of climatological data. Prereq> Atm Ocn 311 & 340, or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 601 Challenging Problems of Atmospheric and Oceanic Sciences Credits: 2 - 3
Individual staff members weave detailed subjects into the general fabric of the physical environment. Prereq> Cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ATM OCN 610 Geophysical Fluid Dynamics I Credits: 3
Basic dynamic concepts: equations of motion, basic approximations, Coriolis force, wave motions, normal modes, gravity waves, frictional turbulence and convective processes, geostrophic adjustment, scaling argument, effects of rotation on wave motions. Vorticity and potential vorticity. Prereq> Physics 208, Math 234 & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ATM OCN 611 Geophysical Fluid Dynamics II Credits: 3
Quasi-geostrophic motion, potential vorticity equations, E-P fluxes, Rossby waves, boundary layer processes, wind-driven ocean circulation and western boundary currents, barotropic and baroclinic instability, tropical flows. Prereq> Atm Ocn 610 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 623 Electronic Aids to Measurement Credits: 4
Fundamentals of electronics, electronic elements, basic circuits; combinations of these into measuring instruments. Three lectures and one three-hour lab per week. Prereq> Undergraduates who have 3 semesters of calculus level physics may enroll with consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 630 Introduction to Atmospheric and Oceanic Physics Credits: 3
Graduate level core course, covering thermodynamics theory of multiphase systems, thermodynamic analysis of atmosphere, microphysical processes in the atmosphere, atmospheric and oceanic chemical processes, conduction of heat and moisture into the atmosphere from ocean and land surface. Prereq> Physics 208, Math 234 & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ATM OCN 637 Cloud Physics Credits: 3 - 4
Processes of cloud formation, growth, and dissipation from the standpoint of both the cloud particles and the whole cloud as a dynamic entity. Prereq> Atm Ocn 311 & 340, or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
ATM OCN 638 Atmospheric Chemistry Credits: 3
Evolution of the atmosphere, chemical structure, instrumental analysis, trace gases, aerosol mechanics, chemical processes. Prereq> One year calculus-based college physics, chemistry, and calculus for science majors, or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 640 Radiation in the Atmosphere and Ocean Credits: 3
Graduate level core course in radiation. Introduction to basic laws, radiative transfer under clear sky conditions, scattering by individual particles, multiple scattering, radiative properties of clouds and aerosols, energy budget, miscellaneous applications. Prereq> Physics 208, Math 234 & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ATM OCN 650 Analysis of Atmospheric Systems Credits: 3
Graduate level core lab and lecture course designed to quantitatively analyze, descriptively define and physically interpret atmospheric structures, climate and flow systems depicted by observations on scales ranging from the global circulation to those of turbulence in the planetary boundary layer. Observation and analysis strategies. Prereq> Atm Ocn 610, 630 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

ATM OCN 651 Synoptic-Dynamic Laboratory Credits: 3
Quantitative lab applications of atmospheric dynamics and thermodynamics to synoptic systems. Jet stream systems, cyclone development, global air motions, performance of numerical prediction models, local surface forecasting. Prereq> Atm Ocn 610 & 630 & cons inst, or Atm Ocn 650
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

ATM OCN 660 Introduction to Physical Oceanography Credits: 3
Physical properties of sea water: ocean climatology, water, salt and heat budget, measurements, ocean circulation and water mass of the world ocean, thermocline, thermohaline, equatorial ocean and southern ocean. Prereq> Physics 208, Math 234 & cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

ATM OCN 681 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ATM OCN 682 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ATM OCN 691 Senior Thesis Credits: 2 - 3
Prereq> A) atm ocn major; B) Atm Ocn 311, 340 or con reg; C) approval Assoc Chairman of Undergrad Affairs
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ATM OCN 692 Senior Thesis Credits: 2 - 3
Prereq> A) atm ocn major; B) Atm Ocn 311, 340 or con reg; C) approval Assoc Chairman of Undergrad Affairs
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ATM OCN 698 Directed Study Credits: 1 - 5
Offered on a Cr/N grading basis. Does not count toward Grad residence credit. Prereq> Jr or Sr st; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

ATM OCN 699 Directed Study Credits: 1 - 5
Prereq> Jr or Sr st. Graded on a lettered basis; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
ATM OCN 705 The Middle Atmosphere Credits: 3
L&S Breadth: Physical Science  L&S Level: Advanced  Typically Offered: Occasionally

ATM OCN 710 The Chemistry of Air Pollution Credits: 2
The course will cover background and modern research methods for the application of chemical analysis tools to understanding of the origin, composition, and the chemical transformations of pollutants that occur in the atmosphere. Emphasis will be directed at the pollutants impacting human health, climate change, and ecosystem degradation. Approximately half of the course materials will be taken from the scientific literature and will provide the opportunity to advance skills in the critical reading of journal articles. The course is directed at graduate students conducting research and interested in air pollution and environmental chemistry. As part of the course, students will gain experie
Typically Offered: Every Other Fall

ATM OCN 712 General Circulation of the Atmosphere Credits: 3
The theory of the general circulation with emphasis on the sources, sinks, and transport of mass, angular momentum, and energy that serve to maintain the circumpolar vortex. Prereq> Atm Ocn 610, 630 or equiv
Typically Offered: Occasionally

ATM OCN 718 Dynamics of Moist Convective Systems Credits: 3
Governing equations for non-hydrostatic dynamics, mixed phase thermodynamics and microphysics. Cumulus parameterization and scale interactions. Application to theoretical and numerical models of thunderstorms (and attendant weather phenomena) and Mesoscale Convective Systems in the extra tropics and tropics. Prereq> Atm Ocn 610, 630
Typically Offered: Occasionally

ATM OCN 740 Advanced Atmospheric Radiation Credits: 3
The course deals with advanced topics in atmospheric radiative transfer. These include numerical methods to solve the radiative transfer equation, theory of scattering by spherical and non-spherical particles and advanced topics in gas absorption. Prereq> Atm Ocn 640
Typically Offered: Spring

ATM OCN 745 Meteorological Satellite Applications Credits: 2 - 3
Use of satellite imagery and measurements in meteorological research and operations; orbital characteristics; navigation; instrumentation. Prereq> Atm Ocn 640 or 1 yr calc-based college physics & Math 234
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

ATM OCN 750 Problems in Oceanography Credits: 3
Introduction to techniques used in the study of the biology, chemistry, geology, and physics of the marine environment. Prereq> Cons inst
Typically Offered: Occasionally

ATM OCN 760 Large-Scale Ocean-Atmosphere Coupling Credits: 3
Various aspects of global ocean-atmosphere coupling and climate variability; global surface flux distribution; mixed layer dynamics; tropical dynamics and El Nino and Southern Oscillation; extratropical ocean-atmosphere coupling; interannual to interdecadal climate variability. Prereq> Atm Ocn 611 & 660, or cons inst
L&S Level: Advanced  Typically Offered: Occasionally

ATM OCN 761 Dynamics of Ocean Circulation Credits: 3 - 4
Theories of general oceanic circulation: Sverdrup flow, western boundary layer; thermocline circulation, recirculation theory, ventilated thermocline theory; thermohaline circulation, abyssal flow, thermohaline instability and multiple equilibria. Prereq> Atm Ocn 610, 660
L&S Breadth: Physical Science  L&S Level: Advanced  Typically Offered: Occasionally

ATM OCN 771 Numerical Modeling in Meteorology Credits: 3
Advanced techniques for development of meteorological numerical models. Survey of existing models for general circulation, operational weather prediction, mesoscale convection, and turbulence with emphasis on numerical methods and solution accuracy. Prereq> Atm Ocn 610, 630 or cons inst
Typically Offered: Occasionally
ATM OCN 773 Boundary Layer Meteorology Credits: 3
Observations of and theories for boundary layers, turbulence, spectra, plumes, dust devils, convection, terrain effects, and other phenomena in the lowest 2 km of the atmosphere. Prereq> Atm Ocn 311, 340; or 610, 630
L&S Breadth: Physical Science L&S Level: Advanced Typically Offered: Occasionally

ATM OCN 801 Topics in Theoretical Meteorology Credits: 2 - 3
Advanced level subjects in dynamics, synoptics, climate-dynamics and atmospheric physics including recent advances. Prereq> Grad level gen meteor & cons inst
Typically Offered: Occasionally

ATM OCN 900 Seminar-Meteorology Credits: 1 - 2
Prereq> Grad st
Typically Offered: Occasionally

ATM OCN 907 Seminar: Research Presentations Credits: 1
Required weekly seminar for all M.S. and Ph.D. students pursuing a degree with a thesis, given each semester. Students, faculty and research staff present aspects of their work in progress, with topics advertised in the weekly AOS calendar. In-depth discussion will be included, to foster independent, original work. Grading will be based on regular participation. Prereq> All graduate students except those pursuing the non-thesis MS degree option
Typically Offered: Occasionally

ATM OCN 911 Limnology and Marine Science Seminar Credits: 1
Sections in various fields of zoological research. Prereq> Grad st in limnology & marine sci grad prgm or cons inst
Typically Offered: Occasionally

ATM OCN 915 Seminar-Dynamics Credits: 1 - 2
Prereq> Grad st
Typically Offered: Occasionally

ATM OCN 925 Seminar-Climatology Credits: 1 - 2
Historical climatology with emphasis on the last few centuries. Prereq> Grad st
Typically Offered: Occasionally

ATM OCN 935 Seminar-Physical Meteorology Credits: 1 - 2
Topics in physical meteorology are explored at an advanced graduate level, including severe storms, cloud physics and atmospheric chemistry, depending on instructor. Prereq> Grad st
Typically Offered: Occasionally

ATM OCN 945 Radiation and Remote Sensing Seminar Credits: 1 - 2
Topics in radiation and remote sensing of the atmosphere and ocean. Emphasis will be on current and classical problems in radiative transfer and remote sensing. Prereq> Grad st
Typically Offered: Occasionally

ATM OCN 953 Introduction to Ecology Research at UW-Madison Credits: 1 - 2
This seminar course will introduce new graduate students to the diversity of ecologists across the UW-Madison campus. Course meetings will include discussions of key topics in professional development, research presentations by faculty members, and discussions of assigned papers with senior graduate students. Prereq> None
Typically Offered: Fall

ATM OCN 955 Seminar - Weather Systems Credits: 1 - 2
Topics in weather systems are explored at an advanced graduate level, including problems in synoptics, mesoscale, and micrometeorological weather phenomena, depending on instructor. Prereq> Grad st
Typically Offered: Occasionally

ATM OCN 965 Seminar-Oceanography Credits: 1 - 2
Prereq> Grad st
Typically Offered: Occasionally
ATM OCN 980 Earth System Science Seminar Credits: 1
Topics in earth system science. Emphasis on the coupling between atmospheric, oceanic and land surface systems, involving physical geochemical and biological processes, and including interactions with human systems. Prereq: Grad st
Typically Offered: Occasionally

ATM OCN 990 Research Credits: 1 - 12
Prereq: Grad st
Typically Offered: Occasionally

ATM OCN 999 Advanced Independent Study Credits: 1 - 6
Prereq: Grad st
Typically Offered: Occasionally

BIOLOGY

BIOLOGY 100 Exploring Biology Credits: 2
A first-year course focused on the core concepts in biology (evolution; transformation of energy and matter; information exchange and storage; structure and function; systems biology), professions in biology, and the foundational skills and knowledge needed for successful academic and post-graduate careers in biology. Prereq:
Open to first year students only
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

BIOLOGY 101 Animal Biology Credits: 3
General biological principles. Topics include: evolution, ecology, animal behavior, cell structure and function, genetics and molecular genetics and the physiology of a variety of organ systems emphasizing function in humans. Prereq:
Open to Freshmen. Not for credit for those who have taken Zool 151 or 152 or equivalent
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 102 Animal Biology Laboratory Credits: 2
Prereq: Zool 101 or con reg. Open to Freshmen
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 130 General Botany Credits: 5
Introduction to the basic principles and concepts of the biology of plants. An integrative approach stressing evolutionary sequences and the relationship between structure and function at succeeding levels of organization: molecule, cell, organism, population, community. Correlated lectures, laboratories, and discussions. Prereq:
Open to Fr; not open to stdts who have taken Botany 100 or Botany/Zoology 151-152. HS or coll chem crse recommended
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

BIOLOGY 150 Ways of Knowing Biology Credits: 1
First year students hear presentations from outstanding research faculty in the biological sciences campus-wide. Students visit three research sites as well as attend small group seminars led by faculty. Students are encouraged to explore the possibility of a research experience in their degree program. Prereq:
Open to Fr only
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

BIOLOGY 151 Introductory Biology Credits: 5
First semester of a two semester course designed for majors in biological sciences. Topics include: cell structure and function, cellular metabolism (enzymes, respiration, photosynthesis), information flow (DNA, RNA, protein), principles of genetics and selected topics in Animal Physiology. Prereq:
Open to Freshmen. HS chem or concurrent registration in college chemistry strongly advised. Not for full credit for those who have taken Bot 100, 130; Zool 101, 102, 120; or equivalent
L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring
BIOLOGY 152 Introductory Biology Credits: 5
Second semester of a two semester course designed for majors in biological sciences. Continuation of 151. Topics include: selected topics in plant physiology, a survey of the five major kingdoms of organisms, speciation and evolutionary theory, and ecology at multiple levels of the biological hierarchy. Prereq> Botany/Zoology 151. Not for full credit for those who have taken Bot 100, 130; Zool 101, 102, 120; or equivalent
General Education: COM B L&S Breadth: Biological Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

BIOLOGY 260 Entering Research Part 1 Credits: 1
Seminar course for sophomore or transfer students to begin independent research in science, technology, engineering or mathematics. Taken concurrently with 1-3 research credits with faculty member. Supports independent research experience.
L&S Credit: No degree credit in L&S Typically Offered: Fall

BIOLOGY 261 Entering Research Part 2 Credits: 1
Seminar course for sophomore or transfer students continuing independent research in science, technology, engineering or mathematics. Taken concurrently with 1-3 research credits with faculty member. Supports independent research experience.
L&S Credit: No degree credit in L&S Typically Offered: Spring

BIOLOGY 299 Directed Studies Credits: 1 - 4
Graded on a letter basis. Prereq> Cons inst. Open to Fr
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 375 Special Topics Credits: 1 - 5
Prereq> Prerequisite varies with topic
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Occasionally

BIOLOGY 399 Internship/Field Experience Credits: 1 - 8
Graded on a letter basis. Prereq> So st & cons of supervising inst, advisor & internship progm coordinator
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 660 Research Mentor Training Practicum Credits: 1
Practicum course for graduate, post-doctoral or senior undergraduate students to be taken concurrently while mentoring an undergraduate engaged in an independent research experience. Prereq>
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Summer

BIOLOGY 675 Special Topics Credits: 1 - 5
Prereq> Prerequisite varies with topic
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

BIOLOGY 681 Senior Honors Thesis Credits: 2 - 3
Graded on a letter basis. Prereq> 2 sem of coll biol & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 682 Senior Honors Thesis Credits: 2 - 3
Graded on a letter basis. Prereq> 2 sem of coll biol & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 691 Senior Thesis Credits: 2 - 3
Graded on a letter basis. Prereq> 2 sem of coll biol & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 692 Senior Thesis Credits: 2 - 3
Graded on a letter basis. Prereq> 2 sem of coll biol & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY 699 Directed Studies Credits: 1 - 4
Graded on a letter basis. Prereq> 2 sem of coll biol & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BIOLOGY CORE CURRICULUM
BIOCORE 381 Evolution, Ecology, and Genetics Credits: 3
Basic principles of ecology and interrelations between individuals, populations, communities, ecosystems and their environment; transmission genetics and introduction to population genetics; origin of life, evolutionary mechanisms, ancestral relationships among species, and the diversity of life. Prereq: Math 221, Chem 104 or 109, previous or concurrent registration in Chem 341 or 343; or consent of instructor
General Education: COM B L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

BIOCORE 382 Evolution, Ecology, and Genetics Laboratory Credits: 2
Writing-intensive course with opportunities for students to make observations and generate and test their own questions. Includes field trips to the Biocore Prairie and local stream, and research projects that focus on genetics and evolution. Prereq: Completion of or concurrent registration in Biocore 381 (or Biocore 301 previous to Fall 2014)
General Education: COM B L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

BIOCORE 383 Cellular Biology Credits: 3
Cellular and molecular basis of life. The main themes are the structure and function of cells and organelles, the flow of energy in cells, and the storage, expression, and regulation of genetic information. Prereq: Biocore 381 (or Biocore 301 previous to Fall 2014), Chem 341 or 343; or consent of instructor
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

BIOCORE 384 Cellular Biology Laboratory Credits: 2
Writing-intensive course with opportunities for students to generate and test their own questions utilizing concepts and procedures of cell biology. Includes research projects in subcellular fractionation, protein structure and enzyme catalysis, molecular genetics of C. elegans worms, and signal transduction in yeast. Prereq: Completion of or concurrent registration in Biocore 383 (or Biocore 303 previous to Spring 2014) or Biochem 501 & Genetics 466. Sophomore or Junior status or consent of instructor
General Education: COM B L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

BIOCORE 485 Organismal Biology Credits: 3
Physiology course that considers how plants and animals interact with their environments to survive, obtain nutrients, exchange gases, and reproduce, also how the complex systems of neural and endocrine regulation in animals and hormonal and environmental regulation in plants allow cells and organs to communicate. Prereq: Biocore 381 & 383 (or Biocore 301 & 303 previous to Spring 2014); or consent of instructor
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

BIOCORE 486 Organismal Biology Laboratory Credits: 2
Students experience the process of science by collaborating on two multi-week independent experiments to investigate their own questions about animal and plant physiology. Emphasis is on critical thinking required in designing and conducting experiments, analyzing and interpreting data, and communicating findings orally and in writing. Prereq: Biocore 485 (or Biocore 323 previous to Fall 2014) or concurrent registration
L&S Breadth: Biological Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall

BIOCORE 587 Biological Interactions Credits: 3
This capstone course helps students build on and integrate the knowledge and skills they have gained in the previous three semesters of Biocore lab and lecture coursework through readings and analysis of primary scientific literature. The course is organized such that students work in small groups to analyze current and emerging topics through the lens of scientific research. Topics include signaling pathways, systems biology, genetic disease, and cancer. Prereq: Biocore 381, 383, and 485 (or Biocore 301, 303, and 323 previous to Spring 2014); or consent of instructor
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

BIOCORE 699 Directed Study Credits: 1 - 3
Prereq: Biocore 301 & cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BOTANY
BOTANY 100 Survey of Botany Credits: 3
Major emphasis on the roles of plants and microbes in past and present global ecology, and the past and present uses of plants and microbes by humans, including emerging applications of biotechnology. Lectures and short lab/discussions. Prereq> Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring, Summer

BOTANY 123 Plants, Parasites, and People Credits: 3
The course will explore the interaction between society and plant-associated microbes. Topics include: the Irish potato famine, pesticides in current agriculture, role of economics and consumer preference in crop disease management and the release of genetically engineered organisms. Prereq> Open to Fr
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 130 General Botany Credits: 5
Introduction to the basic principles and concepts of the biology of plants. An integrative approach stressing evolutionary sequences and the interaction between structure and function at succeeding levels of organization: molecule, cell, organism, population, community. Correlated lectures, laboratories, and discussions. Prereq> Open to Fr; not open to stdts who have taken Botany 100 or Botany/Zoology 151-152. HS or coll chem crse recommended
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 133 Genetics and Human Affairs Credits: 3
The current advances in genetics and related life sciences and their social, ethical, and economic implications for human welfare. Object: to provide sufficient knowledge for intelligent and critical evaluation of issues arising from recent discoveries. Prereq> Open to Fr. Not open for cr to majors in biol sci or premed stdts. HS or coll biol crse recommended
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 151 Introductory Biology Credits: 5
First semester of a two semester course designed for majors in biological sciences. Topics include: cell structure and function, cellular metabolism (enzymes, respiration, photosynthesis), information flow (DNA, RNA, protein), principles of genetics and selected topics in Animal Physiology. Prereq> Open to Freshmen. HS chem or concurrent registration in college chemistry strongly advised. Not for full credit for those who have taken Bot 100, 130; Zool 101, 102, 120; or equivalent
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 152 Introductory Biology Credits: 5
Second semester of a two semester course designed for majors in biological sciences. Continuation of 151. Topics include: selected topics in plant physiology, a survey of the five major kingdoms of organisms, speciation and evolutionary theory, and ecology at multiple levels of the biological hierarchy. Prereq> Botany/Zoology 151. Not for full credit for those who have taken Bot 100, 130; Zool 101, 102, 120; or equivalent
General Education: COM B  L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 160 Heredity Credits: 3
Heredity; genetics for students not specializing in life sciences; principles of heredity; current advances in genetics applied to humans, animals and plants with their impact on life sciences and society. Lectures and discussion. Prereq> Crse open to all So; Open to Fr with cons inst; HS or college crse in biol recommended; not open to pre-med or sci major without cons inst
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 240 Plants and Humans Credits: 3
Plants and demonstrations of their utility to humans, origins of domesticated plants, modifications of plants by humans, ecosystem services owed to plants, and reasons to sustain plant diversity. Prereq> Open to Freshmen
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 260 Introductory Ecology Credits: 3
For nonbiology students: the relationships of organisms and the environment. Population dynamics and community organization, human-environment relationships, action programs. Prereq> Open to Freshmen. Does not count toward Botany or Zoology major
L&S Breadth: Biological Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
BOTANY 300 Plant Anatomy Credits: 4
Plant structure and development of seed plants, primarily of flowering plants. Emphasis is placed on structure in relation to function and on the plant body as a structural and functional entity; lecture and lab. Prereq> A 5 cr intro crse in botany
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 305 Plant Morphology and Evolution Credits: 4
A broad survey of the diversity of plants in the context of their evolutionary history. Similarities and differences in structure and reproduction among extant bryophytes, lycopsids, ferns, gymnosperms, and flowering plants are emphasized along with the study of fossils representing extinct plant lineages. Prereq> Introductory course in plant anatomy
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 329 Microtechnique Credits: 4
Theory and practice of preparing plant material for microscopic examination; cyto- and histochemistry, photomicroscopy with experience in film development, printing and plate assembly electronic imaging, measurements and plate reproduction; student projects; lecture and lab. Prereq> A 5 cr bot crse or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 330 Algae Credits: 3
Introduction to ecology, evolution, systematics, taxonomy, physiology, biochemistry, cell biology, and molecular biology of freshwater, terrestrial and marine algae. Lecture and lab. Lab emphasis on techniques for identification, culture, analysis of growth and reproduction, and community composition assessment. Prereq> 5-cr intro botany crse or cons inst
General Education: COM B  L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 332 Fungi Credits: 4
Growth, development, variability and dispersal of saprophytic, parasitic, and symbiotic fungi, with a consideration of their ecological and economic significance. Prereq> A 5 cr intro crse in botany
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 338 Environmental Biogeography Credits: 3
This course will explore how physical and biological factors affect the distribution of terrestrial biomes, ecosystem types, and biodiversity; as well as the role of disturbance and recent human activities on differences in past and modern day species distributions. Prereq> Geog 120, 127 or consent of instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 339 Plant Biotechnology: Principles and Techniques I Credits: 4
Theoretical and practical training in plant biotechnology including molecular biology, protein biochemistry and basic bioinformatic techniques used in fundamental and applied research on plants. Valuable hands-on training to those interested in careers in biotechnology. Prereq> Bot/Zoo 152 or equiv & Chem 104 or equiv
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 340 Plant Cell Culture and Genetic Engineering Credits: 4
Theoretical and practical training in plant cell and tissue culture, and plant genetic engineering. Includes overview of current techniques, biosafety and regulatory requirements, and experimental design and analysis used in fundamental and applied research on plants. Valuable hands-on training to those interested in careers in biotechnology. Prereq> Botany 130 or Botany/Zoology/Biology 152 or Zoology 102 and Chemistry 104, 109, or 116
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 360 Bryophytes Credits: 3
Ecology, evolution, systematics, taxonomy, physiology, biochemistry, cell biology, and molecular biology of mosses, liverworts, and hornworts. Lecture and lab. Lab focuses on techniques for identification, laboratory and horticultural cultivation, and use of bryophytes as model systems in plant cell biology. Prereq> 5 cr intro botany crse or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
BOTANY 370 Grassland Ecology Credits: 3
Understand factors driving global, continental, regional, and local distribution of grasslands. Discuss how management affects provision of grassland ecosystem goods and services. Compare and contrast plant community and ecosystem dynamics in native prairie and intensively managed pastures. Prereq> Intro crse in Agronomy, Botany, or Soil Sci; or Bot/Zoo/Biol 151-152; or Biocore 301 or 333
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 400 Plant Systematics Credits: 4
Plant systematics; the integration of taxonomy (identification, nomenclature, classification emphasizing flowering plants), evolution (speciation, reproductive biology, adaptation, convergence, biogeography), and phylogenetics (phenetics, cladistics, morphology and molecules). Lab emphasis on representative families and genera of flowering plants in Wisconsin, use of keys and manuals, plant collection. Recommended for botany majors; lecture and lab. Prereq> A 5 cr intro crse in botany
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 401 Vascular Flora of Wisconsin Credits: 4
Taxonomic survey of the vascular plants of Wisconsin, with emphasis on the angio-sperms. Lecture, lab and field work. Prereq> A 5 cr intro col crse in bot or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring, Summer

BOTANY 402 Dendrology Credits: 2
Identification, ranges, uses, and some ecological characteristics of evergreen and deciduous woody plants, both native and cultivated; lab and field work. Prereq> A 5 cr intro college crse in bot or equiv
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 403 Field Collections and Identification Credits: 1 - 4
Students consult the instructor in the spring or summer for equipment and directions for making a plant collection in summer or fall. Prereq> Bot 400 or 401. Open only to students who have made collections during the summer or will be making collections in early fall
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Summer

BOTANY 410 Evolutionary Biology Credits: 3
Evolutionary biology, emphasizing how modern scientists study evolution. Topics include: nature and mechanisms of microevolution, macroevolution, adaptation, speciation; systematics and taxonomy; quantitative genetics and measurement of natural selection; phylogenetic analyses of behavior, physiology, morphology, biochemistry; current controversies in evolution. Prereq> An elem course in zool or botany & So st; Genetics/Botany/Zool 160 or 466 recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 422 Plant Geography Credits: 3
Biogeography of plants. Relationship to climate and geology; paleobiogeography, vicariance and island biogeography; history and distribution of floras of North America and Wisconsin; lecture and demo lab; open to advanced students in the natural sciences. Prereq> A crse in plant taxonomy is highly recommended
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 450 Midwestern Ecological Issues: A Case Study Approach Credits: 2
This web course explores how ecological principles can be used to address contemporary environmental issues such as water quality, invasive species, and population growth. Emphasis on midwestern issues, practical approaches, the role of history, and geographic context. Prereq> Intro biology crse, interest in solving problems
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 455 The Vegetation of Wisconsin Credits: 4
Ecology of Wisconsin plant communities: floristic composition, community structure; relationship to history, climate, soil, and geology; response to human perturbation. Lecture and lab. Prereq> Botany 100, or Botany 130, or Botany/Zoology 151-152, or Biocore 313
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
BOTANY 459 Ecological Techniques for Field Monitoring Credits: 1 - 2
Field techniques to inventory and census plant and animal species and ecological processes and how to assemble these into useful databases. Emphasis on 'keystone' and invading exotic species that strongly affect community dynamics. Aimed at science teachers interested in participating in a monitoring network. Prereq> A crse in ecology (e.g. Botany 450, 460), interest in monitoring, & cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Summer

BOTANY 460 General Ecology Credits: 4
Ecology of individual organisms, populations, communities, ecosystems, landscapes, and the biosphere. The interaction of organisms with each other and their physical environment. These relationships are studied, often in quantitative terms, in both field and laboratory settings; lecture and lab. Prereq> Intro course in botany & zoology, or Bot/Zoo 151-152, or Biocore 301 or 333; for biol sci majors only
General Education:  QR-B  L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

BOTANY 461 Environmental Systems Concepts Credits: 3
A general systems approach to environmental problems: a philosophical-conceptual framework and a quantitative methodology for dealing with critical environmental issues that cross the boundaries of traditional disciplines. The nature of general systems, concepts and laws; the role of perspective in identification of system properties; the structure and behavior of environmental and ecological systems. For students with strong interests in environmental problems. Prereq> Envir St 126 & a crse in biology, or enroll in envir st undergrad prog
Authorization may be required
L&S Breadth: Interdivisional  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 466 General Genetics Credits: 3
Genetics in eukaryotes and prokaryotes. Includes Mendelian genetics, mapping, molecular genetics, genetic engineering, cytogenetics, quantitative genetics, and population genetics. Illustrative material includes viruses, bacteria, plants, fungi, insects, and humans. Prereq> Algebra, 1 yr chem & 1 yr biology or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BOTANY 468 Patterns in Biological Design: An Introduction to Systems Biology Credits: 3
Holistic systems and biological design. Intuitive verbal models not mathematical techniques. Topics: scale problems; architecture of biological form; models for control, growth, and transport; general systems philosophy, theory of models, levels of organization, continuous versus catastrophic change; biological paradigms. Prereq> So st; computer experience recommended. Any intro botany crse; Math 101
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 473 Plant-Insect Interactions Credits: 3
Multiple ways in which arthropods exploit plants, plant traits that deter or augment insects, environmental mediation of these interactions, effects on population dynamics, community ecology and co-evolution, and implications to natural resource management, environmental quality, and sustainable development. Prereq> One of the following: Bot/For/Zoo 460, Ent/Pl Path/For 500, Pl Path/Bot 505, Forestry 550, or Entom 342
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 474 Ethnobotany Credits: 3 - 4
Study of the interactions between human cultures and plants. Topics include: traditional resource management and agriculture; crop domestication, evolution, and conservation; archaeobotany; indigenous knowledge; folk taxonomy; plants in symbolism and religion; dietary patterns; phytochemistry; global movement of plants and peoples. Prereq> A five credit course in botany or biology (e.g., Botany 130, Biology 151) or cons inst
Ethnic Studies: Yes  L&S Breadth: Biological or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 500 Plant Physiology Credits: 3 - 4
An in-depth look at plant growth, development, respiration, photosynthesis, mineral nutrition, and water relations. For junior, senior and graduate students; not for those who have taken Biocore. In the laboratory, experimental approaches will be used to demonstrate principles described in lecture. 3-credit option (lecture only) available with consent of instructor. Prereq> Intro botany or biology sequence required; organic chem recomm. Undergrads must enroll for 4 cr (lec & lab); Grads may enroll for 3 cr (lec only) or 4 cr
General Education:  QR-B  L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring
BOTANY 505 Plant-Microbe Interactions: Molecular and Ecological Aspects Credits: 3
Molecular and ecological aspects of the interactions between plants and microorganisms. This course explores many of the themes, from genetic to integrative, of modern biology, and illustrates how study of plant-microbe interactions contributes to understanding of fundamental plant science. Prereq> An upper level crse in microbiol (e.g. Bact 303); biochem (e.g. Biochem 501); & genetics (e.g. Genetics 466) or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 555 Plant Functional Genomics and Bioinformatics Credits: 2 - 3
A survey of the underlying technologies of genomic research with a special emphasis on their applications in plant science. Provides students with a deeper understanding of the many public resources and databases being generated by large-scale genomics projects. Prereq> Grad st; undergrads with Genetics 466 or equiv or cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Spring

BOTANY 561 Introductory Cytogenetics Credits: 2 - 3
Mitosis, meiosis, variations in chromosome structure and number, cytological aspects of hybridity and apomixis; chromosomes as they affect breeding behavior. Prereq> Genetics, Botany, Zoology 466 or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 563 Phylogenetic Analysis of Molecular Data Credits: 3
A course in the theory and practice of phylogenetic inference from DNA sequence data. Prereq> A crse in genetics/evolution/systematics & a crse in stats/probability, or cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

BOTANY 575 Special Topics Credits: 1 - 3
Topics of interest to undergraduates, taught as the need arises. Prereq> Cons inst
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

BOTANY 620 Plant Pathogenic Fungi Credits: 3
Review of taxonomic systems used for the identification of major groups of plant pathogenic fungi. Cytology and morphology of plant pathogenic fungi and histopathology of host-pathogen relations. Prereq> Pl Path 300 & 332
L&S Breadth: Biological Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

BOTANY 621 Plant Biochemistry Credits: 3
Biochemistry of photosynthesis, respiration, cell walls, and other metabolic and biosynthetic processes in plants. Prereq> Biochem Biochem 501 or 507
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 626 Mineral Nutrition of Plants Credits: 3
Essential and beneficial elements, solutions and soil as nutrient sources, rhizosphere chemistry, nutritional physiology, ion uptake and translocation, functions of elements, nutrient interactions, genetics of plant nutrition. Prereq> Botany 350 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 629 Evolutionary Genetics Credits: 3
Basic principles of phylogenetics, population genetics and quantitative genetics including the construction of gene trees, forces affecting the amount and distribution of genetic variation in populations, and the inheritance and evolution of multifactorial characters. Prereq> Genetics 466 or Biocore 301 & 302 or equiv. Knowledge of intro calc & stats or cons inst
L&S Breadth: Biological Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

BOTANY 639 Capstone Course in Field Biology I Credits: 1
Background readings in the biology of the subtropics, preparatory to Botany/Zoology 640. Training in hypothesis formulation, field methods, writing a research proposal, and the logistics of field biology. Prereq> One or more prev crses in biol sci above intro level; Jr or Sr st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
BOTANY 640 Capstone Course in Field Biology II Credits: 3
A 3 week field trip during winter break (for example, to south Florida, with most of the time spent camping out in Everglades National Park). Zoology/Botany 640 completes the course with 18 hours of classroom instruction in analysis and scientific writing during the spring semester. Prereq> Zool/Bot 639; one or more crses in biol sci above intro level; Jr or Sr st
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

BOTANY 645 Modeling in Population Genetics and Evolution Credits: 3
Introduction to mathematical techniques and approaches for predicting evolutionary change within populations. Concentrates on classic population genetic models and results, including selection on one and several loci; mutation; non-random mating; drift. Evaluation based on periodic problem sets and independent projects. Prereq> Intro evolution, intro genetics, calculus, or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

BOTANY 651 Conservation Biology Credits: 3
Application of ecological principles and human dimensions to the conservation of biological diversity. Topics: biodiversity science; conservation planning; population ecology; habitat loss, species exploitation, invasive species, pollution; human attitudes and activities as they affect the biosphere; approaches to monitoring interventions. Prereq> An ecology crse (eg, Botany/Zoology 460)
General Education: QR-B L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

BOTANY 655 Biology and Genetics of Filamentous Fungi Credits: 3 - 4
Fungal genetics, genomics, and physiology using plant pathogenic fungi and the genetic models Aspergillus nidulans and Neurospora crassa as model systems to explore the current knowledge of fungal genetics and plant/fungal interactions. Prereq> Cons inst; PI Path 300 & 332 recommended; Genetics 466 or equiv; general microbiol crse
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

BOTANY 670 Adaptive Restoration Lab Credits: 2
Field experience in restoration as an adaptive process involving field experimentation; baseline data collection on restoration sites; design of experiments to advance restoration science; quantitative evaluation of restoration outcomes. Analysis and interpretation of data; development of a team report. Prereq> a crse in ecology & a crse in stats, or cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

BOTANY 672 Historical Ecology Credits: 2
Historical Ecology is an area of ecology that considers the importance of past events for current ecosystems. Concepts and applications are emphasized. Multidisciplinary emphasis, for seniors and graduate students in biological sciences, social studies, and humanities. Discussion format. Prereq> Graduate or senior standing and consent of instructor
L&S Breadth: Biological Science L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Spring

BOTANY 681 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BOTANY 682 Senior Honors Thesis Credits: 3
Prereq> Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BOTANY 691 Senior Thesis Credits: 2 - 3
Introduction to botanical research; if possible, plans for the thesis program should be made by the close of the junior year.
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BOTANY 692 Senior Thesis Credits: 2 - 3
Continuation of 691.
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

BOTANY 698 Directed Study Credits: 1 - 4
Prereq> Jr or Sr st. Graded on a Cr/N basis; requires cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer
BOTANY 699 Directed Study Credits: 1 - 4
Prereq> Jr or Sr st. Graded on a lettered basis; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

BOTANY 725 Ecosystem Concepts Credits: 3
Scope and objectives of ecosystem ecology; roles of theory, long-term studies, comparative studies, and large-scale experiments; scaling problems; ecosystem services and ecological economics; adaptive ecosystem assessment and management. Prereq> Grad st. Experience in modeling, programming, or stats
Typically Offered: Occasionally

BOTANY 801 Advanced Plant Community Ecology Credits: 4
Ecological determinants of plant community structure, dynamics, and diversity from an evolutionary perspective. Relations of vegetation types, physiognomy and phenology to plant adaptation and constraints. Gradient analysis, succession, nutrient cycling, plant-herbivore interactions, species richness. (Includes field trip to Great Smoky Mountains.) Prereq> Bot 455, 460, or Biocore 333, and intro calculus
Typically Offered: Occasionally

BOTANY 802 Physiological Plant Ecology Credits: 3
Gas exchange at the individual plant and community level, energy balance and water relations, nutrient cycling, biomechanical adaptations; growth analysis; adaptations to sun and shade, primary productivity models, physiological ecology of selected plant communities (arctic/alpine, boreal, chaparral, desert, tropical, aquatic). Lecture and lab. Prereq> A crse in ecology or cons inst
Typically Offered: Occasionally

BOTANY 820 Foundations of Evolution Credits: 2
Through reading and analysis of the primary literature, this course will explore some of the most important themes and debates that have permeated evolutionary biology over the last 50 years. Students will read key papers related to each controversial topic, will debate the pros and cons of competing viewpoints, and will reflect on the relevance of the issues to contemporary evolutionary biology. Students will also write a paper that analyzes one topic in more detail. This course is intended for graduate students who plan to specialize in evolutionary biology, broadly construed. Prereq> None
Typically Offered: Fall

BOTANY 825 Ecological Methods Credits: 3
Collecting, compiling and analyzing data used in the study of plant communities; lecture and lab. Prereq> Bot 455 or 460 & elem knowledge of stat
Typically Offered: Occasionally

BOTANY 828 Evolutionary Plant Ecology Credits: 3
Topics in plant population biology from an evolutionary perspective, including the ideas of kin and group selection, life history analysis, the dynamics of plant competition, and the adaptive significance of sex. Prereq> An ecology crse (Botany/Zoology 460 or Biocore 333) and a genetics crse or cons inst
Typically Offered: Occasionally

BOTANY 840 Regulatory Mechanisms in Plant Development Credits: 3
Molecular mechanisms whereby endogenous and environmental regulatory factors control development; emphasis on stimulus perception and primary events in the signal chain leading to modulated gene expression and cellular development; lecture. Prereq> Biochem 501 or 601 & Botany 500 or Biocore 301 & 323
Typically Offered: Occasionally

BOTANY 858 Special Topics in Plant Physiology Credits: 1 - 3
Subjects vary. Lecture. Prereq> Cons inst
Typically Offered: Occasionally

BOTANY 860 Plant Cell Biology Credits: 2
Structure/function relationships at the cellular level. Topics include the biogenesis of organelles, vesicle traffic, ion transport and signalling processes, and organization of the cytoskeleton and cell wall. Prereq> Botany 500 or Biochem 501 or 601
Typically Offered: Occasionally
BOTANY 879 Advanced Landscape Ecology Credits: 3
Landscape ecology emphasizes spatial patterning--its development and importance for ecological processes--and often focuses on large regions. Concepts, methods, and applications of landscape ecology will be learned through lectures, readings, exercises in quantitative approaches, and an independent project. Prereq> Grad st & cons inst
Typically Offered: Occasionally

BOTANY 910 Seminar-Morphology Credits: 1
Prereq> Grad st or cons inst
Typically Offered: Occasionally

BOTANY 911 Limnology and Marine Science Seminar Credits: 1
Sections in various fields of zoological research. Prereq> Grad st in limnology & marine sci grad prgm or cons inst
Typically Offered: Occasionally

BOTANY 920 Seminar in Algology: Fresh Water Algae Credits: 1
Typically Offered: Occasionally

BOTANY 930 Seminar-Mycology Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 940 Seminar in Plant Systematics and Evolution Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 941 Plant Taxonomy Journal Review Credits: 1
Typically Offered: Occasionally

BOTANY 950 Seminar-Plant Ecology Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 951 Plant Ecology Journal Review Credits: 1
Prereq> Grad st in plant ecol or cons inst
Typically Offered: Occasionally

BOTANY 953 Introduction to Ecology Research at UW-Madison Credits: 1 - 2
This seminar course will introduce new graduate students to the diversity of ecologists across the UW-Madison campus. Course meetings will include discussions of key topics in professional development, research presentations by faculty members, and discussions of assigned papers with senior graduate students. Prereq> None
Typically Offered: Fall

BOTANY 960 Seminar-Plant Physiology Credits: 1
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 965 Seminars in Developmental Biology Credits: 1
Sections in various fields of zoological research. Prereq> Grad st
Typically Offered: Occasionally

BOTANY 969 Colloquium on Teaching College Biology Credits: 0 - 1
Educational practice and theory in college biology; effective use of instructional formats; organizational techniques for presenting a body of knowledge; learning characteristics of college students; the role of introductory biology in majors and non-majors curricula. Prereq> Grad st & cons inst
Typically Offered: Occasionally
BOTANY 980 Earth System Science Seminar Credits: 1
Topics in earth system science. Emphasis on the coupling between atmospheric, oceanic and land surface
systems, involving physical geochemical and biological processes, and including interactions with human
systems. Prereq> Grad st
Typically Offered: Occasionally

BOTANY 990 Research-Phycology Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 991 Research-Plant Anatomy/Morphology Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 993 Research-Mycology Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 994 Research-Plant Systematics Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 995 Research-Plant Ecology Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 996 Research-Plant Physiology Credits: 1 - 12
Prereq> Grad st
Typically Offered: Occasionally

BOTANY 999 Independent Work Credits: 1 - 3
Prereq> Grad st
Typically Offered: Occasionally

CHEMISTRY

CHEM 101 General Chemistry I Laboratory Credits: 1
Chemistry 101 is the laboratory only part of "Chemistry 103: General Chemistry I". Chem 101 is intended only for
students who have earned college credit prior to entering UW-Madison for a course that is equivalent to the
lecture part of Chemistry 103, but not the laboratory part. Students need this lab experience or its equivalent
before proceeding to Chemistry 104: General Chemistry II, the second semester of the General Chemistry
sequence. Prereq> Department Consent
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 102 General Chemistry II Laboratory Credits: 1
Chemistry 102 is the laboratory only part of Chemistry 104: General Chemistry II. Chem 102 is intended for
students who have earned college credit prior to entering UW-Madison for a course that is equivalent to the
lecture part of Chemistry 104, but not the laboratory part. Students need this lab experience or its equivalent to
proceed to any intermediate level chemistry courses such as Organic Chemistry (341 or 343), Analytical Chemistry (327 or 329), and Inorganic Chemistry (311). Prereq> Consent from Chemistry department
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
CHEM 103 General Chemistry I Credits: 4
Introduction. Stoichiometry and the mole concept, the behavior of gases, liquids and solids, thermochemistry, electronic structure of atoms and chemical bonding, descriptive chemistry of selected elements and compounds, intermolecular forces. For students taking one year or more of college chemistry; serves as a prereq for Chem 104; lecture, lab and discussion. Prereq> Suitable algebra placement score or completion of Math 112, Math 114, Math 171 or equivalent. 1 yr hs chem recommended. Open to first year students. Enrollment not permitted for students who have completed Chem 109 or Chem 115
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 104 General Chemistry II Credits: 5
Principles and application of chemical equilibrium, coordination chemistry, oxidation-reduction and electrochemistry, kinetics, nuclear chemistry, introduction to organic chemistry. Lecture, lab, and discussion. Prereq> Chem 103; suitable algebra placement test score or completion of Math 112, Math 114, Math 171 or equiv. Open to first year students. Enrollment not permitted for students who have completed Chem 109 or 115
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 108 Chemistry in Our World Credits: 5
Chemistry 108 is a one-semester introductory course that includes selected topics in inorganic and organic chemistry. Emphasis is on relevance to biological, environmental and social issues. Chemistry 108 is not intended for students who expect to take additional chemistry courses and it does not satisfy any prerequisites for further chemistry courses. Prereq> Appropriate for students needing only one semester of chemistry. No HS chemistry required. 1 year HS chemistry is permitted. Open to first year students. Enrollment not permitted for students who have completed Chem 104, 109 or 115
L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 109 Advanced General Chemistry Credits: 5
A modern introduction to chemical principles that draws on current research themes. For students with good chemistry and mathematics background preparation who desire a one-semester coverage of general chemistry. Recommended for students intending majors in chemistry or allied fields. Lecture, lab, and discussion. Prereq> At least 1 year HS chemistry; placement into Math 221 or higher or equivalent math proficiency. Open to first year students. Enrollment not permitted for those who have completed Chem 104 or 115
General Education: QT-B  L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 115 Chemical Principles I Credits: 5
For specially well qualified students majoring in chemistry or chemical engineering. Lecture, lab, and quiz. Prereq> Adv placement or adv HS chem, cr or cons inst. Open to Fr
General Education: QT-B  L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 116 Chemical Principles II Credits: 5
Continuation of Chemistry 115. Chemistry 115 and 116 satisfy the requirements for general chemistry and introductory analytical chemistry; lecture, lab, and discussion. Prereq> Chem 115 or cons inst. Open to Fr
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 201 Environmental Chemistry and Ethnicity Credits: 3
Topics course covering issues in environmental chemistry as they relate to ethnic groups in the U.S. or its territories. Prereq> One semester of gen chem or equiv. Open to Fr
Ethnic Studies: Yes  L&S Breadth: Physical Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

CHEM 260 Entering Research I Credits: 1
Seminar course designed primarily for sophomores or transfer students to begin independent research in chemistry. Taken concurrently with 1-3 research credits with faculty member. Supports independent research experience. Prereq> None
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
**CHEM 261 Entering Research II**
Credits: 1
Seminar course for primarily sophomores or transfer students continuing independent research in chemistry. Taken concurrently with 1-3 research credits with faculty member. Supports independent research experience.
Prereq> Must have taken Chem 260, or completed at least one semester of research with a faculty member.
L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Spring

**CHEM 299 Directed Study**
Credits: 1 - 4
Prereq> Cons inst
L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring, Summer

**CHEM 311 Chemistry Across the Periodic Table**
Credits: 4
Explores the properties, reactions and uses of elements and compounds, with emphasis on coordination chemistry of transition-metal ions, bioinorganic chemistry, solid-state structure and main-group elements. The weekly three-hour laboratory introduces students to the synthesis and characterization of inorganic compounds.
Prereq> Chem 109 or 104. Open to Freshmen
L&S Breadth: Physical Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

**CHEM 327 Fundamentals of Analytical Science**
Credits: 4
Fundamentals of chemical measurement in chemistry, biology, engineering, geology, and the medical sciences. Topics include equilibria of complex systems, spectroscopy, electrochemistry, separations, and quantitative laboratory technique. Lecture, lab, and discussion.
Prereq> Chem 104, or 109 or consent of instructor
L&S Breadth: Physical Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring, Summer

**CHEM 329 Fundamentals of Analytical Science**
Credits: 4
Fundamentals of chemical measurement in chemistry, biology, engineering, geology, and the medical sciences. Topics include equilibria of complex systems, spectroscopy, electrochemistry, separations, and quantitative laboratory technique. For chemistry majors, chemical engineering majors, and related majors. Lecture, lab, and discussion.
Prereq> Chem 104, 109 or consent of instructor
L&S Breadth: Physical Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring

**CHEM 341 Elementary Organic Chemistry**
Credits: 3
Chemistry 341 is a single semester, terminal course covering selected topics in organic chemistry. Chemistry 341 is not equivalent to either Chemistry 343 or 345 and it does not satisfy the prerequisite for enrollment in Chemistry 345. Prereq> Chem 104, 109 or 116. For students who expect to take only one semester of organic chemistry.
Enrollment not permitted for students who have completed Chem 343 or 345
L&S Breadth: Physical Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall

**CHEM 342 Elementary Organic Chemistry Laboratory**
Credits: 1
Chemistry 342 introduces organic laboratory techniques in synthesis, purification and spectral interpretation. The course is designed to accompany Chemistry 341 and topics closely follow Chemistry 341. Prereq> Completion of or concurrent enrollment in Chem 341. For students who expect to take only one semester of organic chemistry and need only a single laboratory credit. Enrollment not permitted for students who have completed Chem 344
L&S Breadth: Physical Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall

**CHEM 343 Introductory Organic Chemistry**
Credits: 3
Chemistry 343 covers fundamental aspects of organic molecular structure, including stereochemistry, and introduces basic themes in organic reactivity. It is the first semester of a two-semester organic chemistry sequence. Chemistry 345 is the second course in the sequence. Prereq> Chem 104, 109 or 116. For students expecting to take two semesters of organic chemistry
L&S Breadth: Physical Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring, Summer

**CHEM 344 Introductory Organic Chemistry Laboratory**
Credits: 2
Chemistry 344 introduces the basic synthesis, purification, and characterization techniques of organic chemistry, along with critical interpretation of experimental data. The laboratory includes material from both Chemistry 343 and 345. Prereq> Completion of or concurrent enrollment in Chem 345. Enrollment not permitted for students who have already completed Chem 344 with a D or better
L&S Breadth: Physical Science   L&S Level: Intermediate   L&S Credit: Counts for LAS credit   Typically Offered: Fall, Spring, Summer
CHEM 345 Intermediate Organic Chemistry Credits: 3
Chemistry 345 is the second course of a two-semester sequence in organic chemistry. It covers diverse themes in organic reactivity, building on a foundation provided in Chemistry 343. Prereq> Chem 343 with grade of C or better. Chem 341 does not satisfy the prerequisite for enrollment in Chem 345.
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 346 Intermediate Organic Chemistry Laboratory Credits: 1 - 2
Multi-step synthetic processes. Advanced experimental techniques such as high-vacuum distillation. Independent research projects. Prereq> Chem 344 & 345 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 353 Chemistry for High School Teachers Credits: 2 - 4
An intensive course for teachers of high school chemistry to strengthen their fundamental knowledge of chemistry. Lectures, laboratory, discussion. Prereq> Cons inst. Enrollment limited to participants in workshops sponsored by the Institute for Chemical Educ
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Summer

CHEM 421 Polymeric Materials Credits: 3
Polymer chemistry and physics terminologies, structure-property relationship, polymer characterization, polymer synthesis, material requirements for optoelectronics including conjugated polymers, thin film transistors, light emitting diodes, non-linear optical materials, holographic data storage and liquid crystal polymers. Prereq> Chem 341 or equiv
L&S Breadth: Physical Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 425 Undergraduate Rheology Seminar Credits: 0 - 1
Rheology seminar course encouraged for all interested in professions related to polymers, suspensions or rheology; will not count toward credit requirement of the major. Prereq> Cons inst or Jr st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 505 Aspects of Industrial Chemistry and Business Fundamentals Credits: 3
The objective of this course is to educate students in the chemistry and chemical engineering that defines societies' standard of living. Commercial chemical processes will be reviewed. Practical realities of how a discovery moves from research to commercial product will be taught through examples and case studies. Financial concepts that guide investment will be reviewed. Prereq> Junior standing and Chem 345
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 511 Advanced Inorganic Chemistry Credits: 3
Emphasizes the symmetry, structure and bonding of inorganic compounds. Selected topics may include applications in transition metal chemistry, organometallic chemistry, industrial catalysis, advanced bioinorganic chemistry, solid-state chemistry or main group chemistry. Students majoring or intending to major in chemistry should take Chem 311 prior to taking Chem 511. Prereq> Junior standing; Chem 345 or concurrent enrollment
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 524 Chemical Instrumentation Credits: 3
Instrumental methods of measurements, as applied to modern chemical analysis; lecture and lab. Prereq> Chem 343, Chem 327 or Chem 329, Physics 208 or equivalent; or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 547 Advanced Organic Chemistry Credits: 3
A third semester of descriptive organic chemistry. Prereq> Chem 345
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 561 Physical Chemistry Credits: 3
Macroscopic theory: equilibrium thermodynamics, chemical kinetics and transport properties. Prereq> Chem 327 or 329; Math 222; Physics 201 or 207. Not for credit for those who have taken Chem 565
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 562 Physical Chemistry Credits: 3
Molecular theory: quantum chemistry, molecular structure and spectra, statistical mechanics, selected topics in the molecular theory of matter in bulk. Prereq> Chem 561 or 565 or ChE 211; Physics 202 or 208
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
CHEM 563 Physical Chemistry Laboratory  Credits: 1 - 2
Principles of experimental physical chemistry applied to the acquisition of thermodynamic and kinetic data; use of basic physical laboratory equipment; related computations, analysis of errors, interpretation of results. Prereq> Chem 561 or 565 or Ch E 211
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 564 Physical Chemistry Laboratory  Credits: 1
Principles of experimental physical chemistry applied to the acquisition and interpretation of basic data on molecular structure and dynamics, and properties of macromolecules; principles and use of spectroscopic and other electronic instrumentation. Prereq> Chem 562 and 563. Not for cr for those who have taken 567
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 565 Biophysical Chemistry  Credits: 4
Equilibrium thermodynamics, chemical kinetics, and transport properties, with emphasis on solution behavior and applications to biological macromolecules in solution. For students interested primarily in the biological applications of physical chemistry. Prereq> Chem 327 or 329; Math 222; Physics 201 or 207; Biocore 303, or Biochem 501 or concurrent registration, or consent of instructor. Not for credit for those who have taken Chem 561
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 567 Physical Chemistry Laboratory  Credits: 2
Principles of experimental physical chemistry applied to the acquisition of thermodynamic and kinetic data; acquisition and interpretation of basic data on molecular structure and dynamics, and properties of macromolecules; principles and use of spectroscopic and other electronic instrumentation use of basic physical laboratory equipment; related computations, analysis of errors, interpretation of results. Prereq> Cr or con reg in Chem 562. Not for cr for those who have taken 563 or 564
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Not Applicable

CHEM 605 Spectrochemical Measurements  Credits: 3
Mass spectrometry and applied nuclear magnetic resonance. Two lecture sessions, or lectures, and one problem session per week. Prereq> Chem 562 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 606 Physical Methods for Structure Determination  Credits: 1 - 3
A survey of spectroscopic methods for inorganic structure determination. This course will introduce the major non-crystallographic techniques with an emphasis on the application to structural analysis. The basic theory and methodology of each form of spectroscopy will be presented. Topics covered include: ligand field theory, electronic absorption, IR/Raman, Mossbauer and EPR spectroscopies, and magnetic susceptibility. Prereq> Chem 511 & 562 or cons inst. Chem 608 or equiv recommended
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 607 Laboratory Safety  Credits: 1
Aspects of laboratory safety relating to chemical, electrical, optical, mechanical, cryogenic and radiological hazards will be discussed. Safety equipment, techniques (including first aid), and facilities will be introduced. Prereq> Chem 346 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 608 Symmetry, Bonding, and Molecular Shapes  Credits: 1 - 3
This course provides a solid background in elementary bonding theory and its application to understanding molecular geometry and reactivity. The course emphasizes qualitative methods applied to the bonding of elements from throughout the periodic table. Prereq> Grad st or cons inst
L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 613 Chemical Crystallography  Credits: 3
Theory of structural chemistry, experimental methods involved, applications to problems of chemical interest; use of diffractometric equipment and computer data analysis for an actual structure determination. Prereq> Chem 562 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
CHEM 619 Microscopy of Life Credits: 3
Survey of state of the art microscopic, cellular and molecular imaging techniques, beginning with subcellular microscopy and finishing with whole animal imaging. Prereq> 2nd semester intro physics including light & optics (e.g. 104, 202, 208) or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 621 Instrumental Analysis Credits: 3 - 4
Chemical instrumentation, spectrochemical, electrochemical and other methods of instrumental analysis; lecture and lab. Prereq> Cr or con reg in Chem 561 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 622 Organic Analysis Credits: 2
Biological Mass Spectrometry: Fundamentals and Applications. Prereq> Chem 345 & 524 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 623 Experimental Spectroscopy Credits: 2 - 3
The theory behind current spectroscopic methods employed in chemical analysis with applications in atomic and molecular absorption spectroscopy, infrared and Raman vibrational spectroscopy, fluoroscence and light scattering; lecture and laboratory projects. Prereq> Chem 562 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 624 Electrochemistry Credits: 2 - 3
Theory of interfacial electron transfer and mass transport processes in electrochemistry, with applications to electroanalysis, electrodeposition and electrochemical separations; lecture and laboratory projects. Prereq> Graduate standing or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 625 Separations in Chemical Analysis Credits: 2 - 3
Fundamentals of transport processes and the origins of chemical potential differences giving rise to separation. Principles of chromatography, electrophoresis and field flow fractionation. Lecture and laboratory projects.
Prereq> 1 sem organic & 1 sem phys chem, or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHEM 626 Genomic Science Credits: 2
This course is designed to bring cutting-edge topics in the genomic sciences into the reach of traditionally "pure" chemistry, biology, engineering, computer science & statistics students. It is also designed for enabling biologically-oriented students to deal with the advances in analytical science so that they may incorporate new genomic science concepts into their own scientific repertoires. Intended for graduate students and for undergraduates with extensive research experience. Prereq> Graduate student standing or instructor consent
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 627 Methods and Technologies for Protein Characterization Credits: 2 - 3
This course seeks to engage students interested in chemical instrumentation and those who desire to apply proteomic technologies to current biological problems. Understanding the current proteomics landscape, the limitations of these technologies, and their practical applications are among the course learning objectives.
Prereq> Graduate student standing or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 628 Chemical Instrumentation: Design and Control Applications Credits: 3
The design and application of chemical instrumentation; basic principles for monitoring and controlling chemical experiments; optical, electrical and mechanical sensors and transducers of importance to analytical chemical instrumentation; lecture and lab. Prereq> Chem 524, 621 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 630 Selected Topics in Analytical Chemistry Credits: 1 - 3
Lectures of a specialized nature in advanced analytical chemistry. Prereq> Chem 524, 621 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
CHEM 635 Topics in Computational Chemistry Credits: 1
This course is designed to give students a basic understanding of computational chemistry, which can be implemented within students' research. In addition, this course will discuss new techniques and developments in the literature, and specific types of calculations that are relevant to current students' research and needs.
Prereq> Graduate standing or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 636 Topics in Chemical Instrumentation: Introduction to NMR Credits: 2
This course will instruct students on the theory and practice of NMR spectroscopy. It is a full semester course, consisting of 15 hours of lecture and 30 hours laboratory instruction. Prereq> Cons inst. Enrollment will be limited based on avail instrumentation for lab exercises
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 637 Topics in Chemical Instrumentation: Advanced Methods in NMR Credits: 1 - 2
This course will instruct students on advanced methods of NMR spectroscopy. It is offered as a seven week module, consisting of 7 hours of lecture, 14 hours of laboratory instruction, 1 hour final exam. Prereq> Cons inst. Enrollment will be limited based on avail instrumentation for lab exercises
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Summer

CHEM 638 Topics in Chemical Instrumentation: Introduction to Mass Spectrometry Credits: 1
This course will introduce students to the theory and practice of mass spectrometry. It is offered as a 7 week module, consisting of 15 hours of lecture and laboratory instruction. Prereq> Cons inst. Enrollment will be limited based on avail instrumentation for lab exercises
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 641 Advanced Organic Chemistry Credits: 3
Topics in physical organic chemistry. Prereq> Chem 345 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 647 Electron Pushing Mechanisms in Organic Chemistry Credits: 1
Application of the electron pushing formalism for manipulating Lewis structure representations of organic structures. Emphasis is placed on mechanistic rationalization of complex organic transformations. Prereq> Chem 345
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 652 Chemistry of Inorganic Materials Credits: 3
Graduate level course on the materials chemistry of inorganic solids. Focuses on the application of chemical concepts to an understanding of properties of solids and how these properties are manifested in practical applications. Prereq> Graduate student standing or Chem 562 or equivalent
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHEM 653 Chemistry of Nanoscale Materials Credits: 3
Introduction to solid state materials chemistry, with an emphasis on contemporary topics in the chemistry of nanomaterials. Incorporates fundamental knowledge of solid-state chemistry and traditional materials chemistry with current nanoscale and nanostructural materials research. Prereq> Graduate student standing or both Chem 311 and Chem 561 or equivalent
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHEM 654 Materials Chemistry of Polymers Credits: 2 - 3
Polymer classification, synthesis, and molecular architecture; solid state structure and characterization; glassy state and glass transition; polymer rheology in solids and gels; transport, dielectric and optical properties. Prereq> Chem 562 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CHEM 661 Chemical and Statistical Thermodynamics Credits: 3
Basic chemical thermodynamics with applications to chemical and phase equilibria and the study of solutions; introduction to statistical mechanics and calculation of thermodynamic quantities from molecular models; stability and fluctuations. Prereq> Chem 561 or 565, & Chem 562; or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
CHEM 664 Physical Chemistry of Macromolecules Credits: 2 - 3
Structure, thermodynamics, and dynamics of polymers in solution and in the bulk; theoretical models and experimental methods; polymer characterization. Prereq> Chem 562 or consent of instructor
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 665 Biophysical Chemistry Credits: 4
Equilibrium thermodynamics, chemical kinetics and transport properties, with emphasis on solution behavior and application to noncovalent interactions of biological macromolecules in solution. For graduate students interested in the biological applications of physical chemistry. Prereq> Grad st or cons inst. Stdts must meet prereqs for Chem 565 & have some prev background in phys chem
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 666 Biophysical Spectroscopy Credits: 2 - 3
Focuses on the underlying principles and applications of spectroscopic and microscopy methods employed to solve biological problems at the atomic and molecular level. Techniques covered in this class include electronic absorption and fluorescence spectroscopy, circular dichroism, light scattering, fluorescence microscopy, multidimensional nuclear magnetic resonance and electron spin resonance. Prereq> Chem 561 or equivalent. Chem 562 or equivalent recommended
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 675 Introductory Quantum Chemistry Credits: 3
Basic principles of quantum chemistry, exactly solvable problems, angular momentum, approximation methods, applications to electronic structure. Prereq> Chem 562 or consent of instructor
L&S Credit: Counts for LAS credit  Typically Offered: Fall

CHEM 681 Senior Honors Thesis Credits: 2 - 4
An independent and original study done under the direction of a member of the staff, recommended for seniors majoring in chemistry. Chem 681 and Chem 682 are taken in consecutive semesters. Students must enroll for a total of exactly 6 credits between the two courses, taking either 3 credits each semester or 2 credits one semester and 4 credits the other. Prereq> Honors candidacy
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 682 Senior Honors Thesis Credits: 2 - 4
Continuation of 681. Students must enroll for a total of exactly 6 credits between Chem 681 and 682, taking either 3 credits each semester or 2 credits one semester and 4 credits the other. Prereq> Honors candidacy
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 691 Senior Thesis Credits: 2 - 6
An independent and original study done under the direction of a member of the staff, recommended for seniors majoring in chemistry. Prereq> Cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 692 Senior Thesis Credits: 2 - 6
Continuation of 691  Prereq> Cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHEM 699 Directed Study Credits: 1 - 6
Prereq> Jr or Sr st. Graded on a lettered basis; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHEM 704 Chemical Biology Credits: 2
Chemistry and biology of proteins, nucleic acids and carbohydrates; application of organic chemistry to problems in cell biology, biotechnology, and biomedicine. Prereq> Biochem 501 or equiv, 1 yr org chem & cons inst
L&S Credit: No degree credit in L&S  Typically Offered: Occasionally

CHEM 712 Transitional Element Chemistry Credits: 2 - 3
Prereq> Chem 603 or 711 or cons inst
Typically Offered: Occasionally

CHEM 713 Inorganic and Organometallic Chemistry of the Main Group Elements Credits: 1 - 3
A modular course consisting of 1), inorganic and 2), organometallic chemistry of main-group elements and 3), organosilicon chemistry. Prereq> Chem 511 or equivalent
Typically Offered: Occasionally
CHEM 714 Organometallic Chemistry of the Transition Elements Credits: 2 - 3
Prereq> Chem 511 or consent of instructor
Typically Offered: Occasionally

CHEM 725 Structural Theories of Fluid Dynamics Credits: 3
Interconnection between fluid structure and bulk flow properties, kinetic theory of polymer solutions, polymer melts, suspensions and emulsions, deduction of rheological constitutive equations, Brownian motion. Configuration-space and phase-space kinetic theory. Prereq> Grad st in CBE or cons inst
Typically Offered: Occasionally

CHEM 762 Molecular Reaction Dynamics Credits: 2 - 3
Microscopic approach to chemical dynamics. Prereq> Chem 562 or cons inst
Typically Offered: Occasionally

CHEM 763 Introduction to Molecular Spectroscopy Credits: 2 - 3
Quantum mechanics of molecular rotation and vibration; principles of group theory; electronic, vibrational, and magnetic resonance spectroscopy in gas and condensed phases. Prereq> Chem 675 or cons inst
L&S Breadth: Physical Science  L&S Level: Advanced  Typically Offered: Occasionally

CHEM 766 Molecular Recognition Credits: 2 - 3
Origin, nature, classification, and description of intermolecular forces. The hydrophobic effect. Molecular complexes, binding constants, and their measurements. General principles of self-assembly, molecular recognition, complex formation, host design. Supramolecular systems and their dynamics. Micelles, bilayers, vesicles, biological membranes. Prereq> Chem 561 or equiv physical chem or cons inst
Typically Offered: Occasionally

CHEM 775 Electronic Structure of Molecules Credits: 2 - 3
Applications of quantum mechanics to the electronic structure and properties of molecules. Prereq> Chem 675 or cons inst
Typically Offered: Occasionally

CHEM 777 Physical Chemistry of Surfaces Credits: 2 - 3
Structure, thermodynamics, kinetics, and reactivity of molecules at the interfaces between gases, liquids and solids, with applications to catalysis, atmospheric chemistry, monolayers, and thin films. Prereq> Chem 562 or cons inst
Typically Offered: Occasionally

CHEM 801 Selected Topics in Inorganic Chemistry Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally

CHEM 841 Advanced Organic Chemistry Credits: 3
Synthesis of simple and complex organic compounds. Prereq> Chem 641
Typically Offered: Occasionally

CHEM 842 Advanced Organic Chemistry Credits: 1 - 3
Selected topics. Prereq> Cons inst
Typically Offered: Occasionally

CHEM 843 Advanced Organic Chemistry Credits: 1 - 3
Prereq> Cons inst
Typically Offered: Occasionally

CHEM 845 Bioorganic Chemistry Credits: 2 - 3
Chemical structure and reactivity of biological molecules. Prereq> Chem 641, Biochem 602, or cons inst
Typically Offered: Occasionally

CHEM 860 Selected Topics in Physical Chemistry Credits: 1 - 3
Prereq> Grad st
Typically Offered: Occasionally
CHEM 864 Statistical Mechanics  Credits: 2 - 3  
Fundamentals of statistical mechanics; applications to equilibrium and non-equilibrium properties of gases and condensed phases; selected advanced topics.  Prereq> Chem 661 & 675 or cons inst  
Typically Offered: Occasionally

CHEM 872 Selected Topics in Macromolecular and Biophysical Chemistry  Credits: 1 - 3  
Prereq> Grad st  
Typically Offered: Occasionally

CHEM 875 Advanced Topics in Quantum Chemistry  Credits: 2 - 3  
Advanced methods and special topics in quantum chemistry.  Prereq> Chem 675 or cons inst  
Typically Offered: Occasionally

CHEM 900 Seminar-Inorganic Chemistry  Credits: 0  
Prereq> Grad st  
Typically Offered: Occasionally

CHEM 901 Seminar-Teaching of Chemistry  Credits: 0 - 1  
The role of the teaching assistant in undergraduate chemistry instruction. Effective utilization of instructional aids. Innovations for better teaching.  Prereq> Cons inst  
Typically Offered: Occasionally

CHEM 915 Seminar-Structure and Bonding in Inorganic Compounds  Credits: 0 - 1  
Prereq> Cons inst  
Typically Offered: Occasionally

CHEM 918 Single Molecule Approaches to Biology  Credits: 1  
A combination of recent literature and original research presentations relating to the use of single molecule techniques in biochemistry including fluorescence microscopy, tethered particle motion, patch-clamping, cryo-electron microscopy, optical trapping, magnetic tweezers, and super resolution microscopy.  Prereq> Graduate student standing  
Typically Offered: Fall

CHEM 920 Seminar-Analytical Chemistry  Credits: 0  
Prepared seminar covering diverse advanced topics.  Prereq> Grad st  
Typically Offered: Occasionally

CHEM 923 Seminar-Spectroscopy and Spectrochemical Analysis  Credits: 0 - 1  
Prereq> Cons inst  
Typically Offered: Occasionally

CHEM 925 Rheology Research Seminar  Credits: 0 - 1  
Exploration of the most recent research literature on viscoelasticity, constitutive equations, non-Newtonian flow systems, fluid metering devices, kinetic theory of macromolecules, and rheooptical phenomena. Periodic reports on recent advances made by research workers in the various rheology groups on the Madison campus.  
Typically Offered: Occasionally

CHEM 940 Seminar-Organic Chemistry  Credits: 0  
Prereq> Grad st  
Typically Offered: Occasionally

CHEM 941 Seminar-Synthetic Organic Chemistry  Credits: 0 - 1  
Prereq> Cons inst  
Typically Offered: Occasionally

CHEM 942 Seminar-Physical Organic Chemistry  Credits: 0 - 1  
Prereq> Cons inst  
Typically Offered: Occasionally

CHEM 943 Seminar-Bio-Organic Chemistry  Credits: 0 - 1  
Prereq> Cons inst  
Typically Offered: Occasionally
CHEM 945 Seminar-Chemical Biology (Advanced) Credits: 1
Recent published research in chemical biology and related areas. Intended for advanced graduate students, and required of all NIH Chemistry-Biology Interface trainees. Prereq> Consent of instructor
Typically Offered: Occasionally

CHEM 960 Seminar-Physical Chemistry Credits: 0 - 2
Prereq> Grad st
Typically Offered: Occasionally

CHEM 962 Seminar-Macromolecular Chemistry Credits: 0 - 1
Prereq> Cons inst
Typically Offered: Occasionally

CHEM 964 Seminar: Molecular Dynamics Credits: 0 - 1
Prereq> Cons inst
Typically Offered: Occasionally

CHEM 990 Research-Organic Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHEM 991 Research General Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHEM 992 Research-Physical Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHEM 993 Research-Analytical Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHEM 994 Research-Inorganic Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHEM 995 Research-Macromolecular Chemistry Credits: 1 - 12
Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHEM 996 Research-Materials Chemistry Credits: 1 - 12
Graduate thesis research in materials chemistry. Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHEM 998 Research-Chemical Biology Credits: 1 - 12
Graduate thesis research in Chemical Biology. Prereq> Cons inst
Typically Offered: Fall, Spring, Summer

CHICANA/O & LATINA/O STUDIES

CHICLA 102 Introduction to Comparative Ethnic Studies Credits: 3 - 4
This course introduces students to a multicultural history of the United States, focusing on each of the major ethnic groups: European Americans, African Americans, Native Americans, Chicano/as, Latino/as and Asian Americans. Prereq> Fr and So only; others by cons inst
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit
Typically Offered: Fall
CHICLA 201 Introduction to Chicana/o and Latina/o Studies Credits: 3
Introduction to the interdisciplinary study of Chicanas/os in the United States. Students will become acquainted with recent scholarly literature, paradigms, theories, and debates within Chicana/o studies pertaining to the historical, economic, cultural, and sociopolitical dimensions of the Chicana/o experience in the United States. Prereq> Open to Fr & So only
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 210 Chicana/o and Latina/o Cultural Studies Credits: 3
Introduction to the cultural worlds of Chicana/os and Latina/os in the U.S. Examines how diverse peoples came to understand themselves as members of a racial, ethnic, and cultural community by exploring the production of music, art, theater, film, television, and literature. Prereq> Open to Fr
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 230 Topics in Chicana/o and Latina/o Studies Credits: 3 - 6
Topics vary each semester, but may include history, literature, media, political science, culture, social work, etc., as they relate to Chicana/os and Latina/os in the United States. Prereq> Open to Fr
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 231 Politics in Multi-Cultural Societies Credits: 3 - 4
Race, ethnicity, and religion as political factors; cultural pluralism, politics, and policy in the United States and selected other multi-cultural politics. Prereq> Fr or So st only
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 234 Introduction to Chicano and Chicana Literature Credits: 3
A socio-historical introduction to Chicano and Chicana literature through an analysis of major works in prose and poetry. Prereq> Open to Fr
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHICLA 240 Chicano Literature Written in Spanish Credits: 3
Survey of Chicano literature written in Spanish throughout the 19th and 20th centuries, covering several genres. It will examine the fictionalized worlds of Chicano writers and explore the function of Spanish language in the formation of a literary canon and cultural identity. Prereq> Spanish 226 or cons inst
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 245 Chicana and Latina History Credits: 3
Introduces the cultural, economic, social, and political history of Chicanas and Latinas in the U.S. and focuses on four major themes: contact between different ethnic/racial groups; ideas of nation and nationalism; constructions of identity; and struggles for social justice. Prereq> Open to Fr
Ethnic Studies: Yes  General Education: COM B  L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHICLA 299 Directed Study Credits: 1 - 3
Prereq> Requires consent of chair & instructor
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 301 Chicana/o and Latina/o History Credits: 3
Examines the history of the making of a people from pre-hispanic time to the present. Examines how people of Mexican and Latin American descent in the United States have come to think of themselves as constituting a collectivity by examining the social, cultural, and political worlds of Chicana/os and Latina/os. Prereq> So st
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 303 Chicana/o and Latino/a Immigrant and Diasporic Cultures Credits: 3
Focuses on the relationship of Chicana/o and Latino/a immigration and diaspora to the culture of everyday life and to class formation in the United States from the mid-nineteenth century to the turn of the twenty-first century. Prereq> Chic/Std 201, 210, or 245
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
CHICLA 310 US-Mexico Relations Credits: 3
A survey of the evolution of U.S.-Mexico relations with particular emphasis on the phenomena of undocumented migration and the U.S.-Mexico border economy. Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 312 Selected Topics in Chicano/a Education Credits: 3
An examination of policies, practices, programs or socioeconomic factors that affect Chicano/a learning and development. Comparisons may be made between Chicanos and other Latinos or racial minority groups. Topics will vary. Prereq> Jr st or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 330 Topics in Chicano/a Studies Credits: 3 - 4
An examination of specific themes in Chicano/a life, ways and culture. Topics may include border culture, Chicano/a ethnicity and identity, and Mexican immigration to the United States. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 332 Latinas: Self Identity and Social Change Credits: 3
Explores the multiracial and multicultural reality of Latina societies by becoming familiar with the history and cultures of Chicana, Cuban-American, and Puerto Rican women. Interdisciplinary readings in law, journalism, public policy, history, and self-reflective literature. Prereq> So st
Ethnic Studies: Yes  L&S Breadth: Humanities or Soc Sci  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 347 Race, Ethnicity, and Media Credits: 3
Introduction to the changing images of race and ethnicity in U.S. entertainment media and popular culture. Surveys history, key concepts and contemporary debates regarding mediated representation of ethnic minorities. Critical and cultural studies approaches are emphasized. Prereq> Open to Fr
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 350 Contemporary Issues of Chicanas Credits: 3
Overview of conditions facing Chicanas in U.S. society including issues on family, immigration, reproduction, employment and health. Comparative analysis with other Latinas. Prereq> So st & Chic/Std 101
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHICLA 368 Chicana/o and Latina/o Literatures Credits: 3
Course explores historical, political, and aesthetic roots and directions of Latina/o and Chicana/o short stories, novels, poetry, music, plays, films, and essays. Intermediate/advanced study for English majors and/or CLS certificate program students. Students who have taken English 357 prior to fall 2014 may not enroll in this course. Prereq> Junior standing & 6 credits literature, or consent of instructor
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 419 Latino/as and Media Credits: 3
Critical and historical survey of the participation and representation of Latino/as in U.S. film, television, and popular culture, with a primary focus on Hispanic representation in Hollywood-produced imagery. The counter-images of Latino and Latina media producers also will be explored.
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHICLA 425 Chicana and Latina Feminisms, Arts, and Media Credits: 3
An introduction to Chicana and Latina history and feminist activism, writing, and creative expression. Surveys Chicana/Latina participation and representation in society, the arts, the media, and popular culture. Prereq> Chic/Std 101 or women's studies intro crse or Jr st
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
CHICLA 435 Colony, Nation, and Minority: The Puerto Ricans' World Credits: 3
A historical introduction to the Puerto Rican experience, from island to mainland. Varieties of colonial rule, social institutions, cultural processes, and ethnic and national identity. Migration to the U.S. and social dynamics of stateside communities. Prereq> Junior standing or higher
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 436 Race, Class, and Colonialism in the Caribbean Credits: 3
Historical and contemporary perspectives on slavery, capitalism, and colonialism in the Caribbean context. Key issues include the formation of multiracial societies, internal social structures during slavery and after emancipation, and dependence upon imperial powers. Prereq> History 241 or 242 or 260 (Latin America: An Introduction) or Afro-Amer/Hist 347
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 450 Chicano and Chicana Autobiography Credits: 3
The course offers an in-depth analysis of Mexican American autobiographies, focusing on the process of the literary and ideological constitution of the (Chicano and Chicana) self, from the nineteenth century to the contemporary hybrid forms articulated by women feminist writers. Prereq> Chic/Std 234, Spanish 240, or 6 cr of intro lit
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 459 Mexico in the Chicano and Chicana Literary Imagination Credits: 3
Focuses on analyzing the representations of Mexico in the literary works of Chicano and Chicana writers through out the twentieth century, and the function such reresentations play in their construction of identity, subjectivity, and community. This course will be offered in Spanish. Prereq> Spanish 223 & 224
L&S Breadth: Literature  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 460 Contemporary Chicano Novel Credits: 3
In-depth analysis of Chicano novels published since 1959, exploring the dominant themes, motifs, and forms of expression in selected works, as well as a discussion of the current theories that have been applied to them. Prereq> Chic/Std 234 or cons inst
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CHICLA 461 The American West to 1850 Credits: 3 - 4
North American frontiers through the period of the Mexican War. Major Indian cultures of North America; the frontiers and differing imperial systems of Spain, France, and England; and the westward movement of the United States through 1850. Prereq> So st
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 462 The American West Since 1850 Credits: 3 - 4
The West as frontier and region since 1850. Indian-white and other interethnic relations; federal policies; the development of a resource-intensive economy, its environmental effects, and political conflicts accompanying it; and the ideology of the frontier in American culture. Prereq> So st
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CHICLA 464 Mexican-American Politics Credits: 3 - 4
This class examines the major problems and issues in Mexican-American politics since World War II. An emphasis will be placed on the ways in which race, class and culture have structured politics for the Mexican origin people. Prereq> Jr st & Poli Sci 104, 184 or 404 or intro crse in Chicano studies or intro crse in Afro-Amer studies or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CHICLA 466 Identity and Mexican American/Chicano Social Movement Organizations Credits: 3
This course will examine identity construction in Mexican American political organizations from the turn of the century to the present. The world view of these organizations will be analyzed in order to understand the social, economic, and political foundations of ethnic identity formation. Prereq> Jr st. Chic/Std 201, 215, 210, 220, 234
Ethnic Studies: Yes  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
CHICLA 467 Literature of Hispanics in the U.S. Credits: 3
Major works and trends of Hispanic literature in Spanish or Spanish/English in the United States, with special attention to Chicano, Cuban and Puerto Rican writers. Prereq: Spanish 223 & 224, or cons inst
Ethnic Studies: Yes   L&S Breadth: Literature   L&S Level: Intermediate/Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring

CHICLA 468 Popular Culture in the Multi-racial United States Credits: 3 - 4
Origins and development of widely distributed popular culture in the nineteenth and twentieth centuries with emphasis on race and racialization. Exploration of production/performance and consumption of minstrel shows, wild west shows, film, radio, television, music in topical units. Prereq: So St
L&S Breadth: Humanities   L&S Level: Intermediate   L&S Credit: Counts for LAS credit
Typically Offered: Fall

CHICLA 470 Sociodemographic Analysis of Mexican Migration Credits: 3
Introduces students to social and demographic analysis and explanations of the historical and present day causes and consequences of migration of the largest immigrant group to the United States in the 20th century. Prereq: Chic/Std 201, 215, 220, 234, 210, or 205
Ethnic Studies: Yes   L&S Breadth: Social Science   L&S Level: Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring

CHICLA 501 Integrated Seminar in Comparative and Transnational Ethnic Studies Credits: 3
This course is a small seminar that allows students an advanced engagement with the field of comparative and transnational ethnic studies. Prereq: Prev ethnic studies crse and/or cons inst
L&S Breadth: Humanities or Soc Sci   L&S Level: Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Spring

CHICLA 510 Integrative Seminar in Chicana/o Studies Credits: 3
This integrative capstone course examines the history of Chicana/o studies and contemporary theoretical debates in the field. Among the areas considered are the following: the project of interdisciplinarity; difference, identity, community; race and class formations; gender and sexuality; and critical praxis. Open to graduate students. Prereq: 9 cr of Chicana/o studies, Jr or Grad st
L&S Level: Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring

CHICLA 516 Indians and the Spanish Borderlands Credits: 3
Explores the history and legacy of Spanish-Indian relations within the Spanish Empire in North America and centers on the disruptive and adaptive changes initiated by Indian peoples in response to colonialism. Prereq: Jr or Sr st
L&S Breadth: Humanities   L&S Level: Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Spring

CHICLA 519 Transnational and Comparative Working-Class Cultures Credits: 3 - 4
Transnational, comparative examination of historical meanings of work and formation of working-class cultures. Focuses on relations of power and ideas about race, class, ethnicity, gender, and sexuality and how they shaped working-class culture in U.S., Latin America, Europe, and Asia. Prereq: Cons inst or Jr st and one of: History 405, 406, 407, 408, 430, Hist/Chicla 436
Ethnic Studies: Yes   L&S Breadth: Humanities or Soc Sci   L&S Level: Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Spring

CHICLA 530 Advanced Topics in Chicana/o and Latina/o Studies Credits: 1 - 4
Topics vary each semester, but may include history, literature, media, political science, culture, social work, etc., as they relate to Chicana/os and Latina/oS in the United States. Prereq: Cons inst or Jr st & 3 cr in Chicana/o studies
L&S Level: Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Occasionally

CHICLA 535 Race, Religion, and Community Credits: 3 - 4
Advanced reading seminar that explores how Chicana/o and Latina/o social space is imagined, represented, and lived through everyday practices that incorporate ideas of race and nation to produce "geographies of difference" as well as geographies of community and solidarity. Prereq: Cons inst or Jr st and one of: Chicla/Women St/History 245, Chicla/History 461, 462, 436, 492
Ethnic Studies: Yes   L&S Breadth: Humanities or Soc Sci   L&S Level: Advanced   L&S Credit: Counts for LAS credit
Typically Offered: Spring
CHICLA 601 Race and Nationalism: Comparative and Theoretical Perspectives  Credits: 3
Advanced seminar on historical intersections of race and nationalisms. Explores questions of the origin of race and nationalism, the position and status of a variety of nationalisms and anti-colonial nationalism; and the contemporary debates over postmodernism, postindustrialism, postcolonialism, and multinationalism. Prereq> Cons inst or Jr st & Chicla 510 or 600 or History/Chicla 436 or History 533
Ethnic Studies: Yes  L&S Breadth:  Humanities or Soc Sci  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall

CHICLA 630 Memory and Place in Chicana/o and Latino/a History  Credits: 3
Research seminar on collective memory and the power of place in the construction of a Chicana/o and Latino/a identity. Explores Latina/o and Chicano/a places as sites where memory and identity are produced, constructed, and experienced. Prereq>  Jr st or cons inst
L&S Breadth:  Humanities  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall

CHICLA 657 Understanding Latino Families and Communities  Credits: 3
Examines U.S. Latino families and communities, including social and economic conditions, cultural values, and issues of identity, race, gender, discrimination, acculturation and language. A service-learning course, students gain knowledge of and direct experience with social work issues in Latino communities. Prereq>  Jr st
Ethnic Studies:  Yes  L&S Breadth:  Social Science  L&S Level:  Advanced  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

CHICLA 699 Directed Study  Credits: 1 - 3
Prereq>  Requires consent of chair & instructor
L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring, Summer

CLASSICS

CLASSICS 100 Legacy of Greece and Rome in Modern Culture  Credits: 3
Explores the legacy of ancient Greek and Roman Civilization in modern culture. Challenges students to appreciate the roots of western civilization and to understand and interpret reflections of antiquity in today's society. Prereq>  Open to Fr
L&S Breadth:  Humanities  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

CLASSICS 110 The Ancient Mediterranean  Credits: 4
An examination of the evolution of the human community in the Mediterranean Basin, from the beginning of the earliest civilizations in the Near East (3,000 B.C.E.) until the collapse of the Roman Empire in the West (500 C.E.). Prereq>  Open to all Undergrads
L&S Breadth:  Humanities  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

CLASSICS 150 Ancient Greek and Roman Monsters  Credits: 3
Ancient monsters were forces of chaos that threatened the natural order of the universe: they had to be contained, banished to the edges of the world or destroyed. But the Greeks and Romans also believed them to be magical beings that held the promise of special knowledge - of the past, of dangers to be faced, of musical arts - or which, like the Sphinx, possessed an enigmatic intelligence capable of fooling all but the most cunning of mortals. In this course we investigate these contrasting aspects of ancient monsters, drawing directly on texts (in translation) and works of art through which the Greeks and Romans explored the monstrous and its place in their world. We also compare ancient L&S Breadth:  Humanities  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Every Other Spring

CLASSICS 205 Greek and Latin Origins of Medical Terms  Credits: 3
Prereq>  Open to Fr
L&S Breadth:  Humanities  L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Not Applicable

CLASSICS 227 Introduction to Biblical Literature (in English)  Credits: 4
Introduction to the literature and literary history of the Old Testament, Apocrypha, Dead Sea Scrolls, Talmud, and Midrashim. Prereq>  Not open to students that have completed HEBR ST 217
L&S Breadth:  Literature  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall

CLASSICS 300 The Art and Archaeology of Ancient Greece  Credits: 3 - 4
Explores the art and archaeology of ancient Greece from the Bronze Age through the Hellenistic period. Prereq>  Open to all Undergrads
L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall
CLASSICS 304 The Art and Archaeology of Ancient Rome Credits: 3 - 4
Explores the art and archaeology of ancient Italy, the Roman Republic, and the Roman Empire from the Iron Age to Late Antiquity. Prereq> Open to all Undergrads
L&S Breadth: Humanities L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

CLASSICS 320 The Greeks Credits: 3
Greek literature in translation with emphasis on its social background. Prereq> Open to Freshmen
General Education: COM B L&S Breadth: Literature L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall

CLASSICS 322 The Romans Credits: 3
Latin literature in translation with emphasis on its social background. Prereq> Open to Freshmen
General Education: COM B L&S Breadth: Literature L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Spring

CLASSICS 324 Ancient Tragedy Credits: 3
Considers the tragic genre and its socio-political context through an examination of selected plays by the three major Greek tragedians, Aeschylus, Sophocles and Euripides. Attention also given to ancient and modern theories of the genre, literary influence, and contemporary performance. Prereq> Open to Fr
L&S Breadth: Literature L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CLASSICS 325 Ancient Comedy Credits: 3
Comedy in Ancient Greece and Rome: Aristophanes, Menander, Plautus and Terence (in translation). Also the history, archeology and architecture of ancient theaters. Prereq> So st or cons inst
L&S Breadth: Literature L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CLASSICS 330 Ancient Epic Credits: 3
This course is an introduction to the epic poetry of Greece and Rome. The reading list will vary, with assigned texts selected from Homer's Iliad and Odyssey, Apollonius' Argonautica, Virgil's Aeneid, Ovid's Metamorphoses, and Lucan's Civil War. The course will explore important themes of epic literature both as they are developed within each text and as they evolve from the Greek Archaic to the Hellenistic age, and eventually to Augustan Rome. The course will also explore the influence of ancient epic on literature from the middle ages to the modern period. Prereq> Sophomore standing or consent of instructor
L&S Breadth: Literature L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Every Other Fall

CLASSICS 335 King David in History and Tradition Credits: 3
An exploration of the literary and historical aspects of the text of 1-2 Samuel + 1 Kings 1-2; the history and archaeology of Jerusalem during the tenth century B.C.E.; and the varieties of ways in which the figure of King David has been received in subsequent religious and secular literature, visual art, music, television, and cinema. Prereq> Sophomore standing
L&S Breadth: Literature L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Every Other Fall

CLASSICS 340 Conspiracy in the Ancient and Modern Worlds Credits: 3
Focusing primarily on the world of the ancient Romans, this course (in translation) interrogates the phenomenon and notion of "conspiracy" within the political, social, and religious spheres. After investigating some of the more famous political conspiracies (e.g. the Catilinarian Conspiracy, assassination of Julius Caesar, etc.), we will then turn to the structure of the traditional Roman household, including the preeminence of the paterfamilias and the challenges that women, children, and/or slaves pose to his notional "tyranny." Finally, we will consider a number of prominent religions that came into conflict with Roman authorities - especially the mystery cults surrounding Bacchus as we
L&S Breadth: Literature L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Every Other Fall

CLASSICS 350 Rome: The Changing Shape of the Eternal City Credits: 3 - 4
Changing shape of Rome as a physical city and as a cultural metaphor from the Augustan age to the Renaissance. Prereq> Jr st or cons inst
L&S Breadth: Literature L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CLASSICS 351 Gender and Sexuality in the Classical World Credits: 3 - 4
Constructions of gender and sexuality in the classical world through art, literature and archaeology. Prereq> Sophomore standing or consent of instructor
L&S Breadth: Literature L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Occasionally
CLASSICS 370 Classical Mythology Credits: 3
Classical myths and their influence on later literature and art. Prereq> Open to Fr
L&S Breadth: Literature    L&S Level: Elementary    L&S Credit: Counts for LAS credit    Typically Offered: Spring

CLASSICS 371 Topics in Greek Culture Credits: 1 - 3
Selected aspects of Greek culture (e.g., sports, women, the family, warfare), with emphasis on literary remains. Prereq> So st
L&S Breadth: Humanities    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 372 Topics in Roman Culture Credits: 1 - 3
Selected aspects of Roman culture (e.g., sports, women, the family, warfare), with emphasis placed on literary remains. Prereq> So st
L&S Breadth: Humanities    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 373 Topics in Classical Culture Credits: 1 - 3
Selected aspects of Classical culture (e.g., sports, women, the family, warfare), with emphasis on literary remains. Prereq> So st
L&S Breadth: Humanities    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 376 Love Poetry of the Ancient Mediterranean Credits: 3
Selections from the love poetry of four ancient cultures: Egypt, Greece, Israel, and Rome. We will read a variety of lyric poems in the context of their larger socio-historical settings, observing the culturally conditioned representations of desire. Prereq> Open to Fr
L&S Breadth: Literature    L&S Level: Elementary    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 379 Eureka! Technology and Practice in the Ancient World Credits: 3
Chronicles the development of technology and engineering in the civilizations of ancient Greece and Rome, with attention to earlier advances in Mesopotamia and Egypt. Imparts an appreciation for the legacy of ancient science and technology in modern culture. Prereq> Open to Fr
L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 430 Topics in Classical Archaeology Credits: 3
Explores topics in the archaeology of ancient Greece and Rome, such as the Seven Wonders of the Ancient World, the archaeology of Greek and Roman religion, or Late Antique Palaces. Prereq> Open to Fr
L&S Breadth: Humanities    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 451 Biblical Archaeology Credits: 3
An examination of current problems, methods, and trends in archaeological research in the lands of the Bible. Prereq> Junior standing
L&S Breadth: Humanities    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Fall

CLASSICS 470 Interpretations of Classical Mythology Credits: 3
Some major myths of Greece and various interpretations proposed from ancient to modern times: allegorical, occult, psychological, historical, and anthropological approaches. The role of myth in science fiction. Prereq> Classics 370 or cons inst
L&S Breadth: Literature    L&S Level: Advanced    L&S Credit: Counts for LAS credit    Typically Offered: Not Applicable

CLASSICS 476 Ethnicity in the Ancient World Credits: 3
Examination of attitudes to race and ethnicity in the ancient world, with emphasis on literary, epigraphical and archaeological evidence from Greece and/or Rome. Prereq> So st or cons inst
L&S Breadth: Humanities    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 477 Law and Society of Ancient Athens Credits: 3
Examination of the daily lives of ordinary Athenians and the impact of legal institutions on social structures through a survey of the court cases of Classical Athens. Prereq> So st or cons inst
L&S Breadth: Literature    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally

CLASSICS 517 Religions of the Ancient Mediterranean Credits: 3
Ancient religions in their political, social and cultural contexts; topics include ritual, literary and artistic representations, religious persecutions, and/or modern approaches to the study of ancient religions. Chronological and geographical focus will vary between Greece, Rome, Judaea and Egypt. Prereq> Sophomore Standing
L&S Breadth: Humanities    L&S Level: Intermediate    L&S Credit: Counts for LAS credit    Typically Offered: Occasionally
CLASSICS 550 Advanced Interdisciplinary Studies in Medieval Civilization Credits: 3
An integrated treatment of a specific theme, to be announced by a group of specialists in different fields. Prereq: Jr st or cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CLASSICS 554 Classical Backgrounds to English Literature Credits: 3
Prereq: So st
L&S Breadth: Literature L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CLASSICS 555 The Literature of Ancient Greece Credits: 3
Prereq: So st
L&S Breadth: Literature L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

CLASSICS 556 The Literature of Ancient Rome Credits: 3
Prereq: So st
L&S Breadth: Literature L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

CLASSICS 561 Greek and Roman Medicine and Pharmacy Credits: 3
Greek and Roman medicine and drug lore from the Pre-Socratics to Oribasius (c. 600 B.C. - A.D. 350), including the backgrounds of ancient Egyptian and Mesopotamian medicine. Prereq: Jr or Sr st, or cons inst
L&S Breadth: Humanities L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

CLASSICS 568 Topics in Classical Literature Credits: 1 - 3
Selected aspects of Greek and Latin literature (e.g., genres such as epic or drama), with special attention to the relationship between the two literary traditions. Prereq: Jr st
L&S Breadth: Literature L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Not Applicable

CLASSICS 591 Undergraduate Seminar: Approaches to the Classical World Credits: 3
Prereq: At least 1 sem of Greek or Latin; chiefly for classical humanities, classics majors, or honors stdts
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Spring

CLASSICS 602 The Ancient Mediterranean City Credits: 3
Explores the archaeological and literary sources for the ancient Mediterranean city. Readings focus on the primary and secondary literature for the topography and architecture of a specific city or group of cities with a geographical, temporal, or political link. Prereq: Cons inst
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

CLASSICS 681 Senior Honors Thesis Credits: 3
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

CLASSICS 682 Senior Honors Thesis Credits: 3
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

CLASSICS 691 Senior Thesis Credits: 3
Prereq: Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

CLASSICS 692 Senior Thesis Credits: 3
Prereq: Cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

CLASSICS 699 Directed Reading Credits: 1 - 3
Prereq: Graded on a lettered basis; requires cons inst
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

CLASSICS 700 The Art and Archaeology of Ancient Greece Credits: 3
Explores the art and archaeology of ancient Greece from the Bronze Age through the Hellenistic period. Prereq: Cons inst
Typically Offered: Fall
CLASSICS 701 Proseminar: Research Methods and Issues in the Field of Classics Credits: 3
An introduction to the basic tools and research skills required in Classics. Class sessions will be taught by individual faculty who will cover the key resources in their area of specialty along with pivotal readings and discussion of key issues. Prereq: Grad st or St st with cons inst
Typically Offered: Occasionally

CLASSICS 704 The Art and Archaeology of Ancient Rome Credits: 3
Explores the art and archaeology of ancient Italy, the Roman Republic, and the Roman Empire from the Iron Age to Late Antiquity. Prereq: Cons inst
Typically Offered: Spring

CLASSICS 801 Seminar-Ancient History Credits: 1 - 3
Special problems in Greek and Roman history studied in alternate years. Prereq: Grad st & reading knowledge of appropriate foreign language
Typically Offered: Occasionally

CLASSICS 830 Advanced History of Philosophy Credits: 3
Prereq: Grad st & cons inst
Typically Offered: Occasionally

CLASSICS 970 Classical Literature and Culture Credits: 3 - 4
Examines central literary and cultural issues in classical antiquity from both Greek and Roman perspectives. Prereq: Grad st or cons inst
Typically Offered: Occasionally

COMMUNICATION ARTS

COM ARTS 100 Introduction to Speech Composition Credits: 3
Teaches students to give effective oral presentations in a variety of public speaking situations and to become better consumers of written and oral discourse. Students will also learn basic composition and outlining skills as well as library research techniques. Prereq: Open to Fr. Only one of the following crs/es may be taken for credit: Com Arts 100, 105, 109, 181. Stdts desiring honors should elect 181. Stdts may receive degree cr for only one Com A crse taken in residence
General Education: COM A L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COM ARTS 105 Public Speaking Credits: 2
Development of fundamental skills in the preparation, delivery, and evaluation of the common forms of public address. Prereq: Open to Fr. Only one of the following crs/es may be taken for credit: Com Arts 100, 105, 109, 181. Stdts desiring honors should elect 181
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COM ARTS 155 Introduction to Digital Media Production Credits: 4
Teaches students the skills they need to produce, engage with, and understand new and emerging technologies within the context of communication and creative expression. Students will become more critical consumers and producers of digital media. Prereq: Open to all undergraduates
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COM ARTS 181 Elements of Speech-Honors Course Credits: 3
The process of oral communication; principles of effective speaking; application of principles in selected speaking and reading projects. Prereq: Open to Fr. Only one of the following crs/es may be taken for credit: Com Arts 100, 105, 109, 181. Stdts desiring honors should elect 181. Stdts may receive degree cr for only one Com A crse
General Education: COM A L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall

COM ARTS 198 Directed Study Credits: 1 - 3
Prereq: Open to Fr & So only. Graded on a Cr/N basis; requires written cons inst
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COM ARTS 199 Directed Study Credits: 1 - 3
Prereq: Open to Fr & So only. Graded on a lettered basis; requires written cons inst
L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer
COM ARTS  200 Introduction to Digital Communication Credits: 3
Introduction to basic social scientific and humanistic theories and approaches to communication as applied to
everyday and institutional deployments of digital media. Students engage in critical assessment of digital media
content that shapes their daily lives. Prereq> Open to Freshmen
L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS  210 Topics in Communication Arts Credits: 3
Introductory exploration of a current topic in Communication Arts. Prereq> Varies with topic
L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS  236 Bascom Course Credits: 3
A low-enrollment course developing skills in critical reading, logical thinking, use of evidence, and use of library
resources. Emphasis on writing in the conventions of specific fields. Prereq> Successful completion of or
exemption from Com A requirement. Open to Fr.
General Education: COM B  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS  250 Survey of Contemporary Media Credits: 3
Key concepts for the critical analysis of television, film, radio, and digital media. Focusing primarily on meanings,
aesthetics, technology, media industries, representations, and audiences. Prereq> Open to Freshmen. Not open
to Seniors
L&S Breadth: Humanities  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring,
Summer

COM ARTS  260 Communication and Human Behavior Credits: 3
Concepts and processes relevant to the study of communication and human behavior including approaches to
communication inquiry, the dynamics of face-to-face interaction, and the pragmatic and artistic functions of public
communication. Prereq> Open to Fr. Not open to Seniors
L&S Breadth: Humanities or Soc Sci  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall,
Spring

COM ARTS  262 Theory and Practice of Argumentation and Debate Credits: 3
Practice in preparation and delivery of various types of argumentative speeches and debates. Prereq> Open to Fr.
General Education: COM B  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring, Summer

COM ARTS  263 Speech Composition Credits: 3
Application of rhetorical theory to composition, study of model speeches, and writing of speeches. Prereq> Com
Arts 100 or 181 or cons inst
General Education: COM B  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS  266 Theory and Practice of Group Discussion Credits: 3
Structure and dynamics of small group decision-making. Critical and creative problems in group interaction
processes. Prereq> Open to Fr. Stds may not receive credit for both Com Arts 276 & 266
General Education: COM B  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring, Summer

COM ARTS  272 Introduction to Interpersonal Communication Credits: 3
Survey of concepts, theories, and research concerning communication across all phases of interpersonal
relationships, focusing on both theoretical and practical applications. Prereq> Open to Fr. Only one of the
following crses may be taken for credit: Com Arts 272, 273, 276.
General Education: COM B  L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring, Summer

COM ARTS  273 Theory and Practice of Interpersonal Communication Credits: 3
Survey of concepts, theories, and research concerning communication across all phases of interpersonal
relationships, focusing on both theoretical and practical applications. Does not satisfy the Com B requirement.
Prereq> Open to Fr. Only one of the following crses may be taken for credit: Com Arts 272, 276, 273
L&S Breadth: Social Science  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
COM ARTS  276 Interpersonal and Small Group Communication  Credits: 3
Survey of concepts, theories, and research concerning verbal and nonverbal communication in interpersonal and small group settings. Application of theory in practical situations, leading to development of skills of analysis and performance. Prereq> Open to Fr. Stdts who have taken either Com Arts 266, 272 or 273 will not receive credit for 276
L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

COM ARTS  288 Honors Seminar in Communication Arts  Credits: 3
Freshmen/Sophomore Honors seminar. Topic varies. Prereq> Fr & So only
L&S Level:  Elementary  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

COM ARTS  298 Directed Study  Credits: 1 - 3
Prereq> Com Arts 198 or Jr st. Graded on a Cr/N basis; requires cons inst
L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring, Summer

COM ARTS  299 Directed Study  Credits: 1 - 3
Prereq> Com Arts 199 or Jr st. Graded on a lettered basis; requires cons inst
L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring, Summer

COM ARTS  325 Mass Media and Human Behavior  Credits: 3
Understanding how people use mass media and what effects such uses have on them. Prereq> So st. Stds cannot receive cr for both 457 & 325
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

COM ARTS  345 Online Communication and Personal Relationships  Credits: 3
Examines how personal relationships unfold in online communication contexts (social network sites, online dating, video games). Topics include impression formation and management, deception and trust, self-perception and identity, social support and relationship maintenance. Prereq> So st
L&S Breadth:  Social Science  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

COM ARTS  346 Critical Internet Studies  Credits: 3
Traces the Internet's history, reception, audience, industries, rhetorics, fictional and filmic narratives, and potential as a purveyor and transmitter of culture and values. Prereq> So st
L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

COM ARTS  347 Race, Ethnicity, and Media  Credits: 3
Introduction to the changing images of race and ethnicity in U.S. entertainment media and popular culture. Surveys history, key concepts and contemporary debates regarding mediated representation of ethnic minorities. Critical and cultural studies approaches are emphasized. Prereq> Open to Fr
Ethnic Studies:  Yes  L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Occasionally

COM ARTS  350 Introduction to Film  Credits: 3
Basic concepts of film analysis; exposure to classical Hollywood, avant-garde, documentary, and European art cinema. Emphasis on describing and analyzing film style. Prereq> Sophomore standing or Com Arts 250
L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring, Summer

COM ARTS  351 Television Industries  Credits: 3
Critical overview of the cultural industries driving television in the United States, from broadcast networks and cable to downloading and streaming, focusing on economic and regulatory structures, programming practices, labor, globalization, audiences, and adaptations to changing conditions in the digital age. Prereq> Sophomore standing or Com Arts 250
L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall, Spring

COM ARTS  352 Film History to 1960  Credits: 3
Development of cinema as a communication medium and art form from its origins to the 1960s. Attention given to national cinemas and international trends through the study of landmark films. Prereq> Com Arts 350 or cons inst
L&S Breadth:  Humanities  L&S Level:  Intermediate  L&S Credit:  Counts for LAS credit  Typically Offered:  Fall
COM ARTS 353 Film History Since 1960 Credits: 3
A study of aesthetic, economic, and political developments in world cinema from 1960 to the present. Prereq: Com Arts 350
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS 354 Film Styles and Genres Credits: 3
Critical, historical, and theoretical examination of specimen film styles and genres. Prereq: Com Arts 350 or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS 355 Introduction to Media Production Credits: 4
Theory and practice of media production and screenwriting. Prereq: Sophomore standing or Com Arts 155
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 357 History of the Animated Film Credits: 3
Survey of the development of animation as a motion picture production technique, as a film genre, a part of the Hollywood classical cinema, and an independent art form. Prereq: Com Arts 350
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS 358 History of Documentary Film Credits: 3
Development and history of documentary film and video from Lumiere to the present. Prereq: Com Arts 350 or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Summer

COM ARTS 360 Introduction to Rhetoric in Politics and Culture Credits: 3
An introduction to the study of rhetoric in politics and culture. Explores the interrelationship of theory, criticism, and practice. Students gain an understanding of rhetoric as a social force emerging from political and cultural contexts and as an influence on those contexts. Prereq: Sophomore standing
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS 361 Introduction to Quantitative Research in Communication Credits: 3
An introduction to social science research methods and statistical analyses applicable to the study of communication research and mass media effects. Prereq: So st and completion of QR-A
General Education: QR-B  L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit
Typically Offered: Fall, Spring

COM ARTS 368 Theory and Practice of Persuasion Credits: 3
A theory-based examination of the role of communication in attitude formation and planned social change. Analysis and creation of persuasive messages. Prereq: So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 370 Great Speakers and Speeches Credits: 3
Significant speeches from throughout history, especially from the United States. Speakers studied include Pericles, Abraham Lincoln, Elizabeth Cady Stanton, Frederick Douglass, Winston Churchill, John F. Kennedy, Barbara Jordan, Mahatma Gandhi. Prereq: So st
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 371 Communication and Conflict Resolution Credits: 3
Examines intra- and interpersonal theories of the causes and functions of conflict. Focuses on message strategies for conflict resolution and/or management. Both theoretical and applied issues. Prereq: So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 372 Rhetoric of Campaigns and Revolutions Credits: 3
Public discourse as it affects and reflects the process of dynamic social change. Historical and contemporary instances of rhetorical processes. Prereq: So st
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 374 The Rhetoric of Religion Credits: 3
Rhetorical character of religious controversy and sectarian persuasion in Western religion. Prereq: So st
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
COM ARTS 378 The Rhetoric of African American Discourse Credits: 3
Study of the rhetorical strategies of African Americans, focusing on historically important documents of oratory, argumentation, homiletic, and narrative. Prereq> So st
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 402 The Psychology of Communication Credits: 3
The role and function of information processing in human communication behavior. Prereq> So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 405 Functional Aspects of Language and Speech Development Credits: 3
The development, in children and adults, of processes and skills necessary to normal and artistic speech communication. Prereq> So st
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 410 Miscommunication Credits: 3
Problematic aspects of miscommunication in the study of face-to-face interaction. Course helps explain why people often have so much difficulty understanding the intentions, interpretations, and meanings of other people’s actions.
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 419 Latino/as and Media Credits: 3
Critical and historical survey of the participation and representation of Latino/as in U.S. film, television, and popular culture, with a primary focus on Hispanic representation in Hollywood-produced imagery. The counter-images of Latino and Latina media producers also will be explored.
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 420 Asian Americans and Media Credits: 3
Examines representations of Asian American in American media using historical, analytical, and critical approaches. Issues of cultural production, identity, race, politics, and gender are linked to examinations of specific media forms. Prereq> Com Arts 347 or So st
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 448 Media and National Identity Credits: 3
Examination of the various roles that film, television, and other media play in creating, challenging, and negotiating national and global identities. Prereq> Com Arts 250 or consent of instructor
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 450 Cultural History of Broadcasting Credits: 3
Traces the development of broadcasting as a cultural institution, examining the emergence of radio and television within the context of national identity and globalization. Prereq> Com Arts 250
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 451 Television Criticism Credits: 3
Analysis of selected television programming, interpretation of contemporary television programs, and survey of existing critical approaches. Prereq> Com Arts 351
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 452 Media and Cultural Policy Credits: 3
Examines the way that media are produced and regulated in an era of convergence, including institutional and regulatory structures, critical discourses, and citizen activism. Prereq> Com Arts 351
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 454 Critical Film Analysis Credits: 3
Intensive analysis of selected films, using contemporary critical theories and methods. Prereq> Com Arts 350 & Junior Standing
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 455 French Film Credits: 3
Survey of French cinema from 1895 to the present. Emphasis on aesthetic trends, film movements, film industry, and cultural context. Prereq> Com Arts 350 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall
COM ARTS 456 Russian and Soviet Film  Credits: 3
Survey of Russian and Soviet cinema from the pre-Revolutionary era to the present. Works by major filmmakers will be viewed and discussed in the context of cultural politics. Prereq> Com arts 350 or coursework in Russian area studies
L&S Breadth: Humanities  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 458 Global Media Cultures  Credits: 3
Analysis of media systems, practices and uses from a global perspective. Prereq> Com Arts 351
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 459 New Media and Society  Credits: 3
Explores political, economic and cultural relationships between new media of communication and society, including issues of history, race, gender, class, globalization, national identity and everyday life. Prereq> Com Arts 346
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 460 Italian Film  Credits: 3
General survey of Italian film and of the relationship between film and the other arts. Consideration of film theory and of the Italian and European socio-political situation in the context of film production. Prereq> Stdts taking crse for cr toward Ital major must have Ital 204 or equiv; all other stdts must have Com Arts 350 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COM ARTS 462 American Independent Cinema  Credits: 3
History of American independent narrative cinema with particular attention to the impact various art movements and subcultures have had on its development over the past 60 years. Prereq> Com Arts 350
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

COM ARTS 463 Avant-Garde Film  Credits: 3
This course examines the history and aesthetics of avant-garde/experimental film from its beginnings in the early 1920s to the present. Key aesthetic programs are studied with attention to their relation to adjacent movements in art and critical theory. Prereq> Com Arts 350 & 354
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 465 Editing and Post-production for Video and Film  Credits: 3
Theory and practice of editing and post-production for both video and film. Aesthetics of narrative and documentary editing stressed. Students edit a substantial project. Prereq> Com Arts 355 & cons inst
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 466 Writing for Television and Film  Credits: 3
Basic introduction to the elements of a successful dramatic screenplay. Particular emphasis placed on story concept, dramatic structure, character development, dialogue, and visual storytelling. Prereq> Com Arts 355 & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 467 Cinematography and Sound Recording  Credits: 3
Fundamentals of sync-sound moving image production. Technical and aesthetic study of motion picture cameras, sound recorders, lighting and grip equipment through group and individual projects. Prereq> Com Arts 355 & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 469 Interdisciplinary Studies in the Arts  Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 470 Contemporary Political Discourse  Credits: 3
Examines themes, genres, and significant instances of contemporary political discourse, as well as issues and concerns that arise in public discussions of political discourse. Case studies and theoretical analyses are considered. Prereq> Jr st
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
COM ARTS 472 Rhetoric and Technology Credits: 3
Explores the influence of technology on rhetoric from the invention of the written alphabet to the use of network-based communication technologies, including print media, audio and video recording, television, video conferencing and network communication. Prereq> Jr st or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 475 Non-Verbal Communication Credits: 3
Analysis of nonverbal communication patterns in human interaction; theory and research in kinesics, haptics, proxemics, paralinguistics as expressions of image, effect, relationship, personality, and culture. Prereq> Any crse in Com Arts with social studies breadth or cons inst
L&S Breadth: Social Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 476 Nature of Criticism-The Public Arts of Communication Credits: 3
Systems of criticism; rationale of approaches to the critical act; analysis of representative criticism of radio, television, film, theatre, public address. Prereq> Jr st
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 478 Rhetorical Analysis for Internet Discourse Credits: 3
Teaches the use of rhetorical theory and method in the critical examination of Internet-based discourse. Critically engages specific Internet-based communication to assess its role in public discourse. Prereq> Jr st or cons inst
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 509 Digital Media and Political Communication Credits: 3
Course examines core questions related to the impacts of digital media (including but not limited to the Internet) on processes of political communication and the health of democratic governance in advanced industrialized democracies. Prereq> Jr st or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS 513 Topics in Communication Arts: Study Abroad Credits: 1 - 6
A course carried with a UW-Madison study abroad program which has no equivalent on this campus. Prereq> Current reg in a UW-Madison study abroad prgm
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COM ARTS 522 Digitally Documenting Everyday Communication Credits: 3
Teaches the use of digital recording technologies, archiving, and analysis of everyday communication and culture. Surveys scholarly approaches to everyday expressive communication. Prereq> Jr st or cons inst
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

COM ARTS 524 Television Genres Credits: 3
An examination of a specific television genre, analyzing it as a narrative, economic, cultural, and political entity and exploring its role in perpetuating and/or challenging ideas of what society is or could be. Prereq> Com Arts 250 & 351; Jr st
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 540 Television Genres Credits: 3
An examination of the forms, practices, economies, institutions, politics, and modes of engagement that make digital games an important site of culture and power. Prereq> Communication Arts 250 and either 351 or 346 ; junior standing
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

COM ARTS 547 Digital Game Cultures Credits: 3
An examination of the interrelationship between cinematic aesthetics and institutions in American films made from 1970 to the present. Prereq> Com Arts 350
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring
COM ARTS 556 The American Film Industry in the Era of the Studio System Credits: 3
Influences of industrial structure, trade policies, foreign markets and censorship on Hollywood's production practices up to 1948. Prereq> Com Arts 350
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 557 Contemporary Media Industries Credits: 3
Analysis of major trends in media industries since the 1970s with special emphasis on conglomeration, globalization, new technologies, and changing modes of production and distribution. Prereq> Com Arts 350 or 351
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 558 Public, Community, and Alternative Media Credits: 3
Examination of media outside the dominant commercial model, especially local and alternative practices, and their cultural role. Prereq> Com Arts 351
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 559 Communication Theory Credits: 3
Introduction and survey of contributions of behavioral science and philosophy to a unified theory of communication. Prereq> Com Arts 260 or cons inst
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

COM ARTS 560 Communication and Interethnic Behavior Credits: 3
The relation of communication processes to interethnic and interracial attitudes and behavior. Social and psychological foundations of interethnic communication and conflict, group identification and communication processes, interpersonal communication and culture, communication about race and ethnicity, mass media content and effects. Prereq> Jr st & Com Arts 262 or cons inst
Ethnic Studies: Yes  L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 565 Communication and Interethnic Behavior Credits: 3
Study of major theories of rhetoric from their origins in ancient Greece to Bacon, including theories of Plato, Aristotle, Cicero, Quintilian, Longinus, St. Augustine, and others. Prereq> Two of the following: Com Arts 262, 360, 370, 372, 374, 470, 472, or 562; or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 569 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics appropriate to their specializations. Prereq> Consent of department
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COM ARTS 570 Classical Rhetorical Theory Credits: 3
Study of major theories of rhetoric from their origins in ancient Greece to Bacon, including theories of Plato, Aristotle, Cicero, Quintilian, Longinus, St. Augustine, and others. Prereq> Two of the following: Com Arts 262, 360, 370, 372, 374, 470, 472, or 562; or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 571 Contemporary Rhetorical Theory Credits: 3
Study of contemporary theories of rhetoric and significant conceptual issues in contemporary rhetorical inquiry. Attention to theorists within the field of rhetoric as well as to others who have influenced rhetorical theory. Prereq> Two of the following: Com Arts 262, 360, 370, 372, 374, 470, 472, or 562; or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 572 Interpersonal Communication Credits: 3
Advanced understanding of theory and research concerning the initiation, management, and dissolution of interpersonal relationships. Primary focus on the communication processes that contribute to and constitute relationship development. Prereq> Com Arts 361or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
COM ARTS 573 Rhetoric of Globalization and Transnationalism Credits: 3
Students are introduced to basic concepts in global and transnational rhetorical studies and provided with the analytic tools to examine discourses about globalization and transnationalism produced by key global actors including transnational corporations, states, global institutions such as the World Bank, media producers, human rights advocates, and activists. Prereq> Junior Standing
L&S Breadth: Humanities or Soc Sci  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

COM ARTS 574 Rhetoric of US Immigration and Naturalization Credits: 3
Students explore U.S. immigration and naturalization rhetoric across various spheres: federal, state, and grassroots. Patterns of immigration and naturalization rhetoric, the tactics different actors use, and the transformations that have taken place since the founding of the U.S. republic are examined. Prereq> Junior standing
Ethnic Studies: Yes  L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 575 Communication in Complex Organizations Credits: 3
Theoretical perspectives and research literature in organizational science, with special attention to social interaction. Prereq> Any crse in Com Arts with social studies or cons inst
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 576 Principles of Rhetorical Criticism Credits: 3
Exploration of the nature, scope, and practice of rhetorical criticism. Emphasis upon critical theory and method. Prereq> Two of the following: Com Arts 262, 360, 370, 372, 374, 470, 472, or 562; or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

COM ARTS 577 Dynamics of Online Relationships Credits: 3
Examines how people form their identities and manage their personal relationships using new communication technologies (social network sites, online dating, video games). Emphasis will be placed on how humans adapt to technology and use it for social purposes. Prereq> Prior crse on research methods in the social sciences (e.g., Com Arts 361, Psych 210, Soc 360 or Stats 301). Cons inst required for other methods crses.
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 608 Special Topics in Media and Cultural Studies Credits: 3
Specialized topics and issues in media and cultural studies. Prereq> Varies with topic
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 609 Special Topics in Production Credits: 3
Specialized advanced subject matter in film, video or digital media production. Prereq> Com Arts 355 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 610 Special Topics in Rhetoric and Public Address Credits: 3
Specialized subject matter of current interest in rhetoric and public address. Prereq> Varies with topic
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 611 Senior Seminar Credits: 3
Selected topics in theory, criticism, and history of public address, broadcasting, film, or speech behavior. Limited enrollment. Prereq> Sr st & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 612 Special Topics in Communication Science Credits: 3
Specialized subject matter of current interest in communication theory and research. Prereq> Varies with topic
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS 613 Special Topics in Film Credits: 3
Specialized topics and issues in film history, theory, and criticism. Prereq> Varies with topic
L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
**COM ARTS 614 Field Experience in Communication**  Credits: 1
Application of communication concepts to problems in such professional field settings as business organizations, media firms, political offices and organizations, and governmental agencies. (Does not count toward the 30-credit requirement for undergrad majors in communication arts.) Prereq> Undergrad com arts majors only; apprvl of specific intrnshp design by com arts undergrad advisor
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

**COM ARTS 615 Second Field Experience in Communication**  Credits: 1
Application of communication concepts to problems in such field settings as business organizations, media firms, political offices and organizations, and governmental agencies. (Does not count toward the 30-credit requirement for undergrad majors in communication arts.) Prereq> Com Arts 614; Undergrad com arts majors only; apprvl of specific intrnshp design by com arts undergrad advisor
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

**COM ARTS 616 Mass Media and Youth**  Credits: 3
Children's and adolescents' use of mass media and mass media effects on them. Particular attention is given to changes in comprehension and other cognitive activities that give insights into media use and effects. Prereq> Journ 565 or Com Arts 325 or HDFS 362 or LSC 251 or consent of instructor
L&S Breadth: Social Science  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**COM ARTS 617 Health Communication in the Information Age**  Credits: 3
This course will examine the role of communication in health, how the revolution in information technology has affected health communication, and the assumptions about health information and communication that drive current efforts to use technologies. Prereq> Journ 565 or equivalent
L&S Breadth: Social Science  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

**COM ARTS 651 Advanced Video Production and Direction**  Credits: 3
Remote video production in both documentary and narrative genres. Prereq> Com Arts 355 & written cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

**COM ARTS 655 German Film**  Credits: 3
Important filmmakers from 1910 to the present; their relation to German cultural and social history of the period. Prereq> For German cr: one 300 level crse or above; or cons inst. For com arts cr: Com Arts 350
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

**COM ARTS 659 Advanced Motion Picture Production Workshop**  Credits: 3
Advanced digital media production; individual and/or group narrative projects in a workshop setting. Prereq> Com Arts 467 & consent of instructor
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

**COM ARTS 660 Mass Entertainment and the Law**  Credits: 3
Analysis of the broad range of legal rights emerging from the creation of film and broadcast drama, and the influence of these rights upon content. Prereq> Com Arts 350, 452 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

**COM ARTS 662 Media and Cultural Theory I**  Credits: 3
Survey of major theories, scholars, and debates in the field of cultural studies with special emphasis on the Birmingham School. Offers a set of working premises and methods for the study of media and popular culture. Prereq> Sr st & cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

**COM ARTS 663 Media and Cultural Theory II**  Credits: 3
Studies the diverse ways in which critics have reflected upon mass media since 1900. As a companion to Communication Arts 662, the course eschews cultural studies and instead surveys theories of media from a broad range of related disciplines. Prereq> Sr st & cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

**COM ARTS 664 Classical Film Theory**  Credits: 3
Principal theories of cinema from the silent era to the 1960s. Prereq> Com Arts 350 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally
COM ARTS 665 Contemporary Film Theory Credits: 3
A survey and analysis of film theory from the mid-1960s to the present. Prereq> Cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 666 History of British Public Address Credits: 3
From 1558 to the present. Prereq> Jr st and cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

COM ARTS 667 History of American Public Address Credits: 3
Public discourse of selected movements and periods in American history. Prereq> Two of the following: Com Arts 360, 370, 372, 374, 470, 472, 570, 571, 576, or 675; or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 669 Interdisciplinary Studies in the Arts Credits: 1 - 4
Guest artists will offer interdisciplinary courses on topics approipriate to their specializations. Prereq> Consent of department
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 670 Rhetoric and Political Theory Credits: 3
Theoretical explorations of the intersections of rhetoric and politics. Detailed examination of key concepts in a discursive approach to politics, including notions of the public sphere, citizenship, and deliberative democracy. Prereq> Com Arts 570, 571, 576, 667, or 675; or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 671 Communication and Social Conflict Credits: 3
Survey of current theory and research on conflict in face-to-face interaction. Prereq> Com Arts 572 or 560 or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 674 Rhetorical Analysis Credits: 3
Advanced criticism; comparisons of the discourse of diverse types and cultures. Prereq> Jr st & Com Arts 476 or 576 or cons inst
L&S Breadth: Humanities  L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

COM ARTS 675 Rhetoric of Women's Social and Political Discourse Credits: 3
This course explores obstacles women have faced throughout American history in their struggle to obtain influence and equality in politics and society. Through the analysis of significant rhetorical texts, it identifies major discursive strategies employed by women and the impact of these strategies. Prereq> Two of the following: Com Arts 360, 370, 372, 374, 470, 472, 570, 571, 576, or 667; or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 681 Senior Honors Thesis Credits: 3
Prereq> Sr st. Member of the honors program & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 682 Senior Honors Thesis Credits: 3
Prereq> Sr st. Member of the honors program & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 691 Senior Thesis Credits: 2 - 3
Prereq> Sr st & 3.25 GPA and written cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 692 Senior Thesis Credits: 2 - 3
Prereq> Com Arts 691 & written cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COM ARTS 698 Directed Study Credits: 1 - 3
Prereq> Jr or Sr st. Graded on a Cr/N basis; requires written cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
COM ARTS 699 Directed Study  Credits: 1 - 3
Prereq> Jr or Sr st. Graded on a lettered basis; requires written cons inst
L&S Level:  Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COM ARTS 704 Intellectual Sources of Contemporary Composition Theory I-Classical  Credits: 3
Selected issues in the history of rhetoric, concentrating on classical theories of invention, and their importance for contemporary issues in composition theory.  Prereq> Graduate standing
Typically Offered: Occasionally

COM ARTS 760 Advances in Communication Theories  Credits: 3
In-depth review and evaluation of behavioral and social scientific theories of human communication.  Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 762 Communication Research Methods  Credits: 3
Epistemological and methodological principles of behavioral and social scientific research of particular relevance to communication research, including various research designs and modes of observation, casual inferences, and basic hands-on experiences in empirical research.  Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 768 Theoretical Perspectives on Persuasive Communication  Credits: 3
Surveys classic and contemporary theory and research on persuasive communication. After explicating "attitude," students will examine the operation of ethos, logos, and pathos, qualities of message structure and style, and social issues relevant to influence processes.  Prereq> Grad st or cons inst
Typically Offered: Occasionally

COM ARTS 774 Rhetorical Analysis  Credits: 3
Rhetorical criticism; comparison of the discourse of diverse types and cultures.  Prereq> Com Arts 674 & Grad st
Typically Offered: Occasionally

COM ARTS 799 Independent Study  Credits: 1 - 3
Devised by a staff member in collaboration with students.  Prereq> Grad st & written cons inst
Typically Offered: Occasionally

COM ARTS 817 Couple Relationships: Theory, Research, and Application  Credits: 3
This course will review current research on the nature, dynamics, and developmental course of couple relationships and explore the implications of this scientific knowledge for prevention/intervention programs and policy. Contemporary theories and empirical research will be examined.  Prereq> Grad st or cons inst
Typically Offered: Occasionally

COM ARTS 902 Film Colloquium  Credits: 1
Studies in advanced research in film history, theory and criticism.  Prereq> Grad st in com arts
Typically Offered: Occasionally

COM ARTS 903 Media and Cultural Studies Colloquium  Credits: 1
Current research in cultural studies, audience effects, broadcast regulation, history of broadcasting and comparative national systems.  Prereq> Grad st in com arts
Typically Offered: Occasionally

COM ARTS 904 Communication Science Colloquium  Credits: 1
Social scientific approaches to the study of interpersonal communication and media effects.  Prereq> Grad st in com arts
Typically Offered: Occasionally

COM ARTS 905 Rhetoric Colloquium  Credits: 1 - 3
Advanced research in rhetorical theory and criticism, and in the history of public address.  Prereq> Grad st in com arts with major emphasis in rhetoric, or cons inst
Typically Offered: Occasionally
COM ARTS 940 Seminar: Media, Culture, and the Public Sphere Credits: 2 - 3
Analysis and critique of public sphere theories of the media, pre- and post-Habermas, including concepts of citizenship and nation, media and democracy, globalization and cultural hierarchies. Implications for media policy and structures. Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 942 Seminar: Global Media Credits: 2 - 3
Explores globalization theories and examines media cultures in the wake of globalization. Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 944 Seminar: Media Audiences Credits: 3
A seminar on theories of audiences for various media, and methods for studying them. Prereq> Grad standing
Typically Offered: Occasionally

COM ARTS 950 Seminar-Radio Television Film Credits: 2 - 3
Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 955 Media History and Historiography Credits: 3
A seminar on post-structuralist historical theory, historiographical methods, and issues in historiography for students of media history. Introduction to archival research. Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 958 Seminar in Film History Credits: 2 - 3
Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 960 Seminar in Film Theory Credits: 2 - 3
Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 966 Seminar-Modern Rhetorical Theory Credits: 2 - 3
Prereq> Grad st; Com Arts 570 or cons inst
Typically Offered: Occasionally

COM ARTS 967 Seminar-Problems in Communication and Public Address Credits: 2 - 3
Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 969 Seminar: Contemporary Rhetorical Theory Credits: 2 - 3
Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 970 Seminar in Communication Science Credits: 3
A critical review of theoretical developments in social scientific studies of communication and its psychological and/or social impact. Topic varies with instructor. Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 976 Seminar in Rhetorical Criticism Credits: 2 - 3
Prereq> Grad st
Typically Offered: Occasionally

COM ARTS 990 Research and Thesis Credits: 1 - 9
Independent research and writing under the supervision of a staff member. Prereq> Grad st & written cons inst
Typically Offered: Occasionally

COMMUNICATION SCI & DISORDERS

CS&D 110 Introduction to Communicative Disorders Credits: 3
A survey of the scientific basis of normal and disordered communication; covers speech, hearing, and language. Prereq> Open to Fr
L&S Breadth: Social Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring
CS&D 201 Speech Science Credits: 3
Anatomy and physiology of the speech production mechanism; acoustic characteristics of the speech signal.
Prereq> So st
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CS&D 202 Normal Aspects of Hearing Credits: 3
Provides students with background in the physical acoustics of sound, the anatomy and physiology of the auditory system, and the psychology related to hearing, known as psychoacoustics. Prereq> So st
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CS&D 210 Neural Basis of Communication Credits: 3
Considers the neural basis for communicative behaviors. Provides understanding of the anatomy, physiology, and physiopathology of the central and peripheral nervous systems as they relate to normal and disordered communication. Prereq> Sophomore standing or consent of instructor
L&S Breadth: Biological Science  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CS&D 240 Language Development in Children and Adolescents Credits: 3
This course covers communication and language development from infancy to adulthood. Prereq> So st
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CS&D 303 Speech Acoustics and Perception Credits: 3
Detailed examination of the acoustic properties of the speech signal within the source-filter theory of speech production. Theories of speech perception pertaining to phoneme and word recognition are presented and discussed. Prereq> Com Dis 201, 202, com dis major or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CS&D 315 Speech Pathology I Credits: 3
Definition, classification, etiology and treatment of articulation disorders. Introduction to clinical procedures. Supervised observation and limited participation in evaluations, therapy and conferences in lab. Prereq> Jr st or cons inst; Com Dis 201, 202, 240; com dis major
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CS&D 318 Voice, Craniofacial and Fluency Disorders Credits: 4
The material in this course will provide a basis for understanding the communication problems of individuals with voice disorders, orofacial anomalies, and fluency disorders. Prereq> Com Dis 315, Com Dis major, or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CS&D 320 Introduction to Audiology Credits: 3
Hearing science, disorders and evaluation, conservation, and aural rehabilitation. Prereq> Com Dis 303, com dis major or cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CS&D 371 Pre-Clinical Observation of Children and Adults Credits: 2
This writing-intensive course is the first course in the clinical education sequence. It emphasizes clinical writing, group participation, and observation of video and live treatment sessions to develop and improve observational skills related to communication behaviours and clinical teaching. (WI). Prereq> Jr st & com dis major
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CS&D 390 Practicum in Communicative Disorders Credits: 2
A writing-intensive practicum working with children from diverse cultures who are at risk for speech, language, and literacy challenges. Prereq> Jr st; com dis major; overall GPA 3.0, Com Dis 315, 371, 440; 25 hrs of clin observation & cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CS&D 424 Manually Coded English (Sign Language I) Credits: 2
Manual alphabet, numbers, and 300 basic signs in both Manually Coded English systems and American Sign Language. Majors’ lab will emphasize pediatric words and expressive sign skill for clinic/schools.
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall
CS&D 425 Auditory Rehabilitation Credits: 3
Topics include scope of practice, current approaches to perception, production and conversational fluency development as they apply in auditory rehabilitation treatment in home, school, work and social settings. Prereq: Com Dis 320 or con reg
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Spring

CS&D 434 Manually Coded English (Sign Language II) Credits: 2
Advanced beginner's course emphasizing instruction and practice at a conversational level using Conceptually Accurate Signed English (CASE). Fingerspelling, short story comprehension and expressive signing skill are the focus. Prereq: Com Dis 424 and/or previous ASL with cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CS&D 440 Child Language Disorders, Assessment and Intervention Credits: 3
Language differences and disorders in various populations are covered, as well as means of assessment and intervention. Prereq: So or Jr st, Com Dis 240
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CS&D 455 Topics in Communicative Disorders Credits: 1 - 3
Lecture-discussion with or without laboratory component on current topics in normal aspects of communication or identification, treatment and research in speech-language pathology and audiology. Prereq: Open to all Undergrads
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Occasionally

CS&D 481 Undergraduate Junior Honors Credits: 3
A writing-intensive introduction to research methodology in Communication Sciences and Disorders, emphasizing participant selection criteria, experimental design and methodology, data collection, and data analysis, leading to the design and future implementation of an independent research project. Activities include written and oral critiques of published research, written summaries of oral research presentations, and composition of an individual research proposal. Prereq: Admission to (or eligibility for) the Honors Program in Communication Sciences and Disorders
General Education: COM B  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CS&D 503 Neural Mechanisms of Speech, Hearing and Language Credits: 3
Basic neuroanatomical and neurophysiological mechanisms underlying the communication process. Neuropathologies and their associated communication disorders. Prereq: Grad st in com dis or undergrad biol major with neurobiol option, or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CS&D 631 Introduction to Augmentative Communication Credits: 3
Overview of assistive technology applications for individuals with significant motor, cognitive, and/or perceptual disabilities. Emphasis is placed on augmentative and alternative communication, alternative access, seating and positioning and computer interface. Prereq: Jr st or cons inst
L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall

CS&D 681 Senior Honors Thesis Credits: 3
Prereq: Sr st & cons of dept hrs adv
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CS&D 682 Senior Honors Thesis Credits: 3
Prereq: Sr st & cons of dept hrs adv
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

CS&D 698 Directed Study Credits: 1 - 6
Cr/N. Prereq: Jr or Sr st. Graded on a Cr/N basis; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

CS&D 699 Directed Study Credits: 1 - 6
Program of reading devised by a staff member in collaboration with the student. Prereq: Jr or Sr st. Graded on a lettered basis; requires cons inst
L&S Level: Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
CS&D 702 Research Methods in Communication Sciences and Disorders Credits: 3
This course will introduce learners to research methods in communication sciences and disorders with the goal of producing clinicians and clinician-scientists who: (1) are conversant in and can use scientific principles in their daily lives research, and clinical practice; (2) evaluate scientific evidence as disseminated through multiple channels; (3) find and store research findings efficiently for use in clinical practice or research studies; and (4) understand and implement ethical use of human participants, animal subjects and responsible conduct of research principles in their careers. Prereq> Enrollment in the clin speech-lang pathology masters program or consent of instructor
Typically Offered: Occasionally

CS&D 703 Language and Learning Disorders of Children Credits: 3
Theoretical concepts of symbolic disorders with emphasis on variables which interfere with language learning and function. Prereq> Com Dis 440 or cons inst
L&S Level: Advanced Typically Offered: Occasionally

CS&D 704 Acquired Language and Cognitive-Communication Disorders in Adults Credits: 3
Intervention for adults with acquired aphasia and cognitive-communication disorders, including principles of evaluation and treatment. Prereq> Com Dis 503
Typically Offered: Occasionally

CS&D 705 Motor Speech Disorders/Augmentative and Alternative Communication Credits: 4
The nature and classification of motor speech disorders, and techniques and methods which provide non-speaking children and adults with effective means of interaction and communication. Prereq> Com Dis 503, 702, 703, Com Dis 631 or equiv
Typically Offered: Occasionally

CS&D 706 Management and Assessment of Voice Disorders Credits: 3
Techniques applicable to children and adults with disorders of voice, both functional and organic in origin. Lecture plus lab or observation. Prereq> Com Dis 318 or cons inst
Typically Offered: Occasionally

CS&D 707 Swallowing Disorders Credits: 2 - 3
Presents information on the anatomy, physiology, and neural bases of normal swallowing, the various diseases that can affect swallowing function, the nature of swallowing dysfunction and ways to assess it, and treatment options for patients with swallowing disorders. Prereq> Grad st and cons inst
Typically Offered: Occasionally

CS&D 708 Fluency and Phonological Disorders Credits: 3
An advanced course concerning the etiology, definition, diagnosis, and management of fluency and phonological disorders in children and adults. Prereq> 2nd yr st in masters progm in speech-lang pathology
Typically Offered: Occasionally

CS&D 709 Language Problems of School Age Children and Adolescents Credits: 3
A review of the contemporary literature relating to the language disorders of school age children and adolescents. Emphasis on description of disorders, assessment techniques, and intervention strategies. Prereq> Com Dis 640 & cons inst
Typically Offered: Occasionally

CS&D 712 Introduction to Clinical Methods Credits: 1
This is the first clinical methods course for entering speech-language pathology graduate students. The course provides learning opportunities to increase students’ knowledge and skills related to assessment and intervention of persons with communication disorders. It is a forum for discussion, reflection and practicing clinical skills. Prereq> None
Typically Offered: Fall

CS&D 713 Introduction to Medical Speech Pathology Credits: 1
The course content focuses on methods for participating in medical site speech pathology including professionalism, documentation, insurance, ethics, and counseling. Prereq> Com Dis 503, 702, 707, 708, and 790
Typically Offered: Spring
CS&D 714 School Methods and Procedures in Speech-Language Pathology Credits: 1
The course content focuses on evidence-based practices, assessment and evaluation frameworks, and clinical methods related to school services in speech-language pathology. Prereq> Com Dis 503, 702, 707, 708, and 790
Typically Offered: Fall

CS&D 750 Capstone Course: Communicative Disorders in Pediatric Populations Credits: 2
Designed to (1) facilitate students' integration of information about communication disorders in pediatric populations, (2) develop case presentation skills, and (3) offer students the opportunity to gain a better understanding of evidence-based practice. Prereq> Grad stdt in good standing, 2nd-yr masters stdt
Typically Offered: Occasionally

CS&D 752 Capstone Course: Communicative Disorders in Adults Credits: 2
Designed to (1) facilitate students' integration of information about communication disorders in adults, (2) develop case presentation skills, and (3) offer students the opportunity to gain a better understanding of evidence-based practice. Prereq> Grad stdt in good standing, 2nd-yr masters stdt
Typically Offered: Occasionally

CS&D 790 Practicum in Communicative Disorders Credits: 1 - 4
Supervised experience with persons manifesting communicative problems. Evaluation, rehabilitation, and conservation of hearing, language, and speech disorders in various clinical settings. Prereq> Grad st and cons inst; register for only 1 cr; Clinical Director authorizes any additional cr; sites on/off campus
Typically Offered: Occasionally

CS&D 799 Independent Study Credits: 1 - 6
See description for Com Dis 999. Prereq> Cons dept & cons inst
Typically Offered: Occasionally

CS&D 805 Professional Issues: Diversity and Multicultural Populations Credits: 1
Evaluation and management of persons with communication disorders across diverse cultural, personal values and beliefs. Prereq> Grad st, cons inst
Typically Offered: Occasionally

CS&D 806 Professional Issues: Medical Issues Credits: 1
Evaluation and management of persons with communication disorders within a medical setting. Information regarding various medical settings, ethics, functional goals, and documentation (e.g. billing, reporting, etc.).
Typically Offered: Occasionally

CS&D 815 Physiological Phonetics Credits: 3
For department doctoral students. Physiological aspects of speech production. Lecture plus lab. Prereq> Cons inst
Typically Offered: Occasionally

CS&D 816 Acoustical Phonetics Credits: 3
For department doctoral students. Acoustic aspects of speech production. Lecture plus lab. Prereq> Cons inst
Typically Offered: Occasionally

CS&D 832 Pediatric Audiology Credits: 3
Study of normal physical, social, cognitive, speech and language and auditory development in children, the causes and effects of childhood hearing loss, hearing screening and the principles of early intervention, and the behavioral and objective assessment of hearing in children. Prereq> Grad st & cons inst, Com Dis 850, 851, 852, 858
Typically Offered: Occasionally

CS&D 833 Occupational Audiology Credits: 2
Consideration of principles and issues regarding the effects of noise on people, of federal and state regulation of workplace noise, and of the practical aspects of hearing conservation for those exposed to occupational noise, non-occupational noise, or both. Prereq> Grad st, Com Dis 801,802, 821
Typically Offered: Occasionally

CS&D 834 Counseling in Audiology Credits: 2
Prereq> Grad st, Com Dis 821, 823, 832
Typically Offered: Occasionally
CS&D 835 Clinical Research Methods Credits: 3
Critical analysis of research in speech-language pathology and audiology including theoretical support, research design, statistical levels of measurement, methods of reporting research results, and drawing conclusions from the results. Students encouraged to pursue research interests. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 854
Typically Offered: Occasionally

CS&D 836 Pediatric Habilitation/Rehabilitation Credits: 3
Study of the principles and techniques of intervention with hearing impaired children, including the selection and fitting of amplification, the effect of hearing impairment on speech perception, production, and language, communication and educational options, and the re/habilitation of communication skills. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 856, 832, 863
Typically Offered: Occasionally

CS&D 837 Auditory and Vestibular Pathologies I Credits: 2
Survey of the most common peripheral auditory system pathologies and their presentation in the auditory evaluation. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 856, 858
Typically Offered: Occasionally

CS&D 845 The Human Balance System: Structure, Assessment, and Rehabilitation Credits: 2
Study of human balance function with emphasis on the vestibular system, including neurophysiology, testing, and rehabilitation. Clinical experience in electronystagmography (ENG) and videonystagmography (VNG), analysis of results, familiarization with rotational and posturography tests, and treatment techniques are included. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 860, 862
Typically Offered: Occasionally

CS&D 846 The Human Balance System: Laboratory Credits: 1
The focus will be on training the student to perform and analyze the results of electronystagmography (ENG) and videonystagmography (VNG) examinations, and practice the canalith repositioning maneuver. If possible, students will observe the administration of rotational and posturography tests. Prereq> Grad st, cons inst, Com Dis 850,851, 852, 860, 862, con reg in 845
Typically Offered: Occasionally

CS&D 847 Acoustics and Perception of Speech Credits: 2
A study of the processes underlying speech production and speech perception, and the effects of hearing loss on the processes. Acoustic features of speech, classical and contemporary theories of speech perception, and current research are discussed. Prereq> Grad st, cons inst, Com Dis 851, 854
Typically Offered: Occasionally

CS&D 849 Geriatric Audiology: Diagnosis and Rehabilitation Credits: 2
A study of basic theories of aging, anatomical and physiological effects of aging on the auditory and balance systems, and resulting communication difficulties associated with aging. The course emphasizes both the diagnostic and rehabilitative challenges in working with elderly patients. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 856, 862
Typically Offered: Occasionally

CS&D 850 Hearing Science I: Basic Acoustics and Psychoacoustics Credits: 3
Study of anatomy and physiology of the human auditory system, with an emphasis on the peripheral system. Basic concepts in psychoacoustics are discussed with reference to the normal and pathological auditory systems. Prereq> Grad st & cons inst, Com Dis 202, 320
Typically Offered: Occasionally

CS&D 851 Hearing Sci II: Advanced Topics in Hearing and Balance Credits: 3
Introduction to advanced concepts, theories, and experimental procedures related to psychphysics, anatomy and physiology of the auditory and vestibular systems. The focus is on central mechanisms of hearing and balance, and the role that these processes play in psychophysical phenomena. Prereq> Grad st, cons inst, con reg in Com Dis 850
Typically Offered: Occasionally
CS&D 852 Hearing Assessment Credits: 2
Familiarizes students with the bases, purpose, rationale and procedures for tests of auditory function, the importance of understanding auditory function and available evidence as bases for test selection and the importance of the objective(s) of diagnostic procedures. Prereq> Grad st & con reg in Com Dis 853
Typically Offered: Occasionally

CS&D 853 Hearing Assessment Laboratory Credits: 1
Familiarize students with the procedures for tests of auditory function, the importance of understanding auditory function and available evidence as bases for test selections and the importance of realizing the objective(s) forming the bases of diagnostic procedures. Prereq> Con reg in Com Dis 852
Typically Offered: Occasionally

CS&D 854 Electroacoustics and Instrument Calibration Credits: 2
Systematic review of physical concepts of acoustics and electronics underpinning the practice of audiology, as well as formally adopted standards by which clinical environments, instruments and procedures are calibrated. Prereq> Grad st, cons inst & con reg in Com Dis 855
Typically Offered: Occasionally

CS&D 855 Electroacoustics and Calibration Laboratory Credits: 1
Laboratory experience in electroacoustic measurement and calibration of examination spaces, test equipment, and amplification systems pertinent to the practice of audiology. Prereq> Grad st, con reg in Com Dis 854
Typically Offered: Occasionally

CS&D 856 Amplification Systems I Credits: 2
Study of the components and electroacoustic characteristics of hearing aids and assistive listening devices, as well as approaches for selecting the devices and verifying their fitting. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 853, 891, con reg in Com Dis 857
Typically Offered: Occasionally

CS&D 857 Laboratory in Amplification Systems I Credits: 1
Testing, fitting, and repairing hearing aids, performing basic hearing aid tests and repairs, proper cerumen removal and ear impression atechniques, and using appropriate strategies in fitting. Electroacoustic evaluation and use of probe microphone measures in hearing aid fitting. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 853, con reg in 856
Typically Offered: Occasionally

CS&D 858 Physiological Assessment in Audiology I Credits: 2
Study of concepts and procedures physiological assessment of the auditory system, with emphasis on otoacoustic emissions and auditory brainstem responses. Clinical applications and case studies integrate these recordings with behavioral assessment of the auditory system. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 853, con reg in 859
Typically Offered: Occasionally

CS&D 859 Laboratory in Physiological Assessment of the Auditory System I Credits: 1
Laboratory experience in the procedures and interpretation of physiological assessment of the auditory system, with the major emphasis on otoacoustic emissions and the auditory brainstem response. Prereq> Grad st, cons inst, con reg in Com Dis 858
Typically Offered: Occasionally

CS&D 860 Physiological Assessment in Audiology II Credits: 2
Advanced study of physiological measures used by audiologists in threshold and diagnostic evaluations, including acoustic immittance, middle and long latency auditory evoked potentials, and P300, and MMN. Course includes an introduction to evaluation of the balance system. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 853, 858, 859, con reg in 861
Typically Offered: Occasionally

CS&D 861 Laboratory in Physiological Assessment of the Auditory System II Credits: 1
Laboratory experience in objective measures used by audiologists for threshold and diagnostic evaluations, including acoustic immittance, middle and long latency auditory evoked potentials, P300, and MMN. Demonstrations, projects, and case studies prepare students to administer and interpret these tests. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 853, con reg in 860
Typically Offered: Occasionally
CS&D 862 Auditory and Vestibular Pathologies II Credits: 3
Major disorders of the auditory and vestibular systems, with an emphasis on differential diagnosis of disorders of the endorgans and neural systems and multisystem disorders. Casual factors, treatment, prognosis, and case studies are included. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 858, 837
Typically Offered: Occasionally

CS&D 863 Implantable Auditory Prostheses Credits: 2
The audiological management of severe to profound hearing loss using implantable auditory prostheses. This course will focus on cochlear implants, and will also provide an introduction to the auditory brainstem implant. Prereq> Grad st, cons inst, Com Dis 850, 851, 852
Typically Offered: Occasionally

CS&D 864 Auditory Processing Disorders Credits: 2
A study of auditory processing disorders in children and adults. This course will cover aspects of a multidisciplinary assessment of auditory processing and the variety of treatment methods. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 832
Typically Offered: Occasionally

CS&D 865 Practice Management Credits: 2
Consideration of non-profit and for-profit practice models with emphasis on organizational structure, legal and tax implications, financial performance, policies and practices of personnel management, marketing strategies, risk management and professional ethics. Prereq> Grad st, cons inst
Typically Offered: Occasionally

CS&D 866 Amplification Systems II Credits: 2
Strategies for fitting hearing aids, including selection and recommendation, use of prescription gain formulas, and verification of gain. Considerations in geriatric and pediatric hearing aid fitting and ethical issues. Basic techniques in determining patient satisfaction with hearing aids. Prereq> Grad st, cons inst, Com Dis 850, 851, 852, 854, 856
Typically Offered: Occasionally

CS&D 867 School Methods for Audiologists Credits: 1
Designed to fulfill Wisconsin's Department of Public Instruction (DPI) licensing requirements for audiologists. This course will help students apply their knowledge and skills in assessment and intervention of hearing related disorders to the public school setting. Prereq> Au.D. student or cons inst
Typically Offered: Fall

CS&D 891 Clerkship in Audiology I Credits: 1 - 3
An introductory, first year, practicum focusing on the acquisition of beginning skills in both screening and diagnostic audiology. It provides initial training in the use of audiometric instruments and software, patient interactions, and reporting procedures. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CS&D 892 Clerkship in Audiology II Credits: 1 - 3
This second year clerkship focuses on the physiologic assessment of the vestibular and the peripheral and central auditory systems. It also provides continued development of skills in the assessment of hearing and the implementation of treatment plans across all ages. Prereq> Com Dis 891
Typically Offered: Occasionally

CS&D 893 Clerkship in Audiology III Credits: 1 - 4
This third year clerkship provides opportunities to practice skills in settings outside of the university clinics. The goal is to advance all skills to the developing level so the student can perform assessments and treatment with less supervision. Prereq> Com Dis 892
Typically Offered: Occasionally

CS&D 894 Externship in Audiology Credits: 2 - 4
The externship year continues development of skills in assessment of hearing and implementation of treatment plans across all ages. The goal is to develop skills to the mastery level where the student can perform competently with a minimum of supervision. Prereq> Com Dis 893
Typically Offered: Occasionally
CS&D 899 Capstone Study in Audiology Credits: 1 - 3
Independent work on a capstone project under the supervision of a faculty member. Prereq> Grad st, cons inst
Typically Offered: Occasionally

CS&D 900 Seminar-Speech Science Credits: 2 - 3
Focus varies with staff. Various aspects of physiological and acoustic phonetics and of speech perception.
Prereq> Cons inst
Typically Offered: Occasionally

CS&D 913 Seminar-Problems in Voice Disorders Credits: 2 - 3
Symptomatology, etiology, diagnosis, and treatment of voice disorders with emphasis on current research
procedures and findings and consideration of special problems. Prereq> Cons inst
Typically Offered: Occasionally

CS&D 921 Seminar-Problems in Audiology Credits: 1 - 3
Current interests in areas of auditory evaluation, pathology or rehabilitation. Prereq> Cons inst
Typically Offered: Occasionally

CS&D 940 Seminar: Language Pathology-Children Credits: 2 - 3
Symbolic behavior of children who demonstrate language disorders regardless of etiology. Emphasis on
evaluation and therapeutic procedures. Prereq> Cons inst
Typically Offered: Occasionally

CS&D 945 Seminar: Language and Cognition Credits: 2 - 3
Relation of cognitive development to normal and deviant language acquisition and performance. Critical review of
theoretical approaches and experimental data. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CS&D 990 Research and Thesis Credits: 1 - 12
Under the supervision of a staff member. Prereq> Grad st & cons inst
Typically Offered: Occasionally

CS&D 999 Independent Studies Credits: 1 - 3
Creative project designed by the student and supervised by staff. Prereq> Grad st & cons inst
Typically Offered: Occasionally

COMPARATIVE LITERATURE

COMP LIT 201 Introduction to Pre-Modern Literatures/Impact on the Modern World Credits: 3
Critical study of pre-modern literatures from the ancient worlds to the Middle Ages; broad survey covering many
national literatures, stressing cross-cultural literary relations and their impact on the modern world. Prereq>
Open to Fr; not open to stdts who have taken Comp Lit 287
L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 202 Introduction to Modern and Contemporary Literature Credits: 3
Critical study of modern literature, from the 15th century to the 20th century; broad survey covering many national
literatures, stressing cross-cultural literary relations and including emergent literatures. Prereq> Open to Fr; not
open to stdts who have taken Comp Lit 288
L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 203 Introduction to Cross-Cultural Literary Forms Credits: 3
Introduction to the critical study of specific literary forms (e.g., comedy, short story) and the connections between
literary forms and other cultural and artistic phenomena (e.g., cinema, TV, music, visual arts). Prereq> This crse
is non-repeatable for comp lit majors. Open to Fr
L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 205 Intro to Comparative Study of Race & Ethnicity, In & Beyond the U.S. Credits: 3
Comparative analysis of the modern categories of race and ethnicity as they have developed and are understood
and practiced in diverse locations; course readings will include literary and non-literary texts and a 25% - 50%
focus on race and ethnicity in the U.S. Prereq> Satisfaction of or exemption from Comm A requirement. Open to Fr
Ethnic Studies: Yes  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring
COMP LIT 287 Masterpieces of Literature for Honors I Credits: 3 - 4
Critical study of basic literary texts from antiquity through the Middle Ages; dual emphasis on texts as complex discursive structures and as bearers of historically and socially conditioned ideologies. Prereq> Admission to hon prog or cons inst. Open to Fr; not open to stdts who have taken Comp Lit 207
General Education: COM B  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 288 Masterpieces of Literature for Honors II Credits: 3 - 4
Critical study of basic literary texts from the early modern period through the present; dual emphasis on texts as complex discursive structures and as bearers of historically and socially conditioned ideologies. Prereq> Admission to hon prog or cons inst. Open to Fr; not open to stdts who have taken Comp Lit 208
General Education: COM B  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 289 Introduction to Literary Forms for Honors Credits: 3 - 4
Comparative study of selected literary forms, their techniques, and the problems of their analysis and interpretation. Prereq> Admission to honors program or cons inst. Open to Fr
General Education: COM B  L&S Breadth: Literature  L&S Level: Elementary  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 310 Introduction to Literary Criticism Credits: 3 - 4
Critical methodologies of comparative literature. General theories of literature and distinct approaches to literary texts. Required for the major. Prereq> So st and 6 cr of intro lit or con reg. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Humanities  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring

COMP LIT 350 Problems in Comparative Literatures and Cultures Credits: 3 - 4
Comparative study - historical, theoretical, critical - of literatures and literary studies in their interaction with cultural themes, with social formations, with seminal concepts and ideas, with non-literary disciplines as they inform reading and analysis of literature. Prereq> Jr st or completion of 2 sem of lit
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 351 Lyric Credits: 3 - 4
Comparative study of lyric poetry as a genre; its history, social functions, and critical-theoretical discussion, and the problems of its analysis and interpretation. Prereq> Jr st or completion of 2 sem lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 353 Drama Credits: 3 - 4
Comparative study of tragedy, comedy, tragicomedy, farce, and/or musical-theatrical forms; attention to modes of action, dramatic language and the form of the play; and the problems of its critical analysis and interpretation. Prereq> Jr st or completion of 2 semesters of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 354 Novel and Short Story Credits: 3 - 4
Prose fiction and its varieties on a comparative basis; plot, characterization, and the relations of theme and setting in narrative. Prereq> Jr st or completion of 2 semesters of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 357 Fantasy and Science Fiction Credits: 3
Comparison of themes current in modern fantasy and science fiction writing with those found in literature of previous historical periods. Prereq> Six cr of literature or Jr st
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 358 Problems in Transnational Genre and Mode Credits: 3 - 4
Comparative study of the nature and substance of genre distinctions; relations between genre and mode in diverse literatures; critical analysis of texts in the context of literary distinctions of genre and mode - with attention to cross-cultural, transnational and historical perspectives. Prereq> Jr st or completion of 2 semesters of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
COMP LIT 368 Literature and Ideas Credits: 3 - 4
Historical, analytical and theoretical study of the impact and relevance of seminal concepts and ideas. Prereq: Jr st or completion of 2 sem of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 370 Comparative Problems in Periods and Movements Credits: 3 - 4
Comparative study of literatures of historical periods, international and inter-linguistic relations, flux of ideas, forms, styles; literary movements and trends, principles linking literary texts, their diversity and variation, their connection to relevant debates in aesthetics, philosophy, or other fields. Prereq: Jr st or completion of 2 sem of lit
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 371 Literary Criticism Credits: 3 - 4
Introduction to the basic trends and schools of literary criticism; in-depth study of representative critics from past centuries and from major contemporary schools. Prereq: Six cr of literature or cons inst. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 372 Literary Movements and Trends Credits: 3 - 4
Comparative study of literary movements and trends to define the principles uniting literary texts in a coherent group, while accounting for the breadth of individual or national variations. Connections are developed with relevant debates in aesthetics, philosophy, and other disciplines. Prereq: Jr st or completion of 2 sem of lit.
Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 375 Literature and Related Disciplines Credits: 3 - 4
Critical, analytical and theoretical examination of the methodological and practical application of non-literary disciplines to the study of literature in an international context. Prereq: Jr st or completion of 2 sem of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 377 Literary Periods Credits: 3 - 4
Comparative study of the literature of well-defined historical epochs in terms of international and interlinguistic relations, the flux of ideas, forms, and styles. Prereq: Jr st or completion of 2 sem of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 378 Literary Backgrounds Credits: 3 - 4
Comparative study of literary, historical, political and philosophical articulations of notions and ideas underlying particular literary tendencies. Prereq: Jr st or completion of 2 sem of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 379 Literature and Ethnic Experience Credits: 3 - 4
Attempts to define through comparative analysis the ways in which ethnicity is constructed and problematized in literary texts. Prereq: Jr st or completion of 2 sem of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 466 Literature, Media, the Arts Credits: 3 - 4
Comparative critical study of the theoretical and practical interactions of literature with the arts (music, fine art, plastic arts); with visual, material, or digital cultures; with the media - with attention to cross-cultural, transnational and historical perspectives. Prereq: Jr st or completion of 2 sem of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer

COMP LIT 473 Thematics Credits: 3 - 4
Comparative study of the creation and perpetuation of themes and motifs in different cultural contexts, and the problems of their analysis and interpretation in specific literary (and other) works. Prereq: Jr st or completion of 2 sem of lit. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature  L&S Level: Intermediate/Advanced  L&S Credit: Counts for LAS credit  Typically Offered: Fall, Spring, Summer
COMP LIT 475 Poetics and Literary Theory Credits: 3 - 4
Study of the changes and development of the systematics, theoretics, and mechanics of literary form and utterance. Prereq> Six cr of lit or cons inst. Lecture only: 3 cr; lecture and disc: 4 cr
L&S Breadth: Literature L&S Level: Intermediate/Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COMP LIT 500 The Comparative In and Beyond Comparative Literature Credits: 3
A bridge course on a wide range of comparative topics - literary, cultural, philosophical, historical, legal - between the Department of Comparative Literature and the departments of our affiliate faculty members. Open to advanced undergraduate and graduate students. Prereq> Jr St or cons inst
L&S Breadth: Literature L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP LIT 681 Senior Honors Thesis Credits: 3
Prereq> Permission of dept honors advisor
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

COMP LIT 682 Senior Honors Thesis Credits: 3
Prereq> Completion of 681 or cons dept honors advisor
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

COMP LIT 690 Proseminar Credits: 3
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP LIT 691 Senior Thesis Credits: 2 - 3
Prereq> Sr st, consult Undergrad advisor
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

COMP LIT 692 Senior Thesis Credits: 3
Prereq> Sr st, cons of Undergrad Advisor
L&S Breadth: Humanities L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Occasionally

COMP LIT 698 Directed Study Credits: 1 - 6
Prereq> Graded on a Cr/N basis; requires permission of dept chairman
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall

COMP LIT 699 Directed Study Credits: 1 - 6
Prereq> Graded on a lettered basis; requires permission of dept chrmn
L&S Level: Advanced L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COMP LIT 702 Problems in Comparative Studies Credits: 3
Comparative methods and the range of the discipline exposed through consideration of a variety of possible approaches. Prereq> Grad st or cons inst
Typically Offered: Occasionally

COMP LIT 731 Teaching in the Discipline Credits: 1
Seminar and practicum for teaching assistants in comparative literature and other graduate students in humanities interested in learning about comparative methodology and pedagogy. Prereq> Grad st
Typically Offered: Occasionally

COMP LIT 750 Problems in Comparative Literatures and Cultures Credits: 3
Comparative study - historical, theoretical, critical - of literatures and literary studies in their interaction with cultural themes, with social formations, with seminal concepts and ideas, with non-literary disciplines as they inform reading and analysis of literature. Prereq> Grad st or cons inst
Typically Offered: Fall, Spring, Summer

COMP LIT 768 Literature and Ideas Credits: 3
The history and impact of seminal concepts. Prereq> Grad st or cons inst
Typically Offered: Occasionally
COMP LIT 770 Comparative Problems in Periods and Movements Credits: 3
Comparative study of literatures of historical periods, international and inter-linguistic relations, flux of ideas, forms, styles; literary movements and trends, principles linking literary texts, their diversity and variation, their connection to relevant debates in aesthetics, philosophy, or other fields. Prereq: Grad st or cons inst
Typically Offered: Fall, Spring, Summer

COMP LIT 771 Literary Criticism Credits: 3
History, theory, and practice. Prereq: Grad st or cons inst
Typically Offered: Occasionally

COMP LIT 775 Literature and Related Disciplines Credits: 3
Attempts to answer the question: What can the methods and discoveries of other disciplines contribute to the study of literature? Prereq: Grad st or cons inst
Typically Offered: Occasionally

COMP LIT 777 Literary Periods Credits: 3
Attempts to characterize the literature of well-defined historical epochs in terms of international and interlinguistic relations, the flux of ideas, forms, and styles. Prereq: Grad st or cons inst
Typically Offered: Occasionally

COMP LIT 778 Literary Backgrounds Credits: 3
Literary, historical, philosophical, political, and/or cultural roots of given tendencies. Prereq: Grad st or cons inst
Typically Offered: Occasionally

COMP LIT 779 Literature and the Group Experience Credits: 3
Attempts to define through illustration and analysis the ways in which a group or enclave defines itself through its literary utterance. Prereq: Grad st
Typically Offered: Occasionally

COMP LIT 822 Seminar-Translation Credits: 3
The theory and practice of translation. Prereq: Grad st
Typically Offered: Occasionally

COMP LIT 958 Seminar: Problems in Transnational Genre and Mode Credits: 3
Comparative study of the nature and substance of genre distinctions; of the relations between genre and mode in diverse literatures; of the critical analysis of texts in the context of literary distinctions of genre and mode - with attention to cross-cultural, transnational and historical perspectives. Prereq: Grad st
Typically Offered: Occasionally

COMP LIT 963 Seminar in Roots and Ramifications Credits: 3
Major sources and principal followers of a single figure, without regard to national or linguistic boundaries. Prereq: Grad st
Typically Offered: Occasionally

COMP LIT 966 Seminar-Literature, Media, the Arts Credits: 3
Comparative critical study of the theoretical and practical interactions of literature with the arts (music, fine art, plastic arts); with visual, material, or digital cultures; with the media - with attention to cross-cultural, transnational and historical perspectives. Prereq: Grad st
Typically Offered: Occasionally

COMP LIT 975 Seminar-Poetics and Literary Theory Credits: 3
Systematics, theoretics, and mechanics of literary form. Prereq: Grad st
Typically Offered: Occasionally

COMP LIT 976 Seminar in Poetics (Polyseminar) Credits: 2
Systematics, theoretics, and mechanics of literary form. Prereq: Grad st
Typically Offered: Occasionally

COMP LIT 990 Research and Thesis Credits: 1 - 12
Consult department chairperson. Prereq: Grad st, cons advisor
Typically Offered: Occasionally
COMP LIT 999 Independent Work Credits: 1 - 3
Consult department chairperson. Prereq> Grad st; cons advisor
Typically Offered: Occasionally

COMPUTER SCIENCES

COMP SCI 202 Introduction to Computation Credits: 3
An introduction to the principles that form the foundation of computer science. Suitable for students with a general background who wish to study the key principles of computer science rather than just computer programming. Prereq> Open to Fr
General Education: QR-A L&S Breadth: Natural Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 240 Introduction to Discrete Mathematics Credits: 3
Basic concepts of logic, sets, partial order and other relations, and functions. Basic concepts of mathematics (definitions, proofs, sets, functions, and relations) with a focus on discrete structures: integers, bits, strings, trees, and graphs. Propositional logic, Boolean algebra, and predicate logic. Mathematical induction and recursion. Invariants and algorithmic correctness. Recurrences and asymptotic growth analysis. Fundamentals of counting. Prereq> Math 221 L&S Breadth: Natural Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 250 Digital Society: The Impact of Computers and Computer Technology Credits: 3
Introduction to computers in the digital society; social changes they influence, and choices they present. Topics include: digital divide, role of computers in improving quality of life, electronic voting and governance, digital intellectual property rights, privacy, computers and the environment. Prereq> Open to Fr L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 252 Introduction to Computer Engineering Credits: 2
Logic components built with transistors, rudimentary Boolean algebra, basic combinational logic design, basic synchronous sequential logic design, basic computer organization and design, introductory machine- and assembly-language programming. Prereq> Open to Freshmen L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 270 Fundamentals of Human-Computer Interaction Credits: 3
User-centered software design including principles and methods for understanding user needs, designing and prototyping interface solutions, and evaluating their usability covered through lectures, hands-on in-class activities, and week-long assignments. Meets with Comp Sci 570. Prereq> May not receive credit for both Comp Sci 270 and Comp Sci 570. L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Spring

COMP SCI 298 Directed Study in Computer Science Credits: 1 - 3
Undergraduate directed study in computer sciences. Prereq> Open to Fr L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 301 Introduction to Data Programming Credits: 3
Instruction and experience in the use of a programming language for beginners. Program design; development of good programming style. No previous computing experience required. Recommended for non-CS and undecided majors. Prereq> Not open to students who have completed CS 302. Satisfied Quantitative Reasoning (QR) A requirement. General Education: QR-B L&S Breadth: Natural Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COMP SCI 302 Introduction to Programming Credits: 3
Instruction and experience in the use of an object-oriented programming language. Program design; development of good programming style; preparation for other computer science courses. Prereq> Satisfied Quantitative Reasoning (QR) A requirement. General Education: QR-B L&S Breadth: Natural Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer
COMP SCI 304 WES-CS Group Meeting Credits: 0 - 1
Small group meetings for Wisconsin Emerging Scholars - Computer Science (WES-CS) students. Meets for two hours each week in small groups to work together on problems related to the Comp Sci 302 course material. Prereq> Concurrent registration in Comp Sci 302 & membership in WES-CS. Open to Freshmen L&S Level: Elementary Typically Offered: Fall, Spring

COMP SCI 310 Problem Solving Using Computers Credits: 3
Gives students an introduction to computer and analytical skills to use in their subsequent course work and professional development. Discusses several methods of using computers to solve problems, including elementary programming techniques, symbolic manipulation languages, and software packages. Techniques will be illustrated using sample problems drawn from elementary engineering. Emphasis is on introduction of algorithms with the use of specific tools to illustrate the methods. Prereq> Math 222 L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 352 Digital System Fundamentals Credits: 3
Logic components, Boolean algebra, combinational logic analysis and synthesis, synchronous and asynchronous sequential logic analysis and design, digital subsystems, computer organization and design. Prereq> Comp Sci/ECE 252 General Education: QR-B L&S Breadth: Physical Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COMP SCI 354 Machine Organization and Programming Credits: 3
An introduction to computer organization using assembly and machine language. Number representation, computer arithmetic, instruction sets, I/O interrupts, and programming interrupts. Projects involve detailed study and use of a specific computer hardware and software system. Prereq> Comp Sci 302 & ECE/Comp Sci 252 General Education: QR-B L&S Breadth: Natural Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 367 Introduction to Data Structures Credits: 3
Study of data structures (including stacks, queues, trees, graphs, and hash tables) and their applications. Development, implementation, and analysis of efficient data structures and algorithms (including sorting and searching). Experience in use of an object-oriented programming language. Prereq> Comp Sci 302 or cons inst. Stdts are strongly encouraged to take Comp Sci 367 within two semesters of having taken Comp Sci 302 General Education: QR-B L&S Breadth: Natural Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COMP SCI 368 Learning a Programming Language Credits: 1
For students interested in learning a particular programming language. Each 1-credit course focuses on a specific language offered at one of three levels: beginner, intermediate, and advanced. Prereq> Students may not receive credit twice for the same language at the same level. L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 369 Web Programming Credits: 3
Covers web application development end-to-end: languages and frameworks for client- and server-side programming, database access, and other topics. Involves hands-on programming assignments. Students attain a thorough understanding of and experience with writing web applications using tools popular in industry. Prereq> Comp Sci 367 or substantial progm exper & cons inst. Open to Fr L&S Breadth: Natural Science L&S Level: Elementary L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 371 Technology of Computer-Based Business Systems Credits: 3
Overview of computers, their attendant technology, and the implications of this technology for large-scale, computer-based information systems. Topics include hardware, system software, program development, files and data communications. Prereq> Comp Sci 302 or cons inst L&S Breadth: Social Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COMP SCI 402 Introducing Computer Science to K-12 Students Credits: 2
Work in teams to lead Computer Science clubs and workshops for K-12 students at sites in the Madison area. Design and lead activities to help K-12 students learn computational thinking and computer programming. Prereq> Any course Computer Sciences (e.g., Comp Sci 202, Comp Sci 302, Comp Sci 310) L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring
COMP SCI 407 Foundations of Mobile Systems and Applications Credits: 3
Design and implementation of applications, systems, and services for mobile platforms with (i) constraints, such as limited processing, memory, energy, interfaces, variable bandwidth, and high mobility, and (ii) features, such as touchscreens, cameras, electronic compasses, GPS, and accelerometers. Prereq> Comp Sci 367 or equiv, or cons inst
L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring

COMP SCI 412 Introduction to Numerical Methods Credits: 3
Interpolation, solution of linear and nonlinear systems of equations, approximate integration and differentiation, numerical solution of ordinary differential equations. Prereq> Math 222 & either Comp Sci 240 or Math 234, & Comp Sci 302, or equiv, & knowledge of matrix algebra. Credit will not be given for both Comp Sci 412 & 416
L&S Breadth: Natural Science L&S Level: Intermediate L&S Credit: Counts for LAS credit Typically Offered: Fall, Spring, Summer

COMP SCI 416 Foundations of Scientific Computing Credits: 3
Basic techniques for scientific computing, including fundamentals of linear algebra and numerical linear algebra, rootfinding, floating-point arithmetic, interpolations and splines, linear and quadratic programming. Prereq> Math 222 & either Comp Sci 240 or Math 234, & Comp Sci 302, or equiv. Credit will not be given for both Comp Sci 412 & 416
